we examine its rules requiring that consumer warranties contain certain information and that this information be made available to buyers before the sale. Any failure to comply with these rules violates § 5 of the FTC Act and may trigger commission action. In addition, either the FTC or the attorney general may sue to obtain injunctive relief against such violations.

Required Warranty Information The Magnuson-Moss Act and its regulations require the simple, clear, and conspicuous presentation of certain information in written warranties to consumers for consumer products costing more than \$15. That information includes (1) the persons protected by the warranty when coverage is

limited to the original purchaser or is otherwise limited; (2) the products, parts, characteristics, components, or properties covered by the warranty; (3) what the warrantor will do in case of a product defect or other failure to conform to the warranty; (4) the time the warranty begins (if different from the purchase date) and its duration; and (5) the procedure the consumer should follow to obtain the performance of warranty obligations. The act also requires that a warrantor disclose (1) any limitations on the duration of implied warranties; and (2) any attempt to limit consequential damages or other consumer remedies.

Presale Availability of Warranty Information The regulations accompanying Magnuson-Moss also contain detailed rules requiring that warranty terms be made available to a buyer before the sale. These rules generally govern sales to consumers of consumer products costing more than \$15. They set out certain duties that must be met by sellers (usually retailers) and warrantors (usually manufacturers) of such products. For example:

1. *Sellers* must make the text of the warranty available for the prospective buyer's review before the sale, either by displaying the warranty in close proximity to the product or by furnishing the warranty upon request after posting signs informing buyers of its availability.
2. *Catalog or mail-order sellers* must clearly and conspicuously disclose in their catalog or solicitation either the full text of the warranty or the address from which a free copy can be obtained.
3. *Warrantors* must give sellers the warranty materials necessary for them to comply with the duties stated above.

Truth in Lending Act When Congress passed the Truth in Lending Act (TILA) in 1968, its main aims were to increase consumer knowledge and understanding of credit terms by compelling their *disclosure*, and to help consumers shop for credit by commanding *uniform* disclosures. Now, however, the TILA protects consumers in other ways as well.

Coverage The TILA generally applies to creditors who extend consumer credit to a debtor in an amount not exceeding \$25,000.⁵ A *creditor* is a party who regularly

extends consumer credit. Examples include banks, credit card issuers, and savings and loan associations. Extending credit need not be a creditor's primary business. For instance, auto dealers and retail stores are creditors if they regularly extend credit. To qualify as a creditor, the party in question must also either impose a finance charge or by agreement require payment in more than four installments. *Consumer credit* is credit enabling the purchase of goods, services, or real estate used primarily for personal, family, or household purposes—not business or agricultural purposes. The TILA *debtor* must be a natural person; the act does not protect business organizations.

Disclosure Provisions The TILA's detailed disclosure provisions break down into three categories.

1. *Open-end credit.* The TILA defines an open-end credit plan as one that contemplates repeated transactions and involves a finance charge that may be computed on the unpaid balance. Examples include credit card plans and revolving charge accounts offered by retail stores. Open-end credit plans require two forms of disclosure: (1) an *initial statement* made before the first transaction under the plan; and (2) a series of *periodic statements* (usually, one for each billing cycle).

Among the disclosures required in the initial statement are (1) when a finance charge is imposed and how it is determined; (2) the amount of any additional charges and the method for computing them; (3) the fact that the creditor has taken or will acquire a security interest in the debtor's property; and (4) the debtor's billing rights. Periodic statements require an even lengthier set of disclosures. Much of the information contained in a monthly credit card statement, for example, is compelled by the TILA.

2. *Closed-end credit.* The TILA requires a different set of disclosures for other credit plans, which generally involve closed-end credit. Closed-end credit such as a car loan or a consumer loan from a finance company is extended for a specific time period; the total amount financed, number of payments, and due dates are all agreed on at the time of the transaction. Examples of the disclosures necessary before the completion of a closed-end credit transaction include (1) the total finance charge; (2) the annual percentage rate (APR); (3) the amount financed; (4) the total number of payments, their due dates, and the amount of each payment; (5) the total dollar value of all payments; (6) any late charges imposed for past-due payments; and (7) any security interest taken by the creditor and the property that the security interest covers.

⁵The \$25,000 maximum does not apply where a creditor takes a security interest in a debtor's real property or in personal property, such as a mobile home, used as the debtor's principal dwelling. Here, the disclosure rules differ slightly from the rules for closed-end credit discussed shortly. In certain transactions of this kind, moreover, the debtor has a three-day rescission right whose details are beyond the scope of this text.

3. *Credit card applications and solicitations.* The TILA imposes disclosure requirements on credit card applications and solicitations. These elaborate requirements differ depending on whether the application or solicitation is made by direct mail, telephone, or other means such as catalogs and magazines. To take just one example, direct mail applications and solicitations must include information about matters such as the APR, annual fees, the grace period for paying without incurring a finance charge, and the method for computing the balance on which the finance charge is based.

Other TILA Provisions The TILA has provisions dealing with *consumer credit advertising*. For example, the act prevents a creditor from “baiting” customers by advertising loan or down payment amounts that it does not usually make available. To help consumers put advertised terms in perspective, if ads for open-end consumer credit plans state any of the plan’s specific terms, they must state various other terms as well. For instance, an advertisement using such terms as “\$100 down payment,” “6 percent interest,” or “\$99 per month” must also state other relevant terms such as the APR.

The TILA also regulates *open-end consumer credit plans involving an extension of credit secured by a consumer’s principal dwelling*—e.g., the popular home equity loans. The act controls *advertisements* for such plans, requiring certain information such as the APR if the ad states any specific terms and forbidding misleading terms such as “free money.” It also imposes elaborate disclosure requirements on *applications* for such plans. These include matters such as interest rates, fees, repayment options, minimum payments, and repayment periods. The act also controls the *terms* of such a plan and the *actions* a creditor may take under it. For example: (1) if the plan involves a variable interest rate, the “index rate” to which changes in the APR are pegged must be based on some publicly available rate and must not be under the creditor’s control; and (2) a creditor cannot unilaterally terminate the plan and require immediate repayment of the outstanding balance unless a consumer has made material misrepresentations, has failed to repay the balance, or has adversely affected the creditor’s security.

Finally, the TILA includes rules concerning *credit cards*. The most important such rule limits a cardholder’s liability for unauthorized use of the card to a maximum of \$50.

Enforcement Various federal agencies enforce the TILA. Except in areas committed to a particular agency,

overall enforcement authority rests in the FTC. Those who willfully and knowingly violate the act may face criminal prosecution. Civil actions by private parties, including class actions, are also possible.

Fair Credit Reporting Act The reports credit bureaus provide may significantly affect one’s ability to obtain credit, insurance, employment, and many of life’s other goods. Often, affected individuals are unaware of the influence that credit reports had on such decisions. The Fair Credit Reporting Act (FCRA) was enacted in 1970 to give people protection against abuses in the process of disseminating information about their creditworthiness.

Duties of Consumer Reporting Agencies The FCRA imposes certain duties on consumer reporting agencies—agencies that regularly compile credit-related information on individuals for the purpose of furnishing consumer credit reports to users. A consumer reporting agency must adopt *reasonable procedures* to:

1. Ensure that *users employ* the information only for the following purposes: consumer credit sales, employment evaluations, the underwriting of insurance, the granting of a government license or other benefit, or any other business transaction where the user has a legitimate business need for the information.
2. Avoid including in a report *obsolete information* pre-dating the report by more than a stated period. This period usually is 7 years; for a prior bankruptcy, it is 10 years. This duty does not apply to credit reports used in connection with certain life insurance policies, large credit transactions, and applications for employment.
3. Ensure *maximum possible accuracy* regarding the personal information in credit reports. However, the act does little to limit the *types* of data included in credit reports. In fact, all kinds of information about a person’s character, reputation, personal traits, and mode of living seemingly are permitted. However, medical information cannot be included without consent from the relevant consumer.

Duties of Users The FCRA also imposes disclosure duties on *users* of credit reports—mainly credit sellers, lenders, employers, and insurers. One of these duties applies to users who order an *investigative consumer report*. This is a credit report that includes information on a person’s character, reputation, personal traits, or mode of living and is based on interviews with neighbors,

friends, associates, and the like. If a user procures such a report on a person, it must inform him that the report has been requested, that the report may contain sensitive information, and that he has a right to obtain further disclosures about the user's investigation. If the person requests such disclosures within a reasonable time, the user must reveal the nature and scope of the investigation.

Another disclosure duty arises when, because of information contained in any credit report, a user (1) rejects an applicant for consumer credit, insurance, or employment; or (2) charges a higher rate for credit or insurance. Here, the user must maintain reasonable procedures for advising the affected individual that it relied on the credit report in making its decision and for stating the name and address of the consumer reporting agency that supplied the report. The *Safeco Insurance* case, which follows shortly, deals with issues surrounding this notice requirement.

Disclosure and Correction of Credit Report Information After a request from a properly identified individual, a *consumer reporting agency* must normally disclose to that individual (1) the nature and substance of all its information about the individual; (2) the sources of this information; and (3) the recipients of any credit reports that it has furnished within certain time periods. Then, a person disputing the completeness or accuracy of the agency's information can compel it to reinvestigate.

The credit bureau must delete the information from the person's file if it finds the information to be inaccurate or unverifiable. An individual who is not satisfied with the agency's investigation may file a brief statement setting forth the nature of her dispute with the agency. If so, any subsequent credit report containing the disputed information must note that it is disputed and must provide either the individual's statement or a clear and accurate summary of it. An agency may also be required to notify certain prior recipients of deleted, unverifiable, or disputed information if the individual requests this. However, there is no duty to investigate or to include the consumer's version of the facts if the credit bureau has reason to believe that the individual's request is frivolous or irrelevant.

Enforcement Violations of the FCRA are violations of FTC Act § 5; the commission may use its normal enforcement procedures in such cases. Other federal agencies may also enforce the FCRA in certain situations. The FCRA establishes criminal penalties for persons who knowingly and willfully obtain consumer information from a credit bureau under false pretenses. Criminal liability may also be imposed on credit bureau officers or employees who knowingly or willfully provide information to unauthorized persons. In addition, violations of the FCRA may trigger private civil suits against consumer reporting agencies and users.

Safeco Insurance Co. of America v. Burr 127 S. Ct. 2201 (U.S. Sup. Ct. 2007)

Congress enacted the Fair Credit Reporting Act (FCRA) in 1970 to ensure fair and accurate credit reporting, promote efficiency in the banking system, and protect consumer privacy. The FCRA requires, among other things, that "any person [who] takes any adverse action with respect to any consumer that is based in whole or in part on any information contained in a consumer report" must notify the affected consumer. 15 U.S.C. § 1681m(a). The FCRA defines "consumer report" as "any written, oral, or other communication of any information by a consumer reporting agency bearing on a consumer's credit worthiness, credit standing, [or] credit capacity . . . which is used or expected to be used or collected in whole or in part for the purpose of serving as a factor in establishing the consumer's eligibility for . . . credit or insurance to be used primarily for personal, family, or household purposes." § 1681a(d)(1). The notice of adverse action must point out that action, must explain how to reach the agency that reported on the consumer's credit, and must tell the consumer that he can get a free copy of the report and dispute its accuracy with the agency. § 1681m(a). As it applies to an insurance company, "adverse action" is "a denial or cancellation of, an increase in any charge for, or a reduction or other adverse or unfavorable change in the terms of coverage or amount of, any insurance, existing or applied for." § 1681a(k)(1)(B)(i).

The FCRA provides a private right of action against businesses that use consumer reports but fail to comply with the statute's requirements. If a violation is negligent in nature, the affected consumer is entitled to actual damages. § 1681o(a). If the violation is willful, however, the consumer may be entitled to added monetary relief, including punitive damages. § 1681n(a).

GEICO Corp. writes auto insurance through four subsidiaries: GEICO General, which sells "preferred" policies at low rates to low-risk customers; Government Employees, which also sells "preferred" policies, but only to government employees;

GEICO Indemnity, which sells standard policies to moderate-risk customers; and GEICO Casualty, which sells nonstandard policies at higher rates to high-risk customers. (For purposes of convenience, the four subsidiaries are referred to here as GEICO.) An applicant seeking insurance from GEICO calls a toll-free number answered by a GEICO employee, who takes information and, with the applicant's permission, obtains the applicant's credit score from a credit reporting firm. (The FCRA defines a "credit score" as "a numerical value or a categorization derived from a statistical tool or modeling system used by a person who makes or arranges a loan to predict the likelihood of certain credit behaviors, including default.") The information, including the credit score, goes into GEICO's computer system, which selects the appropriate company and the particular rate at which a policy may be issued.

For some time after the FCRA went into effect, GEICO sent adverse action notices to all applicants who were not offered "preferred" policies from GEICO General or Government Employees. GEICO changed its practice, however, after a method to "neutralize" an applicant's credit score was devised. Under the neutralization method, the applicant's company and tier placements are compared with the company and tier placements he would have been assigned with a "neutral" credit score—that is, one calculated without reliance on the applicant's credit history. Under this new scheme, GEICO sends an adverse action notice only if using a neutral credit score would have put the applicant in a lower-priced tier or company. The applicant is not otherwise told if he would have received better terms with a better credit score.

Ajene Edo applied for auto insurance with GEICO. After obtaining Edo's credit score, GEICO offered him a standard policy with GEICO Indemnity (at rates higher than the most favorable), which he accepted. Because Edo's company and tier placement would have been the same with a neutral score, GEICO did not give Edo an adverse action notice. Edo later sued GEICO, alleging willful failure to give notice in violation of § 1681m(a) and seeking damages—including punitive damages—under § 1681n(a). A federal district court granted summary judgment for GEICO, concluding that there was no adverse action when "the premium charged to [Edo] . . . would have been the same even if GEICO Indemnity did not consider information in [his] consumer credit history."

As does GEICO, Safeco Insurance Co of America relies on credit reports to set initial insurance premiums. After considering their credit reports, Safeco offered insurance applicants Charles Burr and Shannon Massey higher rates than the best rates possible. Safeco sent them no adverse action notices. Burr and Massey later sued Safeco, alleging willful violation of § 1681m(a) and seeking damages under § 1681n(a). A federal district court granted summary judgment to Safeco, reasoning that offering a single, initial rate for insurance cannot be "adverse action."

The U.S. Court of Appeals for the Ninth Circuit reversed the judgments in both of the cases described above. In the case against GEICO, the Ninth Circuit held that whenever a consumer "would have received a lower rate for his insurance had the information in his consumer report been more favorable, an adverse action has been taken against him." Because a better credit score would have placed Edo with GEICO General, not GEICO Indemnity, the appeals court held that GEICO's failure to give notice was an adverse action. The Ninth Circuit also held that an insurer "willfully" fails to comply with FCRA if it acts with "reckless disregard" of a consumer's rights under the statute—a conclusion inconsistent with the position taken by certain other federal courts of appeal. The Ninth Circuit remanded the case to the district court for further proceedings concerning whether GEICO acted with reckless disregard.

In the case against Safeco, the Ninth Circuit reversed the district court's decision by relying on its (the Ninth Circuit's) reasoning in the case against GEICO (where it had held that the notice requirement applies to a single statement of an initial charge for a new policy). The Ninth Circuit also remanded the case to the district court for further proceedings on the issue of whether Safeco willfully violated the FCRA. The Supreme Court granted the petitions for certiorari in both cases and consolidated the cases for purposes of disposition.

Souter, Justice

We . . . granted certiorari to resolve a conflict [among the various federal courts of appeal] as to whether § 1681n(a) reaches reckless disregard of the FCRA's obligations, and to clarify the notice requirement in § 1681m(a).

GEICO and Safeco argue that liability under § 1681n(a) for "willfully fail[ing] to comply" with the FCRA goes only to acts known to violate the Act, not to reckless disregard of statutory

duty, but we think they are wrong. [W]here willfulness is a statutory condition of civil liability, we have generally taken it to cover not only knowing violations of a standard, but reckless ones as well. [Case citations omitted.] This construction reflects common law usage, which treated actions in reckless disregard of the law as willful violations. The standard civil usage thus counsels reading the phrase "willfully fails to comply" in § 1681n(a) as reaching reckless FCRA violations.

Before getting to the claims that the companies acted recklessly, we have the antecedent question whether either company violated the adverse action notice requirement at all. In both cases, respondent-plaintiffs' claims are premised on initial rates charged for new insurance policies, which are not "adverse" actions unless quoting or charging a first-time premium is "an increase in any charge for . . . any insurance, existing or applied for." § 1681a(k)(1)(B)(i).

In Safeco's case, the district court held that the initial rate for a new insurance policy cannot be an "increase" because there is no prior dealing. The phrase "increase in any charge for . . . insurance" is readily understood to mean a change in treatment for an insured, which assumes a previous charge for comparison. Since the district court understood "increase" to speak of change just as much as of comparative size or quantity, it reasoned that the statute's "increase" never touches the initial rate offer, where there is no change.

The Government takes the [position] of the Court of Appeals in construing "increase" to reach a first-time rate. It says that regular usage of the term is not as narrow as the district court thought: the point from which to measure difference can just as easily be understood without referring to prior individual dealing. The Government gives the example of a gas station owner who charges more than the posted price for gas to customers he doesn't like; it makes sense to say that the owner increases the price and that the driver pays an increased price, even if he never pulled in there for gas before. The Government implies, then, that reading "increase" requires a choice, and the chosen reading should be the broad one in order to conform to what Congress had in mind.

We think the Government's reading has the better fit with the ambitious objective set out in the FCRA's statement of purpose, which uses expansive terms to describe the adverse effects of unfair and inaccurate credit reporting and the responsibilities of consumer reporting agencies. The descriptions of systemic problem and systemic need as Congress saw them do nothing to suggest that remedies for consumers placed at a disadvantage by unsound credit ratings should be denied to first-time victims, and the legislative histories of FCRA's original enactment and [a 1996] amendment reveal no reason to confine attention to customers and businesses with prior dealings. Finally, there is nothing about insurance contracts to suggest that Congress might have meant to differentiate applicants from existing customers when it set the notice requirement; the newly insured who gets charged more owing to an erroneous report is in the same boat with the renewal applicant. We therefore hold that the "increase" required for "adverse action," 15 U.S.C. § 1681a(k)(1)(B)(i), speaks to a disadvantageous rate even with no prior dealing; the term reaches initial rates for new applicants.

Although offering the initial rate for new insurance can be an "adverse action," respondent-plaintiffs have another hurdle to clear, for § 1681m(a) calls for notice only when the adverse action is "based in whole or in part on" a credit report. GEICO argues that in order to have adverse action "based on" a credit report, consideration of the report must be a necessary condition for the increased rate. The Government and respondent-plaintiffs do not explicitly take a position on this point.

To the extent there is any disagreement on the issue, we accept GEICO's reading. In common talk, the phrase "based on" indicates a but-for causal relationship and thus a necessary logical condition. Under this most natural reading of § 1681m(a), then, an increased rate is not "based in whole or in part on" the credit report unless the report was a necessary condition of the increase.

To sum up [what has been determined so far], the difference required for an increase can be understood without reference to prior dealing (allowing a first-time applicant to sue), and considering the credit report must be a necessary condition for the difference. The remaining step in determining a duty to notify in cases like these is identifying the benchmark for determining whether a first-time rate is a disadvantageous increase. The Government and respondent-plaintiffs argue that the baseline should be the rate that the applicant would have received with the best possible credit score, while GEICO contends it is what the applicant would have had if the company had not taken his credit score into account (the "neutral score" rate GEICO used in Edo's case). We think GEICO has the better position, primarily because its "increase" baseline is more comfortable with the understanding of causation just discussed, which requires notice under § 1681m(a) only when the effect of the credit report on the initial rate offered is necessary to put the consumer in a worse position than other relevant facts would have decreed anyway. Congress was more likely concerned with the practical question whether the consumer's rate actually suffered when the company took his credit report into account than the theoretical question whether the consumer would have gotten a better rate with perfect credit.

The Government objects that this reading leaves a loophole, since it keeps first-time applicants who actually deserve better-than-neutral credit scores from getting notice, even when errors in credit reports saddle them with unfair rates. This is true; the neutral-score baseline will leave some consumers without a notice that might lead to discovering errors. But we do not know how often these cases will occur, whereas we see a more demonstrable and serious disadvantage inhering in the Government's position.

Since the best rates (the Government's preferred baseline) presumably go only to a minority of consumers, adopting the

Government's view would require insurers to send slews of adverse action notices; every young applicant who had yet to establish a gilt-edged credit report, for example, would get a notice that his charge had been "increased" based on his credit report. We think that the consequence of sending out notices on this scale would undercut the obvious policy behind the notice requirement, for notices as common as these would take on the character of formalities, and formalities tend to be ignored. It would get around that new insurance usually comes with an adverse action notice, owing to some legal quirk, and instead of piquing an applicant's interest about the accuracy of his credit record, the commonplace notices would mean just about nothing and go the way of junk mail. Assuming that Congress meant a notice of adverse action to get some attention, we think the cost of closing the loophole would be too high.

In GEICO's case, the initial rate offered to Edo was the one he would have received if his credit score had not been taken into account. GEICO [therefore] owed him no adverse action notice under § 1681m(a). Safeco did not give Burr and Massey any notice because it thought § 1681m(a) did not apply to initial applications, a mistake that left the company in violation of the statute if Burr and Massey received higher rates "based in whole or in part" on their credit reports; if they did, Safeco would be liable to them on a showing of reckless conduct (or worse). The first issue we can forget, however, for although the record does not reliably indicate what rates they would have obtained if their credit reports had not been considered, it is clear enough that if Safeco did violate the statute, the company was not reckless in falling down in its duty.

While "the term recklessness is not self-defining," the common law has generally understood it in the sphere of civil liability as conduct violating an objective standard: action entailing "an unjustifiably high risk of harm that is either known or so obvious that it should be known." [Case citation omitted.] The *Restatement (Second) of Torts*, for example, defines reckless disregard of a person's physical safety this way:

The actor's conduct is in reckless disregard of the safety of another if he does an act or intentionally fails to do an act which it is his duty to the other to do, knowing or having reason to know of facts which would lead a reasonable man to realize, not only that his conduct creates an unreasonable risk of physical harm to another, but also that such risk is

substantially greater than that which is necessary to make his conduct negligent.

It is this high risk of harm, objectively assessed, that is the essence of recklessness at common law.

There being no indication that Congress had something different in mind, we have no reason to deviate from the common law understanding in applying the statute. Thus, a company subject to the FCRA does not act in reckless disregard of it unless the action is not only a violation under a reasonable reading of the statute's terms, but shows that the company ran a risk of violating the law substantially greater than the risk associated with a reading that was merely careless.

Here, there is no need to pinpoint the negligence/recklessness line, for Safeco's reading of the statute, albeit erroneous, was not objectively unreasonable. On the rationale that "increase" presupposes prior dealing, Safeco took the definition as excluding initial rate offers for new insurance, and so sent no adverse action notices to Burr and Massey. While we disagree with Safeco's analysis, we recognize that its reading has a foundation in the statutory text, and a sufficiently convincing justification to have persuaded the district court to adopt it and rule in Safeco's favor.

This is not a case in which the business subject to the Act had the benefit of guidance from the courts of appeals or the Federal Trade Commission (FTC) that might have warned it away from the view it took. Before these cases, no court of appeals had spoken on the issue, and no authoritative guidance has yet come from the FTC. Given this dearth of guidance and the less-than-pellucid statutory text, Safeco's reading was not objectively unreasonable, and so falls well short of raising the "unjustifiably high risk" of violating the statute necessary for reckless liability.

The Court of Appeals correctly held that reckless disregard of a requirement of the FCRA would qualify as a willful violation within the meaning of § 1681n(a). But there was no need for that court to remand the cases for factual development. GEICO's decision to issue no adverse action notice to Edo was not a violation of § 1681m(a), and Safeco's misreading of the statute was not reckless.

Judgments of Court of Appeals reversed, and cases remanded for further proceedings consistent with Supreme Court's opinion.

FACT Act and the Identity Theft Problem In recent years, the problem of so-called identity theft has become increasingly acute. Identity theft occurs when those who improperly obtain access to other per-

sons' Social Security number and identifying information such as credit card numbers, bank account numbers, and the like use that information to commit financial fraud by making purchases or obtaining credit in the

name of those other persons. A recent FTC estimate indicates that approximately 10 million persons per year may be victims of identity theft in at least one instance and sometimes an ongoing series of instances. Hundreds of thousands of persons have made formal complaints to the FTC regarding identity theft, which is behavior that falls under the FTC's regulatory authority to address deceptive or unfair practices in commercial settings.

Congress, federal agencies, and some state legislatures have attempted to deal with the identity theft problem through statutes and regulations. In late 2003, Congress enacted the Fair and Accurate Credit Transactions Act (usually called the FACT Act) as a series of amendments to the Fair Credit Reporting Act. The FACT Act aids victims of identity theft by allowing them to file identity theft reports with consumer reporting agencies and by requiring such agencies to include "fraud alerts" in their credit reports about consumers who believe they have been victimized by someone else's fraudulent use of their financial information. The FACT Act also required the FTC and various other government agencies to promulgate regulations setting standards for appropriate disposal of financial information about consumers by companies that possess such information. "Disposal," for purposes of the standards, would include not only discarding the information but also selling the information. This FACT Act requirement was designed to minimize the chances that consumers' financial information would fall into the hands of, or be purchased by, would-be identity thieves.

Recent years also witnessed a number of high-profile instances in which security breaches and other apparent lapses at prominent firms resulted in widespread disclosure of the private financial information of huge numbers of consumers. The publicity given to such breaches and lapses and the identity theft dangers they suggested have led to calls for further legislative action. With the identity theft concern seeming to intensify, additional statutory and regulatory efforts to deal with the problem seem likely.

Equal Credit Opportunity Act The Equal Credit Opportunity Act (ECOA) prohibits credit discrimination on the bases of sex, marital status, age, race, color, national origin, religion, and the obtaining of income from public assistance. The ECOA covers all entities that regularly arrange, extend, renew, or continue credit. Examples include banks, savings and loan associations, credit card issuers, and many retailers, auto dealers, and realtors. The act is not limited to consumer credit; it also covers business and commercial loans.

The ECOA governs all phases of a credit transaction. As authorized by the act, the Federal Reserve Board has promulgated regulations detailing permissible and impermissible creditor behavior at each stage. Even when the regulations do not specifically prohibit certain creditor behavior, that behavior may still violate the act itself. Moreover, a credit practice that is neutral on its face may result in an ECOA violation if the practice has an adverse statistical impact on one of the ECOA's protected classes.⁶

The ECOA also requires that creditors notify applicants of the action taken on a credit application within 30 days of its receipt or any longer reasonable time stated in the regulations. If the action is unfavorable, an applicant is entitled to a statement of reasons from the creditor.

The ECOA is enforced by several federal agencies, with overall enforcement resting in the FTC's hands. Which agency enforces the act depends on the type of creditor or credit involved. Civil actions by aggrieved private parties, including class actions, also are possible.

Fair Credit Billing Act The Fair Credit Billing Act is primarily aimed at credit card issuers. Although the act regulates the credit card business in other ways, its most important provisions involve billing disputes. To trigger these provisions, a cardholder must give the issuer written notice of an alleged error in a billing statement within 60 days of the time that the statement is sent to the cardholder. Then, within two complete billing cycles or 90 days (whichever is less), the issuer must either (1) correct the cardholder's account, or (2) send the cardholder a written statement justifying the statement's accuracy. Until the issuer takes one of these steps, it may not (1) restrict or close the cardholder's account because of her failure to pay the disputed amount; (2) try to collect the disputed amount; or (3) report or threaten to report the cardholder's failure to pay the disputed amount to a third party such as a consumer reporting agency.

Once an issuer has met the act's requirements, it must also give a cardholder at least 10 days to pay the disputed amount before making an unfavorable report to a third party. If the cardholder disputes the issuer's justification within the 10-day period allowed for payment, the issuer can make such a report only if it also tells the third party that the debt is disputed and gives the cardholder the third party's name and address. In addition, the issuer must report the final resolution of the dispute to the third party.

⁶This resembles the adverse impact or disparate impact method of proof used in employment discrimination cases under Title VII of the 1964 Civil Rights Act. See Chapter 51.

An issuer that fails to comply with any of these rules forfeits its right to collect \$50 of the disputed amount from the cardholder. Because the issuer may still be able to collect the balance on large disputed debts, it is doubtful whether this provision does much to deter violations of the act.

Fair Debt Collection Practices Act

Concern over abusive, deceptive, and unfair practices by debt collectors led Congress to pass the Fair Debt Collection Practices Act (FDCPA) in 1977. The act applies to debts that involve money, property, insurance, or services obtained by a *consumer* for *consumer purposes*. Normally, the act covers only those who are in the business of collecting debts owed to *others*. However, creditors who collect their own debts are covered when, by using a name other than their own name, they indicate that a third party is collecting the debt.

Communication Rules Except when necessary to locate a debtor, the FDCPA generally prevents debt collectors from contacting third parties such as the debtor's employer, relatives, or friends. The act also limits a collector's contacts with the debtor himself. Unless the debtor consents, for instance, a collector cannot contact him at unusual or inconvenient times or places, or at his place of employment if the employer forbids such contacts. A collector cannot contact a debtor if it knows that the debtor is represented by an attorney, unless the attorney consents to such contact or fails to respond to the collector's communications. In addition, a collector must cease most communications with a debtor if the debtor gives the creditor written notification that he refuses to pay the debt or that he does not desire further communications.

The FDCPA also requires a collector to give a debtor certain information about the debt within five days of the

collector's first communication with the debtor. The *Evory* case, which follows shortly, explains the content of this notice requirement and addresses various issues suggested by it. If the debtor disputes the debt in writing within 30 days after receiving this information, the collector must cease its collection efforts until it sends verification of the debt to the debtor.

Specific Forbidden Practices As explained in the *Evory* case, the FDCPA sets out categories of forbidden collector practices and lists specific examples of each category. The listed examples, however, do not exhaust the ways that debt collectors can violate the act. The categories are:

1. *Harassment, oppression, or abuse.* Examples include threats of violence, obscene or abusive language, and repeated phone calls.
2. *False or misleading misrepresentations.* Among the FDCPA's listed examples are statements that a debtor will be imprisoned for failure to pay, that a collector will take an action it is not legally entitled to take or does not intend to take, that a collector is affiliated with the government, and that misstate the amount of the debt.
3. *Unfair practices.* These include collecting from a debtor an amount not authorized by the agreement creating the debt, inducing a debtor to accept a collect call before revealing the call's true purpose, and falsely or unjustifiably threatening to take a debtor's property.

Enforcement The FTC is the main enforcement agency for the FDCPA, although other agencies enforce it in certain cases. The FDCPA also permits individual civil actions and class actions by the affected debtor or debtors.

Evory v. RJM Acquisitions Funding, L.L.C.

505 F.3d 769 (7th Cir. 2007)

Section 1692g of the Fair Debt Collection Practices Act (FDCPA) provides:

Within five days after the initial communication with a consumer in connection with the collection of any debt, a debt collector shall, unless the following information is contained in the initial communication or the consumer has paid the debt, send the consumer a written notice containing—

- (1) the amount of the debt;
- (2) the name of the creditor to whom the debt is owed;
- (3) a statement that unless the consumer, within thirty days after receipt of the notice, disputes the validity of the debt, or any portion thereof, the debt will be assumed to be valid by the debt collector;

(4) a statement that if the consumer notifies the debt collector in writing within the thirty-day period that the debt, or any portion thereof, is disputed, the debt collector will obtain verification of the debt or a copy of a judgment against the consumer and a copy of such verification or judgment will be mailed to the consumer by the debt collector; and

(5) a statement that, upon the consumer's written request within the thirty-day period, the debt collector will provide the consumer with the name and address of the original creditor, if different from the current creditor.

Other sections of the FDCPA prohibit certain debt collection practices. Section 1692d forbids "any conduct the natural consequence of which is to harass, oppress, or abuse any person in connection with the collection of a debt." Section 1692e bars a debt collector from using "any false, deceptive, or misleading representation or means in connection with the collection of any debt." Section 1692f prohibits a debt collector's use of "any unfair or unconscionable means to collect or attempt to collect any debt."

Four appeals lodged in the U.S. Court of Appeals for the Seventh Circuit presented FDCPA questions regarding debt collectors' communications with attorneys for debtors and/or debt collectors' use of allegedly deceptive, abusive, or otherwise unfair settlement offers. The four cases were Evory v. RJM Acquisitions Funding, L.L.C.; Lauer v. Mason, Silver, Wenk & Mischlin, L.L.C.; Captain v. ARS National Services, Inc.; and Jackson v. National Action Financial Services, Inc. In all four cases, the plaintiffs were debtors and the defendants were debt collectors. The Seventh Circuit consolidated the four cases for decision. Further facts concerning the cases are set forth in the following edited version of the Seventh Circuit's opinion.

Posner, Circuit Judge

We have consolidated for decision four intertwined cases that present [various] questions under the FDCPA. We shall first answer the questions and then indicate the [appropriate] disposition[s] [of the cases]. Here are the questions:

1. Whether, if the consumer (as the statute refers to the putative debtor) is represented by a lawyer, a debt collector must give the same written notice to the lawyer that section 1692g would require were the consumer unrepresented and the notice sent directly to him.
2. Whether communications to lawyers are subject to sections 1692d through 1692f, which forbid harassing, deceptive, and unfair practices in debt collection. [Federal courts of appeal have split on this question.]
3. Whether, if the answer to question 2 is yes, the standard applicable to determining whether a representation is false, deceptive, or misleading under section 1692e is the same whether the representation is made to the lawyer or to his client.
4. Whether a settlement offer contained in a letter from the debt collector to a consumer is lawful per se under section 1692f. [Federal courts of appeal have also split on this question.]
5. If it is not per se lawful, whether its lawfulness should be affected by whether it is addressed to a lawyer, rather than to the consumer directly.
6. Whether there should be a safe harbor for a debt collector accused of violating section 1692e by making such an offer.
7. Again, if such a letter is not per se lawful, what type of evidence a plaintiff must present to prove that a settlement offer violates section 1692e.
8. Whether the determination that a representation is or is not false, deceptive, or misleading under section 1692 is

always to be treated as a matter of law. [Federal courts of appeal have split on this question as well.]

...

[Regarding the notice requirement set forth in § 1692g,] [i]t would be passing odd if the fact that a consumer was represented excused the debt collector from having to convey to the consumer the information to which the statute entitles him. For example, sections 1692g(a)(1) and (2) provide that the required notice must state the amount of the debt and the name of the creditor. Is it to be believed that by retaining a lawyer the debtor disentitles himself to the information? Or that the debt collector, though knowing that the debtor is represented, can communicate directly with him in defiance of the principle that once a party to a legal dispute is represented, the other party must deal with him through his lawyer, and not directly? We conclude that any written notice sent to the lawyer must contain the information that would be required by the Act if the notice were sent to the consumer directly.

The next question is whether debt collectors can, without liability, threaten, make false representations to, or commit other abusive, deceptive, or unconscionable acts against a consumer's lawyer, in violation of sections 1692d, e, or f. These sections[, which are quoted in the above statement of facts,] do not designate any class of persons, such as lawyers, who can be abused, misled, etc., by debt collectors with impunity. It is true that a lawyer is less likely to be deceived, intimidated, harassed, and so forth (for simplicity, we shall assume that only deception is alleged) than a consumer. But that is an argument not for immunizing practices forbidden by the statute when they are directed against a consumer's lawyer, but rather for recognizing that the standard for determining whether particular conduct

violates the statute is different when the conduct is aimed at a lawyer than when it is aimed at a consumer.

The courts have ruled that the statute is intended for the protection of unsophisticated consumers (sophisticated consumers presumably do not need its protection), so that in deciding whether for example a representation made in a dunning letter is misleading, the court asks whether a person of modest education and limited commercial savvy would be likely to be deceived. The standpoint is not that of the *least* intelligent consumer in this nation of 300 million people, but that of the average consumer in the lowest quartile (or some other substantial bottom fraction) of consumer competence. But if the debt collector has targeted a particularly vulnerable group—say, consumers who he knows have a poor command of English—the benchmark for deciding whether the communication is deceptive would be the competence of the substantial bottom fraction of *that* group. [Case citations omitted.]

By the same token, the “unsophisticated consumer” standpoint is inappropriate for judging communications with lawyers, just as it is inappropriate to fix a physician’s standard of care at the level of that of a medical orderly. But what should the standard be? Most lawyers who represent consumers in debt collection cases are familiar with debt collection law and therefore unlikely to be deceived. But sometimes a lawyer will find himself handling a debt collection case not because he’s a specialist but because a friend or relative has asked him to handle it. His sophistication in collection matters would be less than that of the specialist practitioner but much greater than that of the average unsophisticated consumer. He would not have to be an expert on the FD CPA to be able to look it up and discover what information sections 1692g(a)(3)–(5) require be disclosed to the consumer, and then compare the requirements with the content of the communication that he has received on his client’s behalf. Since, therefore, most lawyers who represent consumers in debt-collection cases are knowledgeable about the law and practices of debt collection, since those who are not should be able to inform themselves sufficiently to be able to represent their consumer clients competently, and since the debt collector cannot be expected to know how knowledgeable a particular consumer’s lawyer is, we conclude that a representation by a debt collector that would be unlikely to deceive a competent lawyer, even if he is not a specialist in consumer debt law, should not be actionable.

We have assumed for the sake of simplicity that the communication to the lawyer is alleged to be *deceptive*; what if instead it is alleged to be false or misleading, terms also found in section 1692e? “Misleading” is similar to “deceptive,” except that it can be innocent; one intends to deceive, but one can mislead through inadvertence. A sophisticated person is less likely to be either deceived or misled than an unsophisticated one. That is

less true if a statement is false. A false claim of fact in a dunning letter may be as difficult for a lawyer to see through as a consumer. Suppose the letter misrepresents the unpaid balance of the consumer’s debt. The lawyer might be unable to discover the falsity of the representation without an investigation that he might be unable, depending on his client’s resources, to undertake. Such a misrepresentation would be actionable whether made to the consumer directly, or indirectly through his lawyer.

We move now from the lawyer cases to the cases of settlement offers communicated directly to consumers, where there is no lawyer in the picture. But later we shall have to bring the lawyer back into the picture in order to round out our discussion of the difference between consumers and lawyers as recipients of potentially misleading statements from debt collectors.

It is apparently common for debt collectors to send letters to consumers that say such things as (these examples are all taken from the cases before us) “we would like to offer you a unique opportunity to satisfy your outstanding debt”—“a settlement of 25% OFF of your current balance. SO YOU ONLY PAY \$[] In ONE PAYMENT that must be received no later than 40 days from the date on this letter.” Or “TIME’S A WASTIN’! . . . Act now and receive 30% off if you pay by March 31st.” Or we are “currently able to offer you a substantial discount of 50% off your Current Balance *if we receive payment by 05-14-2004*” (emphases in original). There is nothing improper about making a settlement offer. The concern is that unsophisticated consumers may think that if they don’t pay by the deadline, they will have no further chance to settle their debt for less than the full amount; for the offers are in the idiom of limited-time or one-time sales offers, clearance sales, going-out-of-business sales, and other temporary discounts. In fact debt collectors, who naturally are averse to instituting actual collection proceedings for the often very modest sums involved in the consumer debt collection business, frequently renew their offers if the consumer fails to accept the initial offer.

The objection to allowing liability to be based on such offers is that the settlement process would disintegrate if the debt collector had to disclose the consequences of the consumer’s rejecting his initial offer. If he has to say, “We’ll give you 50 percent if you pay us by May 14, but if you don’t, we’ll probably offer you the same or even better deal later, and if you refuse that, we’ll probably give up and you’ll never have to pay a cent of the debt you owe,” there will be no point in making offers. As in previous cases in which we have created safe-harbor language for use in cases under the FD CPA, [case citations omitted], we think the present concern can be adequately addressed yet the unsophisticated consumer still be protected against receiving a false impression of his options by the debt collector’s including with the offer the following language: “We are not obligated to renew this offer.” The word “obligated”

is strong and even the unsophisticated consumer will realize that there is a renewal possibility but that it is not assured.

This is not to suggest that in the absence of safe-harbor language a debt collector is per se liable for violating section 1692 if he makes the kind of settlement offer that we quoted. We see a potential for deception of the unsophisticated in those offers but we have no way of determining whether a sufficiently large segment of the unsophisticated are likely to be deceived to enable us to conclude that the statute has been violated. For that, evidence is required, the most useful sort being [a suitable] consumer survey.

Other circuits, perhaps less kindly disposed to survey evidence than we, treat the deceptive character of a debt collector's communication as a question of law, so that if the communication is not deceptive on its face, the plaintiff is forbidden to try to show that it would be likely to deceive a substantial number of its intended recipients. We disagree with that position. The intended recipients of dunning letters are not federal judges, and judges are not experts in the knowledge and understanding of unsophisticated consumers facing demands by debt collectors. We are no more entitled to rely on our intuitions in this context than we are in deciding issues of consumer confusion in trademark cases, where the use of survey evidence is routine.

But we emphasize that survey evidence in debt-collection as in trademark cases must comply with the principles of professional survey research; if it does not, it is not even admissible, let alone probative of deception. We are exceedingly doubtful that any lawyer involved in representing debtors would be deceived by the settlement offers made by debt collectors, and doubt therefore that any cases based on such offers could survive summary judgment or even a motion to dismiss were the offer directed to the consumer's lawyer rather than to the consumer. This illustrates our earlier point about the importance of distinguishing between lawyers and unsophisticated consumers in applying section 1692e.

Having answered the questions that we listed at the beginning of our opinion, we can be brief in discussing our four cases. In *Lauer*, the consumer was represented by a lawyer. The defendant debt collector did not send either the lawyer or his client the written notice required by section 1692g, but instead sent the lawyer a letter that the plaintiff characterizes as coercive because it threatened to dispose of property of the plaintiff that had a purely sentimental value, such as scrapbooks, a wedding gown, and a videotape of the arrival of his adopted child from Korea. The plaintiff doesn't explain which subsection of section 1692 the threat violates, but it could well violate d, e, f, or indeed all three. The district court dismissed the complaint on the ground that communications with a consumer's lawyer are beyond the reach of the Fair Debt Collection Practices Act. That was error.

The defendant in *Lauer* also argues that if the initial communication from the debt collector is to the consumer's lawyer rather than to the consumer himself, the notice requirement is not triggered. If you glance back at section 1692g(a) you will see that it says that the written notice is required to be sent "five days after the initial communication with a consumer." The argument is that if there is no letter sent first ("initial communication") directly to the consumer, but instead the initial communication is to the consumer's lawyer, the condition for requiring the subsequent written notice containing specified information is not satisfied and therefore such a notice need never be sent either to the lawyer or to the consumer. All that this argument shows is how unsound it would be to suppose that a communication to a person's lawyer is not a communication to the person. It would make a consumer who had a lawyer worse off than one who did not, because neither he nor his lawyer would have a right to any of the information that the statute requires be disclosed to the consumer.

In *Captain*, before realizing that the consumer was represented, the defendant sent him a letter offering a 30 percent discount off the face amount of the debt, provided payment was received by a specified date. The plaintiff claims that the letter violated section 1692e. Shortly afterward, his lawyer called the defendant and was told that if the debt wasn't paid within two weeks of the date of the initial collection letter (a deadline that had already passed), a \$15 daily charge would be added to the account balance until the debt was paid in full. Such a charge, equivalent to an interest rate of 730 percent a year on the unpaid balance of the debt, would violate Indiana law. Although a violation of state law is not in itself a violation of the FDCPA, a threat to impose a penalty that the threatener knows is improper because unlawful is a good candidate for a violation of sections 1692d and e. The district court dismissed the complaint for failure to state a claim: the settlement-offer charge on the ground that such offers are per se lawful under the Act and the challenge to the lawfulness of the \$15 a day representation because it was made to a lawyer. Both rulings were erroneous.

Evory and *Jackson* . . . are pure settlement-offer cases—there were no communications to lawyers. But they are importantly different. In *Evory*, the district court dismissed the complaint, and that was error. But in *Jackson* the court granted summary judgment for the defendant. Much of the judge's opinion tracks the discussion in cases that hold that the kind of settlement offer involved in these cases is nondeceptive per se, and that is wrong. But the judge was willing to consider the survey evidence that the plaintiff had introduced. He concluded that it did not show that the settlement offer was deceptive. He was right and indeed should have ruled the evidence inadmissible. The plaintiff's lawyer at the argument of the appeal conceded that it was not a good survey. We would put the matter

more strongly. The respondents in the survey were shown a letter similar to the one the plaintiff had received. The key question they were asked was, “Let’s say the person getting this letter does not accept the settlement offer by the deadline date. Do you think that person would feel it is a limited-time offer, or it is not a limited-time offer?” By referring to “deadline date,” the questioner signaled that it was a limited-time offer. Leading questions in surveys are improper. And “limited-time offer” was not defined. Nor should the respondents have been asked what they thought some *other* recipient of the letter would “feel,” especially since they were given no information about the hypothetical recipient. They should simply have been asked, “What do you think would happen if you didn’t accept the offer? Do you think it would be renewed or extended? Or do

you think this would be your last chance to get a discount off the amount owed?”

There is compelling evidence that the offers in this and the other cases were not final offers. But that means only that if the offers were understood as such by the targeted recipients, they were deceptive. The anterior issue is whether they were likely to be understood as such by a substantial number of unsophisticated consumers. Maybe they were, but some evidence beyond the face of the offer was required to establish a *prima facie* case, and it was not presented.

District court’s decision in Jackson affirmed; district courts’ decisions in Lauer, Captain, and Evory reversed, and cases remanded for further proceedings.

Product Safety Regulation Yet another facet of consumer protection law is federal regulation of product safety. As discussed in Chapter 20, sellers and manufacturers of dangerously defective products may be held civilly liable to those injured by such products. Damage recoveries, however, are at best an after-the-fact remedy for injuries caused by such products. Thus, federal law also seeks to promote product safety through *direct regulation* of consumer products.

The Consumer Product Safety Act The most important federal product safety measure is the Consumer Product Safety Act (CPSA). The CPSA established the Consumer Product Safety Commission (CPSC), an independent regulatory agency that is the main federal body concerned with the safety of consumer products. Among the CPSC’s activities are the following: (1) issuing *consumer product safety standards* (which normally pertain to the performance of consumer products or require product warnings or instructions); (2) issuing rules *banning* certain *hazardous products*; (3) bringing suit in federal district court to eliminate the dangers presented by *imminently hazardous* consumer products (products that pose an immediate and unreasonable risk of death, serious illness, or severe personal injury); and (4) *ordering private parties to address “substantial product hazards”* after receiving notice of such hazards. The CPSA’s remedies and enforcement devices include injunctions, the seizure of products, civil penalties, criminal penalties, and private damage suits.

In 2008, widespread media reports highlighted the harms experienced by children as a result of being

exposed to toys that contained dangerous chemical elements or other dangerous substances. Many of these toys had been imported into the United States. The intense attention to toy safety issues prompted Congress to enact the first major amendments to the CPSA in a number of years. Besides including a very significant increase in the CPSC budget, the 2008 amendments instructed the CPSC to study a variety of toy safety issues and other children’s product safety issues, and to appoint a Chronic Hazard Advisory Panel to advise the CPSC on the children’s health effects of certain chemicals in toys and child care products. The amendments also instructed the CPSC to follow up with appropriate new regulations to address major safety concerns.

The 2008 retooling of the CPSA furnished Congress an opportunity to address long-standing concerns over the numbers of rollover accidents in which users of all-terrain vehicles (ATVs) were injured or killed. Congress directed the CPSC to develop safety regulations regarding three-wheeled and four-wheeled ATVs, with the importation and sale of the three-wheeled ATVs being banned until the promulgation of the CPSC regulations concerning the three-wheeled variety.

Other Federal Product Safety Regulation Other federal statutes besides the CPSA regulate various specific consumer products. Among the subjects so regulated are toys, cigarette labeling and advertising, eggs, meat, poultry, smokeless tobacco, flammable fabrics, drugs, cosmetics, pesticides, and motor vehicles. Some of these laws are enforced by the CPSC and some by other bodies.

Ethics in Action

Since at least the early 1950s, the International Harvester Company's gasoline-powered tractors had been subject to "fuel geysering." This was a phenomenon in which hot liquid gasoline would shoot from the tractor's gas tank when the filler cap was opened. The hot gasoline could cause severe burns and could ignite and cause a fire. Over the years, at least 90 fuel geysering incidents involving International Harvester tractors occurred. At least 12 of these involved significant burn injuries, and at least one caused a death.

International Harvester discovered the full dimensions of the fuel geysering problem in 1963. In that year, it revised its owner's manuals to warn buyers of new gas-powered tractors not to remove the gas cap from a hot or running tractor. In 1976, it produced a new fuel tank decal with a similar warning. Because of an industrywide shift to diesel-powered tractors, however, this warning had a very limited distribution to buyers of new tractors, and it rarely reached former buyers. International Harvester never specifically warned either new or old buyers about the geysering problem until 1980, when it voluntarily made a mass mailing to 630,000 customers.

In 1980, the FTC issued a complaint against International Harvester, alleging that its failure to warn buyers of the fuel geysering problem for 17 years violated FTC Act § 5. Agreeing with the initial decision of an administrative law judge, the

full commission held that International Harvester's failure to warn was not deceptive but was unfair for purposes of § 5. *In the Matter of International Harvester*, 104 F.T.C. 949 (1984).

Applying the three-part analysis discussed earlier in this chapter, the commission weighed the consumer injury caused by fuel geysering against the costs of providing effective warnings about it. The commission concluded that the 12 instances of serious burns and the one death caused by fuel geysering were injuries that might have been avoided by a warning and were sufficient to outweigh the \$2.8 million apparently required for an effective warning. However, the commission's method clearly left open the possibility that in some cases, a practice's benefits to consumers or to competition might outweigh the harm it causes.

- Is it morally right to balance personal injury and human life against economic gain? Isn't each human life valuable beyond measure? Can decision-making processes such as the FTC's ever be justified?
- On the other hand, if you think that the commission's balancing exercise *is* justifiable, how is one to strike the balance? How would you have decided *International Harvester* if ethical analysis, rather than legal standards, controlled the decision?

Problems and Problem Cases

1. For many years, advertisements for Listerine Antiseptic Mouthwash had impliedly claimed that Listerine was beneficial in the treatment of colds, cold symptoms, and sore throats. An FTC adjudicative proceeding concluded that these claims were false. Thus, the FTC ordered Warner-Lambert Company, the manufacturer of Listerine, to include the following statement in future Listerine advertisements: "Contrary to prior advertising, Listerine will not help prevent colds or sore throats or lessen their severity." Warner-Lambert argued that this order was invalid because it went beyond a command to simply cease and desist from illegal behavior. Was Warner-Lambert correct?
2. Pantron I Corp. sold a shampoo and conditioner known as the Helsinki Formula. Pantron promoted the Helsinki Formula as an aid in fighting male pattern baldness. According to Pantron, polysorbate was the main ingredient that made the Helsinki

Formula effective in arresting hair loss and stimulating hair growth. The Federal Trade Commission filed suit against Pantron on the theory that Pantron's advertisements made deceptive representations about the effectiveness of the Helsinki Formula, as well as deceptive representations that scientific evidence supported the effectiveness claims. The FTC sought injunctive and monetary relief. The evidence showed that the Helsinki Formula was effective for some users with male pattern baldness but that this effectiveness was probably due to the "placebo effect" (i.e., the effectiveness for some users stemmed from psychological reasons rather than from the inherent merit of the product). Because there was no scientifically valid evidence indicating that polysorbate is effective in treating hair loss or in inducing hair growth, the district court concluded that Pantron's advertisements were deceptive in representing that *scientific evidence* supported a conclusion that the Helsinki Formula was effective. The district court therefore issued an injunction that barred Pantron

from representing, in its advertisements, that scientific evidence supports the alleged effectiveness of the Helsinki Formula in treating baldness or hair loss. However, because the Helsinki Formula did work for some users some of the time (whatever the reason), the district court concluded that the FTC had failed to carry its burden of proving that Pantron engaged in deceptive advertising when it represented that the Helsinki Formula was effective for persons with male pattern baldness. The court therefore refused to enjoin Pantron from making such a representation of effectiveness (i.e., a representation of effectiveness that did not go on to make the false claim of supporting scientific evidence). The court also refused to order monetary relief. In its appeal to the U.S. Court of Appeals for the Ninth Circuit, the FTC argued that when a product's effectiveness is due only to the placebo effect, an advertising claim of effectiveness is false and deceptive for purposes of the FTC Act. Was this FTC argument legally correct? Which party—the FTC or Pantron—was entitled to win the appeal?

3. Besides maintaining a private law practice, Keith Gill offered credit repair services to consumers in a business that he operated with a retired attorney, Richard Murkey. In various contexts, Gill and Murkey made representations to the effect that they could remove any accurate and nonobsolete information of a negative nature from the credit reports of consumers who used their credit repair services. The Federal Trade Commission filed suit against Gill and Murkey, alleging, among other things, that these representations violated § 5 of the Federal Trade Commission Act. Was § 5 violated?
4. Between 1966 and 1975, the Orkin Exterminating Company, the world's largest termite and pest control firm, offered its customers a "lifetime" guarantee that could be renewed each year by paying a definite amount specified in its contracts with the customers. The contracts gave no indication that the fees could be raised for any reasons other than certain narrowly specified ones. Beginning in 1980, Orkin unilaterally breached these contracts by imposing higher-than-agreed-upon annual renewal fees. Roughly 200,000 contracts were breached in this way. Orkin realized \$7 million in additional revenues from customers who renewed at the higher fees. The additional fees did not purchase a higher level of service than that originally provided for in the contracts. Although some of Orkin's competitors may have been willing to assume Orkin's pre-1975 contracts at the fees stated therein, they would not have offered a fixed, locked-in "lifetime" renewal fee such as the one Orkin originally provided. Under the three-part test stated in the text, did Orkin's behavior violate FTC Act § 5's prohibition against *unfair* acts or practices?
5. Patron Aviation, Inc., an aviation company, bought an airplane engine from L&M Aircraft. The engine was assembled and shipped to L&M by Teledyne Industries, Inc. L&M installed the engine in one of Patron's airplanes. The engine turned out to be defective, so Patron sued L&M and Teledyne. One of the issues presented by the case was whether the Magnuson-Moss Act was applicable. Does the Magnuson-Moss Act apply to this transaction?
6. National Financial Services, Inc., a debt collection agency that serves magazine subscriptions clearinghouses, handled roughly 2.2 million accounts during 1986 and 1987. It sent letters to debtors whose accounts were delinquent. The average unpaid balance owed on these accounts was approximately \$20. One letter sent by National Financial to a large number of debtors stated that their account "Will Be Transferred To An Attorney If It Is Unpaid After The Deadline Date!!!" Debtors who did not pay after receiving this letter received one or more letters that bore the letterhead of "N. Frank Lanocha, Attorney at Law." Lanocha prepared the text of these form letters and gave copies to National Financial's president, Smith. Smith then arranged for the letters to be prepared and mailed out. One of these letters contained the following statements: "Please Note I Am The Collection Attorney Who Represents American Family Publishers. I Have The Authority To See That Suit Is Filed Against You In This Matter." The letter also stated: "Unless This Payment Is Received In This Office Within Five Days Of The Date Of This Notice, I Will Be Compelled To Consider The Use Of The Legal Remedies That May Be Available To Effect Collection." The Federal Trade Commission sued National Financial, Smith, and Lanocha, alleging violations of the Fair Debt Collection Practices Act. How should the court rule?
7. National Credit Management Group (NCMG) offered credit monitoring and credit card services to consumers throughout the United States. NCMG used the 1-800-YES-CREDIT toll-free telephone number as the central marketing focus of its business.

The company's advertisements on radio and cable television stated that persons with credit problems should call the toll-free number to receive a "confidential analysis" of their credit histories. Many of these advertisements also promised that NCMG would provide consumers with a complimentary application for a major credit card without a security deposit. In a number of the television advertisements, NCMG would flash the word "APPROVED" on the television screen or would otherwise highlight that word when the advertisement made reference to the credit card application.

NCMG received approximately 6,500 "inbound" calls per week from consumers who were responding to the radio and television advertisements. NCMG did not engage in "cold-calling" of consumers. When consumers called 1-800-YES-CREDIT, an NCMG representative offered them an initial credit analysis for an up-front fee of \$95. During this phone conversation, the NCMG representative asked consumers for information—name, address, Social Security number, checking account number, employment information, and income information—that the representative stated was necessary to enable the credit analyst to gather information concerning the particular consumer's credit history. The NCMG representative also stated that the \$95 fee was the charge associated with the accumulation and monitoring of the information contained in the credit profile of the consumer, and that the credit analyst would be telephoning the consumer in approximately two weeks to discuss the consumer's credit history. Between 5 and 9 percent of consumers who called the toll-free number purchased either the \$95 initial credit analysis offered or other services (described below) that NCMG offered.

NCMG used the checking account information obtained by its representatives to set up an arrangement under which consumers' checking accounts would be debited in the amount of \$95 if they accepted the initial credit analysis offer. Consumers who initially gave verbal authorization for the debiting arrangement later encountered great difficulty in attempting to cancel it. In the initial telephone conversation described above, the NCMG representatives did not tell consumers that when they used their "complimentary" application for a credit card (the application referred to in NCMG's advertisements), they could have to pay fees ranging from \$50 to

\$100 to sponsoring banks. Neither were consumers informed that they were not guaranteed of receiving a credit card. Although sponsoring banks approved a high percentage of consumers who used the NCMG-provided application, not all applicants were approved for a credit card.

NCMG did not actually perform a credit analysis for paying consumers, nor did NCMG check those consumers' credit reports. When the supposed credit analyst made the above-described follow-up telephone call to a consumer, he or she did not discuss the consumer's credit history. Instead, the credit analyst attempted to sell the consumer NCMG's two-year program designed for persons who wished to establish or reestablish their credit. The two-year program, which consisted largely of NCMG's furnishing certain educational materials, ranged in cost from several hundred dollars to well over \$1,000, with the NCMG caller having the discretion to set the price at what seemed an appropriate level under the circumstances. The credit analyst typically did not disclose that the earlier check-debiting arrangement would be used as the payment mechanism for persons who agreed to subscribe to the two-year program.

The Federal Trade Commission (FTC) filed suit against NCMG. Among other things, the FTC alleged that NCMG violated § 5 of the FTC Act as well as the Telemarketing Sales Rule (TSR). Did NCMG violate § 5? Did NCMG violate the TSR?

8. The owners of a certain house had listed it for rental with Gatewood Realty, Inc. Ira Simonoff, a Gatewood broker, showed the house to brothers Jonathan and Robert Scott, who offered to rent the house at a lesser monthly rate than the owners had specified. Simonoff then asked the Scotts for certain background information. Jonathan Scott responded to Simonoff's request for his Social Security number by telling Simonoff that he (Simonoff) was not authorized to make a credit check. Robert Scott added that he did not want his credit checked. During the discovery phase of the litigation described below, Jonathan Scott testified that Simonoff assured him no credit check would be run. Both brothers testified that they understood Simonoff would not check their credit. Simonoff, however, testified that he informed the brothers of the house owners' requirement of a credit check and that one of the brothers had simply asked Simonoff not to have a credit check done "if at

all possible.” When Simonoff relayed the Scotts’ offer to the owners, they insisted that credit checks be conducted. Simonoff therefore asked Peter Visconti, who was affiliated with Real Estate Finance Group (REFG), to check the Scotts’ credit. According to later testimony by Visconti, Simonoff represented that he had written authorizations from the Scotts. (The Scotts denied that any such authorizations existed.) Visconti obtained credit reports on the Scotts by falsely representing to a computerized credit reporting service that he needed the reports to evaluate a mortgage application. He then supplied the credit reports to Simonoff. When a real estate broker working on behalf of the Scotts learned that Simonoff had obtained their credit reports, she so informed the Scotts.

The Scotts filed suit against REFG, Gatewood, and Simonoff for alleged violations of the Fair Credit Reporting Act (FCRA). After discovery, the Scotts moved for partial summary judgment against all defendants on the theory that they had obtained the Scotts’ credit reports by means of false pretenses, in violation of the FCRA. Gatewood and Simonoff moved for summary judgment in their favor. The district court granted the Scotts’ summary judgment motion as to REFG but not as to Gatewood and Simonoff. Instead, the court granted summary judgment in favor of Gatewood Realty and Simonoff and ordered dismissal of the Scotts’ FCRA claim against them. The Scotts appealed the dismissal of their FCRA claim against Gatewood and Simonoff. How did the appellate court rule?

9. When Samuel Grant sued his landlord, the landlord filed a counterclaim. Grant later was awarded a \$608 judgment against the landlord, with the landlord receiving a \$476.10 judgment against Grant on the counterclaim. This left Grant with a net judgment of \$131.90. Approximately one year after the above case, Texaco denied Grant’s application for a credit card. Texaco did so on the basis of a credit report prepared by TRW, Inc. This credit report stated that a judgment of approximately \$400 had been entered against Grant in the above-described litigation between Grant and his landlord. Grant then informed TRW that the litigation involving his landlord had resulted in a net judgment in Grant’s favor. TRW eventually sent Grant an “Updated Credit Profile” showing that the \$400 judgment had been deleted from his file. Several months later, Grant again applied for a Texaco credit card. Texaco again denied his application because a newly issued TRW credit report indicated that a \$400 judgment had been entered against him in the case involving his landlord. Grant then sued TRW on the theory that TRW had violated the Fair Credit Reporting Act (FCRA). TRW moved to dismiss the case. Should Grant’s FCRA case be dismissed?
10. Sylvia Miller, a married woman, wanted to buy a pair of loveseats from a retail furniture store. The store offered to arrange financing for her through the Public Industrial Loan Company. Public later refused to extend credit to Miller unless her husband cosigned the debt obligation. The reason was a consumer reporting agency’s unfavorable credit report on Miller. Was Public’s action forbidden sex discrimination under the Equal Credit Opportunity Act? In any event, what other legal remedy might Miller have?
11. John E. Koerner & Co., Inc., applied for a credit card account with the American Express Company. The application was for a company account designed for business customers. Koerner asked American Express to issue cards bearing the company’s name to Louis Koerner and four other officers of the corporation. Koerner was required to sign a company account form, under which he agreed that he would be jointly and severally liable with the company for all charges incurred through use of the company card. American Express issued the cards requested by the company. Thereafter, the cards were used almost totally for business purposes, although Koerner occasionally used his card for personal expenses. Later, a dispute regarding charges appearing on the company account arose. Does the Fair Credit Billing Act apply to this dispute?
12. The Fair Debt Collection Practices Act (FDCPA) prohibits a creditor from giving a debtor the false impression that a third party is involved in efforts to collect the debt owed to the creditor. North Shore Agency, Inc., is a debt collection firm. For many years, North Shore and Book-of-the-Month Club (BOMC) had an arrangement under which BOMC would send North Shore the names and addresses of any BOMC customers from whom BOMC had been unable to collect payment. North Shore would then send these customers a letter demanding payment of the sums BOMC had reported to North Shore as due. The demand letters instructed the customers to pay

BOMC directly and stated that further collection efforts would be undertaken if payment was not made. If the demand letter to a given customer failed to elicit payment, BOMC would so notify North Shore, which would send a second demand letter. The process could be repeated a third time or even more times until either the customer paid BOMC or North Shore concluded that payment would not be forthcoming unless further collection efforts were made. BOMC paid North Shore a flat fee for every demand letter North Shore sent out. If a series of demand letters did not yield payment, it was up to North Shore whether to drop the matter—something it might often be likely to do because of the relatively small dollar amounts involved—or take other collection action. When North Shore took other collection action that resulted in payment, North Shore would keep 35 percent of the amount collected and remit the remainder to BOMC. Patricia White, a BOMC customer who had not made payment of \$18.45, received a demand letter from North Shore. Alleging that BOMC and North Shore had violated the FDCPA, White brought a class action suit on behalf of herself and other similarly situated persons. In view of the frequent tendency of North Shore not to take legal action beyond sending demand letters,

did BOMC and North Shore violate the FDCPA prohibition on creating a false impression that a third party is involved in efforts to collect a debt?

chapter 49

ANTITRUST: THE SHERMAN ACT

XYZ, Inc., manufactures widgets and sells them through various wholesale dealers. Several other firms also manufacture widgets. Of course, XYZ wishes to conduct its business within the bounds of the law, including the rules of antitrust law. As you study this chapter, consider the following questions regarding possible courses of action and their treatment under antitrust law:

- Would XYZ violate antitrust law if XYZ deliberately causes its prices to parallel those of a competing widget manufacturer?
- If XYZ and a competing widget manufacturer agree that each will charge no more than a certain agreed amount for their widgets (i.e., a maximum price), is there an antitrust violation? What if XYZ and its competitor agree to set a minimum price in order to avoid what each sees as the potentially ruinous consequences of a price-cutting war?
- Is there an antitrust violation if XYZ and its wholesale dealers agree that the dealers will adhere to an established maximum sale price when they sell to retailers? What if the agreement between XYZ and the dealers is that the dealers will adhere to a certain minimum price when they sell to retailers?
- If XYZ and its wholesale dealers agree on exclusive sales territories within which each dealer will operate, is there an antitrust violation?
- Is there an antitrust problem if XYZ informs its dealers that it will not sell them widgets unless they also buy a certain unrelated product from XYZ, and the dealers, wanting to preserve their widget dealerships, agree to this provision?
- Would there be an antitrust violation if XYZ and some of the other widget manufacturers agree that each manufacturer has an exclusive geographic area of business operation?
- Is there an antitrust violation if XYZ and some of the other widget manufacturers agree not to purchase, from a certain supplier, materials used in making widgets?
- If XYZ's widgets acquire a public reputation for being high in quality and this perception leads, over time, to XYZ's holding a market share so large that XYZ effectively holds monopoly status, has XYZ run afoul of antitrust law?

Regardless of the legal treatment given to the behaviors referred to in the above questions, consider the ethical questions suggested by such conduct.

THE POST-CIVIL WAR EMERGENCE and growth of large industrial combines and trusts significantly altered the business environment of earlier years. A major feature of this phenomenon was the tendency of various large business entities to acquire dominant positions in their industries by buying up smaller competitors or engaging in practices aimed at driving those competitors out of business. This behavior led to public demands for

legislation to preserve competitive market structures and prevent the accumulation of great economic power in the hands of a few firms.

Congress responded in 1890 with the Sherman Act. It supplemented this response by enacting the Clayton Act in 1914 and the Robinson-Patman Act in 1936. In enacting the antitrust statutes, Congress adopted a public policy in favor of preserving and promoting free competition as

the most efficient means of allocating social resources. The Supreme Court summarized, in *Times-Picayune Co. v. United States* (1953), the rationale for this faith in competition's positive effects:

Basic to faith that a free economy best promotes the public weal is that goods must stand the cold test of competition; that the public, acting through the market's impersonal judgment, shall allocate the nation's resources and thus direct the course its economic development will take.

Congress thus presumed that competition was more likely to exist in an industrial structure characterized by a large number of competing firms than in concentrated industries dominated by a few large competitors.

Despite this long-standing policy in favor of competitive market structures, the antitrust laws have not been very successful in halting the trend toward concentration in American industry. Today's market structure in many important industries is *oligopolistic*, with the bulk of production accounted for by a few dominant firms. Traditional antitrust concepts are often difficult to apply to the behavior of firms in these highly concentrated markets. Recent years have witnessed the emergence of new ideas that challenge long-standing antitrust policy assumptions.

The Antitrust Policy Debate

Antitrust enforcement necessarily reflects fundamental public policy judgments about the economic activities to be allowed and the industrial structure best suited to foster desirable economic activity. Given the importance of such judgments to the future of the American economy, it is not surprising that antitrust policy spurs vigorous public debate.

Chicago School Theories During the past four decades, traditional antitrust assumptions have faced an effective challenge from commentators and courts advocating the application of microeconomic theory to antitrust enforcement. These methods of antitrust analysis are commonly called **Chicago School theories** because many of their major premises were advanced by scholars affiliated with the University of Chicago.

Chicago School advocates view *economic efficiency* as the primary, if not sole, goal of antitrust enforcement. They are far less concerned with the supposed effects of industrial concentration than are traditional antitrust thinkers. Even highly concentrated industries, they argue, may engage in significant forms of nonprice competition, such as competition in advertising, styling, and warranties. They also point out that concentration in a particular industry does not necessarily preclude *interindustry*

competition. For example, a concentrated glass container industry may still face significant competition from the makers of metal, plastic, and fiberboard containers. Chicago School advocates are also quick to point out that many markets today are international in scope, so that concentrated domestic industries may nonetheless face effective foreign competition. Moreover, they argue that the technological developments necessary for American industry to compete more effectively in international markets may require the great capital resources that result from domestic concentration.

According to the Chicago School viewpoint, the traditional antitrust focus on the structure of industry has improperly emphasized protecting *competitors* instead of protecting *competition*. Chicago School theorists argue that antitrust policy's primary thrust should feature *anticollusion* efforts rather than *anticoncentration* efforts. In addition, most of these theorists take a lenient view toward vertically imposed restrictions on price and distribution that have been traditionally seen as undesirable, because they believe that such restrictions can promote efficiencies in distribution. Thus, they tend to be tolerant of attempts by manufacturers to control resale prices or establish exclusive distribution systems for their products.

Traditional Antitrust Theories Traditional antitrust thinkers, however, contend that even though economic efficiency is important, antitrust policy has historically embraced *political* as well as economic values. Concentrated economic power, they argue, is undesirable for a variety of noneconomic reasons. It may lead to anti-democratic concentrations of political power. Moreover, it may stimulate greater governmental intrusions into the economy in the same way that the post-Civil War activities of the trusts led to the passage of the antitrust laws. According to the traditional view, lessening concentration enhances individual freedom by reducing the barriers to entry that confront would-be competitors and by ensuring broader input into economic decisions having important social consequences. Judge Learned Hand summed up this perspective on antitrust policy:

Great industrial consolidations are inherently undesirable, regardless of their economic results. Throughout the history of [the Sherman Act] it has been constantly assumed that one of [its] purposes was to perpetuate and preserve, for its own sake and in spite of possible cost, an organization of industry in small units which can effectively compete with each other.¹

¹*United States v. Aluminum Co. of America, Inc.* (2d Cir. 1945).

Effect of Chicago School Notions

Chicago School notions, however, have had a significant impact on the course of antitrust enforcement in recent decades. The Supreme Court and many presidential appointees to the lower federal courts, the Department of Justice, and the Federal Trade Commission have given credence to Chicago School economic arguments during the past 30-some years. The presence on the federal bench of so many judges embracing Chicago School ideas means that those views are likely to continue to have an impact on the shape of antitrust law.

Jurisdiction, Types of Cases, and Standing

Jurisdiction The Sherman Act outlaws monopolization, attempted monopolization, and agreements in restraint of trade. Because the federal government's power to regulate business originates in the Commerce Clause of the U.S. Constitution (discussed in Chapter 3), the federal antitrust laws apply only to behavior having some significant impact on *interstate* or *foreign* commerce. Given the interdependent nature of our national economy, it is normally fairly easy to demonstrate that a challenged activity either involves interstate commerce (the "in commerce" jurisdiction test) or has a substantial effect on interstate commerce (the "effect on commerce" jurisdiction test). Various cases indicate that a business activity may have a substantial effect on interstate commerce even if the activity occurs solely within the borders of one state. Activities that are purely *intrastate* in their effects, however, are outside the scope of federal antitrust jurisdiction and must be challenged under state law.

The federal antitrust laws have been extensively applied to activities affecting the international commerce of the United States. The conduct of American firms operating outside U.S. borders may be attacked under our antitrust laws if it has an intended effect on our foreign commerce. Likewise, foreign firms "continuously engaged" in our domestic commerce are subject to federal antitrust jurisdiction. An international transaction that has a direct, substantial, and reasonably foreseeable effect on domestic commerce may subject the firms involved to U.S. antitrust law and the jurisdiction of U.S. courts. Determining the full extent of the extraterritorial reach of our antitrust laws often involves courts in difficult questions of antitrust exemptions and immunities (to be discussed in Chapter 50). The extraterritorial reach issue also suggests the troubling political prospect that aggressive expansion of antitrust law's applicability may

create tension between our antitrust policy and our foreign policy in general.

Types of Cases and the Role of Pre-trial Settlements

Sherman Act violations may give rise to criminal prosecutions and civil litigation instituted by the federal government (through the Department of Justice), as well as to civil suits filed by private parties. A significant percentage of the antitrust cases brought by the Department of Justice are settled without trial through *nolo contendere* pleas in criminal cases and *consent decrees* in civil cases. Although a defendant who pleads *nolo contendere* technically has not admitted guilt, the sentencing court is free to impose the same penalty that would be appropriate in the case of a guilty plea or a conviction at trial. Consent decrees involve a defendant's consent to remedial measures aimed at remedying the competitive harm resulting from his actions. Because neither a *nolo* plea nor a consent decree is admissible as proof of a violation of the Sherman Act in a private plaintiff's later civil suit, these devices are often attractive to antitrust defendants.

LOG ON

For considerable background material dealing with antitrust law (including what is meant to be a consumer-friendly explanation of antitrust enforcement), go to the Web site of the United States Department of Justice, at www.usdoj.gov.

Criminal Prosecutions Individuals criminally convicted of Sherman Act violations may receive a fine of up to \$1 million per violation and/or a term of imprisonment of up to 10 years. Corporations convicted of violating the Sherman Act may be fined up to \$100 million per violation. The maximum punishments just noted reflect recent statutory amendments in which Congress significantly increased the previous maximum penalties.

Before an individual may be found criminally responsible under the Sherman Act, however, the government must prove an *anticompetitive effect* flowing from the challenged activity, as well as *criminal intent* on the defendant's part. The level of criminal intent required for a violation is a "knowledge of [the challenged activity's] probable consequences" rather than a specific intent to violate the antitrust laws.² Civil violations of the antitrust

²*United States v. U.S. Gypsum Co.* (U.S. Sup. Ct. 1978).

laws may be proved, however, through evidence of either an unlawful purpose or an anticompetitive effect.

Civil Litigation The federal courts have broad injunctive powers to remedy civil antitrust violations. Courts may order convicted defendants to *divest* themselves of the stock or assets of acquired companies, to *divorce* themselves from a functional level of their operations (e.g., ordering a manufacturer to sell its captive retail outlets), to refrain from particular conduct in the future, and to cancel existing contracts. In extreme cases, courts may also enter a *dissolution decree* ordering a defendant to liquidate its assets and cease business operations. Private individuals and the Department of Justice may seek such injunctive relief regarding antitrust violations.

Treble Damages for Private Plaintiffs Section 4 of the Clayton Act gives private parties a significant incentive to enforce the antitrust laws by providing that private plaintiffs injured by Sherman Act or Clayton Act violations are entitled to recover *treble damages* plus court costs and attorney's fees from the defendant. This means that once antitrust plaintiffs have demonstrated the amount of their actual losses (such as lost profits or increased costs) resulting from the challenged violation, this amount is tripled. The potential for treble damage liability plainly presents a significant deterrent threat to potential antitrust violators.

Standing Private plaintiffs who seek to enforce the antitrust laws must first demonstrate that they have **standing** to sue. This means that they must show a *direct antitrust injury* as a result of the challenged behavior. An antitrust injury results from the unlawful aspects of the challenged behavior and is of the sort Congress sought to prevent. For example, in *Brunswick Corp. v. Pueblo Bowl-o-Mat, Inc.* (U.S. Sup. Ct. 1977), the operator of a chain of bowling centers (Pueblo) challenged a bowling equipment manufacturer's (Brunswick's) acquisition of various competing bowling centers that had defaulted on payments owed to Brunswick for equipment purchases. In essence, Pueblo asserted that if Brunswick had not acquired them, the failing bowling centers would have gone out of business—in which event Pueblo's profits would have increased. The Supreme Court rejected Pueblo's claim because its supposed losses flowed from Brunswick's having *preserved* competition by acquiring the failing centers. Allowing recovery for such losses would be contrary to the antitrust purpose of *promoting* competition.

Importance of Direct Injury Proof that an antitrust injury is *direct* is critical because the Supreme Court has held that *indirect purchasers* lack standing to sue for antitrust violations. In *Illinois Brick Co. v. State of Illinois* (U.S. Sup. Ct. 1977), the state of Illinois and other governmental entities sought treble damages from concrete block suppliers who, they alleged, had illegally fixed the price of block used in the construction of public buildings. The plaintiffs acknowledged that the builders hired to construct the buildings had actually paid the inflated prices for the blocks, but argued that these illegal costs probably had been passed on to them in the form of higher prices for building construction. The Supreme Court refused to allow recovery, holding that granting standing to indirect purchasers would create a risk of duplicative recoveries by purchasers at various levels in a product's chain of distribution. The Court also observed that affording standing to indirect purchasers would lead to difficult problems of tracing competitive injuries through several levels of distribution and assessing the extent of an indirect purchaser's actual losses.

A number of state legislatures responded to *Illinois Brick* by enacting statutes allowing indirect purchasers to sue under *state* antitrust statutes. The Supreme Court has held that the *Illinois Brick* holding does not preempt such statutes.

Section 1—Restraints of Trade

Concerted Action Section 1 of the Sherman Act states that “[e]very contract, combination in the form of trust or otherwise, or conspiracy, in restraint of trade or commerce among the several states, or with foreign nations is declared to be illegal.” A **contract** is any agreement, express or implied, between *two or more* persons or business entities to restrain competition. A **combination** is a continuing *partnership* in restraint of trade. When *two or more* persons or business entities join for the purpose of restraining trade, a **conspiracy** occurs.

The above statutory language makes obvious the conclusion that § 1 of the Sherman Act is aimed at **concerted action** (i.e., *joint action*) in restraint of trade. *Purely unilateral action* by a competitor, on the other hand, cannot violate § 1. This statutory section reflects the public policy that businesspersons should make important competitive decisions on their own, rather than in conjunction with competitors. In his famous book *The Wealth of Nations* (1776), Adam Smith acknowledged both the danger to competition posed by concerted action and the tendencies of competitors to engage in such

action. Smith observed that “[p]eople of the same trade seldom meet together, even for merriment and diversion, [without] the conversation end[ing] in a conspiracy against the public, or in some contrivance to raise prices.”

Section 1’s concerted action requirement poses two major problems. First, how separate must two business entities be before their joint activities are subject to the act’s prohibitions? It has long been held that a corporation cannot conspire with itself or its employees and that a corporation’s employees cannot be guilty of a conspiracy in the absence of some independent party. What about conspiracies, however, among related corporate entities? In decisions several decades ago, the Supreme Court appeared to hold that a corporation could violate the Sherman Act by conspiring with a wholly owned subsidiary. However, in *Copperweld Corp. v. Independence Tube Corp.* (U.S. Sup. Ct. 1984), the Court repudiated the “intra-enterprise conspiracy doctrine.” The Court held that a parent company is legally incapable of conspiring with a wholly owned subsidiary for Sherman Act purposes, because an agreement between parent and subsidiary does not create the risk to competition that results when two independent entities act in concert. It remains to be seen whether this approach extends to corporate subsidiaries and affiliates that are not wholly owned. *Copperweld*’s logic would appear, however, to cover any subsidiary in which the parent firm has a controlling interest.

A second—and more difficult—problem frequently accompanies attempts to enforce § 1. This problem arises when courts are asked to *infer*, from the relevant circumstances, the existence of an agreement or conspiracy to restrain trade despite the lack of any *overt* agreement by the parties. Should parallel pricing behavior by several firms be enough, for instance, to justify the inference that a price-fixing conspiracy exists? Courts have consistently held that proof of pure *conscious parallelism*, standing alone, is *not* enough to establish a § 1 violation. Other evidence must be presented to show that the defendants’ actions stemmed from an **agreement**, *express or implied*, rather than from independent business decisions. It therefore becomes quite difficult to attack *oligopolies* (a few large firms sharing one market) under § 1, because such firms may independently elect to follow the pricing policies of the industry “price leader” rather than risk their large market shares by engaging in vigorous price competition.

Per Se Analysis Although § 1’s language condemns “every” contract, combination, and conspiracy in

restraint of trade, the Supreme Court has long held that the Sherman Act applies only to behavior that *unreasonably* restrains competition. In addition, the Court has developed two fundamentally different approaches to analyzing behavior challenged under § 1. According to the Court, some actions always have a negative effect on competition—an effect that cannot be excused or justified. Such actions are classified as **per se** unlawful. If a particular behavior falls under the per se heading, it is conclusively presumed to violate § 1. Per se rules are thought to provide reliable guidance to business. They also simplify otherwise lengthy antitrust litigation, because if per se unlawful behavior is proven, the defendant cannot assert any supposed justifications in an attempt to avoid liability.

Per se rules, however, are frequently criticized on the ground that they oversimplify complex economic realities. Recent decisions reveal that for *various* economic activities, the Supreme Court is moving away from per se rules and instead adopting **rule of reason** analysis. This trend is consistent with the Court’s increased inclination to consider economic theories that seek to justify behavior previously held to be per se unlawful.

“Rule of Reason” Analysis Behavior not classified as per se unlawful is judged under the **rule of reason**. This approach requires a detailed inquiry into the actual competitive effects of the defendant’s actions. It includes consideration of any justifications that the defendant may advance. If the court concludes that the challenged activity had a significant anticompetitive effect that was not offset by any positive effect on competition or other social benefit such as enhanced economic efficiency, the activity will be held to violate § 1. On the other hand, if the court concludes that the justifications advanced by the defendant outweigh the harm to competition resulting from the defendant’s activity, there is no § 1 violation.

In recent years, courts have sometimes employed a so-called quick-look analysis instead of a full-fledged rule of reason analysis. Quick-look analysis may be described as an intermediate type of analysis that falls somewhere between the black-and-white per se approach and the more complicated rule of reason approach. Courts may be inclined to employ quick-look analysis when they believe the behavior at issue could have both anticompetitive and procompetitive effects that can be weighed against each other without the extensive market analyses that may be necessary under full rule of reason treatment. In this sense, quick-look analysis may be a toned-down version of the rule of reason approach.

The following subsections of this chapter examine some of the behaviors held to violate § 1. The legal analysis given to the respective behaviors is also considered.

Horizontal Price-Fixing An essential attribute of a free market is that the price of goods and services is determined by the free play of the impersonal forces of the marketplace. Attempts by competitors to interfere with market forces and control prices—called **horizontal price-fixing**—have long been held per se unlawful under § 1. Horizontal price-fixing may take the form of direct agreements among competitors about the price at which they sell or buy a particular product or service. It may also be accomplished by agreements on the quantity of goods to be produced, offered for sale, or bought. In one famous case, an agreement by major oil refiners to purchase and store the excess production of small independent refiners was held to amount to price-fixing because the purpose of the agreement was to

affect the market price for gasoline by artificially limiting the available supply.³

Some commentators have suggested that agreements among competitors to fix *maximum* prices should be treated under a rule of reason approach rather than the harsher per se standard because, in some instances, such agreements may result in savings to consumers. In addition, lower courts have occasionally sought to craft exceptions to the rule that horizontal price-fixing triggers per se treatment. It is important to note, however, that the Supreme Court continues to adhere to the long-standing rule of per se illegality for any form of horizontal price-fixing. In the *Denny's Marina* case, which follows, a federal court of appeals overturned a district court's attempt to limit the applicability of the per se rule in the horizontal price-fixing context.

³*United States v. Socony-Vacuum Oil Co.*, 310 U.S. 150 (U.S. Sup. Ct. 1940).

Denny's Marina, Inc. v. Renfro Productions, Inc. 8 F.3d 1217 (7th Cir. 1993)

Denny's Marina, Inc., filed an antitrust action, described more fully below, against various defendants: the "Renfro Defendants" (Renfro Productions, Inc., Indianapolis Boat, Sport, and Travel Show, Inc., and individuals connected with those firms); "CIMDA" (the Central Indiana Marine Dealers Association); and the "Dealer Defendants" (various boat dealers who competed with Denny's in the sale of fishing boats, motors, trailers, and marine accessories in the central Indiana market). The Renfro Defendants operate two boat shows each year, one in the spring and one in the fall, at the Indiana State Fairgrounds. The spring show has occurred annually for more than 30 years and is one of the top three boat shows in the United States. It attracts between 160,000 and 191,000 consumers each year. The fall show is a smaller operation that has occurred each year since 1987. Numerous boat dealers participate in the two shows.

Denny's participated in the fall show in 1988, 1989, and 1990. It participated in the spring show in 1989 and 1990. According to allegations made by Denny's in its antitrust complaint, Denny's was quite successful at each of these shows, apparently because it urged customers to shop the other dealers and then return to Denny's for a lower price. After the 1989 spring show, some of the Dealer Defendants began to complain (according to Denny's) to the Renfro Defendants about the sales methods used by Denny's. In addition, Denny's alleged, the Dealer Defendants spent a significant part of a CIMDA meeting venting frustration about similar sales tactics used by Denny's at the 1990 spring show. Denny's also asserted that the Dealer Defendants' complaints to the Renfro Defendants escalated, and that as a result, the Renfro Defendants informed Denny's after the 1990 fall show that Denny's could no longer participate in the boat shows.

Denny's claimed that the above-described conduct of the defendants amounted to a conspiracy, prohibited by Sherman Act § 1, to exclude Denny's from participating in the boat shows because its policy was to "meet or beat" its competitors' prices at the shows. When the district court granted the defendants' motions for summary judgment, Denny's appealed to the Seventh Circuit Court of Appeals.

Cummings, Circuit Judge

Because summary judgment was granted to the defendants, the facts alleged by Denny's and any inferences therefrom must be construed in its favor. Summary judgment will be denied if a reasonable jury could return a verdict for the plaintiff.

A successful claim under § 1 of the Sherman Act requires proof of three elements: (1) a contract, combination, or conspiracy; (2) a resultant unreasonable restraint of trade in the relevant market; and (3) an accompanying injury. The district court noted that [for purposes of a ruling on their summary

judgment motions] defendants do not dispute the first and third elements of proof. Hence the parties' only argument is whether Denny's has made a sufficient showing of the second element, unreasonable restraint of trade, to withstand defendants' motions for summary judgment.

There are two standards for evaluating whether an alleged restraint of trade is unreasonable: the rule of reason and the per se rule. Because the restraint alleged by Denny's constitutes a horizontal price-fixing conspiracy, it is per se an unreasonable restraint of trade [under a long line of Supreme Court decisions]. The conspiracy in this case was horizontal because it . . . consisted of Denny's competitors and their association. That the conspiracy was joined by the operators of the . . . boat shows does not transform it into a vertical agreement.

Likewise, the conspiracy was to fix prices. Price-fixing agreements need not include "explicit agreement on prices to be charged or that one party have the right to be consulted about the other's prices." *Palmer v. BRG of Georgia, Inc.* (U.S. Sup. Ct. 1990). "Under the Sherman Act a combination formed for the purpose and with the effect of raising, depressing, fixing, pegging, or stabilizing the price of a commodity in interstate or foreign commerce is illegal per se." *United States v. Socony-Vacuum Oil Co.* (U.S. Sup. Ct. 1940). Concerted action by dealers to protect themselves from price competition by discounters constitutes horizontal price-fixing. Hence the actions of the Dealer Defendants and CIMDA, joined by the Renfro Defendants, to prevent Denny's from participating in the boat shows constitutes a horizontal price-fixing conspiracy notwithstanding the apparent lack of an explicit agreement to set prices.

So far, the position of this court is similar to that of the court below. Nevertheless, having essentially found that Denny's had adduced sufficient evidence of a horizontal price-fixing conspiracy to withstand a motion for summary judgment, the court

below refused to apply the per se rule that would allow it to conclude that there had been an unreasonable restraint of trade in the relevant market. Instead, before it would apply the per se rule the court required Denny's to demonstrate a substantial potential for impact on competition in the central Indiana market as a whole. Such an exception to the per se rule against price-fixing is unwarranted by cited precedent . . . [and] would effectively require plaintiffs to make a rule of reason demonstration in order to invoke the per se rule! [In cases governed by the rule of reason], both parties are likely to present extensive economic analysis of the relevant market. It is in part to avoid such excessive costs of litigation that the per se rule is applied in cases where the anti-competitive effect of certain practices may be presumed.

As far back as 1940, it has been clear that horizontal price-fixing is illegal per se without requiring a showing of actual or likely impact on a market. *See Socony-Vacuum Oil*. This is because joint action by competitors to suppress price-cutting has the requisite "substantial potential for impact on competition" to warrant per se treatment. *Federal Trade Commission v. Superior Court Trial Lawyers Association* (U.S. Sup. Ct. 1990). The district court would require Denny's to demonstrate a particular potential for impact on the market, when one of the purposes of the per se rule is that in cases like this such a potential is so well-established as not to require individualized showings. The pernicious effects are conclusively presumed.

Since Denny's presented enough evidence for a court and jury to conclude that the defendants engaged in [per se behavior consisting of] a horizontal conspiracy to suppress price competition at boat shows, . . . the district court's grant of summary judgment to the defendants [was erroneous].

Summary judgment for defendants reversed; case remanded for trial.

Vertical Price-Fixing Attempts by manufacturers to control the resale price of their products may also fall within the scope of § 1. This behavior is called **vertical price-fixing** or *resale price maintenance*. In determining whether vertical price-fixing occurred, the first question is whether there was only unilateral action on the part of the manufacturer or whether there was instead the concerted action contemplated by § 1. A manufacturer may lawfully state a suggested retail price for its products—an action that is unilateral and therefore not a violation of § 1. Illegality may be present, however, when there is a manufacturer-dealer agreement (express or implied) obligating the dealer to resell at a price dictated by the manufacturer.

Unilateral Refusals to Deal In *United States v. Colgate & Co.* (1919), the Supreme Court held that a manufacturer could *unilaterally refuse to deal* with those who failed to follow the manufacturer's suggested resale prices. The rationale underlying this rule was that a single firm may deal or not deal with whomever it chooses without violating § 1, because unilateral action is not the joint action prohibited by the statute. Subsequent decisions, however, have narrowly construed the *Colgate* doctrine. Depending upon the facts, circumstances, and effects, manufacturers may be held to have violated § 1 if they enlist the aid of dealers who are not price-cutting to help enforce their (the manufacturers') pricing policies, or if they engage in other concerted action to further

those policies. “May be held to have violated § 1” is important language in the previous sentence, in view of the mode of analysis now required by the Supreme Court in cases of alleged resale price maintenance.

The Shift to Rule of Reason Until relatively recently, Supreme Court decisions established that vertical price-fixing was a per se violation of § 1. With per se treatment being given to such cases, defendants were not permitted to offer justifications for their behavior. Chicago School theorists argued, however, that many of the same reasons held to justify rule of reason analysis of vertical *nonprice* restraints on distribution (discussed later in this chapter) were equally applicable to vertical price-fixing agreements. In particular, these critics argued that vertical restrictions limiting the *maximum* price at which a dealer can resell may prevent dealers with dominant market positions from exploiting consumers through price-

gouging. In *State Oil Co. v. Khan*, a 1997 decision that follows shortly, the Supreme Court agreed with the critics, overruled a long-standing precedent that called for per se treatment of vertical maximum price-fixing, and held that such cases of vertical price-fixing should be analyzed under the rule of reason.

For 10 years after *Khan* was decided, vertical *minimum* price-fixing continued to be governed by the per se rule. Arguments for rule of reason analysis continued to resonate, however. In a 5–4 decision issued in 2007, the Supreme Court overruled a 96-year-old precedent and held that vertical minimum price-fixing would be judged under the rule of reason rather than the per se approach. The 2007 decision, *Leegin Creative Leather Products v. PSKS, Inc.*, appears below (immediately following the *Khan* case). After *Khan* and *Leegin*, all forms of vertical price-fixing now receive rule of reason analysis.

State Oil Co. v. Khan

522 U.S. 3 (U.S. Sup. Ct. 1997)

Barkat Khan operated a service station in Illinois under a contract with State Oil Co. The parties’ contract called for State Oil to lease the station premises to Khan and for State Oil to supply him with gasoline and related products that he would sell at the station. According to the contract, State Oil would establish a suggested retail price for the gasoline it supplied Khan for resale under the “Union 76” brand name. State Oil would then sell the gasoline to Khan for 3.25 cents less than that price. If Khan regarded the suggested retail price as too low, he could ask State Oil to increase it. If State Oil refused to raise the suggested price and Khan increased his retail price anyway, the contract required Khan to rebate to State Oil the difference between his new price and the suggested price.

When Khan fell behind on his rent, State Oil terminated the contract. Khan then sued State Oil, alleging that the above provisions of the contract amounted to vertical maximum price-fixing in violation of § 1 of the Sherman Act. The district court held that the alleged price-fixing should be evaluated under the rule of reason approach rather than under the per se approach. When the court granted summary judgment in favor of State Oil, Khan appealed to the U.S. Court of Appeals for the Seventh Circuit. The Seventh Circuit reversed, holding that a Supreme Court precedent established the per se rule as controlling. The Supreme Court granted certiorari.

O’Connor, Justice

In *Albrecht v. Herald Co.* (U.S. Sup. Ct. 1968), this Court held that vertical maximum price-fixing is a per se violation of [§ 1 of the Sherman Act]. [W]e are asked to reconsider that decision.

The District Court found that [Khan’s] allegations . . . did not establish the sort of “manifestly anticompetitive implications or pernicious effect on competition” that would justify per se prohibition of State Oil’s conduct. The Court of Appeals for the Seventh Circuit reversed [the lower court’s grant of summary judgment in favor of State Oil]. The [Seventh Circuit] first noted that the agreement between Khan and State Oil did indeed fix maximum gasoline prices by making it “worthless” for Khan to exceed the suggested retail prices. After reviewing legal and economic aspects of price-fixing, the court concluded

that State Oil’s pricing scheme was a per se antitrust violation under *Albrecht*. Although the [Seventh Circuit] characterized *Albrecht* as “unsound when decided” and “inconsistent with later decisions” of this Court, it felt constrained to follow that decision.

[M]ost antitrust claims are analyzed under a “rule of reason,” according to which the finder of fact must decide whether the questioned practice imposes an unreasonable restraint on competition, taking into account a variety of factors, including specific information about the relevant business, its condition before and after the restraint was imposed, and the restraint’s history, nature, and effect. Some types of restraints, however, have such predictable and pernicious anticompetitive effect, and such limited potential for procompetitive benefits, that they are deemed unlawful per se.

A review of this Court's decisions leading up to and beyond *Albrecht* is relevant to our assessment of the continuing validity of the per se rule established in *Albrecht*. Beginning with [a 1911 decision], the Court recognized the illegality of agreements under which manufacturers or suppliers set the minimum resale prices to be charged by their distributors. By 1940, the Court broadly declared all business combinations "formed for the purpose and with the effect of raising, depressing, fixing, pegging, or stabilizing the price of a commodity in interstate or foreign commerce" illegal per se. *United States v. Socony-Vacuum Oil Co.* (U.S. Sup. Ct. 1940). Accordingly, the Court condemned an agreement between two affiliated liquor distillers to limit the maximum price charged by retailers in *Kiefer-Stewart Co. v. Joseph E. Seagram & Sons, Inc.* (U.S. Sup. Ct. 1951).

In subsequent cases, the Court's attention turned to arrangements through which suppliers imposed restrictions on dealers with respect to matters other than resale price. In [a 1963 decision], the Court considered the validity of a manufacturer's assignment of exclusive territories to its distributors and dealers. The Court concluded that too little was known about the competitive impact of such vertical limitations to warrant treating them as per se unlawful. Four years later, in *United States v. Arnold, Schwinn & Co.* (U.S. Sup. Ct. 1967), the Court reconsidered the status of exclusive dealer territories and held that . . . a supplier's imposition of territorial restrictions on [a] distributor was "so obviously destructive of competition" as to constitute a per se violation of the Sherman Act.

Albrecht, decided [a year after *Schwinn*], involved a newspaper publisher who had granted exclusive territories to independent carriers subject to their adherence to a maximum price on resale of the newspapers to the public. Influenced by its decisions in *Socony-Vacuum*, *Kiefer-Stewart*, and *Schwinn*, the Court concluded that it was per se unlawful for the publisher to fix the maximum resale price of its newspapers. The Court acknowledged that "[m]aximum and minimum price-fixing may have different consequences in many situations," but nonetheless condemned maximum price-fixing for "substituting the perhaps erroneous judgment of a seller for the forces of the competitive market."

Nine years later, in *Continental T.V., Inc. v. GTE Sylvania, Inc.* (U.S. Sup. Ct. 1977), the Court overruled *Schwinn*, thereby rejecting application of a per se rule in the context of vertical nonprice restrictions. [The Court noted that *Schwinn*] neither explained the "sudden change in position," nor referred to the accepted requirements for per se violations set forth in [earlier cases]. The Court . . . reviewed scholarly works supporting the economic utility of vertical nonprice restraints. [It then] concluded that, because "departure from the rule-of-reason standard must be based upon demonstrable economic effect rather

than—as in *Schwinn*—upon formalistic line-drawing," the appropriate course would be "to return to the rule of reason that governed vertical restrictions prior to *Schwinn*."

Subsequent decisions of the Court . . . have hinted that the analytical underpinnings of *Albrecht* were substantially weakened by *Sylvania*. We noted in [a 1982 decision] that vertical restraints are generally more defensible than horizontal restraints. [W]e explained in *324 Liquor Corp. v. Duffy* (U.S. Sup. Ct. 1987) that decisions such as *Sylvania* "recognize the possibility that a vertical restraint imposed by a single manufacturer or wholesaler may stimulate interbrand competition even as it reduces intrabrand competition."

[I]n *Atlantic Richfield Co. v. USA Petroleum Co. (ARCO)* (U.S. Sup. Ct. 1990), although *Albrecht*'s continuing validity was not squarely before the Court, some disfavor with that decision was signaled by our statement that we would "assume, *arguendo*, that *Albrecht* correctly held that vertical maximum price-fixing is subject to the per se rule." More significantly, we specifically acknowledged that vertical maximum price-fixing "may have procompetitive interbrand effects," and pointed out that, in the wake of *Sylvania*, "[t]he procompetitive potential of a vertical maximum price restraint is more evident . . . than it was when *Albrecht* was decided, because exclusive territorial arrangements and other nonprice restrictions were unlawful per se in 1968."

Thus, our reconsideration of *Albrecht*'s continuing validity is informed by several of our decisions, as well as a considerable body of scholarship discussing the effects of vertical restraints. Our analysis is also guided by our general view that the primary purpose of the antitrust laws is to protect interbrand competition. "Low prices," we . . . explained [in *ARCO*], "benefit consumers regardless of how those prices are set, and so long as they are above predatory levels, they do not threaten competition."

So informed, we find it difficult to maintain that vertically-imposed maximum prices could harm consumers or competition to the extent necessary to justify their per se invalidation. As Chief Judge Posner wrote for the Court of Appeals in this case:

As for maximum resale price fixing, . . . the supplier [usually] cannot squeeze his dealers' margins below a competitive level; the attempt to do so would just drive the dealers into the arms of a competing supplier. A supplier might, however, fix a maximum resale price in order to prevent his dealers from exploiting a monopoly position. . . . [S]uppose that State Oil, perhaps to encourage . . . dealer services . . ., has spaced its dealers sufficiently far apart to limit competition among them (or even given each of them an exclusive territory); and suppose further that Union 76 is a sufficiently distinctive and popular brand to give the dealers in it

at least a modicum of monopoly power. Then State Oil might want to place a ceiling on the dealers' resale prices in order to prevent them from exploiting that monopoly power fully. It would do this not out of disinterested malice, but in its commercial self-interest. The higher the price at which gasoline is resold, the smaller the volume sold, and so the lower the profit to the supplier if the higher profit per gallon at the higher price is being snared by the dealer.

We recognize that the *Albrecht* decision presented a number of theoretical justifications for a per se rule against vertical maximum price-fixing. But criticism of those premises abounds. The *Albrecht* decision was grounded in the fear that maximum price-fixing by suppliers could interfere with dealer freedom. [However, as noted by Phillip Areeda in his treatise, *Antitrust Law*,] "the ban on maximum resale price limitations declared in *Albrecht* in the name of 'dealer freedom' has actually prompted many suppliers to integrate forward into distribution, thus eliminating the very independent trader for whom *Albrecht* professed solicitude."

The *Albrecht* Court also expressed the concern that maximum prices may be set too low for dealers to offer consumers essential or desired services. But such conduct, by driving away customers, would seem likely to harm manufacturers as well as dealers and consumers, making it unlikely that a supplier would set such a price as a matter of business judgment. In addition, *Albrecht* noted that vertical maximum price-fixing could effectively channel distribution through large or specially advantaged dealers. It is unclear, however, that a supplier would profit from limiting its market by excluding potential dealers. Further, although vertical maximum price-fixing might limit the viability of inefficient dealers, that consequence is not necessarily harmful to competition and consumers.

Finally, *Albrecht* reflected the Court's fear that maximum price-fixing could be used to disguise arrangements to fix minimum prices, which remains illegal per se. Although we have

acknowledged the possibility that maximum pricing might mask minimum pricing, we believe that such conduct—as with the other concerns articulated in *Albrecht*—can be appropriately recognized and punished under the rule of reason. After reconsidering *Albrecht's* rationale and the substantial criticisms the decision has received, . . . we conclude that there is insufficient economic justification for per se invalidation of vertical maximum price-fixing.

Despite what Chief Judge Posner aptly described as *Albrecht's* "infirmities, [and] its increasingly wobbly, motheaten foundations," there remains the question whether *Albrecht* deserves continuing respect under the doctrine of *stare decisis*. The Court of Appeals was correct in applying that principle despite disagreement with *Albrecht*, for it is this Court's prerogative alone to overrule one of its precedents. We approach the reconsideration of decisions of this Court with the utmost caution. *Stare decisis* reflects "a policy judgment that in most matters it is more important that the applicable rule of law be settled than that it be settled right." *Agostini v. Felton* (U.S. Sup. Ct. 1997). But "[s]tare decisis is not an inexorable command." *Payne v. Tennessee* (U.S. Sup. Ct. 1991). In the area of antitrust law, there is a competing interest, well-represented in this Court's decisions, in recognizing and adapting to changed circumstances and the lessons of accumulated experience.

With the views underlying *Albrecht* eroded by this Court's precedent, there is not much of that decision to salvage. [W]e find its conceptual foundations gravely weakened. In overruling *Albrecht*, we of course do not hold that all vertical maximum price-fixing is per se lawful. Instead, vertical maximum price-fixing, like the majority of commercial arrangements subject to the antitrust laws, should be evaluated under the rule of reason.

Decision of Court of Appeals reversed; case remanded for further proceedings.

Leegin Creative Leather Products v. PSKS, Inc. 127 S. Ct. 2705 (U.S. Sup. Ct. 2007)

Leegin Creative Leather Products, Inc., designs, manufactures, and distributes leather goods and accessories. In 1991, Leegin began to sell belts under the "Brighton" brand name. The Brighton brand has since expanded into a variety of women's fashion accessories. It is sold across the United States in over 5,000 retail establishments. PSKS, Inc., operates Kay's Kloset, a women's apparel store that, in 1995, began purchasing Brighton goods from Leegin for retail sale. Brighton became the store's most important brand and once accounted for 40 to 50 percent of its profits.

In 1997, Leegin instituted the "Brighton Retail Pricing and Promotion Policy." Under this policy, Leegin refused to sell to retailers that discounted Brighton goods below suggested prices. Leegin adopted the policy to give its retailers sufficient margins to enable them to provide customers the service central to its distribution strategy. It also expressed concern that

discounting harmed Brighton's brand image and reputation. In 1998, Leegin implemented a "Heart Stores" policy, under which retailers were given incentives to become Heart Stores and, in return, pledged to adhere to Leegin's suggested prices. Kay's Kloset became a Heart Store but later lost that status when a Leegin representative concluded that the store was physically unattractive. Kay's Kloset continued, however, to purchase Brighton products for resale at the store.

In December 2002, Leegin discovered that Kay's Kloset had been marking down the entire Brighton line by 20 percent. Kay's Kloset contended that it did so in order to compete with nearby retailers who also were undercutting Leegin's suggested prices. Leegin requested that Kay's Kloset cease discounting, but Kay's Kloset refused. Leegin then stopped selling to the store. The loss of the Brighton brand had a considerable negative impact on Kay's Kloset's revenues.

PSKS sued Leegin in federal district court, claiming that Leegin had violated Sherman Act § 1 by "enter[ing] into agreements with retailers to charge only those prices fixed by Leegin." Leegin planned to introduce expert testimony describing the procompetitive effects of its pricing policy. The district court excluded the testimony, however, because long-standing Supreme Court precedent extended *per se* treatment to vertical minimum price-fixing. At trial, PSKS argued that the Heart Store program, among other things, demonstrated that Leegin and its retailers had agreed to fix prices. Leegin responded that it had established a lawful unilateral pricing policy rather than engaging in the concerted action required for a violation of § 1. The jury agreed with PSKS and awarded it \$1.2 million in damages. The district court trebled the damages and ordered reimbursement of PSKS for its attorney's fees. In its appeal to the U.S. Court of Appeals for the Fifth Circuit, Leegin did not dispute that it had entered into vertical price-fixing agreements with its retailers. Rather, it contended that the rule of reason should have been applied to those agreements. Rejecting this argument because it considered itself bound by Supreme Court precedent, the Fifth Circuit affirmed the district court's decision. The U.S. Supreme Court granted Leegin's petition for a writ of certiorari.

Kennedy, Justice

In *Dr. Miles Medical Co. v. John D. Park & Sons Co.*, 220 U.S. 373 (1911), the Court established the rule that it is *per se* illegal under § 1 of the Sherman Act for a manufacturer to agree with its distributor to set the minimum price the distributor can charge for the manufacturer's goods. The question presented by the instant case is whether the Court should overrule the *per se* rule and allow resale price maintenance agreements to be judged by the rule of reason, the usual standard applied to determine if there is a violation of § 1.

Section 1 prohibits "[e]very contract, combination in the form of trust or otherwise, or conspiracy, in restraint of trade or commerce among the several States." While § 1 could be interpreted to proscribe all contracts, . . . the Court has repeated time and again that § 1 "outlaw[s] only unreasonable restraints." *State Oil Co. v. Khan*, 522 U.S. 3, 10 (1997). The rule of reason is the accepted standard for testing whether a practice restrains trade in violation of § 1. "Under this rule, the factfinder weighs all of the circumstances of a case in deciding whether a restrictive practice should be prohibited as imposing an unreasonable restraint on competition." *Continental T.V., Inc. v. GTE Sylvania, Inc.*, 433 U.S. 36, 49 (1977). Appropriate factors to take into account include "specific information about the relevant business" and "the restraint's history, nature, and effect." *Khan*, at 10. Whether the businesses involved have market power is a further, significant consideration. In its design and function the rule distinguishes between restraints with anticompetitive effect that are harmful to the consumer and restraints stimulating competition that are in the consumer's best interest.

The rule of reason does not govern all restraints. Some types are deemed unlawful *per se*. The *per se* rule, treating categories of restraints as necessarily illegal, eliminates the need to study the reasonableness of an individual restraint in light of the real market forces at work. [I]t must be acknowledged [that] the *per se* rule can give clear guidance for certain conduct. Restraints that are *per se* unlawful include horizontal agreements among competitors to fix prices or to divide markets.

Resort to *per se* rules is confined to restraints, like those mentioned, "that would always or almost always tend to restrict competition and decrease output." [Case citation omitted.] To justify a *per se* prohibition a restraint must have "manifestly anticompetitive" effects and "lack . . . any redeeming virtue." [Case citations omitted.] As a consequence, the *per se* rule is appropriate only after courts have had considerable experience with the type of restraint at issue, and only if courts can predict with confidence that it would be invalidated in all or almost all instances under the rule of reason. It should come as no surprise, then, that "we have expressed reluctance to adopt *per se* rules with regard to restraints imposed in the context of business relationships where the economic impact of certain practices is not immediately obvious." *Khan*, at 10. [A]s we have stated, "a departure from the rule of reason standard must be based upon demonstrable economic effect rather than upon formalistic line-drawing." *GTE Sylvania*, at 58–59.

The Court has interpreted *Dr. Miles* as establishing a *per se* rule against a vertical agreement between a manufacturer and its distributor to set minimum resale prices. In *Dr. Miles*, the plaintiff, a manufacturer of medicines, sold its products only to

distributors who agreed to resell them at set prices. The Court found the manufacturer's control of resale prices to be unlawful. It relied on the common-law rule that "a general restraint upon alienation is ordinarily invalid." The Court then explained that the agreements would advantage the distributors, not the manufacturer, and were analogous to a combination among competing distributors, which the law treated as void.

The reasoning of the Court's more recent jurisprudence has rejected the rationales on which *Dr. Miles* was based. By relying on the common-law rule against restraints on alienation, the Court justified its decision based on "formalistic" legal doctrine rather than "demonstrable economic effect" [quoting *GTE Sylvania*]. The Court in *Dr. Miles* relied on a treatise published in 1628, but failed to discuss in detail the business reasons that would motivate a manufacturer situated in 1911 to make use of vertical price restraints. The Court should be cautious about putting dispositive weight on doctrines from antiquity but of slight relevance. We reaffirm that "the state of the common law 400 or even 100 years ago is irrelevant to the issue before us: the effect of the antitrust laws upon vertical distributional restraints in the American economy today." *GTE Sylvania*, at 53.

Dr. Miles, furthermore, treated vertical agreements a manufacturer makes with its distributors as analogous to a horizontal combination among competing distributors. In later cases, however, the Court rejected the approach of reliance on rules governing horizontal restraints when defining rules applicable to vertical ones. Our recent cases formulate antitrust principles in accordance with the appreciated differences in economic effect between vertical and horizontal agreements, differences the *Dr. Miles* Court failed to consider. The reasons upon which *Dr. Miles* relied do not justify a per se rule. As a consequence, it is necessary to examine, in the first instance, the economic effects of vertical agreements to fix minimum resale prices, and to determine whether the per se rule is nonetheless appropriate.

Though each side of the debate can find sources to support its position, it suffices to say here that economics literature is replete with procompetitive justifications for a manufacturer's use of resale price maintenance. The few recent studies documenting the competitive effects of resale price maintenance also cast doubt on the conclusion that the practice meets the criteria for a per se rule. The justifications for vertical price restraints are similar to those for other vertical restraints. Minimum resale price maintenance can stimulate interbrand competition—the competition among manufacturers selling different brands of the same type of product—by reducing intrabrand competition—the competition among retailers selling the same brand. The promotion of interbrand competition is important because "the primary purpose of the antitrust laws is to protect [this type of] competition." *Khan*, at 15. A single manufacturer's use of vertical price restraints tends to eliminate

intrabrand price competition; this in turn encourages retailers to invest in tangible or intangible services or promotional efforts that aid the manufacturer's position as against rival manufacturers. Resale price maintenance also has the potential to give consumers more options so that they can choose among low-price, low-service brands; high-price, high-service brands; and brands that fall in between.

Absent vertical price restraints, the retail services that enhance interbrand competition might be underprovided. This is because discounting retailers can free ride on retailers who furnish services and then capture some of the increased demand those services generate. Consumers might learn, for example, about the benefits of a manufacturer's product from a retailer that invests in fine showrooms, offers product demonstrations, or hires and trains knowledgeable employees. Or consumers might decide to buy the product because they see it in a retail establishment that has a reputation for selling high-quality merchandise. If the consumer can then buy the product from a retailer that discounts because it has not spent capital providing services or developing a quality reputation, the high-service retailer will lose sales to the discounter, forcing it to cut back its services to a level lower than consumers would otherwise prefer. Minimum resale price maintenance alleviates the problem because it prevents the discounter from undercutting the service provider. With price competition decreased, the manufacturer's retailers compete among themselves over services.

While vertical agreements setting minimum resale prices can have procompetitive justifications, they may have anticompetitive effects in other cases; and unlawful price fixing, designed solely to obtain monopoly profits, is an ever-present temptation. Notwithstanding the risks of unlawful conduct, it cannot be stated with any degree of confidence that resale price maintenance always or almost always tend[s] to restrict competition and decrease output. Vertical agreements establishing minimum resale prices can have either procompetitive or anticompetitive effects, depending upon the circumstances in which they are formed. And although the empirical evidence on the topic is limited, it does not suggest efficient uses of the agreements are infrequent or hypothetical. As the rule would proscribe a significant amount of procompetitive conduct, these agreements appear ill suited for per se condemnation.

PSKS contends, nonetheless, that vertical price restraints should be per se unlawful because of the administrative convenience of per se rules. That argument suggests per se illegality is the rule rather than the exception. This misinterprets our antitrust law. Per se rules may decrease administrative costs, but that is only part of the equation. Those rules can be counterproductive. They can increase the total cost of the antitrust system by prohibiting procompetitive conduct the antitrust laws should encourage. They also may increase litigation costs

by promoting frivolous suits against legitimate practices. Were the Court now to conclude that vertical price restraints should be per se illegal based on administrative costs, we would undermine, if not overrule, the traditional demanding standards for adopting per se rules. Any possible reduction in administrative costs cannot alone justify the *Dr. Miles* rule.

PSKS also argues the per se rule is justified because a vertical price restraint can lead to higher prices for the manufacturer's goods. PSKS is mistaken in relying on pricing effects absent a further showing of anticompetitive conduct. For, as has been indicated already, the antitrust laws are designed primarily to protect interbrand competition, from which lower prices can later result. The Court, moreover, has evaluated other vertical restraints under the rule of reason even though prices can be increased in the course of promoting procompetitive effects.

The rule of reason is designed and used to eliminate anticompetitive transactions from the market. This standard principle applies to vertical price restraints. A party alleging injury from a vertical agreement setting minimum resale prices will have, as a general matter, the information and resources available to show the existence of the agreement and its scope of operation. As courts gain experience considering the effects of these restraints by applying the rule of reason over the course of decisions, they can establish the litigation structure to ensure the rule operates to eliminate anticompetitive restraints from the market and to provide more guidance to businesses.

For the foregoing reasons, we think that were the Court considering the issue as an original matter, the rule of reason, not a per se rule of unlawfulness, would be the appropriate standard to judge vertical price restraints. We do not write on a clean slate, [however,] for the decision in *Dr. Miles* is almost a century old. So there is an argument for its retention on the basis of stare decisis alone. Even if *Dr. Miles* established an erroneous rule, “[s]tare decisis reflects a policy judgment that in most matters it is more important that the applicable rule of law be settled than that it be settled right.” *Khan*, at 20. And concerns about maintaining settled law are strong when the question is one of statutory interpretation.

Stare decisis is not as significant in this case, however, because the issue before us is the scope of the Sherman Act. *Khan*, at 20 (“[T]he general presumption that legislative changes should be left to Congress has less force with respect to the Sherman Act”). From the beginning the Court has treated the Sherman Act as [if it were common law]. Just as the common law adapts to modern understanding and greater experience, so too does the Sherman Act’s prohibition on “restraint[s] of trade” evolve to meet the dynamics of present economic conditions. The case-by-case adjudication contemplated by the rule of reason has implemented this common-law approach. Likewise, the boundaries of the doctrine of per se illegality

should not be immovable. For “[i]t would make no sense to create out of the single term ‘restraint of trade’ a chronologically schizoid statute, in which a ‘rule of reason’ evolves with new circumstance and new wisdom, but a line of per se illegality remains forever fixed where it was.” [Case citation omitted.]

Stare decisis, we conclude, does not compel our continued adherence to the per se rule against vertical price restraints. As discussed earlier, respected authorities in the economics literature suggest the per se rule is inappropriate, and there is now widespread agreement that resale price maintenance can have procompetitive effects. It is also significant that both the Department of Justice and the Federal Trade Commission—the antitrust enforcement agencies with the ability to assess the long-term impacts of resale price maintenance—have recommended that this Court replace the per se rule with the traditional rule of reason. In the antitrust context the fact that a decision has been “called into serious question” justifies our reevaluation of it. *Khan*, at 21.

Other considerations reinforce the conclusion that *Dr. Miles* should be overruled. Of most relevance, “we have overruled our precedents when subsequent cases have undermined their doctrinal underpinnings.” [Case citation omitted.] The Court’s treatment of vertical restraints has progressed away from *Dr. Miles*’ strict approach. We have distanced ourselves from the opinion’s rationales. This is unsurprising, for the case was decided not long after enactment of the Sherman Act when the Court had little experience with antitrust analysis.

In more recent cases the Court . . . has continued to temper, limit, or overrule once strict prohibitions on vertical restraints. In 1977, the Court overturned the per se rule for vertical non-price restraints, adopting the rule of reason in its stead. *GTE Sylvania*, at 57–59. [I]n 1997, after examining the issue of vertical maximum price-fixing agreements in light of commentary and real experience, the Court overruled a 29-year-old precedent treating those agreements as per se illegal. It held instead that they should be evaluated under the traditional rule of reason. *Khan*, at 22. [O]ur recent treatment of other vertical restraints justif[ies] the conclusion that *Dr. Miles* should not be retained.

The *Dr. Miles* rule is also inconsistent with a principled framework, for it makes little economic sense when analyzed with our other cases on vertical restraints. If we were to decide the procompetitive effects of resale price maintenance were insufficient to overrule *Dr. Miles*, then cases such as . . . *GTE Sylvania* . . . would be called into question. There is yet another consideration. A manufacturer can impose territorial restrictions on distributors and allow only one distributor to sell its goods in a given region. Our cases have recognized, and the economics literature confirms, that these vertical nonprice restraints have impacts similar to those of vertical price restraints; both reduce intrabrand competition and can stimulate

retailer services. The same legal standard (per se unlawfulness) applies to horizontal market division and horizontal price fixing because both have similar economic effect. There is likewise little economic justification for the current differential treatment of vertical price and nonprice restraints. Furthermore, vertical nonprice restraints may prove less efficient for inducing desired services, and they reduce intrabrand competition more than vertical price restraints by eliminating both price and service competition.

For these reasons, the Court's decision in *Dr. Miles* is now overruled. Vertical price restraints are to be judged according to the rule of reason.

Horizontal Divisions of Markets It has traditionally been said that **horizontal division of markets** agreements—those agreements among competing firms to divide up the available market by assigning one another certain exclusive territories or certain customers—are illegal per se. Such agreements plainly represent agreements not to compete. They result in each firm being isolated from competition in the affected market.

In *United States v. Topco Associates, Inc.* (1972), the Supreme Court reaffirmed this long-standing principle by striking down a horizontal division of markets agreement among members of a cooperative association of local and regional supermarket chains. *Topco* was widely criticized, however, on the ground that its per se approach ignored an important point: that the defendants' joint activities in promoting Topco brand products were aimed at enabling them to compete more effectively with national supermarket chains. Critics argued that when such horizontal restraints were ancillary to *pro-competitive* behavior, they should be judged under the rule of reason.

Naked Restraints and Ancillary Restraints Such criticism has had an impact. Several decisions by lower federal courts have distinguished between “naked” horizontal restraints (those having no other purpose or effect except restraining competition) and “ancillary” horizontal restraints (those constituting a necessary part of a larger joint undertaking serving procompetitive ends). Although these courts continue to apply the per se rule to naked horizontal restraints, they give rule of reason (or at least quick-look) treatment to ancillary restraints. In determining whether ancillary restraints are lawful, courts weigh the harm to competition resulting

Fifth Circuit decision reversed, and case remanded for further proceedings.

Breyer, Justice, dissenting

The only safe predictions to make about today's decision are that it will likely raise the price of goods at retail and that it will create considerable legal turbulence as lower courts seek to develop workable principles. I do not believe that the majority has shown new or changed conditions sufficient to warrant overruling a decision of such long standing. All ordinary stare decisis considerations indicate the contrary. For these reasons, with respect, I dissent.

from such restraints against the alleged offsetting benefits to competition.

Whether the Supreme Court ultimately will endorse such departures from *Topco* remains to be seen. However, the Court's post-*Topco* tendency to discard per se rules in favor of a rule of reason approach in other areas strongly suggests that *Topco*'s critics eventually will prevail with their arguments.

Vertical Restraints on Distribution **Vertical restraints on distribution** (or *vertical nonprice restraints*) also fall within the scope of the Sherman Act. A manufacturer has always had the power to *unilaterally* assign exclusive territories to its dealers or to limit the dealerships it grants in a particular geographic area. However, manufacturers may run afoul of § 1 by causing dealers to *agree* not to sell outside their dealership territories or by placing other restrictions on their dealers' right to resell their products.

The Supreme Court once held that vertical restraints on distribution were per se illegal when applied to goods that the manufacturer had sold to its dealers. The Court changed course, however, in *Continental T.V., Inc. v. GTE Sylvania, Inc.* (1977) In *Sylvania*, the Court abandoned the per se rule in favor of a rule of reason approach to most vertical restraints on distribution. The Court accepted many Chicago School arguments concerning the potential *economic efficiencies* that could result from vertical restraints on distribution. Most notably, such restraints were alleged to offer a chance for increased *interbrand* competition among the product lines of competing manufacturers at the admitted cost of restraining *intra-brand* competition among dealers in a particular manufacturer's product. For further discussion of *Sylvania*, see the *Khan* and *Leegin* decisions, which appear earlier in the chapter.

Subsequent decisions on the legality of vertical restraints on distribution have emphasized the importance of the market share of the manufacturer imposing the restraints. Restraints imposed by manufacturers with large market shares are more likely to be found unlawful under the rule of reason because the resulting harm to intra-brand competition is unlikely to be offset by significant positive effects on interbrand competition.

Group Boycotts and Concerted Refusals to Deal

Under the *Colgate* doctrine, a single firm may lawfully refuse to deal with certain firms. The same is not true, however, of *agreements* by two or more business entities to refuse to deal with others, to deal with others only on certain terms and conditions, or to coerce suppliers or customers not to deal with one of their competitors. Such agreements are *joint* restraints on trade. Historically, they have been per se unlawful under § 1. For example, when a trade association of garment manufacturers agreed not to sell to retailers that sold clothing or fabrics with designs pirated from legitimate manufacturers, the agreement was held to be a per se violation of the Sherman Act.⁴

Vertical Boycotts Recent antitrust developments, however, indicate that not all concerted refusals to deal will receive per se treatment. If a manufacturer terminated a distributor in response to complaints from other distributors that the terminated distributor was selling to customers outside its prescribed sales territory, the manufacturer will be held to have violated § 1 only if the termination resulted in a significant harm to competition. This result follows logically from the *Sylvania* decision. If vertical restraints on distribution are judged under the rule of reason, the same standard should apply to a vertical boycott designed to enforce such restraints.

Even distributors claiming to have been terminated as part of a vertical price-fixing scheme have found recovery increasingly difficult to obtain in recent years. In *Monsanto v. Spray-Rite Service Corp.* (U.S. Sup. Ct. 1984), a manufacturer had terminated a discounting distributor after receiving complaints from its other distributors. The Supreme Court held that these facts would not trigger liability for vertical price-fixing in the absence of additional evidence tending to exclude the possibility that the manufacturer and the nonterminated distributors acted independently. In *Business Electronics Corp. v. Sharp Electronics Corp.* (U.S. Sup. Ct. 1988), the Court

held that even proof of a conspiracy between a manufacturer and nonterminated distributors to terminate a price-cutter would not trigger liability unless it was accompanied by proof that the manufacturer and nonterminated dealers were also engaged in an unlawful vertical price-fixing conspiracy.

Horizontal Boycotts It also appears that the Supreme Court is willing to relax the per se rule for some *horizontal* boycotts. For instance, in *Northwest Wholesale Stationers, Inc. v. Pacific Stationery & Printing Co.* (U.S. Sup. Ct. 1985), members of an office supply retailers' purchasing cooperative had expelled a member retailer that engaged in some wholesale operations in addition to retail activities. The Court held that rule of reason treatment should be extended to the alleged boycott at issue, but declined to eliminate the per se rule for all horizontal boycotts. The Court has offered only general guidance for determining which horizontal boycotts trigger rule of reason analysis (or at least quick-look analysis) and which ones amount to per se violations. The appropriate legal treatment in a given case is therefore difficult to predict.

Tying Agreements **Tying agreements** occur when a seller refuses to sell a buyer a certain product (the *tying product*) unless the buyer also agrees to purchase a different product (the *tied product*) from the seller. For example, a fertilizer manufacturer refuses to sell its dealers fertilizer (the tying product) unless they also agree to buy its line of pesticides (the tied product). The potential anticompetitive effect of a tying agreement is that the seller's competitors in the sale of the tied product may be foreclosed from competing with the seller for sales to customers that have entered into tying agreements with the seller. To the extent that tying agreements are coercively imposed, they also deprive buyers of the freedom to make independent decisions concerning their purchases of the tied product. Tying agreements may be challenged under both § 1 of the Sherman Act and § 3 of the Clayton Act.⁵

Elements of Prohibited Tying Agreements Tying agreements are often said to be per se illegal under § 1. However, because a tying agreement must meet certain criteria before it is subjected to per se analysis, and

⁴*Fashion Originators' Guild v. FTC* (U.S. Sup. Ct. 1941).

⁵Section 3 of the Clayton Act applies, however, only when both the tying and the tied products are commodities. Chapter 50 discusses Clayton Act standards for tying agreement legality.

because evidence of certain justifications is sometimes considered in tying cases, the rule against tying agreements is at best a “soft” per se rule.

Before a challenged tying agreement is held to violate § 1, these elements must be demonstrated: (1) the agreement involves *two* separate and distinct items rather than integrated components of a larger product, service, or system of doing business; (2) the tying product cannot be purchased unless the tied product is also purchased; (3) the seller has sufficient economic power in the market for the tying product (such as a large market share) to appreciably restrain competition in the tied product market; and (4) a “not insubstantial” amount of commerce in the tied product is affected by the seller’s tying agreements.

Applying the above elements, a federal district court held in 2000 that Microsoft Corporation violated § 1 by tying its Internet Explorer Web browser to versions of its Windows operating system. In a 2001 decision, however, a federal court of appeals reversed that aspect of the district court’s decision and remanded the tying claim for

reconsideration under the rule of reason. The appellate court concluded that in the context of software used as a platform for third-party applications, tying of the sort done by Microsoft should not necessarily be presumed to have a pernicious effect on competition. The court reasoned that in order to avoid discouraging platform software-related innovation, weighing and balancing of the tying arrangement’s benefits and anticompetitive effects should be undertaken. Only the rule of reason would provide the opportunity for such weighing and balancing. The court stressed, however, that it was not changing the controlling rules for tying agreements generally or for such arrangements in computer-related settings not involving platform software. (Other aspects of the appellate court’s *Microsoft* decision are addressed later in this chapter.)

The *Illinois Tool Works* case, which follows, contains a discussion of the elements of prohibited tying arrangements, with a focus on the third element: *market power as to the tying product*.

Illinois Tool Works, Inc. v. Independent Ink, Inc. 547 U.S. 28 (U.S. Sup. Ct. 2006)

Illinois Tool Works, Inc. (ITW), manufactures and markets printing systems that include three relevant components: (1) a patented piezoelectric impulse ink-jet printhead; (2) a patented ink container, consisting of a bottle and valved cap, which attaches to the printhead; and (3) specially designed, but unpatented, ink. ITW sells its systems to original equipment manufacturers (OEMs). The OEMs are licensed to incorporate the printheads and containers into printers that they sell to companies for use in printing bar codes on cartons and packaging materials. The OEMs agree that they will purchase their ink exclusively from ITW, and that neither they nor their customers will refill the patented containers with ink of any kind.

Independent Ink, Inc., which has developed an ink with the same chemical composition as the ink sold by ITW, was the target of patent infringement allegations by ITW. Independent therefore filed suit against ITW in order to seek a judgment of non-infringement and invalidity of ITW’s patents. In addition, Independent’s complaint alleged that ITW was engaged in illegal tying, in supposed violation of Sherman Act § 1. A federal district court granted ITW’s motion for summary judgment on the § 1 claim. The court rejected Independent’s contention that ITW’s patent on the printhead system necessarily gave it market power regarding the tying product. Finding that Independent had submitted no affirmative evidence defining the relevant market or establishing ITW’s power within it, the court held that Independent could not prevail on its tying claim. The U.S. Court of Appeals for the Federal Circuit reversed. The Federal Circuit concluded that the district court erred in not following U.S. Supreme Court precedents indicating that in a tying case, the fact that the tying product is patented gives rise to a presumption of market power concerning the tying product. The U.S. Supreme Court granted ITW’s petition for a writ of certiorari.

Stevens, Justice

In [dictum in] *Jefferson Parish Hospital Dist. No. 2 v. Hyde*, 466 U.S. 2, 16 (1984), we repeated the well-settled proposition that “if the Government has granted the seller a patent or similar monopoly over a product, it is fair to presume that the inability to buy the product elsewhere gives the seller market power.” This presumption of market power, applicable in the

antitrust context when a seller conditions its sale of a patented product (the “tying” product) on the purchase of a second product (the “tied” product), has its foundation in the judicially created patent misuse doctrine. *See United States v. Loew’s, Inc.*, 371 U.S. 38, 46 (1962). In 1988, Congress substantially undermined that foundation, amending the Patent Act to eliminate the market power presumption in patent misuse cases. The

question presented to us today is whether the presumption of market power in a patented product should survive as a matter of antitrust law despite its demise in patent law.

[During the past 75 years,] four different rules of law have supported challenges to tying arrangements. They have been condemned as improper extensions of the patent monopoly under the patent misuse doctrine, as unfair methods of competition under § 5 of the Federal Trade Commission Act, as contracts tending to create a monopoly under § 3 of the Clayton Act, and as contracts in restraint of trade under § 1 of the Sherman Act. In all of those instances, the justification for the challenge rested on either an assumption or a showing that the defendant's position of power in the market for the tying product was being used to restrain competition in the market for the tied product. As we explained in [an earlier decision], "[o]ur cases have concluded that the essential characteristic of an invalid tying arrangement lies in the seller's exploitation of its control over the tying product to force the buyer into the purchase of a tied product that the buyer either did not want at all, or might have preferred to purchase elsewhere on different terms." [Case citation omitted.]

Over the years, however, this Court's strong disapproval of tying arrangements has substantially diminished. Rather than relying on assumptions, in its more recent opinions the Court has required a showing of market power in the tying product. [For instance, in *United States Steel Corp. v. Fortner Enterprises, Inc.*, 429 U.S. 610, 622 (1977),] we unanimously held that the plaintiff's failure of proof on the issue of market power was fatal to its [tying] case. The assumption that "[t]ying arrangements serve hardly any purpose beyond the suppression of competition," rejected in *Fortner*, has not been endorsed in any opinion since. Instead, it was again rejected just seven years later in *Jefferson Parish*, where . . . we unanimously reversed a Court of Appeals judgment holding that an alleged tying arrangement constituted a per se violation of § 1 of the Sherman Act. Like the product at issue in the *Fortner* cases, the tying product in *Jefferson Parish*—hospital services—was unpatented, and our holding again rested on the conclusion that the plaintiff had failed to prove sufficient power in the tying product market to restrain competition in the market for the tied product—services of anesthesiologists. [The Court went on in *Jefferson Parish* to comment on the market power requirement and to cite *Loew's* for the proposition that a patent over a tying product would by itself indicate market power. This statement in *Jefferson Parish* was dictum, however, because the tying product in the case was unpatented and, in any event, market power evidence was lacking.]

[T]he presumption that a patent confers market power arose outside the antitrust context as part of the patent misuse doctrine. That doctrine had its origins in [a 1917 decision, in which

the Court] found no support in the patent laws for the proposition that a patentee may "prescribe by notice attached to a patented machine the conditions of its use and the supplies which must be used in the operation of it, under pain of infringement of the patent." [Case citation omitted.] [That decision] formed the basis for the Court's subsequent decisions creating a patent misuse defense to infringement claims when a patentee uses its patent "as the effective means of restraining competition with its sale of an unpatented article." *Morton Salt Co. v. G.S. Suppiger Co.*, 314 U.S. 488, 490 (1942). [Other case citations omitted.]

Without any analysis of actual market conditions, these patent misuse decisions assumed that, by tying the purchase of unpatented goods to the sale of the patented good, the patentee was restraining competition, or "secur[ing] a limited monopoly of an unpatented material" [Case citation omitted.] In other words, these decisions presumed "[t]he requisite economic power" over the tying product such that the patentee could "extend [its] economic control to unpatented products." *Loew's*, 371 U.S. at 45–46.

The presumption that a patent confers market power migrated from patent law to antitrust law in *International Salt Co. v. United States*, 332 U.S. 392 (1947). In that case, we affirmed a district court decision holding that leases of patented machines requiring the lessees to use the defendant's unpatented salt products violated § 1 of the Sherman Act and § 3 of the Clayton Act as a matter of law. Our opinion in *International Salt* clearly shows that we . . . import[ed] the presumption of market power in a patented product into our antitrust jurisprudence. [T]he rule adopted in *International Salt* necessarily accepted the Government's submission that the earlier patent misuse cases supported the broader proposition that this type of restraint is unlawful on its face under the Sherman Act. Indeed, later in the same term we cited *International Salt* for the proposition that the license of "a patented device on condition that unpatented materials be employed in conjunction with the patented device" is an example of a restraint that is "illegal per se." [Case citation omitted.]

Although the patent misuse doctrine and our antitrust jurisprudence became intertwined in *International Salt*, subsequent events initiated their untwining. This process has ultimately led to today's reexamination of the presumption of per se illegality of a tying arrangement involving a patented product, the first case since 1947 in which we have granted review to consider the presumption's continuing validity. [More than 50 years ago, Congress enacted a statute that narrowed somewhat the applicability of the misuse defense in patent infringement cases.] Thus, at the same time that our antitrust jurisprudence continued to rely on the assumption that tying arrangements generally serve no legitimate business purpose,

Congress began chipping away at the assumption in the patent misuse context from whence it came.

It is Congress' most recent narrowing of the patent misuse defense, however, that is directly relevant to this case. Four years after our decision in *Jefferson Parish*, [where the Court repeated in dictum] the patent-equals-market-power presumption, Congress amended the Patent Act to eliminate that presumption in the patent misuse context. The relevant provision reads:

(d) No patent owner otherwise entitled to relief for infringement or contributory infringement of a patent shall be denied relief or deemed guilty of misuse or illegal extension of the patent right by reason of his having done one or more of the following: . . . (5) conditioned the license of any rights to the patent or the sale of the patented product on the acquisition of a license to rights in another patent or purchase of a separate product, unless, in view of the circumstances, the patent owner has market power in the relevant market for the patent or patented product on which the license or sale is conditioned.

35 U.S.C. § 271(d)(5).

The [above 1988 amendment] makes it clear that Congress did not intend the mere existence of a patent to constitute the requisite "market power." Indeed, fairly read, it provides that without proof that ITW had market power in the relevant market, its conduct at issue in this case was neither "misuse" nor an "illegal extension of the patent right." While the 1988 amendment does not expressly refer to the antitrust laws, it certainly invites a reappraisal of the per se rule announced in *International Salt*. [G]iven the fact that the patent misuse doctrine provided the basis for the market power presumption, it would be anomalous to preserve the presumption in antitrust after Congress has eliminated its foundation.

After considering the congressional judgment reflected in the 1988 amendment, we conclude that tying arrangements

involving patented products should be evaluated under the standards applied in cases [such as] *Fortner* and *Jefferson Parish*. While some such arrangements are still unlawful, such as those that are the product of a true monopoly or a market-wide conspiracy, that conclusion must be supported by proof of power in the relevant market rather than by a mere presumption thereof. Our imposition of this requirement accords with the vast majority of academic literature on the subject.

[T]he lesson to be learned from *International Salt* and the academic commentary is the same: Many tying arrangements, even those involving patents and requirements ties, are fully consistent with a free, competitive market. It is no doubt the virtual consensus among economists that has persuaded the enforcement agencies to reject the position that the Government took when it supported the per se rule that the Court adopted in the 1940's. In antitrust guidelines issued jointly by the Department of Justice and the Federal Trade Commission in 1995, the enforcement agencies stated that in the exercise of their prosecutorial discretion they "will not presume that a patent, copyright, or trade secret necessarily confers market power upon its owner." While that choice is not binding on the Court, it would be unusual for the judiciary to replace the normal rule of lenity that is applied in criminal cases with a rule of severity for a special category of antitrust cases.

Congress, the antitrust enforcement agencies, and most economists have reached the conclusion that a patent does not necessarily confer market power upon the patentee. Today, we reach the same conclusion, and therefore hold that, in all cases involving a tying arrangement, the plaintiff must prove that the defendant has market power in the tying product.

Federal Circuit's decision vacated, and case remanded for further proceedings.

Possible Justifications for Tying Agreements The first two elements of a prohibited tying agreement have been particularly significant in cases involving franchisors and their franchised dealers. For example, a suit by a McDonald's franchisee alleged that McDonald's violated § 1 by requiring franchisees to lease their stores from McDonald's as a condition of acquiring a McDonald's franchise. A federal court of appeals, however, rejected the franchisee's claim and held that no tying agreement was involved. Instead, the franchise and the lease were integral components of a well-thought-out system of doing business.⁶

⁶*Principe v. McDonald's Corp.*, 631 F.2d 303 (4th Cir. 1980).

Courts have recognized two other possible justifications for tying agreements. First, tying arrangements that are instrumental in launching a new competitor with an otherwise uncertain future may be lawful until the new business has established itself in the marketplace. The rationale for this "new business" exception is that if a tying agreement enables a fledgling firm to become a viable competitor, the agreement's net effect on competition is positive. Second, some courts have recognized that tying agreements sometimes may be necessary to protect the reputation of the seller's product line. For example, one of the seller's products functions properly only if used in conjunction with another of its products. To qualify for this exception, however, the seller must convince the

court that a tying arrangement is the only viable means to protect its goodwill.

Chicago School Views on Tying Agreements

Chicago School thinkers have long criticized the traditional judicial approach to tying agreements because they do not believe that most tie-ins result in any significant economic harm. They argue that sellers who try to impose a tie-in in competitive markets gain no increased profits as a result. This is so because instead of participating in a tying agreement, buyers may turn to substitutes for the tying product or may purchase the tying product from competing sellers. The net effect of a tie-in may therefore be that any increase in the seller's sales in the tied product is offset by a loss in sales of the tying product. Only when the seller has substantial power in the tying product market is there potential that a tie-in may be used to increase the seller's power in the tied product market. However, even when the seller has such market power in the tying product, Chicago School thinkers argue that no harm to competition is likely to result if the seller faces strong competition in the tied product market. For these and other reasons, Chicago School thinkers favor a rule of reason approach to all tying agreements. A majority of the Supreme Court has yet to accept these arguments. Some justices, however, appear willing to do so. If other members of the Court are similarly persuaded in the future, a substantial change in the legal criteria applied to tying agreements will be the result.

Reciprocal Dealing Agreements Under a **reciprocal dealing agreement**, a buyer attempts to exploit its purchasing power by conditioning its purchases from suppliers on reciprocal purchases of some product or service offered for sale by the buyer. For example, an oil company with a chain of wholly owned gas stations refuses to purchase the tires it sells in those stations unless the tire manufacturer (the would-be supplier of the tires) agrees to purchase, from the oil company, the petrochemicals used in the tire manufacturing process. Reciprocal dealing agreements are similar in motivation and effect to tying agreements. Courts therefore tend to treat them similarly. In seeking to impose the reciprocal dealing agreement on the tire manufacturer, the oil company is attempting to gain a competitive advantage over its competitors in the petrochemical market. A court judging the legality of such an agreement would examine the oil company's economic power as a purchaser of tires and the dollar amount of petrochemical sales involved.

Exclusive Dealing Agreements **Exclusive dealing agreements** require buyers of a particular product or service to purchase that product or service exclusively from a particular seller. For example, Standard Lawnmower Corporation requires its retail dealers to sell only Standard brand mowers. A common variation of an exclusive dealing agreement is the *requirements contract*, under which the buyer of a particular product agrees to purchase all of its requirements for that product from a particular supplier. For example, a candy manufacturer agrees to buy all of its sugar requirements from one sugar refiner. Exclusive dealing contracts present a threat to competition similar to that involved in tying contracts—they may reduce interbrand competition by foreclosing a seller's competitors from the opportunity to compete for sales to its customers. Unlike tying contracts, however, exclusive dealing agreements may sometimes enhance efficiencies in distribution and stimulate interbrand competition. Exclusive dealing agreements reduce a manufacturer's sales costs and provide dealers with a secure source of supply. They may also encourage dealer efforts to market the manufacturer's products more effectively, because a dealer selling only one product line has a greater stake in the success of that line than does a dealer who sells the products of several competing manufacturers.

Because many exclusive dealing agreements involve commodities, they may also be challenged under § 3 of the Clayton Act. The legal tests applicable to exclusive dealing agreements under both acts are identical. Therefore, we defer discussing those tests until the next chapter.

Joint Ventures by Competitors A **joint venture** is a combined effort by two or more business entities for a limited purpose such as research. Because joint ventures may yield enhanced efficiencies through integration of the resources of more than one firm, they are commonly judged under the rule of reason. Under this approach, courts tend to ask whether any competitive restraints that are incidental to the venture are necessary to accomplish its lawful objectives and, if so, whether those restraints are offset by the venture's positive effects. Joint ventures whose primary purpose is illegal per se, however, have been given per se treatment. An example of such a case would be two competing firms that form a joint sales agency and authorize it to fix the price of their products.

National Cooperative Research and Production Act Antitrust critics have long argued that the threat of

antitrust prosecution seriously inhibits the formation of joint research and development ventures, and that American firms are placed at a competitive disadvantage in world markets as a result. Such arguments have enjoyed more acceptance during roughly the past two decades. In 1984, Congress passed the National Cooperative Research Act (NCRA). This act applies to *joint research and development ventures* (JRDVs), which are broadly defined to include basic and applied research and joint activities in the licensing of technologies developed by such research. The NCRA requires the application of a reasonableness standard, rather than a per se rule, when a JRDV's legality is determined. It also requires firms contemplating a JRDV to provide the Department of Justice and the Federal Trade Commission with advance notice of their intent to do so. The NCRA provides that only actual (not treble) damages may be recovered for losses flowing from a JRDV ultimately found to be in violation of § 1. In addition, the NCRA contains a provision allowing the parties to a challenged JRDV to recover attorney's fees from an unsuccessful challenger if the suit is shown to be "frivolous, unreasonable, without foundation, or in bad faith." Congress amended the statute in 1993 to extend its application to joint *production* ventures. In doing so, Congress renamed the statute the National Cooperative Research and Production Act.

Figure 1 summarizes the judicial treatment of potentially illegal practices under § 1 of the Sherman Act (as of 2008, when this book went to press).

Section 2—Monopolization

Firms that acquire **monopoly power** in a given market have defeated the antitrust laws' objective of promoting competitive market structures. Monopolists, by definition, have the power to fix prices unilaterally because they have no effective competition. Section 2 of the Sherman Act was designed to prevent the improper acquisition and abuse of monopoly power. It provides: "Every person who shall monopolize, or attempt to monopolize, or combine or conspire with any other person to monopolize any part of trade or commerce among the several states, or with foreign nations shall be deemed guilty of a felony." Section 2 does not outlaw monopolies. Instead, it outlaws the act of *monopolization*. Under § 2, a *single firm* can be guilty of monopolizing or attempting to monopolize a part of trade or commerce. The proof of joint action required for violations of § 1 is required only when two or more firms are charged with a conspiracy to monopolize under § 2.

Figure 1 *Potentially Illegal Practices and Their Treatment under Sherman Act § 1*

| Potentially Illegal Practice | Judicial Treatment | |
|--|--------------------|------------------------------|
| | Per Se | Rule of Reason or Quick-Look |
| Horizontal price-fixing | * | |
| Vertical price-fixing (nonmaximum) | | * |
| Vertical maximum price-fixing | | * |
| Horizontal division of markets | *? | *? |
| Vertical nonprice restraints on distribution | | * |
| Horizontal boycotts | * | * |
| Vertical boycotts | * | * |
| Tying agreements | *? | * |
| Reciprocal dealing agreements | *? | * |
| Exclusive dealing agreements | | * |
| Joint ventures | * | * |

Note: An entry with an asterisk in both columns means the facts of the individual case determine the treatment. A question mark indicates that future treatment is in question.

Monopolization **Monopolization** is "the willful acquisition or maintenance of monopoly power in a relevant market as opposed to growth as a consequence of superior product, business acumen, or historical accident."⁷ This means that to be liable for monopolization, a defendant must have possessed not only monopoly power but also an **intent to monopolize**.

Monopoly Power *Monopoly power* is usually defined for antitrust purposes as the power to *fix prices* or *exclude competitors* in a given market. Such power is generally inferred from the fact that a firm has captured a predominant share of the relevant market. Although the exact percentage share necessary to support an inference of monopoly power remains unclear and courts often look at other economic factors (such as the existence in

⁷*United States v. Grinnell Corp.* (U.S. Sup. Ct. 1966).

The Global Business Environment

United States–based firms that engage in international business activities must remember that they may be subject to the antitrust laws of other nations. In the European Union, for instance, the European Commission serves as chief antitrust regulator through the commission’s Competition Directorate General. Articles in the Treaty of Rome contemplate bases of antitrust regulation similar, though not identical to, the legal bases in the United States under §§ 1 and 2 of the Sherman Act.

In 2004, the European Commission (EC) ruled against Microsoft in a case that dealt with some of the same types of business practices complained about in the high-profile case brought against the firm by the U.S. government and various states. (The U.S. case receives extensive treatment at various points in this chapter.) The European Union case also challenged other allegedly anticompetitive Microsoft practices that were not at issue in the U.S. case. In early 2004, the com-

mission ruled that Microsoft held a dominant position in the European software market and had abused that position in various ways. The EC fined Microsoft an amount of euros equating roughly \$689 million. In addition, the EC ordered Microsoft to allow room for competitors by offering a version of its Windows operating system without the Media Player and by licensing confidential Windows-related information to other firms so that they could produce software compatible with Windows.

In 2006, the EC levied a further fine equating to \$357 million, after concluding that Microsoft had not complied with the EC’s 2004 orders. The European Court of First Instance, in a 2007 ruling, rejected Microsoft’s appeal of the EC’s 2004 decision. In 2008, the EC again fined Microsoft—this time in an amount of euros equating \$1.3 billion—because, in the EC’s judgment, Microsoft still was in violation of the 2004 orders.

the industry of barriers to the entry of new competitors), market shares in excess of 70 percent have historically justified an inference of monopoly power.

Before a court can determine a defendant’s market share, it must first define the **relevant market**. This is a crucial issue in § 2 cases because a broad definition of the relevant market normally results in a smaller market share for the defendant and a resulting reduction in the likelihood that the defendant will be found to possess monopoly power. The two components of a relevant market determination are the relevant **geographic market** and the relevant **product market**.

Economic realities prevailing in the industry determine the relevant geographic market. In which parts of the country can the defendant effectively compete with other firms in the sale of the product in question? To whom may buyers turn for alternative sources of supply? Factors such as transportation costs may also play a critical role in relevant market determinations. Thus, the relevant market for coal may be regional in nature, but the relevant market for computer chips may be national in scope.

The relevant product market is composed of those products meeting the *functional interchangeability* test, which identifies the products “reasonably interchangeable by consumers for the same purposes.” This test recognizes that a firm’s ability to fix the price for its products is limited by the availability of competing products that buyers view as acceptable substitutes. In a famous antitrust case, for example, Du Pont was charged

with monopolizing the national market for cellophane because it had a 75 percent share. The Supreme Court concluded, however, that the relevant market was all “flexible wrapping materials,” including aluminum foil, waxed paper, and polyethylene. Du Pont’s 20 percent share of that product market was far too small to amount to monopoly power.⁸

In the highly publicized *Microsoft* decision, a portion of which follows below, a federal court of appeals held that Microsoft Corporation possessed monopoly power in the worldwide market for Intel-compatible personal computer operating systems. The court concluded that Microsoft held a 95 percent share of the market.

Intent to Monopolize Proof of monopoly power standing alone, however, is never sufficient to prove a violation of § 2. The defendant’s **intent to monopolize** must also be shown. Early cases required evidence that the defendant either acquired monopoly power by predatory or coercive means that violated antitrust rules (e.g., price-fixing or discriminatory pricing) or abused monopoly power in some way after acquiring it (such as by engaging in price-gouging). Contemporary courts focus on how the defendant acquired monopoly power. If the defendant *intentionally acquired it or attempted to maintain it* after acquiring it, the defendant possessed an intent to monopolize. Defendants are not in violation of § 2, however, if

⁸*United States v. E. I. du Pont de Nemours & Co.* (U.S. Sup. Ct. 1956).

their monopoly power resulted from the superiority of their products or business decisions, or from historical accident (e.g., the owner of a professional sports franchise in an area too small to support a competing franchise).

Purposeful acquisition or maintenance of monopoly power may be demonstrated in various ways. A famous monopolization case involved Alcoa, which had a 90 percent market share of the American market for virgin aluminum ingot. Alcoa was found liable for purposefully maintaining its monopoly power by acquiring every new opportunity relating to the production or marketing of aluminum, thereby excluding potential

competitors.⁹ As various cases indicate, firms that develop monopoly power by acquiring ownership or control of their competitors are likely to be held to have demonstrated an intent to monopolize.

In the following portion of the *Microsoft* decision, the court concluded that Microsoft Corporation was liable for monopolization because it possessed monopoly power in the relevant market and engaged in anticompetitive behavior in order to maintain its monopoly position.

⁹*United States v. Aluminum Co. of America, Inc.* (2d Cir. 1945).

United States v. Microsoft Corp.

253 F.3d 34 (D.C. Cir. 2001)

The United States, 19 individual states, and the District of Columbia brought civil antitrust actions against Microsoft Corporation. The cases were consolidated for trial. The plaintiffs charged, in essence, that Microsoft waged an unlawful campaign in defense of its monopoly position in the market for operating systems designed to run on Intel-compatible personal computers (PCs). More specifically, the plaintiffs claimed that Microsoft violated (1) § 2 of the Sherman Act by engaging in monopolization through a series of exclusionary and anticompetitive acts designed to maintain its monopoly power; (2) § 2 by engaging in attempted monopolization of the Web browser market; and (3) § 1 of the Sherman Act by unlawfully tying its browser to its operating system and by entering into exclusive dealing agreements that unreasonably restrained trade. The plaintiffs other than the United States alleged that Microsoft's behavior also violated their respective antitrust laws.

The United States District Court for the District of Columbia held that Microsoft violated § 1 through unlawful tying arrangements but that Microsoft's exclusive dealing agreements did not run afoul of § 1. The court also held that Microsoft engaged in monopolization with regard to the market for Intel-compatible PC operating systems, as well as attempted monopolization of the Web browser market, in violation of § 2 and comparable state laws. In a separate decision, the district court held that the appropriate remedy was a divestiture order splitting Microsoft into two separate companies, one for the operating systems business and the other for the applications business.

Microsoft appealed to the United States Court of Appeals for the District of Columbia Circuit. In portions of the opinion not included here, the D.C. Circuit affirmed the district court's holding that Microsoft's exclusive dealing agreements did not violate § 1; reversed the district court's holding that Microsoft violated § 1 through tying arrangements and remanded the case for reconsideration of that claim under different legal standards; and reversed the district court's holding that Microsoft violated § 2 by attempting to monopolize the Web browser market. The portions of the opinion set forth below deal with the D.C. Circuit's analysis of the claim that Microsoft violated § 2 by engaging in monopolization of the market for Intel-compatible PC operating systems. A nearby Cyberlaw in Action box examines the appellate court's treatment of the remedy issues and discusses later developments in the case

Per Curiam

Section 2 of the Sherman Act makes it unlawful for a firm to “monopolize.” The offense of monopolization has two elements: “(1) the possession of monopoly power in the relevant market, and (2) the willful acquisition or maintenance of that power as distinguished from growth or development as a consequence of a superior product, business acumen, or historic accident.” *United States v. Grinnell Corp.* (U.S. Sup. Ct. 1966).

1. Monopoly Power While merely possessing monopoly power is not itself an antitrust violation, it is a necessary ele-

ment of a monopolization charge. The Supreme Court defines monopoly power as the power to control prices or exclude competition. [C]ourts . . . typically examine market structure in search of circumstantial evidence of monopoly power. [M]onopoly power may be inferred from a firm's possession of a dominant share of a relevant market that is protected by entry barriers. “Entry barriers” are factors . . . that prevent new rivals from timely responding to an increase in price above the competitive level.

Because the ability of consumers to turn to other suppliers restrains a firm from raising prices above the competitive level,

the relevant market must include all products “reasonably interchangeable by consumers for the same purposes.” *United States v. E. I. du Pont de Nemours Co.* (U.S. Sup. Ct. 1956). [T]he district court defined the market as “the licensing of all Intel-compatible PC operating systems worldwide,” finding that there are “currently no products—and . . . there are not likely to be any in the near future—that a significant percentage of computer users worldwide could substitute for [these operating systems] without incurring substantial costs.” Calling this market definition far too narrow, Microsoft argues that the court improperly excluded . . . non-Intel compatible operating systems (primarily Apple’s Macintosh operating system, Mac OS) . . . and “middleware” products.

The district court found that consumers would not switch from Windows to Mac OS in response to a substantial price increase because of the costs of acquiring the new hardware needed to run Mac OS and compatible software applications, . . . because of the effort involved in learning the new system and transferring files to its format, [and because] the Apple system . . . supports fewer applications. Microsoft . . . points to [no] evidence contradicting the district court’s findings. [W]e have no basis for upsetting the court’s decision to exclude Mac OS from the relevant market.

This brings us to Microsoft’s main challenge to the district court’s market definition: the exclusion of middleware. Because of the importance of middleware to this case, we [shall] explain what it is [and how it relates to operating systems]. Operating systems perform many functions, including allocating computer memory and . . . function[ing] as platforms for software applications. They do this by “exposing”—i.e., making available to software developers—routines or protocols that perform certain widely used functions. These are known as Application Programming Interfaces (APIs). For example, Windows contains an API that enables users to draw a box on the screen. Software developers wishing to include that function in an application need not duplicate it in their own code. Instead, they can “call”—i.e., use—the Windows API. Windows contains thousands of APIs.

“Middleware” refers to software products that expose their own APIs. Because of this, a middleware product written for Windows could take over some or all of Windows’s valuable platform functions—that is, developers might begin to rely upon APIs exposed by the middleware for basic routines rather than relying upon the API set included in Windows. Ultimately, if developers could write applications relying exclusively on APIs exposed by middleware, their applications would run on any operating system on which the middleware was also present.

Microsoft argues that because middleware could usurp the operating system’s platform function and might eventually take

over other operating system functions . . . , the district court erred in excluding Navigator and Java from the relevant market. The court found, however, that neither Navigator, Java, nor any other middleware product could now, or would soon, expose enough APIs to serve as a platform for popular applications, much less take over all operating system functions. Whatever middleware’s ultimate potential, the district court found that consumers could not now abandon their operating systems and switch to middleware in response to a sustained price for Windows above the competitive level. [B]ecause middleware is not now interchangeable with Windows, the district court had good reason for excluding middleware from the relevant market.

Having thus properly defined the relevant market, the district court found that Windows accounts for a greater than 95 percent share. The court also found that even if Mac OS were included, Microsoft’s share would exceed 80 percent. [In addition], the court [properly] focused not only on Microsoft’s present market share, but also on the structural barrier that protects the company’s future position. That barrier—the applications barrier to entry—stems from two characteristics of the software market: (1) most consumers prefer operating systems for which a large number of applications have already been written; and (2) most developers prefer to write for operating systems that already have a substantial consumer base. This “chicken-and-egg” situation ensures that applications will continue to be written for the already dominant Windows, which in turn ensures that consumers will continue to prefer it over other operating systems.

2. Anticompetitive Conduct [After correctly] concluding that Microsoft had monopoly power, the district court held that Microsoft had violated § 2 by engaging in a variety of exclusionary acts . . . to maintain its monopoly. Whether any particular act of a monopolist is exclusionary, rather than merely a form of vigorous competition, can be difficult to discern. [T]o be condemned as exclusionary, a monopolist’s act must have an anticompetitive effect. That is, it must harm the competitive *process* and thereby harm consumers. In contrast, harm to one or more *competitors* will not suffice. [Assuming that the plaintiff] establishes a *prima facie* case under § 2 by demonstrating anticompetitive effect, the monopolist may proffer a procompetitive justification. If the monopolist asserts a procompetitive justification—a nonpretextual claim that its conduct is indeed a form of competition on the merits because it involves, for example, greater efficiency or enhanced consumer appeal—then the burden shifts back to the plaintiff to rebut that claim. [I]f the monopolist’s procompetitive justification stands un rebutted, then the plaintiff must demonstrate that the anticompetitive harm of the conduct outweighs the procompetitive benefit.

In cases arising under § 1 of the Sherman Act, the courts routinely apply a similar balancing approach under the rubric of the “rule of reason.” With these principles in mind, we now [review] the district court’s holding that Microsoft violated § 2 of the Sherman Act in a variety of ways.

a. Restrictions in Licenses Issued to Original Equipment Manufacturers (OEMs)

The district court condemned a number of provisions in Microsoft’s agreements licensing Windows to OEMs, because it found that Microsoft’s imposition of those provisions . . . serves to reduce usage share of Netscape’s browser and, hence, protect Microsoft’s operating system monopoly. Browser usage share is important because [a browser] must have a critical mass of users in order to attract software developers to write applications relying upon the APIs it exposes, and away from the APIs exposed by Windows. Applications written to a particular browser’s APIs . . . would run on any computer with that browser, regardless of the underlying operating system. [The district court found that the] “overwhelming majority of consumers will only use a PC operating system for which there already exists a large and varied set of . . . applications, and for which it seems relatively certain that new types of applications and new versions of existing applications will continue to be marketed.” If a consumer could have access to the applications he desired—regardless of the operating system he uses—simply by installing a particular browser on his computer, then he would no longer feel compelled to select Windows in order to have access to those applications; he could select an operating system other than Windows based solely upon its quality and price. In other words, the market for operating systems would be competitive.

The restrictions Microsoft places upon OEMs are of particular importance . . . because having an OEM pre-install a browser on a computer is one of the two most cost-effective methods by far of distributing browsing software. (The other is bundling the browser with Internet access software distributed by an Internet access provider (IAP).)

The district court concluded that [one Microsoft-imposed] license restriction—the prohibition upon the removal of desktop icons, folders, and Start menu entries—thwarts the distribution of a rival browser by preventing OEMs from removing visible means of user access to IE. The OEMs cannot practically install a second browser in addition to IE, the court found, in part because . . . a certain number of novice computer users, seeing two browser icons, will wonder which to use when and will call the OEM’s support line. Support calls are extremely expensive and, in the highly competitive original equipment market, firms have a strong incentive to minimize costs. By preventing OEMs from removing visible means of user access

to IE, the license restriction prevents many OEMs from pre-installing a rival browser, and therefore, protects Microsoft’s monopoly from the competition that middleware might otherwise present. Therefore, we conclude that the license restriction at issue is anticompetitive.

[A] second license provision [imposed by Microsoft] prohibits OEMs from modifying the initial boot sequence—the process that occurs the first time a consumer turns on the computer. [The district court found that prior to] the imposition of that restriction, “among the programs that many OEMs inserted into the boot sequence were Internet sign-up procedures that encouraged users to choose from a list of IAPs assembled by the OEM.” Microsoft’s prohibition on any alteration of the boot sequence thus prevents OEMs from using that process to promote the services of IAPs, many of which—at least at the time Microsoft imposed the restriction—used Navigator rather than IE in their Internet access software. Because this prohibition has a substantial effect in protecting Microsoft’s market power, and does so through a means other than competition on the merits, it is anticompetitive.

Finally, Microsoft . . . prohibits OEMs from causing any user interface other than the Windows desktop to launch automatically, from adding icons or folders different in size or shape from those supplied by Microsoft, and from using the “Active Desktop” feature to promote third-party brands. These restrictions impose significant costs upon the OEMs; prior to Microsoft’s prohibiting the practice, many OEMs would change the appearance of the desktop in ways they found beneficial. The anticompetitive effect of the license restrictions is . . . that OEMs are not able to promote rival browsers, which keeps developers focused upon the APIs in Windows. This kind of promotion is not a zero-sum game; but for the restrictions in their licenses to use Windows, OEMs could promote multiple IAPs and browsers. [T]his type of license restriction . . . is anticompetitive: Microsoft reduced rival browsers’ usage share not by improving its own product but, rather, by preventing OEMs from taking actions that could increase rivals’ share of usage.

Microsoft argues that the license restrictions are legally justified because . . . Microsoft is simply “exercising its rights as the holder of valid copyrights.” The company claims an absolute and unfettered right to use its intellectual property as it wishes: “If intellectual property rights have been lawfully acquired,” it says, then, “their subsequent exercise cannot give rise to antitrust liability.” That is no more correct than the proposition that use of one’s personal property, such as a baseball bat, cannot give rise to tort liability. As the Federal Circuit succinctly stated: “Intellectual property rights do not confer a privilege to violate the antitrust laws.” *In re Independent Service Organizations Antitrust Litigation* (Fed Cir. 2000).

[Microsoft's copyright argument fails because the restrictions on OEMs are neither necessary to prevent substantial alteration of its copyrighted work nor necessary to preserve the stability of the Windows platform. Moreover,] Microsoft has not shown that the [actions OEMs otherwise would take would] reduce the value of Windows except in the sense that their promotion of rival browsers [would] undermine Microsoft's monopoly—and that is not a permissible justification for the license restrictions.

[W]e hold that . . . the OEM license restrictions represent uses of Microsoft's market power to protect its monopoly, unredeemed by any legitimate justification. The restrictions therefore violate § 2 of the Sherman Act.

b. Integration of Internet Explorer (IE) and Windows

[T]he district court found that "Microsoft's executives believed . . . its contractual restrictions placed on OEMs would not be sufficient in themselves to reverse the direction of Navigator's usage share. Consequently, . . . , Microsoft set out to bind [IE] more tightly to Windows 95." Technologically binding IE to Windows, the district court found, both prevented OEMs from pre-installing other browsers and deterred consumers from using them. [H]aving the IE software code as an irremovable part of Windows meant that pre-installing a second browser would increase an OEM's product testing costs, because an OEM must test and train its support staff to answer calls related to every software product pre-installed on the machine; moreover, pre-installing a browser in addition to IE would to many OEMs be "a questionable use of the scarce and valuable space on a PC's hard drive."

As a general rule, courts are properly very skeptical about claims that competition has been harmed by a dominant firm's product design changes. In a competitive market, firms routinely innovate in the hope of appealing to consumers, sometimes in the process making their products incompatible with those of rivals; the imposition of liability when a monopolist does the same thing will inevitably deter a certain amount of innovation. This is all the more true in a market, such as this one, in which the product itself is rapidly changing. Judicial deference to product innovation, however, does not mean that a monopolist's product design decisions are per se lawful.

The district court first condemned as anticompetitive Microsoft's decision to exclude IE from the "Add/Remove Programs" utility in Windows 98. Microsoft had included IE in the Add/Remove Programs utility in Windows 95, but when it modified Windows 95 to produce Windows 98, it took IE out of the Add/Remove Programs utility. This change reduces the usage share of rival browsers not by making Microsoft's own browser more attractive to consumers but by discouraging OEMs from distributing rival products. Because Microsoft's conduct, through something other than competition on the merits, has the effect of significantly reducing usage of rivals'

products and hence protecting its own operating system monopoly, it is anticompetitive.

[T]he district court [also] condemned Microsoft's decision to bind IE to Windows 98 "by placing code specific to Web browsing in the same files as code that provided operating system functions." Putting code supplying browsing functionality into a file with code supplying operating system functionality "ensures that the deletion of any file containing browsing-specific routines would also delete vital operating system routines and thus cripple Windows." [P]reventing an OEM from removing IE deters it from installing a second browser because doing so increases the OEM's product testing and support costs; by contrast, had OEMs been able to remove IE, they might have chosen to pre-install Navigator alone.

Microsoft denies . . . that it commingled browsing and non-browsing code, and it maintains the district court's findings to the contrary are clearly erroneous. In view of the contradictory testimony in the record, some of which supports the district court's finding that Microsoft commingled browsing and non-browsing code, we cannot conclude that the finding was clearly erroneous. Microsoft proffers no [procompetitive] justification for . . . excluding IE from the Add/Remove Programs utility [or for] commingling browser and operating systems code. Accordingly, we hold that [those actions] constitute exclusionary conduct, in violation of § 2.

c. Agreements with Internet Access Providers (IAPs)

Microsoft concluded exclusive agreements with all the leading IAPs, including [America Online and other] major online services. [The] plaintiffs allege that, by closing to rivals a substantial percentage of the available opportunities for browser distribution, Microsoft managed to preserve its monopoly in the market for operating systems. The IAPs constitute one of the two major channels by which browsers can be distributed. [The district court found that] Microsoft has exclusive deals with "14 of the top 15 access providers in North America[, which] account for a large majority of all Internet access subscriptions in this part of the world." By ensuring that the majority of all IAP subscribers are offered IE either as the default browser or as the only browser, Microsoft's deals with the IAPs clearly have a significant effect in preserving its monopoly.

[With the plaintiffs] having demonstrated a harm to competition, the burden falls upon Microsoft to [justify] its exclusive dealing contracts with IAPs. Microsoft's only explanation . . . is that it wants to keep developers focused upon its APIs—which is to say [that] it wants to preserve its power in the operating system market. That is not an unlawful end, but neither is it a procompetitive justification. Accordingly, we affirm the district court's holding that Microsoft's exclusive contracts with IAPs are exclusionary devices, in violation of § 2 of the Sherman Act.

d. Dealings with Independent Software Vendors (ISVs) and Apple Computer

The district court held that Microsoft engages in exclusionary conduct in its dealings with . . . ISVs, which develop software. The court described Microsoft's deals with ISVs as [including promises by Microsoft to provide] "preferential support, . . . technical information, and the right to use certain Microsoft seals of approval" if, in return, the ISVs agreed to "use Internet Explorer as the default browsing software for any software they develop with a hypertext-based user interface."

The court further found that the effect of these deals is to "increase the likelihood that the millions of consumers using [applications designed by ISVs subject to agreements with Microsoft] will use Internet Explorer rather than Navigator." Although the ISVs are a relatively small channel for browser distribution, they take on greater significance because, as revealed above, Microsoft had largely foreclosed the two primary channels to its rivals. In that light, one can tell from the record that by affecting the applications used by "millions" of consumers, Microsoft's exclusive deals with the ISVs had a substantial effect in further foreclosing rival browsers from the market. [T]he deals [thus] have an anticompetitive effect.

[In supposed justification of its ISV agreements,] Microsoft . . . states only that [the] agreements reflect an attempt "to persuade ISVs to utilize Internet-related system services in Windows rather than Navigator." [K]eeping developers focused upon Windows—that is, preserving the Windows monopoly—is a competitively neutral goal [rather than a] procompetitive justification for [Microsoft's] exclusive dealing arrangements with the ISVs. [We therefore] hold that those arrangements violate § 2.

[T]he district court [also] held that Microsoft's dealings with Apple Computer violated the Sherman Act. Apple . . . makes both software (including an operating system, Mac OS), and hardware (the Macintosh line of computers). Microsoft primarily makes software, including, in addition to its operating system, a number of popular applications. One, called "Office," is a suite of business productivity applications that Microsoft has ported to Mac OS. The district court found that "90 percent of Mac OS users running a suite of office productivity applications [use] Microsoft's Mac Office." Further, the court found that in 1997, "Apple's business was in steep decline" [and that] "many ISVs questioned the wisdom of continuing to spend time and money developing applications for the Mac OS. Had Microsoft announced in the midst of this atmosphere that it was ceasing to develop new versions of Mac Office, . . . ISVs, customers, developers, and investors would have interpreted the announcement as Apple's death notice."

Microsoft recognized the importance to Apple of its continued support of Mac Office. In June 1997 Microsoft Chairman Bill Gates [stated that] "Apple let us down on the browser by

making Netscape the standard install" [and] that he had already called Apple's CEO to ask "how we should announce the cancellation of Mac Office." The district court further found that, within a month of Gates' call, Apple and Microsoft had reached an agreement pursuant to which [Microsoft promised] "to continue releasing up-to-date versions of Mac Office for at least five years" [and Apple] agreed to bundle the most current version [of IE] with Mac OS and make IE the default [browser]. The agreement also prohibit[ed] Apple from encouraging users to substitute another browser for IE, and state[d] that Apple [would] "encourage its employees to use [IE]."

This exclusive deal between Microsoft and Apple has a substantial effect upon the distribution of rival browsers. Pre-installation of a browser (which can be accomplished either by including the browser with the operating system or by the OEM installing the browser) is one of the two most important methods of browser distribution, and Apple had a not insignificant share of worldwide sales of operating systems. Because Microsoft's exclusive contract with Apple has a substantial effect in restricting distribution of rival browsers, and because [that effect] serves to protect Microsoft's monopoly, its deal with Apple must be regarded as anticompetitive. Microsoft offers no procompetitive justification for the exclusive dealing arrangement. It makes only the irrelevant claim that the IE-for-Mac Office deal is part of a multifaceted set of agreements between itself and Apple. Accordingly, we hold that the exclusive deal with Apple is exclusionary, in violation of § 2.

e. Java

Java, a set of technologies developed by Sun Microsystems, is another type of middleware posing a potential threat to Windows' position as the ubiquitous platform for software development. The Java technologies include: (1) a programming language; (2) a set of programs written in that language, called the "Java class libraries," which expose APIs; (3) a compiler, which translates code written by a developer into "bytecode"; and (4) a Java Virtual Machine ("JVM"), which translates bytecode into instructions to the operating system. Programs calling upon the Java APIs will run on any machine with a "Java runtime environment," that is, Java class libraries and a JVM.

In May 1995 Netscape agreed with Sun to distribute a copy of the Java runtime environment with every copy of Navigator. [The district court found that] "Navigator quickly became the principal vehicle by which Sun placed copies of its Java runtime environment on the PC systems of Windows users." Microsoft, too, agreed to promote the Java technologies—or so it seemed. For at the same time, [the district court concluded,] Microsoft took steps "to maximize the difficulty with which applications written in Java could be ported from Windows to other platforms, and vice versa." The court found that Microsoft took four steps to exclude Java from developing as a viable

cross-platform threat: (a) designing a JVM incompatible with the one developed by Sun; (b) entering into contracts . . . requiring major ISVs to promote Microsoft's JVM exclusively; (c) deceiving Java developers about the Windows-specific nature of the tools it distributed to them; and (d) coercing Intel to stop aiding Sun in improving the Java technologies.

The district court [erred in holding] that Microsoft engaged in exclusionary conduct by developing and promoting its own JVM, [which was incompatible with Sun's.] A monopolist does not violate the antitrust laws simply by developing a product that is incompatible with those of its rivals. In order to violate the antitrust laws, the incompatible product must have an anti-competitive effect that outweighs any procompetitive justification for the design. Microsoft's JVM is not only incompatible with Sun's, it allows Java applications to run faster on Windows than does Sun's JVM. [Microsoft's JVM thus] does not itself have . . . anti-competitive effect.

To the extent Microsoft's [agreements] with the ISVs conditioned receipt of Windows technical information upon the ISVs' agreement to promote Microsoft's JVM exclusively, they raise a different competitive concern. The district court found that . . . the deals were exclusive in practice because they required developers to make Microsoft's JVM the default in the software they developed. [T]he record indicates that Microsoft's deals with the major ISVs had a significant effect upon JVM promotion. [T]he products of [these] ISVs reached millions of consumers. Because Microsoft's agreements foreclosed a substantial portion of the field for JVM distribution and because, in so doing, they protected Microsoft's monopoly from a middleware threat, they are anti-competitive. Because . . . Microsoft has no procompetitive justification for them, we hold that the provisions in the [ISV agreements] requiring use of Microsoft's JVM as the default are exclusionary, in violation of the Sherman Act.

Microsoft's "Java implementation" included, in addition to a JVM, a set of software development tools it created to assist ISVs in designing Java applications. The district court found that, not only were these tools incompatible with Sun's cross-platform aspirations for Java—no violation, to be sure—but Microsoft deceived Java developers regarding the Windows-specific nature of the tools. Microsoft's tools included "certain 'keywords' and 'compiler directives' that could only be executed properly by Microsoft's version of the Java runtime environment for Windows." As a result, even Java "developers who were opting for portability over performance . . . unwittingly

[wrote] Java applications that [ran] only on Windows." That is, developers who relied upon Microsoft's public commitment to cooperate with Sun and who used Microsoft's tools to develop what Microsoft led them to believe were cross-platform applications ended up producing applications that would run only on the Windows operating system.

Microsoft documents confirm that Microsoft intended to deceive Java developers, and predicted that the effect of its actions would be to generate Windows-dependent Java applications that their developers believed would be cross-platform; these documents also indicate that Microsoft's ultimate objective was to thwart Java's threat to Microsoft's monopoly in the market for operating systems. One Microsoft document, for example, states as a strategic goal: "Kill cross-platform Java by growing the polluted Java market." Microsoft's conduct related to its Java developer tools served to protect its monopoly of the operating system in a manner not attributable either to the superiority of the operating system or to the acumen of its makers, and therefore was anti-competitive. Unsurprisingly, Microsoft offers no procompetitive explanation for its campaign to deceive developers. [T]his conduct is exclusionary, in violation of § 2.

The district court [properly] held that Microsoft also acted unlawfully with respect to Java by using its "monopoly power to prevent firms such as Intel from aiding in the creation of cross-platform interfaces." [The record indicates that in 1995,] Intel was in the process of developing a high-performance, Windows-compatible JVM, [that] Microsoft wanted Intel to abandon [this] effort because a fast, cross-platform JVM would threaten Microsoft's monopoly in the operating system market, [and that Microsoft threatened to cease distributing] Intel technologies bundled with Windows [if Intel] did not stop aiding Sun on the multimedia front. Intel finally capitulated in 1997, after Microsoft [kept up the pressure]. Microsoft lamely characterizes its threat to Intel as "advice." The court, however, [properly concluded] that Microsoft's "advice" to Intel to stop aiding cross-platform Java was backed by the threat of retaliation. Therefore, we affirm the conclusion that Microsoft's threats to Intel were exclusionary, in violation of § 2.

District court's decision that Microsoft committed monopolization affirmed; other portions of decision affirmed in part, reversed in part, and remanded in part; remedial order of divestiture vacated and case remanded for further proceedings regarding appropriate remedies.

Attempted Monopolization Firms that have not yet attained monopoly power may nonetheless be liable for an **attempt to monopolize** in violation of § 2 if they are dangerously close to acquiring monopoly power and are employing methods likely to result in monopoly

power if left unchecked. As part of the required proof of a dangerous probability that monopoly power will be acquired, plaintiffs in attempted monopolization cases must furnish proof of the relevant market—as in monopolization cases. Attempt cases also require proof that the

CYBERLAW IN ACTION

As noted in the portion of the *Microsoft* decision included earlier, the federal district court (Thomas Penfield Jackson, District Judge) held that divestiture—in this instance, dividing Microsoft into two companies—was the appropriate remedy for Microsoft’s Sherman Act violations. The D.C. Circuit Court of Appeals, however, reversed this determination and remanded the case for reconsideration of remedy-related issues.

The D.C. Circuit concluded that the district court erred in not holding a separate evidentiary hearing regarding remedies, and that because some of the bases of liability imposed by the district court had been reversed on appeal, the remedy of divestiture might no longer be the appropriate form of relief. Although the appellate court did not explicitly state that divestiture could not be ordered by the district court after it conducted further proceedings, the D.C. Circuit’s opinion seemed to hint that divestiture was a more extreme remedy than was necessary. In remanding the case, the appellate court further ordered that the case be assigned to a district judge other than Judge Jackson, whose extensive participation in media interviews created the perception that he might not be impartial.

After the case was remanded, the United States, roughly half of the states that were plaintiffs, and Microsoft entered into a settlement agreement designed to resolve the case. District Judge Colleen Kollar-Kotelly held hearings on remedial and agreement-related issues, took under advisement the question whether to approve the agreement, and eventually issued her approval. Under the settlement agreement, Microsoft became obligated to allow computer manufacturers to add icons for Microsoft competitors’ software to the desktop display for the Windows operating system. Microsoft must also employ uniform licensing agreements when dealing with software manufacturers, and must furnish technical information to Internet access providers and to software and hardware vendors so that their products will work with Windows.

Critics of the settlement agreement said it was not tough enough on Microsoft, that it would do little to benefit consumers or to curtail anticompetitive actions, and that it was, effectively, a victory for Microsoft. The U.S. Justice Department took a different view, calling the agreement a suitable and successful resolution of a case in which the plaintiffs had prevailed on their main claim of liability.

defendant possessed a specific intent to acquire monopoly power through anticompetitive means.

The *Microsoft* decision underscored the importance of the proof-of-relevant-market requirement in attempted monopolization cases. Although it affirmed the district court’s holding that Microsoft had engaged in monopolization of the market for Intel-compatible PC operating systems, the United States Court of Appeals for the District of Columbia Circuit reversed the lower court’s decision that Microsoft had attempted to monopolize the Web browser market. The D.C. Circuit stressed that the plaintiffs had failed to offer proof of—and that the district court had therefore made no appropriate finding regarding—the components and scope of any supposed browser market. Therefore, the lower court erred in basing its decision on conduct by Microsoft that, in the district court’s view, seemed calculated to extend Microsoft’s operating systems monopoly into another market. Whether Microsoft’s conduct created a dangerous probability of monopoly power acquisition in that other market could not be determined without a definition of the latter market’s boundaries—and no such definition had occurred.

A controversial issue that surfaces in many attempted monopolization cases concerns the role that *predatory pricing* may play in proving an intent to monopolize. The Supreme Court has defined predatory pricing as “pricing

below an appropriate measure of cost for the purpose of eliminating competitors in the short run and reducing competition in the long run.”¹⁰ What constitutes “an appropriate measure of cost” in predatory pricing cases has long been a subject of debate among antitrust scholars. Although the Supreme Court has declined to resolve this debate definitively, it seems likely to take a skeptical view of predatory pricing claims in the future. The Court has described predatory pricing schemes as “rarely tried, and even more rarely successful.”¹¹ As part of this characterization of predatory pricing schemes, the Court indicated that it agrees with economists who have argued that predatory pricing is often economically irrational because, to be successful, the predator must maintain monopoly power long enough after it has driven its competitors out of business to recoup the profits it lost through predatory pricing. The predator would be able to sustain monopoly power only if high barriers to entry prevented new competitors from being drawn into the market by the supracompetitive prices the predator would have to charge in order to recoup its losses.

¹⁰*Cargill, Inc. & Excel Corp. v. Monfort of Colorado, Inc.* (U.S. Sup. Ct. 1986).

¹¹*Matsushita Electric Industrial Co., Ltd. v. Zenith Radio Corp.* (U.S. Sup. Ct. 1986).

Ethics in Action

Some of the cases in this chapter recite the statement that antitrust was designed to protect competition, not competitors. How is this statement consistent with the ethical justification of markets as the most efficient form of economic organization? Consider the case of a competitor who is driven out of business by another competitor's ultimately unsuccessful predatory pricing efforts (unsuccessful

because the predator could not maintain monopoly power long enough to recoup the profits lost through predatory pricing).

- Although competition may not suffer in such a case, does the out-of-business competitor have any *ethical* or public policy–based claim to compensation?
- Should antitrust law recognize such a claim?

Conspiracy to Monopolize When two or more business entities **conspire to monopolize** a relevant market, § 2 may be violated. This portion of § 2 largely overlaps § 1, because it is difficult to conceive of a conspiracy to monopolize that would not also amount to a conspiracy in restraint of trade. The lower federal courts have differed on the elements necessary to prove a conspiracy to monopolize. In addition to requiring proof of the existence of a conspiracy, some courts insist on proof of the relevant market, a specific

intent to acquire monopoly power, and overt action in furtherance of the conspiracy. Other courts do not require extensive proof of the relevant market. According to these courts, a violation is established through proof that the defendants conspired to exclude competitors from, or acquire control over prices in, some significant area of commerce. An approach that deemphasizes the requirement of proof of the relevant market, however, may not be consistent with Supreme Court precedent.

Problems and Problem Cases

1. Atlantic Richfield (ARCO) is an integrated oil company that sells gasoline to consumers both directly through its own stations and indirectly through ARCO-brand dealers. USA is an independent retail marketer of gasoline that buys gasoline from major petroleum companies for resale under its own brand name. USA competes directly with ARCO dealers at the retail level. Its outlets typically are low-overhead, high-volume “discount” stations that charge less than stations selling equivalent quality gasoline under major brand names. ARCO adopted a new marketing strategy in order to compete more effectively with independents such as USA. ARCO encouraged its dealers to match the retail gasoline prices offered by independents in various ways. These included making available to its dealers and distributors short-term discounts and reducing its dealers' costs by, for example, eliminating credit card sales. ARCO's strategy increased its sales and market share. When USA's sales dropped, it sued ARCO, charging that ARCO and its dealers were engaged in a per se illegal vertical price-fixing

scheme. On these facts, could USA show an *antitrust injury* resulting from ARCO's actions (i.e., injury that flows from the unlawful aspects of the challenged behavior and is of a type that the antitrust laws were designed to prevent)? Does per se treatment apply to vertical price-fixing when the allegedly fixed price is of a *maximum* nature?

2. Co-Operative Theatres (Co-op), a Cleveland area movie theater booking agent, began seeking customers in southern Ohio. Shortly thereafter, Tri-State Theatre Services (Tri-State), a Cincinnati booking agent, began to solicit business in the Cleveland area. Later, however, Co-op and Tri-State allegedly entered into an agreement not to solicit each other's customers. The Justice Department prosecuted them for agreeing to restrain trade in violation of § 1 of the Sherman Act. Under a government grant of immunity, Tri-State's vice president testified that Co-op's vice president had approached him at a trade convention and threatened to start taking Tri-State's accounts if Tri-State did not stop calling on Co-op's accounts. He also testified that at a luncheon meeting he attended with officials from both firms, the

presidents of both firms said that it would be in the interests of both firms to stop calling on each other's accounts. Several Co-op customers testified that Tri-State had refused to accept their business because of the agreement with Co-op. The trial court found both firms guilty of a per se violation of the Sherman Act, rejecting their argument that the rule of reason should have been applied and refusing to allow them to introduce evidence that the agreement did not have a significant anticompetitive effect. Should the rule of reason have been applied?

3. Discon, Inc., specialized in providing the service of removing obsolete telephone equipment. New York Telephone Company was a subsidiary of NYNEX Corporation. Another NYNEX subsidiary, Materiel Enterprises Company, was a purchasing entity that arranged for Discon to provide removal services for New York Telephone. After regularly doing business with Discon, Materiel switched its purchases of removal services from Discon to a Discon competitor, AT&T Technologies. According to Discon, Materiel did this as part of an attempt to defraud local telephone customers and regulatory authorities. Discon contended that Materiel would pay AT&T Technologies more than Discon would have charged for similar removal services, that Materiel would then pass those higher prices on to New York Telephone, and that New York Telephone would in turn pass those prices on to consumers in the form of higher telephone service charges that were approved by the relevant regulatory authorities. Discon further contended that at the end of the year, Materiel would receive a special rebate from AT&T Technologies, and that Materiel would share this rebate with its corporate parent, NYNEX. Discon asserted that because it refused to participate in this fraudulent scheme, Materiel would not do business with Discon, which eventually went out of business. Discon sued Materiel, New York Telephone, and NYNEX, claiming that the above facts constituted a group boycott and thus a per se violation of § 1 of the Sherman Act. If Discon's allegations are true, did a per se group boycott take place?
4. The Maricopa Foundation for Medical Care was a nonprofit organization established by the Maricopa County Medical Society to promote fee-for-service medicine. Roughly 70 percent of the physicians in Maricopa County belonged to the foundation. The foundation's trustees set maximum fees that members could charge for medical services provided to policyholders of approved medical insurance plans. To obtain the foundation's approval, insurers had to agree to pay the fees of member physicians up to the prescribed maximum. Member physicians were free to charge less than the prescribed maximum, but had to agree not to seek additional payments in excess of the maximum from insured patients. The Arizona attorney general filed suit for injunctive relief against the Maricopa County Medical Society and the foundation, arguing that the fee agreement constituted per se illegal horizontal price-fixing. The district court denied the state's motion for a partial summary judgment. The Ninth Circuit Court of Appeals affirmed on the ground that the per se rule was not applicable to the case. Was the Ninth Circuit correct?
5. In 1986, Market Force, Inc. (MFI), began operating in the Milwaukee real estate market as a buyer's broker. MFI and prospective home buyers entered into exclusive contracts providing that MFI would receive a fee equal to 40 percent of the sales commission if it located a house that the buyer ultimately purchased. This 40 percent commission was the same commission selling brokers (those who ultimately produced a buyer, but whose duty of loyalty was to the seller) earned when they sold property placed on the local multiple listing service (MLS) by other brokers. MFI's contracts anticipated that the buyer would ask the listing broker (the one who had listed the property for sale on behalf of its owners and who received 60 percent of the commission when the property was sold) to pay MFI the commission at the time of the sale. If the listing broker agreed to do so, the buyer had no further obligation to MFI. For some time after MFI began operations, other real estate firms treated it inconsistently; some paid the full 40 percent commission but others paid nothing. In the fall of 1987, Wauwatosa Realty Co. and Coldwell Banker, the top two firms listing high quality homes in Milwaukee, issued formal policies on splitting commissions with buyer's brokers. Wauwatosa said it would pay 20 percent of the selling agent's 40 percent commission. Coldwell Banker said it would pay 20 percent of the total sales commission. Several other real estate firms followed suit, setting their rates at 10 or 20 percent of the total sales commission, with the result that firms accounting for 31 percent of the annual listings of the MLS adopted policies and disseminated them to other MLS

members. MFI filed suit against the brokers who had announced policies, arguing that they had conspired to restrain trade in violation of § 1 of the Sherman Act. At trial, the defendants introduced evidence of numerous business justifications for their policies and argued that their knowingly having adopted similar policies was not enough, standing alone, to justify a conclusion that the Sherman Act was violated. Was this argument correct?

6. Orson, Inc., owned and operated the Roxy, a movie theater located in downtown Center City, Philadelphia, from January 1992 until the permanent closing of the theater in October 1994. The Roxy exhibited art films—as opposed to movies that may be characterized as mainstream—on two screens. The total seating capacity at the Roxy was 260. The Ritz theaters, which competed with the Roxy in the showing of art films in the Center City area, consisted of two five-screen facilities with a total seating capacity of approximately 1,800. The ticket prices at the Roxy and at the Ritz theaters (referred to collectively as “the Ritz”) were essentially the same. In addition to the Roxy and the Ritz, there were six other Center City area theaters that showed art films at least part of the time. Miramax Film Corp., a nationwide distributor of feature-length motion pictures (including art films), distributed movies to all of the theaters in Center City and elsewhere in the greater metropolitan Philadelphia area. Miramax licensed films for exhibition for a limited period of time. Consistent with the usual practice in the motion picture industry, these licenses normally were exclusive—meaning that during the time period established in the license, the film would not be licensed to other theaters located in a specified area. Such licenses, called clearances, contained compensation terms entitling Miramax to a portion of the exhibiting theater’s box office gross.

In the motion picture industry, a *first run* is the initial exhibition of a film in a given geographic area. A *subsequent run* is an exhibition of that film in the same geographic area after the first run has expired. Between January 1992 and February 1994 (when discovery ended in the lawsuit described below), Miramax licensed 28 films on a first-run basis, as well as one on a subsequent-run basis, to the Ritz. During the same time period, Miramax granted the Roxy one first-run license and 14 subsequent-run licenses, and issued various first-run licenses to Center City area theaters other than the Roxy and the

Ritz. In addition, during the same time period, 59 distributors other than Miramax granted a total of 73 first-run licenses to the Roxy. All of the first-run licenses Miramax granted to the Ritz were exclusive in nature. On occasion, Orson sought a first-run nonexclusive license on a Miramax film and indicated that Orson would offer Miramax a higher percentage of the Roxy’s box office receipts than the percentage the Ritz would pay. Nevertheless, Miramax did not grant Orson the licenses it had requested for the Roxy.

Orson sued Miramax in August 1993, alleging that it had violated § 1 of the Sherman Act by conspiring with the Ritz to exclude the Roxy from the art film market. According to Orson’s complaint, this conspiracy involved an agreement to (1) make the Ritz Miramax’s exclusive Philadelphia exhibitor for first-run art film features, and (2) grant the Ritz exclusive first-run rights to any Miramax film the Ritz wished to exhibit. The district court concluded that rule of reason analysis was appropriate because the supposed agreement between Miramax and the Ritz was “clearly a vertical agreement” between a distributor and an exhibitor. After undertaking such an analysis, the district court granted summary judgment in favor of Miramax. Orson appealed to the U.S. Court of Appeals for the Third Circuit. Was rule of reason treatment appropriate in this case? Did the trial court rule correctly in granting summary judgment to Miramax?

7. Eastman Kodak Co. (Kodak) manufactures and sells photocopiers and micrographic equipment. In addition, Kodak provides customers with service and replacement parts for its equipment. Kodak produces some of the parts itself. The other parts are made to order for Kodak by independent original equipment manufacturers (OEMs). Rather than selling a complete system of original equipment, lifetime parts, and lifetime service for a single price, Kodak furnishes service after an initial warranty period, either through annual service contracts or on a per-call basis. Kodak provides between 80 and 95 percent of the service for Kodak machines. In the early 1980s, independent service organizations (ISOs) began repairing and servicing Kodak equipment, as well as selling parts for it. ISOs kept an inventory of parts, purchased either from Kodak or from other sources (primarily OEMs). In 1985, Kodak adopted policies designed to limit ISOs’ access to parts and to make it more difficult for ISOs to compete with

Kodak in servicing Kodak equipment. Kodak began selling replacement parts only to Kodak equipment buyers who used Kodak service or repaired their own machines (i.e., buyers who did not use ISOs for service). In addition, Kodak sought to limit ISO access to other sources of Kodak parts by working out agreements with OEMs that they would sell parts for Kodak equipment to no one other than Kodak, and by pressuring Kodak equipment owners and independent parts distributors not to sell Kodak parts to ISOs.

Eighteen ISOs sued Kodak, claiming that these policies amounted to unlawful tying of the sale of service for Kodak machines to the sale of parts, in violation of Sherman Act § 1. A federal district court granted summary judgment in favor of Kodak on each of these claims. The Ninth Circuit Court of Appeals reversed, holding that summary judgment was inappropriate because there were genuine issues of material fact regarding the ISOs' claims. The U.S. Supreme Court granted certiorari. For purposes of the § 1 tying claim presented in this case, are service and parts two distinct products? If so, do the facts make it reasonable to infer that Kodak possessed sufficient market power in the parts market to force unwanted purchases of service? How did the Supreme Court rule?

8. Grinnell Corporation manufactured plumbing supplies and fire sprinkler systems. It also owned 76 percent of the stock of ADT Co., 89 percent of the stock of AFA, Inc., and 100 percent of the stock of Holmes, Inc. ADT provided burglary-protection and fire-protection services. AFA provided only fire-protection services. Holmes provided only burglary-protection services. Each of the three firms offered a central station service under which hazard-detecting devices installed on the protected premises automatically transmitted an electronic signal to a central station. Other companies provided forms of protection service other than the central station variety. Subscribers to an accredited central station service (i.e., one approved by insurance underwriters) received substantially greater insurance premium reductions than the premium reductions received by users of other protection services. At the relevant time in question, ADT, AFA, and Holmes were the three largest central station service companies in terms of revenue. Together, they accounted for approximately 87 percent of the central station services provided. Contending that Grinnell, ADT, AFA, and Holmes had taken various anticompetitive actions that amounted to willful acquisition or maintenance of monopoly power, the U.S. government brought a monopolization action against Grinnell under § 2 of the Sherman Act. Concerning the first element of a monopolization claim (monopoly power in the relevant market), were fire-protection services and burglary-protection services too different to be part of the same market? What was the relevant market in this case? Were protection services other than those of the central station variety part of it?
9. Martindale Empowerment, a Virginia corporation, engaged in the business of providing commercial electronic-mail service to advertisers. Martindale regularly sent electronic advertising over the Internet in the form of e-mail to e-mail addresses throughout the United States. In September 1998, however, America Online, Inc., the largest commercial online service in the nation with more than 16,000,000 individual subscribers, implemented various mechanisms to block advertising messages that Martindale had been sending to AOL subscribers for nearly two years. AOL succeeded in blocking most of those transmissions by Martindale. Contending that Martindale was using deceptive practices in an effort to mask the source and quantity of its transmissions and thereby avoid AOL's blocking and filtering technologies, AOL sued Martindale on a variety of legal theories. AOL sought an injunction against Martindale's practice of sending unsolicited bulk e-mail advertisements to AOL subscribers. Martindale responded with a counterclaim in which it alleged that AOL had engaged in monopolization, in violation of § 2 of the Sherman Act. According to Martindale, AOL had established itself as the only entity that could advertise to AOL subscribers. For purposes of the first element of a monopolization claim—monopoly power in a relevant market—Martindale contended that the relevant product or service market was e-mail advertising. Was Martindale correct in this contention?
10. In July 1977, anesthesiologist Edwin G. Hyde applied for admission to the medical staff of East Jefferson Hospital in New Orleans. The credentials committee and the medical staff executive committee recommended approval, but the hospital board denied the application because the hospital was a party to a contract providing that all anesthesiological services required by the hospital's patients would be performed by Roux & Associates, a professional

medical corporation. Hyde filed suit against the board, arguing that the contract violated § 1 of the Sherman Act. The district court ruled in favor of the board, finding that the anticompetitive effects of the contract were minimal and outweighed by the benefits of improved patient care. It noted that there were at least 20 hospitals in the New Orleans metropolitan area and that roughly 70 percent of the patients residing in Jefferson Parish went to hospitals other than East Jefferson. It therefore concluded that East Jefferson lacked any significant market power and could not use the contract for anticompetitive ends. The Fifth Circuit Court of Appeals reversed, holding that the relevant market was the East Bank Jefferson Parish rather than the New Orleans metropolitan area. The court therefore concluded that because 30 percent of the parish residents used East Jefferson and “patients tend to choose hospitals by location rather than price or quality,” East Jefferson possessed sufficient market power to make the contract a per se illegal tying contract. Was the Fifth Circuit correct?

11. For approximately three years, Larry and Shirley McQuillan had served as distributors of sorbothane products for a certain firm and its successor. After they lost their distributorship and their business failed, the McQuillans sued both firms, as well as other affiliated companies and individuals. The McQuillans raised various legal claims, including a claim that the defendants engaged in attempted

monopolization, in violation of § 2 of the Sherman Act. The evidence produced at trial revealed various instances of unfair or predatory conduct engaged in by the defendants and directed toward the McQuillans. The jury awarded the McQuillans a very substantial damages award on their attempted monopolization claim. The defendants appealed. Relying on one of its own precedents (a 1964 decision), the U.S. Court of Appeals for the Ninth Circuit held that the evidence of the defendants’ unfair or predatory conduct served to satisfy the *specific intent to monopolize* and *dangerous probability of achieving monopoly power* elements of the McQuillans’ attempted monopolization claim, even though the McQuillans presented no proof of the relevant market or the defendants’ market power therein. Was the Ninth Circuit’s holding correct?

chapter 50

THE CLAYTON ACT, THE ROBINSON-PATMAN ACT, AND ANTITRUST EXEMPTIONS AND IMMUNITIES

XYZ, Inc., the widget manufacturer referred to at the beginning of Chapter 49, may face antitrust issues that go beyond the ones addressed in that chapter. As you study this chapter, consider these questions regarding possible courses of action in which XYZ might engage:

- If XYZ, in selling its widgets, charges different prices to different wholesale dealers, is XYZ at risk of antitrust liability? What if XYZ charges a wholesale dealer a lower price than XYZ charges a *retailer* with whom XYZ deals directly?
- If XYZ has been charging a certain price for its widgets but XYZ learns that a competing widget manufacturer is offering its widgets at a lower price, would XYZ be at risk of violating antitrust law if it lowers its price for certain customers in order to *meet* the price offered by the competitor? What if XYZ lowers its price enough to *beat* the competitor's price?
- If XYZ and a competing widget manufacturer decide to merge, what potential hurdles might antitrust law present?
- If XYZ decides to acquire a company that produces a material used in making widgets (i.e., a noncompetitor), is antitrust law a potential obstacle to XYZ's ability to carry out the acquisition?
- If, through effective lobbying efforts, XYZ helps convince a state legislature to enact a statute that may benefit XYZ at the expense of competition in the widget market, has XYZ committed an antitrust violation?
- What ethical questions are suggested by the behaviors alluded to above?

CONCENTRATION IN THE AMERICAN economy continued despite the 1890 enactment of the Sherman Act. Restrictive judicial interpretations of section 2 of the Sherman Act limited its effectiveness against many monopolists. Critics therefore sought legislation to thwart would-be monopolists before they achieved full-blown restraint of trade or monopoly power. In 1914, Congress responded by passing the Clayton Act.

Congress envisioned the Clayton Act as a vehicle for attacking practices that monopolists historically employed to acquire monopoly power. These practices included tying and exclusive dealing arrangements designed to squeeze

competitors out of the market, mergers and acquisitions aimed at reducing competition through the elimination of competitors, interlocking corporate directorates designed to reduce competition by placing competitors under common leadership, and predatory or discriminatory pricing intended to force competitors out of business. These practices will be discussed in the following pages.

In view of the congressional intent that the Clayton Act serve as a preventive measure, only a *probability* of a significant anticompetitive effect must be shown for most Clayton Act violations. Because the Clayton Act focuses on probable harms to competition, there are no

criminal penalties for violating its provisions. Private plaintiffs, however, may sue for treble damages or injunctive relief if they are injured, or threatened with injury, by another party's violation of the statute. The Justice Department and the Federal Trade Commission (FTC) share responsibility for enforcing the Clayton Act. Each has the authority to seek injunctive relief to prevent or remedy violations of the statute. In addition, the FTC has the power to enforce the Clayton Act through cease and desist orders, which were discussed in Chapter 48.

Clayton Act Section 3

Section 3 of the Clayton Act makes it unlawful for any person engaged in interstate commerce to *lease or sell commodities*, or to *fix a price for commodities*, on the *condition, agreement, or understanding* that the lessee or buyer will not use or deal in the commodities of the lessor's or seller's competitors, if the effect of doing so *may be to substantially lessen competition or tend to create a monopoly* in any line of commerce. Section 3 primarily targets two potentially anticompetitive behaviors: **tying agreements** and **exclusive dealing agreements**. As you learned in Chapter 49, these types of contracts may amount to restraints of trade in violation of Sherman Act section 1. The language of section 3, however, contains limitations on the Clayton Act's application to such agreements.

A major limitation is that section 3 applies only to tying agreements and exclusive dealing contracts involving the leasing or sale of *commodities*. Any such agreements involving services, real estate, or intangibles must therefore be attacked under the Sherman Act. Although section 3 speaks of sales and leases on the "condition, agreement, or understanding" that the buyer or lessee not deal in the commodities of the seller's or lessor's competitors, no formal agreement is required. Whenever a seller or lessor uses its economic power to prevent its customers from dealing with its competitors, potential Clayton Act concerns are triggered.

Tying Agreements Many *tying agreements* plainly fall within at least the first portion of the section 3 language. Any agreement that requires a buyer to purchase one product (the *tied product*) from a seller as a condition of purchasing another product (the *tying product*) from the same seller necessarily prevents the buyer from purchasing the tied product from the seller's competitors.

Only tying agreements that may "*substantially lessen competition or tend to create a monopoly*," however,

violate section 3. Several decades ago, the Supreme Court appeared to indicate that a tying agreement would violate the Clayton Act if the seller either had monopoly power over the tying product or restrained a substantial volume of commerce in the tied product. Most lower federal courts today, however, require essentially the same elements for a Clayton Act violation that they require for a Sherman Act violation: The challenged agreement must involve *two separate products*; *sale of the tying product must be conditioned* on an accompanying sale of the tied product; the seller must have *sufficient economic power in the market for the tying product* to appreciably restrain competition in the tied product market; and the seller's tying arrangements must restrain a "*not insubstantial*" *amount of commerce in the tied product market*. A few courts, however, continue to apply a less demanding standard for Clayton Act tying liability by dispensing with proof of the seller's economic power in the market for the tying product as long as the seller's tying arrangements involve a "not insubstantial" amount of commerce in the tied product. The defenses to tying liability under the Sherman Act (discussed in Chapter 49) are also applicable to tying claims brought under the Clayton Act.

Exclusive Dealing Agreements In the preceding chapter, we discussed the nature of *exclusive dealing agreements*. Such contracts clearly fall under the initial portion of the section 3 language because buyers who agree to handle one seller's product exclusively, or to purchase all of their requirements for a commodity from one seller, are also agreeing not to purchase similar items from the seller's competitors. However, not all exclusive dealing agreements are unlawful. Section 3 outlaws only those agreements that may "substantially lessen competition or tend to create a monopoly."

Exclusive dealing agreements initially were treated in much the same way as tying agreements. Courts looked at the dollar amount of commerce involved and declared illegal those agreements involving a "not insubstantial" amount of commerce. This *quantitative substantiality* test was employed by the Supreme Court in *Standard Oil Co. v. United States* (1949). Standard Oil was the largest refiner and supplier of gasoline in several western states, holding approximately 14 percent of the retail market. Roughly half of these sales were made by retail outlets owned by Standard. The remaining sales were made by independent dealers who had entered into exclusive dealing contracts with Standard. Standard's six major competitors had entered into similar contracts with their own independent dealers. The Court recognized that exclusive

dealing contracts, unlike tying agreements, could benefit both buyers and sellers, but declared Standard's contracts unlawful on the ground that nearly \$58 million in commerce was involved.

The *Standard Oil* decision prompted considerable criticism. In *Tampa Electric Co. v. Nashville Coal Co.* (1961), the Supreme Court applied a broader *qualitative substantiality* test to gauge the legality of a long-term requirements contract for the sale of coal to an electric utility. In *Tampa Electric*, the Court looked at the “area of effective competition,” which was the total market for coal in the geographic region from which the utility could reasonably purchase its coal needs. The Court then examined the percentage of this region's coal sales accounted for by the challenged contract. Because that percentage share was less than 1 percent of the region's coal sales, the Court upheld the agreement even though it represented more than \$100 million in coal sales.

Tampa Electric, however, is distinguishable from *Standard Oil*, which the Court has not overruled. Unlike *Standard Oil*, *Tampa Electric* involved parties with relatively equal bargaining power and an individual agreement, rather than an industrywide practice. In addition, there were obvious reasons why an electric utility such as Tampa Electric might want to lock in its coal costs by using a long-term requirements contract. Although lower court opinions employing each test may be found, the *qualitative* approach employed in *Tampa Electric* almost certainly is the one the current Court would employ.

Clayton Act Section 7

Introduction Section 7 of the Clayton Act was designed to attack **mergers**—a term used broadly in this chapter to refer to the acquisition of one company by another. History indicates that one way monopolists acquired monopoly power was by acquiring control of their competitors. Section 7 prohibits any party engaged in commerce or in any activity affecting commerce from *acquiring the stock or assets* of another such party if the effect, in *any line of commerce* or *any activity affecting commerce* in any section of the country, *may be to substantially lessen competition* or *tend to create a monopoly*. Rather than adopting the Sherman Act approach of waiting until a would-be monopolist has acquired monopoly power or is dangerously close to doing so, section 7 attempts to “nip monopolies in the bud” by barring mergers that *may* have an anticompetitive effect.

Although section 7 is plainly an anticoncentration device, it has also been used (as the following text

indicates) to attack mergers that have had no direct effect on concentration in a particular industry. Its future evolution, however, is uncertain, given the influence of Chicago School economic theories on contemporary antitrust law and the more tolerant stance those theories take toward mergers. During the 1980s, the Justice Department signaled a more permissive approach to merger activity than the government had previously adopted. Later, Justice Department and FTC officials undertook somewhat greater scrutiny of mergers in some industries, though clearly not on an across-the-board basis. As this book went to press in 2008, the federal government was again tending to allow considerable room for merger activity.

The Hart–Scott–Rodino Antitrust Improvement Act of 1976 requires that for planned mergers involving dollar values of stock or assets exceeding certain amounts, the parties to the merger agreement must provide advance notice to the FTC and the Justice Department. The purpose of this requirement is to provide the federal government a “heads-up” warning and to give regulators a reasonable opportunity to institute a legal challenge of the merger if a challenge seems warranted. Once the statutorily specified waiting period expires and the government has cleared the merger or at least has not taken legal action to block it, the merger may proceed. The normal waiting period is 30 days from the filing of the premerger notification form, though the waiting period is sometimes subject to extension. It should be remembered, however, that regardless of whether the government seeks to block a merger, private enforcement of section 7 is also possible.

Predictions regarding section 7's eventual judicial treatment are complicated considerably by the fact that many of the important merger cases in recent years have been settled out of court. This leaves interested observers of antitrust policy with few definitive expressions of the Supreme Court's current thinking on merger issues.

Relevant Market Determination Regardless of the treatment section 7 ultimately receives in the courts, determining the **relevant market** affected by a merger is likely to remain a crucial component of any section 7 case. Before a court can determine whether a particular merger will have the *probable* anticompetitive effect required by the Clayton Act, it must first determine the *line of commerce* (or *relevant product market*) and the *section of the country* (or *relevant geographic market*) that are likely to be affected by the merger. The court's adoption of a broad relevant market definition will usually enhance the government's or private plaintiff's

difficulty in demonstrating the challenged merger's probable anticompetitive effect.

Relevant Product Market “Line of commerce” determinations under the Clayton Act have traditionally employed *functional interchangeability* tests similar to those employed in relevant product market determinations under the Sherman Act. Which products do the acquired and acquiring firms manufacture (assuming a merger between competitors), and which products are reasonably interchangeable by consumers to serve the

same purposes? The federal government's merger guidelines indicate that the relevant market includes those products that consumers view as good substitutes at prevailing prices. The guidelines also state that the relevant market includes any products to which a significant percentage of current customers would shift in the event of a “small, but significant and non-transitory increase” in price of the merged firms' products. The *Olin* case, which follows, discusses the making of a relevant product market determination, as does the *Staples* case, which appears later in the chapter.

Olin Corporation v. Federal Trade Commission

986 F.2d 1295 (9th Cir. 1993)

Sanitizing agents are used to kill algae and bacteria in swimming pools. Pool owners may use any of three sanitizing agents. One is liquid pool bleach; the other two are chemicals sold in dry form. These dry sanitizers are isocyanurates (ISOS) and calcium hypochlorite (CAL/HYPO). The chemical cyanuric acid (CA) is a precursor in the manufacturing process of ISOS. When CAL/HYPO is used as a sanitizer, CA is used along with it as a stabilizer.

Olin Corporation was the market leader in CAL/HYPO production in the United States from 1980 through 1984, with a market share of 79 to 89 percent. Olin sought to increase its ability to produce and market ISOS. After technical problems doomed Olin's attempts to produce CA and ISOS during the late 1970s and early 1980s, Olin entered into a 1984 agreement with Monsanto Co. Under this agreement, Olin provided certain ISOS precursors to Monsanto, which then produced ISOS and provided them to Olin. Olin thus became a “repackager” of ISOS.

In 1985, Olin and FMC Corporation entered into an agreement under which Olin was to purchase FMC's swimming pool chemical business. The assets of that business included FMC's sanitizers manufacturing plant at South Charleston, West Virginia. The South Charleston plant produced both CA and ISOS. The Federal Trade Commission challenged the proposed acquisition on the theory that it would likely result in a substantial lessening of competition in the relevant markets, in violation of section 7 of the Clayton Act and section 5 of the FTC Act. To avoid a possible order that would have prohibited the acquisition, Olin agreed to maintain the acquired assets in such a way that divestiture would be possible if the FTC issued a final decision holding that the acquisition violated antitrust laws. In addition, Olin agreed to a graduated withdrawal from its agreement with Monsanto. Olin and FMC were therefore allowed to consummate their transaction, pending final review by the FTC.

After a hearing, the FTC administrative law judge (ALJ) concluded that the acquisition violated the Clayton and FTC Acts because it would likely result in a substantial lessening of competition in the relevant markets. The FTC commissioners (referred to below as “the Commission”) upheld the ALJ's decision as well as the ALJ's proposed remedy of divestiture. The Commission therefore ordered Olin to divest itself of the South Charleston plant it had acquired from FMC. Olin petitioned the Ninth Circuit Court of Appeals for review of the Commission's decision and order.

Tang, Circuit Judge

Normally, “a delineation of proper geographic and product markets is a necessary precondition to assessment of the probabilities of a substantial effect on competition within them.” *United States v. General Dynamics Corp.* (U.S. Sup. Ct. 1974). There is no dispute in this case that the [relevant] geographic market is the entire United States. The parties have further stipulated that one relevant United States product market consists solely of ISOS (the “ISOS-only” market). The Commission also identified over Olin's objection a second relevant United States product market, one comprised of both ISOS and CAL/HYPO (the “dry sanitizers” market). Olin contends that the finding of likely

anticompetitive effect is erroneous because it is premised on . . . a relevant dry sanitizers market [whose] existence is not supported by substantial evidence. In analyzing the post-acquisition dry sanitizers market [the existence of which Olin does not concede], the Commission concluded that Olin's production capacity would be 57 percent of a market in which the four-firm concentration ratio was 95 percent.

[In *California v. American Stores Co.* (9th Cir. 1989), we] described the process of product market definition as follows:

The outer boundaries of a product market are determined by the reasonable interchangeability of use or the cross-elasticity of demand between the product itself and substitutes

for it” (quoting *Brown Shoe Co. v. United States* [U.S. Sup. Ct. 1962]). Where an increase in the price of one product leads to an increase in demand for another, both products should be included in the relevant product market.

In conducting its product market analysis for swimming pool sanitizers, the Commission discussed physical composition, usage, and technical characteristics of dry sanitizers. [T]he Commission observed that similarities in these categories “predominate over the minor [physical] differences between ISOS and CAL/HYPO. The following facts are particularly important: (1) both products are used to deliver chlorine to swimming pools; (2) each product is able to deliver chlorine with about the same efficiency—although a pool chlorinated with ISOS will remain chlorinated longer; (3) by virtue of both products’ stability and other characteristics, “a pool owner can purchase a year’s supply of either [product] in a single trip to the store”; and (4) both products are available to consumers in the same forms. In discussing these characteristics, the Commission apparently assumed that the relevant market is defined in terms of consumers who maintain their own pools. Although Olin challenged this assumption, we conclude there is substantial evidence in support of dealing with residential consumers as a distinct market.

Despite [the above] similarities, however, ISOS are perceived as more convenient than CAL/HYPO because, once applied, ISOS last longer than CAL/HYPO, and because CAL/HYPO requires use of a separate stabilizer (i.e., CA). Recognizing that the “convenience of [ISOS] is reflected in a price premium that [ISOS] maintain over [CAL/HYPO],” the Commission then analyzed whether this premium is sufficient to prevent inclusion of ISOS and CAL/HYPO in the same market. Ultimately, the Commission [applied a test set forth in the merger guidelines subscribed to by the Department of Justice and the FTC, and concluded that] “Olin could not profitably impose a small but significant and non-transitory increase in the price of [CAL/HYPO] because of the danger that consumers would then switch to [ISOS].” Given this indication of cross-elasticity of demand, the Commission concluded that ISOS and CAL/HYPO together compose a relevant product market (i.e., the dry sanitizers market).

Olin argues that it is inconsistent to recognize a larger, dry sanitizers market once a relevant ISOS-only market has been identified. However, relevant submarkets are common in merger analysis. Recognizing ISOS as a submarket of the dry sanitizers market is not inherently contradictory with recognizing a dry sanitizers market.

Olin charges that the Commission had no basis on which to conclude that any significant degree of elasticity existed between ISOS and CAL/HYPO. It is evident from its opinion that the Commission relied on a narrowing of the price gap

between the two products in determining cross-elasticity. The opinion [stated that] “from 1977 to 1983, . . . the price of [CAL/HYPO] increased at a faster rate than that of [ISOS].” According to the opinion, this increase in the price of CAL/HYPO came about despite direct competition from Japanese CAL/HYPO, which was later the subject of an “antidumping” order. Olin argues that the narrowing of the price gap between CAL/HYPO and ISOS was artificial—and should not be used in determining cross-elasticity—because the Japanese were “dumping” ISOS on the American market. The Commission responds convincingly that, because CAL/HYPO was subject to the same pressures as the result of Japanese CAL/HYPO dumping, the narrowing in price was not artificial. Olin ignores this explanation and shifts its focus to the Commission concession that CAL/HYPO consumers would not switch to ISOS until the price of CAL/HYPO had risen at least 10 percent.

Olin . . . attempt[s] to emphasize the 5 percent factor normally used [by the Department of Justice and the FTC when they apply the merger guidelines’ test that asks whether a “small but significant and nontransitory price increase” would cause consumers to switch to another product]. [However,] research has not disclosed a case that mandates [use of the 5 percent figure in] determining relevant product markets. Indeed, [the government’s merger guidelines themselves acknowledge] that a higher percent increase in price is appropriate in determining the relevant product market in certain cases. Thus, a finding of cross-elasticity between ISOS and CAL/HYPO is not precluded by the fact that a higher price increase is necessary to induce a switch; a higher increase indicates only that the relationship between the two products is somewhat inelastic—but not necessarily so inelastic as to exclude the products from the same market, particularly under the substantial evidence standard of review.

[In making its cross-elasticity finding, the Commission also reasonably relied on] a statement Olin made to the International Trade Commission [in which Olin complained about Japanese “dumping” but appeared to acknowledge that CAL/HYPO faces competition from ISOS] and a statement made by an Olin competitor indicating a competitive relationship between CAL/HYPO and ISOS. [W]e find adequate support for the Commission’s finding of cross-elasticity between ISOS and CAL/HYPO.

[The Ninth Circuit went on to hold that the divestiture remedy ordered by the Commission was an appropriate exercise of the Commission’s discretion.]

Olin’s petition for review denied; decision and order of Commission upheld.

Relevant Geographic Market To determine a particular merger's probable anticompetitive effect on a section of the country, courts have traditionally asked where the effects of the merger will be direct and immediate. This means that the relevant geographic market may not be as broad as the markets in which the acquiring and acquired firms actually operate or, in the case of a merger between competitors, the markets in which they actually compete. The focus of the relevant market inquiry is on those sections of the country in which competition is most likely to be injured by the merger. As a result, the relevant geographic market could be drawn as narrowly as one metropolitan area or as broadly as the entire nation. All that is necessary to satisfy this aspect of section 7 is proof that the challenged merger may have a significant negative effect on competition in any economically significant geographic market.

The federal government's merger guidelines adopt a somewhat different approach to determining the relevant geographic market. They define the relevant geographic market as the geographic area in which a sole supplier of the product in question could profitably raise its price without causing outside suppliers to begin selling in the area. The guidelines contemplate beginning with the existing markets in which the parties to a merger compete, and then adding the markets of those suppliers that would enter the market in response to a "small, but significant and non-transitory increase" in price.

Horizontal Mergers The analytical approach employed to gauge a merger's probable effect on competition varies according to the nature of the merger in question. **Horizontal mergers**—mergers among firms competing in the same product and geographic markets—have traditionally been subjected to the most rigorous scrutiny because they clearly lead to increased concentration in the relevant market.

Market Share of Resulting Firm To determine the legality of such a merger, courts look at the *market share of the resulting firm*. In *United States v. Philadelphia National Bank* (1963), the Supreme Court indicated that a horizontal merger producing a firm with an "undue percentage share" of the relevant market (33 percent in that case) and resulting in a "significant increase in concentration" of the firms in that market would be presumed illegal, absent convincing evidence that the merger would not have an anticompetitive effect.

In the past, mergers involving firms with smaller market shares than those involved in *Philadelphia National Bank* were also enjoined if other economic or historical

factors pointed toward a probable anticompetitive effect. Factors that courts have traditionally considered relevant include:

1. *A trend toward concentration in the relevant market.* Has the number of competing firms decreased over time?
2. *The competitive position of the merging firms.* Are the defendants dominant firms despite their relatively small market shares?
3. *A past history of acquisitions by the acquiring firm.* Are we dealing with a would-be empire builder?
4. *The nature of the acquired firm.* Is it an aggressive, innovative competitor despite its small market share?

Recent Assessments of Merger Effects Recent developments, however, indicate that the courts and federal antitrust enforcement agencies have become increasingly less willing to presume that anticompetitive effects will result from a merger that produces a firm with a relatively large market share. Instead, a more detailed inquiry is made into the nature of the relevant market and of the merging firms in order to ascertain the likelihood of probable harm to competition as a result of a challenged merger. The federal government's merger guidelines provide that when regulators assess a horizontal merger's probable effect, the focus is on the existing concentration in the relevant market, the increase in concentration as a result of the proposed merger, and other nonmarket share factors. The more concentrated the existing market and the greater the increase in concentration that would result from the proposed merger, the more likely the merger is to be challenged by the government.

The nonmarket share factors considered by federal regulators are more traditional. They include the existence (or absence) of barriers to the entry of new competitors into the relevant market; the prior conduct of the merging firms; and the probable future competitive strength of the acquired firm. The last factor is particularly important because courts have acknowledged that a firm's current market share may not reflect its ability to compete in the future. For example, courts have long recognized a "failing company" justification for some mergers. If the acquired firm is a failing company and no other purchasers are interested in acquiring it, its acquisition by a competitor may be lawful under section 7. Similarly, if an acquired firm has financial problems that reflect some underlying structural weakness, or if it lacks technologies that will be necessary if it is to compete effectively in the future, its current market share may overstate its future competitive importance.

Finally, given the increased weight being assigned to economic arguments in antitrust cases, two other merger justifications may be granted greater credence in the future. Some lower federal courts have recognized the notion that a merger between two small companies may be justifiable, despite the increase in concentration stemming from the merger, if the resulting firm is able to compete more effectively with larger competitors. In a similar vein, some commentators have argued that mergers resulting in

cost savings or other enhanced economic efficiencies should sometimes be allowed even though they may have some anticompetitive impact. Though courts have not been very receptive to efficiency arguments in the past, the government's merger guidelines are flexible enough to allow the Justice Department and FTC to consider efficiency claims in deciding whether to challenge a merger.

The *Staples* case, which follows, illustrates a broad range of issues that arise in horizontal merger cases.

Federal Trade Commission v. Staples, Inc.

970 F. Supp. 1066 (D.D.C. 1997)

Office Depot, Inc., owned the nation's largest chain of retail outlets commonly known as "office supply superstores." Staples, Inc., owned the second-largest chain of this type. Each company operated more than 500 superstores, with Office Depot's outlets existing in 38 states and the District of Columbia and Staples' superstores appearing in 28 states and the District of Columbia. The only other office supply superstore firm in the United States was OfficeMax, Inc. In 1996, Staples and Office Depot entered into a merger agreement. As required by law, they filed a Premerger Notification and Report Form with the Federal Trade Commission (FTC) and the Department of Justice.

Following a lengthy investigation, the FTC initiated an adjudicative proceeding against Staples and Office Depot on the theory that the planned merger violated section 7 of the Clayton Act. (Adjudicative proceedings are discussed in Chapters 47 and 48.) In an effort to prevent the merger from taking place while its legality was being determined in the adjudicative proceeding, the FTC filed suit against Staples and Office Depot and requested a preliminary injunction against the merger. The federal district court conducted an extensive evidentiary hearing.

Hogan, District Judge

Section 7 of the Clayton Act makes it illegal for two companies to merge "where in any line of commerce or in any activity affecting commerce in any section of the country, the effect of such acquisition may be substantially to lessen competition, or to tend to create a monopoly." [The FTC Act provides that if] the Commission has reason to believe that a corporation is violating, or is about to violate, section 7 . . . , the FTC may seek a preliminary injunction to prevent a merger pending the Commission's adjudication of the merger's legality.

In order to determine whether the Commission has [made the required showing of] likelihood of success on the merits, . . . the court must consider the likely competitive effects of the merger. [This requires the court to determine the relevant product and geographic markets, as well as] the transaction's probable effect on competition in the product and geographic markets. [T]he parties . . . do not disagree . . . that [more than 40 different] metropolitan areas are the appropriate geographic markets for analyzing the competitive effects of the proposed merger. [However, the parties] sharply disagree with respect to the appropriate definition of the relevant product market. [T]o a great extent, this case hinges on the proper definition of the relevant product market.

The Commission defines the relevant product market as "the sale of consumable office supplies through office superstores," with "consumable" meaning products that consumers

buy [on a recurring basis], i.e., items which "get used up" or discarded. [U]nder the Commission's definition, "consumable office supplies" would not include capital goods such as computers, fax machines, . . . or office furniture, but [would] include such products as paper, pens, file folders, post-it-notes, computer disks, and toner cartridges. The defendants . . . counter that the appropriate product market within which to assess the likely competitive consequences of a Staples–Office Depot combination is simply the overall sale of office products, of which a combined Staples–Office Depot accounted for 5.5% of total sales in North America in 1996.

The general rule when determining a relevant product market is that "the outer boundaries . . . are determined by the reasonable interchangeability of use [by consumers] or the cross-elasticity of demand between the product itself and substitutes for it." *Brown Shoe Co. v. United States* (U.S. Sup. Ct. 1962). This case . . . is an example of perfect interchangeability. The consumable office products at issue here are identical whether they are sold by Staples or Office Depot or another seller of office supplies [such as Wal-Mart or another retailer that is not an office supply superstore]. [A]s the government has argued, [however, the] functional interchangeability [of office supplies] should not end the court's analysis.

[In *United States v. E.I. Du Pont de Nemours and Co.* (U.S. Sup. Ct. 1956), the Court] did not stop after finding a high degree of functional interchangeability between cellophane and

other wrapping materials. [T]he Court also found that “an element for consideration as to cross-elasticity of demand between products is the responsiveness of the sales of one product to price changes of the other.” [T]he Court explained [that] “if a slight decrease in the price of cellophane causes a considerable number of customers of other flexible wrappings to switch to cellophane, it would be an indication that a high cross-elasticity of demand exists between [cellophane and other flexible wrappings, and] that the products compete in the same market.” Following that reasoning . . . , the Commission has argued that a slight but significant increase in Staples–Office Depot’s prices will not cause a considerable number of Staples–Office Depot’s customers to purchase consumable office supplies from other non-superstore alternatives such as Wal-Mart [or] Best Buy. . . . On the other hand, the Commission has argued that an increase in price by Staples would result in consumers’ turning to another office superstore, especially Office Depot, if the consumers had that option. Therefore, the Commission [contends] that the sale of consumable office supplies by office supply superstores is the . . . relevant product market in this case, and products sold by competitors such as Wal-Mart, Best Buy, . . . and others should be excluded.

The court acknowledges that there is . . . a broad market encompassing the sale of consumable office supplies by all sellers of such supplies, and that those sellers must, at some level, compete with one another. However, the mere fact that a firm may be termed a competitor in the overall marketplace does not necessarily require that it be included in the relevant product market for antitrust purposes. The Supreme Court . . . recognized [in *Brown Shoe*] that within a broad market, “well-defined submarkets may exist which, in themselves, constitute product markets for antitrust purposes.” There is a possibility, therefore, that the sale of consumable office supplies by office superstores may qualify as a submarket within a large market of retailers of office supplies in general.

[T]he FTC presented evidence comparing Staples’s prices in geographic markets where Staples is the only office superstore to markets where Staples competes with Office Depot or OfficeMax, or both. [I]n markets where Staples faces no office superstore competition . . . , something which was termed a one-firm market during the hearing, prices are 13 percent higher than in three-firm markets where it competes with both Office Depot and OfficeMax. Similarly, the evidence showed that Office Depot’s prices are . . . well over 5 percent higher in Depot-only markets than they are in three-firm markets.

[The FTC’s evidence] suggests that office superstore prices are affected primarily by other office superstores and not by non-superstore competitors such as . . . Wal-Mart, Kmart, or Target, wholesale clubs . . . , computer or electronic stores . . . , mail order firms . . . , and contract stationers. Though the FTC

did not present the court with evidence regarding the precise amount of non-superstore competition in each of Staples’s and Office Depot’s one-, two-, and three-firm markets, it is clear . . . that these competitors, albeit in different combinations and concentrations, are present in every one of these markets. For example, . . . the mail order competitors compete in all of the geographic markets at issue in this case. Despite this mail order competition, . . . Staples and Office Depot are still able to charge higher prices in their one-firm markets than they do in the two-firm markets and the three-firm markets without losing a significant number of customers to the mail order firms.

The same appears to be true with respect to Wal-Mart. [A Wal-Mart executive testified] that price-checking by Wal-Mart of Staples’ prices in areas where both Staples and Wal-Mart exist showed that, on average, Staples’s prices were higher than where there was a Staples and a Wal-Mart but no other superstore than where there was a Staples, a Wal-Mart, and another superstore. The evidence with respect to the wholesale club stores is consistent. There is also consistent evidence with respect to computer and/or consumer electronics stores. In addition, the] evidence shows that the defendants [lower their prices in a given geographic area] when faced with entry of another superstore [in that area], but do not do so for other retailers. There is no evidence that . . . prices fall when another non-superstore retailer enters a geographic market.

[The FTC made] a compelling showing that a small but significant increase in Staples’s prices will not cause a significant number of consumers to turn to non-superstore alternatives for purchasing their consumable office supplies. Despite the high degree of functional interchangeability between consumable office supplies sold by the office superstores and other retailers of office supplies, the evidence . . . shows that even where Staples and Office Depot charge higher prices, certain consumers do not go elsewhere for their supplies.

[In addition,] both Staples and Office Depot focus primarily on competition from other superstores. [Staples’s and Office Depot’s own documents] show that the merging parties evaluate their “competition” as the other office superstore firms, without reference to other retailers, mail order firms, or independent stationers. When assessing key trends and making long-range plans, Staples and Office Depot focus on the plans of other superstores. [W]hen determining whether to enter a new metropolitan area, both Staples and Office Depot evaluate the extent of office superstore competition in the market and the number of office superstores the market can support. When selecting sites and markets for new store openings, the defendants repeatedly refer to markets without office superstores as “noncompetitive,” even when the new store is adjacent to or near a warehouse club, consumer electronics store, or a mass-merchandise store such as Wal-Mart.

[T]he court finds that the sale of consumable office supplies through office supply superstores is the appropriate relevant product market for purposes of considering the possible anticompetitive effects of the proposed merger. [T]he court next must consider the probable effect of a merger between Staples and Office Depot in the geographic markets previously identified. [The evidence shows] that a merged Staples–Office Depot would have a dominant market share in 42 geographic markets across the country. The combined shares of Staples and Office Depot in the office superstore market would be 100 percent in 15 metropolitan areas. In 27 other metropolitan areas, where the number of office superstore competitors would drop from three to two, the post-merger market shares would range from 45 percent to 94 percent. [T]hough the Supreme Court has established that there is no fixed threshold at which an increase in market concentration triggers the antitrust laws, this is clearly not a borderline case.

[In addition to the] market concentration evidence, [there are other] indications that a merger between Staples and Office Depot may substantially lessen competition. Much of the evidence [concerning] the relevant product market also indicates that the merger would likely have an anticompetitive effect. The evidence of the defendant’s current pricing practices, for example, shows that an office superstore chain facing no competition from other superstores has the ability to profitably raise prices for consumer office supplies above competitive levels. The evidence also shows that the defendants [lower their prices] when faced with entry of another office superstore [in a particular geographic area], but do not do so for other retailers. Since prices are significantly lower in markets where Staples and Office Depot compete, eliminating this competition with one another would free the parties to charge higher prices in those markets, especially those in which the combined entity would be the sole office superstore.

In addition, allowing the defendants to merge would eliminate . . . head-to-head competition between the two . . . lowest-priced firms in the superstore market. Thus, the merger would result in the elimination of a particularly aggressive competitor in a highly concentrated market, a factor which is certainly an important consideration when analyzing possible anticompetitive effects. It is based on all of this evidence that the court finds that the Commission has shown a likelihood of success on the merits and a reasonable probability that the proposed transaction will have an anticompetitive effect.

[T]he court finds it extremely unlikely that a new office superstore will enter the market and thereby avert the anticompetitive effects from Staples’s acquisition of Office Depot. [Although the defendants also argued that] expansion [by] existing companies such as U.S. Office Products and Wal-Mart [would enhance competition in the sale of office supplies, the court]

finds it unlikely that expansion by U.S. Office Products and Wal-Mart would avert the anticompetitive effects which would result from the merger. The defendants’ final argument with respect to entry was that existing retailers such as Sam’s Club, Kmart, and Best Buy have the capability to reallocate their shelf space to include [greater quantities and varieties] of office supplies. While [such stores may] reallocate shelf space, there is no evidence that they will in fact do this if a combined Staples–Office Depot were to raise prices . . . following a merger. In fact, the evidence indicates that [they probably] would not.

[It is not clear] whether an efficiencies defense showing that the intended merger would create significant efficiencies in the relevant market, thereby offsetting any anticompetitive effects, may be used by a defendant to rebut the government’s prima facie case. The newly revised efficiencies section of the [government’s] Merger Guidelines recognizes that [some mergers may achieve efficiencies and that consideration of them may sometimes be relevant to a determination of whether an acquisition would substantially lessen competition]. [H]owever, in *FTC v. Procter & Gamble Co.* (U.S. Sup. Ct. 1967), [the Supreme Court] stated that “possible economies cannot be used as a defense to illegality in section 7 merger cases.” There has been great disagreement regarding the meaning of this precedent and whether an efficiencies defense is permitted. Assuming that it is a viable defense, however, the court cannot find in this case that the defendants’ efficiencies evidence rebuts the [FTC’s showing] that the merger may substantially lessen competition.

The defendants submitted an “Efficiencies Analysis” which predicted that the combined company would achieve savings of between \$4.9 and \$6.5 billion over the next five years. In addition, the defendants argued that the merger would also generate dynamic efficiencies. For example, the defendants argued that as suppliers become more efficient due to their increased sales volume to the combined Staples–Office Depot, they would be able to lower prices to their other retailers. Moreover, the defendants argued that two-thirds of the savings realized by the combined company would be passed along to consumers.

[T]he court credits the testimony and report of the Commission’s expert over the testimony and efficiencies study of the defendants’ witness, [a] Senior Vice President of Integration at Staples. [The testimony of the Commission’s expert] was compelling, and the court finds, based primarily on [that expert’s] testimony, that the defendants’ cost savings estimates are unreliable [and far in excess of estimates by the defendants in proxy statements and in presentations to the defendants’ boards of directors]. [T]he court also finds that the defendants’ projected pass-through rate—the amount of the projected savings that the combined company expects to pass on to customers in the form of lower prices—is unrealistic. Staples and Office Depot have

a proven track record of achieving cost savings through efficiencies, and then passing those savings to customers in the form of lower prices. However, in this case the defendants have projected a pass-through rate of two-thirds of the savings while the evidence shows that, historically, Staples has passed through only 15–17 percent.

Vertical Mergers A **vertical merger** is a merger between firms that previously had, or could have had, a supplier–customer relationship. For example, a manufacturer may seek to vertically integrate its operations by acquiring a company that controls retail outlets at which the manufacturer’s products could be sold. Alternatively, the manufacturer may vertically merge by acquiring a company that makes a product the manufacturer regularly uses in its production processes. Vertical mergers, unlike horizontal mergers, do not directly result in an increase in concentration. Nonetheless, they traditionally have been thought to threaten competition in various ways.

Foreclosing Competitors in Relevant Market First, vertical mergers may *foreclose competitors* from a share of the relevant market. If a major customer for a product acquires a captive supplier of that product, the competitors of the acquired firm are foreclosed from competing with it for sales to the acquiring firm. Similarly, if a manufacturer acquires a captive retail outlet for its products, the manufacturer’s competitors are foreclosed from competing for sales to that retail outlet. A vertical merger in the latter case may also result in reduced competition at the retail level. For instance, a shoe manufacturer acquires a retail shoe store chain that carries the brands of several competing manufacturers and has a dominant share of the retail market in certain geographic areas. If the retail chain carries only the acquiring manufacturer’s brands after the merger occurs, competition among the acquiring manufacturer and its competitors is reduced in the retail market for shoes.

Creation of Increased Market Entry Barriers A second way in which vertical mergers threaten competition is that they may lead to *increased barriers to market entry* for new competitors. For example, if a major purchaser of a product acquires a captive supplier of it, the merger-related contraction of the market for the product may discourage potential producers of it from commencing production.

[T]he court cannot find that the defendants have rebutted [the FTC’s showing] that the merger will substantially lessen competition.

FTC’s motion for preliminary injunction against merger granted.

Elimination of Potential Competition in Acquired Firm’s Market Some vertical mergers threaten competition by *eliminating potential competition* in one of two ways. First, an acquiring firm may be perceived by existing competitors in the acquired firm’s market as a likely potential entrant into that market. The threat of such a potential entrant “waiting in the wings” may moderate the behavior of existing competitors because they fear that pursuing pricing policies that exploit their current market position might cause the potential entrant to react by entering the market. The acquiring firm’s entry into the market by the acquisition of an existing competitor means the end of its moderating influence as a potential entrant. Second, a vertical merger may deprive the market of the potential benefits that would have resulted if the acquiring firm had entered the market in a more competitive manner, such as by creating its own entrant into the market through internal expansion or by making a toehold acquisition of a small existing competitor and then building it into a more significant competitor.

Historically, courts seeking to determine the legality of vertical mergers have tended to look at the *share of the relevant market foreclosed to competition*. If a more than insignificant market share is foreclosed to competition, courts consider other economic and historical factors. Factors viewed as aggravating the anticompetitive potential of a vertical merger include a trend toward concentration or vertical integration in the industry; a past history of vertical integration in the industry; a past history of vertical acquisitions by the acquiring company; and significant barriers to entry resulting from the merger. This approach to determining the legality of vertical mergers has been criticized by some commentators. They argue that vertical integration may yield efficiencies of distribution and that vertical integration by merger may be more economically efficient than vertical integration by internal expansion. The Justice Department generally affords greater weight to efficiency arguments in cases involving vertical mergers than in cases involving horizontal mergers. The department generally applies the same criteria to all nonhorizontal mergers.

We discuss these criteria in the upcoming section on conglomerate mergers.

LOG ON

The federal government's merger guidelines are referred to various times in this chapter. To see the actual text of the guidelines, visit the United States Department of Justice's Web site, at www.usdoj.gov. You will find the guidelines in the section dealing with the Justice Department's Antitrust Division.

Conglomerate Mergers A **conglomerate merger** is a merger between two firms that neither compete with each other nor have a supplier–customer relationship with each other. Conglomerate mergers may be either *market extension* mergers or *product extension* mergers. In a market extension merger, the acquiring firm expands into a new geographic market by purchasing a firm already doing business in that market. For example, a conglomerate that owns an East Coast grocery chain buys a West Coast grocery chain. In a product extension merger, the acquiring firm diversifies its operations by purchasing a company in a new product market. For example, a conglomerate with interests in the aerospace and electronics industries purchases a department store chain.

There is considerable disagreement over the economic effects of conglomerate acquisitions. As later discussion will reveal, conglomerate mergers have been attacked with some degree of success under section 7 if they involve **potential reciprocity**, serve to **eliminate potential competition**, or give an acquired firm an **unfair advantage** over its competitors. Nevertheless, there is significant sentiment that the Clayton Act is not well suited to dealing with conglomerate mergers. This realization has produced calls for specific legislation on the subject. Such legislation has not been enacted, however.

Potential Reciprocity Conglomerate mergers that involve *potential reciprocity* are among those sometimes held to be prohibited by section 7. A conglomerate merger may create a risk of potential reciprocity if the acquired firm produces a product regularly purchased by the acquiring firm's suppliers. Such suppliers, eager to continue their relationship with the acquiring firm, may thereafter purchase the acquired firm's products rather than those of its competitors.

Elimination of Potential Competition Some conglomerate mergers may *eliminate potential competition* in ways similar to vertical mergers, and thus may be vulnerable to attack under section 7. If existing competitors perceive the acquiring company as a potential entrant in the acquired company's market, the acquiring company's entry by means of a conglomerate acquisition may result in the loss of the moderating influence that it had while waiting in the wings. In addition, when the acquiring company actually enters the new market by acquiring a well-established competitor rather than by starting a new competitor through internal expansion or by making a toehold acquisition, the market is deprived of the potential for increased competition flowing from the reduction in concentration that would have accompanied the latter strategies.

Supreme Court decisions suggest, however, that a high degree of proof is required before either of these potential competition arguments will be accepted. Arguments that a conglomerate merger eliminated a *perceived potential entrant* must be accompanied by proof that existing competitors actually perceived the acquiring firm as a potential entrant. Arguments that a conglomerate acquisition eliminated an *actual* potential entrant (and thereby deprived the market of the benefits of reduced concentration) must be accompanied by evidence that the acquiring firm had the ability to enter the market by internal expansion or a toehold acquisition and that doing so would have ultimately yielded a substantial reduction in concentration.

Unfair Advantage to Acquired Firm Finally, conglomerate mergers may violate section 7 in certain instances when the acquired firm obtains an *unfair advantage* over its competitors. When a large firm acquires a firm that already enjoys a significant market position, the acquired firm may gain an unfair advantage over its competitors through its ability to draw on the greater resources and expertise of its new owner. This advantage may entrench the acquired firm in its market by deterring existing competitors from actively competing with it for market share and by causing other potential competitors to be reluctant to enter the market.

Nearly all of the important conglomerate merger cases in recent years have been settled out of court. As a result, we do not have a clear indication of the Supreme Court's current thinking on conglomerate merger issues. The Justice Department takes the position that the primary theories to be used by the department in attacking all *nonhorizontal* mergers are the *elimination of perceived and actual potential competition* theories. In

The Global Business Environment

A planned merger involving firms whose business is international in scope may face scrutiny outside the United States even if the FTC and the Justice Department decide not to challenge the merger under U.S. law. Legal regimes for controlling mergers now exist in numerous nations, with applicable rules and enforcement approaches that do not always match those of the United States. Several years ago, for instance, legal objections lodged by the European Commission caused a highly publicized conglomerate merger-to-be involving the General Electric and Honeywell firms not to come about despite U.S. regulators' clearance of the deal.

The European Union's Merger Regulation, promulgated in furtherance of competition provisions in the Treaty of Rome, bars mergers that may "create or strengthen a [firm's] dominant position." As it has been applied, the Merger Regulation may focus somewhat more on protecting *competitors* than on preserving the *competitive process*. In this sense, the EU approach differs from the approach called for by the U.S.

rule—the Clayton Act provision prohibiting mergers that may "substantially lessen competition." The U.S. approach is also likely to allow greater ability to argue that a merger may produce economic efficiencies than does the EU's Merger Regulation.

In addition, the respective enforcement mechanisms in the U.S. and the EU differ. Under U.S. law, the FTC or the Justice Department normally must take legal action in court in order to block a planned merger, whereas in the EU, the commission has considerable authority to quash a merger through its own action.

Notwithstanding the differences noted above, U.S. regulators and the European Commission fairly often reach the same conclusions regarding proposed mergers—especially those of the horizontal variety. Recent years have witnessed the development of agreements under which the EU Commission, the FTC, and the Justice Department have committed to sharing information and strategies regarding the regulation of mergers.

employing these analytical tools, the department also considers other economic factors. These include the degree of concentration in the acquired firm's market; the existence of barriers to entry into the market and the presence or absence of other firms with a comparable ability to enter; and the market share of the acquired firm (with challenges being unlikely if this is 5 percent or less and likely if it is 20 percent or more). It remains to be seen whether the Supreme Court will accept this more restrictive view of the scope of section 7.

Clayton Act Section 8

If the same individuals control theoretically competing corporations, an obvious potential exists for anticompetitive conduct such as price-fixing or division of markets. Section 8 of the Clayton Act was designed to minimize the risks posed by such interlocks. Initially, section 8 prohibited any person from serving as a *director* of two or more corporations (other than banks or common carriers) if each corporation had "capital, surplus, and undivided profits aggregating more than \$1,000,000" and the corporations were, or had been, competitors, "so that elimination of competition by agreement between them" would violate any of the antitrust laws. The Antitrust Amendments Act of 1990 amended section 8's original language to increase the amount required to trigger the statute from \$1 million to \$10 million (a figure to be

adjusted annually by an amount equal to the percentage increase or decrease in the gross national product).

Section 8 establishes a per se standard of liability in the sense that a violation may be demonstrated without proof that the interlock harmed competition. Until 1990, however, the statute's prohibition against interlocks was limited in scope because it barred only interlocking *directorates*. Nothing in the original language of section 8 prohibited a person from serving as an *officer* of two competing corporations, or as an officer of one firm and a director of its competitor. The Antitrust Amendments Act of 1990, however, expanded the scope of the statute by including senior "*officers*" (defined as officers elected or chosen by the board of directors) within its reach.

Although government enforcement of section 8 was historically lax, the past three decades have sometimes offered signs of growing government interest in the statute. Signs of renewed government interest in section 8 produced significant concern in an era of conglomerate merger activity. Given the wide diversification that characterizes many large corporations, it would be increasingly easy to demonstrate some degree of competitive overlap among a substantial number of large, diversified corporations. Critics alleged that section 8 has operated to discourage qualified persons from serving as directors when no potential for actual competitive harm exists. In response to such criticism, the Antitrust

Amendments Act of 1990 specified that individuals may serve as officers or directors of competing corporations when the “competitive overlap” between them is an insignificant part of either company’s total sales. This exception took away some of section 8’s potential bite.

The Robinson–Patman Act

Section 2 of the Clayton Act originally prohibited *local and territorial price discrimination* by sellers, a practice monopolists frequently used to destroy smaller competitors. A large company operating in a number of geographic markets would sell at or below cost in markets where it faced local competitors, and would then make up its losses by selling at higher prices in areas where it faced no competition. Faced with such tactics, the smaller local competitors might eventually be driven out of business. Section 2 was aimed at such **primary level** (or *first line*) price discrimination.

During the 1930s, Congress was confronted with complaints that large chain stores were using their buying power to induce manufacturers to sell to them at prices lower than those offered to their smaller, independent competitors. Chain stores were also inclined to seek and obtain other payments and services their smaller competitors did not receive. Being able to purchase at lower prices and to obtain discriminatory payments and services arguably gave large firms a competitive advantage over their smaller competitors. Such price discrimination in sales to the competing customers of a particular seller is known as **secondary level** (or *second line*) price discrimination. The *Volvo Trucks* decision, which appears later in the chapter, addresses issues that arise in secondary level price discrimination cases.

In addition, the customers of a manufacturer’s favored customer (such as a wholesaler receiving a functional discount) may gain a competitive advantage over *their* competitors (for example, other retailers purchasing directly from the manufacturer at a higher price) if the favored customer passes on all or a portion of its discount to its customers. This form of price discrimination is known as **tertiary level** (or *third line*) price discrimination.

Congress responded to these problems by passing the Robinson–Patman Act in 1936. The Robinson–Patman Act preserved Clayton Act section 2’s ban on primary level price discrimination. It also amended section 2 to outlaw secondary and tertiary level direct price discrimination, as well as indirect price discrimination in the form of discriminatory payments and services to a seller’s customers. Since its enactment, the Robinson–Patman Act has been the subject of widespread dissatisfaction and

criticism. Critics have long charged that the act often protects competitors at the expense of promoting competition. Government enforcement of the act has been haphazard over the years, with prominent officials in the Justice Department and the Federal Trade Commission sometimes voicing disagreement with the act’s underlying policies and assumptions. This government stance, when combined with Supreme Court decisions making private enforcement of the act difficult, raises questions about the act’s future usefulness as a component of our antitrust laws.

Jurisdiction The Robinson–Patman Act applies only to discriminatory acts that occur “in commerce.” This test is narrower than the “affecting commerce” test employed under the Sherman Act. At least one of the discriminatory acts complained of must take place in interstate commerce. Thus, the act probably would not apply if a Texas manufacturer discriminated in price in sales to two Texas customers. Some lower federal courts have indicated, however, that even wholly intrastate sales may be deemed sufficiently “in commerce” if the nonfavored buyer bought the goods for resale to out-of-state customers.

Section 2(a) Section 2(a) of the Robinson–Patman Act prohibits sellers, in certain instances, from *discriminating in price* “between different purchasers of commodities of like grade or quality.” Such discrimination is prohibited when its effect may be to (1) “substantially . . . lessen competition or tend to create a monopoly in any line of commerce,” or (2) “injure, destroy, or prevent competition with any person who either grants [*primary level*] or knowingly receives [*secondary level*] the benefit of such discrimination, or with the customers of either of them [*tertiary level*].”

Price Discrimination To violate section 2(a), a seller must have made two or more sales to different purchasers at different prices. Merely quoting a discriminatory price or refusing to sell except at a discriminatory price does not violate the statute, because no actual purchase is involved. For the same reason, price discrimination in lease or consignment transactions is not covered by section 2(a). Actual sales at different prices to different purchasers will not be treated as discriminatory unless the sales were fairly close in time.

Section 2(a) does not directly address the legality of *functional discounts*. Such discounts are sometimes granted to buyers at various levels in a product’s chain of distribution because of differences in the functions those

buyers perform in the distribution system. The Supreme Court has indicated that the legality of such discounts depends on their competitive effect. If a seller charges wholesale customers lower prices than it charges retail customers, the Robinson–Patman Act is not violated unless the lower wholesale prices are somehow passed on to retailers in competition with the seller’s retail customers.

Commodities of Like Grade and Quality Section 2(a) applies only to price discrimination in the sale of *commodities*. Price discrimination involving intangibles, real estate, or services must be challenged under the Sherman Act as a restraint of trade or an attempt to monopolize or under the FTC Act as an unfair method of competition. The essence of price discrimination is that two or more buyers are charged differing prices for the *same* commodity. Sales of commodities of varying grades or quality at varying prices, therefore, do not violate section 2(a) so long as uniform prices are charged for commodities of equal quality. Some *physical difference*, in the grade or quality of two products must be shown to justify a price differential between them. Differences solely in the brand name or label under which a product is sold—such as the seller’s standard brand and a “house” brand sold to a large customer for resale under the customer’s label—do not justify discriminatory pricing.

Anticompetitive Effect Only price discrimination having a *probable* anticompetitive effect is prohibited by section 2(a). Traditionally, courts have required a higher degree of proof of likely competitive injury in cases

involving primary level price discrimination (which may damage the seller’s competitors) than in cases involving secondary or tertiary level discrimination (which threatens competition among the seller’s customers or its customers’ customers). To prove a primary level violation, a market analysis must show that competitive harm has occurred as a result of the seller’s engaging in significant and sustained price discrimination with the intent of punishing or disciplining a competitor. Proof of predatory pricing is often offered as evidence of a seller’s anticompetitive intent. The *Brooke Group* case, which follows shortly, addresses predatory pricing claims under the Robinson–Patman Act and emphasizes that likely harm to competition—not merely to a competitor—remains the critical focus.

In secondary or tertiary level cases, courts tend to infer the existence of competitive injury from evidence of substantial price discrimination between competing purchasers over time. Some qualifications on this point are in order, however. Price discrimination for a short period of time ordinarily does not support an inference of competitive injury. Likewise, if the evidence indicates that nonfavored buyers could have purchased the same goods from other sellers at prices identical to those the defendant seller charged its favored customers, no competitive injury is inferred. Finally, buyers seeking treble damages for secondary or tertiary level harm must still prove that they suffered actual damages as a result of a violation of the act.

The *Volvo Trucks* decision, which appears immediately after the *Brooke Group* case, examines key issues presented in secondary level cases.

Brooke Group Ltd. v. Brown & Williamson Tobacco Corp. 509 U.S. 209 (U.S. Sup. Ct. 1993)

Brown & Williamson Tobacco Corp. (BW) and Brooke Group Ltd. (referred to here by its former corporate name, Liggett Corp.) are two of only six firms of significant consequence in the oligopolistic cigarette manufacturing industry. In 1980, BW’s share of the national cigarette market was roughly 12 percent. This share placed BW a distant third behind market leaders Philip Morris and R. J. Reynolds. Liggett’s share was less than half of BW’s. Liggett pioneered the development of the economy segment of the national cigarette market in 1980 by introducing a popular line of “black and white” generic cigarettes (low-priced cigarettes sold in plain white packages with simple black lettering). As Liggett’s sales of generic cigarettes became substantial, other cigarette manufacturers started introducing economy-priced cigarettes. In 1984, BW introduced a black and white cigarette whose net price was lower than Liggett’s. BW achieved this lower price by offering volume rebates to wholesalers.

Liggett sued BW, claiming that BW’s volume rebates amounted to price discrimination having a reasonable probability of injuring competition, in violation of section 2(a) of the Robinson–Patman Act. Specifically, Liggett alleged that BW’s rebates were integral to a scheme of predatory pricing, under which BW reduced its net prices for generic cigarettes below average variable costs. Liggett further alleged that this pricing by BW was designed to pressure Liggett to raise its list prices on

generic cigarettes, so that the percentage price difference between generic and branded cigarettes would narrow. As a result, according to *Liggett*, the growth of the economy segment would be restrained and BW would thereby be able to preserve its supracompetitive profits on branded cigarettes. *Liggett* further asserted that it could not afford to reduce its wholesale rebates without losing market share to BW. Therefore, *Liggett* claimed that its only choice, if it wished to avoid prolonged losses on the generic line that had become its principal product, was to raise retail prices.

After a 115-day trial, the jury returned a verdict in *Liggett*'s favor for \$49.6 million in damages. The district court trebled this amount. After reviewing the trial record, however, the district court concluded that BW was entitled to prevail as a matter of law. The court therefore set aside the jury's verdict and entered judgment in BW's favor. *Liggett* appealed. The Fourth Circuit Court of Appeals affirmed, holding that there cannot be liability for predatory price discrimination that allegedly takes place in the context of an oligopoly such as the cigarette industry. The Supreme Court granted certiorari.

Kennedy, Justice

Liggett contends that BW's discriminatory volume rebates to wholesalers threatened substantial competitive injury by furthering a predatory pricing scheme designed to purge competition from the economy segment of the cigarette market. This type of injury, which harms direct competitors of the discriminating seller, is known as primary-line injury. [P]rimary-line competitive injury under the Robinson–Patman Act is of the same general character as the injury inflicted by predatory pricing schemes actionable under section 2 of the Sherman Act. [T]he essence of the claim under either statute is the same.

Accordingly, whether the claim alleges predatory pricing under the Sherman Act or primary-line price discrimination under the Robinson–Patman Act, two prerequisites to recovery [exist]. First, a plaintiff seeking to establish competitive injury resulting from a rival's low prices must prove that the prices complained of are below an appropriate measure of its rival's costs. [Second, the plaintiff must demonstrate] that the competitor had a reasonable prospect [if the claim is brought under the Robinson–Patman Act], or . . . a dangerous probability [if the claim is brought under section 2 of the Sherman Act], of recouping its investment in below-cost prices. Recoupment is the ultimate object of an unlawful predatory-pricing scheme; it is the means by which a predator profits from predation. Without it, predatory pricing produces lower aggregate prices in the market, and consumer welfare is enhanced. That below-cost pricing may impose painful losses on its target is of no moment to the antitrust laws if competition is not injured.

For recoupment to occur, below-cost pricing must be capable . . . of producing the intended effects on the firm's rivals, whether driving them from the market, or, as was alleged to be the goal here, causing them to raise their prices to supracompetitive levels within a disciplined oligopoly. If circumstances indicate that below-cost pricing could likely produce its intended effect on the target, there is still the further question whether it would be likely to injure competition in the relevant market. The plaintiff must demonstrate that there is a likelihood that the predatory scheme alleged would cause a rise in prices above a competitive level that would be sufficient to

compensate for the amounts expended on the predation. These prerequisites to recovery are not easy to establish, but . . . they are essential components of real market injury.

Liggett . . . allege[s] . . . that BW sought to preserve supracompetitive profits on branded cigarettes by pressuring *Liggett* to raise its generic cigarette prices through a process of tacit collusion with the other cigarette companies. Tacit collusion, sometimes called oligopolistic price coordination or conscious parallelism, describes the process, not in itself unlawful, by which firms in a concentrated market might in effect share monopoly power, setting their prices at a profit-maximizing, supracompetitive level by recognizing their shared economic interests and their interdependence with respect to price and output decisions.

In *Matsushita Electric Industrial Co. v. Zenith Radio Corp.* (U.S. Sup. Ct. 1986), we remarked upon the general implausibility of predatory pricing. *Matsushita* observed that such schemes are even more improbable when they require coordinated action among several firms. However unlikely predatory pricing by multiple firms may be when they conspire, it is even less likely when, as here, there is no express coordination. Firms that seek to recoup predatory losses through the conscious parallelism of oligopoly must rely on uncertain and ambiguous signals to achieve concerted action. The signals are subject to misinterpretation and are a blunt and imprecise means of ensuring smooth cooperation, especially in the context of changing or unprecedented market circumstances. This anticompetitive minuet is most difficult to compose and to perform, even for a disciplined oligopoly.

[O]n the whole, tacit cooperation among oligopolists must be considered the least likely means of recouping predatory losses. In addition to the difficulty of achieving effective tacit coordination and the high likelihood that any attempt to discipline will produce an outbreak of competition, the predator's present losses in a case like this fall on it alone, while the later supracompetitive profits must be shared with every other oligopolist in proportion to its market share, including the intended victim. In this case, for example, BW, with its 11–12 percent share of the cigarette market, would have had to generate

around \$9 in supracompetitive profits for each \$1 invested in predation; the remaining \$8 would belong to its competitors, who had taken no risk.

[However,] [t]o the extent that the Court of Appeals may have held that the interdependent pricing of an oligopoly may never provide a means for achieving recoupment and so may not form the basis of a primary-line injury claim, we disagree. A predatory pricing scheme designed to preserve or create a stable oligopoly, if successful, can injure consumers in the same way, and to the same extent, as one designed to bring about a monopoly. However unlikely that possibility may be as a general matter, when the realities of the market and the record facts indicate that it has occurred and was likely to have succeeded, theory will not stand in the way of liability. The Robinson–Patman Act . . . suggests no exclusion from coverage when primary-line injury occurs in an oligopoly setting. We decline to create a per se rule of nonliability [under the Robinson–Patman Act] for predatory price discrimination when recoupment is alleged to take place through supracompetitive oligopoly pricing.

Although Liggett’s theory of liability, as an abstract matter, is within the reach of the statute, we agree with the [lower courts] that Liggett was not entitled to submit its case to the jury. Liggett . . . failed to demonstrate competitive injury as a matter of law. The evidence is inadequate to show that in pursuing [an alleged below-cost pricing] scheme, BW had a reasonable prospect of recovering its losses from below-cost pricing through slowing the growth of generics.

The only means by which BW is alleged to have established oligopoly pricing . . . is through tacit price coordination with the other cigarette firms. Yet the situation facing the cigarette companies in the 1980s would have made such tacit coordination unmanageable. Tacit coordination is facilitated by a stable market environment, fungible products, and a small number of variables upon which the firms seeking to coordinate their

pricing may focus. By 1984, however, the cigarette market was in an obvious state of flux. The introduction of generic cigarettes in 1980 represented the first serious price competition in the cigarette market since the 1930s. This development was bound to unsettle previous expectations and patterns of market conduct and to reduce the cigarette firms’ ability to predict each other’s behavior. The larger number of product types and pricing variables also decreased the probability of effective parallel pricing.

Even if all the cigarette companies were willing to participate in a scheme to restrain the growth of the generic segment, they would not have been able to coordinate their actions and raise prices above a competitive level unless they understood that BW’s entry into the [economy] segment was not a genuine effort to compete with Liggett. If even one other firm misinterpreted BW’s entry as an effort to expand share, a chain reaction of competitive responses would almost certainly have resulted, and oligopoly discipline would have broken down, perhaps irretrievably. Liggett argues that [BW’s] maintaining existing list prices while offering substantial rebates to wholesalers was a signal to the other cigarette firms that BW did not intend to attract additional smokers to the generic segment by its entry. But a reasonable jury could not conclude that this pricing structure eliminated or rendered insignificant the risk that the other firms might misunderstand BW’s entry as a competitive move.

We hold that the evidence cannot support a finding that BW’s alleged scheme was likely to result in oligopolistic price coordination and sustained supracompetitive pricing in the generic segment of the national cigarette market. Without this, BW had no reasonable prospect of recouping its predatory losses and could not inflict the injury to competition the antitrust laws prohibit.

Judgment for BW affirmed.

Volvo Trucks North America, Inc. v. Reeder-Simco GMC, Inc. 546 U.S. 164 (U.S. Sup. Ct. 2006)

Volvo Trucks North America, Inc. (Volvo), manufactures heavy-duty trucks. Reeder-Simco GMC, Inc. (Reeder), which became an authorized dealer of Volvo trucks in 1995, generally sold Volvo trucks through a competitive bidding process. In this process, the retail customer describes its specific product requirements and invites bids from several dealers. Once a Volvo dealer receives the customer’s specifications, the dealer turns to Volvo and requests a discount or “concession” off the wholesale price (set at 80 percent of the published retail price). Volvo decides on a case-by-case basis whether to offer a discount and, if so, what the discount rate will be. The dealer then uses the discount offered by Volvo in preparing its bid, and purchases trucks from Volvo only if the retail customer accepts its bid.

Reeder was one of many Volvo dealers, each assigned by Volvo to a geographic territory. Although nothing prohibits a Volvo dealer from bidding outside its territory, Reeder seldom bid against another Volvo dealer. In the atypical event that the

same retail customer solicited a bid from more than one Volvo dealer, Volvo's stated policy was to provide the same price concession to each dealer competing head-to-head for the same sale. After learning that Volvo had given another dealer a price concession greater than the concessions Reeder typically received, Reeder sued Volvo. Reeder claimed that Volvo violated the Robinson–Patman Act by providing other dealers more favorable price concessions than those offered to Reeder and, in the process, adversely affecting Reeder's sales and profits.

At trial, Reeder presented evidence concerning two instances when Reeder bid against another Volvo dealer for a particular sale. In one instance, each Volvo dealer received the same concession from Volvo, and neither Volvo dealer's bid was accepted by the retail customer. The other instance involved Hiland Dairy, which solicited bids from both Reeder and Southwest Missouri Truck Center (also a Volvo dealer). In accordance with its policy, Volvo initially offered the two dealers the same concession. Hiland selected Southwest Missouri, a dealer from which Hiland had previously purchased trucks. After a later price squabble between Southwest Missouri and Hiland, Volvo increased the size of the discount it had offered Southwest Missouri, in order to help make certain that the Southwest Missouri–Hiland deal would actually be accomplished.

For the most part, Reeder's evidence at trial focused on comparisons between concessions Volvo offered when Reeder bid against non-Volvo dealers and concessions accorded to other Volvo dealers similarly bidding against non-Volvo dealers for other sales. Reeder's evidence compared concessions Reeder received on four occasions when it bid successfully against non-Volvo dealers—meaning that Reeder therefore purchased Volvo trucks—with more favorable concessions than other successful Volvo dealers received in connection with bidding processes in which Reeder did not participate. In addition, Reeder identified concessions offered by Volvo on several occasions when Reeder bid unsuccessfully against non-Volvo dealers, and compared those concessions with more favorable concessions received by other Volvo dealers that gained contracts on which Reeder did not bid.

A federal district court jury found that there was a reasonable possibility that discriminatory pricing harmed competition between Reeder and other Volvo truck dealers, and that Volvo's discriminatory pricing injured Reeder to the extent of \$1.3 million. The district judge tripled that amount in accordance with federal antitrust law and entered judgment accordingly. Volvo appealed, and the U.S. Court of Appeals for the Eighth Circuit affirmed. Rejecting Volvo's contention that competitive bidding situations do not give rise to claims under the Robinson–Patman Act, the Court of Appeals observed that Reeder was “more than an unsuccessful bidder.” The instances in which Reeder “actually purchased Volvo trucks following successful bids on contracts,” the court concluded, were sufficient to render Reeder a purchaser within the meaning of the statute. The Court of Appeals also determined that a jury could reasonably decide that Reeder was “in actual competition” with favored dealers, and that the jury could properly find from the evidence that Reeder had proven competitive injury resulting from price discrimination. The U.S. Supreme Court granted Volvo's petition for a writ of certiorari.

Ginsburg, Justice

We granted certiorari to resolve this question: May a manufacturer be held liable for secondary-line price discrimination under the Robinson–Patman Act in the absence of a showing that the manufacturer discriminated between dealers competing to resell its product to the same retail customer? Satisfied that the Court of Appeals erred in answering that question in the affirmative, we reverse the Eighth Circuit's judgment.

The Robinson–Patman Act, 15 U.S.C. § 13(a), provides, in relevant part:

It shall be unlawful for any person engaged in commerce . . . to discriminate in price between different purchasers of commodities of like grade and quality, . . . where the effect of such discrimination may be substantially to lessen competition or tend to create a monopoly in any line of commerce, or to injure, destroy, or prevent competition with any person who either grants or knowingly receives the benefit of such discrimination, or with customers of either of them

Mindful of the purposes of the Robinson–Patman Act and of the antitrust laws generally, we have explained that Robinson–Patman does not “ban all price differences charged to different purchasers of commodities of like grade and quality.” *Brooke Group Ltd. v. Brown & Williamson Tobacco Corp.*, 509 U.S. 209, 220 (1993). Rather, the Act proscribes “price discrimination only to the extent that it threatens to injure competition.” *Id.* Our decisions describe three categories of competitive injury that may give rise to a Robinson–Patman Act claim: primary line, secondary line, and tertiary line. Primary-line cases entail conduct—most conspicuously, predatory pricing—that injures competition at the level of the discriminating seller and its direct competitors. Secondary-line cases, of which this is one, involve price discrimination that injures competition among the discriminating seller's customers (here, Volvo's dealerships); cases in this category typically refer to “favored” and “disfavored” purchasers. Tertiary-line cases involve injury to competition at the level of the purchaser's customers.

To establish the secondary-line injury of which it complains, Reeder had to show that (1) the relevant Volvo truck sales were made in interstate commerce; (2) the trucks were of “like grade and quality”; (3) Volvo “discriminate[d] in price between” Reeder and another purchaser of Volvo trucks; and (4) “the effect of such discrimination may be . . . to injure, destroy, or prevent competition” to the advantage of a favored purchaser, i.e., one who “receive[d] the benefit of such discrimination.” 15 U.S.C. § 13(a). It is undisputed that Reeder has satisfied the first and second requirements. Volvo maintains that Reeder cannot satisfy the third and fourth requirements, because Reeder has not identified any differentially priced transaction in which it was both a “purchaser” under the Act and “in actual competition” with a favored purchaser for the same customer.

A hallmark of the requisite competitive injury, our decisions indicate, is the diversion of sales or profits from a disfavored purchaser to a favored purchaser. We have also recognized that a permissible inference of competitive injury may arise from evidence that a favored competitor received a significant price reduction over a substantial period of time. Absent actual competition with a favored Volvo dealer, however, Reeder cannot establish the competitive injury required under the Act.

The evidence Reeder offered at trial falls into three categories: (1) comparisons of concessions Reeder received for four successful bids against non-Volvo dealers, with larger concessions other successful Volvo dealers received for different sales on which Reeder did not bid (purchase-to-purchase comparisons); (2) comparisons of concessions offered to Reeder in connection with several unsuccessful bids against non-Volvo dealers, with greater concessions accorded other Volvo dealers who competed successfully for different sales on which Reeder did not bid (offer-to-purchase comparisons); and (3) evidence of two occasions on which Reeder bid against another Volvo dealer (head-to-head comparisons). The Court of Appeals concluded that Reeder demonstrated competitive injury under the Act because Reeder competed with favored purchasers “at the same functional level . . . and within the same geographic market.” As we see it, however, selective comparisons of the kind Reeder presented do not show the injury to competition targeted by the Robinson–Patman Act.

Both the purchase-to-purchase and the offer-to-purchase comparisons fall short, for in none of the discrete instances on which Reeder relied did Reeder compete with beneficiaries of the alleged discrimination for the same customer. Nor did Reeder even attempt to show that the compared dealers were consistently favored vis-à-vis Reeder. Reeder simply paired occasions on which it competed with non-Volvo dealers for a sale to Customer A with instances in which other Volvo dealers

competed with non-Volvo dealers for a sale to Customer B. The compared incidents were tied to no systematic study and were separated in time by as many as seven months.

We decline to permit an inference of competitive injury from evidence of such a mix-and-match, manipulable quality. No similar risk of manipulation occurs in cases kin to the chainstore paradigm. Here, there is no discrete “favored” dealer comparable to a chainstore or a large independent department store—at least, Reeder’s evidence is insufficient to support an inference of such a dealer or set of dealers. For all we know, Reeder, on occasion, might have gotten a better deal vis-à-vis one or more of the dealers in its comparisons.

Reeder may have competed with other Volvo dealers for the opportunity to bid on potential sales in a broad geographic area. At that initial stage, however, competition is not affected by differential pricing. A dealer in the competitive bidding process here at issue approaches Volvo for a price concession only after it has been selected by a retail customer to submit a bid. Competition for an opportunity to bid . . . is based on a variety of factors, including the existence of a relationship between the potential bidder and the customer, geography, and reputation. That Volvo dealers may bid for sales in the same geographic area does not import that they in fact competed for the same customer-tailored sales. In sum, the purchase-to-purchase and offer-to-purchase comparisons fail to show that Volvo sold at a lower price to Reeder’s “competitors,” hence those comparisons do not support an inference of competitive injury.

Reeder did offer evidence of two instances in which it competed head to head with another Volvo dealer. When multiple dealers bid for the business of the same customer, only one dealer will win the business and thereafter purchase the supplier’s product to fulfill its contractual commitment. Because Robinson–Patman prohibits only discrimination between different purchasers, Volvo argues, the Act does not reach markets characterized by competitive bidding and special-order sales, as opposed to sales from inventory. We need not decide that question today. Assuming the Act applies to the head-to-head transactions, Reeder did not establish that it was disfavored vis-à-vis other Volvo dealers in the rare instances in which they competed for the same sale—let alone that the alleged discrimination was substantial.

Reeder’s evidence showed loss of only one sale to another Volvo dealer, a sale of 12 trucks that would have generated \$30,000 in gross profits for Reeder. Per its policy, Volvo initially offered Reeder and the other dealer the same concession. Volvo ultimately granted a larger concession to the other dealer, but only after it had won the bid. In the only other instance of head-to-head competition Reeder identified, Volvo increased Reeder’s initial 17% discount to 18.9%, to match the

discount offered to the other competing Volvo dealer; neither dealer won the bid. In short, if price discrimination between two purchasers existed at all, it was not of such magnitude as to affect substantially competition between Reeder and the “favored” Volvo dealer.

Interbrand competition, our opinions affirm, is the “primary concern of antitrust law.” [Case citation omitted.] The Robinson–Patman Act signals no large departure from that main concern. Even if the Act’s text could be construed in the manner urged by Reeder and embraced by the Court of Appeals, we would resist interpretation geared more to the protection of existing competitors than to the stimulation of

competition. In the case before us, there is no evidence that any favored purchaser possesses market power, the allegedly favored purchasers are dealers with little resemblance to large independent department stores or chain operations, and the supplier’s selective price discounting fosters competition among suppliers of different brands. By declining to extend Robinson–Patman’s governance to such cases, we continue to construe the Act “consistently with broader policies of the antitrust laws.” *Brooke Group*, at 220.

Court of Appeals decision reversed, and case remanded for further proceedings.

Defenses to Section 2(a) Liability There are three major statutory defenses to liability under section 2(a): *cost justification*, *changing conditions*, and *meeting competition in good faith*.

Cost Justification Section 2(a) legalizes price differentials that do no more than make an appropriate allowance for differences in the “cost of manufacture, sale, or delivery resulting from the differing methods or quantities” in which goods are sold or delivered to buyers. This defense recognizes the reality that it may be less costly for a seller to service some buyers than others. Sales to buyers purchasing large quantities may in some cases be more cost-effective than small-quantity sales to their competitors. Sellers are allowed to pass on such cost savings to their customers.

Utilizing this *cost justification* defense is difficult and expensive for sellers, however, because quantity discounts must be supported by *actual evidence of cost savings*. Sellers are allowed to average their costs and classify their customers into categories based on their average sales costs. The customers included in any particular classification, however, must be sufficiently similar to justify similar treatment.

Changing Conditions Section 2(a) specifically exempts price discriminations that reflect “changing conditions in the market for or the marketability of the goods.” The *changing conditions* defense has been narrowly confined to temporary situations caused by the physical nature of the goods. Examples include the deterioration of perishable goods and a declining market for seasonal goods. This defense also applies to forced judicial sales of the goods (such as during bankruptcy proceedings

involving the seller) and to good faith sales by sellers that have decided to cease selling the goods in question.

Meeting Competition Section 2(b) of the Robinson–Patman Act states that price discrimination may be lawful if the discriminatory lower price was charged “in good faith to meet an equally low price of a competitor.” This *meeting competition* defense is necessary to prevent the act from stifling the very competition it was designed to preserve. For example, suppose Sony Corporation has been selling a particular model of DVD player to its customers for \$100 per unit. Sony then learns that Sharp Electronics is offering a comparable DVD player to Acme Appliance Stores for \$80 per unit. Acme, however, competes with Better Buy Video Stores, a Sony customer that has recently been charged the \$100 price. Should Sony be forced to refrain from offering the lower competitive price to Acme for fear that Better Buy will charge Sony with price discrimination if it does so? If Sony cannot offer the lower competitive price to Acme, competition between Sony and Sharp will plainly suffer.

Section 2(b) avoids this undesirable result by allowing a seller to charge a lower price to certain customers if the seller has reasonable grounds for believing that the lower price is necessary to meet an equally low price offered by a competitor. Sellers may meet competition *offensively* (to gain a new customer) or *defensively* (to keep an existing customer). The meeting competition defense is subject to significant qualifications, however. First, the lower price must be necessary to meet a lower price charged by a competitor of the *seller*, not to enable a customer of the seller to compete more effectively with that customer’s competitors. Second, the seller may lawfully seek only to *meet*, not *beat*, its competitor’s price. A

seller cannot, however, be held in violation of the act for beating a competitor's price if it did so unknowingly in a good faith attempt to meet competition. Third, the seller may reduce its price only to meet competitors' prices for products of *similar quality*.

Courts also have held that the discriminatory price must be a response to an individual competitive situation rather than the product of a seller's wholesale adoption of a competitor's discriminatory pricing system. However, a seller's competitive response need not be on a customer-by-customer basis, so long as the lower price is offered only to those customers that the seller reasonably believes are being offered a lower price by the seller's competitors.

Indirect Price Discrimination When Congress enacted the Robinson–Patman Act, it also addressed **indirect price discrimination**, which takes the form of a seller's discriminating among competing buyers by making discriminatory payments to selected buyers or by furnishing certain buyers with services not made available to their competitors. Three sections of the act are designed to prevent such practices.

False Brokerage Section 2(c) prohibits sellers from granting, and buyers from receiving, any “commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, except for services rendered in connection with the sale or purchase of goods.” This provision prevents large buyers, either directly or through subsidiary brokerage agents, from receiving phony commissions or brokerage payments from their suppliers.

Section 2(c) establishes a per se standard of liability. No demonstration of probable anticompetitive effect is required for a violation. Neither the cost justification nor meeting competition defense is available in 2(c) cases. Individual plaintiffs still must prove that they have suffered some injury as a result of a 2(c) violation, however, before they are entitled to recover damages.

Discriminatory Payments and Services Sellers and their customers benefit from merchandising activities that customers employ to promote the sellers' products. Section 2(d) prohibits sellers from making *discriminatory payments* to competing customers for such customer-performed services as advertising and promotional activities or such customer-provided facilities as shelf space. Section 2(e) prohibits sellers from discriminating in the *services* they provide to competing customers, such as by providing favored customers with a display case or a demonstration kit.

A seller may lawfully make payments or provide services to customers only if the payments or services are made available to all competing customers on *proportionately equal terms*. This means that the seller must inform all customers of the availability of the payments or services and must distribute them on some rational basis, such as the quantity of goods bought by the customer. The seller must also devise a flexible plan that enables its various classes of customers to participate in the payment or services program in an appropriate way.

As does section 2(c), sections 2(d) and 2(e) create a per se liability standard. No proof of probable harm to competition is required for a violation; no cost justification defense is available. The meeting competition defense is applicable, however, to actions under sections 2(d) and 2(e).

Buyer Inducement of Discrimination

Section 2(f) of the Robinson–Patman Act makes it illegal for a buyer *knowingly to induce or receive* a discriminatory price in violation of section 2(a). The logic of the section is that buyers who are successful in demanding discriminatory prices should face liability along with the sellers charging discriminatory prices. To violate section 2(f), the buyer must know that the price the buyer received was unjustifiably discriminatory. This means that the price probably was neither cost-justified nor made in response to changing conditions. Section 2(f) does not apply to buyer inducements of discriminatory payments or services prohibited by sections 2(d) and 2(e). Such buyer actions may, however, be attacked as unfair methods of competition under section 5 of the FTC Act.

In *Great Atlantic and Pacific Tea Co. v. FTC* (1979), the Supreme Court further narrowed the effective reach of section 2(f) by holding that buyers who knowingly received a discriminatory price did not violate the act if their seller had a valid defense to the charge of violating section 2(a). The seller in *Great Atlantic* had a “meeting competition in good faith” defense. This fact was held to insulate the buyer from liability even though the buyer knew that the seller had beaten, rather than merely met, its competitor's price.

Antitrust Exceptions and Exemptions

Many economic activities occur outside the potential reach of the antitrust laws. This is so either because these activities have been specifically exempted by statute or because courts have carved out nonstatutory exceptions

designed to balance our antitrust policy in favor of competition against other social policies.

Statutory Exemptions

Labor Unions and Certain Union Activities The Clayton Act and the Norris–LaGuardia Act of 1932 provide that *labor unions* are not combinations or conspiracies in restraint of trade and exempt certain union activities, including boycotts and secondary picketing, from antitrust scrutiny. This statutory exemption does not, however, exempt union combinations with nonlabor groups aimed at restraining trade or creating a monopoly. An example of such nonexempted activity would be a labor union’s agreement with Employer A to call a strike at Employer B’s plants. In an attempt to accommodate the strong public policy in favor of collective bargaining, courts have also created a limited nonstatutory exemption for legitimate union–employer agreements arising from the collective bargaining context.

Agricultural Cooperatives and Certain Cooperative Actions The Clayton Act and the Capper–Volstead Act exempt the formation and collective marketing activities of *agricultural cooperatives* from antitrust liability. Courts have narrowly construed this exemption, however. Cooperatives including members not engaged in the production of agricultural commodities have been denied exempt status. One such example would be a cooperative including retailers or wholesalers who do not also produce the commodity in question. The agricultural cooperatives exemption extends only to legitimate collective marketing activities. It does not legitimize coercive or predatory practices that are unnecessary to accomplish lawful cooperative goals. For example, this exemption would not prevent the antitrust laws from being applied to a boycott designed to force nonmembers of the cooperative to adopt a pricing policy established by the cooperative.

Joint Export Activities The Webb–Pomerene Act exempts the *joint export activities* of American companies, so long as those activities do not “artificially or intentionally enhance or depress prices within the United States.” The purpose of the act is to encourage export activity by allowing the formation of combinations to enable domestic firms to compete more effectively with foreign cartels. Some critics assert that this exemption is no longer needed because there are fewer foreign cartels today and American firms often play a dominant role in foreign trade. Others question whether any group of

American firms enjoying significant domestic market shares in the sale of a particular product could agree on an international marketing strategy, such as the amounts that they will export, without indirectly affecting domestic supplies and prices.

Business of Insurance The McCarran–Ferguson Act exempts from federal antitrust scrutiny those aspects of the *business of insurance* that are subject to state regulation. The act provides, however, that state law cannot legitimize any agreement to boycott, coerce, or intimidate others. Because the insurance industry is extensively regulated by the states, many practices in the industry are outside the reach of the federal antitrust laws.

In recent years, however, courts have tended to decrease the scope of this exemption by narrowly construing the meaning of “business of insurance.” For example, in *Union Labor Life Insurance Co. v. Pireno* (1982), the Supreme Court held that the exemption did not insulate from antitrust scrutiny a peer review system in which an insurance company used a committee established by a state chiropractic association to review the reasonableness of particular chiropractors’ charges. The Court stated that to qualify for the business of insurance exemption, a challenged practice must have the effect of transferring or spreading policyholders’ risk and must be an integral part of the policy relationship between the insured and the insurer. Therefore, only practices related to traditional functions of the insurance business, such as underwriting and risk-spreading, are likely to be exempt.

Other Regulated Industries Many other *regulated industries* enjoy various degrees of antitrust immunity. The airline, banking, utility, railroad, shipping, and securities industries traditionally have been regulated in the public interest. The regulatory agencies supervising such industries have frequently been given the power to approve industry practices such as rate-setting and mergers that would otherwise violate antitrust laws. In recent years, there has been a distinct tendency to deregulate many regulated industries. If this trend continues, a greater portion of the economic activity in these industries could be subjected to antitrust scrutiny.

State Action Exemption In *Parker v. Brown* (1943), the Supreme Court held that a California state agency’s regulation of the production and price of raisins was a state action exempt from the federal antitrust laws. The **state action exemption** developed in *Parker v. Brown* recognizes states’ rights to regulate economic activity in the interest of their citizens. It also, however,

may tempt business entities to seek “friendly” state regulation as a way of shielding anticompetitive activity from antitrust supervision. Recognizing this possibility, courts have placed important limitations on the scope of the state action exemption.

First, the exemption extends only to governmental actions by a state or to actions compelled by a state acting in its sovereign capacity. Second, various decisions indicate that challenged activity cannot qualify for immunity under this exemption unless the activity is affirmatively expressed as state policy and actively supervised by the state. In other words, the price of antitrust immunity is real regulation by the state. The Supreme Court placed a further limitation on the state action exemption by holding that it does not automatically confer immunity on the actions of municipalities. Municipal conduct is immune only if it was authorized by the state legislature and its anticompetitive effects were a foreseeable result of the authorization. The Court’s decision caused concern that the threat of treble damage liability might inhibit legitimate regulatory action by municipal authorities. As a result, Congress passed the Local Government Antitrust Act of 1984. This statute eliminates damage actions against municipalities and their officers, agents, and employees for antitrust violations and makes injunctive relief the sole remedy in such cases.

The *Armstrong* case, which appears below, discusses the state action exemption and another key exemption, the *Noerr–Pennington* doctrine.

The Noerr–Pennington Doctrine In the *Noerr* and *Pennington* cases, the Supreme Court held that “the Sherman Act does not prohibit two or more persons from associating together in an attempt to persuade the legislature or the executive to take particular action with respect to a law that would produce a restraint or a monopoly.”¹ This exemption recognizes that the right to petition government provided by the Bill of Rights takes precedence over the antitrust policy favoring competition. In a later case, the Court made the *Noerr–Pennington* exemption applicable to a party’s filing of a lawsuit. The exemption does not, however, extend to sham activities that are attempts to interfere with the business activities of competitors rather than legitimate attempts to influence governmental action. The *Armstrong* case, which follows, discusses the *Noerr–Pennington* doctrine and the relationship it may sometimes have to the state action exemption.

¹*Eastern R. R. President’s Conference v. Noerr Motor Freight, Inc.* (U.S. Sup. Ct. 1961); *United Mine Workers v. Pennington* (U.S. Sup. Ct. 1965).

Armstrong Surgical Center, Inc. v. Armstrong County Memorial Hospital 185 F.3d 154 (3d Cir. 1999)

Armstrong Surgical Center, Inc. (the “Surgical Center”), wished to establish an ambulatory surgery center in Armstrong County, Pennsylvania. At the time, Armstrong County Memorial Hospital (the “Hospital”) was the only facility with operating rooms in Armstrong County. The Hospital’s 19 staff physicians performed the vast majority of surgeries in the county. The Surgical Center’s proposed facility, if it had been constructed, would have provided a variety of outpatient surgical services and would have competed with the Hospital.

Pennsylvania law provides that any party wishing to establish a new health care facility must first obtain a Certificate of Need (“CON”) from Pennsylvania’s Department of Health. The department reviews CON applications in an extensive proceeding consisting of an investigation, an evaluation of submitted materials, and a public hearing. Interested parties, including health care providers that supply similar services in the area, may submit information to the department regarding any CON application.

The Surgical Center filed an application for a CON. According to the Surgical Center, the Hospital and its staff physicians then conspired to subvert establishment of the new facility. The alleged conspiracy involved an announcement by the physicians that they would not use the facility, as well as the submission of false and misleading information by the Hospital and the staff physicians to the Department of Health. The false and misleading information, according to the Surgical Center, was to the effect that the Hospital intended to open its own outpatient center. Although construction had begun on such a center, the Hospital had stopped construction at a very early stage. The Surgical Center contended that even though the Hospital had made no commitment to resume construction, the Hospital and the staff physicians falsely represented to the department that the Hospital’s center was either in use or very near completion.

The Department of Health denied the Surgical Center's CON application. The Surgical Center appealed to the Pennsylvania State Health Facility Hearing Board, which conducted its own hearing and received additional evidence. The board affirmed the department's denial of the CON after finding that (1) the Surgical Center's proposed facility would result in needless duplication of existing facilities and services; and (2) the Surgical Center would not be economically viable because the Hospital's staff physicians, who performed more than 90 percent of the surgeries in Armstrong County, would not use the Surgical Center's facility. The Surgical Center appealed to a Pennsylvania court, which affirmed the board's decision.

The Surgical Center then filed an antitrust action against the Hospital and its staff physicians (the "Hospital Defendants"). According to the Surgical Center's complaint, the Hospital Defendants' conspiracy to prevent the Surgical Center from establishing its surgery center restrained and monopolized trade, in violation of sections 1 and 2 of the Sherman Act. The federal district court dismissed the complaint after concluding that the Hospital Defendants' alleged conduct was immune from antitrust scrutiny. The Surgical Center appealed to the U.S. Court of Appeals for the Third Circuit.

Stapleton, Circuit Judge

The Hospital Defendants do not deny that [the Surgical Center's] complaint alleges a threat of a boycott that might under other circumstances constitute an antitrust violation. [T]hey contend, [however,] that their activities are insulated from antitrust scrutiny because their allegedly wrongful conduct occurred in the context of supplying information to the Pennsylvania Department of Health during the Surgical Center's CON application process and because the injuries alleged resulted solely from the Department's denial of the CON.

In *Parker v. Brown* (U.S. Sup. Ct. 1943), an agricultural producer challenged a marketing program adopted by California's Director of Agriculture as invalid under the Sherman Act. The program served to restrict competition among growers and maintain prices in commodity distribution. "Relying on principles of federalism and state sovereignty, [the Supreme Court] held [in *Parker*] that the Sherman Act did not apply to anticompetitive restraints imposed by the States 'as an act of government.'" *City of Columbia v. Omni Outdoor Advertising, Inc.* (U.S. Sup. Ct. 1991) (quoting *Parker*).

In *Eastern R. R. Presidents Conference v. Noerr Motor Freight, Inc.* (U.S. Sup. Ct. 1961) and *United Mine Workers v. Pennington* (U.S. Sup. Ct. 1965), the Supreme Court held that antitrust liability cannot be predicated solely on petitioning to secure government action even where those efforts are intended to eliminate competition. As the Court . . . observed [in *Omni*], "*Parker and Noerr* are complementary expressions of the principle that the antitrust laws regulate business, not politics; the former decision protects the States' acts of governing, and the latter the citizens' participation in government."

As the Surgical Center emphasizes, however, the immunity afforded to a private party under *Noerr* is not unlimited. Where the challenged private conduct is only "sham" petitioning—where it "is not genuinely aimed at procuring favorable government action as opposed to a valid effort to influence government action"—the *Noerr* immunity is not available. *Professional Real Estate Investors, Inc. v. Columbia Pictures,*

Inc. (U.S. Sup. Ct. 1993). In essence, sham petitioning entails, [as noted in *Professional Real Estate Investors*], "the use of the governmental process—as opposed to the outcome of that process—as an anticompetitive weapon." Accordingly, the sham petitioning exception does not apply in a case like the one before us, where the plaintiff has not alleged that the petitioning conduct was for any purpose other than obtaining favorable government action. [In this case,] the plaintiff affirmatively alleges that [the Hospital Defendants'] purpose was to secure the outcome of the process—denial of the CON. Thus, . . . the sham exception to *Noerr* immunity [is] inapplicable here.

It is also true that a private party can be held liable even for bona fide petitioning conduct where that conduct has caused direct antitrust injury in the marketplace. *FTC v. Superior Court Trial Lawyers Association* (U.S. Sup. Ct. 1990). In *Trial Lawyers*, for example, the public defenders of the District of Columbia engaged in a concerted refusal to represent indigent defendants in order to pressure the District into raising the hourly rate paid. The Court held that the defendants could be held liable under the Sherman Act for injuries that resulted directly from the boycott, even though the boycott was intended to secure government action. The limitation on *Noerr* immunity recognized in *Trial Lawyers* is inapplicable, however, to a case where the sole antitrust injury is caused directly by the government action that the private defendant has helped to secure. Thus, even where the same petitioning conduct might give rise to antitrust liability for injury directly caused to a competitor in the marketplace, if relief is sought solely for injury as to which the state would enjoy immunity under *Parker*, the private petitioner also enjoys immunity.

Here, looking to the source of the complained-of injuries, we find that all of the Surgical Center's alleged injuries arise solely from the denial of the CON: the denial of the ability to operate the proposed facility; the losses of the CON's value, the value of the facility, and the value of the operation's proceeds; the delay in securing the CON; and other related losses.

[W]here, as here, all of the plaintiff's alleged injuries result from state action, antitrust liability cannot be imposed on a private party who induced the state action by means of concerted anticompetitive activity. It follows that the complaint fails to state a boycott claim upon which relief can be granted.

The Surgical Center's second claim is that the Hospital Defendants, as part of their conspiracy, misled the Department [and] the Board . . . into believing that the Hospital's partially constructed facility would soon open and meet the needs of the relevant market, when the Hospital Defendants knew that the facility would not be completed. The Surgical Center would have us deny antitrust immunity to the Hospital Defendants on the [ground] that they successfully opposed the issuance of a CON using information known to be false.

Although the Supreme Court suggested in *California Motor Transport Co. v. Trucking Unlimited* (U.S. Sup. Ct. 1972) that petitioning activity involving knowingly false information submitted to an adjudicative tribunal might not enjoy antitrust immunity, the Court has never so held. Moreover, since *California Motor*, the Supreme Court decided [*City of Columbia v. Omni Outdoor Advertising, Inc.* (U.S. Sup. Ct. 1991), which] casts doubt on whether such an exception exists under any circumstances and dictates that . . . we honor the Hospital Defendants' claim to immunity.

In *Omni*, [a relative newcomer to the outdoor sign business alleged that a competitor and a city council] conspired to restrain competition [through the adoption of] a zoning ordinance limiting the size, spacing, and location of billboards in the city. The Supreme Court . . . concluded that [the plaintiff's] alleged injury was the result of state action, [that *Parker* immunity would therefore protect the city against liability, and that the existence of a conspiracy between city officials and a private firm did not strip the city of its immunity]. It then observed that if "conspiracy" was taken to mean "nothing more than an agreement to impose the regulation in question," the purpose of *Parker* immunity would be defeated because "it is both inevitable and desirable that public officials often agree to do what one or another group of private citizens urges upon them."

The [*Omni*] Court next considered whether *Parker* immunity is lost when it is shown that an agreement between the defendants involved governmental corruption, bribery, or other violations of state or federal law. It held that *Parker* immunity remains in such circumstances. The Court found "impractical" the contention that *Parker* immunity is forfeited by governmental corruption. Such a rule would call upon antitrust courts to speculate as to whether state action purportedly taken in the public interest was the product of an honest judgment or desire for private gain. The Court stressed that *Parker* "was not meant to shift [judgments about the public interest] from elected

officials to judges and juries." With respect to the contention that *Parker* immunity should be forfeited at least where bribery or other illegal activity may have subverted the state decision making process, the Court observed that this approach had "the virtue of practicality but the vice of being unrelated to" the purposes of the Sherman Act and *Parker*. [It noted that existing statutes] other than the Sherman Act [may be utilized] to discourage such behavior.

Turning to [whether the private firm that conspired with the city council could be held liable], the *Omni* Court addressed whether *Noerr*'s immunity for private parties was subject to any of the exceptions that had been urged in the context of *Parker* immunity. It declined to restrict *Noerr* immunity in this way for the same reason it had declined to so restrict *Parker* immunity. [In so concluding, the Court noted that] "[I]n *Noerr* . . . , where the private party 'deliberately deceived the public and public officials' in its successful lobbying campaign, we said that 'deception, reprehensible as it is, can be of no consequence so far as the Sherman Act is concerned.'"

The teachings of *Omni* are pertinent here. Considerations of federalism require an interpretation of the Sherman Act that forecloses liability predicated on anticompetitive injuries that are inflicted by states acting as regulators. Liability for injuries caused by such state action is precluded even where it is alleged that a private party urging the action did so by bribery, deceit, or other wrongful conduct that may have affected the decision making process. The remedy for such conduct rests with laws addressed to it and not with courts looking behind sovereign state action at the behest of antitrust plaintiffs. Federalism requires this result both with respect to state actors and with respect to private parties who have urged the state action.

On the facts alleged in the complaint, it is . . . clear that the state decision makers were disinterested, conducted their own investigation, and afforded all interested parties an opportunity to set the record straight. The initial decision was then twice reviewed. Finally, anyone who believed that a fraud was committed on the Department or Board could have moved to reopen the proceeding and attempted to persuade them that they were materially misled.

In these circumstances, *Omni* compels us to affirm the district court. Indeed, such a result seems to follow, a fortiori, from *Omni* given the conceded presence here of disinterested decision makers, an independent investigation, an open process, and extensive opportunities for error correction. The risk that the plaintiff's injury is not the result of a bona fide execution of state policy is far less substantial here than in *Omni* and there is, accordingly, far less justification for federal court review of the state's policy judgment.

District court's dismissal of complaint affirmed.

Ethics in Action

In the *Armstrong* case, which appeared earlier in this chapter, the court concluded that even if the defendants made false statements to state authorities, certain exemptions would protect them against antitrust liability.

Assuming that the defendants made the false statements, how would deontologists view their behavior? How would utilitarians view their behavior? What about profit maximizers? (Refer to the discussion in Chapter 4, if necessary.)

Patent Licensing There is a basic tension between the antitrust objective of promoting competition and the purpose of the patent law, which, as noted in Chapter 8, seeks to promote innovation by granting a limited monopoly to those who develop new products or processes. In the early case of *United States v. General Electric Company* (1926), the Supreme Court allowed General Electric to control the price at which other manufacturers sold light bulbs they had manufactured under patent licensing agreements with General Electric. The Court recognized that an important part of holding a patent was the right to license others to manufacture the patented item. This right effectively would be negated if licensees were allowed to undercut the prices that patent holders charged for their own sales of patented products.

Patent holders cannot, however, lawfully control the price at which patented items are resold by distributors purchasing them from the patent holder. Nor can patent holders use their patents to impose tying agreements on their customers by conditioning the sale of patented items on the purchase of unpatented items, unless such agreements are otherwise lawful under the Sherman and Clayton Acts. Finally, firms that seek to monopolize by acquiring most or all of the patents related to an area of commerce may face liability for violating Sherman Act section 2 or Clayton Act section 7, because a patent has been held to be an asset within the meaning of section 7.

Foreign Commerce When foreign governments are involved in commercial activities affecting the domestic or international commerce of the United States, our antitrust policy may be at odds with our foreign policy. Congress and the courts have created a variety of

antitrust exemptions aimed at reconciling this potential conflict. The Foreign Sovereign Immunities Act (FSIA) provides that the governmental actions of foreign sovereigns and their agents are exempt from antitrust liability. The commercial activities of foreign sovereigns, however, are not included within this **sovereign immunity** exemption. Significant international controversy exists concerning the proper criteria for determining whether a particular governmental act is commercial in nature. Under the FSIA, the courts employ a *nature of the act* test, holding that a commercial activity is one that an individual might customarily carry on for a profit.

The **act of state doctrine** provides that an American court cannot adjudicate a politically sensitive dispute whose resolution would require the court to judge the legality of a foreign government's sovereign act. This doctrine reflects judicial deference to the primary role of the executive and legislative branches in the adoption and execution of our foreign policy. The act of state doctrine recognizes (as does the doctrine of sovereign immunity) the importance of respecting the sovereignty of other nations. Unlike the doctrine of sovereign immunity, however, the act of state doctrine also reflects a fundamental attribute of our system of government: the principle of separation of powers.

Finally, the **sovereign compulsion doctrine** provides private parties a defense if they have been compelled by a foreign sovereign to commit, within that sovereign's territory, acts that would otherwise violate the antitrust laws because of their negative impact on our international commerce. To employ this defense successfully, a defendant must show that the challenged actions were the product of actual compulsion—as opposed to mere encouragement or approval—by a foreign sovereign.

Problems and Problem Cases

1. Mercedes-Benz of North America (MBNA), the exclusive U.S. distributor of Mercedes-Benz (Mercedes) automobiles, was a wholly owned subsidiary

of Daimler-Benz Aktiengesellschaft (DBAG), the manufacturer of Mercedes automobiles. MBNA required its approximately 400 franchised Mercedes dealers to agree not to sell or use (in the repair or servicing of Mercedes automobiles) any parts other

than genuine Mercedes parts. Mozart, a wholesale automotive parts distributor, filed an antitrust suit against MBNA. Mozart alleged, among other things, that MBNA had violated section 1 of the Sherman Act and section 3 of the Clayton Act by tying the sale of Mercedes parts to the sale of Mercedes automobiles. The trial court ruled in favor of MBNA. Was the trial court's ruling correct?

2. Waste Management, Inc. (WMI), a company in the solid waste disposal business, acquired the stock of EMW Ventures, Inc. EMW was a diversified holding company, one of whose subsidiaries was Waste Resources. WMI and Waste Resources each had subsidiaries operating in or near Dallas, Texas. The government challenged the merger on the theory that it violated section 7 of the Clayton Act. The trial court agreed. In finding a section 7 violation, the trial court defined the relevant market as including all forms of trash collection (except at single-family or multiple-family residences or small apartment complexes) in Dallas County plus a small fringe area. The combined WMI and Waste Resources subsidiaries had a 48.8 percent share of the relevant market. The trial court held that this market share raised a presumption of illegality and that WMI had not rebutted the presumption. WMI appealed, arguing that new firms could easily enter the trash collection business in the relevant geographic area and that the trial court should have regarded this ease of entry as a sufficient rebuttal of the presumption of illegality. Was WMI correct?
3. In 1961, Ford Motor Company acquired Autolite, a manufacturer of spark plugs, in order to enter the profitable aftermarket for spark plugs sold as replacement parts. Ford and the other major automobile manufacturers had previously purchased original equipment spark plugs (those installed in new cars when they leave the factory) from independent producers such as Autolite and Champion, either at or below the producer's cost. The independents were willing to sell original equipment plugs so cheaply because aftermarket mechanics often replace original equipment plugs with the same brand of spark plug. GM had already moved into the spark plug market by developing its own division. Ford decided to do so by means of a vertical merger under which it acquired Autolite. Prior to the Autolite acquisition, Ford bought 10 percent of the total spark plug output. The merger left Champion as the only major independent spark plug producer. Champion's market share thereafter declined because Chrysler was the only major original equipment spark plug purchaser remaining in the market. The government filed a divestiture suit against Ford, arguing that Ford's acquisition of Autolite violated section 7 of the Clayton Act. Should Ford have been ordered to divest itself of Autolite?
4. In 1975, Tenneco, Inc., was the 15th-largest industrial corporation in America. Tenneco's Walker Manufacturing Division produced and distributed a wide variety of automotive parts, the most important of which were exhaust system parts. Walker was the nation's leading seller of exhaust system parts in 1975 and 1976. Tenneco acquired control of Monroe Auto Equipment Company, a leading manufacturer of automotive shock absorbers. Monroe was the number two firm in the national market for replacement shock absorbers. Monroe and Gabriel, the industry leader, accounted for over 77 percent of replacement shock absorber sales in 1976. General Motors and Questor Corporation, the third- and fourth-largest firms, controlled another 15 percent of the market. The replacement shock absorber market exhibited significant barriers to the entry of new competitors. Economies of scale in the industry dictated manufacturing plants of substantial size. Furthermore, the nature of the industry required would-be entrants to acquire significant new technologies and marketing skills unique to the industry. The Federal Trade Commission (Commission) concluded that Tenneco's acquisition of Monroe violated section 7 of the Clayton Act by eliminating both perceived and actual potential competition in the replacement shock absorber market. The Commission therefore ordered Tenneco to divest itself of Monroe. Tenneco appealed. Was the Commission's decision correct?
5. The Federal Trade Commission filed an administrative complaint against six of the nation's title insurance companies. The complaint alleged that the title insurers engaged in horizontal price-fixing in their setting of uniform rates for title searches and title examinations. The challenged uniform rate-setting for title searches and title examinations occurred in various states through rating bureaus organized by the title insurers. These rating bureaus allegedly would set standard rates for search and examination services notwithstanding possible differences in efficiencies and costs as between individual title insurance companies. Though privately organized, these rating bureaus and the rates they set were potentially subject

to oversight by the various states in which they operated. In Wisconsin and Montana, two of the states in which price-fixing was alleged to have occurred, the rating bureaus filed rates with state agencies that operated under the so-called negative option rule. This rule provided that the rates became effective unless they were rejected by the appropriate Wisconsin or Montana agency within a set time. At most the state agencies checked the rate filings for mathematical accuracy. Some rates were unchecked altogether. Reviewing the administrative law judge's decision in the administrative proceeding, the FTC commissioners concluded that price-fixing occurred and that the state action exemption argued for by the title insurers did not apply. On appeal, the Third Circuit Court of Appeals held that the state action exemption shielded the title insurers' from antitrust liability for the price-fixing that occurred in Wisconsin and Montana. Was the Third Circuit correct?

6. Ricky Hasbrouck and 11 other plaintiffs were Texaco retail service station dealers in the Spokane area. They purchased gasoline directly from Texaco and resold it at retail under the Texaco trademark. Throughout the relevant time period (1972–81), Texaco also supplied gasoline to two gasoline distributors, Dompier Oil Company and Gull Oil Company, at a price that was at various times between 2.5 cents and 5.75 cents per gallon lower than the price Hasbrouck paid. Dompier and Gull sold the gasoline they purchased from Texaco to independent retail service stations. Dompier sold the gasoline to retailers under the Texaco trademark; Gull marketed it under private brand names. Gull's customers either sold their gasoline on consignment (in which case they set their own prices) or on commission (in which case Gull set their resale prices). Gull retained title until the gas was sold to a retail customer in either case. Some of the retail stations supplied by Dompier were owned and operated by Dompier's salaried employees. Both Dompier and Gull picked up gas at the Texaco bulk plant and delivered it to their retail customers, a service for which Dompier was compensated by Texaco at the common carrier rate.

Hasbrouck and the other dealers filed a price discrimination suit against Texaco under § 2(a) of the Robinson–Patman Act. At trial, Texaco argued that its lower prices to Gull and Dompier were lawful functional discounts. The jury awarded the plaintiffs \$1,349,700 in treble damages. When the Ninth Circuit Court of Appeals affirmed the jury award, Texaco

appealed. The U.S. Supreme Court granted certiorari. How did the Supreme Court rule? Were the particular functional discounts provided by Texaco lawful?

7. Indian Coffee Company, a coffee roaster in Pittsburgh, Pennsylvania, sold its Breakfast Cheer coffee in the Pittsburgh area, where it had an 18 percent market share, and in Cleveland, Ohio, where it had a significant, but smaller, market share. Late in 1971, Folger Coffee Company, then the leading seller of branded coffee west of the Mississippi, entered the Pittsburgh market for the first time. In its effort to gain market share in Pittsburgh, Folger granted retailers high promotional allowances in the form of coupons. Retail customers could use these coupons to obtain price cuts. Redeeming retailers could use the coupons as credits against invoices from Folger. For a time, Indian tried to retain its market share by matching Folger's price concessions, but because Indian operated in only two areas, it could not subsidize such sales with profits from other areas. Indian, which finally was forced out of business in 1974, later filed a Robinson–Patman suit against Folger. At trial, Indian introduced evidence that Folger's Pittsburgh promotional allowances were far higher than its allowances in other geographic areas, and that Folger's Pittsburgh prices were below green (unroasted) coffee cost, below material and manufacturing costs, below total cost, and below marginal cost or average variable cost. Was the trial court's directed verdict in favor of Folger proper?
8. Bayer Corporation produced Bayferrox, a synthetic iron oxide pigment used to color paint, plastics, and building and concrete products. Hoover Color Corporation was one of several primary distributors of this pigment. Hoover therefore purchased Bayferrox from Bayer on a regular basis. For a number of years, Bayer had employed a volume-based incentive discount pricing system. Under this system, the price a distributor paid depended on the total amount of Bayferrox purchased by that distributor during the previous year. The quantities of Bayferrox purchased by Hoover were significantly smaller than those purchased by Hoover's competitors, Rockwood Industries and Landers-Segal Co. (Lansco). As a result, Hoover received smaller price discounts from Bayer than Rockwood and Lansco received. In 1992, for instance, Hoover received a 1 percent discount off Bayer's distributor market price for Bayferrox, whereas Lansco and Rockwood were given 6 percent and 10 percent discounts, respectively. Hoover sued

Bayer on the theory that Bayer's volume-based incentive discount pricing system involved price discrimination, in violation of section 2(a) of the Robinson–Patman Act. Bayer contended that it set its prices in a good faith attempt to meet competition in the marketplace, and that it was thus entitled to the protection of the affirmative defense set out in section 2(b) of the statute. Holding that Bayer was entitled to the protection of the “meeting competition” defense, the district court granted summary judgment in favor of Bayer. Was the district court's decision correct?

9. In 1982, a subsidiary of W. S. Kirkpatrick & Co. won a Nigerian Defense Ministry contract for the construction and equipment of an aeromedical center at a Nigerian Air Force base. Environmental Tectonics Corporation (Environmental), an unsuccessful bidder for the same contract, filed RICO and Robinson–Patman Act claims against Kirkpatrick. Environmental alleged that Kirkpatrick had won the contract by paying a 20 percent “commission” to bribe certain Nigerian officials. The parties agreed that the bribes, if paid, would violate Nigerian law. Was the trial court correct in holding that the act of state doctrine barred Environmental's claim?
10. Pocahontas Coal Company filed suit against a number of other companies engaged in the mining and production of coal in West Virginia. Pocahontas alleged that the defendants were involved in a conspiracy to control the production and pricing of coal. One of Pocahontas's specific claims was that the defendants had violated section 8 of the Clayton Act by “deputizing” various persons to sit on the boards of competing subsidiaries. The defendants moved for summary judgment, noting that Pocahontas's complaint contained no factual allegations that any of the defendants were competitors, failed to name any of the alleged “deputies,” and was ambiguous because it alleged that certain persons were “officers and/or directors” of competing companies. The trial court offered Pocahontas the opportunity to clarify the complaint by bringing forth additional information on these points. Did the court properly grant the defendants summary judgment when Pocahontas declined to do so?
11. Professional Real Estate Investors, Inc. (PRE), operated a resort hotel in Palm Springs, California. Having installed videodisk players in the hotel's rooms and assembled a library of more than 200 motion picture titles, PRE rented videodisks to guests for in-room viewing. PRE also sought to develop a market

for the sale of videodisk players to other hotels that wished to offer in-room viewing of prerecorded material. Columbia Pictures Industries, Inc., and seven other major motion picture studios (referred to collectively as “Columbia”) owned the copyrights on the motion pictures that appeared on the videodisks PRE had purchased. Columbia also licensed the transmission of copyrighted motion pictures to hotel rooms through a wired cable system called Spectradyn. PRE therefore competed with Columbia not only for the viewing market at PRE's hotel but also for the broader market for in-room entertainment services in hotels. Columbia sued PRE for copyright infringement on the basis of PRE's rental of videodisks for viewing in hotel rooms. PRE counterclaimed, charging Columbia with violations of sections 1 and 2 of the Sherman Act. PRE alleged that Columbia's copyright action was a mere sham that cloaked underlying acts of monopolization and conspiracy to restrain trade. The district court granted summary judgment in favor of PRE on Columbia's copyright infringement claim. Columbia sought summary judgment on PRE's antitrust counterclaims. Columbia asserted that its copyright infringement claim had not been a sham and that the *Noerr–Pennington* doctrine therefore protected Columbia against antitrust attack. PRE opposed Columbia's motion for summary judgment on PRE's antitrust counterclaims by arguing that Columbia's copyright infringement claim was a sham because Columbia did not honestly believe that the claim was meritorious. If Columbia did not subjectively believe that the claim was meritorious but there was probable cause to bring the claim, was Columbia's claim a sham for purposes of the sham exception to the *Noerr–Pennington* doctrine's protection against liability?

The Heinz Case

If your college or university allows students access to LEXIS or Westlaw, use one of those services to locate *Federal Trade Commission v. H. J. Heinz Co.*, 246 F.3d 708 (D.C. Cir. 2001). In that case, a federal court of appeals ruled on the FTC's request for a preliminary injunction to stop a planned merger of two manufacturers of baby food. Read the court's decision and prepare a written case brief. (For suggested guidelines regarding case briefs, see the Appendix to Chapter 1.)

chapter 5I

EMPLOYMENT LAW

Westlawn Pediatric Center advertised a job opening for a pediatric nurse practitioner. Richard and Valerie, both of whom are licensed pediatric nurse practitioners and both of whom met the published qualifications for the job, applied for the position. Westlawn hired Valerie over Richard because “women are more nurturing.” No verbal agreement was made between Westlawn and Valerie about the duration of her employment. Valerie performs well at her new job and receives glowing performance reviews.

- If Valerie is injured on the job, under what circumstances must Westlawn compensate her?
- What legal regulations must Westlawn meet with regard to workplace conditions, wages, and benefits?
- What criteria are permissible for employers to use in making hiring, firing, and promotion decisions? Was it legal for Westlawn to refuse to hire Richard on the basis of a stereotype?
- Does the fact that Valerie is doing a good job mean that she cannot legally be fired?
- Under what circumstances would Westlawn have the right to monitor Valerie’s communications or require a search or drug test?
- Would it be ethical for Westlawn to monitor its employees’ e-mail without giving them prior notice?

YEARS AGO, IT WAS unusual to see a separate employment law chapter in a business law text. At that time, the rights, duties, and liabilities accompanying employment usually were determined by basic legal institutions such as contract, tort, and agency. Today, these common law principles still control employer–employee relations unless displaced by government regulations or by new judge-made rules applying specifically to employment. By now, however, such rules and regulations are so numerous that they touch almost every facet of employment. This chapter discusses the most important of these modern legal controls on the employer–employee relation.

Modern American employment law is so vast and complex a subject that texts designed for lawyers seldom address it in its entirety. Indeed, specialized subjects like labor law and employment discrimination often get book-length treatment in their own right. This chapter’s overview of employment law emphasizes three topics that have attracted much recent attention—

employment discrimination, employee privacy, and common law claims for wrongful discharge. But no discussion of employment law is complete without outlining certain basic regulations that significantly affect the conditions of employment for most Americans. Figure 1 notes these regulations and briefly states the functions they perform.

Figure 1 *The Ends and Means of Modern Employment Law*

Legislation Protecting Employee Health, Safety, and Well-Being

Workers' Compensation

Nineteenth-century law made it difficult for employees to recover when they sued their employer in negligence for on-the-job injuries.¹ At that time, employers had an implied assumption of risk defense under which an employee assumed all the normal and customary risks of his employment simply by taking the job. If an employee's own carelessness played some role in his injury,

employers often could avoid negligence liability under the traditional rule that even a slight degree of contributory negligence is a complete defense. Another employer defense, the fellow-servant rule, said that where an employee's injury resulted from the negligence of a coemployee (or fellow servant), the employer was not liable. Finally, employees sometimes had problems proving the employer's negligence. State workers' compensation statutes, which first appeared early in the 20th century, were a response to all these problems. Today all 50 states have such systems.²

¹Chapter 7 discusses negligence law and most of the negligence defenses noted below.

²In addition, various federal statutes regulate on-the-job injuries suffered by employees of the federal government and other employees such as railroad workers, seamen, longshoremen, and harbor workers.

Basic Features Workers' compensation protects only employees, and not independent contractors.³ However, many states exempt casual, agricultural, and domestic employees, among others. State and local government employees may be covered by workers' compensation or by some alternative state system. Also, states usually exempt certain employers—for example, firms employing fewer than a stated number of employees (often three).

Where they apply, however, all workers' compensation systems share certain basic features. They allow injured employees to recover under *strict liability*, thus removing any need to prove employer negligence. They also eliminate the employer's three traditional defenses: contributory negligence, assumption of risk, and the fellow-servant rule. In addition, they make workers' compensation an employee's *exclusive remedy* against her employer for covered injuries. There are some exceptions to the exclusivity of worker's compensation, however. In cases in which an employer *intentionally* injures an employee, the injured employee can usually sue the employer outside of worker's compensation. In some states, this intentional injury exception has expanded beyond intentional torts to situations in which the employer did something or maintained a condition in the workplace that the employer knew was substantially certain to harm the employee. An example of this approach would be holding an employer responsible outside of worker's compensation when the employer knew that an employee was being sexually harassed but did nothing about it. In addition, in a number of states, an employee can sue outside of worker's compensation when the employer was acting in a *dual capacity* in relation to the employee. An example of this would be a case in which an employee is injured on the job by a defect in a product manufactured by the employer.

Workers' compensation basically is a social compromise. Because it involves strict liability and eliminates the three traditional employer defenses, workers' compensation greatly increases the probability that an injured employee will recover. Such recoveries usually include (1) hospital and medical expenses (including vocational rehabilitation), (2) disability benefits, (3) specified recoveries for the loss of certain body parts, and (4) death benefits to survivors and/or dependents. But the amount recoverable under each category of damages frequently is less than would be obtained in a negligence suit. Thus, injured employees sometimes deny that they are covered by workers' compensation so that they can pursue a tort suit against their employer instead.

Although workers' compensation is usually an injured employee's sole remedy against her employer, she may be able to sue other parties whose behavior helped cause her injury. One example is a product liability suit against a manufacturer who supplies an employer with defective machinery or raw materials that cause an on-the-job injury. However, many states immunize coemployees from ordinary tort liability for injuries they inflict on other employees. Complicated questions of contribution, indemnity, and subrogation can arise where an injured employee is able to recover against both an employer and a third party.

The Work-Related Injury Requirement Another basic feature of workers' compensation is that employees recover only for *work-related* injuries. To be work-related, the injury must (1) arise out of the employment, and (2) happen in the course of the employment. These tests have been variously interpreted.

The arising-out-of-the-employment test usually requires a sufficiently close relationship between the injury and the *nature* of the employment. Different states use different tests to define this relationship. Examples include:

1. **Increased risk.** Here, the employee recovers only if the nature of her job increases her risk of injury above the risk to which the general public is exposed. Under this test, a factory worker assaulted by a trespasser probably would not recover, while a security guard assaulted by the same trespasser probably would.
2. **Positional risk.** Under this more liberal test, an injured employee recovers if her employment caused her to be at the place and time where her injury occurred. Here, the factory worker probably would recover. The *Dulen* case that follows seems to adopt this test.

The in-the-course-of-the-employment requirement inquires whether the injury occurred within the *time*, *place*, and *circumstances* of the employment. Employees injured off the employer's premises generally are outside the course of the employment. For example, injuries suffered while traveling to or from work usually are not compensable. But an employee may be covered where the off-the-premises injury occurred while she was performing employment-related duties such as going on a business trip or running an employment-related errand.

Other work-related injury problems on which courts have disagreed include mental injuries allegedly arising from the employment and injuries resulting from employee horseplay. Virtually all states, however, regard

³Chapter 35 defines the terms *employee* and *independent contractor*.

intentionally self-inflicted injuries as outside workers' compensation. Recovery for occupational diseases, on the other hand, usually is allowed today. An employee whose preexisting diseased condition is aggravated by her employment sometimes recovers as well.

Administration and Funding Workers' compensation systems usually are administered by a state agency that adjudicates workers' claims and administers the system.

Its decisions on such claims normally are appealable to the state courts. The states fund workers' compensation by compelling covered employers to (1) purchase private insurance, (2) self-insure (e.g., by maintaining a contingency fund), or (3) make payments into a state insurance fund. Because employers generally pass on the costs of insurance to their customers, workers' compensation tends to spread the economic risk of workplace injuries throughout society.

Darco Transportation v. Dulen

922 P.2d 591 (Okla. Sup. Ct. 1996)

Elmer Dulen was injured and his codriver Polly Freeman was killed when a tractor-trailer rig driven by Dulen entered a railroad crossing and was struck by an oncoming train. Both Dulen and Freeman had been hired by Darco Transportation to transport goods cross-country to San Francisco. On the night of the accident, Dulen stopped his rig behind another truck when the signal arms at a railroad crossing lowered. The arms malfunctioned and came up before an oncoming train reached the intersection. The first truck proceeded across the tracks and Dulen followed. While the first truck avoided being hit, Dulen's rig was rammed by the train. The protective arms did not relower until Dulen's semi was on the tracks.

At the scene of the collision a female traffic investigator noticed that Freeman was clad only in a T-shirt. She also observed that Dulen's pants were unbuttoned, unzipped, and resting at mid-hip. After Dulen was admitted to the hospital, the investigator questioned Dulen about how the accident had happened. Dulen said, "I was f—ing her and now, oh, my God, I have killed her." According to the investigator, Dulen also told her that when the accident occurred, Freeman was sitting in his lap facing him. However, in later testimony Dulen explained that by his statement at the hospital he meant that he had been living in an intimate relationship with Freeman for five months before the accident and felt responsible for her death because she was driving with him. He also denied telling the officer that Freeman was sitting in his lap and that they were having sex when the accident occurred. Other evidence revealed that there was not enough room between the steering wheel and the seat for two people of Dulen's and Freeman's size physically to fit into that space together.

Dulen sought workers' compensation benefits for what he maintained were on-the-job injuries. After various Oklahoma courts ruled in Dulen's favor, Darco appealed to the Supreme Court of Oklahoma.

Opala, Judge

When examining the compensation tribunal's factual resolutions, this court applies the any-competent-evidence standard. The trial judge's findings may not be disturbed on review if supported by competent proof.

Oklahoma's jurisprudence has long recognized that a compensable work-related injury must both: (1) occur in the course of, and (2) arise out of the worker's employment. These two distinct elements are not to be understood as synonymous. The term "in the course of employment" relates to the time, place, or circumstances under which the injury is sustained. The term "arise out of employment" contemplates the causal connection between the injury and the risks incident to employment. We must be mindful that in this case we are applying workers' compensation law. The concept of a worker's contributory fault, which the compensation statute discarded, must not be resurrected obliquely as a defense against the employer's liability.

The Workers' Compensation Court was faced with the task of determining if Dulen, when injured, was performing work in

furtherance of his master's business—i.e., whether he was then "in the course of employment." If the trial tribunal tended to believe that Dulen and Freeman were having sex at the critical time, the question to be decided was whether the claimant's conduct is to be deemed horseplay—a complete departure from or abandonment of his employment. This issue concerns itself solely with the "course of employment" bounds—not with the risk incident to employment, i.e., the "arising out of" element.

Assuming as a fact that when the collision occurred, Dulen was having sex while also driving the rig, the trial judge could still find that this servant's acts constituted no more than a careless, negligent, or forbidden genre of performance, but did not amount to pure frolic which was tantamount to total abandonment of the master's business. On this record, such a finding would not be legally or factually incorrect. The record contains ample evidence reasonably supporting the notion that Dulen's injury was work-related, and occurred while he was en route to his assigned destination. Above all, uncontroverted is the stubborn fact that Dulen, when injured, occupied his assigned work

station—the driver’s seat behind the steering wheel of Darco’s truck. The record offers no proof that Dulen had deviated from or abandoned his master’s mission, transporting goods to San Francisco.

An injury is compensable if it arises out of the claimant’s employment—i.e., was caused by a risk to which the employee was subjected by his work. Any other notion would impermissibly interject into this State’s compensation regime concepts of common-law cause and foreseeability: the legal underpinnings of negligence. The only criterion for compensability is the statute’s test of a connection-in-fact to the employment. The record is devoid of any proof that the protective arms were in good working order. The trial tribunal found the equipment’s failure was the direct cause of the claimant’s injuries. At the time of Dulen’s injuries, he was employed as a Darco truck driver with an assigned task—transporting goods to the West Coast. This required his presence on the highways. A causal

connection between the act in which Dulen was engaged, when injured, and his job description is clear. Because the perils of this servant’s travel for his master are co-extensive with the risks of employment, Dulen’s injuries undeniably arose out of his work.

Two insuperable hurdles absolutely militate against overturning the trial tribunal’s findings and exonerating the employer as a matter of law. Assuming Dulen and Freeman were engaged in sexual intercourse, (1) there is undisputed proof that, when the collision occurred, Dulen remained at the steering wheel and hence cannot be deemed to have then “abandoned” his assigned work station; and (2) there is competent evidence to support the trial judge’s finding which ascribes the accident’s cause, not to copulation-related inattention, but to defective railroad-crossing warning equipment.

Trial court order sustained; Dulen recovers.

The Occupational Safety and Health Act Although it may stimulate employers to remedy hazardous working conditions, workers’ compensation does not directly forbid such conditions. The most important measure directly regulating workplace safety is the federal Occupational Safety and Health Act of 1970. The Occupational Safety and Health Act imposes a duty on employers to provide their employees with a workplace and jobs free from recognized hazards that may cause death or serious physical harm. Employers are required to comply with many detailed regulations promulgated by the Occupational Safety and Health Administration (OSHA). One of these regulations, for example, requires employers to inform employees who could be exposed to hazardous chemicals in the workplace about the chemicals and to provide employees with training so that they can effectively protect themselves from harm. The act also requires employers to report to the secretary of labor any on-the-job injuries that require hospitalization. Because information about workplace dangers provided by employees themselves is important to the effectiveness of the act, employees who provide such information are protected from retaliation.

The Occupational Safety and Health Act applies to all employers engaged in a business affecting interstate commerce. Exempted, however, are the U.S. government, the states and their political subdivisions, and certain industries regulated by other federal safety legislation. The Occupational Safety and Health Act mainly is administered by the Occupational Safety and Health Administra-

tion (OSHA) of the Labor Department. It does not preempt state workplace safety regulation, but OSHA must approve any state regulatory plan.

OSHA can inspect places of employment for violations of the act and its regulations. If an employer is found to violate the act’s general duty provision or any specific standard, OSHA issues a written citation.

The main sanctions for violations of the act and the regulations are various civil penalties. In addition, any employer who commits a willful violation resulting in death to an employee may suffer a fine, imprisonment, or both. Also, the secretary of labor may seek injunctive relief when an employment hazard presents an imminent danger of death or physical harm that cannot be promptly eliminated by normal citation procedures.

The Family and Medical Leave Act After concluding that proper child-raising, family stability, and job security require that employees get reasonable work leave for family and medical reasons, Congress passed the Family and Medical Leave Act (FMLA) in 1993. In general, the act covers those employed for at least 12 months, and for 1,250 hours during those 12 months, by an employer employing 50 or more employees. Covered employers include federal, state, and local government agencies.

Under the FMLA, covered employees are entitled to a total of 12 workweeks of leave during any 12-month period for one or more of the following reasons: (1) the birth of a child and the need to care for that child; (2) the

adoption of a child; (3) the need to care for a spouse, child, or parent with a serious health condition; and (4) the employee's own serious health condition. Usually, the leave is without pay. Upon the employee's return from leave, the employer ordinarily must put her in the same or an equivalent position and must not deny her any benefits accrued before the leave began. The National Defense Authorization Act of 2008 included provisions that revised the FMLA with respect to military families. The new provisions permit eligible employees who are employed by covered employers to take up to 12 weeks of leave because of any "qualifying exigency" arising from the fact that the employee's spouse, son, daughter, or parent is on active military duty or has been notified of an impending call to active duty status.

Employers who deny any of an employee's FMLA rights are civilly liable to the affected employee for resulting lost wages or, if no wages were lost, for any other resulting monetary losses not exceeding 12 weeks' wages. Employees may also recover an additional equal amount as liquidated damages, unless the employer acted in good faith and had reasonable grounds for believing that it was not violating the act. Like the Fair Labor Standards Act (FLSA), to be discussed later in this chapter, the FMLA permits civil actions by the secretary of labor, with any sums recovered distributed to affected employees. In such actions, employees may also obtain equitable relief, including reinstatement and promotion.

Legislation Protecting Wages, Pensions, and Benefits

Social Security Today, the law requires that employers help ensure their employees' financial security after the employment ends. One example is the federal Social Security system. Social Security mainly is financed by the Federal Insurance Contributions Act (FICA). FICA imposes a flat percentage tax on all employee income below a certain base figure and requires employers to pay a matching amount. Self-employed people pay a different rate on a different wage base. FICA revenues finance various forms of financial assistance besides the old-age benefits that people usually call Social Security. These include survivors' benefits to family members of deceased workers, disability benefits, and medical and hospitalization benefits for the elderly (the Medicare system).

Unemployment Compensation Another way that the law protects employees after their employ-

ment ends is by providing unemployment compensation for discharged workers. Since 1935, federal law has authorized joint federal–state efforts in this area. Today, each state administers its own unemployment compensation system under federal guidelines. The system's costs are met by subjecting employers to federal and state unemployment compensation taxes.

Unemployment insurance plans vary from state to state but usually share certain features. States often condition the receipt of benefits on the recipient's having worked for a covered employer for a specified time period, and/or having earned a certain minimum income over such a period. Generally, those who voluntarily quit work without good cause, are fired for bad conduct, fail to actively seek suitable new work, or refuse such work are ineligible for benefits. Benefit levels vary from state to state, as do the time periods during which benefits can be received.

ERISA Many employers voluntarily contribute to their employees' postemployment income by maintaining pension plans. For years, pension plan abuses such as arbitrary termination of participation in the plan, arbitrary benefit reduction, and mismanagement of fund assets were not uncommon. The Employee Retirement Income Security Act of 1974 (ERISA) was a response to these problems. ERISA does not require employers to establish or fund pension plans and does not set benefit levels. Instead, it tries to check abuses and to protect employees' expectations that promised pension benefits will be paid.

ERISA imposes *fiduciary duties* on pension fund managers. For example, it requires that managers diversify the plan's investments to minimize the risk of large losses, unless this is clearly imprudent. ERISA also imposes *record-keeping*, *reporting*, and *disclosure* requirements. For instance, it requires that covered plans provide annual reports to their participants and specifies the contents of those reports. In addition, the act has a provision *guaranteeing employee participation* in the plan. For example, certain employees who complete one year of service with an employer cannot be denied plan participation. Furthermore, ERISA contains *funding* requirements for protecting plan participants against loss of pension income. Finally, ERISA contains complex *vesting requirements* that determine when an employee's right to receive pension benefits becomes nonforfeitable. These requirements help prevent employers from using a late vesting date to avoid pension obligations to employees who change jobs or are fired before that date. ERISA's remedies include civil suits by plan participants and beneficiaries, equitable relief, and criminal penalties.

The Fair Labor Standards Act Although federal labor law regulates several aspects of labor—management relations, it still permits many terms of employment to be determined by private bargaining. Nonetheless, sometimes the law directly regulates such key terms of employment as wages and hours worked. The most important example is the Fair Labor Standards Act (FLSA) of 1938.

The FLSA regulates *wages and hours* by entitling covered employees to (1) a specified minimum wage whose amount changes over time, and (2) a time-and-a-half rate for work exceeding 40 hours per week. The FLSA's complicated coverage provisions basically enable its wages-and-hours standards to reach most significantly sized businesses that are engaged in interstate commerce or produce goods for such commerce. Also covered are the federal, state, and local governments. The many exemptions from the FLSA's wages-and-hours provisions include executive, administrative, and professional personnel.

The FLSA also forbids oppressive *child labor* by any employer engaged in interstate commerce or in the production of goods for such commerce, and also forbids the interstate shipment of goods produced in an establishment where oppressive child labor occurs. Oppressive child labor includes (1) most employment of children below the age of 14; (2) employment of children aged 14–15, unless they work in an occupation specifically approved by the Department of Labor; and (3) employment of children aged 16–17 who work in occupations declared particularly hazardous by the Labor Department.

Both affected employees and the Labor Department can recover any unpaid minimum wages or overtime, plus an additional equal amount as liquidated damages, from an employer that has violated the FLSA's wages-and-hours provisions. A suit by the Labor Department terminates an employee's right to sue, but the department pays the amounts it recovers to the employee. Violations of the act's child labor provisions may result in civil penalties. Other FLSA remedies include injunctive relief and criminal liability for willful violations.

Collective Bargaining and Union Activity

Entire legal treatises are devoted to the topic of collective bargaining by unions. What follows is only a brief historical outline of the subject. Early in the 19th century, some courts treated labor unions as illegal criminal conspiracies. After this restriction disappeared around

midcentury, organized labor began its lengthy—and sometimes violent—rise to power. During the late 19th and early 20th centuries, unions' growing influence and wage earners' increasing presence in the electorate spurred the passage of many laws benefiting labor. These included statutes outlawing “yellow-dog” contracts (under which employees agreed not to join or remain a union member), minimum wage and maximum hours legislation, laws regulating the employment of women and children, factory safety measures, and workers' compensation. But during this period, some say, the courts tended to represent business interests. Perhaps for this reason, some prolabor measures were struck down on constitutional grounds. Also, some courts were quick to issue temporary and permanent injunctions to restrain union picketing and boycotts and help quell strikes.

Organized labor's political power continued to grow during the first part of the 20th century. In 1926, Congress passed the Railway Labor Act, which regulates labor relations in the railroad industry, and which later included airlines. This was followed by the Norris-LaGuardia Act of 1932, which limited the circumstances in which federal courts could enjoin strikes and picketing in labor disputes, and also prohibited federal court enforcement of yellow-dog contracts.

The most important 20th-century American labor statute, however, was the National Labor Relations Act of 1935 (the NLRA or Wagner Act). The NLRA gave employees the *right to organize* by enabling them to form, join, and assist labor organizations. It also allowed them to *bargain collectively* through their own representatives. In addition, the Wagner Act prohibited certain *unfair labor practices* that were believed to discourage collective bargaining. These practices include (1) interfering with employees' rights to form, join, and assist labor unions; (2) dominating or interfering with the formation or administration of a labor union, or giving a union financial or other support; (3) discriminating against employees in hiring, tenure, or any term of employment due to their union membership; (4) discriminating against employees because they have filed charges or given testimony under the NLRA; and (5) refusing to bargain collectively with any duly designated employee representative. The NLRA also established the National Labor Relations Board (NLRB). The NLRB's main functions are (1) handling representation cases (which involve the process by which a union becomes the certified employee representative within a bargaining unit), and (2) deciding whether challenged employer or union activity is an unfair labor practice.

In 1947, Congress amended the NLRA by passing the Labor Management Relations Act (LMRA or Taft-Hartley Act). The act declared that certain acts by *unions* are unfair labor practices. These include (1) restraining or coercing employees in the exercise of their guaranteed bargaining rights (e.g., their right to refrain from joining a union); (2) causing an employer to discriminate against an employee who is not a union member; (3) refusing to bargain collectively with an employer; (4) conducting a secondary strike or a secondary boycott for a specified illegal purpose;⁴ (5) requiring employees covered by union-shop contracts to pay excessive or discriminatory initiation fees or dues; and (6) featherbedding (forcing an employer to pay for work not actually performed). The LMRA also established an 80-day cooling-off period for strikes that the president finds likely to endanger national safety or health. In addition, it created a Federal Mediation and Conciliation Service to assist employers and unions in settling labor disputes.

Congressional investigations during the 1950s uncovered corruption in internal union affairs and also revealed that the internal procedures of many unions were undemocratic. In response, Congress enacted the Labor Management Reporting and Disclosure Act (or Landrum-Griffin Act) in 1959. The act established a “bill of rights” for union members and attempted to make internal union affairs more democratic. It also amended the NLRA by adding to the LMRA’s list of unfair union labor practices. The proportion of U.S. workers who are members of labor unions has decreased fairly steadily over the past 40 years. Today, less than 13 percent of the workforce are members of labor unions.

Equal Opportunity Legislation

The Equal Pay Act The Equal Pay Act (EPA), which forbids *sex* discrimination regarding *pay*, was a 1963 amendment to the FLSA. Its coverage resembles the coverage of the FLSA’s minimum wage provisions. Unlike the FLSA, however, the EPA covers executive, administrative, and professional employees.

The typical EPA case involves a woman who claims that she has received lower pay than a male employee performing substantially equal work for the same employer. The substantially-equal-work requirement is met

if the plaintiff’s job and the higher-paid male employee’s job involve *each* of the following: (1) equal effort, (2) equal skill, (3) equal responsibility, and (4) similar working conditions.

Effort basically means physical or mental exertion. *Skill* refers to the experience, training, education, and ability required for the positions being compared. Here, the question is not whether the employees being compared have equal skills but whether their jobs require or utilize substantially the same skills. *Responsibility* (or accountability) involves such factors as the degree of supervision each job requires and the importance of each job to the employer. For instance, a retail sales position in which an employee may not approve customer checks probably is not equal to a sales position in which an employee has this authority. *Working conditions* refers to such factors as temperature, weather, fumes, ventilation, toxic conditions, and risk of injury. These need only be *similar*, not equal.

If the two jobs are substantially equal and they are paid unequally, an employer must prove one of the EPA’s four defenses or it will lose the case. The employer has a defense if it shows that the pay disparity is based on (1) seniority, (2) merit, (3) quality or quantity of production (e.g., a piecework system), or (4) any factor other than sex. The first three defenses require an employer to show some organized, systematic, structured, and communicated rating system with predetermined criteria that apply equally to employees of each sex. The any-factor-other-than-sex defense is a catchall category that includes shift differentials, bonuses paid because the job is part of a training program, and differences in the profitability of the products or services on which employees work.

The EPA’s remedial scheme resembles the FLSA’s scheme. Under the EPA, however, employee suits are for the amount of back pay lost because of an employer’s discrimination, not for unpaid minimum wages or overtime. An employee may also recover an equal sum as liquidated damages. The EPA is enforced by the Equal Employment Opportunity Commission (EEOC) rather than the Labor Department.⁵ Unlike some of the employment discrimination statutes described later, however, the EPA does not

⁴These are strikes or boycotts aimed at a third party with which the union has no real dispute. Their purpose is to coerce that party not to deal with an employer with which the union does have a dispute, and thus to gain some leverage over the employer.

⁵The EEOC is an independent federal agency with a sizable staff and many regional offices. Its functions include (1) enforcing most of the employment discrimination laws discussed in this chapter through lawsuits that it initiates or in which it intervenes, (2) conciliating employment discrimination charges (e.g., by encouraging their negotiated settlement), (3) investigating discrimination-related matters, and (4) interpreting the statutes it enforces through regulations and guidelines.

require that private plaintiffs submit their complaints to the EEOC or a state agency before mounting suit.

Title VII

Employment discrimination might be defined as employer behavior that penalizes certain individuals because of personal traits that they cannot control and that bear no relation to effective job performance. Of the many employment discrimination laws in force today, the most important is Title VII of the 1964 Civil Rights Act. Unlike the Equal Pay Act, which merely forbids sex discrimination regarding pay, Title VII is a wide-ranging employment discrimination provision. It prohibits discrimination based on *race, color, religion, sex, and national origin* in hiring, firing, job assignments, pay, access to training and apprenticeship programs, and most other employment decisions.

Basic Features of Title VII In discussing Title VII, we first examine some general rules that govern all the kinds of discrimination it forbids. Then we examine each forbidden basis of discrimination in detail.

Covered Entities Title VII covers all employers employing 15 or more employees and engaging in an industry affecting interstate commerce. Employers include individuals, partnerships, corporations, colleges and universities, labor unions and employment agencies (with respect to their own employees), and state and local governments.⁶ Also, *referrals* by employment agencies are covered no matter what the size of the agency, if an employer serviced by the agency has 15 or more employees. In addition, Title VII covers certain unions—mainly those with 15 or more members—in their capacity as *employee representative*.

Procedures Although the EEOC sometimes sues to enforce Title VII, the usual Title VII suit is a private claim. The complicated procedures governing private Title VII suits are beyond the scope of this text, but a few points should be kept in mind. Private parties with a Title VII claim have no automatic right to sue. Instead, they first must file a *charge* with the EEOC, or with a state agency in states having suitable fair employment laws and enforcement schemes. This allows the EEOC or the state agency to investigate the claim, attempt conciliation if

the claim has substance, or sue the employer itself. If a plaintiff files with a state agency and the state fails to act, the plaintiff still can file a charge with the EEOC. Even if the EEOC fails to act on the claim, a plaintiff still may mount her own suit. Here, the EEOC issues a “right-to-sue letter” enabling the plaintiff to sue.

Proving Discrimination The permissible methods for proving a Title VII violation are critical to its effectiveness against employment discrimination. Proof of discrimination is easy in cases where the employer had an **express policy** disfavoring one of Title VII’s protected classes. **Direct evidence** of a discriminatory motive such as testimony or written evidence obviously is useful to plaintiffs as well. However, because employers can discriminate without leaving such obvious tracks, the courts have devised other methods of proving a Title VII violation.

Title VII **disparate treatment** suits involve situations in which an employer has treated an individual differently because of the person’s race, sex, color, religion, or national origin. In such suits, the plaintiff first must show a *prima facie case*: a case strong enough to create a presumption of discrimination and to require a counterargument from the defendant. The proof needed for a prima facie case varies with the nature of the challenged employment decision (e.g., hiring or promotion), but ordinarily it gives plaintiffs few difficulties. Once the plaintiff establishes a prima facie case, the employer must produce evidence that the challenged employment decision was taken for *legitimate, nondiscriminatory reasons* or it will lose the lawsuit. To establish a prima facie case in a hiring situation, for example, the plaintiff must prove that she applied for the job and was qualified for it, that she is a member of a protected class, that she was rejected, and that the employer continued to attempt to fill the job. At that point, the employer might produce evidence that it rejected the plaintiff because she did not meet its hiring criteria or was not the best qualified applicant. If the employer produces satisfactory reasons, the plaintiff then must *show that discrimination actually occurred*. She might do so by showing that the employer’s alleged nondiscriminatory reasons were a *pretext* for a decision that really involved discrimination. For example, she might show that the employer’s alleged hiring criteria were not applied to similarly situated male job applicants. The *Becknell v. Board of Education* case, which follows later in this chapter, illustrates the process of proving discrimination in a case of disparate treatment.

Title VII’s **disparate impact** (or adverse impact) method is most often used when the alleged discrimination

⁶Employment discrimination within the federal government is beyond the scope of this text.

affects many employees. Here, the plaintiffs ordinarily maintain that the employer uses a particular employment practice that causes a *disparate impact* on the basis of race, color, religion, sex, or national origin. Often, the practice is an employer rule that is neutral on its face but has a disproportionate adverse effect on one of Title VII's protected groups—for example, a height, weight, or high school diploma requirement for hiring, or a written test for hiring or promotion. If the plaintiffs show a disparate impact, the employer loses unless it demonstrates that the challenged practice is *job-related for the position in question and consistent with business necessity*. For example, the employer might show that its promotion test really predicts effective job performance, and that effective performance in the relevant job is necessary for its operations. Even if the employer makes this demonstration, the plaintiffs have another option: to show that the employer's legitimate business needs can be advanced by an *alternative employment practice that is less discriminatory than the challenged practice*. For example, the plaintiffs might show that the employer's legitimate needs can be met by a different promotion test that has less adverse impact on the protected group. If the employer refuses to adopt this practice, the plaintiffs win.

Defenses Even if a plaintiff proves a Title VII violation, the employer still prevails if it can establish one of Title VII's defenses. The most important such defenses are:

1. Seniority. Title VII is not violated if the employer treats employees differently pursuant to a *bona fide seniority system*. To be bona fide, such a system at least must treat all employees equally on its face, not have been created for discriminatory reasons, and not operate in a discriminatory fashion.

2. The various “merit” defenses. An employer also escapes Title VII liability if it acts pursuant to a *bona fide merit system*, a system basing earnings on *quantity or quality of production*, or the results of a *professionally developed ability test*. Presumably, such systems and tests at least must meet the general standards for seniority systems stated above. Also, the EEOC has promulgated lengthy *Uniform Guidelines on Employee Selection Procedures* that speak to these and other matters.

3. The BFOQ Defense. Finally, Title VII allows employers to discriminate on the bases of sex, religion, or national origin where one of those traits is a *bona fide occupational qualification (BFOQ) that is reasonably necessary to the business in question*. The BFOQ defense is applied to cases of disparate treatment, whereas the business necessity defense, which was discussed earlier, applies in disparate impact cases. The BFOQ defense does not protect race or color discrimination. As the *Becknell* case makes clear, moreover, the defense is a narrow one even where it applies. Generally, it is available only where a certain gender, religion, or national origin is necessary for effective job performance. For example, a BFOQ probably would exist where a female is employed to model women's clothing or to fit women's undergarments. But the BFOQ defense usually is unavailable where the discrimination is based on stereotypes (e.g., that women are less aggressive than men) or on the preferences of co-workers or customers (e.g., the preference of airline travelers for female rather than male flight attendants). The defense also is unavailable where the employer's discriminatory practice promotes goals, such as fetal protection, that do not concern effective job performance.

The following *Becknell* case provides a good example of BFOQ analysis.

Becknell v. Board of Education 2008 U.S. Dist. LEXIS 35075 (U.S. Dist. Ct. E.D. Ky. 2008)

Rhonda Becknell was a teacher at Owsley County Elementary School. Teresa Barrett was the principal of the Owsley County High School. In November 2005, Becknell applied for the vacant position of assistant principal at the high school. There were at least two other applicants: elementary school art teacher, Chad Mason, and high school agriculture teacher, Alan Dale Taylor.

The school's decision-making council, which included Barrett and five other members, met on December 13, 2005, to consider the applications. They decided to leave the choice up to Barrett. Barrett asserted that she had several concerns about Becknell, such as the principal of the elementary school having told Barrett that Becknell was unreliable. Council member Tina Cornwell testified that Barrett also stated at the council meeting, “I'd rather have a man than a woman because of disciplinary issues. When a male student gets in trouble, you know, a male teacher will have to be called out to be a

witness or to help with the situation.” Cornwell further testified that when she asked Barrett why she did not want to hire Becknell, Barrett stated, “I really prefer a male.” Council member Kimberly Campbell testified that the council discussed the fact that the assistant principal would discipline students and that “with Mrs. Barrett being female, it would be helpful to have a male to discipline more with the male students and the female with the female students.” Council member James Green testified that, when Barrett was discussing her preferences for the assistant principal position, she commented, “I really need a man.” Barrett denies making these statements.

Barrett ultimately hired Mason, who is a male, for the position. Barrett had previously worked with Mason and was impressed with the way he handled disciplinary issues and other matters. During her interview of Mason, Barrett learned that he had not taken the tests necessary to obtain his principalship certification. However, he had taken all of the required classes to be assistant principal and he received his certification after having been hired by Barrett, and the school district had previously hired individuals on alternative or temporary certifications. Becknell, however, was already certified to serve as an assistant principal at the time that Barrett hired Mason.

Becknell sued the Board of Education of Owsley County, the superintendent of schools, and Barrett (“the defendants”), alleging sex discrimination in violation of Title VII and a violation of the Kentucky Civil Rights Act. The defendants filed a motion for summary judgment.

Caldwell, United States District Judge

Direct Evidence of Discrimination

The plaintiff can prove her claims through either direct evidence of discrimination, or through the *McDonnell Douglas* burden-shifting analysis. Under *McDonnell Douglas*—the circumstantial evidence approach—the plaintiff bears the initial burden of establishing a prima facie case of discrimination. To establish a prima facie case, the plaintiff must show that (1) she is a member of a protected class; (2) that she was qualified for the job; (3) that she suffered an adverse employment decision; and (4) that the job was given to a person outside the protected class. Establishment of the prima facie case creates a presumption that the employer unlawfully discriminated against the employee. Once a plaintiff proves her prima facie case, the burden shifts to the employer to articulate some legitimate, nondiscriminatory reason for the adverse employment action. If the defendant meets its burden, the burden shifts back to the plaintiff to show that the reason proffered by the defendant was not its true reason but merely a pretext for discrimination. A plaintiff can show pretext either directly by persuading the trier of fact that a discriminatory reason more likely motivated the employer or indirectly by showing that the employer’s proffered explanation is unworthy of credence. The trier of fact simply proceeds to decide the ultimate question: whether the plaintiff has proved that the defendant intentionally discriminated against him. The *McDonnell Douglas* framework applies only when the plaintiff can produce only circumstantial evidence of discrimination. If a plaintiff can produce direct evidence of discrimination then the [*McDonnell Douglas*] paradigm is of no consequence. Where a plaintiff presents direct evidence of discriminatory intent in connection with a challenged employment action, the burden of both production and persuasion shifts to the employer to prove that it would have terminated the

employee even if it had not been motivated by impermissible discrimination.

Direct evidence is evidence that proves the existence of a fact without any inferences. Direct evidence of discrimination is that evidence, which, if believed, requires the conclusion that unlawful discrimination was at least a motivating factor in the employer’s action. For example, a facially discriminatory employment policy or a corporate decision maker’s express statement of a desire to remove employees in the protected group is direct evidence of discriminatory intent. However, isolated and ambiguous statements are too abstract to support a finding of discrimination. Barrett’s alleged statements that she preferred to hire a male and really needed a man in the position of assistant principal is evidence which, if believed, requires the conclusion that discrimination was at least a motivating factor in her decision to hire Mason instead of Becknell. Thus, summary judgment on the issue of whether the defendants discriminated against Becknell is inappropriate.

Furthermore, even if Barrett’s alleged statements regarding her preference for hiring a male were not regarded as direct evidence of discrimination, the defendants would nonetheless not be entitled to summary judgment under the *McDonnell Douglas* framework. Becknell has established a prima facie case of discrimination. The defendants have countered with a legitimate, nondiscriminatory reason for hiring Mason instead of Becknell, i.e., Becknell’s alleged poor performance as assistant principal at the elementary school. Nevertheless, Becknell has responded with sufficient evidence of pretext to submit to a jury the issue of whether the defendants were motivated by a discriminatory purpose when they hired Mason instead of Becknell. This evidence includes Barrett’s alleged statements regarding her preference for hiring a male and a letter written by the principal at the elementary school which positively evaluates Becknell’s performance as assistant principal, stating, among other things,

that “[a]ny task I have asked [Becknell] to do, she has completed the task with great precision and timeliness.”

The Bona Fide Occupational Qualification Exception

The defendants argue that, even if gender motivated their decision to hire Mason instead of Becknell, their actions fall under the “bona fide occupational qualification,” or BFOQ, exception to Title VII’s prohibition against discrimination on the basis of sex found at 42 U.S.C. § 2000e-2(e). That provision permits gender-based discrimination “in those certain instances where . . . sex . . . is a bona fide occupational qualification reasonably necessary to the normal operation of that particular business or enterprise.” [T]he BFOQ defense is written narrowly, and is to be read narrowly. In order to qualify for the defense, the defendants must establish (1) a basis in fact for its belief that gender discrimination is reasonably necessary—not merely reasonable or convenient—to the normal operation of its business. The employer can meet this requirement by showing that (a) all or substantially all members of one gender would be unable to perform safely and efficiently the duties of the job involved; (b) that it is impossible or highly impractical to determine on an individualized basis the fitness for employment of members of one gender; or (c) that the very womanhood or very manhood of the employee undermines his capacity to perform a job satisfactorily.

Second, the employer must establish that the gender qualification “relate[s] to the essence, or to the central mission of the employer’s business.” Third, the employer must establish that no reasonable alternatives exist to discrimination on the basis of sex. The defendants argue that it is “reasonably necessary” to the normal operation of the high school to hire only males for the assistant principal position. They argue that this is because the policies of the Owsley County School system require that a male at least be present when male students are being disciplined. It is not clear from the defendants’ pleadings whether a male must also actually administer the discipline. The defendants state that, pursuant to the High School policy, administrators do all disciplining of students and that this is one of the “largest roles of administrators” at the school. They further argue that, if the assistant principal is not a male, then a male teacher would have to be called away from his teaching duties every time a male student had to be disciplined.

Based on the record before it, however, the Court cannot find as a matter of law that it is reasonably necessary to hire

only males for the High School assistant principal position. The defendants assert that the Owsley County Board of Education requires that a male be present when male students are disciplined and they cite to Tina Cornwell’s deposition as evidence of this policy. Cornwell testified that she “guessed” that two females couldn’t discipline a male student in cases of corporal punishment. Chad Mason, the newly hired assistant principal, testified that a male must paddle male students and that a male witness must be present when that occurs. He testified that he is the person at the high school who paddles male students. He testified that this occurs “maybe once a month, once every three weeks. Maybe not . . . not very often.” This does not establish as a matter of law that it is reasonably necessary that only males fill the position of assistant principal at the High School. Nor does this establish that the hiring of only males for the assistant principal position relates to the essence, or to the central mission of the employer’s business. It appears that the only form of punishment implicated is paddling and it further appears that paddling is not done frequently.

Finally, the defendants have not established that there is no reasonable alternative to hiring only males for the position. Mason testified that, when he paddles male students, he generally asks both a police officer and a male teacher to be present. Thus, it appears that two males other than the assistant principal are generally available to both administer and witness the paddling of male students. Furthermore, the assistant principal position was vacant for nearly two years before Mason was hired. During that time period, the school must have had some alternative means of paddling male students that did not require a male assistant principal.

Further, neither the advertisement placed by the defendants in the local paper for the position nor the job posting on the Kentucky Department of Education website indicated that only males would be considered for the position. It is clear that, going into their December 13, 2005, meeting, at least some of the other members of the council did not believe that being male was a requirement for the position. At that meeting, some of the council members suggested Becknell for the position. Accordingly, based on the record before it, the Court cannot find that being male is a bona fide occupational qualification for the assistant principal position that is reasonably necessary to the normal operation of the High School.

Motion for summary judgment denied in favor of Becknell.

Remedies Various remedies are possible once private plaintiffs or the EEOC wins a Title VII suit. If intentional discrimination has caused lost wages, employees can obtain **back pay** accruing from a date two years before the

filing of the charge. At the court’s discretion, successful private plaintiffs also may recover reasonable **attorney’s fees**. In addition, victims of intentional discrimination can recover **compensatory damages** for harms such as

emotional distress, sickness, loss of reputation, or denial of credit. Victims of intentional discrimination also can recover **punitive damages** where the defendant discriminated with malice or with reckless indifference to the plaintiff's rights. However, the sum of the plaintiff's compensatory and punitive damages cannot exceed certain amounts that vary with the size of the employer. For example, they cannot total more than \$300,000 for an employer with more than 500 employees.

Discrimination may also entitle successful plaintiffs to **equitable relief**. Examples include orders compelling hiring, reinstatement, or retroactive seniority. On occasion, moreover, the courts have ordered quotalike preferences in Title VII cases involving race and (occasionally) gender discrimination. For example, a court might order that whites and minorities be hired on a 50–50 basis until minority representation in the employer's work force reaches some specified percentage. Generally speaking, such orders are permissible if (1) an employer has engaged in severe, widespread, or long-standing discrimination; (2) the order does not unduly restrict the employment interests of white people; and (3) it does not force an employer to hire unqualified workers. Minority preferences also may appear in the **consent decrees** courts issue when approving the terms on which the parties have settled a Title VII case.⁷

Race or Color Discrimination At this point, we consider each of Title VII's prohibited bases of discrimination in more detail. *Race or color* discrimination includes discrimination against blacks, other racial minorities, Eskimos, and American Indians, among others. Title VII also prohibits racial discrimination against whites. Nonetheless, voluntary racial preferences that favor minorities who are qualified for the job in question survive a Title VII attack if they (1) are intended to correct a racial imbalance involving underrepresentation of minorities in traditionally segregated job categories, (2) do not "unnecessarily trammel" the rights of white employees or create an absolute bar to their advancement, and (3) are only temporary. Note that here our concern is not the use of minority preferences as a *remedy* for a Title VII violation, but whether such preferences *themselves* violate Title VII when voluntarily established by an employer.

⁷As discussed in Chapter 3, the Supreme Court has held that federal government racial discrimination against whites gets the same full strict scrutiny as racial discrimination against blacks and other racial minorities. It remains to be seen whether this change will affect the courts' ability to order remedial minority preferences or to approve such preferences when they appear in consent decrees.

National Origin Discrimination National origin discrimination includes discrimination based on (1) the country of one's or one's ancestors' origin; or (2) one's possession of physical, cultural, or linguistic characteristics identified with people of a particular nation. Thus, plaintiffs in national origin discrimination cases need not have been born in the country at issue. In fact, if the discrimination is based on physical, cultural, or linguistic traits identified with a particular nation, even the plaintiff's ancestors need not have been born there. Thus, a person of pure French ancestry may have a Title VII case if she suffers discrimination because she looks like, acts like, or talks like a German.

Certain formally neutral employment practices can also constitute national origin discrimination. Employers who hire only U.S. citizens may violate Title VII if their policy has the purpose or effect of discriminating against one or more national origin groups. This could happen where the employer is located in an area where aliens of a particular nationality are heavily concentrated. Also, employment criteria such as height, weight, and fluency in English may violate Title VII if they have a disparate impact on a national origin group and are not job-related.

Religious Discrimination For Title VII purposes, the term *religion* is broadly defined. Although all courts may not agree, the EEOC says that it includes any set of moral beliefs that are sincerely held with the same strength as traditional religious views. In fact, Title VII forbids religious discrimination against atheists. It also forbids discrimination based on religious *observances or practices*—for example, grooming, clothing, or the refusal to work on the Sabbath. But such discrimination is permissible if an employer cannot reasonably accommodate the religious practice without suffering undue hardship. Undue hardship exists when the accommodation imposes more than a minimal burden on an employer.

Sex Discrimination Title VII's ban on sex discrimination aims at *gender-based* discrimination and does not forbid discrimination on the basis of homosexuality or transsexuality.⁸ Just as clearly, it applies to gender discrimination against both men and women. Still, voluntary employer programs favoring women in hiring

⁸However, a number of state and municipal fair employment practices laws forbid discrimination on the basis of sexual orientation. For a list of these states and municipalities, see Lambda Legal, <http://lambdalegal.org/our-work/states> (providing a summary of state laws that forbid discrimination on the basis of sexual orientation).

or promotion survive a Title VII attack if they meet the previous tests for voluntary racial preferences (reformulated in terms of gender). Title VII also forbids discrimination on the bases of pregnancy and childbirth, and requires employers to treat these conditions like any other condition similarly affecting working ability in their sick leave programs, medical benefit and disability plans, and so forth. Finally, sexual stereotyping violates Title VII. This is employer behavior that either (1) denies a woman employment opportunities by assuming that she must have traditionally “female” traits (e.g., unaggressiveness), or (2) penalizes her for lacking such traits (e.g., for acting aggressively).

Sexual Harassment Unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature by supervisors, co-workers, or even nonemployees such as customers can violate Title VII. There are two basic forms of sexual harassment. The first, called *quid pro quo* sexual harassment, involves some express or implied linkage between an employee’s submission to sexually oriented behavior and tangible job consequences. *Quid pro quo* cases usually arise when, due to an employee’s refusal to submit, she suffers a *tangible job detriment* of an economic nature. *Quid pro quo* harassment is committed only by supervisory employees, because only supervisors have the power over hiring and firing. For example, suppose that a supervisor fires a secretary because she refuses to have sexual relations with him or refuses to go out on a date with him. Such conduct would violate Title VII whether or not the supervisor expressly told the secretary that she would be fired for refusing to submit. Title VII is also violated if a supervisor denies a subordinate a deserved promotion or other job benefit for refusing to submit.

The second form of harassment, called *hostile environment harassment*, occurs when an employee is subjected to unwelcome, sex-related behavior that is sufficiently severe or pervasive to change the conditions of the victim’s employment and create an abusive working environment. Hostile environment sexual harassment can be inflicted by both supervisors and co-workers. Because such behavior must be *unwelcome*, however, an employee may have trouble recovering if she instigated or contributed to the sex-related behavior. Also, the offending behavior must be sufficiently *severe or pervasive* to create an environment that a *reasonable victim* would find hostile or abusive.

The reach of Title VII sexual harassment law continues to expand. Courts have long held that men can recover for sexual harassment by women. The U.S. Supreme Court, in

Oncale v. Sundowner,⁹ confirmed that Title VII allows recovery when the harasser(s) and the harassee are of the same gender. Some courts have granted Title VII recoveries for “sexual favoritism”—discrimination in favor of employees who submit to sexual harassment, benefit from a sexual relationship with a superior, or trade sex for personal advancement. Finally, Title VII also forbids workplace harassment based on race, color, national origin, and religion.

Employer Liability for Sexual Harassment Committed by Its Employees Beyond the question of what is sexual harassment is the question whether a company will be held liable for sexual harassment committed by one of its employees. Is a company liable for sexual harassment committed by one of its employees against another one even if the harassment was not reported or otherwise known? The answer to that depends on whether the harasser was a coemployee or a supervisor of the victim, whether the victim suffered a tangible job detriment, and whether the company had sexual harassment policies, training, and grievance procedures. Generally, an employer will be liable for harassment by a *co-worker* of the victim only when the employer knew or should have known about the harassment.

Two 1998 Supreme Court cases¹⁰ created a framework for deciding employer liability in cases of harassment by a *supervisor*. This framework distinguishes between situations in which sexual harassment by a supervisor ends in some tangible employment action, such as firing or demoting the employee, and those in which the victim suffers no tangible job consequence. When a supervisor with immediate or higher authority over the employee commits sexual harassment, the company is subject to vicarious liability. When no tangible employment action is taken, however, the employer may raise an affirmative defense to liability or damages. To prevail under this defense, the company, the employer must prove (1) that the employer exercised reasonable care to prevent and correct promptly any sexually harassing behavior, and (2) that the plaintiff unreasonably failed to take advantage of any preventive or corrective opportunities provided by the employer or to otherwise avoid harm. This framework is discussed in the following *Keeton v. Flying J* case.

⁹523 U.S. 75 (U.S. S. Ct. 1975).

¹⁰*Burlington Industries v. Ellerth*, 524 U.S. 742 (U.S. S. Ct. 1998), and *Faragher v. Boca Raton*, 524 U.S. 775 (U.S. S. Ct. 1998).

Keeton v. Flying J, Inc.

429 F.3d 259 (6th Cir. 2005)

Flying J operates travel plazas that cater to interstate plazas. Each plaza has a restaurant. Kyle Keeton applied to be an assistant restaurant manager at a Flying J plaza. On his employment application, he indicated a willingness to relocate to other Flying J plazas because he believed relocation would increase his chances for advancement. He lived in Georgia when Flying J hired him, but he agreed to relocate to Tennessee for training. After he completed his training in June of 2001, Flying J assigned Keeton to work as an associate manager at the Walton, Kentucky, plaza. Flying J orally committed to keep Keeton at the Walton store for five years. Judy Harrell was the general manager and his immediate supervisor.

In September, Harrell began making several sexual advances toward Keeton, which he rejected. Even though Keeton was not scheduled to work on December 4, 2001, Harrell called him at home and asked him to come to the restaurant so that she could speak to him in person. When Keeton arrived at the restaurant, Harrell told him that he was fired, explaining, “you’re not supporting me.” Prior to this meeting, Harrell had never disciplined Keeton formally or informally, had not criticized him at all during management meetings, and Keeton had no warning that his job was in jeopardy. After the meeting, an assistant manager escorted Keeton from the building.

Keeton returned home and phoned Jamal Abdalla, who had been the manager of the district encompassing Walton when Keeton was hired, but had changed jobs to be the district manager of another district that included Cannonsburg, a town 120 miles away from Walton. Keeton told Abdalla about the termination and that he thought it resulted from sexual harassment. Abdalla called Keeton back about one and a half hours later and told him that he could maintain his position as associate manager if he transferred to Cannonsburg. Later that same day, his termination was formally changed to a two-week suspension, then a one-week suspension, then “to however fast [Keeton] could get over to Cannonsburg.” Abdalla told him that he was being “reinstated.” It took Keeton one week to move to Cannonsburg, and he was paid for that week. Keeton maintained the same title, responsibilities, salary, and benefits in Cannonsburg that he had in Walton. Keeton’s wife could not move with him to Cannonsburg because of a debilitating back problem that resulted in serious surgery. While he was working in Cannonsburg, Keeton maintained two residences—one for himself and one for his wife. Keeton worked at the Cannonsburg Flying J restaurant until mid-January, when he left for a position with another restaurant chain. Keeton sued Flying J for sexual harassment, retaliation, and constructive discharge in violation of Title VII. At trial, the jury found Flying J liable for supervisory sexual harassment resulting in a tangible employment action and it awarded Keeton \$15,000 in compensatory damages for emotional suffering. Flying J appealed.

Guy, Circuit Judge

An employer’s liability for supervisory sexual harassment depends on the consequences of the supervisor’s actions. If proven sexual harassment by the supervisor did not result in a tangible employment action, then the employer may not be liable if it engaged in preventative or corrective measures and the plaintiff unreasonably failed to utilize the measures the employer provided. *Burlington Industries, Inc. v. Ellerth* (U.S. Sup. Ct. 1998). If the sexual harassment did result in a tangible employment action, the employer will be strictly liable for the supervisor’s sexual harassment. When a plaintiff proves that a tangible employment action resulted from a refusal to submit to a supervisor’s sexual demands, he or she establishes that the employment decision itself constitutes a change in the terms and conditions of employment that is actionable under Title VII. The *Ellerth* court defined a tangible employment action as “a significant change in employment status, such as hiring, firing, failing to promote, reassignment with significantly different responsibilities, or a decision causing a significant change in benefits.” Accordingly, we have stated that an employment action must be materially adverse for an employer to be strictly

liable for sexual harassment. Flying J argues on appeal that the termination was not a tangible employment action because it was too temporary, and that the transfer was not a tangible employment action because it was lateral.

A. The Termination

We have decided that when an employer imposes an employment action that would be an adverse employment action but then quickly reverses the action, the employee has not suffered an adverse employment action. In *Bowman v. Shawnee State University*, we determined that a temporary removal of responsibilities was not an adverse action. There, the plaintiff had been an instructor and the Coordinator of Sports Studies at a university, and he alleged that his supervisor, a woman, sexually harassed him, ultimately resulting in her removing him as Coordinator. Ten days later, he was restored to his previous position and the termination letter was removed from his file. We held that “even if we assume that the loss of the Coordinator position constitutes a significant change in employment status, there is no tangible employment action in this case because the very temporary nature of the employment action in question

makes it a non-materially adverse employment action.” Other courts have also held that when an otherwise adverse employment action is rescinded before the employee suffers a tangible harm, the employee has not suffered an adverse employment action. Therefore, the only reasonable conclusion the jury could have reached in this case is that Keeton’s termination lasting only hours was not a tangible employment action.

B. The Transfer

Flying J maintains that a transfer without a change in status, benefits, or salary is not a tangible employment action. We have held that reassignments without salary or work hour changes do not ordinarily constitute adverse employment decisions in employment discrimination claims. In *Kocsis [v. Multi-Care Mgmt. Inc.]*, a nursing supervisor was reassigned as a unit nurse. There was no evidence that the new position held less prestige, earned a lower salary, demanded worse hours, or entitled her to any difference in employment related benefits of any kind. Therefore, we concluded that the reassignment was not an adverse action. In *White [v. Burlington N. & Santa Fe. Ry. Co.]*, a female railroad employee sued her employer for sex discrimination. After she had complained about sexual harassment committed by her immediate supervisor, she was removed from her forklift position and reassigned to a track laborer position. Her pay and benefits were the same, but the job was dirtier, more labor intensive, more difficult, required fewer qualifications, and was considered a worse job by the other employees. We concluded that even though there was no loss in salary or benefits, the factors listed above were unique to the plaintiff’s situation and rendered the transfer a demotion.

In this case, Keeton’s responsibilities in Cannonsburg were not different from his responsibilities in Walton. The only difference between the two positions was location, and Keeton did not present any evidence that Cannonsburg was objectively a

worse location than Walton. Cannonsburg was, however, a substantial distance from Walton. Flying J correctly points out that *Kocsis* and *White* focus on the differences in job duties and not other impacts on the employee. We have not precluded consideration of such factors as commuting distance or relocation, however. Flying J maintains that a dislike of a long commute or relocation is an example of the subjective desirability of a position to the employee and we therefore should disregard Keeton’s dislike of his new location. If dislike of increased commute or relocation for a new position merely represents the subjective taste of the employee, then we would not have expressly stated that increased distance is a relevant consideration. In *Akers v. Alvey*, a state employee who complained about sexual harassment was transferred to a different county’s office. We decided that the transfer was not an adverse employment action because there was no significant change in her pay or duties and the transfer actually reduced Aker’s roundtrip commute from her home by 60 miles per day. While this jury found that Keeton was not constructively discharged, it could reasonably have found that Keeton’s transfer, which increased his commute to the extent that he needed to consider relocation, was an adverse employment action.

Flying J also argues that the transfer could not have been an adverse employment action [because] Keeton had agreed to relocate on his employment application. Keeton’s employment application does not negate the transfer’s impact on Keeton because when he agreed to be transferred, he did so with the understanding that a transfer would be for advancement within the company and not as a result of unlawful sexual harassment. Having determined that the jury could have reasonably concluded that Keeton suffered an adverse employment action, we affirm.

Affirmed in favor of Keeton.

Section 1981 Where it applies, a post–Civil War civil rights statute called Section 1981 sets employment discrimination standards resembling those of Title VII. Section 1981 forbids public and private employment discrimination against blacks, people of certain racially characterized national origins such as Mexicans, and ethnic groups such as gypsies and Jews. Included within such discrimination are most of the ways that an employer might disadvantage an employee. A recent Supreme Court case held that 1981 also prohibits retaliation against employees who complain about racial discrimination.¹¹

Section 1981 is important because it gives covered plaintiffs certain advantages that Title VII does not

provide. Although courts often use Title VII’s methods of proof in Section 1981 cases, Title VII’s limitations on covered employers and its complex procedural requirements do not apply. Also, damages are apt to be greater under Section 1981; in particular, Title VII’s limits on compensatory and punitive damages are inapplicable. For these reasons, covered plaintiffs often include a Section 1981 claim along with a Title VII claim in their complaint.

The Age Discrimination in Employment Act The 1967 Age Discrimination in Employment Act (ADEA) prohibits age-based employment discrimination against employees who are *at least 40 years of age*. In

¹¹*CBOCS West, Inc. v. Humphries*, 128 S. Ct. 1951 (U.S. Sup. Ct. 2008).

General Dynamics Land Systems v. Cline,¹² a recent U.S. Supreme Court case, the Court decided that it is not a violation of the ADEA for an employer to favor older employees over younger employees, even if the younger employees are in the 40-and-over age range. You can read the Court's opinion in *Cline* in Chapter 1.

Coverage The ADEA covers individuals, partnerships, labor organizations and employment agencies (as to their employees), and corporations that (1) engage in an industry affecting interstate commerce, and (2) employ at least 20 persons. The act no longer regulates state and local governments.¹³ Referrals by an employment agency to a covered employer are within the ADEA's scope regardless of the agency's size. In addition, the ADEA reaches labor union practices affecting *union members*; usually, unions with 25 or more members are covered. The ADEA protects against age discrimination in many employment contexts, including hiring, firing, pay, job assignment, and fringe benefits.

Procedural Requirements The complex procedural requirements for an ADEA suit are beyond the scope of this text. Before she can sue in her own right, a private plaintiff must file a charge with the EEOC or with an appropriate state agency. The EEOC also may sue to enforce the ADEA; such a suit precludes private suits arising from the same alleged violation. For both government and private suits, the statute of limitations is three years from the date of an alleged *willful* violation and two years from the date of an alleged *nonwillful* violation.

Proof Proving age discrimination is no problem where an employer uses an express age criterion, and may be easy where there is direct evidence of discrimination such as testimony or incriminating documents. The U.S. Supreme Court recently decided that the ADEA permits plaintiffs to prove discrimination through the disparate impact theory, just as Title VII does.¹⁴

Defenses The ADEA allows employers to discharge or otherwise discipline an employee for *good cause*, and to use *reasonable factors other than age*¹⁵ in their

employment decisions. It also allows employers to observe the terms of a *bona fide seniority system*. In addition, the ADEA has a *bona fide occupational qualification* (BFOQ) defense. As a very general statement, an employer seeking to use this defense must show that its age classification is reasonably necessary to the proper performance—usually the safe performance—of the job in question. For example, an employer that refuses to hire anyone over 60 as a helicopter pilot should have a BFOQ defense if it has a reasonable basis for concluding that 60-and-over helicopter pilots pose significant safety risks, or that it is not feasible to test older pilots individually.

Remedies Remedies available after a successful ADEA suit include unpaid back wages and overtime pay resulting from the discrimination; an additional equal award of liquidated damages where the employer acted willfully; attorney's fees; and equitable relief, including hiring, reinstatement, and promotion. Most courts do not allow punitive damages and recoveries for pain, suffering, mental distress, and so forth.

The Americans with Disabilities Act

The Americans with Disabilities Act (the ADA) prohibits discrimination against people who have disabilities. Before the 1990s, federal regulation of employment discrimination against people with disabilities mainly was limited to certain federal contractors and recipients of federal financial assistance. By passing Title I of the ADA, however, Congress addressed this problem comprehensively. This portion of the ADA is primarily enforced by the EEOC, and its procedures and remedies are the same as for Title VII.

Covered Entities Title I covers employers who have 15 or more employees and who are engaged in an industry affecting interstate commerce. Employers include individuals, partnerships, corporations, colleges and universities, labor unions and employment agencies (regarding their own employees), and state and local governments. The act also covers certain labor unions in their capacity as employee representative, as well as employment agencies' discrimination against their clients.

Substantive Protections The ADA forbids covered entities from discriminating against *qualified individuals with a disability* because of that disability. It covers disability-related discrimination regarding hiring, firing, promotion, pay, and innumerable other employment decisions. The ADA protects both individuals who can perform their job despite their disability, and individuals

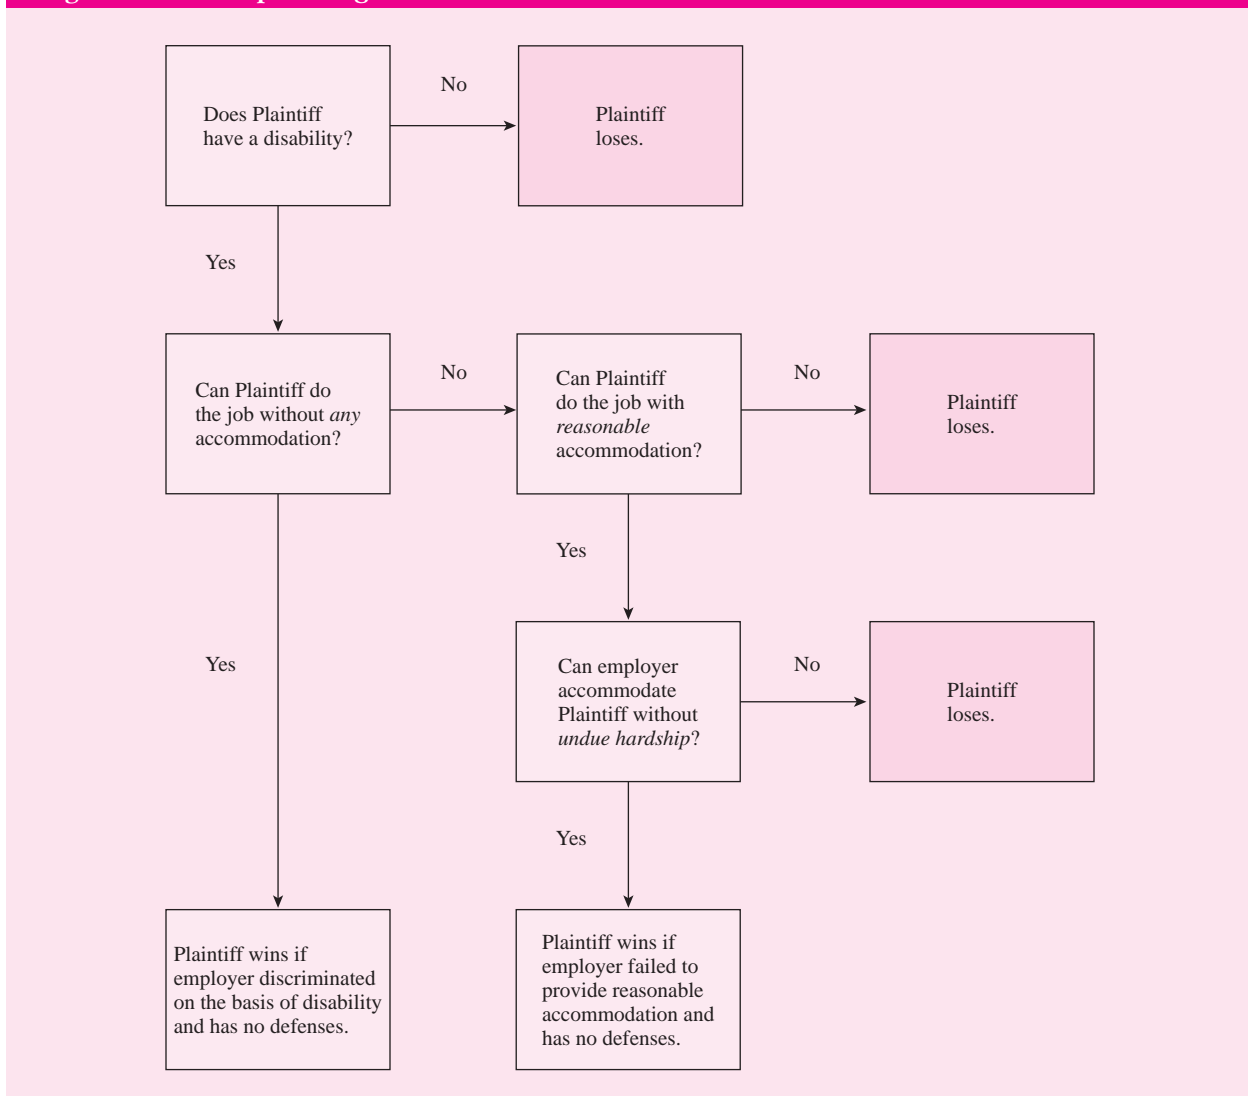

¹²540 U.S. 581 (U.S. S. Ct. 2004).

¹³Age discrimination in the federal government is beyond the scope of this text.

¹⁴*Smith v. City of Jackson*, 125 S. Ct. 1536 (U.S. S. Ct. 2005).

¹⁵According to a recent U.S. Supreme Court ruling, the employer who seeks to use the "reasonable factors other than age" defense in a disparate impact claim under the ADEA bears the burden of production and the burden of persuasion that its action was done for reasonable factors other than age. *Meacham v. Knolls Atomic Power Laboratory*, 128 S. Ct. 2395 (U.S. Sup. Ct. 2008).

Figure 2 A Map through the ADA

who could perform their job if reasonable accommodation is provided. In the later case, employers illegally discriminate if they do not provide such accommodation. *Reasonable accommodation* includes: making existing facilities readily accessible and usable, acquiring new equipment, restructuring jobs, modifying work schedules, and reassigning workers to vacant positions, among other options. Figure 2 displays the reasoning used in an ADA case.

However, employers need not make reasonable accommodation where such accommodation would cause them to suffer *undue hardship*. Undue hardship is an act

requiring significant difficulty or expense. Among the factors used to determine its existence are the cost of accommodation, the covered entity's overall financial resources, and the accommodation's effect on the covered entity's activities. The ADA also protects employers whose allegedly discriminatory decisions are based on *job-related criteria* and *business necessity*, so long as proper job performance cannot be accomplished by reasonable accommodation.

What Is a Disability? The ADA defines a *disability* as (1) a physical or mental impairment that substantially

limits one or more major life activities, or (2) a record of such an impairment, or (3) one's being regarded as having such an impairment. (The last two categories protect those who have previously been misdiagnosed or who have recovered from earlier impairments.) Not protected, however, are those who suffer discrimination for currently engaging in the illegal use of drugs.

In the recent past, the U.S. Supreme court decided several cases interpreting the ADA's definition of disability in a way that narrowed the concept of disability. In *Sutton v. United Airlines*, a 1999 case, the Court decided that corrective measures must be taken into account in determining whether an impairment is a disability. There, severely nearsighted twin sisters whose vision was 20/20 with corrective lenses had been denied jobs as airline pilots because their corrected vision was worse than the airline's minimum vision requirement. The Court decided that their vision was not a disability within the meaning of the ADA. In the 2002 case of *Toyota Manufacturing Co. v. Williams*, the Court decided that for a physical impairment to constitute a disability, the life activity that it substantially limits must be one that is "central to daily life" as opposed to an activity that is used in a particular job.

The Americans with Disability Amendments Act of 2008 The reaction of Congress to the *Sutton* and *Toyota* decisions was that the Supreme Court had interpreted the definition of disability too narrowly, eliminating protections for people who Congress had intended to protect with the ADA. Congress's response was to enact the ADA Amendments Act of 2008, which clarifies the standards for determining disability. The amendments express Congress's intent that the ADA should be "construed in favor of broad coverage" and that "the question of whether an individual's impairment is a disability under the ADA should not demand extensive analysis."

The ADA amendments preserve the same broad language of the 1990 ADA that a disability is a physical or mental impairment that limits one or more major life activities or having a record of such an impairment or being regarded as having such an impairment. The amendments specify, however, that *major life activities* include (but are not limited to) tasks such as caring for oneself, performing manual tasks, seeing, hearing, eating, sleeping, walking, standing, lifting, bending, speaking, breathing, learning, reading, concentrating, thinking, communicating, and working. They also include the operation of major bodily functions, such as (but not limited to) the operation of the immune system, normal cell growth, digestive, bowel,

bladder, neurological, brain, respiratory, circulatory, endocrine, and reproductive functions.

As a response to the *Sutton* case, the amendments specifically state that the determination of whether an impairment limits a major life activity is to be made without regard to ameliorative effects of measures that people use to cope with their mental and physical conditions, such as medication, equipment, hearing aids, prosthetic limbs, mobility devices, and oxygen therapy. The ameliorative effect of ordinary eyeglasses and contact lenses can be considered in determining whether an impairment substantially limits a major life activity. However, an employer or other covered entity cannot use qualification standards, employment tests, or other selection criteria based on an individual's uncorrected vision unless the requirement is job related and consistent with business necessity.

As a response to the *Toyota* case, the amendments state that an impairment that substantially limits one major life activity need not limit other major life activities in order to be considered a disability. Furthermore, an impairment that is episodic or in remission is a disability if it would substantially limit a major life activity when active.

The ADA Amendment Act also states that a person meets the standard of "being regarded as having such an impairment" if he has been discriminated against because of an actual or perceived physical or mental impairment, whether or not the impairment limits or is perceived to limit a major life activity. A person is not "regarded as having such an impairment," however, if the impairment that he is perceived to have is one that is transitory or minor.

Executive Order 11246 Executive Order 11246, issued in 1965 and later amended, forbids race, color, national origin, religion, and sex discrimination by certain federal contractors. The order is enforced by the Labor Department's Office of Federal Contract Compliance Programs (OFCCP). In the past, OFCCP enforcement has included affirmative action requirements and occasionally quotalike preferences benefiting racial minorities.

State Antidiscrimination Laws Most states have statutes that parallel Title VII, the EPA, the ADEA, and the ADA. These statutes sometimes provide more extensive protection than their federal counterparts. In addition, some states prohibit forms of discrimination not barred by federal law. Examples include discrimination

Ethics in Action

Bookworks, Inc., requires employees to sign an agreement that they will settle any dispute or claim concerning employment through binding arbitration. Catherine, a Bookworks employee, alleged that her supervisor fired her for refusing to go on a date with him. She wants to file a sexual harassment case under Title

VII against Bookworks, and Bookworks asserts that this is a claim that must be arbitrated rather than adjudicated in court. What are the ethical considerations involved in mandatory arbitration agreements that require employees to arbitrate discrimination and other employment-related claims?

on the bases of one's marital status, physical appearance, sexual orientation, political affiliation, and off-the-job smoking.

Finally, some states and localities have adopted laws that adopt the employment discrimination theory called **comparable worth**. These laws, which typically apply only to public employees, often say that state governments should not discriminate in pay between female-dominated jobs and male-dominated jobs of comparable overall worth to the employer. The worth of different jobs may be determined by giving each job a point rating under factors such as skill, responsibility, effort, and working conditions; adding the ratings; and comparing the totals. It was once believed that comparable worth

claims might find favor under Title VII, but that possibility has receded over the years.

Employee Privacy

The term employee privacy describes several employment issues that have assumed increasing importance recently. Uniting these issues is a concern with protecting employees' personal dignity and increasing their freedom from intrusions, surveillance, and the revelation of personal matters.

Polygraph Testing Over the years, employers have made increasing use of polygraph and other lie

CONCEPT REVIEW

The Employment Discrimination Laws Compared

| | Protected Traits | Covered Employer Decisions | Need to File Charge in Private Suit? |
|---|--|----------------------------|--------------------------------------|
| Equal Pay Act | Sex only | Pay only | No |
| Title VII | Race, color, national origin, religion, sex | Wide range | Yes |
| Section 1981 | Race, racially characterized national origin, perhaps alienage | Wide range | No |
| Age Discrimination in Employment Act | Age, if victim 40 or over | Wide range | Yes |
| Americans with Disabilities Act | Existence of disability, if person qualified to perform job with or without reasonable accommodation | Wide range | Yes |
| Executive Order 11246 | Race, color, religion, national origin, sex | Wide range | Not applicable; enforced by OFCCP |

detector tests—most often, to screen job applicants and to investigate employee thefts. This has led to concerns about the accuracy of such tests; the personal questions examiners sometimes ask; and the tests' impact on workers' job prospects, job security, and personal privacy. Besides provoking state restrictions on polygraph testing, such worries led Congress to pass the Employee Polygraph Protection Act in 1988.

The Employee Polygraph Protection Act mainly regulates lie detector tests, which include polygraph tests and certain other devices for assessing a person's honesty. Under the act, employers may not (1) require, suggest, request, or cause employees or prospective employees to take any lie detector test; (2) use, accept, refer to, or inquire about the results of any lie detector test administered to employees or prospective employees; and (3) discriminate or threaten to discriminate against employees or prospective employees because of the results of any lie detector test, or because such parties failed or refused to take such a test. The act also has an antiretaliation provision.

However, certain employers and tests are exempt from these provisions. They include (1) federal, state, and local government employers; (2) certain national defense and security-related tests by the federal government; (3) certain tests by security service firms; and (4) certain tests by firms manufacturing and distributing controlled substances. The act also contains a limited exemption for private employers that use polygraph tests when investigating economic losses caused by theft, embezzlement, industrial espionage, and so forth. Finally, the act restricts the disclosure of test results by examiners and by most employers.

The Polygraph Protection Act is enforced by the Labor Department, which has issued regulations in furtherance of that mission. It does not preempt state laws that prohibit lie detector tests or that set standards stricter than those imposed by federal law. Violations of the act or its regulations can result in civil penalties, suits for equitable relief by the Labor Department, and private suits for damages and equitable relief. Workers and job applicants who succeed in a private suit can obtain employment, reinstatement, promotion, and payment of lost wages and benefits.

Drug and Alcohol Testing Due to their impact on employees' safe and effective job performance, employers have become increasingly concerned about both on-the-job and off-the-job drug and alcohol use. Thus, employers increasingly require employees and job

applicants to undergo urine tests for drugs and/or alcohol. Because those who test positive may be either disciplined or induced to undergo treatment, and because the tests themselves can raise privacy concerns, some legal checks on their use have emerged.

Drug and alcohol testing by *public* employers can be attacked under the Fourth Amendment's search-and-seizure provisions. However, such tests generally are constitutional where there is a reasonable basis for suspecting that an employee is using drugs or alcohol, or drug use in a particular job could threaten the public interest or public safety. Due to the government action requirement discussed in Chapter 3, *private-sector* employees generally have no federal constitutional protection against drug and alcohol testing. Some state constitutions, however, lack a government action requirement. In addition, several states now regulate private drug and/or alcohol testing by statute. Tort suits for invasion of privacy or infliction of emotional distress may also be possible in some cases.¹⁶

Despite these protections, however, federal law *requires* private-sector drug testing in certain situations. Under a Defense Department rule, for example, employers who contract with the department must agree to establish a drug-testing program requiring, for instance, that employees who work in sensitive positions sometimes be tested. Also, Transportation Department regulations require random testing of public and private employees occupying safety-sensitive or security-related positions in industries such as aviation, trucking, railroads, mass transit, and others.

Employer Searches Employers concerned about theft, drug use, and other misbehavior by their employees sometimes conduct searches of those employees' offices, desks, lockers, files, briefcases, packages, vehicles, and even bodies to confirm their suspicions. The Supreme Court has held that public employees sometimes have a reasonable expectation of privacy in areas such as their offices, desks, or files. But it also held that searches of those areas are constitutional under the Fourth Amendment when they are reasonable under the circumstances. Determining reasonableness generally means balancing the employee's legitimate privacy expectations against the government's need for supervision

¹⁶Invasion of privacy and intentional infliction of emotional distress are discussed in Chapter 6, and negligent infliction of emotional distress is discussed in Chapter 7.

and control of the workplace, with more intrusive searches demanding a higher degree of justification. Finally, the Court also said that neither probable cause nor a warrant is necessary for such searches to proceed.

As noted above, the U.S. Constitution ordinarily does not apply to private employment. Nonetheless, both private and public employees can mount common law invasion of privacy suits against employers who conduct searches. In such cases, courts usually try to weigh the intrusiveness of the search against the purposes justifying it and consider the availability of less intrusive alternatives that still would satisfy the employer's legitimate needs.

Records and References Many states allow both public and private employees at least some access to personnel files maintained by their employers. Also, some states limit third-party access to such records. In addition, employers who transmit such data to third parties—for example, in letters of reference—may be civilly liable for defamation or invasion of privacy.¹⁷ However, truth is a defense in defamation cases. In both defamation and invasion of privacy suits, moreover, the employer's actions may be conditionally privileged. This defense and these privileges can protect employers who are sued for truthful, accurate, relevant, good faith statements made in references concerning former employees. Finally, a few states have allowed defamation suits for so-called compelled self-disclosure by job-seeking, wrongfully discharged employees who have been required to tell potential employers their former employer's alleged reasons for firing them.

Employer Monitoring Although employers have always monitored their employees' work, recent

technological advances enable such monitoring to occur without those employees' knowledge. Examples include closed-circuit television, video monitoring, telephone monitoring, the monitoring of computer workstations (e.g., by counting keystrokes), and metal detectors at plant entrances. Such monitoring has encountered objections because employees often are unaware that it exists or may suffer stress when they do know or suspect its existence. Employers counter these objections by stressing that monitoring is highly useful in evaluating employee performance, improving efficiency, and reducing theft.

The amount of litigation and commentary about monitoring has grown as employers and employees are increasingly concerned about privacy. A variety of statutes exist on the federal and state levels concerning electronic privacy and security, and these may implicate some employer monitoring. Although employers have a significant amount of latitude in monitoring employees, telephone monitoring occasionally has been found illegal under federal wiretapping law. Although such claims have been uncommon, invasion of privacy suits may succeed in situations where an employer's need for surveillance is slight and it is conducted in areas, such as restrooms and lounges, in which employees have a reasonable expectation of privacy.

A growing number of companies have adopted specific policies regarding monitoring of employee communications and permissible use of company systems. Many companies have begun to inform their employees that their e-mail, voicemail, Internet usage, and other communications and transactions are subject to monitoring. Company policies may also limit the ways that employees can use company computer systems, and often subject employees who violate the policy to disciplinary penalties such as discharge. The following *TBG Insurance* case discusses the legal significance of these policies.

¹⁷Defamation and invasion of privacy are discussed in Chapter 6.

TBG Insurance Services Corp. v. Superior Court No. B153400 (Cal. Ct. App. 2002)

For about 12 years, Robert Ziemiński worked as a senior executive for TBG Insurance Services Corporation. In the course of his employment, Ziemiński used two computers owned by TBG, one at the office, the other at his residence. Ziemiński signed TBG's "electronic and telephone equipment policy statement" in which he agreed, among other things, that he would use the computers "for business purposes only and not for personal benefit or non-Company purposes, unless such use [was] expressly approved. Under no circumstances [could the] equipment or systems be used for improper, derogatory, defamatory, obscene or other inappropriate purposes." Ziemiński consented to have his computer "use monitored by authorized company personnel" on an "as needed" basis, and agreed that communications transmitted by computer were not private. He acknowledged his understanding that his improper use of the computers could result in disciplinary action, including discharge.

In December 1998, Ziemiński and TBG entered a “Shareholder Buy–Sell Agreement,” pursuant to which TBG sold 4,000 shares of its stock to Ziemiński at \$.01 per share. One-third of the stock was to vest on December 1, 1999, one-third on December 1, 2000, and one-third on December 1, 2001, each vesting contingent upon Ziemiński’s continued employment. If Ziemiński’s employment terminated before all the shares had vested, TBG had the right to repurchase the nonvested shares at \$.01 per share. One-third of Ziemiński’s shares vested on December 1, 1999. In March 2000, TBG’s shareholders, including Ziemiński, sold a portion of their TBG shares to Nationwide Insurance Company. Ziemiński sold 1,230 of his 1,333 vested shares to Nationwide for \$1,278,247. On November 28, 2000, three days before another 1,333 shares were to vest, TBG terminated Ziemiński’s employment. According to TBG, Ziemiński was terminated for violating TBG’s electronic policies by repeatedly accessing pornographic sites on the Internet while he was at work. According to Ziemiński, the pornographic sites were not accessed intentionally but simply “popped up” on his computer.

Ziemiński sued TBG, alleging that his employment had been wrongfully terminated as a pretext to prevent his substantial stock holdings in TBG from fully vesting and to allow TBG to repurchase his nonvested stock for \$.01 per share. TBG asked Ziemiński to return the home computer and cautioned Ziemiński not to delete any information stored on the computer’s hard drive. Ziemiński responded that he would either return it or purchase it, but that it would be necessary for him to alter or delete some of the information on the hard drive, since “it contains personal information which is subject to a right of privacy.” TBG refused to sell the computer to Ziemiński and demanded its return without any deletions or alterations. TBG moved to compel production of the computer, contending it has the right to discover whether information on the hard drive proves that, as claimed by TBG, Ziemiński violated his employer’s policy statement. Ziemiński opposed the motion and insisted that, notwithstanding the policy statement, he retained an expectation of privacy with regard to his home computer. According to Ziemiński, the home computer was provided as a “perk” to all senior executives, and although it was provided so that business-related work could be done at home, it was “universally accepted and understood by all that the home computer would also be used for personal purposes as well.” He said his home computer was used by his wife and children, and that it was primarily used for personal purposes and contained a significant amount of personal information and data such as details of his personal finances and income tax returns. The trial court denied TBG’s motion, and TBG filed a petition for a writ of mandate, asking the appellate court to intervene.

Vogel, Justice

A party may obtain discovery regarding any matter, not privileged, that is relevant to the subject matter involved in the pending action. In the context of discovery, evidence is relevant if it might reasonably assist a party in evaluating its case, preparing for trial, or facilitating a settlement. Here, the home computer is indisputably relevant. The issue, therefore, is whether he has a protectible privacy interest in the information to be found on the computer.

Ziemiński’s privacy claim is based on article I, section I, of the California Constitution, which provides: “All people are by nature free and independent and have inalienable rights. Among these are enjoying and defending life and liberty, acquiring, possessing, and protecting property, and pursuing and obtaining safety, happiness, and privacy.” Assuming the existence of a legally cognizable privacy interest, the extent of that interest is not independent of the circumstances and other factors (including advance notice) may affect a person’s reasonable expectation of privacy. Accordingly, our decision about the reasonableness of Ziemiński’s claimed expectation of privacy must take into account any accepted community norms, advance notice to Ziemiński about TBG’s policy statement, and whether Ziemiński had the opportunity to consent to or reject the very thing that constitutes the invasion.

We are concerned in this case with the “community norm” within 21st Century computer-dependent businesses. In 2001, the 700,000-member American Management Association reported that more than three-quarters of this country’s major firms monitor, record, and review employee communications and activities on the job, including their telephone calls, e-mail, Internet connections, and computer files. Companies that engage in these practices do so for several reasons, including legal compliance, legal liability, performance review, productivity measures, and security concerns. It is hardly surprising therefore that employers are told they “should establish a policy for the use of [e-mail and the Internet], which every employee should have to read and sign. First, employers can diminish an individual employee’s expectation of privacy by clearly stating in the policy that electronic communications are to be used solely for company business, and that the company reserves the right to monitor or access all employee Internet or e-mail usage.” Fernandez, *Workplace Claims: Guiding Employers and Employees Safely In and Out of the Revolving Door* (1999), 614 Practising Law Institute, Litigation and Administrative Practices Course Handbook Series, Litigation 725. For these reasons, the use of computers in the employment context carries with it social norms that effectively diminish the employee’s reasonable expectation of privacy with regard to his use of his employer’s computers.

TBG's advance notice to Zieminski (the company's policy statement) gave Zieminski the opportunity to consent to or reject the very thing that he now complains about, and that notice, combined with his written consent to the policy, defeats his claim that he had a reasonable expectation of privacy. Zieminski knew that TBG would monitor the files and messages stored on the computers he used at the office and at home. He had the opportunity to consent to TBG's policy or not, and had the opportunity to limit his use of his home computer to purely business matters. To state the obvious, no one compelled Zieminski or his wife or children to use the home computer for personal matters, and no one prevented him from purchasing his own computer for his personal use. With all the information he needed to make an intelligent decision, Zieminski agreed to the company's policy *and* chose to use his computer for personal matters. By any reasonable standard, Zieminski fully and voluntarily relin-

quished his privacy rights in the information he stored on his home computer, and he will not now be heard to say that he nevertheless had a *reasonable* expectation of privacy.

Zieminski voluntarily waived whatever right of privacy he might otherwise have had in the information he stored on the home computer. But even assuming that Zieminski has some lingering privacy interest in the information he stored on the home computer, we do not view TBG's demand for production as a serious invasion of that interest. Appropriate protective orders can define the scope of TBG's inspection and copying of information to that which is directly relevant to this litigation, and can prohibit the unnecessary copying and dissemination of Zieminski's financial and other information that has no rational bearing on this case.

Petition granted and writ issued in favor of TBG.

Job Security

The Doctrine of Employment at Will

The traditional employment-at-will rule first appeared around 1870, and by the early 20th century most state courts had adopted it. The rule says that *either party can terminate an employment contract of indefinite duration*. The termination can occur at any time; and can be for good cause or no cause. (However, discharged employees can recover for work actually done.)

The Common Law Exceptions Because it allows employers to discharge indefinite-term employees with virtual impunity, employment at will has long been regarded as a force for economic efficiency but also as a threat to workers' job security. Although the doctrine remains important today, it has been eroded by many of the developments described in this chapter. For example, the NLRA forbids dismissal for union affiliation, and labor contracts frequently bar termination without just cause. Also, Title VII prohibits firings based on certain personal traits, the ADEA blocks discharges on the basis of age, and the ADA forbids terminations for covered disabilities.

Over the past 20 to 25 years, moreover, courts have been carving out common law exceptions to employment at will. Here we discuss the three most important such exceptions. Although a few states do not recognize any of these exceptions, most states have adopted one or more of them. In such states, a terminated employee sometimes can recover against her employer for **wrongful discharge** or **unjust dismissal**. The remedies in successful wrongful

discharge suits depend heavily on whether the plaintiff's claim sounds in contract or in tort, with tort remedies being more advantageous for plaintiffs.

The Public Policy Exception The public policy exception to employment at will, which has been recognized by over four-fifths of the states, is the most common basis for a wrongful discharge suit. It usually is a tort claim. In public policy cases, the terminated employee argues that his discharge was unlawful because it violated the state's public policy. How do courts determine the content of this public policy? The mere fact that a discharge is unfounded or unfair does not mean that the public policy theory applies. Although there is some disagreement on the subject, most courts limit "public policy" to the policies furthered by existing laws such as constitutional provisions, statutes, and perhaps administrative regulations and common law rules. For this reason, employees often fail to recover where they are fired for ethical objections to job assignments or employer practices.

Successful suits under the public policy exception usually involve firings caused by an employee's (1) refusal to commit an unlawful act (e.g., committing perjury or violating the antitrust laws), (2) performance of an important public obligation (e.g., jury duty or whistleblowing),¹⁸ or (3) exercise of a legal right or privilege (e.g., making a workers' compensation claim or refusing

¹⁸Whistle-blowers are employees who publicly disclose dangerous, illegal, or improper behavior. Most states have passed statutes protecting the employment rights of certain whistle-blowers.

to take an illegal polygraph test). In each case, the act (or refusal to act) that caused the firing is consistent with some public policy; for this reason, the firing frustrates the policy. For example, firing an employee for filing a

workers' compensation claim undermines the public policies underlying state workers' compensation statutes.

The following *Franklin* case illustrates the application of the public policy theory.

Franklin v. The Monadnock Company

59 Cal. Rptr. 3d 692 (Cal. Ct. App. 2007)

The Monadnock Company hired Calvin Franklin as a "heat treater" in 2004. Franklin alleged that his co-worker, Richard Ventura, threatened his safety and that of three other Monadnock employees. The threatened employees elected Franklin to complain about Ventura's threats to Monadnock's human resources department, and Franklin did so. Monadnock did not take action to prevent Ventura from assaulting his co-workers. A week after Franklin made his complaint about Ventura to human resources, Ventura attempted to stab Franklin with a metal screwdriver. In response, Franklin complained to the police department that Ventura was endangering his safety and that of his co-workers. Monadnock discharged Franklin a week later. Franklin filed a wrongful discharge suit against Monadnock and others, alleging that he was fired because of his complaints about Ventura "internally" to defendants and "externally" to the police.

Monadnock filed a demurrer, and the trial court sustained it, dismissing Franklin's complaint. Franklin appealed.

Mosk, Judge

The vast majority of states have recognized that an at-will employee possesses a tort action when he or she is discharged for performing an act that public policy would encourage, or for refusing to do something that public policy would condemn. The difficulty, of course, lies in determining where and how to draw the line between claims that genuinely involve matters of public policy, and those that concern merely ordinary disputes between employer and employee. This determination depends in large part on whether the public policy alleged is sufficiently clear to provide the basis for such a potent remedy. In *Stevenson v. Superior Court*, the Supreme Court noted that a historical survey of tortious discharge decisions established four requirements that a policy must meet in order to support a wrongful discharge claim: "First, the policy must be supported by either constitutional or statutory provisions. Second, the policy must be 'public' in the sense that it inures to the benefit of the public rather than serving merely the interests of the individual. Third, the policy must have been articulated at the time of the discharge. Fourth, the policy must be 'fundamental' and 'substantial.'" Monadnock contends that Franklin cannot state a wrongful termination cause of action because Franklin's complaint about Ventura's threats and his report of the assault to the police did not involve a fundamental public policy contained in a constitutional or statutory provision. We disagree.

Labor Code section 6400 et seq. and Code of Civil Procedure section 527.8, when read together, establish an explicit public policy requiring employers to provide a safe and secure workplace, including a requirement that an employer take reasonable steps to address credible threats of violence in the workplace.

Labor Code section 6400, subdivision (a) provides: "Every employer shall furnish employment and a place of employment that is safe and healthful for the employees therein."

Labor Code section 6401 provides: "Every employer shall do every other thing reasonably necessary to protect the life, safety, and health of employees."

Labor Code section 6402 provides: "No employer shall require, or permit any employee go or be in any employment or place of employment which is not safe and healthful."

Labor Code section 6403 provides: "No employer shall fail or neglect to . . . (c) To do every other thing reasonably necessary to protect the life, safety, and health of employees."

Labor Code section 6404 provides: "No employer shall occupy or maintain any place of employment that is not safe and healthful."

Code of Civil Procedure section 527.8, subdivision (a) provides: "Any employer, whose employee has suffered unlawful violence or a credible threat of violence from any individual . . . may seek a temporary restraining order and an injunction on behalf of the employee. . . ."

A credible threat is one that an employee reasonably believes will be carried out, so as to cause the employee to fear for his or her safety or that of his or her family. And it is the policy of this state to protect an employee who complains in good faith about working conditions or practices which he reasonably believes to be unsafe.

Monadnock's position that there is no explicit public policy concerning the prevention of workplace violence would lead to the anomalous result that the Labor Code provisions to which

we refer establish an express public policy requiring employers to take reasonable steps to protect employees from foreseeable occupational injuries and illnesses, but do not establish any corresponding policy concerning injuries in the workplace from foreseeable violence or credible threats of violence. There is no logic in drawing such an artificial distinction, and such a distinction ignores the reality of workplace violence that statutes were enacted to address. Moreover, it is self-evident that the policy expressed in the statutes upon which we rely that protects employees from violence or threats of violence in the workplace is a fundamental and substantial public policy. Threats can be crimes. The allegations in the instant case provide that Ventura made threats of violence in the workplace and thereafter criminally assaulted Franklin, such that Ventura posed a continuing risk of violence to fellow employees. The allegations here are sufficient to state a violation of the public policy that protects an employee against discharge for making

a good faith complaint about working conditions that he or she reasonably believes to be unsafe.

Monadnock further contends that the policies upon which Franklin relies are not predicated on any duties that would benefit the public at large—a requirement for a claim of wrongful discharge in violation of public policy. According to Monadnock, Franklin’s complaint to Monadnock and report to the police did not benefit the public, but rather only Franklin and his three coworkers. That is not a reasonable interpretation of Franklin’s complaint. His complaint about Ventura’s threats and report to the police served the public interest in promoting workplace safety, the interest in deterring workplace crime, and the interests of innocent coworkers who could have suffered harm. Thus, Franklin’s conduct inured to the benefit of the public.

Reversed in favor of Franklin.

The Implied Covenant of Good Faith and Fair Dealing A wrongful discharge suit based on the implied covenant of good faith and fair dealing usually is a contract claim. Here, the employee argues that her discharge was unlawful because it was not made in good faith or did not amount to fair dealing, thus breaching the implied contract term. Only about 25 percent of the states have recognized this exception to employment at will, and most of these give it a narrow scope.

Promises by Employers Using various legal theories, courts have increasingly made employers liable for breaking promises to their employees regarding termination policy. Such promises typically are express statements

made by employers during hiring or employee orientation, or in their employee manuals, handbooks, personnel policies, and benefit plans. You will see an example of this theory in the following *Cisco* case. Occasionally such promises are implied from business custom and usage as well. Here, our concern is with express or implied employer promises involving matters such as discharge policies and discharge procedures. If the employer fails to follow those promises when it fires an employee, it is liable for breach of contract. At least two-thirds of the states recognize this exception to employment at will. However, employers often succeed in avoiding liability under this theory by inserting disclaimers of job security in employment applications and employment manuals.

Cisco v. King

2005 Ark. App. LEXIS 264 (Ark. Ct. App. 2005)

In May 1991, St. Francis County, Arkansas, adopted an employment manual, which states in most relevant part:

Except as otherwise provided in these policies and procedures, the tenure of an employee with permanent status shall continue during good behavior and satisfactory performance of his duties except the Road Supervisor and Chief Deputies who are At Will Employees.

On January 4, 1999, these procedures were in full force and effect. On this same day, Jerry King, who was employed by the county for seven years as a bridge foreman, Louis Pugh, who was employed for two years as an equipment operator, and Herman Greenwood, who was employed for four and one-half years as an office manager, were called into a road-crew employee meeting by Carl Cisco, the newly elected St. Francis County Judge. At the meeting, the three employees were among six members of the road crew who were discharged from employment. The county, which had prearranged unemployment benefits for these dismissed employees, instructed them to proceed to the unemployment office to make their claims. Each of the them did as the county had instructed.

In April 2000, King, Pugh, and Cisco (the employees) filed a wrongful-termination action against the county. After their claim was denied, the employees filed an appeal in circuit court. The employees claimed that because they were permanent employees and exercised “good behavior and satisfactory performance of duties” and were not working in the excepted positions (road supervisor and chief deputy), they could only be terminated for cause. The county maintained that the language contained in its employment manual did not create a contract for employment and that it was free to terminate the employment relationship at any time and for any reason, in accordance with the doctrine of employment at will. The trial court concluded that the employees had a valid employment contract with the county and that each employee was entitled to compensation for lost wages because they “were fired without cause and in violation of the Employment Policies and Procedures Manual of St. Francis County, Arkansas.” The county appealed.

Vaught, Judge

Our first and most fundamental inquiry is whether the language contained in the County’s employment manual was of sufficient force to abrogate Arkansas’s at-will doctrine and establish a contract for employment whereby the employees could be terminated only for cause. We begin our analysis with an examination of Arkansas’s at-will doctrine. In Arkansas, an employer may fire an employee for good reason, bad reason, or no reason at all under the employment-at-will doctrine. An employment relationship remains terminable at the will of either an employer or employee, unless an agreement exists that provides otherwise. The employment-at-will doctrine does have exceptions, however.

We believe that a modification of the at-will rule is appropriate in two respects: where an employee relies upon a personnel manual that contains *an express provision* against termination except for cause he may not be arbitrarily discharged in violation of such a provision. Moreover, we reject as outmoded and untenable the premise announced in *St. Louis Iron Mt. Ry. Co. v. Matthews* that the at-will rule applies even where the employment agreement contains a provision that the employee will not be discharged except for cause, unless it is for a definite term. With those two modifications we reaffirm the at-will doctrine. In *Crain Industries, Inc. v. Cass*, our supreme court held that an express provision in an employment handbook could constitute a valid and enforceable contract assuming that (1) the handbook language is sufficiently definite to constitute an offer; (2) the offer has been communicated by dissemination of the handbook to the employee; (3) there has been acceptance of the offer; and (4) consideration has been furnished for its enforceability.

The County does not dispute that it intended for its manual to apply to its entire workforce and that it understood and expected that the manual would be read and considered by its employees. It argues instead that the specific provisions of the manual relating to job security are not sufficiently definite and comprehensive to be regarded by its workforce as enforceable. The County contends that “at no point does the manual state that the list is conclusive or that St. Francis County has a policy of termination ‘for just cause only’ or that employees

could not be terminated ‘without just cause.’” In our view, this argument amounts to nothing more than linguistic gymnastics; it would require moves of contortionistic proportion for us to find that language guaranteeing that “the tenure of an employee with permanent status shall continue during good behavior and satisfactory performance of his duties” is anything but an express promise not to terminate a permanent employee without cause. The logic of this conclusion is amplified when the promise is read in tandem with the exception to the promise, that the Road Supervisor and Chief Deputies remain “At-Will Employees.”

Further, the employment manual distinguishes between probationary and permanent employees, indicating that a new employee must “serve a probationary period” and that no “appointment may be considered as permanent until the probationary period is completed.” Further, the manual states that a probationary employee “may be terminated for any reason without recourse. . . .” Thus, it is reasonable for a County employee to expect that if he or she successfully completes the 180-day probationary period, he or she would then be considered a “permanent” employee subject to the duties and entitled to the benefits and safeguards of “permanent” employment. We hold that the breadth of coverage and dissemination of the County’s manual coupled with the definiteness and comprehensiveness of its termination policy could reasonably lead an employee to expect that the manual created enforceable employment obligations. The continued employment of the employees as permanent employees completed the contract. Therefore, the County could only terminate the employees for cause. The undisputed evidence presented at trial showed that the employees had stellar and unblemished employment records. Based on these facts, we are convinced that the County denied their contractual right to continued employment by dismissing them without cause. Because the employees were terminated without cause, they are entitled to damages, and we affirm the judgment of the trial court.

Affirmed in favor of the employees.

Problems and Problem Cases

1. Brown was employed as a clerk in the shipping department at Pratt & Whitney. She did not take a standard lunch break. When she took a lunch break, however, she customarily took a walk around the grounds of the employer's campus. Pratt & Whitney acquiesced to walking during lunch hours, but did not promote or encourage employees to do so. Brown testified that she pursues walking for the betterment of her health. In July 2005, Brown had been released for lunch and was walking on a road on the grounds of Pratt & Whitney when she tripped while avoiding an oncoming car and fell on some gravel, injuring her right shoulder. She claimed workers' compensation, arguing that she was engaged in something "incidental" to her employment at the time of her injury. Is this a good argument?
2. In the early 1980s, D'Amato, acting as agent for the young Mike Tyson, agreed with Rooney that Rooney would be Tyson's trainer "for as long as [Tyson fights] professionally." The parties also agreed that Rooney would receive 10 percent of Tyson's boxing earnings. In 1986, Tyson orally reaffirmed the agreement, stating that Rooney "will be Mike Tyson's trainer as long as Mike Tyson is a professional fighter." In 1988, apparently in connection with Rooney's alleged comments about Tyson's divorce and other business litigation, Tyson formally terminated his boxer-trainer relationship with Rooney. In 1989, Rooney sued Tyson for breach of contract in federal district court. Should the doctrine of employment at will apply to this oral contract "for as long as the boxer fights professionally"?
3. Dianne Rawlinson, a female applicant who was rejected for employment as a prison guard in the Alabama prison system, challenged certain state rules restricting her employment prospects under Title VII. They were (1) requirements that all prison employees be at least 5 feet 2 inches tall and weigh at least 120 pounds, and (2) a rule expressly prohibiting women from assuming close-contact prison guard positions in maximum-security prisons (most of which were all male). What method of proving a Title VII case should Rawlinson use in attacking the height and weight requirements? Does she need to use one of these methods to attack the second rule? What argument should the state use if Rawlinson establishes that the height and weight requirements have an adverse impact? What Title VII defense might the state have for the second rule? With regard to the second rule, assume that at this time Alabama's maximum-security prisons housed their male prisoners barracks-style rather than putting them in cells, and that they did not separate sex offenders from other prisoners.
4. Johnson Controls, Inc., manufactures batteries. Lead is a primary ingredient in that manufacturing process. A pregnant female employee's occupational exposure to lead involves a risk of harm to a fetus that she is carrying. For this reason, Johnson Controls excluded women who are pregnant or *who are capable of bearing children* from jobs that involve exposure to lead. Numerous plaintiffs, including a woman who had chosen to be sterilized to avoid losing her job, filed a class action against Johnson Controls under Title VII. Is Johnson Controls entitled to use the BFOQ defense?
5. Azteca, which operates a chain of restaurants, employed Sanchez from October 1991 to July 1995. Throughout his tenure at Azteca, Sanchez was subjected to a relentless campaign of insults, name-calling, and vulgarities. Male co-workers and a supervisor repeatedly referred to Sanchez in Spanish and English as "she" and "her." Male co-workers mocked Sanchez for walking and carrying his serving tray "like a woman," and taunted him in Spanish and English as, among other things, a "faggot" and a "f--- female whore." The remarks were not stray or isolated. This conduct violated company policy. Since 1989, Azteca has expressly prohibited sexual harassment and retaliation and has directed its employees to bring complaints regarding such conduct directly to the attention of the corporate office. It also has sexual harassment training programs, in English and in Spanish. Although Sanchez attended Azteca's sexual harassment training and was familiar with the company's antiharassment policy and procedures, he never complained to the corporate EEO officer or the area manager about the harassment he experienced, as required by the corporate policy. He did, however, complain to the general manager of the Southcenter restaurant and an assistant manager as well as to Azteca's human resources director. Was this a case of sexual harassment?
6. Karen Bammert worked as the assistant manager at Don's Super Value in Menomonie, Wisconsin. Her husband is a Menomonie police officer. Don's is

owned by Don Williams, whose wife, Nona, was arrested for drunk driving. Bammert's husband assisted in the arrest by administering a breathalyzer test. Shortly thereafter, Bammert was fired, allegedly in retaliation for her husband's participation in the arrest of her boss's wife. Bammert sued Don's for wrongful discharge, invoking the public policy exception to the employment-at-will doctrine. Will she be successful in using this doctrine?

7. In 1993, Mohr sold his battery business to Batteries Plus, but he remained with the company as an employee, initially as a store manager and later as a commercial sales specialist. Mohr's compensation package included a base salary and a commission of a percentage of the gross profits on all sales. He used his own vehicle in his sales position, and he received reimbursement for mileage expenses. In 1996, Batteries Plus informed Mohr that it had mistakenly paid him for mileage expenses. It claims that it had been paying Mohr an extra 2 percent in commissions to accommodate his travel expenses and that he was not supposed to receive additional \$11,500 reimbursement for mileage. Batteries Plus asked him to sign a note to pay back the money through deductions from future wages. Mohr refused and denied that he had been overpaid. Over a period of several months the parties discussed the company's claim of overpayment. There were sharp exchanges of words and letters, including a rejected request for an employment contract. Mohr claims that he was fired for refusing to sign the note to repay the money. Batteries Plus thereafter instituted a collection action against Mohr in circuit court to recover the alleged overpayment. Mohr counterclaimed, alleging wrongful discharge under the public policy theory. Will Mohr prevail?
8. In 1987, Nichols began working as a pressman for the Progress Printing Company. At the time of hiring, Nichols was presented with a copy of the company's employees' handbook. The handbook stated that Progress would not discharge or suspend an employee "without just cause" and that the company "shall give at least one warning notice in writing" before termination. Several weeks later, however, Progress's personnel director gave Nichols a form that stated in part, "The employment relationship between Progress Printing and the employee is *at will* and *may be terminated by either party at any time.*" Nichols and the personnel director both signed the form. In March 1989, Nichols became upset over Progress's failure to correct a recurring defect in a print job, and he refused to complete that job assignment as a result. Nichols was fired on the following day, without the prior written notice promised by the employee handbook. Does Nichols have a good case for wrongful discharge under the promises by employer theory?
9. Caldwell worked for Holland's Kentucky Fried Chicken restaurant, where she had an excellent record. On Saturday, her three-year-old son awoke with a high fever, pain in his ears, and congestion. Caldwell notified her manager that she would be absent because she had to take her son to the doctor. At the emergency clinic, the son was diagnosed with an acute ear infection and put on medication. Caldwell was also informed that he would need surgery to prevent permanent hearing loss. That night, Caldwell, a single mother, worked the night shift at another KFC owned by Holland, while her elderly mother cared for her son. When Caldwell reported to work on Monday, she was summarily fired. On a follow-up medical visit, the son had to have another course of antibiotics, and two weeks later, had surgery. Was Caldwell's leave covered by the FMLA?
10. In July 2005 Wal-Mart asked MSN, a health care staffing provider, for temporary assistance in its Onalaska, Wisconsin, pharmacy. MSN recommended Noesen. Noesen, a Roman Catholic, is licensed by the State of Wisconsin to practice pharmacy, but the state licensing authority restricted his license in 2004 because of his refusal to fill, or refer to another pharmacy, a woman's prescription for contraception. Under the restriction, Noesen must notify potential employers in writing of the pharmacy services he will not perform and the steps he will take to ensure that a patient's access to medication remains unimpeded. Before starting work at the Onalaska pharmacy, Noesen wrote to Wal-Mart and explained that, due to his religious convictions, he would "decline to perform the provision of, or any activity related to the provision of contraceptive articles," including "complete or partial cooperation with patient care situations which involve the provision of or counsel on contraceptive articles." Overton, a pharmacist and acting supervisor of the Onalaska pharmacy, understood Noesen's limitations to mean that he would not fill prescriptions for birth control, and agreed to accommodate that limitation. Overton relieved Noesen

from filling prescriptions for birth control, taking orders for birth control from customers or physicians, handing customers birth control medication, and performing checks on birth control orders. Overton also arranged for birth control prescriptions to be sorted into a separate basket so that Noesen would not have to touch the items and ensured that someone would be available to fill orders and respond to customer inquiries concerning birth control. Within days Overton realized that, even with these accommodations, Noesen refused to perform general customer-service duties if they involved even briefly talking to customers seeking contraception. For example, when Noesen answered telephone calls from customers or physicians attempting to place orders for birth control, Noesen put them on hold and refused to alert other pharmacy staff that someone was holding. Similarly, when customers came to the counter with birth control prescriptions, Noesen walked away and refused to tell anyone that a customer needed assistance. Noesen explained that if required to speak to customers seeking birth control, he would always counsel them against it and refuse to fill their prescriptions. Noesen rejected Overton's offer that Noesen assist only customers that were not of childbearing age or only male customers. He insisted that the only acceptable accommodation was to relieve him of all counter and telephone duties unless customers were first prescreened by some other employee to ensure that they were not seeking birth control. Overton agreed that he and the pharmacy intern could assist all walk-in customers but due to high caller volume Noesen, like all other staff, needed to answer the telephones, although he could refer callers with birth control issues to others. Noesen rejected this accommodation. On his fifth day at the Onalaska pharmacy, after Noesen refused his work assignment with the modified accommodations, Overton fired Noesen. But Noesen refused to leave the store. He began lecturing customers about Wal-Mart's discriminatory practices and had to be carried out by police. Based upon his conduct at Wal-Mart, MSN also fired Noesen. Noesen sued MSN and Wal-Mart, alleging discrimination on the basis of his religion. Will he prevail?

11. The Pillsbury Company maintained an electronic mail communication system. The company repeat-

edly assured its employees that all e-mail communications on the system would remain confidential. Pillsbury further assured its employees that it would not intercept e-mail communications and use them as grounds for terminating or reprimanding employees. Smyth, a Pillsbury employee, received e-mails from his supervisor over Pillsbury's e-mail system on his home computer. Relying on Pillsbury's assurances, Smyth exchanged some blunt e-mails with his supervisor. One of them apparently contained a threat to "kill the back-stabbing bastards," and another seemingly referred to a firm holiday party as the "Jim Jones Kool-aid affair." Later, Pillsbury retrieved or intercepted these messages, and fired Smyth for what it deemed inappropriate and unprofessional comments over the e-mail system. Smyth sued Pillsbury for wrongful discharge under the public policy theory, alleging that public policy precludes an employer from firing an employee in violation of his privacy. Will Smyth win?

chapter 52

ENVIRONMENTAL REGULATION

The B-P Paper Company is planning to build a new papermaking facility on property it owns in the Atlanta, Georgia, area that borders on the Chattahoochee River. The facility will have an industrial boiler that burns wood wastes to generate process steam for plant operation and will emit sulfur oxides, nitrogen oxides, and particulate emissions to the air. The company plans to draw water from the river to use in the papermaking process and will return it to the river after some in-house treatment to remove some of the pollutants that have been added by the process. Significant quantities of sludge from the papermaking process will have to be disposed of, as well as empty containers in which the chlorine used at the facility was delivered.

- What major requirements will the facility have to meet to control its anticipated air emissions?
- What major requirements will the facility have to meet to control its discharge of wastewater to the Chattahoochee River?
- What major requirements will the company have to meet in dealing with the waste sludge and containers?
- If the company realizes that some materials it releases into the environment pose a hazard to human health or the environment but are not currently subject to regulation, does the company have an ethical obligation to take steps to protect against those hazards?

TODAY'S BUSINESSPERSON MUST BE concerned not only with competing effectively against competitors but also with complying with a myriad of regulatory requirements. For many businesses, particularly those that manufacture goods or that generate wastes, the environmental laws and regulations loom large in terms of the requirements and costs they impose. They can have a significant effect on the way businesses have to be conducted as well as on their profitability. This area of the law has expanded dramatically over the last three decades, and environmental issues are a major concern of people and governments around the world. This chapter will briefly discuss the development of environmental law and will outline the major federal statutes that have been enacted to control pollution of air, water, and land.

Historical Perspective

Historically, people assumed that the air, water, and land around them would absorb their waste products. In recent times, however, it has become clear that nature's capacity to assimilate people's wastes is not infinite. Burgeoning population, economic growth, and the products of our

industrial society can pose risks to human health and the environment. The societal challenge is to accommodate economic activity and growth and at the same time provide reasonable protection of human health and the environment.

Concern about the environment is not a recent phenomenon. In medieval England, Parliament passed smoke control acts making it illegal to burn soft coal at certain times of the year. Where the owner or operator of a piece of property is using it in such a manner as to unreasonably interfere with another owner's (or the public's) health or enjoyment of his property, the courts have long entertained suits to abate the nuisance. Nuisance actions, which are discussed in Chapter 24, Real Property, are frequently not ideal vehicles for dealing with widespread pollution problems. Rather than a hit-or-miss approach, a comprehensive across-the-board approach may be required.

Realizing this, the federal government, as well as many state and local governments, had passed laws to abate air and water pollution by the late 1950s and 1960s. As the 1970s began, concern over the quality and future of the environment produced new laws and fresh public demands for action. During the 1980s, these laws

were refined and, in some cases, their coverage was extended. Environmental concerns continue to be prominent around the globe, and many countries, both individually and collectively, have programs in place to address them. Accordingly, it is increasingly important that the businessperson be cognizant of the legal requirements and the public's environmental concerns in operating a business. These requirements and concerns not only may pose challenges to businesses but can provide opportunities for them as well.

The Environmental Protection Agency

In 1970, the Environmental Protection Agency was created to consolidate the federal government's environmental responsibilities. This was an explicit recognition that the problems of air and water pollution, solid waste disposal, water supply, and pesticide and radiation control were interrelated and required a consolidated approach. Congress subsequently passed comprehensive new legislation covering, among other things, air and water pollution, pesticides, ocean dumping, and waste disposal. Among the considerations prompting these laws were protection of human health, aesthetics, economic costs of continued pollution, and protection of natural systems.

The initial efforts were aimed at problems that, by and large, could be seen, smelled, or tasted. As control requirements have been put in place and implemented by industry and government, and as significant progress has been noted in the form of cleaner air and water, attention has focused increasingly on problems that are somewhat less visible but potentially more threatening—the dangers posed by toxic substances. These dangers have come into more prominence as scientific research indicates the risks posed by some substances, as new detection technology has enabled the detection of suspect substances in ever more minute quantities in the world around us, and as increased monitoring and testing are conducted. Determination of the degree of risk posed by any particular substance or proposed action—and deciding the most appropriate control strategy—frequently triggers strong disagreements within society because of what is at stake in terms of economic costs and protection of health and the environment.

Concomitantly, with the fairly comprehensive environmental regulatory regime in the United States now more than 30 years old and having become very complex, considerable attention is being focused on whether parts of the regulatory regime that are based on command-and-control requirements can be replaced with alternative approaches that instead rely on economic incentives or allow the regulated community more flexibility in

addressing environmental concerns. The highly competitive world market places a premium on companies' ability to rapidly change their products and production methods—and this need can be frustrated by a cumbersome or slow regulatory regime. The tensions between protection of public health and the environment, the desire to be supportive of domestic companies in a global competitive business climate, and the costs of compliance with various environmental protection requirements will dominate the public policy debate in this area for years to come.

The National Environmental Policy Act

The National Environmental Policy Act (NEPA) was signed into law on January 1, 1970. The act required that an **environmental impact statement** be prepared for every recommendation or report on legislation and for every *major federal action significantly affecting the quality of the environment*. The environmental impact statement must (1) describe the environmental impact of the proposed action, (2) discuss impacts that cannot be avoided, (3) discuss the alternatives to the proposed action, (4) indicate differences between short- and long-term impacts, and (5) detail any irreversible commitments of resources.

NEPA requires a federal agency to consider the environmental impact of a project before the project is undertaken. Other federal, state, and local agencies, as well as interested citizens, have an opportunity to comment on the environmental impact of a project before the agency can proceed. Where the process is not followed, citizens can and have gone to court to force compliance with NEPA. A number of states and local governments have passed their own environmental impact laws requiring NEPA-type statements for major public and private developments.

While the federal and state laws requiring the preparation of environmental impact statements appear directed at government actions, it is important to note that the government actions covered often include the granting of permits to private parties. Thus, businesspeople may readily find themselves involved in the preparation of an environmental impact statement—for example, in connection with a marina to be built in a navigable waterway or a resort development that will impact wetlands, both of which require permits from the U.S. Army Corps of Engineers. Similarly, a developer seeking a local zoning change so she can build a major commercial or residential development may find that she is asked to finance a study of the potential environmental impact of her proposed project.

Air Pollution

Background Fuel combustion, industrial processes, and solid waste disposal are the major contributors to air pollution. People's initial concern with air pollution related to what they could see—visible or smoke pollution. For instance, in the 1880s, Chicago and Cincinnati enacted smoke control ordinances. As the technology became available to deal with smoke and particulate emissions, attention focused on other, less visible gases that could adversely affect human health and vegetation or that could increase the acidity of lakes, thus making them unsuitable for fish.

Clean Air Act The **Clean Air Act**—enacted in 1970 and amended in 1977 and 1990—provides the basis for the present approach to air pollution control.

Ambient Air Control Standards The Clean Air Act established a comprehensive approach for dealing with air pollution. EPA is required to set **national ambient air quality standards** for the major pollutants that have an adverse impact on human health—that is, to regulate the amount of a given pollutant that may be present in the air around us. The ambient air quality standards are set at two levels: (1) **primary standards** are designed to protect the public's health from harm; and (2) **secondary standards** are designed to protect vegetation, materials, climate, visibility, and economic values. Pursuant to this statutory mandate, EPA has set national ambient air quality standards for carbon monoxide, nitrogen oxide, sulfur oxide, ozone, lead, and particulate matter.

Each state is required to develop a **state implementation plan** for meeting national ambient air quality standards. This necessitates an inventory of the various sources of air pollution and their contribution to the total air pollution in the air quality region. The major emitters of pollutants are then required to reduce their emissions to a level that ensures that overall air quality meets the national standards. For example, a factory may be required to limit its emissions of volatile organic compounds (a contributor to ozone or smog) to a certain amount per unit of production or hour of operation; similarly, a power plant might have its emissions of sulfur oxides and nitrogen oxides limited to so many pounds per Btu of energy produced. The states have the responsibility for selecting which activities must be regulated or curtailed so that air pollution at any point in the state or area does not exceed the national standards.

Because by the late 1980s many of the nation's major urban areas were still not in compliance with the health-based standards for ozone and carbon monoxide, Congress, in its 1990 amendments, imposed an additional set of requirements on the areas that were not in compliance. Thus, citizens living in the areas and existing businesses, as well as prospective businesses seeking to locate in the designated areas, face increasingly stringent control measures designed to bring the areas into attainment with the national standards. These new requirements mean that businesses such as bakeries that are generally not thought of as major polluters of the air have to further control their emissions, and that paints and other products that contain solvents may have to be reformulated.

Acid Rain Controls Responding to the 1970 Clean Air Act, which sought to protect the air in the area near sources of air pollution, many electric generating facilities built tall smokestacks so that the emissions were dispersed over a broader area. Unwittingly, this contributed to long-range transport of some of the pollutants, which changed chemically en route and fell to earth many miles away in the form of acid rain, snow, fog, or dry deposition. For a number of years, a considerable debate ensued over acid rain, in particular as to whether it was a problem, what kind of damage it caused, whether anything should be done about it, and who should pay for the cost of limiting it. The 1990 amendments addressed acid deposition by among other things placing a cap on the overall emissions of the contributors to it (the oxides of sulfur and nitrogen) and requiring electric utilities to reduce their emissions to specified levels in two steps over the next decade. This required most electric generating facilities in the country to install large control devices known as scrubbers, to switch to lower sulfur coal, or to install so-called clean coal technologies. The 1990 amendments also provide an innovative system whereby companies whose emissions are cleaner than required by law can sell their rights to emit more sulfur oxide—known as *allowances*—to other companies that may be finding it more difficult to meet the standards. This emission trading scheme has worked well to achieve reductions in emissions in an economically efficient way.

Control of Toxic Air Pollutants The 1970 Clean Air Act also required EPA to regulate the emission of toxic air pollutants. Under this authority, EPA set standards only for asbestos, beryllium, mercury, vinyl chloride, benzene, and radionuclides. Unhappy with the slow pace of regulation of toxic air pollutants, Congress in

1990 specified a list of 189 chemicals for which EPA is required to issue regulations requiring the installation of the maximum available control technology. The regulations are to be developed and the control technology installed by industry in phases. Thus, while many toxic emissions have largely gone unregulated, that situation has changed. In addition, a number of chemical companies have announced they are voluntarily reducing their emissions of toxic chemicals to levels below those they are required to meet by law.

New Source Controls The Clean Air Act requires that new stationary sources such as factories and power plants install the best available technology for reducing air pollution. EPA is required to establish the standards to be met by new stationary sources and has done so for the major stationary sources of air pollution. This means that a new facility covered by the regulations must install state of the art control technology, even if it is locating in an area where the air quality is better than that required by law. Two major policy objectives underlie this requirement: (1) to provide a level playing field for new industry irrespective of where it locates and (2) to gradually improve air quality by requiring state of the art controls whenever a new facility is built.

The act also requires that facilities that undergo major modifications—defined as physical changes that result in significant increases in emissions of air pollutants—

must go through a preconstruction review, obtain a permit, and meet the same new source performance standards or limits on emissions that must be met by new facilities. The rationale for imposing these standards when a new facility is built, or an existing facility undergoes a major modification, is that is the easiest time to design and incorporate state-of-the-art environmental controls into the facility. Routine maintenance, repair, and replacement activities, increases in hours of production, and physical changes that are not accompanied by increases in emissions are excluded from the definition of modification.

The preconstruction review process that is required—known as **new source review**—is the subject of very contentious debate and various proposals to modify it. Industry is concerned that the process slows down its ability to make changes to increase efficiency, take advantage of new technologies, or gain a competitive edge, while environmentalists claim that some companies are increasing emissions and avoiding the installation of required controls on emissions.

In the case that follows, *United States v. Ohio Edison Company*, the court rejected a utility's argument that its work on its coal-fired electric generating units was "routine maintenance, repair, and replacement" and thus exempt from the preconstruction review and permitting requirements applicable to facilities that are "modified" resulting in a significant increase in their emissions.

United States v. Ohio Edison Company

276 F. Supp.2d 829 (S.D. Ohio 2003)

The Sammis Plant is a coal-fired electric generating plant owned by the Ohio Edison Company and situated along the Ohio River in the Village of Stratton, Ohio. The plant consists of seven separate generating units, numbered 1 through 7. Units 1 through 4 were placed in service from 1959 to 1962, Unit 5 in 1967, Unit 6 in 1969, and Unit 7 in 1971.

Coal-fired power plants, such as the Sammis Plant, generate electricity using three major components: the boiler, turbine, and generator. The boiler is a large building-like structure (150–200 feet high) in which coal is burned inside the furnace and the energy from the combustion process is converted to water to produce steam. The steam is then directed to the turbine where it is further converted to mechanical energy in the form of a spinning turbine shaft, which in turn drives the generator that produces electricity. The walls, roof, and floor of the boiler are comprised of tubes, as are the other major components of the boiler, which are made up of densely packed assemblies of tubes that incrementally raise the temperature of the steam before it leaves the boiler to generate electricity.

The Sammis units are fueled by pulverized coal (coal that has been ground to a powdery consistency) that is fed through pipes to burners where it is ignited and combusts within the furnace area of the boiler. In the combustion of coal, chemical energy, gas by-products, and particulate matter are released. The gases are known as flue gas. The flue gases produced from the combustion process form carbon dioxide, carbon monoxide, sulfur dioxide, and nitrogen oxides. The flue gases are discharged to the atmosphere. At the time the seven units were built, Ohio Edison installed electrostatic precipitators to collect fly ash coming out of the boilers. At the time of installations, the precipitators were state-of-the-art technology. Over time the tubing that is in contact with the flue gases, combusting coal, and water inside the tubing deteriorates and periodically must be replaced.

Fossil fuel-fired generating stations have traditionally been built with an assumed nominal design and economic life of about 30 years. The implicit expectation was that these units would be replaced at the end of this period with new units that would meet load requirements and, through the use of technological improvements, produce power at lower cost, higher availability, and higher efficiency. For a number of reasons, these expectations have not been realized, and many utility companies have undertaken so-called "life extension" projects which offer the prospect of retaining units in service for 50 to 60 years or longer.

In the 1980s and 1990s Ohio Edison developed a program and undertook 11 projects at the Sammis with the purpose of extending the life of the seven units and making them more efficient. The projects went beyond the normal replacement of tubing and focused on other components that would require repair or replacement in the next 30 years. All of the projects involved replacement of major components that had never before been replaced on the particular units. The total cost of the projects was approximately \$136.4 million. By replacing aging or deficient components, Ohio Edison intended and achieved a significant increase in the operation and output of the units. In turn, the amount of emission of sulfur dioxide, nitrogen oxides, and particulate matter also increased. The vast majority of the expenditures were treated for accounting purposes as capital, as opposed to maintenance, expenses. Most of the work was performed by outside contractors, as opposed to in-house maintenance crews.

Sargus, Judge

This case highlights an abysmal breakdown in the administrative process following the passage of the landmark Clean Air Act in 1970. For thirty-three years, various administrations have wrestled with and, to a great extent, have avoided a fundamental issue addressed in the Clean Air Act, that is, at what point plants built before 1970 must comply with new air pollution standards. The Clean Air Act requires plants constructed after 1970 to meet stringent air quality standards, but the Act exempts old facilities from compliance with the law, unless such sites undergo what the law identifies as a "modification." Decades later, the United States Environmental Protection Agency, together with the States of Connecticut, New Jersey, and New York, ask this Court to find that eleven construction projects undertaken between 1984 and 1998 on the seven electric generating units at the Sammis Plant constituted modifications, requiring Ohio Edison to bring the units into compliance with current ambient air quality standards.

By any standard, the enforcement of the Clean Air Act with regard to the Sammis Plant has been disastrous. From a public health perspective, thirty-three years after passage of the Act, the plant to this day emits on an annual basis 145,000 tons of sulphur dioxide, a pollutant injurious to the public health. From an employment perspective, Ohio Edison has chosen to meet other statewide and regional air quality standards by switching to out-of-state, low-sulphur coal, a strategy which in conjunction with other utilities has caused a huge loss of coal mining and related jobs in Ohio. From the standpoint of Ohio Edison, since 1970 the company has invested over \$450 million to install pollution control devices on the Sammis units yet still fails to meet the new source pollution standards. Thirty-three years later, the air is still not clean, tens of thousands of jobs have been lost, and enforcement by the EPA has been highly inconsistent.

As is described in detail below, the original and current language of the Clean Air Act requires that an older plant undergoing a modification thereafter comply with new air quality standards. Regulations issued under the Clean Air Act by the U.S. EPA may not conflict with statutory language enacted into law by Congress. EPA regulations give further definition as to what types of projects are to be viewed as modifications which trigger the application of new air quality standards to an older facility. These statutory and regulatory definitions are at issue here.

With regard to this case, the parties have litigated at this juncture whether the eleven projects at the Sammis units have triggered application of the standards set forth in the 1977 amendments to the Clean Air Act. The questions resolved today by this Court are legal in nature. In contrast, in the next phase of this case, the remedies the Court may consider and impose involve a much broader, equitable analysis, requiring the Court to consider air quality, public health, economic impact, and employment consequences. The Court may also consider the less than consistent efforts of the EPA to apply and enforce the Clean Air Act.

The issues presented in this lawsuit turn on an interpretation of the term "modification." Congress provided in the Clean Air Act that any modification of a plant triggered application of the Act and later amendments. The Administrator of the EPA has refined, by regulation, the definition of modification to include only activities which involve both a physical change to a unit and a resulting significant increase in emissions. Excluded from the definition of modification are projects involving only "routine maintenance, repair or replacement."

In this case, Ohio Edison undertook eleven construction projects at the seven Sammis Units. The total cost of the projects was approximately \$136.4 million. The documents prepared to justify the expenditures described the various purposes of the

projects to include replacement of major components to increase both the life and the reliability of the units. A primary goal of the projects was to prevent or at least diminish the number and duration of outages, meaning unplanned periods of time when the unit was offline and unproductive.

By physically replacing aging or deficient components, Ohio Edison intended and achieved a significant increase in the operation and output of the units. In turn, the amount of emission of sulphur dioxide, nitrogen oxides, and particulate matter also increased.

If the projects were modifications, as used in the Clean Air Act, Ohio Edison was required prior to construction to project and calculate postconstruction emissions to determine if the new standards applied. Further, if the projects were modifications, Ohio Edison was required to obtain a preconstruction permit. Because the company contended the projects were not modifications but were instead “routine maintenance, repair and replacement,” neither of those courses was pursued. The EPA and state plaintiffs contend that all eleven projects constituted modifications.

While the analysis required to distinguish between a modification sufficient to trigger compliance from routine maintenance, repair and replacement is complex, the distinction is hardly subtle. Routine maintenance, repair and replacement occurs regularly, involves no permanent improvements, is typically limited in expense, is usually performed in large plants by in-house employees, and is treated for accounting purposes as an expense. In contrast to routine maintenance stand capital improvements which generally involve more expense, are large in scope, often involve outside contractors, involve an increase of value to the unit, are usually not undertaken with regular frequency, and are treated for accounting purposes as capital expenditures on the balance sheet. The only two courts which have addressed this issue have essentially adopted this same analysis.

The projects were all intended to result in increased hours of operation as a result of a reduction in the number and length of forced outages, or shutdown for repair or maintenance. A significant decrease in outages results in a significant increase in both production and emissions. Given the actual goals placed on the construction projects by Ohio Edison, and the

substantial increase in emissions certain to follow, the company was required to project future emissions. If those projected increases were substantial, as defined by regulations noted below, preconstruction approval, which was never sought, was required by law.

The eleven projects at issue in this case were extensive, involving a combined outlay of \$136.4 million dollars. The vast majority of the expenditures were treated for accounting purposes as capital, as opposed to maintenance, expenses. Most of the work was performed by outside contractors, as opposed to in-house maintenance crews. The purpose of the projects was to extend the lives of units built before 1970, not simply to perform routine preventative care on components of the units. Finally, all of the projects involved replacement of major components which had never before been replaced on the particular units. As a result, the projects were not routine in any sense of the term, and could have been projected to significantly increase the emission of pollutants.

Congress expressly intended the Clean Air Act and the 1977 Amendments to become applicable to preexisting plants, as such facilities were modified. As noted by the United States Court of Appeals for the Seventh Circuit in *Wisconsin Electric Power Company v. Reilly* (1990):

Congress did not permanently exempt existing plants from these requirements . . . existing plants that have been modified are subject to the Clean Air Act programs at issue here.

Further, as at least one member of the Sixth Circuit has observed:

The purpose of the “modification” rule is to ensure that pollution control measures are undertaken when they can be most effective, at the time of new or modified construction.

National-Southwire Aluminum Co. v. EPA (6th Cir. 1988) (Boggs, J., dissenting).

The eleven projects at issue in this case were major modifications sufficient to trigger application of the Clean Air Act and subsequent amendments.

Judgment for United States and other plaintiffs.

Permits In the 1990 amendments to the Clean Air Act, Congress established a permit system whereby major sources of air pollution—particularly those subject to the New Source Performance Standards, air toxics, nonattainment, and acid rain provisions of the act—as well as certain other sources have to obtain permits that specify the limits on emissions from the sources. The

permits also contain monitoring and reporting requirements. Once a state permitting program is approved by EPA, the permits are issued by the state in which a facility is located. A controversial issue in the permitting regulations is when a source has to seek a modification of a permit because of process or operational changes that might increase emissions. If a modification to a permit

CYBERLAW IN ACTION

Online Permitting

The Clean Air Act, the Clean Water Act, and the Resource Conservation and Recovery Act, as well as a number of other federal and local environmental laws, require certain businesses to obtain permits and to periodically report their discharges and/or other information to administrative agencies by filing permits or monitoring reports. Now the EPA and most, if not all, states make permit applications and monitoring report forms available online. In addition, some states make specific companies' reports, or permit files, available to the public on their Web sites. Online permit and report transactions can streamline the process of complying with environmental law and regulations.

Also, businesses can quickly access information on their competition's compliance with environmental standards by viewing, or ordering, their competitors' monitoring reports and permits on the Internet. Such information might provide insight into what materials another company is using in its processes—or how product volume may be changing over time. Moreover, the online permitting and reporting systems make environmental regulations more transparent, which helps ensure that businesses and regulatory agencies remain accountable to the public. (See, for example, www.epa.gov/airmarkets/arp/permits/index.html, www.in.gov/idem/air/permits/Air-Permits-Online/index.html)

is required by an anticipated change, this can greatly complicate the timely execution of business plans.

Enforcement The primary responsibility for enforcing air quality standards lies with the states, but the federal government has the right to enforce the standards where the states fail to do so. The Clean Air Act also provides for suits by citizens to force industry or the government to fully comply with the act's provisions.

Automobile Pollution The Clean Air Act provides specifically for air pollution controls on transportation sources such as automobiles. The major pollutants from automobiles are carbon monoxide, hydrocarbons, and nitrogen oxides. Carbon monoxide is a colorless, odorless gas that can dull mental performance and even cause death when inhaled in large quantities. Hydrocarbons, in the form of unburned fuel, are part of a category of air pollutants known as volatile organic compounds (VOCs). VOCs combine with nitrogen oxides under the influence of sunlight to become ozone—we know it as smog.

The 1970 Clean Air Act required a reduction of 90 percent of the carbon monoxide and hydrocarbons emitted by automobiles by 1975 and a 90 percent reduction in the nitrogen oxides emitted by 1976. At the time, these requirements were “technology forcing”; that is, the manufacturers could not rely on already existing technology to meet the standards but rather had to develop new technology. Ultimately, most manufacturers had to go beyond simply making changes in engine design and utilize pollution control devices known as catalytic converters.

Subsequently, Congress addressed the question of setting even more stringent limits on automobile emissions while at the same time requiring that the new automobiles get better gas mileage. The 1990 amendments require further limitations on emissions from tailpipes, the development of so-called clean-fueled vehicles (such as electric and natural gas fueled vehicles) for use in cities with dirty air, and the availability of oxygenated fuels (which are cleaner burning) in specified areas of the country that are having difficulty meeting the air quality limits at least part of the year. These new requirements have significant ramifications for the oil and automobile industries.

Under the Clean Air Act, no manufacturer may sell vehicles subject to emission standards without prior certification from EPA that the vehicles meet the required standards. The tests are performed on prototype vehicles and if they pass, a certificate of conformity covering that type of engine and vehicle is issued. EPA subsequently can test vehicles on the assembly line to make sure that the production vehicles covered by the certificate are meeting the standards. The manufacturers are required to warrant that the vehicle, if properly maintained, will comply with the emission standards for its useful life. If EPA discovers that vehicles in actual use exceed the emission standards, it may order the manufacturer to recall and repair the defective models; this is a power that EPA has exercised on a number of occasions.

The act also provides for the regulation and registration of fuel additives such as lead. In the 1980s, lead was largely phased out of use as an octane enhancer in gasoline. As indicated previously, the 1990 amendments

The Global Business Environment

International Air Problems

During the late 1970s and 1980s, concern developed that the release of chlorine-containing substances such as chlorofluorocarbons (CFCs) used in air conditioning, refrigeration, and certain foam products was depleting the stratospheric ozone layer. This could lead to more ultraviolet radiation reaching the earth and, in turn, more skin cancer. Subsequently, a number of nations, acting under the aegis of the United Nations, signed a treaty agreeing first to limit any increases in production of chlorine-containing substances and ultimately to significantly phase out their use. The 1990 amendments to the Clean Air Act implement the obligations of the United States under the treaty and provide for the phasedown and phaseout of a number of chlorofluorocarbons; accordingly, many businesses have developed or located substitutes for those chemicals that are available only in reduced quantities, if at all.

Other air pollution issues with international dimensions that may result in multinational control efforts are acid rain and global warming/climate change resulting, in part, from increased emissions of carbon dioxide to the atmosphere.

Currently, the issue of global warming/climate change is the focus of considerable debate, discussion, and some action by governments and private entities. The crux of the issue is whether human activity, primarily in the form of increased emissions of carbon dioxide to the atmosphere, is creating conditions that over time are resulting in the warming of the earth's atmosphere, a rise in sea level, an increase in number and severity of various weather events, and changes in the climate in many parts of the world. An international treaty known as the Koyoto Treaty was drafted with the intention of addressing this issue through collective international action. While it was signed by many nations, it has generated significant controversy in many countries, including the United States, and only recently was ratified by the required number of countries to bring it into effect. The issue raises important concerns for many kinds of businesses including insurance companies, producers and users of fossil fuels, and producers of products such as motor vehicles that emit carbon dioxide and may at some point be subjected to controls under either domestic or international regimes.

Ethics in Action

If It's Legal, Is It Ethical?

Suppose a manufacturing facility emits into the air a chemical that it has reason to believe is inadequately regulated by EPA and that poses a significant threat to nearby

residents even at levels lower than permitted by EPA. As manager of the facility, would you be satisfied to meet the EPA required level or would you install the additional controls you believe necessary to achieve a reasonably safe level?

provide for the availability of alternative fuels based on ethanol and methanol.

Climate Change

As noted in the Global Business Environment box "International Air Problems," the issue of global warming/climate change is one of the major issues of our time with potentially significant implications for business. These implications turn on the extent, nature, pace, and location of possible warming-induced changes as well as on the reactions and the policy decisions of individuals, businesses, and governments to those changes. The issue also holds potential business opportunities for individuals and firms, and many are developing business plans to try to take advantage of the issue.

The next few years will likely see continued debate and discussion of global warming/climate change and the appropriate responses to it. As of 2009, the United States does not have a comprehensive legal regime in place to address the environmental and energy-related aspects of the issue. In the absence of such a federal response, a number of organizations and state and local governments have sought to use litigation to force the federal government to take some steps using existing authority. The case that follows, *Massachusetts v. EPA*, illustrates such an effort, which ended with the Supreme Court, on a 5–4 vote, agreeing that EPA had not provided sufficient legal justification to refuse to exercise legal authority it had to regulate greenhouse gas emissions from automobiles.

Massachusetts v. Environmental Protection Agency

127 S.Ct. 1438 (2007)

On October 20, 1999, a group of 19 private organizations filed a rulemaking petition asking EPA to regulate “greenhouse gas emissions from new motor vehicles under § 202 of the Clean Air Act.” Petitioners maintained that 1998 was the “warmest year on record”; that carbon dioxide, methane, nitrous oxide, and hydrofluorocarbons are “heat trapping greenhouse gases”; and that greenhouse gas emissions have significantly accelerated climate change. They also noted that in a 1995 report the Intergovernmental Panel on Climate Change, a multinational scientific body organized under the auspices of the United Nations, warned that “carbon dioxide remains the most important contributor to [man-made] forcing of climate change.” The petition further alleged that climate change will have serious adverse effects on human health and the environment. As to EPA’s statutory authority, the petition observed that the agency itself had already confirmed that it had the power to regulate carbon dioxide. In 1998, Jonathan Z. Cannon, then EPA’s general counsel, prepared a legal opinion concluding that “CO₂ emissions are within the scope of EPA’s authority to regulate,” even as he recognized that EPA had so far declined to exercise that authority. Cannon’s successor, Gary S. Guzy, reiterated that opinion before a congressional committee just two weeks before the rulemaking petition was filed.

Fifteen months after the petition’s submission, EPA requested public comment on “all the issues raised in [the] petition,” adding a “particular” request for comments on “any scientific, technical, legal, economic or other aspect of these issues that may be relevant to EPA’s consideration of this petition.” EPA received more than 50,000 comments over the next five months.

Before the close of the comment period, the White House sought “assistance in identifying the areas in the science of climate change where there are the greatest certainties and uncertainties” from the National Research Council, asking for a response “as soon as possible.” The result was a 2001 report titled *Climate Change: An Analysis of Some Key Questions* (NRC Report), which, drawing heavily on the 1995 IPCC report, concluded that “[g]reenhouse gases are accumulating in Earth’s atmosphere as a result of human activities, causing surface air temperatures and subsurface ocean temperatures to rise. Temperatures are, in fact, rising.”

On September 8, 2003, EPA entered an order denying the rulemaking petition. The agency gave two reasons for its decision: (1) that contrary to the opinions of its former general counsels, the Clean Air Act does not authorize EPA to issue mandatory regulations to address global climate change; and (2) that even if the agency had the authority to set greenhouse gas emission standards, it would be unwise to do so at this time.

The petitioners, joined by a number of states and local governments, sought review of EPA’s order in the United States Court of Appeals for the District of Columbia Circuit. Although each of the three judges on the panel wrote a separate opinion, two judges agreed that the EPA administrator properly exercised his discretion under § 202(a)(1) in denying the petition for rulemaking. The court therefore denied the petition for review. The Supreme Court granted a petition for certiorari and agreed to hear the case.

Stevens, Justice

Section 202(a)(1) of the Clean Air Act provides:

The [EPA] Administrator shall by regulation prescribe (and from time to time revise) in accordance with the provisions of this section, standards applicable to the emission of any air pollutant from any class or classes of new motor vehicles or new motor vehicle engines, which in his judgment cause, or contribute to, air pollution which may reasonably be anticipated to endanger public health or welfare. . . .

The Act defines “air pollutant” to include “any air pollution agent or combination of such agents, including any physical, chemical, biological, radioactive . . . substance or matter which is emitted into or otherwise enters the ambient air.” “Welfare” is also defined broadly: among other things, it includes “effects on . . . weather . . . and climate.”

On the merits, the first question is whether § 202(a)(1) of the Clean Air Act authorizes EPA to regulate greenhouse gas

emissions from new motor vehicles in the event that it forms a “judgment” that such emissions contribute to climate change. We have little trouble concluding that it does. In relevant part, § 202(a)(1) provides that EPA “shall by regulation prescribe . . . standards applicable to the emission of any air pollutant from any class or classes of new motor vehicles or new motor vehicle engines, which in [the Administrator’s] judgment cause, or contribute to, air pollution which may reasonably be anticipated to endanger public health or welfare.” Because EPA believes that Congress did not intend it to regulate substances that contribute to climate change, the agency maintains that carbon dioxide is not an “air pollutant” within the meaning of the provision.

The statutory text forecloses EPA’s reading. The Clean Air Act’s sweeping definition of “air pollutant” includes “any air pollution agent or combination of such agents, including any physical, chemical . . . substance or matter which is emitted into or otherwise enters the ambient air. . . .” (emphasis added).

On its face, the definition embraces all airborne compounds of whatever stripe, and underscores that intent through the repeated use of the word “any.” Carbon dioxide, methane, nitrous oxide, and hydrofluorocarbons are without a doubt “physical [and] chemical . . . substance[s] which [are] emitted into . . . the ambient air.” The statute is unambiguous.

Rather than relying on statutory text, EPA invokes postenactment congressional actions and deliberations it views as tantamount to a congressional command to refrain from regulating greenhouse gas emissions. Even if such postenactment legislative history could shed light on the meaning of an otherwise-unambiguous statute, EPA never identifies any action remotely suggesting that Congress meant to curtail its power to treat greenhouse gases as air pollutants. That subsequent Congresses have eschewed enacting binding emissions limitations to combat global warming tells us nothing about what Congress meant when it amended § 202(a)(1) in 1970 and 1977. And unlike EPA, we have no difficulty reconciling Congress’ various efforts to promote interagency collaboration and research to better understand climate change with the agency’s preexisting mandate to regulate “any air pollutant” that may endanger the public welfare. Collaboration and research do not conflict with any thoughtful regulatory effort; they complement it.

EPA finally argues that it cannot regulate carbon dioxide emissions from motor vehicles because doing so would require it to tighten mileage standards, a job (according to EPA) that Congress has assigned to DOT. But that DOT sets mileage standards in no way licenses EPA to shirk its environmental responsibilities. EPA has been charged with protecting the public’s “health” and “welfare,” a statutory obligation wholly independent of DOT’s mandate to promote energy efficiency. The two obligations may overlap, but there is no reason to think the two agencies cannot both administer their obligations and yet avoid inconsistency.

While the Congresses that drafted § 202(a)(1) might not have appreciated the possibility that burning fossil fuels could lead to global warming, they did understand that without regulatory flexibility, changing circumstances and scientific developments would soon render the Clean Air Act obsolete. The broad language of § 202(a)(1) reflects an intentional effort to confer the flexibility necessary to forestall such obsolescence. Because greenhouse gases fit well within the Clean Air Act’s capacious definition of “air pollutant,” we hold that EPA has the statutory authority to regulate the emission of such gases from new motor vehicles.

The alternative basis for EPA’s decision—that even if it does have statutory authority to regulate greenhouse gases, it would be unwise to do so at this time—rests on reasoning divorced from the statutory text. While the statute does condition the

exercise of EPA’s authority on its formation of a “judgment,” that judgment must relate to whether an air pollutant “cause[s], or contribute[s] to, air pollution which may reasonably be anticipated to endanger public health or welfare.” Put another way, the use of the word “judgment” is not a roving license to ignore the statutory text. It is but a direction to exercise discretion within defined statutory limits.

If EPA makes a finding of endangerment, the Clean Air Act requires the agency to regulate emissions of the deleterious pollutant from new motor vehicles. EPA no doubt has significant latitude as to the manner, timing, content, and coordination of its regulations with those of other agencies. But once EPA has responded to a petition for rulemaking, its reasons for action or inaction must conform to the authorizing statute. Under the clear terms of the Clean Air Act, EPA can avoid taking further action only if it determines that greenhouse gases do not contribute to climate change or if it provides some reasonable explanation as to why it cannot or will not exercise its discretion to determine whether they do. To the extent that this constrains agency discretion to pursue other priorities of the Administrator or the President, this is the congressional design.

EPA has refused to comply with this clear statutory command. Instead, it has offered a laundry list of reasons not to regulate. For example, EPA said that a number of voluntary executive branch programs already provide an effective response to the threat of global warming, that regulating greenhouse gases might impair the President’s ability to negotiate with “key developing nations” to reduce emissions, and that curtailing motor-vehicle emissions would reflect “an inefficient, piecemeal approach to address the climate change issue.”

Although we have neither the expertise nor the authority to evaluate these policy judgments, it is evident they have nothing to do with whether greenhouse gas emissions contribute to climate change. Still less do they amount to a reasoned justification for declining to form a scientific judgment. In particular, while the President has broad authority in foreign affairs, that authority does not extend to the refusal to execute domestic laws. In the Global Climate Protection Act of 1987, Congress authorized the State Department—not EPA—to formulate United States foreign policy with reference to environmental matters relating to climate. EPA has made no showing that it issued the ruling in question here after consultation with the State Department. Congress did direct EPA to consult with other agencies in the formulation of its policies and rules, but the State Department is absent from that list.

Nor can EPA avoid its statutory obligation by noting the uncertainty surrounding various features of climate change and concluding that it would therefore be better not to regulate at this time. If the scientific uncertainty is so profound that it precludes EPA from making a reasoned judgment as to whether

greenhouse gases contribute to global warming, EPA must say so. That EPA would prefer not to regulate greenhouse gases because of some residual uncertainty is irrelevant. The statutory question is whether sufficient information exists to make an endangerment finding.

In short, EPA has offered no reasoned explanation for its refusal to decide whether greenhouse gases cause or contribute to climate change. Its action was therefore arbitrary, capricious, or otherwise not in accordance with law. We need not and do

not reach the question whether on remand EPA must make an endangerment finding, or whether policy concerns can inform EPA's actions in the event that it makes such a finding. We hold only that EPA must ground its reasons for action or inaction in the statute.

The judgment of the Court of Appeals is reversed, and the case is remanded for further proceedings consistent with this opinion.

Water Pollution

Background History is replete with plagues and epidemics brought on by poor sanitation and polluted water. Indeed, preventing waterborne disease has always been the major reason for combating water pollution. In the early 1970s, fishing and swimming were prohibited in many bodies of water, and game fish could no longer survive in some waters where they had formerly thrived. Lake Erie was becoming choked with algae and considered to be dying. The nation recognized that water pollution could affect public health, recreation, commercial fishing, agriculture, water supplies, and aesthetics. During the 1970s, Congress enacted three major statutes to protect our water resources: the Clean Water Act; the Marine Protection, Research, and Sanctuaries Act; and the Safe Drinking Water Act.

Early Federal Legislation Federal water pollution legislation dates back to the 19th century when Congress enacted the River and Harbor Act of 1886. In fact, this statute, recodified in the River and Harbor Act of 1899, furnished the legal basis for EPA's initial enforcement actions against polluters. The act provided that people had to obtain a discharge permit from the Army Corps of Engineers to deposit or discharge refuse into a navigable waterway. Under some contemporary court decisions, even hot water discharged from nuclear power plants was considered refuse. The permit system established pursuant to the "Refuse Act" was replaced in 1972 by a more comprehensive permit system now administered by EPA.

Clean Water Act The 1972 amendments to the Federal Water Pollution Control Act (FWPCA)—known as the Clean Water Act—were as comprehensive in the water pollution field as the 1970 Clean Air Act was in the

air pollution field. They proclaimed two general goals for this country: (1) to achieve wherever possible by July 1, 1983, water clean enough for swimming and other recreational uses and clean enough for the protection and propagation of fish, shellfish, and wildlife; and (2) to have no discharges of pollutants into the nation's waters by 1985. These goals reflected a national frustration with the lack of progress in dealing with water pollution and a commitment to end such pollution. The new law set out a series of specific actions that federal, state, and local governments and industry were to take by certain dates and also provided strong enforcement provisions to back up the deadlines. In 1977 and again in 1987, Congress modified the 1972 act by adjusting some of the deadlines and otherwise fine-tuning the act.

Under the Clean Water Act, the states have the primary responsibility for preventing, reducing, and eliminating water pollution. The states have to do this within a national framework, and EPA is empowered to move in if the states do not fulfill their responsibilities.

Discharge Permits The keystone of the Clean Water Act is a prohibition against persons discharging pollutants from "point sources" into "waters of the United States" except in compliance with the requirements of the act; these requirements normally include obtaining a permit from the federal or state government for the discharge. Thus anyone who discharges industrial wastewater (wastewater that contains pollutants) from a point source (such as a pipe or ditch) into a river must obtain a **National Pollution Discharge Elimination System (NPDES) permit** from the state where the discharge takes place or from EPA. Similarly, anyone who discharges wastewater, other than just domestic sewage, to a publicly owned treatment works (POTW) must obtain what is known as an **industrial discharge permit** from the local sewage treatment plant where the discharge is being sent or from the state.

Typically, these permits (1) establish limits on the concentration and amount of various pollutants that can be discharged; and (2) require the discharger to keep records, to install equipment to monitor the discharges, and report the monitoring results to the state environmental agency. All of the permits contain limits established by EPA in the form of **nationally applicable, technology-based effluent limits**. In the case of the industrial discharge permits, the limitations are known as **pretreatment standards** because they normally require the discharger to provide some on-site treatment of the wastewater before it enters the sewer system. For industries that discharge directly into rivers, the technology-based limits established by EPA can be tightened if necessary to ensure that the water quality standards established by the state for that body of water are met and the designated uses protected.

Water Quality Standards The act continued and expanded the previously established system of setting *water quality standards* by designating, and establishing limits to protect, the uses of specific bodies of water for recreation, public water supply, propagation of fish and wildlife, and agricultural and industrial water supply.

Then, the maximum daily loads of various pollutants are set so that the water is suitable for the designated use. The final step is to establish limits on individual dischargers of pollutants so that the water quality standards will be met.

Enforcement Both civil and criminal sanctions are included in the act. Criminal penalties for violating the law range from a minimum of \$2,500 for a first offense up to \$50,000 per day and two years in prison for subsequent violations. The act is enforced by federal and state governments. In addition, any citizen or group of citizens whose interests are adversely affected has the right to bring a court action against anyone violating an effluent standard, limitation, or order issued by EPA or a state. A significant number of cases have been brought by citizen-action groups against firms whose wastewater discharges exceeded the limits of their discharge permits. Citizens also have the right to take court action against EPA if it fails to carry out mandatory provisions of the law.

In the case that follows, *United States v. Hopkins*, a corporate officer was convicted and sentenced to prison for falsifying reports to the government concerning the discharge of pollutants.

United States v. Hopkins

53 F.3d 533 (2d Cir. 1995)

Spirol International Corporation is a manufacturer of metal shims and fasteners located in northeastern Connecticut. Spirol's manufacturing operation involves a zinc-based plating process that generates substantial amounts of wastewater containing zinc and other toxic materials; this wastewater is discharged into the nearby Five Mile River. The U.S. Environmental Protection Agency (EPA) has delegated to the State of Connecticut's Department of Environmental Protection (DEP) the authority to administer the Clean Water Act provisions applicable to Spirol's discharges into the river. In 1987, Spirol entered into a consent order with DEP requiring Spirol to pay a \$30,000 fine for past violations and to comply in the future with discharge limitations specified in the order. In February 1989, DEP issued a modified "wastewater discharge permit" imposing more restrictive limits on the quantity of zinc and other substances that Spirol was permitted to release into the river.

From 1987 through September 6, 1990, Robert Hopkins was Spirol's vice president for manufacturing. Hopkins signed the 1987 consent decree on behalf of Spirol and had the corporate responsibility for ensuring compliance with the order and the DEP permit. The DEP permit required Spirol each week to collect a sample of its wastewater and send it to an independent laboratory by Friday morning of that week. Spirol was required to report the laboratory results to DEP in a discharge monitoring report once a month. Under the DEP permit, the concentrations of zinc in Spirol's wastewater were not to exceed 2.0 milligrams per liter in any weekly sample, nor to average more than one milligram per liter in any month.

During the period March 1989 to September 1990, Spirol began its weekly sampling process on Monday. A composite sample was taken and analyzed in house. If it contained less than one milligram of zinc, it was sent to the independent laboratory with a "chain of custody" record signed by Hopkins. However, if it exceeded one milligram of zinc, it was discarded and another sample taken and tested the following day. In 54 of the 78 weeks, the samples were sent to the laboratory later than Tuesday. If the Wednesday sample also failed the in-house test, Hopkins would sometimes order that it be discarded and another taken on Thursday, but more often he instructed his subordinates doing the testing to dilute the sample with tap water or to reduce the zinc concentration using an ordinary coffee filter. Any Friday sample that failed the in-house test was always

diluted or filtered so that a good sample could be sent to the laboratory by the Friday deadline. In some samples sent to the laboratory there was more tap water than wastewater.

During this period Hopkins filed with DEP monthly discharge monitoring reports consolidating the weekly tests from the independent laboratory. The reports showed no zinc concentrations above one milligram per liter. On each report, Hopkins signed the following certification.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who administer the system, or those persons directly responsible for gathering the information, the information is, to the best of my knowledge and belief, true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Contrary to Hopkins's certifications, his subordinates testified that he had caused the samples to be tampered with about 40 percent of the time. On some 25–30 occasions when he had been told that a satisfactory sample had finally been obtained by means of dilution or filtration, Hopkins responded, "I know nothing, I hear nothing." Hopkins was told that the testing procedures were improper, yet he continued to sign the certifications and Spirol continued its discharges into the river.

In December 1993, Hopkins was charged in a three-count indictment alleging (1) that he had knowingly falsified or tampered with Spirol's discharge sampling methods, (2) that he had knowingly violated the conditions of the permit, and (3) that he had conspired to commit those offenses. Hopkins was convicted following a jury trial and sentenced to 21 months in prison, with two years probation following that, and a \$7,500 fine. Hopkins appealed, arguing that the government should have been required to prove that he intended to violate the law and that he had specific knowledge of the particular statutory, regulatory or permit requirements imposed under the Clean Water Act. The government contended that it was enough to prove that he had acted voluntarily or intentionally to falsify, tamper with, or render inaccurate a monitoring method—or to violate the permit—and that he did not do so by mistake, accident, or other innocent reason.

Kearse, Circuit Judge

Subsection (2) of section 1319(c), whose violation was alleged in count two of the indictment, establishes criminal penalties, including fines of up to \$50,000 per day and imprisonment for up to three years, for "any person" who, inter alia, knowingly violates section 1311, 1312, 1316, 1317, 1318, 1321(b)(3), 1328, or 1345 of [Title 33], or any permit condition or limitation implementing any of such sections in a permit issued under [the Clean Water Act] by the Administrator or by a State.

Hopkins contends that the district court should have instructed the jury that it could not find him guilty of violating this section unless it found that he knew he was acting in violation of the CWA or the DEP permit. We disagree.

Section 1319(c)(2)(A) itself does not expressly state whether the adverb "knowingly" is intended to require proof that the defendant had actual knowledge that his conduct violated any of the statutory provisions that follow the phrase "knowingly violates" or had actual knowledge that his conduct violated a permit condition. As a matter of abstract logic, it would seem that a statute making it unlawful to "knowingly violate" a given statutory or permit provision would require proof that the defendant both violated and knew that he violated that provision. In defining the mental state required for conviction under a given statute, however, the courts must seek the proper "inference of the intent of Congress."

In *United States v. International Minerals & Chemical Corp.* ("International Minerals"), the Court construed a statute that authorized the Interstate Commerce Commission ("ICC") to promulgate regulations governing the transport of corrosive liquids and imposed criminal penalties on those who "knowingly violated any such regulation." The Court held that the quoted phrase required the government to prove only that the defendant knew the nature of his acts, not that he knew his acts violated an ICC regulation. The Court stated that "where . . . dangerous or deleterious devices or products or obnoxious waste materials are involved, the probability of regulation is so great that anyone who is aware that he is in possession of them or dealing with them must be presumed to be aware of the regulation." Applying this presumption of awareness, the Court concluded that the phrase "knowingly violated any [ICC] regulation" was meant to be a "shorthand" method of referring to the acts or omissions contemplated by the statute.

Noting the general rule that ignorance of the law is no excuse, the court declined to attribute to Congress the inaccurate view that use of the word "knowingly" would require proof of knowledge of the law, as well as the facts. The mens rea presumption requires knowledge only of the facts that make the defendant's conduct illegal, lest it conflict with the related presumption, deeply rooted in the American legal system, that

ordinarily ignorance of the law or a mistake of law is no defense to criminal prosecution.

This court in *United States v. Laughlin* applied the *International Minerals* “presumption of awareness of regulation” in construing provisions of the Resource Conservation and Recovery Act (“RCRA”) and the Comprehensive Environmental Response, Compensation and Liability Act (“CERCLA”). RCRA provides for the imposition of criminal penalties against any person who “knowingly treats, stores, or disposes of any hazardous waste identified or listed under [RCRA]” without a permit. We held that this provision did not require the government to prove that the defendant knew that the waste he dealt with was identified or listed under RCRA or that he lacked a disposal permit. Rather, we held that the government need prove only that the defendant knew the nature of the hazardous waste matter with which he dealt.

For several reasons, we view the presumption of awareness of regulation, applied to the ground-pollution offenses in *Laughlin*, to be equally applicable to the phrase “knowingly

violates [the specified sections or permit]” in section 1319(c)(2)(A). Congress considered discharges of hazardous waste onto the ground, which are regulated in RCRA, as no less serious than such discharges into water. Further, the CWA sections to which section 1319(c)(2)(A) refers regulate a broad range of pollutant discharges, including “water quality related effluents,” “toxic pollutants” listed in accordance with section 1317(a), “oil and hazardous substances,” and “sewage sludge.” The vast majority of these substances are of the type that would alert any ordinary user to the likelihood of stringent regulation. Moreover, the very fact that a governmental permit has been issued enhances the user’s awareness of the existence of regulation.

Thus, we conclude that the purpose and legislative history of section 1319(c)(2)(A) indicate that Congress meant that that section would be violated if the defendant’s acts were proscribed, even if the defendant was not aware of the proscription.

Judgment of conviction affirmed.

Wetlands Another aspect of the Clean Water Act having the potential to affect businesses as well as individual property owners is the wetlands provision. Commonly, wetlands are transition zones between land and open water. Under Section 404 of the act, any *dredging or filling* activity in a wetland that is connected to the waters of the United States—as well as in any water of the United States—requires a permit before any activity

begins. The permit program is administered by the Army Corps of Engineers, with the involvement of the Environmental Protection Agency.

As can be seen in the *Bersani* case, which follows, the permit requirement can significantly limit a landowner’s use of his property where the fill activity is viewed as injurious to the values protected by the act.

Bersani v. U.S. Environmental Protection Agency 674 F.Supp. 405 (N.D.N.Y. 1987) aff’d 395 F.2d 36 (2d Cir. 1988)

Pyramid Companies was an association of partnerships in the business of developing, constructing, and operating shopping centers; John Bersani was a principal in one of the partnerships. In 1983, Pyramid became interested in developing a shopping mall in the Attleboro, Massachusetts, area and focused its attention on an 82-acre site known as Sweden’s Swamp along an interstate highway in South Attleboro. The project contemplated altering or filling some 32 acres of the 49.6 acres of wetlands on the property. At the same time, Pyramid planned to excavate 9 acres of uplands (nonwetlands) to create new wetlands and to alter some 13 acres of existing wetlands to enhance their value for fish and wildlife.

In 1984, Pyramid applied to the U.S. Army Corps of Engineers for a permit under Section 404 of the Clean Water Act to do the dredge and fill work in the wetlands. As part of its application, it was required to submit information on practicable alternative sites for its shopping mall. One site subsequently focused on by the Corps and the Environmental Protection Agency was about three miles north in North Attleboro. Pyramid relied on several factors in claiming that the site was not a practicable alternative to its proposed site: namely, the site lacked sufficient traffic volume and access from local roads, potential department store tenants had expressed doubts about the feasibility of the site, and previous attempts to develop the site had met with strong resistance from the surrounding community. However, after Pyramid examined the site, another major developer of shopping centers had taken an option to acquire the property.

The New England Division Engineer of the Corps recommended that the permit be denied because a practicable alternative with a less adverse effect on the environment existed. The Chief of Engineers directed that the permit be issued, noting that the alternative site was not available to Pyramid because it was owned by a competitor. He also believed that even if it was considered available, Pyramid had made a convincing case that the site would not fulfill its objectives for a successful project. EPA then exercised its prerogative under the Clean Water Act to veto the permit on the grounds that filling Sweden's Swamp to build the shopping mall would have an unacceptable adverse effect on the environment. In its view, another less environmentally damaging site had been available to Pyramid at the time it made its site selection; thus, any adverse effects on Sweden's Swamp were avoidable. Bersani and Pyramid then brought suit challenging the denial of its permit application.

McAvo, Judge

Section 404(a) authorizes the Secretary of the Army, acting through the Corps, to issue permits for the discharge of dredged or fill material at specified disposal sites. Criteria developed by the EPA in conjunction with the Corps govern these permitting decisions. Generally, the Corps must employ a "practicable alternative" analysis in determining whether to allow a proposed discharge. Section 230.10 of the regulations provides:

(a) . . . no discharge of dredged or fill material shall be permitted if there is a practicable alternative to the proposed discharge which would have less adverse impact on the aquatic ecosystem, so long as the alternative does not have other significant adverse environmental consequences. (2) An alternative is practicable if it is available and capable of being done, after taking into account cost, existing technology, and logistics in light of overall project purposes. If it is otherwise a practicable alternative, an area not presently owned by the applicant which could reasonably be obtained, utilized, expanded or managed in order to fulfill the basic purpose of the proposed activity may be considered. (3) Where the activity associated with a discharge which is proposed for a special aquatic site (including a wetland) does not require access or proximity to or siting within the special aquatic site in question to fulfill its basic purpose (i.e., is not "water dependent"), practicable alternatives that do not involve special aquatic sites are presumed to be available unless clearly demonstrated otherwise. In addition, where a discharge is proposed for a special aquatic site, all practicable alternatives to the proposed discharge which do not involve a discharge into a special aquatic site are presumed to have less adverse impact on the aquatic ecosystem, unless clearly demonstrated otherwise.

Where the proposed discharge involves a special aquatic site such as wetlands, a more stringent standard is imposed. Indeed Section 230.10(a)(3) creates a presumption that a practicable alternative exists when the discharge involves wetlands and the activity, here a shopping mall, is not "water dependent." Then the applicant must "clearly demonstrate" that no such alternative does in fact exist.

Pyramid argues that EPA's determination of feasibility was based on its erroneous conclusion that the marketplace considered the North Attleboro site suitable for a virtually identical regional shopping mall. Pyramid notes that six other shopping center developers over the past 15 years have tried and failed to develop the North Attleboro site as a shopping center. It contends that EPA has substituted its own judgment for that of the marketplace in an area in which it cannot claim expertise. The EPA, however, contends that it did not simply substitute its judgment for that of the developer. Instead, the EPA argues that the evidence on the record demonstrates that the North Attleboro site is suitable in fact for a regional shopping center mall virtually identical to that proposed by Pyramid. In this respect, the fact that a competing developer, the New England Development Company, had found the site suitable for a similar shopping mall and its own marketing analysis weighed in reaching this decision. The EPA also engaged in a review of the specific features that Pyramid found objectionable; namely, the distance from the primary trade area, lack of visibility from nearby highways, zoning, past failures of prior attempts to develop a shopping mall at the site, and various considerations. Consequently, the court finds that EPA's feasibility determination was not arbitrary.

Summary judgment granted for EPA.

Ocean Dumping The Marine Protection, Research, and Sanctuaries Act of 1972 set up a permit system regulating the dumping of all types of materials into ocean waters. EPA has the responsibility for designating

disposal sites and for establishing the rules governing ocean disposal. The Ocean Dumping Ban Act of 1987 required that all ocean dumping of municipal sewage sludge and industrial wastes be terminated by December 31,

The Global Business Environment

International Voluntary Consensus Standards and Certification: ISO 14000 Environmental Management Standards

Today, national and international companies competing in a global economy face a daunting array of challenges, including complying with increasingly complex environmental regulations in those countries in which they operate or do business. And, differing national standards cannot only create nontariff trade barriers but also increase costs and the difficulty of doing business. Managers who want to be proactive in systematically improving the environmental performance of their organization can adopt and follow the ISO 14000 series of environmental management standards.

The ISO, located in Geneva, Switzerland, was founded in 1947 to promote the development of international manufacturing, trade, and communication standards. The ISO standards—which are international voluntary consensus standards—are developed with input from industry, government, and other interested parties. The standards have legal standing only if actually adopted by a country—but they have been utilized by many organizations on a voluntary basis. In addition to the performance enhancement that can be obtained by following the standards, in some instances certification of compliance with the standards can lead to competitive advantages and/or may be necessary to do certain types of business.

The most prominent of the ISO standards is the worldwide quality standard, ISO 9000. The standard provides organizations with a process for producing quality products through a systems approach that involves all phases of production. You may have encountered these standards in other business school classes. They have been adopted by many countries and utilized by many organizations—and more than 100,000 ISO 9000 certificates have been issued worldwide.

Development of the ISO 14000 series of standards began in 1993 and the initial set of standards were finalized in 1996. These include (1) ISO 14001 Environmental management systems—specification with guidance for use; (2) ISO 14004 Environmental management systems—general guidelines on principles, systems, and supporting techniques; (3) ISO 14010 Guidelines for environmental auditing—general principles; (4) ISO 14011 Guidelines for environmental auditing—audit procedures—Part 1: Auditing of environmental management programs; (5) ISO Guidelines for environmental auditing—qualification criteria for environmental auditors; (6) ISO 14024 Environmental labeling—guidance principles, practices, and criteria for multiple criteria-based practitioner programs (Type 1)—guide for certification procedures; (7) ISO 14040 Life-cycle assessment—principles and guidelines; and (8) ISO Guide for the inclusion of environmental aspects in product standards.

Organizations can be certified that they comply with ISO 14001. Certification is a procedure by which a third party gives written assurance that a product, process, or service conforms to the specific requirements of the ISO standard. An organization that obtains ISO certification can claim that it has an environmental management system (EMS) meeting the ISO standards that has been implemented and is being consistently followed. This certification would be based on an audit of the EMS system by the third-party certifier. It should be noted that the certification goes to the nature of the management system employed by the organization—and does not give it a basis for claiming that its products or services are environmentally superior to those of other organizations. However, such certification can be either a matter of competitive advantage—or of necessity—as some companies will only do business with ISO certified entities. In the United States, the American National Standards Institute (ANSI) is the organization responsible for certifying that an organization meets the requirements of ISO 14001.

1991. Thus, the major remaining questions of ocean dumping concern the disposal of dredge spoils from dredging to keep harbors open.

Drinking Water In 1974, Congress passed, and in 1986 and in 1996 amended, the Safe Drinking Water Act that is designed to protect and enhance the quality of our drinking water. Under the act, EPA sets *primary drinking water standards*, minimum levels of quality for water consumed by humans. The act also establishes a program governing the injection of wastes into wells. The primary

responsibility for complying with the federally established standards lies with the states. Where the states fail to enforce the drinking water standards, the federal government has the right to enforce them.

A significant number of suppliers of drinking water are privately owned—and they, as well as the publicly owned systems, have to be concerned with meeting the federal standards. In addition, factories, trailer parks, schools, and other entities that draw drinking water from wells and provide it within their facility can find that they are also subject to the drinking water regulations.

Waste Disposal

Background Historically, concern about the environment focused on decreasing air and water pollution as well as protecting natural resources and wildlife. People paid relatively little attention to the disposal of wastes on land. Until the early 1970s, much of the solid and hazardous waste generated was disposed of in open dumps and landfills. Although some of the waste we produce can be disposed of without presenting significant health or environmental problems, some industrial, agricultural, and mining wastes—and even some household wastes—are hazardous and can present serious problems. Unless wastes are properly disposed of, they can cause air, water, and land pollution as well as contamination of the underground aquifers from which much of our drinking water is drawn. Once aquifers have been contaminated, they can take a very long time to cleanse themselves of pollutants.

In the 1970s, the discovery of abandoned dump sites such as Love Canal in New York and the Valley of the Drums in Kentucky heightened public concern about the disposal of toxic and hazardous wastes. Congress has enacted several laws regulating the generation and disposal of hazardous waste: the Resource Conservation and Recovery Act mandates proper management and disposal of wastes currently generated; and the Comprehensive Environmental Response, Compensation, and Liability Act focuses on cleaning up past disposal sites threatening public health and the environment.

The Resource Conservation and Recovery Act Congress originally enacted the Resource Conservation and Recovery Act (RCRA) in 1976 and significantly amended it in 1984. RCRA provides the federal government and the states with the authority to regulate facilities that generate, treat, store, and dispose of hazardous waste. Most of the wastes defined as hazardous are subject to a “cradle-to-the-grave” tracking system and must be handled and disposed of in defined ways. RCRA requires persons who generate, treat, store,

or transport hazardous waste, to meet certain standards and follow specified procedures in the handling of the wastes, to keep records and, in some instances, to obtain permits. Figure 1 illustrates the form known as a *manifest*—that must accompany all shipments of hazardous waste from the point of generation until its final treatment or disposal.

In addition, operators of land waste disposal facilities must meet financial responsibility requirements and monitor groundwater quality. EPA determines whether certain wastes should be banned entirely from land disposal; a significant number of wastes must be treated before they can be disposed of in land disposal units.

Underground Storage Tanks In 1984, Congress directed that EPA also regulate underground product storage tanks such as gasoline tanks to prevent and respond to leaks that might contaminate underground water. The regulations that EPA issued to implement these requirements impose significant costs on many businesses such as gasoline stations that utilize such storage tanks. Owners of such tanks have had to upgrade them or replace them with tanks that are corrosion resistant and can be monitored for leaks. New tanks must meet stringent standards, and any leaks must promptly be addressed.

State Responsibilities EPA sets minimum requirements for state RCRA programs and then delegates the responsibility for conducting programs to the states when they have the legal ability and interest to administer them. Until a state assumes partial or complete responsibility for a RCRA program, the federal government administers the program.

Enforcement Failure to comply with the hazardous waste regulations promulgated under RCRA can subject violators to civil and criminal penalties. In the *United States v. Dean* case, which follows, an employee of a company that disposed of hazardous waste without a RCRA permit was held criminally liable.

United States v. Dean

969 F.2d 187 (6th Cir. 1992)

General Metal Fabricators, Inc. (GMF), owned and operated a facility in Erwin, Tennessee, which was engaged in metal stamping, plating, and painting. The facility utilized hazardous chemicals and generated hazardous waste but did not have a RCRA permit nor did it maintain the required records of the treatment, storage, and disposal of hazardous substances. The hazardous waste disposal practices at GMF were discovered by chance by state waste-management authorities whose attention was caught, while driving to an appointment at another facility, by two 55-gallon drums abandoned among weeds on GMF's property.

The owners of GMF, Joseph and Jean Sanchez, as well as Clyde Griffith, the plant manager, and Gale Dean, the production manager, were indicted for conspiracy to violate RCRA, and, individually, for violations of various sections of RCRA. At his request, Dean's trial was severed from that of the other defendants.

As production manager, Dean had day-to-day supervision of GMF's production process and employees. Among his duties was the instruction of employees on hazardous waste handling and disposal. Numerous practices at GMF violated RCRA. GMF's plating operations utilized rinse baths, contaminated with hazardous chemicals, which were drained through a pipe into an earthen lagoon outside the facility. In addition, Dean instructed employees to shovel various kinds of solid wastes from the tanks into 55-gallon drums. Dean ordered the construction of a pit, concealed behind the facility, into which 38 drums of such hazardous waste were tossed. The contents spilled onto the soil from open or corroded drums. Chemical analyses of soil and solid wastes revealed that the pit and the lagoon were contaminated with chromium. In addition, the pit was contaminated with toluene and xylene solvents. All of these substances are considered hazardous under RCRA. Drums of spent chromic acid solution were also illegally stored on the premises.

Dean was familiar with the chemicals used in each of the tanks on the production line and with the manner in which the contents of the rinse tanks were deposited in the lagoon. Material Safety Data Sheets (MSDS) provided to GMF by the chemical manufacturer clearly stated that the various chemicals in use at GMF were hazardous and were subject to federal pollution control laws. Dean was familiar with the MSDS and knowledgeable about their contents. The MSDS delivered with the chromic acid made specific reference to RCRA and to related EPA regulations. Dean told investigators that he "had read this RCRA waste code but thought it was a bunch of bull—."

Dean was convicted of conspiracy to violate RCRA as well as of (1) failure to file documentation of hazardous waste generation, storage, and disposal; (2) storage of spent chromic acid without a permit; (3) disposal of chromic acid rinse water and sludges in a lagoon without a permit; and (4) disposal of paint sludge and solvent wastes in a pit without a permit, all in violation of RCRA. Dean appealed his conviction.

Joiner, Senior District Judge

The first of the issues raised by Dean is that the trial court erred in denying his motion for acquittal on the permit-related counts because there was no evidence that Dean knew of RCRA's permit requirement. Dean's characterization of the evidence is inaccurate, but moreover, we see no basis on the face of the statute for concluding that knowledge of the permit requirement is an element of the crime. The statute penalizes:

Any person who— . . . (2) knowingly treats, stores or disposes of any hazardous waste identified or listed under this subchapter—(A) without a permit under this subchapter . . . ; or (B) in knowing violation of any material condition or requirement of such permit; or (C) in knowing violation of any applicable interim status or regulations. 42 U.S.C. section 6928(d)(2).

Dean was convicted of violating subsection 6928(d)(2)(A).

The question of interpretation presented by this provision is the familiar one of how far the initial "knowingly" travels. Other courts of appeals have divided on this question. We agree with the reasoning of the Court of Appeals for the Ninth Circuit in *United States v. Hoflin*. The "knowingly" which begins section 6928(d)(2) cannot be read as extending to the

subsections without rendering nugatory the word "knowing" contained in subsections 6928(d)(2)(B) and (C). Subsection 6928(d)(2)(A) requires knowing treatment (or knowing storage, or knowing disposal) of hazardous waste. It also requires proof that the treatment, storage or disposal was done without a permit. It does not require that the person charged must have known that a permit was required, and that knowledge is not relevant.

Dean also contends that the district court should have granted his motion for acquittal because subsection 6928(d)(2)(A) was not intended to reach employees who are not "owners" or "operators" of facilities. By its terms, the provision applies to "any person." "Person" is a defined term meaning "an individual. . ." Dean would be hard pressed to convince the court that he is not an "individual." He argues, however, that because only owners and operators of facilities are required to obtain permits, the penalty imposed for hazardous waste handling without a permit must apply only to owners and operators.

This contention is unpersuasive for numerous reasons. Of primary importance is the fact that it is contrary to the unambiguous language of the statute.

Affirmed.

The Global Business Environment

Extended Producer Responsibility

Extended producer responsibility (EPR) for consumer packaging is a part of doing business in many countries, particularly developed countries other than the United States. EPR shifts the financial burden of recycling products back to the seller or manufacturer of the products. Commonly the consumer ends up paying a fee on packaging materials that is used to support recycling programs. The concept has

been adopted close to the United States as Quebec and Ontario Provinces in Canada began EPR programs in 2004. And, while there has been no broadscale adoption of such programs in the United States, in 2003, the state of California did enact EPR legislation addressing electronic products. The Electronic Waste Recycling Act of 2003 requires retailers and manufacturers to include a fee on each covered product to finance recycling and requires that manufacturers reduce the amount of toxic materials used in electronic devices.

Solid Waste Mining, commercial, and household activities generate a large volume of waste material that can present problems if not properly disposed of. As population density has increased, causing a corresponding increase in the total volume of waste, it has become more difficult to find land or incinerators where the waste material can be disposed of properly. RCRA authorizes EPA to set minimum standards for such disposal, but states and local governments bear the primary responsibility for the siting and regulation of such activity.

As the cost and difficulty of disposing of waste increases, public attention focuses on reducing the waste to be disposed of, on looking for opportunities to recycle some of the waste material, and on changing the characteristics of the material that must ultimately be disposed of so that it poses fewer environmental problems. One of the significant challenges faced by tomorrow's businessperson will be in designing products, packaging, and production processes so as to minimize the waste products that result. A significant problem for both government and industry is the difficulty in trying to site new waste facilities. The NIMBY, or not-in-my-backyard, syndrome is pervasive as people almost universally desire to have the wastes from their everyday lives and from the economic activity in their community disposed of in someone else's neighborhood—any place but their own. As governments try to cope with the reality of finding places to dispose of wastes in an environmentally safe manner and at the same time cope with public opposition to siting new facilities, the temptation is strong to try to bar wastes from other areas from being disposed of in local facilities.

In the 1978 landmark case *City of Philadelphia v. New Jersey*, the U.S. Supreme Court struck down an attempt by the state of New Jersey to prohibit the importation of most solid waste originating outside the state. An ironic twist is that decades later, we find a number of other east-

ern and midwestern states trying to find ways to block the importation of wastes from New Jersey into their states. In recent years, the Supreme Court has had occasion to reiterate its holding in *City of Philadelphia v. New Jersey* in a series of new cases involving efforts by states to block or limit the flow of solid and hazardous waste from outside their state to disposal sites within the state.

Superfund In 1980, Congress passed the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), commonly known as Superfund, to deal with the problem of uncontrolled or abandoned hazardous waste sites. In 1986, it strengthened and expanded the law. Under the Superfund law, EPA identified and assessed the sites in the United States where hazardous wastes had been spilled, stored, or abandoned.

Eventually, EPA expects to identify 30,000 such sites. The sites are ranked on the basis of the type, quantity, and toxicity of the wastes; the number of people potentially exposed to the wastes; the different ways (e.g., in the air or drinking water) in which they might be exposed; the risks to contamination of aquifers; and other factors. The sites with the highest ranking are put on the National Priority List to receive priority federal and/or state attention for cleanup. At these sites, EPA makes careful scientific and engineering studies to determine the most appropriate cleanup plans. Once a site has been cleaned up, the state is responsible for managing it to prevent future environmental problems. EPA also has the authority to quickly initiate actions at hazardous waste sites—whether or not the site is on the priority list—to address imminent hazards such as the risk of fire, explosion, or contamination of drinking water.

The cleanup activity is financed by federal tax revenues. However, EPA is authorized to require that a site be cleaned up by those persons responsible for

contaminating it, either as the **owner or operator of the site, a transporter of wastes to the site, or the owner of wastes deposited at the site.** Where EPA expends money to clean up a site, it has the legal authority to recover its costs from those who were responsible for the problem. The courts have held that such persons are “jointly and severally responsible for the cost of cleanup.” Chapter 7, Negligence and Strict Liability, discusses the concept of joint liability. Of concern to many business-

people is the fact that this stringent and potentially very expensive liability can in some instances be imposed on a current owner of a site who had nothing to do with the contamination, such as a subsequent purchaser of the land.

In the case that follows, *United States v. Domenic Lombardi Realty*, a subsequent purchaser was held liable for cleaning up a property that had been contaminated, in part, by the actions of its predecessor in title.

United States v. Domenic Lombardi Realty 290 F.Supp 2d 198 (D. Rhode Island 2003)

During the early 1980s, Armand Allen acquired 31 acres of property located off of Robin Hollow Road in West Greenwich, Rhode Island. Allen began construction of a home on the property, but never completed the structure. Allen, along with his wife, lived in a 60-foot trailer on the site. Although he never obtained the licenses required to operate a junkyard, Allen stored a number of junk cars and trucks in various states of disrepair on the property. The Town of West Greenwich denied Allen's multiple applications for a junkyard license, but never ordered him to clean up his property.

In the fall of 1986 Domenic Lombardi, an employee of Lombardi Realty, approached Allen regarding a “For Sale” sign that was posted at the site. Allen indicated that his price for the property was \$135,000, but that he was willing to drop the price to \$85,000 in order to make a quick sale. Lombardi later testified that while he was on the property, he noticed stripped down cars and trucks as well as other solid waste. Lombardi instructed his real estate agent, Ray Walsh, to make an offer on the property of \$85,000, which Allen immediately accepted on December 11, 1986.

Lombardi testified that Allen informed him that at one time he stripped electrical transformers on the site to recover copper from them. He also had a witness who claimed he had taken a load of transformers to the site sometime between 1982 and 1986; this witness was a convicted felon with a history of lying in court. Moreover, this testimony was contradicted by Allen's wife that she never saw any transformers brought on-site.

Walsh testified that in preparation for the purchase, he obtained a plat map from the city in order to estimate the future assessment of taxes that Lombardi would incur, but he did not perform any additional background investigation, such as an environmental assessment or a walk around the property, nor did he contact authorities concerning the prior use of the property.

After the purchase, Lombardi completed work on the partially constructed, single-family home. He also began renting out the trailer. The tenant testified that within a few months after she began renting the trailer, she saw transformers among the solid waste debris on the property. Other neighbors testified that they witnessed Lombardi Realty trucks dumping trash, including electrical transformers, on the site.

In November 1987, the Rhode Island Department of Environmental Management (RIDEM), believing that Lombardi Realty was permitting the property to be used for the disposal of solid waste without a permit, issued Lombardi Realty a notice of violation and ordered it to remove all solid waste that had been disposed of at the site. Subsequently, RIDEM discovered the presence of oil containing PCBs at the site. RIDEM ordered Lombardi to—among other things—submit and implement a sampling plan, to contract for the removal of all hazardous wastes from the site, and to submit and implement a cleanup plan. Lombardi Realty did not comply with any of the orders until 1989, when it arranged for the excavation of some of the PCB-contaminated soil, which it put in uncovered piles on the site.

In 1991, John Lombardi became president of Lombardi Realty when Dominic was sent to prison for the arson of the trailer on the site. John Lombardi knew little about the seriousness of the contamination on the site prior to becoming president, never having been informed about it by his father. The information withheld included the fact that children were using the piles as ramps for their dirt bikes.

In November 1994, EPA became involved at the request of RIDEM. From February through July of 1995, EPA removed the contaminated soil from the site and replaced it with clean backfill. In total, EPA excavated about 900 tons of soil. EPA then initiated an action against Lombardi Realty to recover the \$481,068 “response costs” incurred in removing the hazardous substances from the site. Lombardi Realty asserted that it was an “innocent landowner” and that it should not be liable for the response costs.

Smith, Judge

The Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) provides the EPA a mechanism to compel parties associated with contaminated property to cleanup, or pay for the cleanup, of the contaminated property. In order for the EPA to successfully pursue its CERCLA claim against Lombardi Realty, it must prove (1) a release or threatened release of hazardous waste has occurred; (2) at a facility; (3) causing the EPA to incur response costs; and (4) that the defendant is a responsible party as defined by 42 U.S.C. § 9607(a). Here, it is either uncontested, or has been established at the summary judgment stage, that the EPA has met its burden with respect to these requirements. Accordingly, unless Lombardi Realty can take advantage of one of CERCLA's affirmative defenses, it will be held liable for the cleanup costs incurred by the EPA.

The affirmative defense asserted in this case is the innocent landowner defense. In 1986, Congress amended CERCLA by enacting the Superfund Amendments and Reauthorization Act ("SARA"). In these amendments, Congress provided an affirmative defense for landowners who, innocently and in good faith, purchase property without knowledge that a predecessor in the chain of title had allowed hazardous substances to be disposed on the property. The innocent landowner defense provides a statutory defense to liability where the release of hazardous substances was due to "an act or omission of a third party other than an employee or agent of the defendant, or than one whose act or omission occurs in connection with a contractual relationship, existing directly or indirectly, with the defendant. . . ."

In order to assert this defense, the statute provided that a party must demonstrate, by a preponderance of the evidence, that (1) the contamination occurred prior to the defendant's purchase of the land; (2) the defendant had "no reason to know" that the property was contaminated; (3) the defendant took "all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial or customary practice" in an effort to minimize liability; and (4) once the contamination was discovered, the defendant exercised due care with respect to the hazardous substances concerned.

Subsequent to the initiation of this lawsuit, Congress enacted the Small Business Relief and Brownfields Revitalization Act ("Brownfields Amendments"), which altered elements of CERCLA's innocent landowner defense. In part, this Act was intended to encourage the purchase and development of "brownfields" by attempting to eliminate the fear of CERCLA liability often associated with the purchase of such land. The Act altered CERCLA's innocent landowner defense in three significant ways. First, the Act changed the "all appropriate inquiries" standard from one that must be "consistent with good

commercial or customary practice" to one that must be "in accordance with generally accepted good commercial and customary standards and practices." Second, it established criteria for determining whether a defendant has made "all appropriate inquiries" regarding the past ownership and usage of a property. Third, a party must now demonstrate to the court that it took reasonable steps to stop any continuing release, prevent any future release, and prevent or limit exposure to any previously released hazardous substance.

In order to take advantage of the innocent landowner defense, Lombardi Realty must first meet the threshold burden of proving that the contamination at the Site was caused "*solely* by an act or omission of a third party." Accordingly, Lombardi Realty cannot avail itself of the protection of the innocent landowner defense if it contributed to the release of PCBs at the Site.

While Lombardi Realty attempted to establish that Allen had disposed of transformers on the property, that testimony was rife with credibility problems. While there is evidence to indicate that Allen operated a junk or scrap yard, there is none to establish that he contaminated the Site with PCBs. The Government, on the other hand, offered testimony from numerous credible witnesses regarding the presence of transformers on the Site during Lombardi Realty's ownership. First, Haroldean Allen testified that she never saw her husband dispose of transformers at the Robin Hollow Road property. Second, another witness testified that she witnessed Lombardi with transformers on the property on several different occasions. Third, another witness also testified that she saw broken transformers "with some kind of oil stuff" and "oil around" them. Accordingly, Lombardi Realty has not proven that the PCB contamination was caused solely by Allen or any other third party. Therefore, this Court holds that Lombardi Realty cannot avail itself of the protections of the innocent landowner defense.

Even if Lombardi Realty could establish that the release was caused solely by the act or omission of a third party, it would still be unable to prove the other elements of the innocent landowner defense. Lombardi Realty failed to offer sufficient evidence that it "had no reason to know" of the presence of PCBs on the Site. While Lombardi Realty presented no evidence as to what constituted "good commercial or customary practices" for purchasing property in Rhode Island in 1986, the Government proffered expert testimony indicating that an environmental assessment of the property would have been required. Lombardi Realty never performed an environmental assessment of the Site, nor does this Court find that Lombardi Realty made any other meaningful inquiry into the Site's environmental state. Accordingly, Lombardi Realty cannot prove that it carried out all appropriate inquiry into the prior use of the property as required.

Lombardi Realty also failed to meet its burden of establishing that it took “due care” with respect to the PCB contaminated soil. As early as 1989, RIDEM issued an NOV ordering Lombardi Realty to, *inter alia*, inform all visitors to the property of the soil contamination and its hazards. At trial, the Government submitted un rebutted testimony which established that Lombardi Realty never informed visitors or tenants living on the property of the contamination. Furthermore, the Government established that Lombardi Realty never properly stored

the contaminated soil following its removal. On numerous occasions, witnesses observed the piles of soil in an uncovered state. Lombardi Realty also failed to obtain a “roll-off” container to store the contaminated soil despite the EPA’s orders. Lombardi Realty is therefore unable to prove that it acted with due care in regard to the contaminated soil.

Judgment in favor of United States granting it the costs it incurred cleaning up the site.

CYBERLAW IN ACTION

The Toxic Release Inventory Is Available Online

In 1986 the Emergency Planning and Community Right-to-Know Act (EPCRA) was enacted. A primary purpose of this legislation was to ensure that communities and citizens were aware of chemical hazards in their area. Under Section 313 of the EPCRA, the EPA and the states must annually collect data on releases and transfers of certain toxic chemicals from specific facilities. In turn, the data must be made available to the general public in a Toxics Release Inven-

tory (TRI). Now, much of the EPCRA information and data, including data in the TRI program, is easily accessible online through the EPA Web site. In addition, many individual state environmental agency Web sites provide information on TRI for facilities within their particular state. A company’s detailed toxic release data can be useful information for the company’s competitors. A company could use the TRI information to determine how much of a particular chemical is being produced by their competitors, or to gain insight into what production process is being used by the competition. For more information about the TRI program, visit www.epa.gov/tri/.

Community Right to Know and Emergency Cleanup

As part of its 1986 amendments to Superfund, Congress enacted a series of requirements for emergency planning, notification of spills and accidents involving hazardous materials, disclosure by industry to the community of the presence of certain listed chemicals, and notification of the amounts of various chemicals being routinely released into the environment in the area of a facility. This legislation was in response to the industrial accident at Bhopal, India, in 1984 and to several

similar incidents in the United States. Firms subject to the requirements have to carefully plan how they will communicate with the surrounding community what chemicals are being regularly released and what precautions the facility has taken to protect the community from regular or accidental releases. Mindful of the difficulty of explaining to a community why large emissions of hazardous substances are taking place, a significant number of companies have undertaken to reduce those emissions below levels they are currently required to meet by law.

Ethics in Action

Environmental Standards for International Operations

Suppose that a multinational chemical company with its primary manufacturing facilities in the United States plans to build a manufacturing facility in a developing country where

there are few, if any, real state-imposed environmental regulations. Is it sufficient for the company to simply meet the environmental requirements of the host country? Is there any ethical obligation to do more—for example, to build the facility to meet the requirements it would have to meet in this country?

CONCEPT REVIEW

Major Environmental Laws

| Act | Focus |
|--|--|
| Clean Air Act | Protects quality of ambient (outdoor) air through national ambient air quality standards, state implementation plans, control of toxic air pollutants, new source performance standards, and controls on automobiles and fuels |
| Clean Water Act | Protects and enhances quality of surface waters by setting water quality standards and limiting discharges by industry and municipalities to those waters through permit system; also regulates dredging and filling of wetlands |
| Marine Protection, Research, and Sanctuaries Act | Regulates dumping of all types of material into ocean waters |
| Safe Drinking Water Act | Protects and enhances quality of our drinking water. Also regulates disposal of wastes in wells |
| Resource Conservation and Recovery Act (RCRA) | Establishes a cradle-to-the-grave regulatory system for handling and disposal of hazardous wastes; also deals with solid waste |
| Comprehensive Environmental Response Compensation and Liability Act (Superfund) | Provides a program to deal with hazardous waste that was inadequately disposed of in the past |

Problems and Problem Cases

1. In July 1984, Vanguard Corporation began operating a metal furniture manufacturing plant in Brooklyn, New York. The plant is located in an area that has not attained the national ambient air quality standards for ozone. The plant is a major stationary source (i.e., has the potential to emit more than 100 tons a year) of volatile organic compounds that contribute to the production of ozone in the atmosphere. The New York state implementation plan (SIP) requires that metal-coating facilities use paint that contains less than three pounds of organic solvent (minus water) per gallon at the time of coating. On August 24, 1984, EPA notified Vanguard that it was not in compliance with the SIP provision concerning coatings and issued it a notice of violation. Vanguard sought to defend against the notice of violation on the grounds that it had used its best faith efforts to comply but that full compliance was technologically and economically infeasible. It indicated that it wanted 18 more months to come into compliance. Should Vanguard be held to be in violation of the Clean Air Act?
2. In August, Tzavah Urban Renewal Corporation purchased from the city of Newark a building formerly

known as the Old Military Park Hotel. While the buyer was given an opportunity to inspect the building, it was not informed by the city that the building was permeated with asbestos-containing material. At the time of the purchase, the building was in great disrepair and had been uninhabited for many years. Its proposed renovation was to be a major urban renewal project. In the following June, Tzavah contracted with Greer Industrial Corporation to “gut” the building. While the work was going on, an EPA inspector visited the site and concluded that the hotel was contaminated with asbestos. He observed Greer employees throwing asbestos-laced objects out of the windows of the building and noted an uncovered refuse pile next to the hotel that contained asbestos. The workers were not wetting the debris before heaving it out the windows and the refuse pile was also dry. As a result, asbestos dust was being released into the air. Although the hotel was located in a commercial district, there were private homes nearby. Renovation of buildings contaminated with asbestos is regulated under the Clean Air Act. The EPA regulations require building owners or operators to notify EPA before commencing renovation or demolition and prescribe various procedures for storage and removal of the

asbestos. Tzavah failed to provide the required notice or to comply with procedures required. After being notified by EPA of the violation of the law, Tzavah stopped the demolition work, left the building unsecured, and left the waste piles dry and uncovered. EPA tried informally to get Tzavah to complete the work in accordance with the asbestos regulations; when Tzavah did not take action, EPA brought a lawsuit against Tzavah to do so. Should the court issue an injunction requiring Tzavah to abate the hazard posed by the dry asbestos remaining in the hotel?

3. Mall Properties, Inc., was an organization that for many years sought to develop a shopping mall in the Town of North Haven, Connecticut, a suburb of New Haven. Because the proposed development would require the filling of some wetlands, Mall Properties was required to obtain a permit from the Corps of Engineers pursuant to section 404 of the Clean Water Act. The City of New Haven opposed development of the mall—and the granting of the permit—on the grounds it would jeopardize the fragile economy of New Haven. The Corps of Engineers found the net loss of wetlands would be substantially compensated for by a proposed on-site wetland creation. Relying primarily on the socioeconomic concerns of the City of New Haven, the district engineer rejected the proposed permit. Mall Properties then brought suit against the Corps of Engineers, claiming that the decision was arbitrary and capricious. Should the district engineer have relied on socioeconomic factors unrelated to the project's environmental impacts in making a decision on the permit?
4. Charles Hanson owned land abutting Keith Lake, a freshwater lake that was subject to some tidal flooding as a result of its connection with tidal waters. In order to minimize the detrimental effects from the tidal activities and consequent flooding, Hanson deposited a large quantity of dirt, rock, bricks, sheet metal, and other debris along the shoreline of his property. He did so without obtaining a permit from the U.S. Army Corps of Engineers under section 404 of the Clean Water Act, which controls dumping and filling activities in navigable waters of the United States. Under the law, discharges of pollutants into navigable waters without a permit are forbidden. The term *pollutant* is defined to include “dredged soil, solid waste, incinerator residue, sewage, garbage, sewage sludge, munitions, chemical wastes, biological materials, radioactive materials, heat, wrecked or

discarded equipment, rock, sand, cellar dirt, and industrial, municipal and agricultural waste discharged into water.” EPA brought an enforcement action against Hanson claiming he had violated the Clean Water Act. Should the court find that Hanson violated the act?

5. Johnson & Towers, Inc., is in the business of overhauling large motor vehicles. It uses degreasers and other industrial chemicals that contain chemicals classified as “hazardous wastes” under the Resource Conservation and Recovery Act (RCRA)—for example, methylene chloride and trichloroethylene. For some period of time, waste chemicals from cleaning operations were drained into a holding tank and, when the tank was full, pumped into a trench. The trench flowed from the plant property into Parker's Creek, a tributary of the Delaware River. Under RCRA, generators of such wastes must obtain a permit for disposal from the Environmental Protection Agency (EPA). EPA had neither issued, nor received an application for, a permit for the Johnson & Towers operations. Over a three-day period, federal agents saw workers pump waste from the tank into the trench, and on the third day toxic chemicals flowed into the creek. The company and two of its employees, Jack Hopkins, a foreman, and Peter Angel, the service manager, were indicted for unlawfully disposing of hazardous wastes. The company pled guilty. The federal district court dismissed the criminal charges against the two individuals, holding that RCRA's criminal penalty provisions imposing fines and imprisonment did not apply to employees. The government appealed. Can employees of a corporation be held criminally liable if their actions on behalf of the corporation violate the federal hazardous waste law?
6. Anne Arundel County, Maryland, enacted two related ordinances. One absolutely prohibited the disposal and the transportation through Anne Arundel County of various hazardous wastes not originating in that county. Another ordinance required a license to dispose of hazardous waste in Anne Arundel County; it also required a license to transport hazardous wastes through the county. Browning-Ferris, Inc. (BFI), is the owner and operator of a landfill located in Anne Arundel County that is licensed by the state of Maryland to receive hazardous wastes. BFI is also a hauler of hazardous wastes within the county. The county notified BFI that it expected BFI to comply with the new regulations, and BFI filed a lawsuit challenging

the ordinances and seeking to have them enjoined. How should the court rule?

7. The Royal McBee Corporation manufactured typewriters at a factory in Springfield, Missouri. As a part of the manufacturing process, Royal McBee generated cyanide-based electroplating wastes, sludge from the bottom of electroplating tanks, and spent plating bath solution. As part of their duties, Royal McBee employees dumped the wastes onto the surface of the soil on a vacant lot adjoining the factory. This took place between 1959 and 1962. Over time, the waste materials migrated outward and downward from the original dumping site, contaminating a large area. In 1970, the manufacturing facility and lot were sold to General Electric, which operated the plant but did not engage in the dumping of wastes on the vacant lot. In the mid-1980s, General Electric was required by EPA and the state of Missouri, under the authority of the federal Superfund law, to clean up the contamination at the site. General Electric then brought a lawsuit against the successor corporation of Royal McBee's typewriter business, Litton Business Systems, to recover for the costs incurred in cleaning up the site. Under the Superfund law, "any person who at the time of disposal of any hazardous substance owned or operated any facilities at which such hazardous substances were disposed of, shall be liable for any other necessary costs of response incurred by any other person" consistent with the Superfund law and

regulations. Is General Electric entitled to recover its cleanup costs from Litton?

Online Research

Online Access to Toxic Release Inventory

Locate the Web site for the environmental agency in your state. Does the Web site provide Toxics Release Inventory (TRI) data for the state? What companies are the largest contributors of toxic release to the air? What companies are the largest contributors of toxic release to the water? You may look at the EPA Web site (www.epa.gov/) as a starting point to see if your state posts information on its TRI program. If your state does not provide such information, then use the data from a neighboring state.

appendix A

THE CONSTITUTION OF THE UNITED STATES OF AMERICA

Preamble

We the People of the United States, in Order to form a more perfect Union, establish Justice, insure domestic Tranquility, provide for the common defense, promote the general Welfare, and secure the Blessings of Liberty to ourselves and our Posterity, do ordain and establish this Constitution for the United States of America.

Article I

Section 1 All legislative Powers herein granted shall be vested in a Congress of the United States, which shall consist of a Senate and House of Representatives.

Section 2 The House of Representatives shall be composed of Members chosen every second Year by the People of the several States, and the Electors in each State shall have the Qualifications requisite for Electors of the most numerous Branch of the State Legislature.

No Person shall be a Representative who shall not have attained to the age of twenty five Years, and been seven Years a Citizen of the United States, and who shall not, when elected, be an Inhabitant of that State in which he shall be chosen.

Representatives and direct Taxes shall be apportioned among the several States which may be included within this Union, according to their respective Numbers, which shall be determined by adding to the whole Number of free Persons, including those bound to Service for a Term of Years, and excluding Indians not taxed, three fifths of all other Persons.¹ The actual Enumeration shall be made within three Years after the first Meeting of the Congress of the United States, and within every subsequent Term of ten Years, in such Manner as they shall by Law direct. The Number of Representatives shall not exceed one for every thirty Thousand, but each State shall have at Least one Representative, and until such enumeration shall be made, the State of New Hampshire shall be entitled to choose three, Massachusetts eight, Rhode-

Island and Providence Plantations one, Connecticut five, New York six, New Jersey four, Pennsylvania eight, Delaware one, Maryland six, Virginia ten, North Carolina five, South Carolina five, and Georgia three.

When vacancies happen in the Representation from any State, the Executive Authority thereof shall issue Writs of Election to fill such Vacancies.

The House of Representatives shall chuse their Speaker and other Officers; and shall have the sole Power of Impeachment.

Section 3 The Senate of the United States shall be composed of two Senators from each State, chosen by the Legislature thereof,² for six Years; and each Senator shall have one Vote.

Immediately after they shall be assembled in Consequence of the first Election, they shall be divided as equally as may be into three Classes. The Seats of the Senators of the first Class shall be vacated at the Expiration of the second Year, of the second Class at the Expiration of the fourth Year, and of the third Class at the Expiration of the sixth Year, so that one third may be chosen every second Year; and if Vacancies happen by Resignation, or otherwise, during the Recess of the Legislature of any State, the Executive thereof may make temporary Appointments until the next Meeting of the Legislature, which shall then fill such Vacancies.³

No Person shall be a Senator who shall not have attained to the Age of thirty Years, and been nine Years a Citizen of the United States, and who shall not, when elected, be an Inhabitant of that State for which he shall be chosen.

The Vice President of the United States shall be President of the Senate, but shall have no Vote, unless they be equally divided.

The Senate shall chuse their other Officers, and also a President pro tempore, in the Absence of the Vice President, or when he shall exercise the Office of President of the United States.

¹Changed by the Fourteenth Amendment.

²Changed by the Seventeenth Amendment.

³Changed by the Seventeenth Amendment.

The Senate shall have the sole Power to try all Impeachments. When sitting for that Purpose, they shall be on Oath or Affirmation. When the President of the United States is tried, the Chief Justice shall preside: And no Person shall be convicted without the Concurrence of two thirds of the Members present.

Judgment in Cases of Impeachment shall not extend further than to removal from Office, and disqualification to hold and enjoy any Office of honor, Trust or Profit under the United States: but the Party convicted shall nevertheless be liable and subject to Indictment, Trial, Judgment and Punishment, according to Law.

Section 4 The Times, Places and Manner of holding Elections for Senators and Representatives, shall be prescribed in each State by the Legislature thereof; but the Congress may at any time by Law make or alter such Regulations, except as to the Places of chusing Senators.

The Congress shall assemble at least once in every Year, and such Meeting shall be on the first Monday in December, unless they shall by Law appoint a different Day.⁴

Section 5 Each House shall be the Judge of the Elections, Returns and Qualifications of its own Members, and a Majority of each shall constitute a Quorum to do Business; but a smaller Number may adjourn from day to day, and may be authorized to compel the Attendance of absent Members, in such Manner, and under such Penalties as each House may provide.

Each House may determine the Rules of its Proceedings, punish its Members for disorderly Behaviour, and with the Concurrence of two thirds, expel a Member.

Each House shall keep a Journal of its Proceedings, and from time to time publish the same, excepting such Parts as may in their Judgment require Secrecy; and the Yeas and Nays of the Members of either House on any question shall, at the Desire of one fifth of those Present, be entered on the Journal.

Neither House, during the Session of Congress, shall, without the Consent of the other, adjourn for more than three days, nor to any other Place than that in which the two Houses shall be sitting.

Section 6 The Senators and Representatives shall receive a Compensation for their Services, to be ascertained by Law, and paid out of the Treasury of the United States. They shall in all Cases, except Treason, Felony and Breach of the Peace, be privileged from Arrest during their Attendance at the Session of their respective Houses, and in going to and returning from the same; and for any Speech or Debate in either House, they shall not be questioned in any other Place.

No Senator or Representative shall, during the Time for which he was elected, be appointed to any civil Office under the Authority of the United States, which shall have been created, or the Emoluments whereof shall have been increased during such time; and no Person holding any Office under the United States, shall be a Member of either House during his Continuance in Office.

Section 7 All Bills for raising Revenue shall originate in the House of Representatives; but the Senate may propose or concur with Amendments as on other Bills.

Every Bill which shall have passed the House of Representatives and the Senate, shall, before it becomes a Law, be presented to the President of the United States; If he approves he shall sign it, but if not he shall return it, with his Objections to that House in which it shall have originated, who shall enter the Objections at large on their Journal, and proceed to reconsider it. If after such Reconsideration two thirds of that House shall agree to pass the Bill, it shall be sent, together with the Objections, to the other House, by which it shall likewise be reconsidered, and if approved by two thirds of that House, it shall become a Law. But in all such Cases the Votes of both Houses shall be determined by Yeas and Nays, and the Names of the Persons voting for and against the Bill shall be entered on the Journal of each House respectively. If any Bill shall not be returned by the President within ten Days (Sundays excepted) after it shall have been presented to him, the Same shall be a Law, in like Manner as if he had signed it, unless the Congress by their Adjournment prevent its Return, in which Case it shall not be a Law.

Every Order, Resolution, or Vote to which the Concurrence of the Senate and House of Representatives may be necessary (except on a question of Adjournment) shall be presented to the President of the United States; and before the Same shall take Effect, shall be approved by him, or being disapproved by him, shall be re-passed by two thirds of the Senate and House of Representatives, according to the Rules and Limitations prescribed in the Case of a Bill.

Section 8 The Congress shall have Power To lay and collect Taxes, Duties, Imposts and Excises, to pay the Debts and provide for the common Defence and general Welfare of the United States; but all Duties, Imposts and Excises shall be uniform throughout the United States.

To borrow Money on the credit of the United States;

To regulate Commerce with foreign Nations, and among the several States, and with the Indian Tribes;

To establish an uniform Rule of Naturalization, and uniform Laws on the subject of Bankruptcies throughout the United States;

⁴Changed by the Twentieth Amendment.

To coin Money, regulate the Value thereof, and of foreign Coin, and fix the Standard of Weights and Measures;

To provide for the Punishment of counterfeiting the Securities and current Coin of the United States;

To establish Post Offices and post Roads;

To promote the Progress of Science and useful Arts, by securing for limited Times to Authors and Inventors the exclusive Right to their respective Writings and Discoveries;

To constitute Tribunals inferior to the supreme Court;

To define and punish Piracies and Felonies committed on the high Seas, and Offences against the Law of Nations;

To declare War, grant Letters of Marque and Reprisal, and make Rules concerning Captures on Land and Water;

To raise and support Armies, but no Appropriation of Money to that Use shall be for a longer Term than two Years;

To provide and maintain a Navy;

To make Rules for the Government and Regulation of the land and naval Forces;

To provide for calling forth the Militia to execute the Laws of the Union, suppress Insurrections and repel Invasions;

To provide for organizing, arming, and disciplining, the Militia, and for governing such Part of them as may be employed in the Service of the United States, reserving to the States respectively, the Appointment of the Officers, and the Authority of training the Militia according to the discipline prescribed by Congress;

To exercise exclusive Legislation in all Cases whatsoever, over such District (not exceeding ten Miles square) as may, by Cession of particular States, and the Acceptance of Congress, become the Seat of the Government of the United States, and to exercise like Authority over all Places purchased by the Consent of the Legislature of the State in which the Same shall be, for the Erection of Forts, Magazines, Arsenals, dock-Yards, and other needful Buildings;—And

To make all Laws which shall be necessary and proper for carrying into Execution the foregoing Powers, and all other Powers vested by this Constitution in the Government of the United States, or in any Department or Officer thereof.

Section 9 The Migration or Importation of such Persons as any of the States now existing shall think proper to admit, shall not be prohibited by the Congress prior to the Year one thousand eight hundred and eight, but a Tax or duty may be imposed on such Importation, not exceeding ten dollars for each Person.

The Privilege of the Writ of Habeas Corpus shall not be suspended, unless when in Cases of Rebellion or Invasion the public Safety may require it.

No Bill of Attainder or ex post facto Law shall be passed.

No Capitation, or other direct, Tax shall be laid, unless in Proportion to the Census of Enumeration herein before directed to be taken.⁵

No Tax or Duty shall be laid on Articles exported from any State.

No Preference shall be given by any Regulation of Commerce or Revenue to the Ports of one State over those of another: nor shall Vessels bound to, or from, one State, be obliged to enter, clear, or pay Duties in another.

No Money shall be drawn from the Treasury, but in Consequence of Appropriations made by Law; and a regular Statement and Account of the Receipts and Expenditures of all public Money shall be published from time to time.

No Title of Nobility shall be granted by the United States: And no Person holding any Office of Profit or Trust under them, shall, without the Consent of the Congress, accept of any present, Emolument, Office, or Title, of any kind whatever, from any King, Prince, or foreign State.

Section 10 No State shall enter into any Treaty, Alliance, or Confederation; grant Letters of Marque and Reprisal; coin Money; emit Bills of Credit; make any Thing but gold and silver coin a Tender in Payment of Debts; pass any Bill of Attainder, ex post facto Law, or Law impairing the Obligation of Contracts, or grant any Title of Nobility.

No State shall, without the Consent of the Congress, lay any Imposts or Duties on Imports or Exports, except what may be absolutely necessary for executing its inspection Laws: and the net Produce of all Duties and Imposts, laid by any State on Imports or Exports, shall be for the Use of the Treasury of the United States; and all such Laws shall be subject to the Revision and Controul of the Congress.

No State shall, without the consent of Congress, lay any Duty of Tonnage, keep Troops, or Ships of War in time of Peace, enter into any Agreement or Compact with another State, or with a foreign Power, or engage in War, unless actually invaded, or in such imminent Danger as will not admit of delay.

Article II

Section 1 The executive Power shall be vested in a President of the United States of America. He shall hold his Office during the Term of four Years, and, together with

⁵Changed by the Sixteenth Amendment.

the Vice President, chosen for the same Term, be elected, as follows

Each state shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

The Electors shall meet in their respective States, and vote by Ballot for two Persons, of whom one at least shall not be an inhabitant of the same State with themselves. And they shall make a List of all the Persons voted for, and of the Number of Votes for each; which List they shall sign and certify, and transmit sealed to the Seat of the Government of the United States, directed to the President of the Senate. The President of the Senate shall, in the Presence of the Senate and House of Representatives, open all the Certificates, and the Votes shall then be counted. The Person having the greatest Number of Votes shall be the President, if such Number be a Majority of the whole Number of Electors appointed; and if there be more than one who have such Majority, and have an equal Number of Votes, then the House of Representatives shall immediately chuse by Ballot one of them for President; and if no Person have a Majority, then from the five highest on the List the said House shall in like Manner chuse the President. But in chusing the President, the Votes shall be taken by States, the Representation from each State having one Vote; A quorum for this purpose shall consist of a Member or Members from two thirds of the States, and a Majority of all the States shall be necessary to a Choice. In every Case, after the Choice of the President, the Person having the greatest Number of Votes of the Electors shall be the Vice President. But if there should remain two or more who have equal Votes, the Senate shall chuse from them by Ballot the Vice President.⁶

The Congress may determine the Time of chusing the Electors, and the Day on which they shall give their Votes; which Day shall be the same throughout the United States.

No Person except a natural born Citizen, or a Citizen of the United States, at the time of the Adoption of this Constitution, shall be eligible to the Office of President; neither shall any Person be eligible to that Office who shall not have attained to the Age of thirty five Years, and been fourteen Years a Resident within the United States.

In Case of the Removal of the President from Office, or of his Death, Resignation, or Inability to discharge the

Powers and Duties of the said Office, the Same shall devolve on the Vice President, and the Congress may by Law provide for the Case of Removal, Death, Resignation or Inability, both of the President and Vice President, declaring what Officer shall then act as President, and such Officer shall act accordingly, until the Disability be removed, or a President shall be elected.⁷

The President shall, at stated Times, receive for his Services, a Compensation, which shall neither be increased nor diminished during the Period for which he shall have been elected, and he shall not receive within that Period any other Emolument from the United States, or any of them.

Before he enter on the Execution of his Office, he shall take the following Oath or Affirmation:—"I do solemnly swear (or affirm) that I will faithfully execute the Office of President of the United States, and will to the best of my Ability, preserve, protect, and defend the Constitution of the United States."

Section 2 The President shall be Commander in Chief of the Army and Navy of the United States, and of the Militia of the several States, when called into the actual Service of the United States; he may require the Opinion, in writing, of the principal Officer in each of the executive Departments, upon any Subject relating to the Duties of their respective Offices, and he shall have Power to grant Reprieves and Pardons for Offences against the United States, except in Cases of Impeachment.

He shall have Power, by and with the Advice and Consent of the Senate, to make Treaties, provided two thirds of the Senators present concur; and he shall nominate, and by and with the Advice and Consent of the Senate, shall appoint Ambassadors, other public Ministers and Consuls, Judges of the supreme Court, and all other Officers of the United States, whose Appointments are not herein otherwise provided for, and which shall be established by Law; but the Congress may by Law vest the Appointment of such inferior Officers, as they think proper, in the President alone, in the Courts of Law, or in the Heads of Departments.

The President shall have Power to fill up all Vacancies that may happen during the Recess of the Senate, by granting Commissions which shall expire at the End of their next Session.

Section 3 He shall from time to time give to the Congress Information of the State of the Union, and recommend to their Consideration such Measures as he shall judge necessary and expedient; he may, on extraordinary Occasions, convene both Houses, or either of them, and

⁶Changed by the Twelfth Amendment.

⁷Changed by the Twenty-fifth Amendment.

in Case of Disagreement between them, with Respect to the Time of Adjournment, he may adjourn them to such Time as he shall think proper; he shall receive Ambassadors and other public Ministers; he shall take Care that the Laws be faithfully executed, and shall Commission all the Officers of the United States.

Section 4 The President, Vice President and all civil Officers of the United States, shall be removed from Office on Impeachment for, and Conviction of, Treason, Bribery, or other high Crimes and Misdemeanors.

Article III

Section 1 The judicial Power of the United States, shall be vested in one supreme Court, and in such inferior Courts as the Congress may from time to time ordain and establish. The Judges, both of the supreme and inferior Courts, shall hold their Offices during good Behaviour, and shall, at stated Times, receive for their Services, a Compensation, which shall not be diminished during their Continuance in Office.

Section 2 The judicial Power shall extend to all Cases, in Law and Equity, arising under this Constitution, the Laws of the United States, and Treaties made, or which shall be made, under their Authority;—to all Cases affecting Ambassadors, other public Ministers and Consuls;—to all Cases of admiralty and maritime Jurisdiction;—to Controversies to which the United States shall be a party;—to Controversies between two or more States;—between a State and Citizens of another State;⁸—between Citizens of different States;—between Citizens of the same State claiming Lands under Grants of different States, and between a State, or the Citizens thereof, and foreign States, Citizens or Subjects.

In all Cases affecting Ambassadors, other public Ministers and Consuls, and those in which a State shall be Party, the supreme Court shall have original Jurisdiction. In all the other Cases before mentioned, the supreme Court shall have appellate Jurisdiction, both as to Law and Fact, with such Exceptions, and under such Regulations as the Congress shall make.

The Trial of all Crimes, except in Cases of Impeachment, shall be by Jury: and such Trial shall be held in the State where the said Crimes shall have been committed; but when not committed within any State, the Trial shall be at such Place or Places as the Congress may by Law have directed.

⁸Changed by the Eleventh Amendment.

Section 3 Treason against the United States, shall consist only in levying War against them, or in adhering to their Enemies, giving them Aid and Comfort. No Person shall be convicted of Treason unless on the Testimony of two Witnesses to the same overt Act, or on Confession in open Court.

The Congress shall have Power to declare the Punishment of Treason, but no Attainder of Treason shall work Corruption of Blood, or Forfeiture except during the Life of the Person attainted.

Article IV

Section 1 Full Faith and Credit shall be given in each State to the public Acts, Records, and judicial Proceedings of every other State. And the Congress may by general Laws prescribe the Manner in which such Acts, Records and Proceedings shall be proved, and the Effect thereof.

Section 2 The Citizens of each State shall be entitled to all Privileges and Immunities of Citizens in the several States.

A Person charged in any State with Treason, Felony, or other Crime, who shall flee from Justice, and be found in another State, shall on Demand of the executive Authority of the State from which he fled, be delivered up, to be removed to the State having Jurisdiction of the Crime.

No Person held to Service or Labour in one State, under the Laws thereof, escaping into another, shall, in Consequence of any Law or Regulation therein, be discharged from such Service or Labour, but shall be delivered up on Claim of the Party to whom such Service or Labour may be due.⁹

Section 3 New States may be admitted by the Congress into this Union; but no new State shall be formed or erected within the Jurisdiction of any other State; nor any State be formed by the Junction of two or more States, or Parts of States, without the Consent of the Legislatures of the States concerned as well as of the Congress.

The Congress shall have Power to dispose of and make all needful Rules and Regulations respecting the Territory or other Property belonging to the United States; and nothing in this Constitution shall be so construed as to Prejudice any Claims of the United States, or of any particular State.

Section 4 The United States shall guarantee to every State in this Union a Republican Form of Government, and shall protect each of them against Invasion; and on

⁹Changed by the Thirteenth Amendment.

Application of the Legislature, or of the Executive (when the Legislature cannot be convened) against domestic Violence.

Article V

The Congress, whenever two thirds of both Houses shall deem it necessary, shall propose Amendments to this Constitution, or, on the Application of the Legislatures of two thirds of the several States, shall call a Convention for proposing Amendments, which, in either Case, shall be valid to all Intents and Purposes, as Part of this Constitution, when ratified by the legislatures of three fourths of the several States, or by Conventions in three fourths thereof, as the one or the other Mode of Ratification may be proposed by the Congress; Provided that no Amendment which may be made prior to the Year One thousand eight hundred and eight shall in any Manner affect the first and fourth Clauses in the Ninth Section of the first Article; and that no State, without its Consent, shall be deprived of its equal Suffrage in the Senate.

Article VI

All Debts contracted and Engagements entered into, before the Adoption of this Constitution, shall be as valid against the United States under this Constitution, as under the Confederation.

The Constitution, and the Laws of the United States which shall be made in Pursuance thereof; and all Treaties made, or which shall be made, under the Authority of the United States, shall be the supreme Law of the Land; and the Judges in every State shall be bound thereby, any Thing in the Constitution or Laws of any State to the Contrary notwithstanding.

The Senators and Representatives before mentioned, and the Members of the several State Legislatures, and all executive and judicial Officers, both of the United States and of the several States, shall be bound by Oath or Affirmation, to support this Constitution; but no religious Test shall ever be required as a Qualification to any Office or public Trust under the United States.

Article VII

The Ratification of the Conventions of nine States, shall be sufficient for the Establishment of this Constitution between the States so ratifying the Same.

Done in Convention by the Unanimous Consent of the States present the Seventeenth Day of September in the Year of our Lord one thousand seven hundred and eighty

seven and of the Independence of the United States of America the Twelfth. In witness whereof We have hereunto subscribed our Names.

Amendments

[The first 10 amendments are known as the “Bill of Rights.”]

Amendment 1 (Ratified 1791) Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances.

Amendment 2 (Ratified 1791) A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed.

Amendment 3 (Ratified 1791) No Soldier shall, in time of peace be quartered in any house, without the consent of the Owner, nor in time of war, but in a manner to be prescribed by law.

Amendment 4 (Ratified 1791) The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no Warrants shall issue, but upon probable cause, supported by Oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.

Amendment 5 (Ratified 1791) No person shall be held to answer for a capital, or otherwise infamous crime, unless on a presentment or indictment of a Grand Jury, except in cases arising in the land or naval forces, or in the Militia, when in actual service in time of War or public danger; nor shall any person be subject for the same offence to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use, without just compensation.

Amendment 6 (Ratified 1791) In all criminal prosecutions, the accused shall enjoy the right to a speedy and public trial, by an impartial jury of the State and district wherein the crime shall have been committed, which district shall have been previously ascertained by law, and to

be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining Witnesses in his favor, and to have assistance of counsel for his defence.

Amendment 7 (Ratified 1791) In Suits at common law, where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved, and no fact tried by a jury, shall be otherwise re-examined in any Court of the United States, than according to the rules of the common law.

Amendment 8 (Ratified 1791) Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.

Amendment 9 (Ratified 1791) The enumeration in the Constitution, of certain rights, shall not be construed to deny or disparage others retained by the people.

Amendment 10 (Ratified 1791) The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people.

Amendment 11 (Ratified 1795) The Judicial power of the United States shall not be construed to extend to any suit in law or equity, commenced or prosecuted against one of the United States by Citizens of another State, or by Citizens or Subjects of any Foreign State.

Amendment 12 (Ratified 1804) The Electors shall meet in their respective states, and vote by ballot for President and Vice-President, one of whom, at least, shall not be an inhabitant of the same state with themselves; they shall name in their ballots the person voted for as President, and in distinct ballots the person voted for as Vice-President, and they shall make distinct lists of all persons voted for as President, and of all persons voted for as Vice-President, and of the number of votes for each, which lists they shall sign and certify, and transmit sealed to the seat of the government of the United States, directed to the President of the Senate;—The President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates and the votes shall then be counted;—The person having the greatest number of votes for President, shall be the President, if such number be a majority of the whole number of Electors appointed; and if no person have such majority, then from the persons having the highest numbers not exceeding three on the list of those voted for as President, the House of Representa-

tives shall choose immediately, by ballot, the President. But in choosing the President, the votes shall be taken by states, the representation from each state having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the states, and a majority of all the states shall be necessary to a choice. And if the House of Representatives shall not choose a President whenever the right of choice shall devolve upon them, before the fourth day of March next following, then the Vice-President shall act as president, as in the case of the death or other constitutional disability of the President.¹⁰—The person having the greatest number of votes as Vice-President, shall be the Vice-President, if such number be a majority of the whole number of Electors appointed, and if no person have a majority, then from the two highest numbers on the list, the Senate shall choose the Vice-President; a quorum for the purpose shall consist of two-thirds of the whole number of Senators, and a majority of the whole number shall be necessary to a choice. But no person constitutionally ineligible to the office of President shall be eligible to that of Vice-President of the United States.

Amendment 13 (Ratified 1865) Section 1 Neither slavery nor involuntary servitude, except as a punishment for crime whereof the party shall have been duly convicted, shall exist within the United States, or any place subject to their jurisdiction.

Section 2 Congress shall have power to enforce this article by appropriate legislation.

Amendment 14 (Ratified 1868) Section 1 All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the State wherein they reside. No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws.

Section 2 Representatives shall be apportioned among the several States according to their respective numbers, counting the whole number of persons in each State, excluding Indians not taxed. But when the right to vote at any election for the choice of electors for President and Vice President of the United States, Representatives in Congress, the Executive and Judicial officers of a State, or the members of the Legislature thereof, is denied to

¹⁰Changed by the Twentieth Amendment.

any of the male inhabitants of such State, being twenty-one¹¹ years of age, and citizens of the United States, or in any way abridged except for participation in rebellion, or other crime, the basis of representation therein shall be reduced in the proportion which the number of such male citizens shall bear to the whole number of male citizens twenty-one years of age in such State.

Section 3 No person shall be a Senator or Representative in Congress, or elector of President and Vice President, or hold any office, civil or military, under the United States, or under any State, who, having previously taken an oath, as a member of Congress, or as an officer of the United States, or as a member of any State legislature, or as an executive or judicial officer of any State, to support the Constitution of the United States, shall have engaged in insurrection or rebellion against the same, or given aid or comfort to the enemies thereof. But Congress may by a vote of two-thirds of each House, remove such disability.

Section 4 The validity of the public debt of the United States, authorized by law, including debts incurred for payment of pensions and bounties for services in suppressing insurrection or rebellion, shall not be questioned. But neither the United States nor any State shall assume or pay any debt or obligation incurred in aid of insurrection or rebellion against the United States, or any claim for the loss or emancipation of any slave; but all such debts, obligations and claims shall be held illegal and void.

Section 5 The Congress shall have power to enforce, by appropriate legislation, the provisions of this article.

Amendment 15 (Ratified 1870) Section 1 The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of race, color, or previous condition of servitude.

Section 2 The Congress shall have power to enforce this article by appropriate legislation.

Amendment 16 (Ratified 1913) The Congress shall have power to lay and collect taxes on incomes, from whatever source derived, without apportionment among the several States, and without regard to any census or enumeration.

Amendment 17 (Ratified 1913) The Senate of the United States shall be composed of two Senators from each State, elected by the people thereof, for six years; and each Senator shall have one vote. The electors in each

State shall have the qualifications requisite for electors of the most numerous branch of the State legislatures.

When vacancies happen in the representation of any State in the Senate, the executive authority of such State shall issue writs of election to fill such vacancies: *Provided*, That the legislature of any State may empower the executive thereof to make temporary appointments until the people fill the vacancies by election as the legislature may direct.

This amendment shall not be so construed as to affect the election or term of any Senator chosen before it becomes valid as part of the Constitution.

Amendment 18 (Ratified 1919; Repealed 1933) Section 1 After one year from the ratification of this article the manufacture, sale, or transportation of intoxicating liquors within, the importation thereof into, or the exportation thereof from the United States and all territory subject to the jurisdiction thereof for beverage purposes is hereby prohibited.

Section 2 The Congress and the several States shall have concurrent power to enforce this article by appropriate legislation.

Section 3 This article shall be inoperative unless it shall have been ratified as an amendment to the Constitution by the legislatures of the several States, as provided in the Constitution, within seven years from the date of the submission hereof to the States by the Congress.¹²

Amendment 19 (Ratified 1920) The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of sex.

Congress shall have power to enforce this article by appropriate legislation.

Amendment 20 (Ratified 1933) Section 1 The terms of the President and Vice President shall end at noon on the 20th day of January, and the terms of Senators and Representatives at noon on the 3d day of January, of the years in which such terms would have ended if this article had not been ratified; and the terms of their successors shall then begin.

Section 2 The Congress shall assemble at least once in every year, and such meeting shall begin at noon on the 3d day of January, unless they shall by law appoint a different day.

Section 3 If, at the time fixed for the beginning of the term of the President, the President elect shall have died, the Vice President elect shall become President. If a Pres-

¹¹Changed by the Twenty-sixth Amendment.

¹²Repealed by the Twenty-first Amendment.

ident shall not have been chosen before the time fixed for the beginning of his term, or if the President elect shall have failed to qualify, then the Vice President elect shall act as President until a President shall have qualified; and the Congress may by law provide for the case wherein neither a President elect nor a Vice President elect shall have qualified, declaring who shall then act as President, or the manner in which one who is to act shall be selected, and such person shall act accordingly until a President or Vice President shall have qualified.

Section 4 The Congress may by law provide for the case of the death of any of the persons from whom the House of Representatives may choose a President whenever the right of choice shall have devolved upon them, and for the case of the death of any of the persons from whom the Senate may choose a Vice President whenever the right of choice shall have devolved upon them.

Section 5 Sections 1 and 2 shall take effect on the 15th day of October following the ratification of this article.

Section 6 This article shall be inoperative unless it shall have been ratified as an amendment to the Constitution by the legislatures of three-fourths of the several States within seven years from the date of its submission.

Amendment 21 (Ratified 1933) Section 1 The eighteenth article of amendment to the Constitution of the United States is hereby repealed.

Section 2 The transportation or importation into any State, Territory, or possession of the United States for delivery or use therein of intoxicating liquors, in violation of the laws thereof, is hereby prohibited.

Section 3 This article shall be inoperative unless it shall have been ratified as an amendment to the Constitution by conventions in the several States, as provided in the Constitution, within seven years from the date of the submission hereof to the States by the Congress.

Amendment 22 (Ratified 1951) Section 1 No person shall be elected to the office of the President more than twice, and no person who has held the office of President, or acted as President, for more than two years of a term to which some other person was elected President shall be elected to the office of the President more than once. But this Article shall not apply to any person holding the office of President when this Article was proposed by the Congress, and shall not prevent any person who may be holding the office of President, or acting as President, during the term within which this Article becomes operative from holding the office of President or acting as President during the remainder of such term.

Section 2 This Article shall be inoperative unless it shall have been ratified as an amendment to the Constitution by the legislatures of three-fourths of the several States within seven years from the date of its submission to the States by the Congress.

Amendment 23 (Ratified 1961) Section 1 The District constituting the seat of Government of the United States shall appoint in such manner as the Congress may direct:

A number of electors of President and Vice President equal to the whole number of Senators and Representatives in Congress to which the District would be entitled if it were a State, but in no event more than the least populous State; they shall be in addition to those appointed by the States, but they shall be considered, for the purposes of the election of President and Vice President, to be electors appointed by a State; and they shall meet in the District and perform such duties as provided by the twelfth article of amendment.

Section 2 The Congress shall have power to enforce this article by appropriate legislation.

Amendment 24 (Ratified 1964) Section 1 The right of citizens of the United States to vote in any primary or other election for President or Vice President, for electors for President or Vice President, or for Senator or Representative in Congress, shall not be denied or abridged by the United States or any State by reason of failure to pay any poll tax or other tax.

Section 2 The Congress shall have power to enforce this article by appropriate legislation.

Amendment 25 (Ratified 1967) Section 1 In case of the removal of the President from office or of his death or resignation, the Vice President shall become President.

Section 2 Whenever there is a vacancy in the office of the Vice President, the President shall nominate a Vice President who shall take office upon confirmation by a majority vote of both Houses of Congress.

Section 3 Whenever the President transmits to the President pro tempore of the Senate and the Speaker of the House of Representatives his written declaration that he is unable to discharge the powers and duties of his office, and until he transmits to them a written declaration to the contrary, such powers and duties shall be discharged by the Vice President as Acting President.

Section 4 Whenever the Vice President and a majority of either the principal officers of the executive departments or of such other body as Congress may by law provide, transmit to the President pro tempore of the Senate and the Speaker of the House of Representatives their

written declaration that the President is unable to discharge the powers and duties of his office, the Vice President shall immediately assume the powers and duties of the office as Acting President.

Thereafter, when the President transmits to the President pro tempore of the Senate and the Speaker of the House of Representatives his written declaration that no inability exists, he shall resume the powers and duties of his office unless the Vice President and a majority of either the principal officers of the executive department or of such other body as Congress may by law provide, transmit within four days to the President pro tempore of the Senate and the Speaker of the House of Representatives their written declaration that the President is unable to discharge the powers and duties of his office. Thereupon Congress shall decide the issue, assembling within forty-eight hours for that purpose if not in session. If the Congress, within twenty-one days after receipt of the latter written declaration, or, if Congress is not in session,

within twenty-one days after Congress is required to assemble, determines by two-thirds vote of both Houses that the President is unable to discharge the powers and duties of his office, the Vice President shall continue to discharge the same as Acting President; otherwise, the President shall resume the powers and duties of his office.

Amendment 26 (Ratified 1971) Section 1 The right of citizens of the United States, who are eighteen years of age or older, to vote shall not be denied or abridged by the United States or by any State on account of age.

Section 2 The Congress shall have power to enforce this article by appropriate legislation.

Amendment 27 (Ratified 1992) No law, varying the compensation for the services of the Senators and Representatives, shall take effect, until an election of Representatives shall have intervened.

appendix B

UNIFORM COMMERCIAL CODE

Article 2—Sales

Part 1: Short Title, General Construction and Subject Matter

§ 2–101. **Short Title.** This Article shall be known and may be cited as Uniform Commercial Code—Sales.

§ 2–102. **Scope; Certain Security and Other Transactions Excluded from This Article.** Unless the context otherwise requires, this Article applies to transactions in goods; it does not apply to any transaction which although in the form of an unconditional contract to sell or present sale is intended to operate only as a security transaction nor does this Article impair or repeal any statute regulating sales to consumers, farmers or other specified classes of buyers.

§ 2–103. Definitions and Index of Definitions.

- (1) In this Article unless the context otherwise requires
- (a) “Buyer” means a person who buys or contracts to buy goods.
 - (b) “Good faith” in the case of a merchant means honesty in fact and the observance of reasonable commercial standards of fair dealing in the trade.
 - (c) “Receipt” of goods means taking physical possession of them.
 - (d) “Seller” means a person who sells or contracts to sell goods.
- (2) Other definitions applying to this Article or to specified Parts thereof, and the sections in which they appear are:

| | |
|---------------------|-------------------|
| “Acceptance” | Section 2–606. |
| “Banker’s credit” | Section 2–325. |
| “Between merchants” | Section 2–104. |
| “Cancellation” | Section 2–106(4). |
| “Commercial unit” | Section 2–105. |
| “Confirmed credit” | Section 2–325. |

| | |
|--------------------------------|----------------|
| “Conforming to contract”. | Section 2–106. |
| “Contract for sale” | Section 2–106. |
| “Cover” | Section 2–712. |
| “Entrusting” | Section 2–403. |
| “Financing agency” | Section 2–104. |
| “Future goods” | Section 2–105. |
| “Goods” | Section 2–105. |
| “Identification” | Section 2–501. |
| “Installment contract” | Section 2–612. |
| “Letter of Credit” | Section 2–325. |
| “Lot” | Section 2–105. |
| “Merchant” | Section 2–104. |
| “Overseas” | Section 2–323. |
| “Person in position of seller” | Section 2–707. |
| “Present sale” | Section 2–106. |
| “Sale” | Section 2–106. |
| “Sale on approval” | Section 2–326. |
| “Sale or return” | Section 2–326. |
| “Termination” | Section 2–106. |

- (3) The following definitions in other Articles apply to this Article:

| | |
|------------------|----------------|
| “Check” | Section 3-104. |
| “Consignee” | Section 7-102. |
| “Consignor” | Section 7-102. |
| “Consumer goods” | Section 9-109. |
| “Dishonor” | Section 3-502. |
| “Draft” | Section 3-104. |

- (4) In addition Article 1 contains general definitions and principles of construction and interpretation applicable throughout this Article.

As amended in 1994.

See Appendix XI for material relating to changes made in text in 1994.

§ 2–104. Definitions: “Merchant”; “Between Merchants”; “Financing Agency”.

- (1) “Merchant” means a person who deals in goods of the kind or otherwise by his occupation holds himself out as having knowledge or skill peculiar to the practices or goods involved in the transaction or to whom such knowledge or skill may be attributed by his employment of an agent or broker or other intermediary who by his occupation holds himself out as having such knowledge or skill.
- (2) “Financing agency” means a bank, finance company or other person who in the ordinary course of business makes advances against goods or documents of title or who by arrangement with either the seller or the buyer intervenes in ordinary course to make or collect payment due or claimed under the contract for sale, as by purchasing or paying the seller’s draft or making advances against it or by merely taking it for collection whether or not documents of title accompany the draft. “Financing agency” includes also a bank or other person who similarly intervenes between persons who are in the position of seller and buyer in respect to the goods (Section 2–707).
- (3) “Between merchants” means in any transaction with respect to which both parties are chargeable with the knowledge or skill of merchants.

§ 2–105. Definitions: “Transferability”; “Goods”; “Future” Goods; “Lot”; “Commercial Unit”.

- (1) “Goods” means all things (including specially manufactured goods) which are movable at the time of identification to the contract for sale other than the money in which the price is to be paid, investment securities (Article 8) and things in action. “Goods” also includes the unborn young of animals and growing crops and other identified things attached to realty as described in the section on goods to be severed from realty (Section 2–107).
- (2) Goods must be both existing and identified before any interest in them can pass. Goods which are not both existing and identified are “future” goods. A purported present sale of future goods or of any interest therein operates as a contract to sell.
- (3) There may be a sale of a part interest in existing identified goods.
- (4) An undivided share in an identified bulk of fungible goods is sufficiently identified to be sold although the quantity of the bulk is not determined. Any agreed proportion of such a bulk or any quantity thereof agreed upon by number, weight or other

measure may to the extent of the seller’s interest in the bulk be sold to the buyer who then becomes an owner in common.

- (5) “Lot” means a parcel or a single article which is the subject matter of a separate sale or delivery, whether or not it is sufficient to perform the contract.
- (6) “Commercial unit” means such a unit of goods as by commercial usage is a single whole for purposes of sale and division of which materially impairs its character or value on the market or in use. A commercial unit may be a single article (as a machine) or a set of articles (as a suite of furniture or an assortment of sizes) or a quantity (as a bale, gross, or carload) or any other unit treated in use or in the relevant market as a single whole.

§ 2–106. Definitions: “Contract”; “Agreement”; “Contract for Sales”; “Sale”; “Present Sale”; “Conforming” to Contract; “Termination”; “Cancellation”.

- (1) In this Article unless the context otherwise requires “contract” and “agreement” are limited to those relating to the present or future sale of goods. “Contract for sale” includes both a present sale of goods and a contract to sell goods at a future time. A “sale” consists in the passing of title from the seller to the buyer for a price (Section 2–401). A “present sale” means a sale which is accomplished by the making of the contract.
- (2) Goods or conduct including any part of a performance are “conforming” or conform to the contract when they are in accordance with the obligations under the contract.
- (3) “Termination” occurs when either party pursuant to a power created by agreement or law puts an end to the contract otherwise than for its breach. On “termination” all obligations which are still executory on both sides are discharged but any right based on prior breach or performance survives.
- (4) “Cancellation” occurs when either party puts an end to the contract for breach by the other and its effect is the same as that of “termination” except that the cancelling party also retains any remedy for breach of the whole contract or any unperformed balance.

§ 2–107. Goods to Be Severed from Realty: Recording.

- (1) A contract for the sale of minerals or the like (including oil and gas) or a structure or its materials to be removed from realty is a contract for the sale of goods within this Article if they are to be severed by the seller but until severance a purported present sale

thereof which is not effective as a transfer of an interest in land is effective only as a contract to sell.

- (2) A contract for the sale apart from the land of growing crops or other things attached to realty and capable of severance without material harm thereto but not described in subsection (1) or of timber to be cut is a contract for the sale of goods within this Article whether the subject matter is to be severed by the buyer or by the seller even though it forms part of the realty at the time of contracting, and the parties can by identification effect a present sale before severance.
- (3) The provisions of this section are subject to any third party rights provided by the law relating to realty records, and the contract for sale may be executed and recorded as a document transferring an interest in land and shall then constitute notice to third parties of the buyer's rights under the contract for sale. As amended in 1972.

Part 2: Form, Formation and Readjustment Of Contract

§ 2–201. Formal Requirements; Statute of Frauds.

- (1) Except as otherwise provided in this section a contract for the sale of goods for the price of \$500 or more is not enforceable by way of action or defense unless there is some writing sufficient to indicate that a contract for sale has been made between the parties and signed by the party against whom enforcement is sought or by his authorized agent or broker. A writing is not insufficient because it omits or incorrectly states a term agreed upon but the contract is not enforceable under this paragraph beyond the quantity of goods shown in such writing.
- (2) Between merchants if within a reasonable time a writing in confirmation of the contract and sufficient against the sender is received and the party receiving it has reason to know its contents, it satisfies the requirements of subsection (1) against such party unless written notice of objection to its contents is given within 10 days after it is received.
- (3) A contract which does not satisfy the requirements of subsection (1) but which is valid in other respects is enforceable
 - (a) if the goods are to be specially manufactured for the buyer and are not suitable for sale to others in the ordinary course of the seller's business and the seller, before notice of repudiation is received and under circumstances which reason-

ably indicate that the goods are for the buyer, has made either a substantial beginning of their manufacture or commitments for their procurement; or

- (b) if the party against whom enforcement is sought admits in his pleading, testimony or otherwise in court that a contract for sale was made, but the contract is not enforceable under this provision beyond the quantity of goods admitted; or
- (c) with respect to goods for which payment has been made and accepted or which have been received and accepted (Sec. 2–606).

§ 2–202. Final Written Expression: Parol or Extrinsic Evidence. Terms with respect to which the confirmatory memoranda of the parties agree or which are otherwise set forth in a writing intended by the parties as a final expression of their agreement with respect to such terms as are included therein may not be contradicted by evidence of any prior agreement or of a contemporaneous oral agreement but may be explained or supplemented

- (a) by course of dealing or usage of trade (Section 1-205) or by course of performance (Section 2–208); and
- (b) by evidence of consistent additional terms unless the court finds the writing to have been intended also as a complete and exclusive statement of the terms of the agreement.

§ 2–203. Seals Inoperative. The affixing of a seal to a writing evidencing a contract for sale or an offer to buy or sell goods does not constitute the writing a sealed instrument and the law with respect to sealed instruments does not apply to such a contract or offer.

§ 2–204. Formation in General.

- (1) A contract for sale of goods may be made in any manner sufficient to show agreement, including conduct by both parties which recognizes the existence of such a contract.
- (2) An agreement sufficient to constitute a contract for sale may be found even though the moment of its making is undetermined.
- (3) Even though one or more terms are left open a contract for sale does not fail for indefiniteness if the parties have intended to make a contract and there is a reasonably certain basis for giving an appropriate remedy.

§ 2–205. Firm Offers. An offer by a merchant to buy or sell goods in a signed writing which by its terms gives assurance that it will be held open is not revocable, for lack of consideration, during the time stated or if no time is stated for a reasonable time, but in no event may such period of irrevocability exceed three months; but any such term of assurance on a form supplied by the offeree must be separately signed by the offeror.

§ 2–206. Offer and Acceptance in Formation of Contract.

- (1) Unless otherwise unambiguously indicated by the language or circumstances
 - (a) an offer to make a contract shall be construed as inviting acceptance in any manner and by any medium reasonable in the circumstances;
 - (b) an order or other offer to buy goods for prompt or current shipment shall be construed as inviting acceptance either by a prompt promise to ship or by the prompt or current shipment of conforming or non-conforming goods, but such a shipment of non-conforming goods does not constitute an acceptance if the seller seasonably notifies the buyer that the shipment is offered only as an accommodation to the buyer.
- (2) Where the beginning of a requested performance is a reasonable mode of acceptance an offeror who is not notified of acceptance within a reasonable time may treat the offer as having lapsed before acceptance.

§ 2–207. Additional Terms in Acceptance or Confirmation.

- (1) A definite and seasonable expression of acceptance or a written confirmation which is sent within a reasonable time operates as an acceptance even though it states terms additional to or different from those offered or agreed upon, unless acceptance is expressly made conditional on assent to the additional or different terms.
- (2) The additional terms are to be construed as proposals for addition to the contract. Between merchants such terms become part of the contract unless:
 - (a) the offer expressly limits acceptance to the terms of the offer;
 - (b) they materially alter it; or
 - (c) notification of objection to them has already been given or is given within a reasonable time after notice of them is received.
- (3) Conduct by both parties which recognizes the existence of a contract is sufficient to establish a contract

for sale although the writings of the parties do not otherwise establish a contract. In such case the terms of the particular contract consist of those terms on which the writings of the parties agree, together with any supplementary terms incorporated under any other provisions of this Act.

§ 2–208. Course of Performance or Practical Construction.

- (1) Where the contract for sale involves repeated occasions for performance by either party with knowledge of the nature of the performance and opportunity for objection to it by the other, any course of performance accepted or acquiesced in without objection shall be relevant to determine the meaning of the agreement.
- (2) The express terms of the agreement and any such course of performance, as well as any course of dealing and usage of trade, shall be construed whenever reasonable as consistent with each other; but when such construction is unreasonable, express terms shall control course of performance and course of performance shall control both course of dealing and usage of trade (Section 1-205).
- (3) Subject to the provisions of the next section on modification and waiver, such course of performance shall be relevant to show a waiver or modification of any term inconsistent with such course of performance.

§ 2–209. Modification, Rescission and Waiver.

- (1) An agreement modifying a contract within this Article needs no consideration to be binding.
- (2) A signed agreement which excludes modification or rescission except by a signed writing cannot be otherwise modified or rescinded, but except as between merchants such a requirement on a form supplied by the merchant must be separately signed by the other party.
- (3) The requirements of the statute of frauds section of this Article (Section 2–201) must be satisfied if the contract as modified is within its provisions.
- (4) Although an attempt at modification or rescission does not satisfy the requirements of subsection (2) or (3) it can operate as a waiver.
- (5) A party who has made a waiver affecting an executory portion of the contract may retract the waiver by reasonable notification received by the other party that strict performance will be required of any term waived, unless the retraction would be unjust in view of a material change of position in reliance on the waiver.

§ 2–210. Delegation of Performance; Assignment of Rights.

- (1) A party may perform his duty through a delegate unless otherwise agreed or unless the other party has a substantial interest in having his original promisor perform or control the acts required by the contract. No delegation of performance relieves the party delegating of any duty to perform or any liability for breach.
- (2) Unless otherwise agreed all rights of either seller or buyer can be assigned except where the assignment would materially change the duty of the other party, or increase materially the burden or risk imposed on him by his contract, or impair materially his chance of obtaining return performance. A right to damages for breach of the whole contract or a right arising out of the assignor's due performance of his entire obligation can be assigned despite agreement otherwise.
- (3) Unless the circumstances indicate the contrary a prohibition of assignment of "the contract" is to be construed as barring only the delegation to the assignee of the assignor's performance.
- (4) An assignment of "the contract" or of "all my rights under the contract" or an assignment in similar general terms is an assignment of rights and unless the language or the circumstances (as in an assignment for security) indicate the contrary, it is a delegation of performance of the duties of the assignor and its acceptance by the assignee constitutes a promise by him to perform those duties. This promise is enforceable by either the assignor or the other party to the original contract.
- (5) The other party may treat any assignment which delegates performance as creating reasonable grounds for insecurity and may without prejudice to his rights against the assignor demand assurances from the assignee (Section 2–609).

Part 3: General Obligation and Construction of Contract

§ 2–301. **General Obligations of Parties.** The obligation of the seller is to transfer and deliver and that of the buyer is to accept and pay in accordance with the contract.

§ 2–302. Unconscionable Contract or Clause.

- (1) If the court as a matter of law finds the contract or any clause of the contract to have been unconscionable at the time it was made the court may refuse to enforce

the contract, or it may enforce the remainder of the contract without the unconscionable clause, or it may so limit the application of any unconscionable clause as to avoid any unconscionable result.

- (2) When it is claimed or appears to the court that the contract or any clause thereof may be unconscionable the parties shall be afforded a reasonable opportunity to present evidence as to its commercial setting, purpose and effect to aid the court in making the determination.

§ 2–303. **Allocation or Division of Risks.** Where this Article allocates a risk or a burden as between the parties "unless otherwise agreed", the agreement may not only shift the allocation but may also divide the risk or burden.

§ 2–304. Price Payable in Money, Goods, Realty, or Otherwise.

- (1) The price can be made payable in money or otherwise. If it is payable in whole or in part in goods each party is a seller of the goods which he is to transfer.
- (2) Even though all or part of the price is payable in an interest in realty the transfer of the goods and the seller's obligations with reference to them are subject to this Article, but not the transfer of the interest in realty or the transferor's obligations in connection therewith.

§ 2–305. Open Price Term.

- (1) The parties if they so intend can conclude a contract for sale even though the price is not settled. In such a case the price is a reasonable price at the time for delivery if
 - (a) nothing is said as to price; or
 - (b) the price is left to be agreed by the parties and they fail to agree; or
 - (c) the price is to be fixed in terms of some agreed market or other standard as set or recorded by a third person or agency and it is not so set or recorded.
- (2) A price to be fixed by the seller or by the buyer means a price for him to fix in good faith.
- (3) When a price left to be fixed otherwise than by agreement of the parties fails to be fixed through fault of one party the other may at his option treat the contract as cancelled or himself fix a reasonable price.
- (4) Where, however, the parties intend not to be bound unless the price be fixed or agreed and it is not fixed or agreed there is no contract. In such a case the buyer must return any goods already received or if unable so to do must pay their reasonable value at the

time of delivery and the seller must return any portion of the price paid on account.

§ 2-306. Output, Requirements and Exclusive Dealings.

- (1) A term which measures the quantity by the output of the seller or the requirements of the buyer means such actual output or requirements as may occur in good faith, except that no quantity unreasonably disproportionate to any stated estimate or in the absence of a stated estimate to any normal or otherwise comparable prior output or requirements may be tendered or demanded.
- (2) A lawful agreement by either the seller or the buyer for exclusive dealing in the kind of goods concerned imposes unless otherwise agreed an obligation by the seller to use best efforts to supply the goods and by the buyer to use best efforts to promote their sale.

§ 2-307. Delivery in Single Lot or Several Lots. Unless otherwise agreed all goods called for by a contract for sale must be tendered in a single delivery and payment is due only on such tender but where the circumstances give either party the right to make or demand delivery in lots the price if it can be apportioned may be demanded for each lot.

§ 2-308. Absence of Specified Place for Delivery. Unless otherwise agreed

- (a) the place for delivery of goods is the seller's place of business or if he has none his residence; but
- (b) in a contract for sale of identified goods which to the knowledge of the parties at the time of contracting are in some other place, that place is the place for their delivery; and
- (c) documents of title may be delivered through customary banking channels.

§ 2-309. Absence of Specific Time Provisions; Notice of Termination.

- (1) The time for shipment or delivery or any other action under a contract if not provided in this Article or agreed upon shall be a reasonable time.
- (2) Where the contract provides for successive performances but is indefinite in duration it is valid for a reasonable time but unless otherwise agreed may be terminated at any time by either party.
- (3) Termination of a contract by one party except on the happening of an agreed event requires that reasonable notification be received by the other party and

an agreement dispensing with notification is invalid if its operation would be unconscionable.

§ 2-310. Open Time for Payment or Running of Credit; Authority to Ship Under Reservation. Unless otherwise agreed

- (a) payment is due at the time and place at which the buyer is to receive the goods even though the place of shipment is the place of delivery; and
- (b) if the seller is authorized to send the goods he may ship them under reservation, and may tender the documents of title, but the buyer may inspect the goods after their arrival before payment is due unless such inspection is inconsistent with the terms of the contract (Section 2-513); and
- (c) if delivery is authorized and made by way of documents of title otherwise than by subsection (b) then payment is due at the time and place at which the buyer is to receive the documents regardless of where the goods are to be received; and
- (d) where the seller is required or authorized to ship the goods on credit the credit period runs from the time of shipment but postdating the invoice or delaying its dispatch will correspondingly delay the starting of the credit period.

§ 2-311. Options and Cooperation Respecting Performance.

- (1) An agreement for sale which is otherwise sufficiently definite (subsection (3) of Section 2-204) to be a contract is not made invalid by the fact that it leaves particulars of performance to be specified by one of the parties. Any such specification must be made in good faith and within limits set by commercial reasonableness.
- (2) Unless otherwise agreed specifications relating to assortment of the goods are at the buyer's option and except as otherwise provided in subsections (1)(c) and (3) of Section 2-319 specifications or arrangements relating to shipment are at the seller's option.
- (3) Where such specification would materially affect the other party's performance but is not seasonably made or where one party's cooperation is necessary to the agreed performance of the other but is not seasonably forthcoming, the other party in addition to all other remedies
 - (a) is excused for any resulting delay in his own performance; and
 - (b) may also either proceed to perform in any reasonable manner or after the time for a material

part of his own performance treat the failure to specify or to cooperate as a breach by failure to deliver or accept the goods.

§ 2–312. Warranty of Title and Against Infringement; Buyer’s Obligation Against Infringement.

- (1) Subject to subsection (2) there is in a contract for sale a warranty by the seller that
 - (a) the title conveyed shall be good, and its transfer rightful; and
 - (b) the goods shall be delivered free from any security interest or other lien or encumbrance of which the buyer at the time of contracting has no knowledge.
- (2) A warranty under subsection (1) will be excluded or modified only by specific language or by circumstances which give the buyer reason to know that the person selling does not claim title in himself or that he is purporting to sell only such right or title as he or a third person may have.
- (3) Unless otherwise agreed a seller who is a merchant regularly dealing in goods of the kind warrants that the goods shall be delivered free of the rightful claim of any third person by way of infringement or the like but a buyer who furnishes specifications to the seller must hold the seller harmless against any such claim which arises out of compliance with the specifications.

§ 2–313. Express Warranties by Affirmation, Promise, Description, Sample.

- (1) Express warranties by the seller are created as follows:
 - (a) Any affirmation of fact or promise made by the seller to the buyer which relates to the goods and becomes part of the basis of the bargain creates an express warranty that the goods shall conform to the affirmation or promise.
 - (b) Any description of the goods which is made part of the basis of the bargain creates an express warranty that the goods shall conform to the description.
 - (c) Any sample or model which is made part of the basis of the bargain creates an express warranty that the whole of the goods shall conform to the sample or model.
- (2) It is not necessary to the creation of an express warranty that the seller use formal words such as “warrant” or “guarantee” or that he have a specific intention to make a warranty, but an affirmation merely of the value of the goods or a statement purporting to be merely the seller’s opinion or commendation of the goods does not create a warranty.

§ 2–314. Implied Warranty: Merchantability; Usage of Trade.

- (1) Unless excluded or modified (Section 2–316), a warranty that the goods shall be merchantable is implied in a contract for their sale if the seller is a merchant with respect to goods of that kind. Under this section the serving for value of food or drink to be consumed either on the premises or elsewhere is a sale.
- (2) Goods to be merchantable must be at least such as
 - (a) pass without objection in the trade under the contract description; and
 - (b) in the case of fungible goods, are of fair average quality within the description; and
 - (c) are fit for the ordinary purposes for which such goods are used; and
 - (d) run, within the variations permitted by the agreement, of even kind, quality and quantity within each unit and among all units involved; and
 - (e) are adequately contained, packaged, and labeled as the agreement may require; and
 - (f) conform to the promise or affirmations of fact made on the container or label if any.
- (3) Unless excluded or modified (Section 2–316) other implied warranties may arise from course of dealing or usage of trade.

§ 2–315. Implied Warranty: Fitness for Particular Purpose. Where the seller at the time of contracting has reason to know any particular purpose for which the goods are required and that the buyer is relying on the seller’s skill or judgment to select or furnish suitable goods, there is unless excluded or modified under the next section an implied warranty that the goods shall be fit for such purpose.

§ 2–316. Exclusion or Modification of Warranties.

- (1) Words or conduct relevant to the creation of an express warranty and words or conduct tending to negate or limit warranty shall be construed wherever reasonable as consistent with each other; but subject to the provisions of this Article on parol or extrinsic evidence (Section 2–202) negation or limitation is inoperative to the extent that such construction is unreasonable.
- (2) Subject to subsection (3), to exclude or modify the implied warranty of merchantability or any part of it the language must mention merchantability and in case of a writing must be conspicuous, and to exclude or modify any implied warranty of fitness the

exclusion must be by a writing and conspicuous. Language to exclude all implied warranties of fitness is sufficient if it states, for example, that “There are no warranties which extend beyond the description on the face hereof.”

- (3) Notwithstanding subsection (2)
- (a) unless the circumstances indicate otherwise, all implied warranties are excluded by expressions like “as is”, “with all faults” or other language which in common understanding calls the buyer’s attention to the exclusion of warranties and makes plain that there is no implied warranty; and
 - (b) when the buyer before entering into the contract has examined the goods or the sample or model as fully as he desired or has refused to examine the goods there is no implied warranty with regard to defects which an examination ought in the circumstances to have revealed to him; and
 - (c) an implied warranty can also be excluded or modified by course of dealing or course of performance or usage of trade.
- (4) Remedies for breach of warranty can be limited in accordance with the provisions of this Article on liquidation or limitation of damages and on contractual modification of remedy (Sections 2–718 and 2–719).

§ 2–317. Cumulation and Conflict of Warranties Express or Implied. Warranties whether express or implied shall be construed as consistent with each other and as cumulative, but if such construction is unreasonable the intention of the parties shall determine which warranty is dominant. In ascertaining that intention the following rules apply:

- (a) Exact or technical specifications displace an inconsistent sample or model or general language of description.
- (b) A sample from an existing bulk displaces inconsistent general language of description.
- (c) Express warranties displace inconsistent implied warranties other than an implied warranty of fitness for a particular purpose.

§ 2–318. Third Party Beneficiaries of Warranties Express or Implied. *Note: If this Act is introduced in the Congress of the United States this section should be omitted. (States to select one alternative.)*

Alternative A

A seller’s warranty whether express or implied extends to any natural person who is in the family or household of his buyer or who is a guest in his home if it is reasonable to expect that such person may use, consume or be

affected by the goods and who is injured in person by breach of the warranty. A seller may not exclude or limit the operation of this section.

Alternative B

A seller’s warranty whether express or implied extends to any natural person who may reasonably be expected to use, consume or be affected by the goods and who is injured in person by breach of the warranty. A seller may not exclude or limit the operation of this section.

Alternative C

A seller’s warranty whether express or implied extends to any person who may reasonably be expected to use, consume or be affected by the goods and who is injured by breach of the warranty. A seller may not exclude or limit the operation of this section with respect to injury to the person of an individual to whom the warranty extends.

As amended in 1966.

§ 2–319. F.O.B. and F.A.S. Terms.

- (1) Unless otherwise agreed the term F.O.B. (which means “free on board”) at a named place, even though used only in connection with the stated price, is a delivery term under which
- (a) when the term is F.O.B. the place of shipment, the seller must at that place ship the goods in the manner provided in this Article (Section 2–504) and bear the expense and risk of putting them into the possession of the carrier; or
 - (b) when the term is F.O.B. the place of destination, the seller must at his own expense and risk transport the goods to that place and there tender delivery of them in the manner provided in this Article (Section 2–503);
 - (c) when under either (a) or (b) the term is also F.O.B. vessel, car or other vehicle, the seller must in addition at his own expense and risk load the goods on board. If the term is F.O.B. vessel the buyer must name the vessel and in an appropriate case the seller must comply with the provisions of this Article on the form of bill of lading (Section 2–323).
- (2) Unless otherwise agreed the term F.A.S. vessel (which means “free alongside”) at a named port, even though used only in connection with the stated price, is a delivery term under which the seller must
- (a) at his own expense and risk deliver the goods alongside the vessel in the manner usual in that port or on a dock designated and provided by the buyer; and

- (b) obtain and tender a receipt for the goods in exchange for which the carrier is under a duty to issue a bill of lading.
- (3) Unless otherwise agreed in any case falling within subsection (1)(a) or (c) or subsection (2) the buyer must seasonably give any needed instructions for making delivery, including when the term is F.A.S. or F.O.B. the loading berth of the vessel and in an appropriate case its name and sailing date. The seller may treat the failure of needed instructions as a failure of cooperation under this Article (Section 2–311). He may also at his option move the goods in any reasonable manner preparatory to delivery or shipment.
- (4) Under the term F.O.B. vessel or F.A.S. unless otherwise agreed the buyer must make payment against tender of the required documents and the seller may not tender nor the buyer demand delivery of the goods in substitution for the documents.

§ 2–320. C.I.F. and C. & F. Terms.

- (1) The term C.I.F. means that the price includes in a lump sum the cost of the goods and the insurance and freight to the named destination. The term C. & F. or C.F. means that the price so includes cost and freight to the named destination.
- (2) Unless otherwise agreed and even though used only in connection with the stated price and destination, the term C.I.F. destination or its equivalent requires the seller at his own expense and risk to
 - (a) put the goods into the possession of a carrier at the port for shipment and obtain a negotiable bill or bills of lading covering the entire transportation to the named destination; and
 - (b) load the goods and obtain a receipt from the carrier (which may be contained in the bill of lading) showing that the freight has been paid or provided for; and
 - (c) obtain a policy or certificate of insurance, including any war risk insurance, of a kind and on terms then current at the port of shipment in the usual amount, in the currency of the contract, shown to cover the same goods covered by the bill of lading and providing for payment of loss to the order of the buyer or for the account of whom it may concern; but the seller may add to the price the amount of the premium for any such war risk insurance; and
 - (d) prepare an invoice of the goods and procure any other documents required to effect shipment or to comply with the contract; and
- (e) forward and tender with commercial promptness all the documents in due form and with any indorsement necessary to perfect the buyer's rights.
- (3) Unless otherwise agreed the term C. & F. or its equivalent has the same effect and imposes upon the seller the same obligations and risks as a C.I.F. term except the obligation as to insurance.
- (4) Under the term C.I.F. or C. & F. unless otherwise agreed the buyer must make payment against tender of the required documents and the seller may not tender nor the buyer demand delivery of the goods in substitution for the documents.

§ 2–321. C.I.F. or C. & F.: “Net Landed Weights”; “Payment on Arrival”; Warranty of Condition on Arrival. Under a contract containing a term C.I.F. or C. & F.

- (1) Where the price is based on or is to be adjusted according to “net landed weights”, “delivered weights”, “out turn” quantity or quality or the like, unless otherwise agreed the seller must reasonably estimate the price. The payment due on tender of the documents called for by the contract is the amount so estimated, but after final adjustment of the price a settlement must be made with commercial promptness.
- (2) An agreement described in subsection (1) or any warranty of quality or condition of the goods on arrival places upon the seller the risk of ordinary deterioration, shrinkage and the like in transportation but has no effect on the place or time of identification to the contract for sale or delivery or on the passing of the risk of loss.
- (3) Unless otherwise agreed where the contract provides for payment on or after arrival of the goods the seller must before payment allow such preliminary inspection as is feasible; but if the goods are lost delivery of the documents and payment are due when the goods should have arrived.

§ 2–322. Delivery “Ex-Ship”.

- (1) Unless otherwise agreed a term for delivery of goods “ex-ship” (which means from the carrying vessel) or in equivalent language is not restricted to a particular ship and requires delivery from a ship which has reached a place at the named port of destination where goods of the kind are usually discharged.
- (2) Under such a term unless otherwise agreed
 - (a) the seller must discharge all liens arising out of the carriage and furnish the buyer with a direction which puts the carrier under a duty to deliver the goods; and

- (b) the risk of loss does not pass to the buyer until the goods leave the ship's tackle or are otherwise properly unloaded.

§ 2-323. Form of Bill of Lading Required in Overseas Shipment; "Overseas".

- (1) Where the contract contemplates overseas shipment and contains a term C.I.F. or C. & F. or F.O.B. vessel, the seller unless otherwise agreed must obtain a negotiable bill of lading stating that the goods have been loaded in board or, in the case of a term C.I.F. or C. & F., received for shipment.
- (2) Where in a case within subsection (1) a bill of lading has been issued in a set of parts, unless otherwise agreed if the documents are not to be sent from abroad the buyer may demand tender of the full set; otherwise only one part of the bill of lading need be tendered. Even if the agreement expressly requires a full set
 - (a) due tender of a single part is acceptable within the provisions of this Article on cure of improper delivery (subsection (1) of Section 2-508); and
 - (b) even though the full set is demanded, if the documents are sent from abroad the person tendering an incomplete set may nevertheless require payment upon furnishing an indemnity which the buyer in good faith deems adequate.
- (3) A shipment by water or by air or a contract contemplating such shipment is "overseas" insofar as by usage of trade or agreement it is subject to the commercial, financing or shipping practices characteristic of international deep water commerce.

§ 2-324. "No Arrival, No Sale" Term. Under a term "no arrival, no sale" or terms of like meaning, unless otherwise agreed,

- (a) the seller must properly ship conforming goods and if they arrive by any means he must tender them on arrival but he assumes no obligation that the goods will arrive unless he has caused the non-arrival; and
- (b) where without fault of the seller the goods are in part lost or have so deteriorated as no longer to conform to the contract or arrive after the contract time, the buyer may proceed as if there had been casualty to identified goods (Section 2-613).

§ 2-325. "Letter of Credit" Term; "Confirmed Credit".

- (1) Failure of the buyer seasonably to furnish an agreed letter of credit is a breach of the contract for sale.

- (2) The delivery to seller of a proper letter of credit suspends the buyer's obligation to pay. If the letter of credit is dishonored, the seller may on reasonable notification to the buyer require payment directly from him.
- (3) Unless otherwise agreed the term "letter of credit" or "banker's credit" in a contract for sale means an irrevocable credit issued by a financing agency of good repute and, where the shipment is overseas, of good international repute. The term "confirmed credit" means that the credit must also carry the direct obligation of such an agency which does business in the seller's financial market.

§ 2-326. Sale on Approval and Sale or Return; Consignment Sales and Rights of Creditors.

- (1) Unless otherwise agreed, if delivered goods may be returned by the buyer even though they conform to the contract, the transaction is
 - (a) a "sale on approval" if the goods are delivered primarily for use, and
 - (b) a "sale or return" if the goods are delivered primarily for resale.
- (2) Except as provided in subsection (3), goods held on approval are not subject to the claims of the buyer's creditors until acceptance; goods held on sale or return are subject to such claims while in the buyer's possession.
- (3) Where goods are delivered to a person for sale and such person maintains a place of business at which he deals in goods of the kind involved, under a name other than the name of the person making delivery, then with respect to claims of creditors of the person conducting the business the goods are deemed to be on sale or return. The provisions of this subsection are applicable even though an agreement purports to reserve title to the person making delivery until payment or resale or uses such words as "on consignment" or "on memorandum". However, this subsection is not applicable if the person making delivery
 - (a) complies with an applicable law providing for a consignor's interest or the like to be evidenced by a sign, or
 - (b) establishes that the person conducting the business is generally known by his creditors to be substantially engaged in selling the goods of others, or
 - (c) complies with the filing provisions of the Article on Secured Transactions (Article 9).
- (4) Any "or return" term of a contract for sale is to be treated as a separate contract for sale within the statute of frauds section of this Article (Section

2–201) and as contradicting the sale aspect of the contract within the provisions of this Article on parol or extrinsic evidence (Section 2–202).

§ 2–327. Special Incidents of Sale on Approval and Sale or Return.

- (1) Under a sale on approval unless otherwise agreed
 - (a) although the goods are identified to the contract the risk of loss and the title do not pass to the buyer until acceptance; and
 - (b) use of the goods consistent with the purpose of trial is not acceptance but failure seasonably to notify the seller of election to return the goods is acceptance, and if the goods conform to the contract acceptance of any part is acceptance of the whole; and
 - (c) after due notification of election to return, the return is at the seller's risk and expense but a merchant buyer must follow any reasonable instructions.
- (2) Under a sale or return unless otherwise agreed
 - (a) the option to return extends to the whole or any commercial unit of the goods while in substantially their original condition, but must be exercised seasonably; and
 - (b) the return is at the buyer's risk and expense.

§ 2–328. Sale by Auction.

- (1) In a sale by auction if goods are put up in lots each lot is the subject of a separate sale.
- (2) A sale by auction is complete when the auctioneer so announces by the fall of the hammer or in other customary manner. Where a bid is made while the hammer is falling in acceptance of a prior bid the auctioneer may in his discretion reopen the bidding or declare the goods sold under the bid on which the hammer was falling.
- (3) Such a sale is with reserve unless the goods are in explicit terms put up without reserve. In an auction with reserve the auctioneer may withdraw the goods at any time until he announces completion of the sale. In an auction without reserve, after the auctioneer calls for bids on an article or lot, that article or lot cannot be withdrawn unless no bid is made within a reasonable time. In either case a bidder may retract his bid until the auctioneer's announcement of completion of the sale, but a bidder's retraction does not revive any previous bid.
- (4) If the auctioneer knowingly receives a bid on the seller's behalf or the seller makes or procures such a bid, and notice has not been given that liberty for such bidding is reserved, the buyer may at his option avoid

the sale or take the goods at the price of the last good faith bid prior to the completion of the sale. This subsection shall not apply to any bid at a forced sale.

Part 4: Title, Creditors and Good Faith Purchasers

§ 2–401. Passing of Title; Reservation for Security; Limited Application of This Section. Each provision of this Article with regard to the rights, obligations and remedies of the seller, the buyer, purchasers or other third parties applies irrespective of title to the goods except where the provision refers to such title. Insofar as situations are not covered by the other provisions of this Article and matters concerning title become material the following rules apply:

- (1) Title to goods cannot pass under a contract for sale prior to their identification to the contract (Section 2–501), and unless otherwise explicitly agreed the buyer acquires by their identification a special property as limited by this Act. Any retention or reservation by the seller of the title (property) in goods shipped or delivered to the buyer is limited in effect to a reservation of a security interest. Subject to these provisions and to the provisions of the Article on Secured Transactions (Article 9), title to goods passes from the seller to the buyer in any manner and on any conditions explicitly agreed on by the parties.
- (2) Unless otherwise explicitly agreed title passes to the buyer at the time and place at which the seller completes his performance with reference to the physical delivery of the goods, despite any reservation of a security interest and even though a document of title is to be delivered at a different time or place; and in particular and despite any reservation of a security interest by the bill of lading
 - (a) if the contract requires or authorizes the seller to send the goods to the buyer but does not require him to deliver them at destination, title passes to the buyer at the time and place of shipment; but
 - (b) if the contract requires delivery at destination, title passes on tender there.
- (3) Unless otherwise explicitly agreed where delivery is to be made without moving the goods,
 - (a) if the seller is to deliver a document of title, title passes at the time when and the place where he delivers such documents; or
 - (b) if the goods are at the time of contracting already identified and no documents are to be delivered, title passes at the time and place of contracting.

(4) A rejection or other refusal by the buyer to receive or retain the goods, whether or not justified, or a justified revocation of acceptance revests title to the goods in the seller. Such revesting occurs by operation of law and is not a “sale”.

§ 2–402. Rights of Seller’s Creditors Against Sold Goods.

- (1) Except as provided in subsections (2) and (3), rights of unsecured creditors of the seller with respect to goods which have been identified to a contract for sale are subject to the buyer’s rights to recover the goods under this Article (Sections 2–502 and 2–716).
- (2) A creditor of the seller may treat a sale or an identification of goods to a contract for sale as void if as against him a retention of possession by the seller is fraudulent under any rule of law of the state where the goods are situated, except that retention of possession in good faith and current course of trade by a merchant-seller for a commercially reasonable time after a sale or identification is not fraudulent.
- (3) Nothing in this Article shall be deemed to impair the rights of creditors of the seller
 - (a) under the provisions of the Article on Secured Transactions (Article 9); or
 - (b) where identification to the contract or delivery is made not in current course of trade but in satisfaction of or as security for a pre-existing claim for money, security or the like and is made under circumstances which under any rule of law of the state where the goods are situated would apart from this Article constitute the transaction a fraudulent transfer or voidable preference.

§ 2–403. Power to Transfer; Good Faith Purchase of Goods; “Entrusting”.

- (1) A purchaser of goods acquires all title which his transferor had or had power to transfer except that a purchaser of a limited interest acquires rights only to the extent of the interest purchased. A person with voidable title has power to transfer a good title to a good faith purchaser for value. When goods have been delivered under a transaction of purchase the purchaser has such power even though
 - (a) the transferor was deceived as to the identity of the purchaser, or
 - (b) the delivery was in exchange for a check which is later dishonored, or
 - (c) it was agreed that the transaction was to be a “cash sale”, or

- (d) the delivery was procured through fraud punishable as larcenous under the criminal law.
- (2) Any entrusting of possession of goods to a merchant who deals in goods of that kind gives him power to transfer all rights of the entruster to a buyer in ordinary course of business.
- (3) “Entrusting” includes any delivery and any acquiescence in retention of possession regardless of any condition expressed between the parties to the delivery or acquiescence and regardless of whether the procurement of the entrusting or the possessor’s disposition of the goods have been such as to be larcenous under the criminal law.

[Publisher’s Editorial Note: If a state adopts the repealer of Article 6—Bulk Transfers (Alternative A), subsec. (4) should read as follows:]
- (4) The rights of other purchasers of goods and of lien creditors are governed by the Articles on Secured Transactions (Article 9) and Documents of Title (Article 7).

[Publisher’s Editorial Note: If a state adopts Revised Article 6—Bulk Sales (Alternative B), subsec. (4) should read as follows:]
- (4) The rights of other purchasers of goods and of lien creditors are governed by the Articles on Secured Transactions (Article 9), Bulk Sales (Article 6) and Documents of Title (Article 7).

As amended in 1988.

For material relating to the changes made in text in 1988, see section 3 of Alternative A (Repealer of Article 6—Bulk Transfers) and Conforming Amendment to Section 2–403 following end of Alternative B (Revised Article 6—Bulk Sales).

Part 5: Performance

§ 2–501. Insurable Interest in Goods; Manner of Identification of Goods.

- (1) The buyer obtains a special property and an insurable interest in goods by identification of existing goods as goods to which the contract refers even though the goods so identified are non-conforming and he has an option to return or reject them. Such identification can be made at any time and in any manner explicitly agreed to by the parties. In the absence of explicit agreement identification occurs
 - (a) when the contract is made if it is for the sale of goods already existing and identified;
 - (b) if the contract is for the sale of future goods other than those described in paragraph (c),

when goods are shipped, marked or otherwise designated by the seller as goods to which the contract refers;

- (c) when the crops are planted or otherwise become growing crops or the young are conceived if the contract is for the sale of unborn young to be born within twelve months after contracting or for the sale of crops to be harvested within twelve months or the next normal harvest season after contracting whichever is longer.
- (2) The seller retains an insurable interest in goods so long as title to or any security interest in the goods remains in him and where the identification is by the seller alone he may until default or insolvency or notification to the buyer that the identification is final substitute other goods for those identified.
- (3) Nothing in this section impairs any insurable interest recognized under any other statute or rule of law.

§ 2–502. Buyer’s Right to Goods on Seller’s Insolvency.

- (1) Subject to subsection (2) and even though the goods have not been shipped a buyer who has paid a part or all of the price of goods in which he has a special property under the provisions of the immediately preceding section may on making and keeping good a tender of any unpaid portion of their price recover them from the seller if the seller becomes insolvent within ten days after receipt of the first installment on their price.
- (2) If the identification creating his special property has been made by the buyer he acquires the right to recover the goods only if they conform to the contract for sale.

§ 2–503. Manner of Seller’s Tender of Delivery.

- (1) Tender of delivery requires that the seller put and hold conforming goods at the buyer’s disposition and give the buyer any notification reasonably necessary to enable him to take delivery. The manner, time and place for tender are determined by the agreement and this Article, and in particular
 - (a) tender must be at a reasonable hour, and if it is of goods they must be kept available for the period reasonably necessary to enable the buyer to take possession; but
 - (b) unless otherwise agreed the buyer must furnish facilities reasonably suited to the receipt of the goods.
- (2) Where the case is within the next section respecting shipment tender requires that the seller comply with its provisions.

- (3) Where the seller is required to deliver at a particular destination tender requires that he comply with subsection (1) and also in any appropriate case tender documents as described in subsections (4) and (5) of this section.
- (4) Where goods are in the possession of a bailee and are to be delivered without being moved
 - (a) tender requires that the seller either tender a negotiable document of title covering such goods or procure acknowledgment by the bailee of the buyer’s right to possession of the goods; but
 - (b) tender to the buyer of a non-negotiable document of title or of a written direction to the bailee to deliver is sufficient tender unless the buyer seasonably objects, and receipt by the bailee of notification of the buyer’s rights fixes those rights as against the bailee and all third persons; but risk of loss of the goods and of any failure by the bailee to honor the non-negotiable document of title or to obey the direction remains on the seller until the buyer has had a reasonable time to present the document or direction, and a refusal by the bailee to honor the document or to obey the direction defeats the tender.
- (5) Where the contract requires the seller to deliver documents
 - (a) he must tender all such documents in correct form, except as provided in this Article with respect to bills of lading in a set (subsection (2) of Section 2–323); and
 - (b) tender through customary banking channels is sufficient and dishonor of a draft accompanying the documents constitutes non-acceptance or rejection.

§ 2–504. **Shipment by Seller.** Where the seller is required or authorized to send the goods to the buyer and the contract does not require him to deliver them at a particular destination, then unless otherwise agreed he must

- (a) put the goods in the possession of such a carrier and make such a contract for their transportation as may be reasonable having regard to the nature of the goods and other circumstances of the case; and
- (b) obtain and promptly deliver or tender in due form any document necessary to enable the buyer to obtain possession of the goods or otherwise required by the agreement or by usage of trade; and
- (c) promptly notify the buyer of the shipment.

Failure to notify the buyer under paragraph (c) or to make a proper contract under paragraph (a) is a ground for rejection only if material delay or loss ensues.

§ 2–505. Seller’s Shipment Under Reservation.

- (1) Where the seller has identified goods to the contract by or before shipment:
 - (a) his procurement of a negotiable bill of lading to his own order or otherwise reserves in him a security interest in the goods. His procurement of the bill to the order of a financing agency or of the buyer indicates in addition only the seller’s expectation of transferring that interest to the person named.
 - (b) a non-negotiable bill of lading to himself or his nominee reserves possession of the goods as security but except in a case of conditional delivery (subsection (2) of Section 2–507) a non-negotiable bill of lading naming the buyer as consignee reserves no security interest even though the seller retains possession of the bill of lading.
- (2) When shipment by the seller with reservation of a security interest is in violation of the contract for sale it constitutes an improper contract for transportation within the preceding section but impairs neither the rights given to the buyer by shipment and identification of the goods to the contract nor the seller’s powers as a holder of a negotiable document.

§ 2–506. Rights of Financing Agency.

- (1) A financing agency by paying or purchasing for value a draft which relates to a shipment of goods acquires to the extent of the payment or purchase and in addition to its own rights under the draft and any document of title securing it any rights of the shipper in the goods including the right to stop delivery and the shipper’s right to have the draft honored by the buyer.
- (2) The right to reimbursement of a financing agency which has in good faith honored or purchased the draft under commitment to or authority from the buyer is not impaired by subsequent discovery of defects with reference to any relevant document which was apparently regular on its face.

§ 2–507. Effect of Seller’s Tender; Delivery on Condition.

- (1) Tender of delivery is a condition to the buyer’s duty to accept the goods and, unless otherwise agreed, to his duty to pay for them. Tender entitles the seller to acceptance of the goods and to payment according to the contract.

- (2) Where payment is due and demanded on the delivery to the buyer of goods or documents of title, his right as against the seller to retain or dispose of them is conditional upon his making the payment due.

§ 2–508. Cure by Seller of Improper Tender or Delivery; Replacement.

- (1) Where any tender or delivery by the seller is rejected because non-conforming and the time for performance has not yet expired, the seller may seasonably notify the buyer of his intention to cure and may then within the contract time make a conforming delivery.
- (2) Where the buyer rejects a non-conforming tender which the seller had reasonable grounds to believe would be acceptable with or without money allowance the seller may if he seasonably notifies the buyer have a further reasonable time to substitute a conforming tender.

§ 2–509. Risk of Loss in the Absence of Breach.

- (1) Where the contract requires or authorizes the seller to ship the goods by carrier
 - (a) if it does not require him to deliver them at a particular destination, the risk of loss passes to the buyer when the goods are duly delivered to the carrier even though the shipment is under reservation (Section 2–505); but
 - (b) if it does require him to deliver them at a particular destination and the goods are there duly tendered while in the possession of the carrier, the risk of loss passes to the buyer when the goods are there duly so tendered as to enable the buyer to take delivery.
- (2) Where the goods are held by a bailee to be delivered without being moved, the risk of loss passes to the buyer
 - (a) on his receipt of a negotiable document of title covering the goods; or
 - (b) on acknowledgment by the bailee of the buyer’s right to possession of the goods; or
 - (c) after his receipt of a non-negotiable document of title or other written direction to deliver, as provided in subsection (4)(b) of Section 2–503.
- (3) In any case not within subsection (1) or (2), the risk of loss passes to the buyer on his receipt of the goods if the seller is a merchant; otherwise the risk passes to the buyer on tender of delivery.
- (4) The provisions of this section are subject to contrary agreement of the parties and to the provisions of this Article on sale on approval (Section 2–327) and on effect of breach on risk of loss (Section 2–510).

§ 2–510. Effect of Breach on Risk of Loss.

- (1) Where a tender or delivery of goods so fails to conform to the contract as to give a right of rejection the risk of their loss remains on the seller until cure or acceptance.
- (2) Where the buyer rightfully revokes acceptance he may to the extent of any deficiency in his effective insurance coverage treat the risk of loss as having rested on the seller from the beginning.
- (3) Where the buyer as to conforming goods already identified to the contract for sale repudiates or is otherwise in breach before risk of their loss has passed to him, the seller may to the extent of any deficiency in his effective insurance coverage treat the risk of loss as resting on the buyer for a commercially reasonable time.

§ 2–511. Tender of Payment by Buyer; Payment by Check.

- (1) Unless otherwise agreed tender of payment is a condition to the seller's duty to tender and complete any delivery.
- (2) Tender of payment is sufficient when made by any means or in any manner current in the ordinary course of business unless the seller demands payment in legal tender and gives any extension of time reasonably necessary to procure it.
- (3) Subject to the provisions of this Act on the effect of an instrument on an obligation (Section 3-310), payment by check is conditional and is defeated as between the parties by dishonor of the check on due presentment.

As amended in 1994.

See Appendix XI for material relating to changes made in text in 1994.

§ 2–512. Payment by Buyer Before Inspection. *1995 Amendments to text indicated by strikeout and underline]*

- (1) Where the contract requires payment before inspection non-conformity of the goods does not excuse the buyer from so making payment unless
 - (a) the non-conformity appears without inspection; or
 - (b) despite tender of the required documents the circumstances would justify injunction against honor under this Act (Section 5-109(b)).
- (2) Payment pursuant to subsection (1) does not constitute an acceptance of goods or impair the buyer's right to inspect or any of his remedies.

As amended in 1995.

See Appendix XIV for material relating to changes made in text in 1995.

§ 2–513. Buyer's Right to Inspection of Goods.

- (1) Unless otherwise agreed and subject to subsection (3), where goods are tendered or delivered or identified to the contract for sale, the buyer has a right before payment or acceptance to inspect them at any reasonable place and time and in any reasonable manner. When the seller is required or authorized to send the goods to the buyer, the inspection may be after their arrival.
- (2) Expenses of inspection must be borne by the buyer but may be recovered from the seller if the goods do not conform and are rejected.
- (3) Unless otherwise agreed and subject to the provisions of this Article on C.I.F. contracts (subsection (3) of Section 2–321), the buyer is not entitled to inspect the goods before payment of the price when the contract provides
 - (a) for delivery "C.O.D." or on other like terms; or
 - (b) for payment against documents of title, except where such payment is due only after the goods are to become available for inspection.
- (4) A place or method of inspection fixed by the parties is presumed to be exclusive but unless otherwise expressly agreed it does not postpone identification or shift the place for delivery or for passing the risk of loss. If compliance becomes impossible, inspection shall be as provided in this section unless the place or method fixed was clearly intended as an indispensable condition failure of which avoids the contract.

§ 2–514. When Documents Deliverable on Acceptance; When on Payment. Unless otherwise agreed documents against which a draft is drawn are to be delivered to the drawee on acceptance of the draft if it is payable more than three days after presentment; otherwise, only on payment.

§ 2–515. Preserving Evidence of Goods in Dispute. In furtherance of the adjustment of any claim or dispute

- (a) either party on reasonable notification to the other and for the purpose of ascertaining the facts and preserving evidence has the right to inspect, test and sample the goods including such of them as may be in the possession or control of the other; and

- (b) the parties may agree to a third party inspection or survey to determine the conformity or condition of the goods and may agree that the findings shall be binding upon them in any subsequent litigation or adjustment.

Part 6: Breach, Repudiation and Excuse

§ 2–601. Buyer’s Rights on Improper Delivery. Subject to the provisions of this Article on breach in installment contracts (Section 2–612) and unless otherwise agreed under the sections on contractual limitations of remedy (Sections 2–718 and 2–719), if the goods or the tender of delivery fail in any respect to conform to the contract, the buyer may

- (a) reject the whole; or
- (b) accept the whole; or
- (c) accept any commercial unit or units and reject the rest.

§ 2–602. Manner and Effect of Rightful Rejection.

- (1) Rejection of goods must be within a reasonable time after their delivery or tender. It is ineffective unless the buyer seasonably notifies the seller.
- (2) Subject to the provisions of the two following sections on rejected goods (Sections 2–603 and 2–604),
 - (a) after rejection any exercise of ownership by the buyer with respect to any commercial unit is wrongful as against the seller; and
 - (b) if the buyer has before rejection taken physical possession of goods in which he does not have a security interest under the provisions of this Article (subsection (3) of Section 2–711), he is under a duty after rejection to hold them with reasonable care at the seller’s disposition for a time sufficient to permit the seller to remove them; but
 - (c) the buyer has no further obligations with regard to goods rightfully rejected.
- (3) The seller’s rights with respect to goods wrongfully rejected are governed by the provisions of this Article on Seller’s remedies in general (Section 2–703).

§ 2–603. Merchant Buyer’s Duties as to Rightfully Rejected Goods.

- (1) Subject to any security interest in the buyer (subsection (3) of Section 2–711), when the seller has no agent or place of business at the market of rejection a merchant buyer is under a duty after rejection of goods in his possession or control to follow any rea-

sonable instructions received from the seller with respect to the goods and in the absence of such instructions to make reasonable efforts to sell them for the seller’s account if they are perishable or threaten to decline in value speedily. Instructions are not reasonable if on demand indemnity for expenses is not forthcoming.

- (2) When the buyer sells goods under subsection (1), he is entitled to reimbursement from the seller or out of the proceeds for reasonable expenses of caring for and selling them, and if the expenses include no selling commission then to such commission as is usual in the trade or if there is none to a reasonable sum not exceeding ten per cent on the gross proceeds.
- (3) In complying with this section the buyer is held only to good faith and good faith conduct hereunder is neither acceptance nor conversion nor the basis of an action for damages.

§ 2–604. Buyer’s Options as to Salvage of Rightfully Rejected Goods. Subject to the provisions of the immediately preceding section on perishables if the seller gives no instructions within a reasonable time after notification of rejection the buyer may store the rejected goods for the seller’s account or reshipe them to him or resell them for the seller’s account with reimbursement as provided in the preceding section. Such action is not acceptance or conversion.

§ 2–605. Waiver of Buyer’s Objections by Failure to Particularize.

- (1) The buyer’s failure to state in connection with rejection a particular defect which is ascertainable by reasonable inspection precludes him from relying on the unstated defect to justify rejection or to establish breach
 - (a) where the seller could have cured it if stated seasonably; or
 - (b) between merchants when the seller has after rejection made a request in writing for a full and final written statement of all defects on which the buyer proposes to rely.
- (2) Payment against documents made without reservation of rights precludes recovery of the payment for defects apparent on the face of the documents.

§ 2–606. What Constitutes Acceptance of Goods.

- (1) Acceptance of goods occurs when the buyer
 - (a) after a reasonable opportunity to inspect the goods signifies to the seller that the goods are

- conforming or that he will take or retain them in spite of their non-conformity; or
- (b) fails to make an effective rejection (subsection (1) of Section 2–602), but such acceptance does not occur until the buyer has had a reasonable opportunity to inspect them; or
 - (c) does any act inconsistent with the seller’s ownership; but if such act is wrongful as against the seller it is an acceptance only if ratified by him.
- (2) Acceptance of a part of any commercial unit is acceptance of that entire unit.

§ 2–607. Effect of Acceptance; Notice of Breach; Burden of Establishing Breach After Acceptance; Notice of Claim or Litigation to Person Answerable Over.

- (1) The buyer must pay at the contract rate for any goods accepted.
 - (2) Acceptance of goods by the buyer precludes rejection of the goods accepted and if made with knowledge of a non-conformity cannot be revoked because of it unless the acceptance was on the reasonable assumption that the non-conformity would be seasonably cured but acceptance does not of itself impair any other remedy provided by this Article for non-conformity.
 - (3) Where a tender has been accepted
 - (a) the buyer must within a reasonable time after he discovers or should have discovered any breach notify the seller of breach or be barred from any remedy; and
 - (b) if the claim is one for infringement or the like (subsection (3) of Section 2–312) and the buyer is sued as a result of such a breach he must so notify the seller within a reasonable time after he receives notice of the litigation or be barred from any remedy over for liability established by the litigation.
 - (4) The burden is on the buyer to establish any breach with respect to the goods accepted.
 - (5) Where the buyer is sued for breach of a warranty or other obligation for which his seller is answerable over
 - (a) he may give his seller written notice of the litigation. If the notice states that the seller may come in and defend and that if the seller does not do so he will be bound in any action against him by his buyer by any determination of fact common to the two litigations, then unless the seller after seasonable receipt of the notice does come in and defend he is so bound.
 - (b) if the claim is one for infringement or the like (subsection (3) of Section 2–312) the original seller may demand in writing that his buyer turn over to him control of the litigation including settlement or else be barred from any remedy over and if he also agrees to bear all expense and to satisfy any adverse judgment, then unless the buyer after seasonable receipt of the demand does turn over control the buyer is so barred.
- (6) The provisions of subsections (3), (4) and (5) apply to any obligation of a buyer to hold the seller harmless against infringement or the like (subsection (3) of Section 2–312).

§ 2–608. Revocation of Acceptance in Whole or in Part.

- (1) The buyer may revoke his acceptance of a lot or commercial unit whose non-conformity substantially impairs its value to him if he has accepted it
 - (a) on the reasonable assumption that its non-conformity would be cured and it has not been seasonably cured; or
 - (b) without discovery of such non-conformity if his acceptance was reasonably induced either by the difficulty of discovery before acceptance or by the seller’s assurances.
- (2) Revocation of acceptance must occur within a reasonable time after the buyer discovers or should have discovered the ground for it and before any substantial change in condition of the goods which is not caused by their own defects. It is not effective until the buyer notifies the seller of it.
- (3) A buyer who so revokes has the same rights and duties with regard to the goods involved as if he had rejected them.

§ 2–609. Right to Adequate Assurance of Performance.

- (1) A contract for sale imposes an obligation on each party that the other’s expectation of receiving due performance will not be impaired. When reasonable grounds for insecurity arise with respect to the performance of either party the other may in writing demand adequate assurance of due performance and until he receives such assurance may if commercially reasonable suspend any performance for which he has not already received the agreed return.
- (2) Between merchants the reasonableness of grounds for insecurity and the adequacy of any assurance offered shall be determined according to commercial standards.

- (3) Acceptance of any improper delivery or payment does not prejudice the aggrieved party's right to demand adequate assurance of future performance.
- (4) After receipt of a justified demand failure to provide within a reasonable time not exceeding thirty days such assurance of due performance as is adequate under the circumstances of the particular case is a repudiation of the contract.

§ 2-610. Anticipatory Repudiation. When either party repudiates the contract with respect to a performance not yet due the loss of which will substantially impair the value of the contract to the other, the aggrieved party may

- (a) for a commercially reasonable time await performance by the repudiating party; or
- (b) resort to any remedy for breach (Section 2-703 or Section 2-711), even though he has notified the repudiating party that he would await the latter's performance and has urged retraction; and
- (c) in either case suspend his own performance or proceed in accordance with the provisions of this Article on the seller's right to identify goods to the contract notwithstanding breach or to salvage unfinished goods (Section 2-704).

§ 2-611. Retraction of Anticipatory Repudiation.

- (1) Until the repudiating party's next performance is due he can retract his repudiation unless the aggrieved party has since the repudiation cancelled or materially changed his position or otherwise indicated that he considers the repudiation final.
- (2) Retraction may be by any method which clearly indicates to the aggrieved party that the repudiating party intends to perform, but must include any assurance justifiably demanded under the provisions of this Article (Section 2-609).
- (3) Retraction reinstates the repudiating party's rights under the contract with due excuse and allowance to the aggrieved party for any delay occasioned by the repudiation.

§ 2-612. "Installment Contract"; Breach.

- (1) An "installment contract" is one which requires or authorizes the delivery of goods in separate lots to be separately accepted, even though the contract contains a clause "each delivery is a separate contract" or its equivalent.
- (2) The buyer may reject any installment which is non-conforming if the non-conformity substantially impairs the value of that installment and cannot be cured or if the non-conformity is a defect in the required documents; but if the non-conformity does

not fall within subsection (3) and the seller gives adequate assurance of its cure the buyer must accept that installment.

- (3) Whenever non-conformity or default with respect to one or more installments substantially impairs the value of the whole contract there is a breach of the whole. But the aggrieved party reinstates the contract if he accepts a non-conforming installment without seasonably notifying of cancellation or if he brings an action with respect only to past installments or demands performance as to future installments.

§ 2-613. Casualty to Identified Goods. Where the contract requires for its performance goods identified when the contract is made, and the goods suffer casualty without fault of either party before the risk of loss passes to the buyer, or in a proper case under a "no arrival, no sale" term (Section 2-324) then

- (a) if the loss is total the contract is avoided; and
- (b) if the loss is partial or the goods have so deteriorated as no longer to conform to the contract the buyer may nevertheless demand inspection and at his option either treat the contract as avoided or accept the goods with due allowance from the contract price for the deterioration or the deficiency in quantity but without further right against the seller.

§ 2-614. Substituted Performance.

- (1) Where without fault of either party the agreed berthing, loading, or unloading facilities fail or an agreed type of carrier becomes unavailable or the agreed manner of delivery otherwise becomes commercially impracticable but a commercially reasonable substitute is available, such substitute performance must be tendered and accepted.
- (2) If the agreed means or manner of payment fails because of domestic or foreign governmental regulation, the seller may withhold or stop delivery unless the buyer provides a means or manner of payment which is commercially a substantial equivalent. If delivery has already been taken, payment by the means or in the manner provided by the regulation discharges the buyer's obligation unless the regulation is discriminatory, oppressive or predatory.

§ 2-615. Excuse by Failure of Presupposed Conditions. Except so far as a seller may have assumed a greater obligation and subject to the preceding section on substituted performance:

- (a) Delay in delivery or non-delivery in whole or in part by a seller who complies with paragraphs

(b) and (c) is not a breach of his duty under a contract for sale if performance as agreed has been made impracticable by the occurrence of a contingency the non-occurrence of which was a basic assumption on which the contract was made or by compliance in good faith with any applicable foreign or domestic governmental regulation or order whether or not it later proves to be invalid.

- (b) Where the causes mentioned in paragraph (a) affect only a part of the seller's capacity to perform, he must allocate production and deliveries among his customers but may at his option include regular customers not then under contract as well as his own requirements for further manufacture. He may so allocate in any manner which is fair and reasonable.
- (c) The seller must notify the buyer seasonably that there will be delay or non-delivery and, when allocation is required under paragraph (b), of the estimated quota thus made available for the buyer.

§ 2-616. Procedure on Notice Claiming Excuse.

- (1) Where the buyer receives notification of a material or indefinite delay or an allocation justified under the preceding section he may by written notification to the seller as to any delivery concerned, and where the prospective deficiency substantially impairs the value of the whole contract under the provisions of this Article relating to breach of installment contracts (Section 2-612), then also as to the whole,
 - (a) terminate and thereby discharge any unexecuted portion of the contract; or
 - (b) modify the contract by agreeing to take his available quota in substitution.
- (2) If after receipt of such notification from the seller the buyer fails so to modify the contract within a reasonable time not exceeding thirty days the contract lapses with respect to any deliveries affected.
- (3) The provisions of this section may not be negated by agreement except in so far as the seller has assumed a greater obligation under the preceding section.

Part 7: Remedies

§ 2-701. Remedies for Breach of Collateral Contracts Not Impaired. Remedies for breach of any obligation or promise collateral or ancillary to a contract for sale are not impaired by the provisions of this Article.

§ 2-702. Seller's Remedies on Discovery of Buyer's Insolvency.

- (1) Where the seller discovers the buyer to be insolvent he may refuse delivery except for cash including payment for all goods theretofore delivered under the contract, and stop delivery under this Article (Section 2-705).
- (2) Where the seller discovers that the buyer has received goods on credit while insolvent he may reclaim the goods upon demand made within ten days after the receipt, but if misrepresentation of solvency has been made to the particular seller in writing within three months before delivery the ten day limitation does not apply. Except as provided in this subsection the seller may not base a right to reclaim goods on the buyer's fraudulent or innocent misrepresentation of solvency or of intent to pay.
- (3) The seller's right to reclaim under subsection (2) is subject to the rights of a buyer in ordinary course or other good faith purchaser under this Article (Section 2-403). Successful reclamation of goods excludes all other remedies with respect to them.

As amended in 1966.

§ 2-703. Seller's Remedies in General. Where the buyer wrongfully rejects or revokes acceptance of goods or fails to make a payment due on or before delivery or repudiates with respect to a part or the whole, then with respect to any goods directly affected and, if the breach is of the whole contract (Section 2-612), then also with respect to the whole undelivered balance, the aggrieved seller may

- (a) withhold delivery of such goods;
- (b) stop delivery by any bailee as hereafter provided (Section 2-705);
- (c) proceed under the next section respecting goods still unidentified to the contract;
- (d) resell and recover damages as hereafter provided (Section 2-706);
- (e) recover damages for non-acceptance (Section 2-708) or in a proper case the price (Section 2-709);
- (f) cancel.

§ 2-704. Seller's Right to Identify Goods to the Contract Notwithstanding Breach or to Salvage Unfinished Goods.

- (1) An aggrieved seller under the preceding section may
 - (a) identify to the contract conforming goods not already identified if at the time he learned of the breach they are in his possession or control;

- (b) treat as the subject of resale goods which have demonstrably been intended for the particular contract even though those goods are unfinished.
- (2) Where the goods are unfinished an aggrieved seller may in the exercise of reasonable commercial judgment for the purposes of avoiding loss and of effective realization either complete the manufacture and wholly identify the goods to the contract or cease manufacture and resell for scrap or salvage value or proceed in any other reasonable manner.

§ 2-705. Seller's Stoppage of Delivery in Transit or Otherwise.

- (1) The seller may stop delivery of goods in the possession of a carrier or other bailee when he discovers the buyer to be insolvent (Section 2-702) and may stop delivery of carload, truckload, planeload or larger shipments of express or freight when the buyer repudiates or fails to make a payment due before delivery or if for any other reason the seller has a right to withhold or reclaim the goods.
- (2) As against such buyer the seller may stop delivery until
 - (a) receipt of the goods by the buyer; or
 - (b) acknowledgment to the buyer by any bailee of the goods except a carrier that the bailee holds the goods for the buyer; or
 - (c) such acknowledgment to the buyer by a carrier by reshipment or as warehouseman; or
 - (d) negotiation to the buyer of any negotiable document of title covering the goods.
- (3) (a) To stop delivery the seller must so notify as to enable the bailee by reasonable diligence to prevent delivery of the goods.
- (b) After such notification the bailee must hold and deliver the goods according to the directions of the seller but the seller is liable to the bailee for any ensuing charges or damages.
- (c) If a negotiable document of title has been issued for goods the bailee is not obliged to obey a notification to stop until surrender of the document.
- (d) A carrier who has issued a non-negotiable bill of lading is not obliged to obey a notification to stop received from a person other than the consignor.

§ 2-706. Seller's Resale Including Contract for Resale.

- (1) Under the conditions stated in Section 2-703 on seller's remedies, the seller may resell the goods con-

cerned or the undelivered balance thereof. Where the resale is made in good faith and in a commercially reasonable manner the seller may recover the difference between the resale price and the contract price together with any incidental damages allowed under the provisions of this Article (Section 2-710), but less expenses saved in consequence of the buyer's breach.

- (2) Except as otherwise provided in subsection (3) or unless otherwise agreed resale may be at public or private sale including sale by way of one or more contracts to sell or of identification to an existing contract of the seller. Sale may be as a unit or in parcels and at any time and place and on any terms but every aspect of the sale including the method, manner, time, place and terms must be commercially reasonable. The resale must be reasonably identified as referring to the broken contract, but it is not necessary that the goods be in existence or that any or all of them have been identified to the contract before the breach.
- (3) Where the resale is at private sale the seller must give the buyer reasonable notification of his intention to resell.
- (4) Where the resale is at public sale
 - (a) only identified goods can be sold except where there is a recognized market for a public sale of futures in goods of the kind; and
 - (b) it must be made at a usual place or market for public sale if one is reasonably available and except in the case of goods which are perishable or threaten to decline in value speedily the seller must give the buyer reasonable notice of the time and place of the resale; and
 - (c) if the goods are not to be within the view of those attending the sale the notification of sale must state the place where the goods are located and provide for their reasonable inspection by prospective bidders; and
 - (d) the seller may buy.
- (5) A purchaser who buys in good faith at a resale takes the goods free of any rights of the original buyer even though the seller fails to comply with one or more of the requirements of this section.
- (6) The seller is not accountable to the buyer for any profit made on any resale. A person in the position of a seller (Section 2-707) or a buyer who has rightfully rejected or justifiably revoked acceptance must account for any excess over the amount of his security interest, as hereinafter defined (subsection (3) of Section 2-711).

§ 2–707. “Person in the Position of a Seller”.

- (1) A “person in the position of a seller” includes as against a principal an agent who has paid or become responsible for the price of goods on behalf of his principal or anyone who otherwise holds a security interest or other right in goods similar to that of a seller.
- (2) A person in the position of a seller may as provided in this Article withhold or stop delivery (Section 2–705) and resell (Section 2–706) and recover incidental damages (Section 2–710).

§ 2–708. Seller’s Damages for Non-acceptance or Repudiation.

- (1) Subject to subsection (2) and to the provisions of this Article with respect to proof of market price (Section 2–723), the measure of damages for non-acceptance or repudiation by the buyer is the difference between the market price at the time and place for tender and the unpaid contract price together with any incidental damages provided in this Article (Section 2–710), but less expenses saved in consequence of the buyer’s breach.
- (2) If the measure of damages provided in subsection (1) is inadequate to put the seller in as good a position as performance would have done then the measure of damages is the profit (including reasonable overhead) which the seller would have made from full performance by the buyer, together with any incidental damages provided in this Article (Section 2–710), due allowance for costs reasonably incurred and due credit for payments or proceeds of resale.

§ 2–709. Action for the Price.

- (1) When the buyer fails to pay the price as it becomes due the seller may recover, together with any incidental damages under the next section, the price
 - (a) of goods accepted or of conforming goods lost or damaged within a commercially reasonable time after risk of their loss has passed to the buyer; and
 - (b) of goods identified to the contract if the seller is unable after reasonable effort to resell them at a reasonable price or the circumstances reasonably indicate that such effort will be unavailing.
- (2) Where the seller sues for the price he must hold for the buyer any goods which have been identified to the contract and are still in his control except that if resale becomes possible he may resell them at any time prior to the collection of the judgment. The net

proceeds of any such resale must be credited to the buyer and payment of the judgment entitles him to any goods not resold.

- (3) After the buyer has wrongfully rejected or revoked acceptance of the goods or has failed to make a payment due or has repudiated (Section 2–610), a seller who is held not entitled to the price under this section shall nevertheless be awarded damages for non-acceptance under the preceding section.

§ 2–710. Seller’s Incidental Damages. Incidental damages to an aggrieved seller include any commercially reasonable charges, expenses or commissions incurred in stopping delivery, in the transportation, care and custody of goods after the buyer’s breach, in connection with return or resale of the goods or otherwise resulting from the breach.

§ 2–711. Buyer’s Remedies in General; Buyer’s Security Interest in Rejected Goods.

- (1) Where the seller fails to make delivery or repudiates or the buyer rightfully rejects or justifiably revokes acceptance then with respect to any goods involved, and with respect to the whole if the breach goes to the whole contract (Section 2–612), the buyer may cancel and whether or not he has done so may in addition to recovering so much of the price as has been paid
 - (a) “cover” and have damages under the next section as to all the goods affected whether or not they have been identified to the contract; or
 - (b) recover damages for non-delivery as provided in this Article (Section 2–713).
- (2) Where the seller fails to deliver or repudiates the buyer may also
 - (a) if the goods have been identified recover them as provided in this Article (Section 2–502); or
 - (b) in a proper case obtain specific performance or replevy the goods as provided in this Article (Section 2–716).
- (3) On rightful rejection or justifiable revocation of acceptance a buyer has a security interest in goods in his possession or control for any payments made on their price and any expenses reasonably incurred in their inspection, receipt, transportation, care and custody and may hold such goods and resell them in like manner as an aggrieved seller (Section 2–706).

§ 2–712. “Cover”; Buyer’s Procurement of Substitute Goods.

- (1) After a breach within the preceding section the buyer may “cover” by making in good faith and without

unreasonable delay any reasonable purchase of or contract to purchase goods in substitution for those due from the seller.

- (2) The buyer may recover from the seller as damages the difference between the cost of cover and the contract price together with any incidental or consequential damages as hereinafter defined (Section 2-715), but less expenses saved in consequence of the seller's breach.
- (3) Failure of the buyer to effect cover within this section does not bar him from any other remedy.

§ 2-713. Buyer's Damages for Non-delivery or Repudiation.

- (1) Subject to the provisions of this Article with respect to proof of market price (Section 2-723), the measure of damages for non-delivery or repudiation by the seller is the difference between the market price at the time when the buyer learned of the breach and the contract price together with any incidental and consequential damages provided in this Article (Section 2-715), but less expenses saved in consequence of the seller's breach.
- (2) Market price is to be determined as of the place for tender or, in cases of rejection after arrival or revocation of acceptance, as of the place of arrival.

§ 2-714. Buyer's Damages for Breach in Regard to Accepted Goods.

- (1) Where the buyer has accepted goods and given notification (subsection (3) of Section 2-607) he may recover as damages for any non-conformity of tender the loss resulting in the ordinary course of events from the seller's breach as determined in any manner which is reasonable.
- (2) The measure of damages for breach of warranty is the difference at the time and place of acceptance between the value of the goods accepted and the value they would have had if they had been as warranted, unless special circumstances show proximate damages of a different amount.
- (3) In a proper case any incidental and consequential damages under the next section may also be recovered.

§ 2-715. Buyer's Incidental and Consequential Damages.

- (1) Incidental damages resulting from the seller's breach include expenses reasonably incurred in inspection, receipt, transportation and care and custody of goods rightfully rejected, any commercially reasonable

charges, expenses or commissions in connection with effecting cover and any other reasonable expense incident to the delay or other breach.

- (2) Consequential damages resulting from the seller's breach include
 - (a) any loss resulting from general or particular requirements and needs of which the seller at the time of contracting had reason to know and which could not reasonably be prevented by cover or otherwise; and
 - (b) injury to person or property proximately resulting from any breach of warranty.

§ 2-716. Buyer's Right to Specific Performance or Replevin.

- (1) Specific performance may be decreed where the goods are unique or in other proper circumstances.
- (2) The decree for specific performance may include such terms and conditions as to payment of the price, damages, or other relief as the court may deem just.
- (3) The buyer has a right of replevin for goods identified to the contract if after reasonable effort he is unable to effect cover for such goods or the circumstances reasonably indicate that such effort will be unavailing or if the goods have been shipped under reservation and satisfaction of the security interest in them has been made or tendered.

§ 2-717. Deduction of Damages from the Price. The buyer on notifying the seller of his intention to do so may deduct all or any part of the damages resulting from any breach of the contract from any part of the price still due under the same contract.

§ 2-718. Liquidation or Limitation of Damages; Deposits.

- (1) Damages for breach by either party may be liquidated in the agreement but only at an amount which is reasonable in the light of the anticipated or actual harm caused by the breach, the difficulties of proof of loss, and the inconvenience or nonfeasibility of otherwise obtaining an adequate remedy. A term fixing unreasonably large liquidated damages is void as a penalty.
- (2) Where the seller justifiably withholds delivery of goods because of the buyer's breach, the buyer is entitled to restitution of any amount by which the sum of his payments exceeds
 - (a) the amount to which the seller is entitled by virtue of terms liquidating the seller's damages in accordance with subsection (1), or

- (b) in the absence of such terms, twenty per cent of the value of the total performance for which the buyer is obligated under the contract or \$500, whichever is smaller.
- (3) The buyer's right to restitution under subsection (2) is subject to offset to the extent that the seller establishes
 - (a) a right to recover damages under the provisions of this Article other than subsection (1), and
 - (b) the amount or value of any benefits received by the buyer directly or indirectly by reason of the contract.
- (4) Where a seller has received payment in goods their reasonable value or the proceeds of their resale shall be treated as payments for the purposes of subsection (2); but if the seller has notice of the buyer's breach before reselling goods received in part performance, his resale is subject to the conditions laid down in this Article on resale by an aggrieved seller (Section 2-706).

§ 2-719. Contractual Modification or Limitation of Remedy.

- (1) Subject to the provisions of subsections (2) and (3) of this section and of the preceding section on liquidation and limitation of damages,
 - (a) the agreement may provide for remedies in addition to or in substitution for those provided in this Article and may limit or alter the measure of damages recoverable under this Article, as by limiting the buyer's remedies to return of the goods and repayment of the price or to repair and replacement of non-conforming goods or parts; and
 - (b) resort to a remedy as provided is optional unless the remedy is expressly agreed to be exclusive, in which case it is the sole remedy.
- (2) Where circumstances cause an exclusive or limited remedy to fail of its essential purpose, remedy may be had as provided in this Act.
- (3) Consequential damages may be limited or excluded unless the limitation or exclusion is unconscionable. Limitation of consequential damages for injury to the person in the case of consumer goods is prima facie unconscionable but limitation of damages where the loss is commercial is not.

§ 2-720. Effect of "Cancellation" or "Rescission" on Claims for Antecedent Breach. Unless the contrary intention clearly appears, expressions of "cancellation" or "rescission" of the contract or the like shall not be con-

strued as a renunciation or discharge of any claim in damages for an antecedent breach.

§ 2-721. Remedies for Fraud. Remedies for material misrepresentation or fraud include all remedies available under this Article for non-fraudulent breach. Neither rescission or a claim for rescission of the contract for sale nor rejection or return of the goods shall bar or be deemed inconsistent with a claim for damages or other remedy.

§ 2-722. Who Can Sue Third Parties for Injury to Goods. Where a third party so deals with goods which have been identified to a contract for sale as to cause actionable injury to a party to that contract

- (a) a right of action against the third party is in either party to the contract for sale who has title to or a security interest or a special property or an insurable interest in the goods; and if the goods have been destroyed or converted a right of action is also in the party who either bore the risk of loss under the contract for sale or has since the injury assumed that risk as against the other;
- (b) if at the time of the injury the party plaintiff did not bear the risk of loss as against the other party to the contract for sale and there is no arrangement between them for disposition of the recovery, his suit or settlement is, subject to his own interest, as a fiduciary for the other party to the contract;
- (c) either party may with the consent of the other sue for the benefit of whom it may concern.

§ 2-723. Proof of Market Price: Time and Place.

- (1) If an action based on anticipatory repudiation comes to trial before the time for performance with respect to some or all of the goods, any damages based on market price (Section 2-708 or Section 2-713) shall be determined according to the price of such goods prevailing at the time when the aggrieved party learned of the repudiation.
- (2) If evidence of a price prevailing at the times or places described in this Article is not readily available the price prevailing within any reasonable time before or after the time described or at any other place which in commercial judgment or under usage of trade would serve as a reasonable substitute for the one described may be used, making any proper allowance for the cost of transporting the goods to or from such other place.

- (3) Evidence of a relevant price prevailing at a time or place other than the one described in this Article offered by one party is not admissible unless and until he has given the other party such notice as the court finds sufficient to prevent unfair surprise.

§ 2–724. Admissibility of Market Quotations. Whenever the prevailing price or value of any goods regularly bought and sold in any established commodity market is in issue, reports in official publications or trade journals or in newspapers or periodicals of general circulation published as the reports of such market shall be admissible in evidence. The circumstances of the preparation of such a report may be shown to affect its weight but not its admissibility.

§ 2–725. Statute of Limitations in Contracts for Sale.

- (1) An action for breach of any contract for sale must be commenced within four years after the cause of action has accrued. By the original agreement the parties may reduce the period of limitation to not less than one year but may not extend it.
- (2) A cause of action accrues when the breach occurs, regardless of the aggrieved party's lack of knowledge of the breach. A breach of warranty occurs when tender of delivery is made, except that where a warranty explicitly extends to future performance of the goods and discovery of the breach must await the time of such performance the cause of action accrues when the breach is or should have been discovered.
- (3) Where an action commenced within the time limited by subsection (1) is so terminated as to leave available a remedy by another action for the same breach such other action may be commenced after the expiration of the time limited and within six months after the termination of the first action unless the termination resulted from voluntary discontinuance or from dismissal for failure or neglect to prosecute.
- (4) This section does not alter the law on tolling of the statute of limitations nor does it apply to causes of action which have accrued before this Act becomes effective.

Article 2A: Leases

Part 1: General Provisions

§ 2A–101. Short Title. This Article shall be known and may be cited as the Uniform Commercial Code—Leases.

See Appendix VI [following Amendment 24 therein] for material relating to changes in the Official Com-

ment to conform to the 1990 amendments to various sections of Article 2A.

§ 2A–102. Scope. This Article applies to any transaction, regardless of form, that creates a lease.

§ 2A–103. Definitions and Index of Definitions.

- (1) In this Article unless the context otherwise requires:
 - (a) “Buyer in ordinary course of business” means a person who in good faith and without knowledge that the sale to him [or her] is in violation of the ownership rights or security interest or leasehold interest of a third party in the goods buys in ordinary course from a person in the business of selling goods of that kind but does not include a pawnbroker. “Buying” may be for cash or by exchange of other property or on secured or unsecured credit and includes receiving goods or documents of title under a preexisting contract for sale but does not include a transfer in bulk or as security for or in total or partial satisfaction of a money debt.
 - (b) “Cancellation” occurs when either party puts an end to the lease contract for default by the other party.
 - (c) “Commercial unit” means such a unit of goods as by commercial usage is a single whole for purposes of lease and division of which materially impairs its character or value on the market or in use. A commercial unit may be a single article, as a machine, or a set of articles, as a suite of furniture or a line of machinery, or a quantity, as a gross or carload, or any other unit treated in use or in the relevant market as a single whole.
 - (d) “Conforming” goods or performance under a lease contract means goods or performance that are in accordance with the obligations under the lease contract.
 - (e) “Consumer lease” means a lease that a lessor regularly engaged in the business of leasing or selling makes to a lessee who is an individual and who takes under the lease primarily for a personal, family, or household purpose[, if the total payments to be made under the lease contract, excluding payments for options to renew or buy, do not exceed \$_____].
 - (f) “Fault” means wrongful act, omission, breach, or default.
 - (g) “Finance lease” means a lease with respect to which:
 - (i) the lessor does not select, manufacture, or supply the goods;

- (ii) the lessor acquires the goods or the right to possession and use of the goods in connection with the lease; and
 - (iii) one of the following occurs:
 - (A) the lessee receives a copy of the contract by which the lessor acquired the goods or the right to possession and use of the goods before signing the lease contract;
 - (B) the lessee's approval of the contract by which the lessor acquired the goods or the right to possession and use of the goods is a condition to effectiveness of the lease contract;
 - (C) the lessee, before signing the lease contract, receives an accurate and complete statement designating the promises and warranties, and any disclaimers of warranties, limitations or modifications of remedies, or liquidated damages, including those of a third party, such as the manufacturer of the goods, provided to the lessor by the person supplying the goods in connection with or as part of the contract by which the lessor acquired the goods or the right to possession and use of the goods; or
 - (D) if the lease is not a consumer lease, the lessor, before the lessee signs the lease contract, informs the lessee in writing
 - (a) of the identity of the person supplying the goods to the lessor, unless the lessee has selected that person and directed the lessor to acquire the goods or the right to possession and use of the goods from that person, (b) that the lessee is entitled under this Article to the promises and warranties, including those of any third party, provided to the lessor by the person supplying the goods in connection with or as part of the contract by which the lessor acquired the goods or the right to possession and use of the goods, and (c) that the lessee may communicate with the person supplying the goods to the lessor and receive an accurate and complete statement of those promises and warranties, including any disclaimers and limitations of them or of remedies.
- (h) "Goods" means all things that are movable at the time of identification to the lease contract, or are fixtures (Section 2A-309), but the term does not include money, documents, instruments, accounts, chattel paper, general intangibles, or minerals or the like, including oil and gas, before extraction. The term also includes the unborn young of animals.
 - (i) "Installment lease contract" means a lease contract that authorizes or requires the delivery of goods in separate lots to be separately accepted, even though the lease contract contains a clause "each delivery is a separate lease" or its equivalent.
 - (j) "Lease" means a transfer of the right to possession and use of goods for a term in return for consideration, but a sale, including a sale on approval or a sale or return, or retention or creation of a security interest is not a lease. Unless the context clearly indicates otherwise, the term includes a sublease.
 - (k) "Lease agreement" means the bargain, with respect to the lease, of the lessor and the lessee in fact as found in their language or by implication from other circumstances including course of dealing or usage of trade or course of performance as provided in this Article. Unless the context clearly indicates otherwise, the term includes a sublease agreement.
 - (l) "Lease contract" means the total legal obligation that results from the lease agreement as affected by this Article and any other applicable rules of law. Unless the context clearly indicates otherwise, the term includes a sublease contract.
 - (m) "Leasehold interest" means the interest of the lessor or the lessee under a lease contract.
 - (n) "Lessee" means a person who acquires the right to possession and use of goods under a lease. Unless the context clearly indicates otherwise, the term includes a sublessee.
 - (o) "Lessee in ordinary course of business" means a person who in good faith and without knowledge that the lease to him [or her] is in violation of the ownership rights or security interest or leasehold interest of a third party in the goods, leases in ordinary course from a person in the business of selling or leasing goods of that kind but does not include a pawnbroker. "Leasing" may be for cash or by exchange of other property or on secured or unsecured credit and includes receiving goods or documents of title under a preexisting lease contract but does not

include a transfer in bulk or as security for or in total or partial satisfaction of a money debt.

- (p) “Lessor” means a person who transfers the right to possession and use of goods under a lease. Unless the context clearly indicates otherwise, the term includes a sublessor.
- (q) “Lessor’s residual interest” means the lessor’s interest in the goods after expiration, termination, or cancellation of the lease contract.
- (r) “Lien” means a charge against or interest in goods to secure payment of a debt or performance of an obligation, but the term does not include a security interest.
- (s) “Lot” means a parcel or a single article that is the subject matter of a separate lease or delivery, whether or not it is sufficient to perform the lease contract.
- (t) “Merchant lessee” means a lessee that is a merchant with respect to goods of the kind subject to the lease.
- (u) “Present value” means the amount as of a date certain of one or more sums payable in the future, discounted to the date certain. The discount is determined by the interest rate specified by the parties if the rate was not manifestly unreasonable at the time the transaction was entered into; otherwise, the discount is determined by a commercially reasonable rate that takes into account the facts and circumstances of each case at the time the transaction was entered into.
- (v) “Purchase” includes taking by sale, lease, mortgage, security interest, pledge, gift, or any other voluntary transaction creating an interest in goods.
- (w) “Sublease” means a lease of goods the right to possession and use of which was acquired by the lessor as a lessee under an existing lease.
- (x) “Supplier” means a person from whom a lessor buys or leases goods to be leased under a finance lease.
- (y) “Supply contract” means a contract under which a lessor buys or leases goods to be leased.
- (z) “Termination” occurs when either party pursuant to a power created by agreement or law puts an end to the lease contract otherwise than for default.
- (2) Other definitions applying to this Article and the sections in which they appear are:

| “Sale on approval” | Section 2–326. |
| “Sale or return” | Section 2–326. |
| “Seller” | Section 2–103(1) (d). |

- (4) In addition Article 1 contains general definitions and principles of construction and interpretation applicable throughout this Article.

As amended in 1990.

§ 2A–104. Leases Subject to Other Law.

- (1) A lease, although subject to this Article, is also subject to any applicable:
- certificate of title statute of this State: (list any certificate of title statutes covering automobiles, trailers, mobile homes, boats, farm tractors, and the like);
 - certificate of title statute of another jurisdiction (Section 2A–105); or
 - consumer protection statute of this State, or final consumer protection decision of a court of this State existing on the effective date of this Article.
- (2) In case of conflict between this Article, other than Sections 2A–105, 2A–304(3), and 2A–305(3), and a

statute or decision referred to in subsection (1), the statute or decision controls.

- (3) Failure to comply with an applicable law has only the effect specified therein.

As amended in 1990.

§ 2A–105. Territorial Application of Article to Goods Covered by Certificate of Title. Subject to the provisions of Sections 2A–304(3) and 2A–305(3), with respect to goods covered by a certificate of title issued under a statute of this State or of another jurisdiction, compliance and the effect of compliance or noncompliance with a certificate of title statute are governed by the law (including the conflict of laws rules) of the jurisdiction issuing the certificate until the earlier of (a) surrender of the certificate, or (b) four months after the goods are removed from that jurisdiction and thereafter until a new certificate of title is issued by another jurisdiction.

§ 2A–106. Limitation on Power of Parties to Consumer Lease to Choose Applicable Law and Judicial Forum.

- (1) If the law chosen by the parties to a consumer lease is that of a jurisdiction other than a jurisdiction in which the lessee resides at the time the lease agreement becomes enforceable or within 30 days thereafter or in which the goods are to be used, the choice is not enforceable.
- (2) If the judicial forum chosen by the parties to a consumer lease is a forum that would not otherwise have jurisdiction over the lessee, the choice is not enforceable.

§ 2A–107. Waiver or Renunciation of Claim or Right After Default. Any claim or right arising out of an alleged default or breach of warranty may be discharged in whole or in part without consideration by a written waiver or renunciation signed and delivered by the aggrieved party.

§ 2A–108. Unconscionability.

- (1) If the court as a matter of law finds a lease contract or any clause of a lease contract to have been unconscionable at the time it was made the court may refuse to enforce the lease contract, or it may enforce the remainder of the lease contract without the unconscionable clause, or it may so limit the application of any unconscionable clause as to avoid any unconscionable result.
- (2) With respect to a consumer lease, if the court as a matter of law finds that a lease contract or any clause of

a lease contract has been induced by unconscionable conduct or that unconscionable conduct has occurred in the collection of a claim arising from a lease contract, the court may grant appropriate relief.

- (3) Before making a finding of unconscionability under subsection (1) or (2), the court, on its own motion or that of a party, shall afford the parties a reasonable opportunity to present evidence as to the setting, purpose, and effect of the lease contract or clause thereof, or of the conduct.
- (4) In an action in which the lessee claims unconscionability with respect to a consumer lease:
- (a) If the court finds unconscionability under subsection (1) or (2), the court shall award reasonable attorney's fees to the lessee.
- (b) If the court does not find unconscionability and the lessee claiming unconscionability has brought or maintained an action he [or she] knew to be groundless, the court shall award reasonable attorney's fees to the party against whom the claim is made.
- (c) In determining attorney's fees, the amount of the recovery on behalf of the claimant under subsections (1) and (2) is not controlling.

§ 2A–109. Option to Accelerate at Will.

- (1) A term providing that one party or his [or her] successor in interest may accelerate payment or performance or require collateral or additional collateral "at will" or "when he [or she] deems himself [or herself] insecure" or in words of similar import must be construed to mean that he [or she] has power to do so only if he [or she] in good faith believes that the prospect of payment or performance is impaired.
- (2) With respect to a consumer lease, the burden of establishing good faith under subsection (1) is on the party who exercised the power; otherwise the burden of establishing lack of good faith is on the party against whom the power has been exercised.

Part 2: Formation and Construction of Lease Contract

§ 2A–201. Statute of Frauds.

- (1) A lease contract is not enforceable by way of action or defense unless:
- (a) the total payments to be made under the lease contract, excluding payments for options to renew or buy, are less than \$1,000; or
- (b) there is a writing, signed by the party against whom enforcement is sought or by that party's

authorized agent, sufficient to indicate that a lease contract has been made between the parties and to describe the goods leased and the lease term.

- (2) Any description of leased goods or of the lease term is sufficient and satisfies subsection (1) (b), whether or not it is specific, if it reasonably identifies what is described.
- (3) A writing is not insufficient because it omits or incorrectly states a term agreed upon, but the lease contract is not enforceable under subsection (1) (b) beyond the lease term and the quantity of goods shown in the writing.
- (4) A lease contract that does not satisfy the requirements of subsection (1), but which is valid in other respects, is enforceable:
 - (a) if the goods are to be specially manufactured or obtained for the lessee and are not suitable for lease or sale to others in the ordinary course of the lessor's business, and the lessor, before notice of repudiation is received and under circumstances that reasonably indicate that the goods are for the lessee, has made either a substantial beginning of their manufacture or commitments for their procurement;
 - (b) if the party against whom enforcement is sought admits in that party's pleading, testimony or otherwise in court that a lease contract was made, but the lease contract is not enforceable under this provision beyond the quantity of goods admitted; or
 - (c) with respect to goods that have been received and accepted by the lessee.
- (5) The lease term under a lease contract referred to in subsection (4) is:
 - (a) if there is a writing signed by the party against whom enforcement is sought or by that party's authorized agent specifying the lease term, the term so specified;
 - (b) if the party against whom enforcement is sought admits in that party's pleading, testimony, or otherwise in court a lease term, the term so admitted; or
 - (c) a reasonable lease term.

§ 2A–202. Final Written Expression: Parol or Extrinsic Evidence. Terms with respect to which the confirmatory memoranda of the parties agree or which are otherwise set forth in a writing intended by the parties as a final expression of their agreement with respect to such terms as are included therein may not be contradicted by

evidence of any prior agreement or of a contemporaneous oral agreement but may be explained or supplemented:

- (a) by course of dealing or usage of trade or by course of performance; and
- (b) by evidence of consistent additional terms unless the court finds the writing to have been intended also as a complete and exclusive statement of the terms of the agreement.

§ 2A–203. Seals Inoperative. The affixing of a seal to a writing evidencing a lease contract or an offer to enter into a lease contract does not render the writing a sealed instrument and the law with respect to sealed instruments does not apply to the lease contract or offer.

§ 2A–204. Formation in General.

- (1) A lease contract may be made in any manner sufficient to show agreement, including conduct by both parties which recognizes the existence of a lease contract.
- (2) An agreement sufficient to constitute a lease contract may be found although the moment of its making is undetermined.
- (3) Although one or more terms are left open, a lease contract does not fail for indefiniteness if the parties have intended to make a lease contract and there is a reasonably certain basis for giving an appropriate remedy.

§ 2A–205. Firm Offers. An offer by a merchant to lease goods to or from another person in a signed writing that by its terms gives assurance it will be held open is not revocable, for lack of consideration, during the time stated or, if no time is stated, for a reasonable time, but in no event may the period of irrevocability exceed 3 months. Any such term of assurance on a form supplied by the offeree must be separately signed by the offeror.

§ 2A–206. Offer and Acceptance in Formation of Lease Contract.

- (1) Unless otherwise unambiguously indicated by the language or circumstances, an offer to make a lease contract must be construed as inviting acceptance in any manner and by any medium reasonable in the circumstances.
- (2) If the beginning of a requested performance is a reasonable mode of acceptance, an offeror who is not notified of acceptance within a reasonable time may treat the offer as having lapsed before acceptance.

§ 2A–207. Course of Performance or Practical Construction.

- (1) If a lease contract involves repeated occasions for performance by either party with knowledge of the nature of the performance and opportunity for objection to it by the other, any course of performance accepted or acquiesced in without objection is relevant to determine the meaning of the lease agreement.
- (2) The express terms of a lease agreement and any course of performance, as well as any course of dealing and usage of trade, must be construed whenever reasonable as consistent with each other; but if that construction is unreasonable, express terms control course of performance, course of performance controls both course of dealing and usage of trade, and course of dealing controls usage of trade.
- (3) Subject to the provisions of Section 2A–208 on modification and waiver, course of performance is relevant to show a waiver or modification of any term inconsistent with the course of performance.

§ 2A–208. Modification, Rescission and Waiver.

- (1) An agreement modifying a lease contract needs no consideration to be binding.
- (2) A signed lease agreement that excludes modification or rescission except by a signed writing may not be otherwise modified or rescinded, but, except as between merchants, such a requirement on a form supplied by a merchant must be separately signed by the other party.
- (3) Although an attempt at modification or rescission does not satisfy the requirements of subsection (2), it may operate as a waiver.
- (4) A party who has made a waiver affecting an executory portion of a lease contract may retract the waiver by reasonable notification received by the other party that strict performance will be required of any term waived, unless the retraction would be unjust in view of a material change of position in reliance on the waiver.

§ 2A–209. Lessee Under Finance Lease as Beneficiary of Supply Contract.

- (1) The benefit of a supplier's promises to the lessor under the supply contract and of all warranties, whether express or implied, including those of any third party provided in connection with or as part of the supply contract, extends to the lessee to the extent of the lessee's leasehold interest under a finance lease related to the supply contract, but is subject to the

terms of the warranty and of the supply contract and all defenses or claims arising therefrom.

- (2) The extension of the benefit of a supplier's promises and of warranties to the lessee (Section 2A–209(1)) does not: (i) modify the rights and obligations of the parties to the supply contract, whether arising therefrom or otherwise, or (ii) impose any duty or liability under the supply contract on the lessee.
- (3) Any modification or rescission of the supply contract by the supplier and the lessor is effective between the supplier and the lessee unless, before the modification or rescission, the supplier has received notice that the lessee has entered into a finance lease related to the supply contract. If the modification or rescission is effective between the supplier and the lessee, the lessor is deemed to have assumed, in addition to the obligations of the lessor to the lessee under the lease contract, promises of the supplier to the lessor and warranties that were so modified or rescinded as they existed and were available to the lessee before modification or rescission.
- (4) In addition to the extension of the benefit of the supplier's promises and of warranties to the lessee under subsection (1), the lessee retains all rights that the lessee may have against the supplier which arise from an agreement between the lessee and the supplier or under other law.

As amended in 1990.

§ 2A–210. Express Warranties.

- (1) Express warranties by the lessor are created as follows:
 - (a) Any affirmation of fact or promise made by the lessor to the lessee which relates to the goods and becomes part of the basis of the bargain creates an express warranty that the goods will conform to the affirmation or promise.
 - (b) Any description of the goods which is made part of the basis of the bargain creates an express warranty that the goods will conform to the description.
 - (c) Any sample or model that is made part of the basis of the bargain creates an express warranty that the whole of the goods will conform to the sample or model.
- (2) It is not necessary to the creation of an express warranty that the lessor use formal words, such as "warrant" or "guarantee," or that the lessor have a specific intention to make a warranty, but an affirmation merely of the value of the goods or a statement purporting to

be merely the lessor's opinion or commendation of the goods does not create a warranty.

§ 2A–211. Warranties Against Interference and Against Infringement; Lessee's Obligation Against Infringement.

- (1) There is in a lease contract a warranty that for the lease term no person holds a claim to or interest in the goods that arose from an act or omission of the lessor, other than a claim by way of infringement or the like, which will interfere with the lessee's enjoyment of its leasehold interest.
- (2) Except in a finance lease there is in a lease contract by a lessor who is a merchant regularly dealing in goods of the kind a warranty that the goods are delivered free of the rightful claim of any person by way of infringement or the like.
- (3) A lessee who furnishes specifications to a lessor or a supplier shall hold the lessor and the supplier harmless against any claim by way of infringement or the like that arises out of compliance with the specifications.

§ 2A–212. Implied Warranty of Merchantability.

- (1) Except in a finance lease, a warranty that the goods will be merchantable is implied in a lease contract if the lessor is a merchant with respect to goods of that kind.
- (2) Goods to be merchantable must be at least such as
 - (a) pass without objection in the trade under the description in the lease agreement;
 - (b) in the case of fungible goods, are of fair average quality within the description;
 - (c) are fit for the ordinary purposes for which goods of that type are used;
 - (d) run, within the variation permitted by the lease agreement, of even kind, quality, and quantity within each unit and among all units involved;
 - (e) are adequately contained, packaged, and labeled as the lease agreement may require; and
 - (f) conform to any promises or affirmations of fact made on the container or label.
- (3) Other implied warranties may arise from course of dealing or usage of trade.

§ 2A–213. Implied Warranty of Fitness for Particular Purpose. Except in a finance lease, if the lessor at the time the lease contract is made has reason to know of any particular purpose for which the goods are required and that the lessee is relying on the lessor's skill or judgment to select or furnish suitable goods, there is in the lease

contract an implied warranty that the goods will be fit for that purpose.

§ 2A–214. Exclusion or Modification of Warranties.

- (1) Words or conduct relevant to the creation of an express warranty and words or conduct tending to negate or limit a warranty must be construed wherever reasonable as consistent with each other; but, subject to the provisions of Section 2A–202 on parol or extrinsic evidence, negation or limitation is inoperative to the extent that the construction is unreasonable.
- (2) Subject to subsection (3), to exclude or modify the implied warranty of merchantability or any part of it the language must mention "merchantability", be by a writing, and be conspicuous. Subject to subsection (3), to exclude or modify any implied warranty of fitness the exclusion must be by a writing and be conspicuous. Language to exclude all implied warranties of fitness is sufficient if it is in writing, is conspicuous and states, for example, "There is no warranty that the goods will be fit for a particular purpose".
- (3) Notwithstanding subsection (2), but subject to subsection (4),
 - (a) unless the circumstances indicate otherwise, all implied warranties are excluded by expressions like "as is," or "with all faults," or by other language that in common understanding calls the lessee's attention to the exclusion of warranties and makes plain that there is no implied warranty, if in writing and conspicuous;
 - (b) if the lessee before entering into the lease contract has examined the goods or the sample or model as fully as desired or has refused to examine the goods, there is no implied warranty with regard to defects that an examination ought in the circumstances to have revealed; and
 - (c) an implied warranty may also be excluded or modified by course of dealing, course of performance, or usage of trade.
- (4) To exclude or modify a warranty against interference or against infringement (Section 2A–211) or any part of it, the language must be specific, be by a writing, and be conspicuous, unless the circumstances, including course of performance, course of dealing, or usage of trade, give the lessee reason to know that the goods are being leased subject to a claim or interest of any person.

§ 2A–215. Cumulation and Conflict of Warranties Express or Implied. Warranties, whether express or

implied, must be construed as consistent with each other and as cumulative, but if that construction is unreasonable, the intention of the parties determines which warranty is dominant. In ascertaining that intention the following rules apply:

- (a) Exact or technical specifications displace an inconsistent sample or model or general language of description.
- (b) A sample from an existing bulk displaces inconsistent general language of description.
- (c) Express warranties displace inconsistent implied warranties other than an implied warranty of fitness for a particular purpose.

§ 2A–216. ThirdParty Beneficiaries of Express and Implied Warranties.

Alternative A

A warranty to or for the benefit of a lessee under this Article, whether express or implied, extends to any natural person who is in the family or household of the lessee or who is a guest in the lessee's home if it is reasonable to expect that such person may use, consume, or be affected by the goods and who is injured in person by breach of the warranty. This section does not displace principles of law and equity that extend a warranty to or for the benefit of a lessee to other persons. The operation of this section may not be excluded, modified, or limited, but an exclusion, modification, or limitation of the warranty, including any with respect to rights and remedies, effective against the lessee is also effective against any beneficiary designated under this section.

Alternative B

A warranty to or for the benefit of a lessee under this Article, whether express or implied, extends to any natural person who may reasonably be expected to use, consume, or be affected by the goods and who is injured in person by breach of the warranty. This section does not displace principles of law and equity that extend a warranty to or for the benefit of a lessee to other persons. The operation of this section may not be excluded, modified, or limited, but an exclusion, modification, or limitation of the warranty, including any with respect to rights and remedies, effective against the lessee is also effective against the beneficiary designated under this section.

Alternative C

A warranty to or for the benefit of a lessee under this Article, whether express or implied, extends to any person who may reasonably be expected to use, consume, or be affected by the goods and who is injured by breach of the

warranty. The operation of this section may not be excluded, modified, or limited with respect to injury to the person of an individual to whom the warranty extends, but an exclusion, modification, or limitation of the warranty, including any with respect to rights and remedies, effective against the lessee is also effective against the beneficiary designated under this section.

§ 2A–217. Identification. Identification of goods as goods to which a lease contract refers may be made at any time and in any manner explicitly agreed to by the parties. In the absence of explicit agreement, identification occurs:

- (a) when the lease contract is made if the lease contract is for a lease of goods that are existing and identified;
- (b) when the goods are shipped, marked, or otherwise designated by the lessor as goods to which the lease contract refers, if the lease contract is for a lease of goods that are not existing and identified; or
- (c) when the young are conceived, if the lease contract is for a lease of unborn young of animals.

§ 2A–218. Insurance and Proceeds.

- (1) A lessee obtains an insurable interest when existing goods are identified to the lease contract even though the goods identified are nonconforming and the lessee has an option to reject them.
- (2) If a lessee has an insurable interest only by reason of the lessor's identification of the goods, the lessor, until default or insolvency or notification to the lessee that identification is final, may substitute other goods for those identified.
- (3) Notwithstanding a lessee's insurable interest under subsections (1) and (2), the lessor retains an insurable interest until an option to buy has been exercised by the lessee and risk of loss has passed to the lessee.
- (4) Nothing in this section impairs any insurable interest recognized under any other statute or rule of law.
- (5) The parties by agreement may determine that one or more parties have an obligation to obtain and pay for insurance covering the goods and by agreement may determine the beneficiary of the proceeds of the insurance.

§ 2A–219. Risk of Loss.

- (1) Except in the case of a finance lease, risk of loss is retained by the lessor and does not pass to the lessee. In the case of a finance lease, risk of loss passes to the lessee.

- (2) Subject to the provisions of this Article on the effect of default on risk of loss (Section 2A–220), if risk of loss is to pass to the lessee and the time of passage is not stated, the following rules apply:
- (a) If the lease contract requires or authorizes the goods to be shipped by carrier
 - (i) and it does not require delivery at a particular destination, the risk of loss passes to the lessee when the goods are duly delivered to the carrier; but
 - (ii) if it does require delivery at a particular destination and the goods are there duly tendered while in the possession of the carrier, the risk of loss passes to the lessee when the goods are there duly so tendered as to enable the lessee to take delivery.
 - (b) If the goods are held by a bailee to be delivered without being moved, the risk of loss passes to the lessee on acknowledgment by the bailee of the lessee's right to possession of the goods.
 - (c) In any case not within subsection (a) or (b), the risk of loss passes to the lessee on the lessee's receipt of the goods if the lessor, or, in the case of a finance lease, the supplier, is a merchant; otherwise the risk passes to the lessee on tender of delivery.

§ 2A–220. Effect of Default on Risk of Loss.

- (1) Where risk of loss is to pass to the lessee and the time of passage is not stated:
 - (a) If a tender or delivery of goods so fails to conform to the lease contract as to give a right of rejection, the risk of their loss remains with the lessor, or, in the case of a finance lease, the supplier, until cure or acceptance.
 - (b) If the lessee rightfully revokes acceptance, he [or she], to the extent of any deficiency in his [or her] effective insurance coverage, may treat the risk of loss as having remained with the lessor from the beginning.
- (2) Whether or not risk of loss is to pass to the lessee, if the lessee as to conforming goods already identified to a lease contract repudiates or is otherwise in default under the lease contract, the lessor, or, in the case of a finance lease, the supplier, to the extent of any deficiency in his [or her] effective insurance coverage may treat the risk of loss as resting on the lessee for a commercially reasonable time.

§ 2A–221. **Casualty to Identified Goods.** If a lease contract requires goods identified when the lease contract is made, and the goods suffer casualty without fault

of the lessee, the lessor or the supplier before delivery, or the goods suffer casualty before risk of loss passes to the lessee pursuant to the lease agreement or Section 2A–219, then:

- (a) if the loss is total, the lease contract is avoided; and
- (b) if the loss is partial or the goods have so deteriorated as to no longer conform to the lease contract, the lessee may nevertheless demand inspection and at his [or her] option either treat the lease contract as avoided or, except in a finance lease that is not a consumer lease, accept the goods with due allowance from the rent payable for the balance of the lease term for the deterioration or the deficiency in quantity but without further right against the lessor.

Part 3: Effect of Lease Contract

§ 2A–301. **Enforceability of Lease Contract.** Except as otherwise provided in this Article, a lease contract is effective and enforceable according to its terms between the parties, against purchasers of the goods and against creditors of the parties.

§ 2A–302. **Title to and Possession of Goods.** Except as otherwise provided in this Article, each provision of this Article applies whether the lessor or a third party has title to the goods, and whether the lessor, the lessee, or a third party has possession of the goods, notwithstanding any statute or rule of law that possession or the absence of possession is fraudulent.

§ 2A–303. **Alienability of Party's Interest Under Lease Contract or of Lessor's Residual Interest in Goods; Delegation of Performance; Transfer of Rights.**

- (1) As used in this section, "creation of a security interest" includes the sale of a lease contract that is subject to Article 9, Secured Transactions, by reason of Section 9–102(1) (b).
- (2) Except as provided in subsections (3) and (4), a provision in a lease agreement which (i) prohibits the voluntary or involuntary transfer, including a transfer by sale, sublease, creation or enforcement of a security interest, or attachment, levy, or other judicial process, of an interest of a party under the lease contract or of the lessor's residual interest in the goods, or (ii) makes such a transfer an event of default, gives rise to the rights and remedies provided in subsection (5), but a transfer that is prohibited or

is an event of default under the lease agreement is otherwise effective.

- (3) A provision in a lease agreement which (i) prohibits the creation or enforcement of a security interest in an interest of a party under the lease contract or in the lessor's residual interest in the goods, or (ii) makes such a transfer an event of default, is not enforceable unless, and then only to the extent that, there is an actual transfer by the lessee of the lessee's right of possession or use of the goods in violation of the provision or an actual delegation of a material performance of either party to the lease contract in violation of the provision. Neither the granting nor the enforcement of a security interest in (i) the lessor's interest under the lease contract or (ii) the lessor's residual interest in the goods is a transfer that materially impairs the prospect of obtaining return performance by, materially changes the duty of, or materially increases the burden or risk imposed on, the lessee within the purview of subsection (5) unless, and then only to the extent that, there is an actual delegation of a material performance of the lessor.
- (4) A provision in a lease agreement which (i) prohibits a transfer of a right to damages for default with respect to the whole lease contract or of a right to payment arising out of the transferor's due performance of the transferor's entire obligation, or (ii) makes such a transfer an event of default, is not enforceable, and such a transfer is not a transfer that materially impairs the prospect of obtaining return performance by, materially changes the duty of, or materially increases the burden or risk imposed on, the other party to the lease contract within the purview of subsection (5).
- (5) Subject to subsections (3) and (4):
 - (a) if a transfer is made which is made an event of default under a lease agreement, the party to the lease contract not making the transfer, unless that party waives the default or otherwise agrees, has the rights and remedies described in Section 2A-501(2);
 - (b) if paragraph (a) is not applicable and if a transfer is made that (i) is prohibited under a lease agreement or (ii) materially impairs the prospect of obtaining return performance by, materially changes the duty of, or materially increases the burden or risk imposed on, the other party to the lease contract, unless the party not making the transfer agrees at any time to the transfer in the lease contract or otherwise, then, except

as limited by contract, (i) the transferor is liable to the party not making the transfer for damages caused by the transfer to the extent that the damages could not reasonably be prevented by the party not making the transfer and (ii) a court having jurisdiction may grant other appropriate relief, including cancellation of the lease contract or an injunction against the transfer.

- (6) A transfer of "the lease" or of "all my rights under the lease", or a transfer in similar general terms, is a transfer of rights and, unless the language or the circumstances, as in a transfer for security, indicate the contrary, the transfer is a delegation of duties by the transferor to the transferee. Acceptance by the transferee constitutes a promise by the transferee to perform those duties. The promise is enforceable by either the transferor or the other party to the lease contract.
- (7) Unless otherwise agreed by the lessor and the lessee, a delegation of performance does not relieve the transferor as against the other party of any duty to perform or of any liability for default.
- (8) In a consumer lease, to prohibit the transfer of an interest of a party under the lease contract or to make a transfer an event of default, the language must be specific, by a writing, and conspicuous.

As amended in 1990.

§ 2A-304. Subsequent Lease of Goods by Lessor.

- (1) Subject to Section 2A-303, a subsequent lessee from a lessor of goods under an existing lease contract obtains, to the extent of the leasehold interest transferred, the leasehold interest in the goods that the lessor had or had power to transfer, and except as provided in subsection (2) and Section 2A-527(4), takes subject to the existing lease contract. A lessor with voidable title has power to transfer a good leasehold interest to a good faith subsequent lessee for value, but only to the extent set forth in the preceding sentence. If goods have been delivered under a transaction of purchase, the lessor has that power even though:
 - (a) the lessor's transferor was deceived as to the identity of the lessor;
 - (b) the delivery was in exchange for a check which is later dishonored;
 - (c) it was agreed that the transaction was to be a "cash sale"; or
 - (d) the delivery was procured through fraud punishable as larcenous under the criminal law.

- (2) A subsequent lessee in the ordinary course of business from a lessor who is a merchant dealing in goods of that kind to whom the goods were entrusted by the existing lessee of that lessor before the interest of the subsequent lessee became enforceable against that lessor obtains, to the extent of the leasehold interest transferred, all of that lessor's and the existing lessee's rights to the goods, and takes free of the existing lease contract.
- (3) A subsequent lessee from the lessor of goods that are subject to an existing lease contract and are covered by a certificate of title issued under a statute of this State or of another jurisdiction takes no greater rights than those provided both by this section and by the certificate of title statute.

As amended in 1990.

§ 2A–305. Sale or Sublease of Goods by Lessee.

- (1) Subject to the provisions of Section 2A–303, a buyer or sublessee from the lessee of goods under an existing lease contract obtains, to the extent of the interest transferred, the leasehold interest in the goods that the lessee had or had power to transfer, and except as provided in subsection (2) and Section 2A–511(4), takes subject to the existing lease contract. A lessee with a voidable leasehold interest has power to transfer a good leasehold interest to a good faith buyer for value or a good faith sublessee for value, but only to the extent set forth in the preceding sentence. When goods have been delivered under a transaction of lease the lessee has that power even though:
 - (a) the lessor was deceived as to the identity of the lessee;
 - (b) the delivery was in exchange for a check which is later dishonored; or
 - (c) the delivery was procured through fraud punishable as larcenous under the criminal law.
- (2) A buyer in the ordinary course of business or a sublessee in the ordinary course of business from a lessee who is a merchant dealing in goods of that kind to whom the goods were entrusted by the lessor obtains, to the extent of the interest transferred, all of the lessor's and lessee's rights to the goods, and takes free of the existing lease contract.
- (3) A buyer or sublessee from the lessee of goods that are subject to an existing lease contract and are covered by a certificate of title issued under a statute of this State or of another jurisdiction takes no greater rights than those provided both by this section and by the certificate of title statute.

§ 2A–306. Priority of Certain Liens Arising by Operation of Law. If a person in the ordinary course of his [or her] business furnishes services or materials with respect to goods subject to a lease contract, a lien upon those goods in the possession of that person given by statute or rule of law for those materials or services takes priority over any interest of the lessor or lessee under the lease contract or this Article unless the lien is created by statute and the statute provides otherwise or unless the lien is created by rule of law and the rule of law provides otherwise.

§ 2A–307. Priority of Liens Arising by Attachment or Levy on, Security Interests in, and Other Claims to Goods.

- (1) Except as otherwise provided in Section 2A–306, a creditor of a lessee takes subject to the lease contract.
- (2) Except as otherwise provided in subsections (3) and (4) and in Sections 2A–306 and 2A–308, a creditor of a lessor takes subject to the lease contract unless:
 - (a) the creditor holds a lien that attached to the goods before the lease contract became enforceable;
 - (b) the creditor holds a security interest in the goods and the lessee did not give value and receive delivery of the goods without knowledge of the security interest; or
 - (c) the creditor holds a security interest in the goods which was perfected (Section 9–303) before the lease contract became enforceable.
- (3) A lessee in the ordinary course of business takes the leasehold interest free of a security interest in the goods created by the lessor even though the security interest is perfected (Section 9–303) and the lessee knows of its existence.
- (4) A lessee other than a lessee in the ordinary course of business takes the leasehold interest free of a security interest to the extent that it secures future advances made after the secured party acquires knowledge of the lease or more than 45 days after the lease contract becomes enforceable, whichever first occurs, unless the future advances are made pursuant to a commitment entered into without knowledge of the lease and before the expiration of the 45-day period.

As amended in 1990.

§ 2A–308. Special Rights of Creditors.

- (1) A creditor of a lessor in possession of goods subject to a lease contract may treat the lease contract as void if as against the creditor retention of possession by the lessor is fraudulent under any statute or rule of

law, but retention of possession in good faith and current course of trade by the lessor for a commercially reasonable time after the lease contract becomes enforceable is not fraudulent.

- (2) Nothing in this Article impairs the rights of creditors of a lessor if the lease contract (a) becomes enforceable, not in current course of trade but in satisfaction of or as security for a preexisting claim for money, security, or the like, and (b) is made under circumstances which under any statute or rule of law apart from this Article would constitute the transaction a fraudulent transfer or voidable preference.
- (3) A creditor of a seller may treat a sale or an identification of goods to a contract for sale as void if as against the creditor retention of possession by the seller is fraudulent under any statute or rule of law, but retention of possession of the goods pursuant to a lease contract entered into by the seller as lessee and the buyer as lessor in connection with the sale or identification of the goods is not fraudulent if the buyer bought for value and in good faith.
- (3) This Article does not prevent creation of a lease of fixtures pursuant to real estate law.
- (4) The perfected interest of a lessor of fixtures has priority over a conflicting interest of an encumbrancer or owner of the real estate if:
 - (a) the lease is a purchase money lease, the conflicting interest of the encumbrancer or owner arises before the goods become fixtures, the interest of the lessor is perfected by a fixture filing before the goods become fixtures or within ten days thereafter, and the lessee has an interest of record in the real estate or is in possession of the real estate; or
 - (b) the interest of the lessor is perfected by a fixture filing before the interest of the encumbrancer or owner is of record, the lessor's interest has priority over any conflicting interest of a predecessor in title of the encumbrancer or owner, and the lessee has an interest of record in the real estate or is in possession of the real estate.
- (5) The interest of a lessor of fixtures, whether or not perfected, has priority over the conflicting interest of an encumbrancer or owner of the real estate if:
 - (a) the fixtures are readily removable factory or office machines, readily removable equipment that is not primarily used or leased for use in the operation of the real estate, or readily removable replacements of domestic appliances that are goods subject to a consumer lease, and before the goods become fixtures the lease contract is enforceable; or
 - (b) the conflicting interest is a lien on the real estate obtained by legal or equitable proceedings after the lease contract is enforceable; or
 - (c) the encumbrancer or owner has consented in writing to the lease or has disclaimed an interest in the goods as fixtures; or
 - (d) the lessee has a right to remove the goods as against the encumbrancer or owner. If the lessee's right to remove terminates, the priority of the interest of the lessor continues for a reasonable time.

§ 2A-309. Lessor's and Lessee's Rights When Goods Become Fixtures.

- (1) In this section:
 - (a) goods are "fixtures" when they become so related to particular real estate that an interest in them arises under real estate law;
 - (b) a "fixture filing" is the filing, in the office where a mortgage on the real estate would be filed or recorded, of a financing statement covering goods that are or are to become fixtures and conforming to the requirements of Section 9-402(5);
 - (c) a lease is a "purchase money lease" unless the lessee has possession or use of the goods or the right to possession or use of the goods before the lease agreement is enforceable;
 - (d) a mortgage is a "construction mortgage" to the extent it secures an obligation incurred for the construction of an improvement on land including the acquisition cost of the land, if the recorded writing so indicates; and
 - (e) "encumbrance" includes real estate mortgages and other liens on real estate and all other rights in real estate that are not ownership interests.
- (2) Under this Article a lease may be of goods that are fixtures or may continue in goods that become fixtures, but no lease exists under this Article of ordinary building materials incorporated into an improvement on land.
- (6) Notwithstanding subsection (4) (a) but otherwise subject to subsections (4) and (5), the interest of a lessor of fixtures, including the lessor's residual interest, is subordinate to the conflicting interest of an encumbrancer of the real estate under a construction mortgage recorded before the goods become fixtures if the goods become fixtures before the completion of the construction. To the extent given to refinance a construction mortgage, the conflicting interest of an

encumbrancer of the real estate under a mortgage has this priority to the same extent as the encumbrancer of the real estate under the construction mortgage.

- (7) In cases not within the preceding subsections, priority between the interest of a lessor of fixtures, including the lessor's residual interest, and the conflicting interest of an encumbrancer or owner of the real estate who is not the lessee is determined by the priority rules governing conflicting interests in real estate.
- (8) If the interest of a lessor of fixtures, including the lessor's residual interest, has priority over all conflicting interests of all owners and encumbrancers of the real estate, the lessor or the lessee may (i) on default, expiration, termination, or cancellation of the lease agreement but subject to the agreement and this Article, or (ii) if necessary to enforce other rights and remedies of the lessor or lessee under this Article, remove the goods from the real estate, free and clear of all conflicting interests of all owners and encumbrancers of the real estate, but the lessor or lessee must reimburse any encumbrancer or owner of the real estate who is not the lessee and who has not otherwise agreed for the cost of repair of any physical injury, but not for any diminution in value of the real estate caused by the absence of the goods removed or by any necessity of replacing them. A person entitled to reimbursement may refuse permission to remove until the party seeking removal gives adequate security for the performance of this obligation.
- (9) Even though the lease agreement does not create a security interest, the interest of a lessor of fixtures, including the lessor's residual interest, is perfected by filing a financing statement as a fixture filing for leased goods that are or are to become fixtures in accordance with the relevant provisions of the Article on Secured Transactions (Article 9).

As amended in 1990.

§ 2A–310. Lessor's and Lessee's Rights When Goods Become Accessions.

- (1) Goods are "accessions" when they are installed in or affixed to other goods.
- (2) The interest of a lessor or a lessee under a lease contract entered into before the goods became accessions is superior to all interests in the whole except as stated in subsection (4).
- (3) The interest of a lessor or a lessee under a lease contract entered into at the time or after the goods became accessions is superior to all subsequently

acquired interests in the whole except as stated in subsection (4) but is subordinate to interests in the whole existing at the time the lease contract was made unless the holders of such interests in the whole have in writing consented to the lease or disclaimed an interest in the goods as part of the whole.

- (4) The interest of a lessor or a lessee under a lease contract described in subsection (2) or (3) is subordinate to the interest of
 - (a) a buyer in the ordinary course of business or a lessee in the ordinary course of business of any interest in the whole acquired after the goods became accessions; or
 - (b) a creditor with a security interest in the whole perfected before the lease contract was made to the extent that the creditor makes subsequent advances without knowledge of the lease contract.
- (5) When under subsections (2) or (3) and (4) a lessor or a lessee of accessions holds an interest that is superior to all interests in the whole, the lessor or the lessee may (a) on default, expiration, termination, or cancellation of the lease contract by the other party but subject to the provisions of the lease contract and this Article, or (b) if necessary to enforce his [or her] other rights and remedies under this Article, remove the goods from the whole, free and clear of all interests in the whole, but he [or she] must reimburse any holder of an interest in the whole who is not the lessee and who has not otherwise agreed for the cost of repair of any physical injury but not for any diminution in value of the whole caused by the absence of the goods removed or by any necessity for replacing them. A person entitled to reimbursement may refuse permission to remove until the party seeking removal gives adequate security for the performance of this obligation.

§ 2A–311. Priority Subject to Subordination. Nothing in this Article prevents subordination by agreement by any person entitled to priority.

As added in 1990.

Part 4: Performance of Lease Contract: Repudiated, Substituted and Excused

§ 2A–401. Insecurity: Adequate Assurance of Performance.

- (1) A lease contract imposes an obligation on each party that the other's expectation of receiving due performance will not be impaired.

- (2) If reasonable grounds for insecurity arise with respect to the performance of either party, the insecure party may demand in writing adequate assurance of due performance. Until the insecure party receives that assurance, if commercially reasonable the insecure party may suspend any performance for which he [or she] has not already received the agreed return.
- (3) A repudiation of the lease contract occurs if assurance of due performance adequate under the circumstances of the particular case is not provided to the insecure party within a reasonable time, not to exceed 30 days after receipt of a demand by the other party.
- (4) Between merchants, the reasonableness of grounds for insecurity and the adequacy of any assurance offered must be determined according to commercial standards.
- (5) Acceptance of any nonconforming delivery or payment does not prejudice the aggrieved party's right to demand adequate assurance of future performance.

§ 2A-402. Anticipatory Repudiation. If either party repudiates a lease contract with respect to a performance not yet due under the lease contract, the loss of which performance will substantially impair the value of the lease contract to the other, the aggrieved party may:

- (a) for a commercially reasonable time, await retraction of repudiation and performance by the repudiating party;
- (b) make demand pursuant to Section 2A-401 and await assurance of future performance adequate under the circumstances of the particular case; or
- (c) resort to any right or remedy upon default under the lease contract or this Article, even though the aggrieved party has notified the repudiating party that the aggrieved party would await the repudiating party's performance and assurance and has urged retraction. In addition, whether or not the aggrieved party is pursuing one of the foregoing remedies, the aggrieved party may suspend performance or, if the aggrieved party is the lessor, proceed in accordance with the provisions of this Article on the lessor's right to identify goods to the lease contract notwithstanding default or to salvage unfinished goods (Section 2A-524).

§ 2A-403. Retraction of Anticipatory Repudiation.

- (1) Until the repudiating party's next performance is due, the repudiating party can retract the repudiation

unless, since the repudiation, the aggrieved party has cancelled the lease contract or materially changed the aggrieved party's position or otherwise indicated that the aggrieved party considers the repudiation final.

- (2) Retraction may be by any method that clearly indicates to the aggrieved party that the repudiating party intends to perform under the lease contract and includes any assurance demanded under Section 2A-401.
- (3) Retraction reinstates a repudiating party's rights under a lease contract with due excuse and allowance to the aggrieved party for any delay occasioned by the repudiation.

§ 2A-404. Substituted Performance.

- (1) If without fault of the lessee, the lessor and the supplier, the agreed berthing, loading, or unloading facilities fail or the agreed type of carrier becomes unavailable or the agreed manner of delivery otherwise becomes commercially impracticable, but a commercially reasonable substitute is available, the substitute performance must be tendered and accepted.
- (2) If the agreed means or manner of payment fails because of domestic or foreign governmental regulation:
 - (a) the lessor may withhold or stop delivery or cause the supplier to withhold or stop delivery unless the lessee provides a means or manner of payment that is commercially a substantial equivalent; and
 - (b) if delivery has already been taken, payment by the means or in the manner provided by the regulation discharges the lessee's obligation unless the regulation is discriminatory, oppressive, or predatory.

§ 2A-405. Excused Performance. Subject to Section 2A-404 on substituted performance, the following rules apply:

- (a) Delay in delivery or nondelivery in whole or in part by a lessor or a supplier who complies with paragraphs (b) and (c) is not a default under the lease contract if performance as agreed has been made impracticable by the occurrence of a contingency the nonoccurrence of which was a basic assumption on which the lease contract was made or by compliance in good faith with any applicable foreign or domestic governmental regulation or order, whether or not the regulation or order later proves to be invalid.

- (b) If the causes mentioned in paragraph (a) affect only part of the lessor's or the supplier's capacity to perform, he [or she] shall allocate production and deliveries among his [or her] customers but at his [or her] option may include regular customers not then under contract for sale or lease as well as his [or her] own requirements for further manufacture. He [or she] may so allocate in any manner that is fair and reasonable.
- (c) The lessor seasonably shall notify the lessee and in the case of a finance lease the supplier seasonably shall notify the lessor and the lessee, if known, that there will be delay or nondelivery and, if allocation is required under paragraph (b), of the estimated quota thus made available for the lessee.

§ 2A-406. Procedure on Excused Performance.

- (1) If the lessee receives notification of a material or indefinite delay or an allocation justified under Section 2A-405, the lessee may by written notification to the lessor as to any goods involved, and with respect to all of the goods if under an installment lease contract the value of the whole lease contract is substantially impaired (Section 2A-510):
 - (a) terminate the lease contract (Section 2A-505(2)); or
 - (b) except in a finance lease that is not a consumer lease, modify the lease contract by accepting the available quota in substitution, with due allowance from the rent payable for the balance of the lease term for the deficiency but without further right against the lessor.
- (2) If, after receipt of a notification from the lessor under Section 2A-405, the lessee fails so to modify the lease agreement within a reasonable time not exceeding 30 days, the lease contract lapses with respect to any deliveries affected.

§ 2A-407. Irrevocable Promises: Finance Leases.

- (1) In the case of a finance lease that is not a consumer lease the lessee's promises under the lease contract become irrevocable and independent upon the lessee's acceptance of the goods.
- (2) A promise that has become irrevocable and independent under subsection (1):
 - (a) is effective and enforceable between the parties, and by or against third parties including assignees of the parties; and
 - (b) is not subject to cancellation, termination, modification, repudiation, excuse, or substitution

without the consent of the party to whom the promise runs.

- (3) This section does not affect the validity under any other law of a covenant in any lease contract making the lessee's promises irrevocable and independent upon the lessee's acceptance of the goods.

As amended in 1990.

Part 5: Default

§ 2A-501. Default: Procedure.

- (1) Whether the lessor or the lessee is in default under a lease contract is determined by the lease agreement and this Article.
- (2) If the lessor or the lessee is in default under the lease contract, the party seeking enforcement has rights and remedies as provided in this Article and, except as limited by this Article, as provided in the lease agreement.
- (3) If the lessor or the lessee is in default under the lease contract, the party seeking enforcement may reduce the party's claim to judgment, or otherwise enforce the lease contract by self-help or any available judicial procedure or nonjudicial procedure, including administrative proceeding, arbitration, or the like, in accordance with this Article.
- (4) Except as otherwise provided in Section 1-106(1) or this Article or the lease agreement, the rights and remedies referred to in subsections (2) and (3) are cumulative.
- (5) If the lease agreement covers both real property and goods, the party seeking enforcement may proceed under this Part as to the goods, or under other applicable law as to both the real property and the goods in accordance with that party's rights and remedies in respect of the real property, in which case this Part does not apply.

As amended in 1990.

§ 2A-502. Notice After Default. Except as otherwise provided in this Article or the lease agreement, the lessor or lessee in default under the lease contract is not entitled to notice of default or notice of enforcement from the other party to the lease agreement.

§ 2A-503. Modification or Impairment of Rights and Remedies.

- (1) Except as otherwise provided in this Article, the lease agreement may include rights and remedies for

default in addition to or in substitution for those provided in this Article and may limit or alter the measure of damages recoverable under this Article.

- (2) Resort to a remedy provided under this Article or in the lease agreement is optional unless the remedy is expressly agreed to be exclusive. If circumstances cause an exclusive or limited remedy to fail of its essential purpose, or provision for an exclusive remedy is unconscionable, remedy may be had as provided in this Article.
- (3) Consequential damages may be liquidated under Section 2A–504, or may otherwise be limited, altered, or excluded unless the limitation, alteration, or exclusion is unconscionable. Limitation, alteration, or exclusion of consequential damages for injury to the person in the case of consumer goods is prima facie unconscionable but limitation, alteration, or exclusion of damages where the loss is commercial is not prima facie unconscionable.
- (4) Rights and remedies on default by the lessor or the lessee with respect to any obligation or promise collateral or ancillary to the lease contract are not impaired by this Article.

As amended in 1990.

§ 2A–504. Liquidation of Damages.

- (1) Damages payable by either party for default, or any other act or omission, including indemnity for loss or diminution of anticipated tax benefits or loss or damage to lessor’s residual interest, may be liquidated in the lease agreement but only at an amount or by a formula that is reasonable in light of the then anticipated harm caused by the default or other act or omission.
- (2) If the lease agreement provides for liquidation of damages, and such provision does not comply with subsection (1), or such provision is an exclusive or limited remedy that circumstances cause to fail of its essential purpose, remedy may be had as provided in this Article.
- (3) If the lessor justifiably withholds or stops delivery of goods because of the lessee’s default or insolvency (Section 2A–525 or 2A–526), the lessee is entitled to restitution of any amount by which the sum of his [or her] payments exceeds:
 - (a) the amount to which the lessor is entitled by virtue of terms liquidating the lessor’s damages in accordance with subsection (1); or
 - (b) in the absence of those terms, 20 percent of the then present value of the total rent the lessee was obligated to pay for the balance of the lease

term, or, in the case of a consumer lease, the lesser of such amount or \$500.

- (4) A lessee’s right to restitution under subsection (3) is subject to offset to the extent the lessor establishes:
 - (a) a right to recover damages under the provisions of this Article other than subsection (1); and
 - (b) the amount or value of any benefits received by the lessee directly or indirectly by reason of the lease contract.

§ 2A–505. Cancellation and Termination and Effect of Cancellation, Termination, Rescission, or Fraud on Rights and Remedies.

- (1) On cancellation of the lease contract, all obligations that are still executory on both sides are discharged, but any right based on prior default or performance survives, and the cancelling party also retains any remedy for default of the whole lease contract or any unperformed balance.
- (2) On termination of the lease contract, all obligations that are still executory on both sides are discharged but any right based on prior default or performance survives.
- (3) Unless the contrary intention clearly appears, expressions of “cancellation,” “rescission,” or the like of the lease contract may not be construed as a renunciation or discharge of any claim in damages for an antecedent default.
- (4) Rights and remedies for material misrepresentation or fraud include all rights and remedies available under this Article for default.
- (5) Neither rescission nor a claim for rescission of the lease contract nor rejection or return of the goods may bar or be deemed inconsistent with a claim for damages or other right or remedy.

§ 2A–506. Statute of Limitations.

- (1) An action for default under a lease contract, including breach of warranty or indemnity, must be commenced within 4 years after the cause of action accrued. By the original lease contract the parties may reduce the period of limitation to not less than one year.
- (2) A cause of action for default accrues when the act or omission on which the default or breach of warranty is based is or should have been discovered by the aggrieved party, or when the default occurs, whichever is later. A cause of action for indemnity accrues when the act or omission on which the claim for indemnity is based is or should have been discovered by the indemnified party, whichever is later.

- (3) If an action commenced within the time limited by subsection (1) is so terminated as to leave available a remedy by another action for the same default or breach of warranty or indemnity, the other action may be commenced after the expiration of the time limited and within 6 months after the termination of the first action unless the termination resulted from voluntary discontinuance or from dismissal for failure or neglect to prosecute.
- (4) This section does not alter the law on tolling of the statute of limitations nor does it apply to causes of action that have accrued before this Article becomes effective.

§ 2A-507. Proof of Market Rent: Time and Place.

- (1) Damages based on market rent (Section 2A-519 or 2A-528) are determined according to the rent for the use of the goods concerned for a lease term identical to the remaining lease term of the original lease agreement and prevailing at the times specified in Sections 2A-519 and 2A-528.
- (2) If evidence of rent for the use of the goods concerned for a lease term identical to the remaining lease term of the original lease agreement and prevailing at the times or places described in this Article is not readily available, the rent prevailing within any reasonable time before or after the time described or at any other place or for a different lease term which in commercial judgment or under usage of trade would serve as a reasonable substitute for the one described may be used, making any proper allowance for the difference, including the cost of transporting the goods to or from the other place.
- (3) Evidence of a relevant rent prevailing at a time or place or for a lease term other than the one described in this Article offered by one party is not admissible unless and until he [or she] has given the other party notice the court finds sufficient to prevent unfair surprise.
- (4) If the prevailing rent or value of any goods regularly leased in any established market is in issue, reports in official publications or trade journals or in newspapers or periodicals of general circulation published as the reports of that market are admissible in evidence. The circumstances of the preparation of the report may be shown to affect its weight but not its admissibility.

As amended in 1990.

§ 2A-508. Lessee's Remedies.

- (1) If a lessor fails to deliver the goods in conformity to the lease contract (Section 2A-509) or repudiates the lease contract (Section 2A-402), or a lessee rightfully rejects the goods (Section 2A-509) or justifiably revokes acceptance of the goods (Section 2A-517), then with respect to any goods involved, and with respect to all of the goods if under an installment lease contract the value of the whole lease contract is substantially impaired (Section 2A-510), the lessor is in default under the lease contract and the lessee may:
- (a) cancel the lease contract (Section 2A-505(1));
 - (b) recover so much of the rent and security as has been paid and is just under the circumstances;
 - (c) cover and recover damages as to all goods affected whether or not they have been identified to the lease contract (Sections 2A-518 and 2A-520), or recover damages for nondelivery (Sections 2A-519 and 2A-520);
 - (d) exercise any other rights or pursue any other remedies provided in the lease contract.
- (2) If a lessor fails to deliver the goods in conformity to the lease contract or repudiates the lease contract, the lessee may also:
- (a) if the goods have been identified, recover them (Section 2A-522); or
 - (b) in a proper case, obtain specific performance or replevy the goods (Section 2A-521).
- (3) If a lessor is otherwise in default under a lease contract, the lessee may exercise the rights and pursue the remedies provided in the lease contract, which may include a right to cancel the lease, and in Section 2A-519(3).
- (4) If a lessor has breached a warranty, whether express or implied, the lessee may recover damages (Section 2A-519(4)).
- (5) On rightful rejection or justifiable revocation of acceptance, a lessee has a security interest in goods in the lessee's possession or control for any rent and security that has been paid and any expenses reasonably incurred in their inspection, receipt, transportation, and care and custody and may hold those goods and dispose of them in good faith and in a commercially reasonable manner, subject to Section 2A-527(5).
- (6) Subject to the provisions of Section 2A-407, a lessee, on notifying the lessor of the lessee's intention to do so, may deduct all or any part of the damages resulting from any default under the lease contract from any part of the rent still due under the same lease contract.

As amended in 1990.

§ 2A-509. Lessee's Rights on Improper Delivery; Rightful Rejection.

- (1) Subject to the provisions of Section 2A-510 on default in installment lease contracts, if the goods or the tender or delivery fail in any respect to conform to the lease contract, the lessee may reject or accept the goods or accept any commercial unit or units and reject the rest of the goods.
- (2) Rejection of goods is ineffective unless it is within a reasonable time after tender or delivery of the goods and the lessee seasonably notifies the lessor.

§ 2A-510. Installment Lease Contracts: Rejection and Default.

- (1) Under an installment lease contract a lessee may reject any delivery that is nonconforming if the nonconformity substantially impairs the value of that delivery and cannot be cured or the nonconformity is a defect in the required documents; but if the nonconformity does not fall within subsection (2) and the lessor or the supplier gives adequate assurance of its cure, the lessee must accept that delivery.
- (2) Whenever nonconformity or default with respect to one or more deliveries substantially impairs the value of the installment lease contract as a whole there is a default with respect to the whole. But, the aggrieved party reinstates the installment lease contract as a whole if the aggrieved party accepts a nonconforming delivery without seasonably notifying of cancellation or brings an action with respect only to past deliveries or demands performance as to future deliveries.

§ 2A-511. Merchant Lessee's Duties as to Rightfully Rejected Goods.

- (1) Subject to any security interest of a lessee (Section 2A-508(5)), if a lessor or a supplier has no agent or place of business at the market of rejection, a merchant lessee, after rejection of goods in his [or her] possession or control, shall follow any reasonable instructions received from the lessor or the supplier with respect to the goods. In the absence of those instructions, a merchant lessee shall make reasonable efforts to sell, lease, or otherwise dispose of the goods for the lessor's account if they threaten to decline in value speedily. Instructions are not reasonable if on demand indemnity for expenses is not forthcoming.
- (2) If a merchant lessee (subsection (1)) or any other lessee (Section 2A-512) disposes of goods, he [or she]

is entitled to reimbursement either from the lessor or the supplier or out of the proceeds for reasonable expenses of caring for and disposing of the goods and, if the expenses include no disposition commission, to such commission as is usual in the trade, or if there is none, to a reasonable sum not exceeding 10 percent of the gross proceeds.

- (3) In complying with this section or Section 2A-512, the lessee is held only to good faith. Good faith conduct hereunder is neither acceptance or conversion nor the basis of an action for damages.
- (4) A purchaser who purchases in good faith from a lessee pursuant to this section or Section 2A-512 takes the goods free of any rights of the lessor and the supplier even though the lessee fails to comply with one or more of the requirements of this Article.

§ 2A-512. Lessee's Duties as to Rightfully Rejected Goods.

- (1) Except as otherwise provided with respect to goods that threaten to decline in value speedily (Section 2A-511) and subject to any security interest of a lessee (Section 2A-508(5)):
 - (a) the lessee, after rejection of goods in the lessee's possession, shall hold them with reasonable care at the lessor's or the supplier's disposition for a reasonable time after the lessee's seasonable notification of rejection;
 - (b) if the lessor or the supplier gives no instructions within a reasonable time after notification of rejection, the lessee may store the rejected goods for the lessor's or the supplier's account or ship them to the lessor or the supplier or dispose of them for the lessor's or the supplier's account with reimbursement in the manner provided in Section 2A-511; but
 - (c) the lessee has no further obligations with regard to goods rightfully rejected.
- (2) Action by the lessee pursuant to subsection (1) is not acceptance or conversion.

§ 2A-513. Cure by Lessor of Improper Tender or Delivery; Replacement.

- (1) If any tender or delivery by the lessor or the supplier is rejected because nonconforming and the time for performance has not yet expired, the lessor or the supplier may seasonably notify the lessee of the lessor's or the supplier's intention to cure and may then make a conforming delivery within the time provided in the lease contract.

- (2) If the lessee rejects a nonconforming tender that the lessor or the supplier had reasonable grounds to believe would be acceptable with or without money allowance, the lessor or the supplier may have a further reasonable time to substitute a conforming tender if he [or she] seasonably notifies the lessee.

§ 2A-514. Waiver of Lessee's Objections.

- (1) In rejecting goods, a lessee's failure to state a particular defect that is ascertainable by reasonable inspection precludes the lessee from relying on the defect to justify rejection or to establish default:
- (a) if, stated seasonably, the lessor or the supplier could have cured it (Section 2A-513); or
 - (b) between merchants if the lessor or the supplier after rejection has made a request in writing for a full and final written statement of all defects on which the lessee proposes to rely.
- (2) A lessee's failure to reserve rights when paying rent or other consideration against documents precludes recovery of the payment for defects apparent on the face of the documents.

§ 2A-515. Acceptance of Goods.

- (1) Acceptance of goods occurs after the lessee has had a reasonable opportunity to inspect the goods and
- (a) the lessee signifies or acts with respect to the goods in a manner that signifies to the lessor or the supplier that the goods are conforming or that the lessee will take or retain them in spite of their nonconformity; or
 - (b) the lessee fails to make an effective rejection of the goods (Section 2A-509(2)).
- (2) Acceptance of a part of any commercial unit is acceptance of that entire unit.

§ 2A-516. Effect of Acceptance of Goods; Notice of Default; Burden of Establishing Default After Acceptance; Notice of Claim or Litigation to Person Answerable Over.

- (1) A lessee must pay rent for any goods accepted in accordance with the lease contract, with due allowance for goods rightfully rejected or not delivered.
- (2) A lessee's acceptance of goods precludes rejection of the goods accepted. In the case of a finance lease, if made with knowledge of a nonconformity, acceptance cannot be revoked because of it. In any other case, if made with knowledge of a nonconformity, acceptance cannot be revoked because of it unless the acceptance was on the reasonable assumption that

the nonconformity would be seasonably cured. Acceptance does not of itself impair any other remedy provided by this Article or the lease agreement for nonconformity.

- (3) If a tender has been accepted:
- (a) within a reasonable time after the lessee discovers or should have discovered any default, the lessee shall notify the lessor and the supplier, if any, or be barred from any remedy against the party not notified;
 - (b) except in the case of a consumer lease, within a reasonable time after the lessee receives notice of litigation for infringement or the like (Section 2A-211) the lessee shall notify the lessor or be barred from any remedy over for liability established by the litigation; and
 - (c) the burden is on the lessee to establish any default.
- (4) If a lessee is sued for breach of a warranty or other obligation for which a lessor or a supplier is answerable over the following apply:
- (a) The lessee may give the lessor or the supplier, or both, written notice of the litigation. If the notice states that the person notified may come in and defend and that if the person notified does not do so that person will be bound in any action against that person by the lessee by any determination of fact common to the two litigations, then unless the person notified after seasonable receipt of the notice does come in and defend that person is so bound.
 - (b) The lessor or the supplier may demand in writing that the lessee turn over control of the litigation including settlement if the claim is one for infringement or the like (Section 2A-211) or else be barred from any remedy over. If the demand states that the lessor or the supplier agrees to bear all expense and to satisfy any adverse judgment, then unless the lessee after seasonable receipt of the demand does turn over control the lessee is so barred.
- (5) Subsections (3) and (4) apply to any obligation of a lessee to hold the lessor or the supplier harmless against infringement or the like (Section 2A-211).

As amended in 1990.

§ 2A-517. Revocation of Acceptance of Goods.

- (1) A lessee may revoke acceptance of a lot or commercial unit whose nonconformity substantially impairs its value to the lessee if the lessee has accepted it:

- (a) except in the case of a finance lease, on the reasonable assumption that its nonconformity would be cured and it has not been seasonably cured; or
 - (b) without discovery of the nonconformity if the lessee's acceptance was reasonably induced either by the lessor's assurances or, except in the case of a finance lease, by the difficulty of discovery before acceptance.
- (2) Except in the case of a finance lease that is not a consumer lease, a lessee may revoke acceptance of a lot or commercial unit if the lessor defaults under the lease contract and the default substantially impairs the value of that lot or commercial unit to the lessee.
 - (3) If the lease agreement so provides, the lessee may revoke acceptance of a lot or commercial unit because of other defaults by the lessor.
 - (4) Revocation of acceptance must occur within a reasonable time after the lessee discovers or should have discovered the ground for it and before any substantial change in condition of the goods which is not caused by the nonconformity. Revocation is not effective until the lessee notifies the lessor.
 - (5) A lessee who so revokes has the same rights and duties with regard to the goods involved as if the lessee had rejected them.

As amended in 1990.

§ 2A-518. Cover; Substitute Goods.

- (1) After a default by a lessor under the lease contract of the type described in Section 2A-508(1), or, if agreed, after other default by the lessor, the lessee may cover by making any purchase or lease of or contract to purchase or lease goods in substitution for those due from the lessor.
- (2) Except as otherwise provided with respect to damages liquidated in the lease agreement (Section 2A-504) or otherwise determined pursuant to agreement of the parties (Sections 1-102(3) and 2A-503), if a lessee's cover is by a lease agreement substantially similar to the original lease agreement and the new lease agreement is made in good faith and in a commercially reasonable manner, the lessee may recover from the lessor as damages (i) the present value, as of the date of the commencement of the term of the new lease agreement, of the rent under the new lease agreement applicable to that period of the new lease term which is comparable to the then remaining term of the original lease agreement minus the present value as of the same date of the total

rent for the then remaining lease term of the original lease agreement, and (ii) any incidental or consequential damages, less expenses saved in consequence of the lessor's default.

- (3) If a lessee's cover is by lease agreement that for any reason does not qualify for treatment under subsection (2), or is by purchase or otherwise, the lessee may recover from the lessor as if the lessee had elected not to cover and Section 2A-519 governs.

As amended in 1990.

§ 2A-519. Lessee's Damages for Nondelivery, Repudiation, Default, and Breach of Warranty in Regard to Accepted Goods.

- (1) Except as otherwise provided with respect to damages liquidated in the lease agreement (Section 2A-504) or otherwise determined pursuant to agreement of the parties (Sections 1-102(3) and 2A-503), if a lessee elects not to cover or a lessee elects to cover and the cover is by lease agreement that for any reason does not qualify for treatment under Section 2A-518(2), or is by purchase or otherwise, the measure of damages for nondelivery or repudiation by the lessor or for rejection or revocation of acceptance by the lessee is the present value, as of the date of the default, of the then market rent minus the present value as of the same date of the original rent, computed for the remaining lease term of the original lease agreement, together with incidental and consequential damages, less expenses saved in consequence of the lessor's default.
- (2) Market rent is to be determined as of the place for tender or, in cases of rejection after arrival or revocation of acceptance, as of the place of arrival.
- (3) Except as otherwise agreed, if the lessee has accepted goods and given notification (Section 2A-516(3)), the measure of damages for nonconforming tender or delivery or other default by a lessor is the loss resulting in the ordinary course of events from the lessor's default as determined in any manner that is reasonable together with incidental and consequential damages, less expenses saved in consequence of the lessor's default.
- (4) Except as otherwise agreed, the measure of damages for breach of warranty is the present value at the time and place of acceptance of the difference between the value of the use of the goods accepted and the value if they had been as warranted for the lease term, unless special circumstances show proximate damages of a different amount, together with

incidental and consequential damages, less expenses saved in consequence of the lessor's default or breach of warranty.

As amended in 1990.

§ 2A-520. Lessee's Incidental and Consequential Damages.

- (1) Incidental damages resulting from a lessor's default include expenses reasonably incurred in inspection, receipt, transportation, and care and custody of goods rightfully rejected or goods the acceptance of which is justifiably revoked, any commercially reasonable charges, expenses or commissions in connection with effecting cover, and any other reasonable expense incident to the default.
- (2) Consequential damages resulting from a lessor's default include:
 - (a) any loss resulting from general or particular requirements and needs of which the lessor at the time of contracting had reason to know and which could not reasonably be prevented by cover or otherwise; and
 - (b) injury to person or property proximately resulting from any breach of warranty.

§ 2A-521. Lessee's Right to Specific Performance or Replevin.

- (1) Specific performance may be decreed if the goods are unique or in other proper circumstances.
- (2) A decree for specific performance may include any terms and conditions as to payment of the rent, damages, or other relief that the court deems just.
- (3) A lessee has a right of replevin, detinue, sequestration, claim and delivery, or the like for goods identified to the lease contract if after reasonable effort the lessee is unable to effect cover for those goods or the circumstances reasonably indicate that the effort will be unavailing.

§ 2A-522. Lessee's Right to Goods on Lessor's Insolvency.

- (1) Subject to subsection (2) and even though the goods have not been shipped, a lessee who has paid a part or all of the rent and security for goods identified to a lease contract (Section 2A-217) on making and keeping good a tender of any unpaid portion of the rent and security due under the lease contract may recover the goods identified from the lessor if the lessor becomes insolvent within 10 days after receipt of the first installment of rent and security.

- (2) A lessee acquires the right to recover goods identified to a lease contract only if they conform to the lease contract.

§ 2A-523. Lessor's Remedies.

- (1) If a lessee wrongfully rejects or revokes acceptance of goods or fails to make a payment when due or repudiates with respect to a part or the whole, then, with respect to any goods involved, and with respect to all of the goods if under an installment lease contract the value of the whole lease contract is substantially impaired (Section 2A-510), the lessee is in default under the lease contract and the lessor may:
 - (a) cancel the lease contract (Section 2A-505(1));
 - (b) proceed respecting goods not identified to the lease contract (Section 2A-524);
 - (c) withhold delivery of the goods and take possession of goods previously delivered (Section 2A-525);
 - (d) stop delivery of the goods by any bailee (Section 2A-526);
 - (e) dispose of the goods and recover damages (Section 2A-527), or retain the goods and recover damages (Section 2A-528), or in a proper case recover rent (Section 2A-529);
 - (f) exercise any other rights or pursue any other remedies provided in the lease contract.
- (2) If a lessor does not fully exercise a right or obtain a remedy to which the lessor is entitled under subsection (1), the lessor may recover the loss resulting in the ordinary course of events from the lessee's default as determined in any reasonable manner, together with incidental damages, less expenses saved in consequence of the lessee's default.
- (3) If a lessee is otherwise in default under a lease contract, the lessor may exercise the rights and pursue the remedies provided in the lease contract, which may include a right to cancel the lease. In addition, unless otherwise provided in the lease contract:
 - (a) if the default substantially impairs the value of the lease contract to the lessor, the lessor may exercise the rights and pursue the remedies provided in subsections (1) or (2); or
 - (b) if the default does not substantially impair the value of the lease contract to the lessor, the lessor may recover as provided in subsection (2).

As amended in 1990.

§ 2A-524. Lessor's Right to Identify Goods to Lease Contract.

- (1) After default by the lessee under the lease contract of the type described in Section 2A-523(1) or 2A-523(3) (a) or, if agreed, after other default by the lessee, the lessor may:
 - (a) identify to the lease contract conforming goods not already identified if at the time the lessor learned of the default they were in the lessor's or the supplier's possession or control; and
 - (b) dispose of goods (Section 2A-527(1)) that demonstrably have been intended for the particular lease contract even though those goods are unfinished.
- (2) If the goods are unfinished, in the exercise of reasonable commercial judgment for the purposes of avoiding loss and of effective realization, an aggrieved lessor or the supplier may either complete manufacture and wholly identify the goods to the lease contract or cease manufacture and lease, sell, or otherwise dispose of the goods for scrap or salvage value or proceed in any other reasonable manner.

As amended in 1990.

§ 2A-525. Lessor's Right to Possession of Goods.

- (1) If a lessor discovers the lessee to be insolvent, the lessor may refuse to deliver the goods.
- (2) After a default by the lessee under the lease contract of the type described in Section 2A-523(1) or 2A-523(3) (a) or, if agreed, after other default by the lessee, the lessor has the right to take possession of the goods. If the lease contract so provides, the lessor may require the lessee to assemble the goods and make them available to the lessor at a place to be designated by the lessor which is reasonably convenient to both parties. Without removal, the lessor may render unusable any goods employed in trade or business, and may dispose of goods on the lessee's premises (Section 2A-527).
- (3) The lessor may proceed under subsection (2) without judicial process if it can be done without breach of the peace or the lessor may proceed by action.

As amended in 1990.

§ 2A-526. Lessor's Stoppage of Delivery in Transit or Otherwise.

- (1) A lessor may stop delivery of goods in the possession of a carrier or other bailee if the lessor discovers the lessee to be insolvent and may stop delivery of car-

load, truckload, paneload, or larger shipments of express or freight if the lessee repudiates or fails to make a payment due before delivery, whether for rent, security or otherwise under the lease contract, or for any other reason the lessor has a right to withhold or take possession of the goods.

- (2) In pursuing its remedies under subsection (1), the lessor may stop delivery until
 - (a) receipt of the goods by the lessee;
 - (b) acknowledgment to the lessee by any bailee of the goods, except a carrier, that the bailee holds the goods for the lessee; or
 - (c) such an acknowledgment to the lessee by a carrier via reshipment or as warehouseman.
- (3) (a) To stop delivery, a lessor shall so notify as to enable the bailee by reasonable diligence to prevent delivery of the goods.
 - (b) After notification, the bailee shall hold and deliver the goods according to the directions of the lessor, but the lessor is liable to the bailee for any ensuing charges or damages.
 - (c) A carrier who has issued a nonnegotiable bill of lading is not obliged to obey a notification to stop received from a person other than the consignor.

§ 2A-527. Lessor's Rights to Dispose of Goods.

- (1) After a default by a lessee under the lease contract of the type described in Section 2A-523(1) or 2A-523(3) (a) or after the lessor refuses to deliver or takes possession of goods (Section 2A-525 or 2A-526), or, if agreed, after other default by a lessee, the lessor may dispose of the goods concerned or the undelivered balance thereof by lease, sale, or otherwise.
- (2) Except as otherwise provided with respect to damages liquidated in the lease agreement (Section 2A-504) or otherwise determined pursuant to agreement of the parties (Sections 1-102(3) and 2A-503), if the disposition is by lease agreement substantially similar to the original lease agreement and the new lease agreement is made in good faith and in a commercially reasonable manner, the lessor may recover from the lessee as damages (i) accrued and unpaid rent as of the date of the commencement of the term of the new lease agreement, (ii) the present value, as of the same date, of the total rent for the then remaining lease term of the original lease agreement minus the present value, as of the same date, of the rent under the new lease agreement applicable to that period

of the new lease term which is comparable to the then remaining term of the original lease agreement, and (iii) any incidental damages allowed under Section 2A-530, less expenses saved in consequence of the lessee's default.

- (3) If the lessor's disposition is by lease agreement that for any reason does not qualify for treatment under subsection (2), or is by sale or otherwise, the lessor may recover from the lessee as if the lessor had elected not to dispose of the goods and Section 2A-528 governs.
- (4) A subsequent buyer or lessee who buys or leases from the lessor in good faith for value as a result of a disposition under this section takes the goods free of the original lease contract and any rights of the original lessee even though the lessor fails to comply with one or more of the requirements of this Article.
- (5) The lessor is not accountable to the lessee for any profit made on any disposition. A lessee who has rightfully rejected or justifiably revoked acceptance shall account to the lessor for any excess over the amount of the lessee's security interest (Section 2A-508(5)).

As amended in 1990.

§ 2A-528. Lessor's Damages for Nonacceptance, Failure to Pay, Repudiation, or Other Default.

- (1) Except as otherwise provided with respect to damages liquidated in the lease agreement (Section 2A-504) or otherwise determined pursuant to agreement of the parties (Sections 1-102(3) and 2A-503), if a lessor elects to retain the goods or a lessor elects to dispose of the goods and the disposition is by lease agreement that for any reason does not qualify for treatment under Section 2A-527(2), or is by sale or otherwise, the lessor may recover from the lessee as damages for a default of the type described in Section 2A-523(1) or 2A-523(3) (a), or, if agreed, for other default of the lessee, (i) accrued and unpaid rent as of the date of default if the lessee has never taken possession of the goods, or, if the lessee has taken possession of the goods, as of the date the lessor repossesses the goods or an earlier date on which the lessee makes a tender of the goods to the lessor, (ii) the present value as of the date determined under clause (i) of the total rent for the then remaining lease term of the original lease agreement minus the present value as of the same date of the market rent at the place where the goods are located computed for the same lease term, and (iii) any incidental damages

allowed under Section 2A-530, less expenses saved in consequence of the lessee's default.

- (2) If the measure of damages provided in subsection (1) is inadequate to put a lessor in as good a position as performance would have, the measure of damages is the present value of the profit, including reasonable overhead, the lessor would have made from full performance by the lessee, together with any incidental damages allowed under Section 2A-530, due allowance for costs reasonably incurred and due credit for payments or proceeds of disposition.

As amended in 1990.

§ 2A-529. Lessor's Action for the Rent.

- (1) After default by the lessee under the lease contract of the type described in Section 2A-523(1) or 2A-523(3) (a) or, if agreed, after other default by the lessee, if the lessor complies with subsection (2), the lessor may recover from the lessee as damages:
 - (a) for goods accepted by the lessee and not repossessed by or tendered to the lessor, and for conforming goods lost or damaged within a commercially reasonable time after risk of loss passes to the lessee (Section 2A-219), (i) accrued and unpaid rent as of the date of entry of judgment in favor of the lessor, (ii) the present value as of the same date of the rent for the then remaining lease term of the lease agreement, and (iii) any incidental damages allowed under Section 2A-530, less expenses saved in consequence of the lessee's default; and
 - (b) for goods identified to the lease contract if the lessor is unable after reasonable effort to dispose of them at a reasonable price or the circumstances reasonably indicate that effort will be unavailing, (i) accrued and unpaid rent as of the date of entry of judgment in favor of the lessor, (ii) the present value as of the same date of the rent for the then remaining lease term of the lease agreement, and (iii) any incidental damages allowed under Section 2A-530, less expenses saved in consequence of the lessee's default.
- (2) Except as provided in subsection (3), the lessor shall hold for the lessee for the remaining lease term of the lease agreement any goods that have been identified to the lease contract and are in the lessor's control.
- (3) The lessor may dispose of the goods at any time before collection of the judgment for damages obtained pursuant to subsection (1). If the disposition is before

the end of the remaining lease term of the lease agreement, the lessor's recovery against the lessee for damages is governed by Section 2A-527 or Section 2A-528, and the lessor will cause an appropriate credit to be provided against a judgment for damages to the extent that the amount of the judgment exceeds the recovery available pursuant to Section 2A-527 or 2A-528.

- (4) Payment of the judgment for damages obtained pursuant to subsection (1) entitles the lessee to the use and possession of the goods not then disposed of for the remaining lease term of and in accordance with the lease agreement.
- (5) After default by the lessee under the lease contract of the type described in Section 2A-523(1) or Section 2A-523(3) (a) or, if agreed, after other default by the lessee, a lessor who is held not entitled to rent under this section must nevertheless be awarded damages for nonacceptance under Section 2A-527 or Section 2A-528.

As amended in 1990.

§ 2A-530. Lessor's Incidental Damages. Incidental damages to an aggrieved lessor include any commercially reasonable charges, expenses, or commissions incurred in stopping delivery, in the transportation, care and custody of goods after the lessee's default, in connection with return or disposition of the goods, or otherwise resulting from the default.

§ 2A-531. Standing to Sue Third Parties for Injury to Goods.

- (1) If a third party so deals with goods that have been identified to a lease contract as to cause actionable injury to a party to the lease contract (a) the lessor has a right of action against the third party, and (b) the lessee also has a right of action against the third party if the lessee:
 - (i) has a security interest in the goods;
 - (ii) has an insurable interest in the goods; or
 - (iii) bears the risk of loss under the lease contract or has since the injury assumed that risk as against the lessor and the goods have been converted or destroyed.
- (2) If at the time of the injury the party plaintiff did not bear the risk of loss as against the other party to the lease contract and there is no arrangement between them for disposition of the recovery, his [or her] suit or settlement, subject to his [or her] own interest, is as a fiduciary for the other party to the lease contract.

- (3) Either party with the consent of the other may sue for the benefit of whom it may concern.

§ 2A-532. Lessor's Rights to Residual Interest. In addition to any other recovery permitted by this Article or other law, the lessor may recover from the lessee an amount that will fully compensate the lessor for any loss of or damage to the lessor's residual interest in the goods caused by the default of the lessee.

As added in 1990.

Article 3—Negotiable Instruments

Part 1: General Provisions and Definitions

§ 3-101. Short Title. This Article may be cited as Uniform Commercial Code—Negotiable Instruments.

§ 3-102. Subject Matter.

- (a) This Article applies to negotiable instruments. It does not apply to money, to payment orders governed by Article 4A, or to securities governed by Article 8.
- (b) If there is conflict between this Article and Article 4 or 9, Articles 4 and 9 govern.
- (c) Regulations of the Board of Governors of the Federal Reserve System and operating circulars of the Federal Reserve Banks supersede any inconsistent provision of this Article to the extent of the inconsistency.

§ 3-103. Definitions.

- (a) In this Article:
 - (1) "Acceptor" means a drawee who has accepted a draft.
 - (2) "Consumer account" means an account established by an individual primarily for personal, family, or household purposes.
 - (3) "Consumer transaction" means a transaction in which an individual incurs an obligation primarily for personal, family, or household purposes.
 - (4) "Drawee" means a person ordered in a draft to make payment.
 - (5) "Drawer" means a person who signs or is identified in a draft as a person ordering payment.
 - (6) ["Good faith" means honesty in fact and the observance of reasonable commercial standards of fair dealing.]

- (7) “Maker” means a person who signs or is identified in a note as a person undertaking to pay.
- (8) “Order” means a written instruction to pay money signed by the person giving the instruction. The instruction may be addressed to any person, including the person giving the instruction, or to one or more persons jointly or in the alternative but not in succession. An authorization to pay is not an order unless the person authorized to pay is also instructed to pay.
- (9) “Ordinary care” in the case of a person engaged in business means observance of reasonable commercial standards, prevailing in the area in which the person is located, with respect to the business in which the person is engaged. In the case of a bank that takes an instrument for processing for collection or payment by automated means, reasonable commercial standards do not require the bank to examine the instrument if the failure to examine does not violate the bank’s prescribed procedures and the bank’s procedures do not vary unreasonably from general banking usage not disapproved by this Article or Article 4.
- (10) “Party” means a party to an instrument.
- (11) “Principal obligor,” with respect to an instrument, means the accommodated party or any other party to the instrument against whom a secondary obligor has recourse under this article.
- (12) “Promise” means a written undertaking to pay money signed by the person undertaking to pay. An acknowledgment of an obligation by the obligor is not a promise unless the obligor also undertakes to pay the obligation.
- (13) “Prove” with respect to a fact means to meet the burden of establishing the fact (Section 1-201(8)).
- (14) [“Record” means information that is inscribed on a tangible medium or that is stored in an electronic or other medium and is retrievable in perceivable form.]
- (15) “Remitter” means a person who purchases an instrument from its issuer if the instrument is payable to an identified person other than the purchaser.
- (16) “Remotely-created consumer item” means an item drawn on a consumer account, which is not created by the payor bank and does not bear a handwritten signature purporting to be the signature of the drawer.
- (17) “Secondary obligor,” with respect to an instrument, means (a) an indorser or an accommodation party, (b) a drawer having the obligation described in Section 3-414(d), or (c) any other party to the instrument that has recourse against another party to the instrument pursuant to Section 3-116(b).
- (b) Other definitions applying to this Article and the sections in which they appear are:
- | | |
|------------------------------|---------------|
| “Acceptance” | Section 3-409 |
| “Accommodated party” | Section 3-419 |
| “Accommodation party” | Section 3-419 |
| “Account” | Section 4-104 |
| “Alteration” | Section 3-407 |
| “Anomalous indorsement” | Section 3-205 |
| “Blank indorsement” | Section 3-205 |
| “Cashier’s check” | Section 3-104 |
| “Certificate of deposit” | Section 3-104 |
| “Certified check” | Section 3-409 |
| “Check” | Section 3-104 |
| “Consideration” | Section 3-303 |
| “Draft” | Section 3-104 |
| “Holder in due course” | Section 3-302 |
| “Incomplete instrument” | Section 3-115 |
| “Indorsement” | Section 3-204 |
| “Indorser” | Section 3-204 |
| “Instrument” | Section 3-104 |
| “Issue” | Section 3-105 |
| “Issuer” | Section 3-105 |
| “Negotiable instrument” | Section 3-104 |
| “Negotiation” | Section 3-201 |
| “Note” | Section 3-104 |
| “Payable at a definite time” | Section 3-108 |
| “Payable on demand” | Section 3-108 |
| “Payable to bearer” | Section 3-109 |
| “Payable to order” | Section 3-109 |
| “Payment” | Section 3-602 |
| “Person entitled to enforce” | Section 3-301 |
| “Presentment” | Section 3-501 |
| “Reacquisition” | Section 3-207 |
| “Special indorsement” | Section 3-205 |
| “Teller’s check” | Section 3-104 |

| | |
|--------------------------|---------------|
| “Transfer of instrument” | Section 3-203 |
| “Traveler’s check” | Section 3-104 |
| “Value” | Section 3-303 |

(c) The following definitions in other Articles apply to this Article:

| | |
|---------------------|---------------|
| “Banking day” | Section 4-104 |
| “Clearing house” | Section 4-104 |
| “Collecting bank” | Section 4-105 |
| “Depository bank” | Section 4-105 |
| “Documentary draft” | Section 4-104 |
| “Intermediary bank” | Section 4-105 |
| “Item” | Section 4-104 |
| “Payor bank” | Section 4-105 |
| “Suspends payments” | Section 4-104 |

(d) In addition, Article 1 contains general definitions and principles of construction and interpretation applicable throughout this Article.

Legislative Note. *A jurisdiction that enacts this statute that has not yet enacted the revised version of UCC Article 1 should add to Section 3-103 the definition of “good faith” that appears in the official version of Section 1-201(b)(20) and the definition of “record” that appears in the official version of Section 1-201(b)(31). Sections 3-103(a)(6) and (14) are reserved for that purpose. A jurisdiction that already has adopted or simultaneously adopts the revised Article 1 should not add those definitions, but should leave those numbers “reserved.” If jurisdictions follow the numbering suggested here, the subsections will have the same numbering in all jurisdictions that have adopted these amendments (whether they have or have not adopted the revised version of UCC Article 1).*

§ 3–104. Negotiable Instrument.

(a) Except as provided in subsections (c) and (d), “negotiable instrument” means an unconditional promise or order to pay a fixed amount of money, with or without interest or other charges described in the promise or order, if it:

- (1) is payable to bearer or to order at the time it is issued or first comes into possession of a holder;
- (2) is payable on demand or at a definite time; and
- (3) does not state any other undertaking or instruction by the person promising or ordering payment to do any act in addition to the payment of money, but the promise or order may contain (i)

an undertaking or power to give, maintain, or protect collateral to secure payment, (ii) an authorization or power to the holder to confess judgment or realize on or dispose of collateral, or (iii) a waiver of the benefit of any law intended for the advantage or protection of an obligor.

- (b) “Instrument” means a negotiable instrument.
- (c) An order that meets all of the requirements of subsection (a), except paragraph (1), and otherwise falls within the definition of “check” in subsection (f) is a negotiable instrument and a check.
- (d) A promise or order other than a check is not an instrument if, at the time it is issued or first comes into possession of a holder, it contains a conspicuous statement, however expressed, to the effect that the promise or order is not negotiable or is not an instrument governed by this Article.
- (e) An instrument is a “note” if it is a promise and is a “draft” if it is an order. If an instrument falls within the definition of both “note” and “draft,” a person entitled to enforce the instrument may treat it as either.
- (f) “Check” means (i) a draft, other than a documentary draft, payable on demand and drawn on a bank or (ii) a cashier’s check or teller’s check. An instrument may be a check even though it is described on its face by another term, such as “money order.”
- (g) “Cashier’s check” means a draft with respect to which the drawer and drawee are the same bank or branches of the same bank.
- (h) “Teller’s check” means a draft drawn by a bank (i) on another bank, or (ii) payable at or through a bank.
- (i) “Traveler’s check” means an instrument that (i) is payable on demand, (ii) is drawn on or payable at or through a bank, (iii) is designated by the term “traveler’s check” or by a substantially similar term, and (iv) requires, as a condition to payment, a countersignature by a person whose specimen signature appears on the instrument.
- (j) “Certificate of deposit” means an instrument containing an acknowledgment by a bank that a sum of money has been received by the bank and a promise by the bank to repay the sum of money. A certificate of deposit is a note of the bank.

§ 3–105. Issue of Instrument.

- (a) “Issue” means the first delivery of an instrument by the maker or drawer, whether to a holder or nonholder, for the purpose of giving rights on the instrument to any person.

- (b) An unissued instrument, or an unissued incomplete instrument that is completed, is binding on the maker or drawer, but nonissuance is a defense. An instrument that is conditionally issued or is issued for a special purpose is binding on the maker or drawer, but failure of the condition or special purpose to be fulfilled is a defense.
- (c) “Issuer” applies to issued and unissued instruments and means a maker or drawer of an instrument.

§ 3–106. Unconditional Promise or Order.

- (a) Except as provided in this section, for the purposes of Section 3-104(a), a promise or order is unconditional unless it states (i) an express condition to payment, (ii) that the promise or order is subject to or governed by another record, or (iii) that rights or obligations with respect to the promise or order are stated in another record. A reference to another record does not of itself make the promise or order conditional.
- (b) A promise or order is not made conditional (i) by a reference to another record for a statement of rights with respect to collateral, prepayment, or acceleration, or (ii) because payment is limited to resort to a particular fund or source.
- (c) If a promise or order requires, as a condition to payment, a countersignature by a person whose specimen signature appears on the promise or order, the condition does not make the promise or order conditional for the purposes of Section 3-104(a). If the person whose specimen signature appears on an instrument fails to countersign the instrument, the failure to countersign is a defense to the obligation of the issuer, but the failure does not prevent a transferee of the instrument from becoming a holder of the instrument.
- (d) If a promise or order at the time it is issued or first comes into possession of a holder contains a statement, required by applicable statutory or administrative law, to the effect that the rights of a holder or transferee are subject to claims or defenses that the issuer could assert against the original payee, the promise or order is not thereby made conditional for the purposes of Section 3-104(a); but if the promise or order is an instrument, there cannot be a holder in due course of the instrument.

§ 3–107. Instrument Payable in Foreign Money. Unless the instrument otherwise provides, an instrument that states the amount payable in foreign money may be

paid in the foreign money or in an equivalent amount in dollars calculated by using the current bank offered spot rate at the place of payment for the purchase of dollars on the day on which the instrument is paid.

§ 3–108. Payable on Demand or at Definite Time.

- (a) A promise or order is “payable on demand” if it (i) states that it is payable on demand or at sight, or otherwise indicates that it is payable at the will of the holder, or (ii) does not state any time of payment.
- (b) A promise or order is “payable at a definite time” if it is payable on elapse of a definite period of time after sight or acceptance or at a fixed date or dates or at a time or times readily ascertainable at the time the promise or order is issued, subject to rights of (i) prepayment, (ii) acceleration, (iii) extension at the option of the holder, or (iv) extension to a further definite time at the option of the maker or acceptor or automatically upon or after a specified act or event.
- (c) If an instrument, payable at a fixed date, is also payable upon demand made before the fixed date, the instrument is payable on demand until the fixed date and, if demand for payment is not made before that date, becomes payable at a definite time on the fixed date.

§ 3–109. Payable to Bearer or to Order.

- (a) A promise or order is payable to bearer if it:
 - (1) states that it is payable to bearer or to the order of bearer or otherwise indicates that the person in possession of the promise or order is entitled to payment;
 - (2) does not state a payee; or
 - (3) states that it is payable to or to the order of cash or otherwise indicates that it is not payable to an identified person.
- (b) A promise or order that is not payable to bearer is payable to order if it is payable (i) to the order of an identified person or (ii) to an identified person or order. A promise or order that is payable to order is payable to the identified person.
- (c) An instrument payable to bearer may become payable to an identified person if it is specially indorsed pursuant to Section 3–205(a). An instrument payable to an identified person may become payable to bearer if it is indorsed in blank pursuant to Section 3–205(b).

§ 3–110. Identification of Person to Whom Instrument ID Payable.

- (a) The person to whom an instrument is initially payable is determined by the intent of the person, whether or not authorized, signing as, or in the name or behalf of, the issuer of the instrument. The instrument is payable to the person intended by the signer even if that person is identified in the instrument by a name or other identification that is not that of the intended person. If more than one person signs in the name or behalf of the issuer of an instrument and all the signers do not intend the same person as payee, the instrument is payable to any person intended by one or more of the signers.
- (b) If the signature of the issuer of an instrument is made by automated means, such as a check writing machine, the payee of the instrument is determined by the intent of the person who supplied the name or identification of the payee, whether or not authorized to do so.
- (c) A person to whom an instrument is payable may be identified in any way, including by name, identifying number, office, or account number. For the purpose of determining the holder of an instrument, the following rules apply:
 - (1) If an instrument is payable to an account and the account is identified only by number, the instrument is payable to the person to whom the account is payable. If an instrument is payable to an account identified by number and by the name of a person, the instrument is payable to the named person, whether or not that person is the owner of the account identified by number.
 - (2) If an instrument is payable to:
 - (i) a trust, an estate, or a person described as trustee or representative of a trust or estate, the instrument is payable to the trustee, the representative, or a successor of either, whether or not the beneficiary or estate is also named;
 - (ii) a person described as agent or similar representative of a named or identified person, the instrument is payable to the represented person, the representative, or a successor of the representative;
 - (iii) a fund or organization that is not a legal entity, the instrument is payable to a representative of the members of the fund or organization; or

- (iv) an office or to a person described as holding an office, the instrument is payable to the named person, the incumbent of the office, or a successor to the incumbent.
- (d) If an instrument is payable to two or more persons alternatively, it is payable to any of them and may be negotiated, discharged, or enforced by any or all of them in possession of the instrument. If an instrument is payable to two or more persons not alternatively, it is payable to all of them and may be negotiated, discharged, or enforced only by all of them. If an instrument payable to two or more persons is ambiguous as to whether it is payable to the persons alternatively, the instrument is payable to the persons alternatively.

§ 3–111. Place of Payment. Except as otherwise provided for items in Article 4, an instrument is payable at the place of payment stated in the instrument. If no place of payment is stated, an instrument is payable at the address of the drawee or maker stated in the instrument. If no address is stated, the place of payment is the place of business of the drawee or maker. If a drawee or maker has more than one place of business, the place of payment is any place of business of the drawee or maker chosen by the person entitled to enforce the instrument. If the drawee or maker has no place of business, the place of payment is the residence of the drawee or maker.

§ 3–112. Interest.

- (a) Unless otherwise provided in the instrument, (i) an instrument is not payable with interest, and (ii) interest on an interest bearing instrument is payable from the date of the instrument.
- (b) Interest may be stated in an instrument as a fixed or variable amount of money or it may be expressed as a fixed or variable rate or rates. The amount or rate of interest may be stated or described in the instrument in any manner and may require reference to information not contained in the instrument. If an instrument provides for interest, but the amount of interest payable cannot be ascertained from the description, interest is payable at the judgment rate in effect at the place of payment of the instrument and at the time interest first accrues.

§ 3–113. Date of Instrument.

- (a) An instrument may be antedated or postdated. The date stated determines the time of payment if the

instrument is payable at a fixed period after date. Except as provided in Section 4–401(c), an instrument payable on demand is not payable before the date of the instrument.

- (b) If an instrument is undated, its date is the date of its issue or, in the case of an unissued instrument, the date it first comes into possession of a holder.

§ 3–114. Contradictory Terms of Instrument. If an instrument contains contradictory terms, typewritten terms prevail over printed terms, handwritten terms prevail over both, and words prevail over numbers.

§ 3–115. Incomplete Instrument.

- (a) “Incomplete instrument” means a signed writing, whether or not issued by the signer, the contents of which show at the time of signing that it is incomplete but that the signer intended it to be completed by the addition of words or numbers.
- (b) Subject to subsection (c), if an incomplete instrument is an instrument under Section 3–104, it may be enforced according to its terms if it is not completed, or according to its terms as augmented by completion. If an incomplete instrument is not an instrument under Section 3–104, but, after completion, the requirements of Section 3–104 are met, the instrument may be enforced according to its terms as augmented by completion.
- (c) If words or numbers are added to an incomplete instrument without authority of the signer, there is an alteration of the incomplete instrument under Section 3–407.
- (d) The burden of establishing that words or numbers were added to an incomplete instrument without authority of the signer is on the person asserting the lack of authority.

§ 3–116. Joint and Several Liability; Contribution.

- (a) Except as otherwise provided in the instrument, two or more persons who have the same liability on an instrument as makers, drawers, acceptors, indorsers who indorse as joint payees, or anomalous indorsers are jointly and severally liable in the capacity in which they sign.
- (b) Except as provided in Section 3–419(f) or by agreement of the affected parties, a party having joint and several liability who pays the instrument is entitled to receive from any party having the same joint and several liability contribution in accordance with applicable law.

§ 3–117. Other Agreements Affecting Instrument. Subject to applicable law regarding exclusion of proof of contemporaneous or previous agreements, the obligation of a party to an instrument to pay the instrument may be modified, supplemented, or nullified by a separate agreement of the obligor and a person entitled to enforce the instrument, if the instrument is issued or the obligation is incurred in reliance on the agreement or as part of the same transaction giving rise to the agreement. To the extent an obligation is modified, supplemented, or nullified by an agreement under this section, the agreement is a defense to the obligation.

§ 3–118. Statute of Limitations.

- (a) Except as provided in subsection (e), an action to enforce the obligation of a party to pay a note payable at a definite time must be commenced within six years after the due date or dates stated in the note or, if a due date is accelerated, within six years after the accelerated due date.
- (b) Except as provided in subsection (d) or (e), if demand for payment is made to the maker of a note payable on demand, an action to enforce the obligation of a party to pay the note must be commenced within six years after the demand. If no demand for payment is made to the maker, an action to enforce the note is barred if neither principal nor interest on the note has been paid for a continuous period of 10 years.
- (c) Except as provided in subsection (d), an action to enforce the obligation of a party to an unaccepted draft to pay the draft must be commenced within three years after dishonor of the draft or 10 years after the date of the draft, whichever period expires first.
- (d) An action to enforce the obligation of the acceptor of a certified check or the issuer of a teller’s check, cashier’s check, or traveler’s check must be commenced within three years after demand for payment is made to the acceptor or issuer, as the case may be.
- (e) An action to enforce the obligation of a party to a certificate of deposit to pay the instrument must be commenced within six years after demand for payment is made to the maker, but if the instrument states a due date and the maker is not required to pay before that date, the six-year period begins when a demand for payment is in effect and the due date has passed.
- (f) An action to enforce the obligation of a party to pay an accepted draft, other than a certified check, must be commenced (i) within six years after the due date or dates stated in the draft or acceptance if the obligation of the acceptor is payable at a definite time, or

- (ii) within six years after the date of the acceptance if the obligation of the acceptor is payable on demand.
- (g) Unless governed by other law regarding claims for indemnity or contribution, an action (i) for conversion of an instrument, for money had and received, or like action based on conversion, (ii) for breach of warranty, or (iii) to enforce an obligation, duty, or right arising under this Article and not governed by this section must be commenced within three years after the [cause of action] accrues.

§ 3–119. Notice of Right to Defend Action. In an action for breach of an obligation for which a third person is answerable over pursuant to this Article or Article 4, the defendant may give the third person notice of the litigation in a record, and the person notified may then give similar notice to any other person who is answerable over. If the notice states (i) that the person notified may come in and defend and (ii) that failure to do so will bind the person notified in an action later brought by the person giving the notice as to any determination of fact common to the two litigations, the person notified is so bound unless after reasonable receipt of the notice the person notified does come in and defend.

Part 2: Negotiation, Transfer, and Indorsement

§ 3–201. Negotiation.

- (a) “Negotiation” means a transfer of possession, whether voluntary or involuntary, of an instrument by a person other than the issuer to a person who thereby becomes its holder.
- (b) Except for negotiation by a remitter, if an instrument is payable to an identified person, negotiation requires transfer of possession of the instrument and its indorsement by the holder. If an instrument is payable to bearer, it may be negotiated by transfer of possession alone.

§ 3–202. Negotiation Subject to Rescission.

- (a) Negotiation is effective even if obtained (i) from an infant, a corporation exceeding its powers, or a person without capacity, (ii) by fraud, duress, or mistake, or (iii) in breach of duty or as part of an illegal transaction.
- (b) To the extent permitted by other law, negotiation may be rescinded or may be subject to other remedies, but those remedies may not be asserted against a subsequent holder in due course or a person paying the

instrument in good faith and without knowledge of facts that are a basis for rescission or other remedy.

§ 3–203. Transfer of Instrument; Rights Acquired by Transfer.

- (a) An instrument is transferred when it is delivered by a person other than its issuer for the purpose of giving to the person receiving delivery the right to enforce the instrument.
- (b) Transfer of an instrument, whether or not the transfer is a negotiation, vests in the transferee any right of the transferor to enforce the instrument, including any right as a holder in due course, but the transferee cannot acquire rights of a holder in due course by a transfer, directly or indirectly, from a holder in due course if the transferee engaged in fraud or illegality affecting the instrument.
- (c) Unless otherwise agreed, if an instrument is transferred for value and the transferee does not become a holder because of lack of indorsement by the transferor, the transferee has a specifically enforceable right to the unqualified indorsement of the transferor, but negotiation of the instrument does not occur until the indorsement is made.
- (d) If a transferor purports to transfer less than the entire instrument, negotiation of the instrument does not occur. The transferee obtains no rights under this Article and has only the rights of a partial assignee.

§ 3–204. Indorsement.

- (a) “Indorsement” means a signature, other than that of a signer as maker, drawer, or acceptor, that alone or accompanied by other words is made on an instrument for the purpose of (i) negotiating the instrument, (ii) restricting payment of the instrument, or (iii) incurring indorser’s liability on the instrument, but regardless of the intent of the signer, a signature and its accompanying words is an indorsement unless the accompanying words, terms of the instrument, place of the signature, or other circumstances unambiguously indicate that the signature was made for a purpose other than indorsement. For the purpose of determining whether a signature is made on an instrument, a paper affixed to the instrument is a part of the instrument.
- (b) “Indorser” means a person who makes an indorsement.
- (c) For the purpose of determining whether the transferee of an instrument is a holder, an indorsement that transfers a security interest in the instrument is effective as an unqualified indorsement of the instrument.

- (d) If an instrument is payable to a holder under a name that is not the name of the holder, indorsement may be made by the holder in the name stated in the instrument or in the holder's name or both, but signature in both names may be required by a person paying or taking the instrument for value or collection.

§ 3–205. Special Indorsement; Blank Indorsement; Anomalous Indorsement.

- (a) If an indorsement is made by the holder of an instrument, whether payable to an identified person or payable to bearer, and the indorsement identifies a person to whom it makes the instrument payable, it is a "special indorsement." When specially indorsed, an instrument becomes payable to the identified person and may be negotiated only by the indorsement of that person. The principles stated in Section 3–110 apply to special indorsements.
- (b) If an indorsement is made by the holder of an instrument and it is not a special indorsement, it is a "blank indorsement." When indorsed in blank, an instrument becomes payable to bearer and may be negotiated by transfer of possession alone until specially indorsed.
- (c) The holder may convert a blank indorsement that consists only of a signature into a special indorsement by writing, above the signature of the indorser, words identifying the person to whom the instrument is made payable.
- (d) "Anomalous indorsement" means an indorsement made by a person who is not the holder of the instrument. An anomalous indorsement does not affect the manner in which the instrument may be negotiated.

§ 3–206. Restrictive Indorsement.

- (a) An indorsement limiting payment to a particular person or otherwise prohibiting further transfer or negotiation of the instrument is not effective to prevent further transfer or negotiation of the instrument.
- (b) An indorsement stating a condition to the right of the indorsee to receive payment does not affect the right of the indorsee to enforce the instrument. A person paying the instrument or taking it for value or collection may disregard the condition, and the rights and liabilities of that person are not affected by whether the condition has been fulfilled.
- (c) If an instrument bears an indorsement (i) described in Section 4–201(b), or (ii) in blank or to a particular bank using the words "for deposit," "for collection," or other words indicating a purpose of having the

instrument collected by a bank for the indorser or for a particular account, the following rules apply:

- (1) A person, other than a bank, who purchases the instrument when so indorsed converts the instrument unless the amount paid for the instrument is received by the indorser or applied consistently with the indorsement.
 - (2) A depository bank that purchases the instrument or takes it for collection when so indorsed converts the instrument unless the amount paid by the bank with respect to the instrument is received by the indorser or applied consistently with the indorsement.
 - (3) A payor bank that is also the depository bank or that takes the instrument for immediate payment over the counter from a person other than a collecting bank converts the instrument unless the proceeds of the instrument are received by the indorser or applied consistently with the indorsement.
 - (4) Except as otherwise provided in paragraph (3), a payor bank or intermediary bank may disregard the indorsement and is not liable if the proceeds of the instrument are not received by the indorser or applied consistently with the indorsement.
- (d) Except for an indorsement covered by subsection (c), if an instrument bears an indorsement using words to the effect that payment is to be made to the indorsee as agent, trustee, or other fiduciary for the benefit of the indorser or another person, the following rules apply:
- (1) Unless there is notice of breach of fiduciary duty as provided in Section 3–307, a person who purchases the instrument from the indorsee or takes the instrument from the indorsee for collection or payment may pay the proceeds of payment or the value given for the instrument to the indorsee without regard to whether the indorsee violates a fiduciary duty to the indorser.
 - (2) A subsequent transferee of the instrument or person who pays the instrument is neither given notice nor otherwise affected by the restriction in the indorsement unless the transferee or payor knows that the fiduciary dealt with the instrument or its proceeds in breach of fiduciary duty.
- (e) The presence on an instrument of an indorsement to which this section applies does not prevent a purchaser of the instrument from becoming a holder in due course of the instrument unless the purchaser is

a converter under subsection (c) or has notice or knowledge of breach of fiduciary duty as stated in subsection (d).

- (f) In an action to enforce the obligation of a party to pay the instrument, the obligor has a defense if payment would violate an indorsement to which this section applies and the payment is not permitted by this section.

§ 3–207. Reacquisition. Reacquisition of an instrument occurs if it is transferred to a former holder, by negotiation or otherwise. A former holder who reacquires the instrument may cancel indorsements made after the reacquirer first became a holder of the instrument. If the cancellation causes the instrument to be payable to the reacquirer or to bearer, the reacquirer may negotiate the instrument. An indorser whose indorsement is canceled is discharged, and the discharge is effective against any subsequent holder.

Part 3: Enforcement of Instruments

§ 3–301. Person Entitled to Enforce Instrument.

“Person entitled to enforce” an instrument means (i) the holder of the instrument, (ii) a nonholder in possession of the instrument who has the rights of a holder, or (iii) a person not in possession of the instrument who is entitled to enforce the instrument pursuant to Section 3–309 or 3–418(d). A person may be a person entitled to enforce the instrument even though the person is not the owner of the instrument or is in wrongful possession of the instrument.

§ 3–302. Holder in Due Course.

- (a) Subject to subsection (c) and Section 3–106(d), “holder in due course” means the holder of an instrument if:
- (1) the instrument when issued or negotiated to the holder does not bear such apparent evidence of forgery or alteration or is not otherwise so irregular or incomplete as to call into question its authenticity; and
 - (2) the holder took the instrument (i) for value, (ii) in good faith, (iii) without notice that the instrument is overdue or has been dishonored or that there is an uncured default with respect to payment of another instrument issued as part of the same series, (iv) without notice that the instrument contains an unauthorized signature or has

been altered, (v) without notice of any claim to the instrument described in Section 3–306, and (vi) without notice that any party has a defense or claim in recoupment described in Section 3–305(a).

- (b) Notice of discharge of a party, other than discharge in an insolvency proceeding, is not notice of a defense under subsection (a), but discharge is effective against a person who became a holder in due course with notice of the discharge. Public filing or recording of a document does not of itself constitute notice of a defense, claim in recoupment, or claim to the instrument.
- (c) Except to the extent a transferor or predecessor in interest has rights as a holder in due course, a person does not acquire rights of a holder in due course of an instrument taken (i) by legal process or by purchase in an execution, bankruptcy, or creditor’s sale or similar proceeding, (ii) by purchase as part of a bulk transaction not in ordinary course of business of the transferor, or (iii) as the successor in interest to an estate or other organization.
- (d) If, under Section 3–303(a)(1), the promise of performance that is the consideration for an instrument has been partially performed, the holder may assert rights as a holder in due course of the instrument only to the fraction of the amount payable under the instrument equal to the value of the partial performance divided by the value of the promised performance.
- (e) If (i) the person entitled to enforce an instrument has only a security interest in the instrument and (ii) the person obliged to pay the instrument has a defense, claim in recoupment, or claim to the instrument that may be asserted against the person who granted the security interest, the person entitled to enforce the instrument may assert rights as a holder in due course only to an amount payable under the instrument which, at the time of enforcement of the instrument, does not exceed the amount of the unpaid obligation secured.
- (f) To be effective, notice must be received at a time and in a manner that gives a reasonable opportunity to act on it.
- (g) This section is subject to any law limiting status as a holder in due course in particular classes of transactions.

§ 3–303. Value and Consideration.

- (a) An instrument is issued or transferred for value if:
- (1) the instrument is issued or transferred for a promise of performance, to the extent the promise has been performed;
 - (2) the transferee acquires a security interest or other lien in the instrument other than a lien obtained by judicial proceeding;
 - (3) the instrument is issued or transferred as payment of, or as security for, an antecedent claim against any person, whether or not the claim is due;
 - (4) the instrument is issued or transferred in exchange for a negotiable instrument; or
 - (5) the instrument is issued or transferred in exchange for the incurring of an irrevocable obligation to a third party by the person taking the instrument.
- (b) “Consideration” means any consideration sufficient to support a simple contract. The drawer or maker of an instrument has a defense if the instrument is issued without consideration. If an instrument is issued for a promise of performance, the issuer has a defense to the extent performance of the promise is due and the promise has not been performed. If an instrument is issued for value as stated in subsection (a), the instrument is also issued for consideration.

§ 3–304. Overdue Instrument.

- (a) An instrument payable on demand becomes overdue at the earliest of the following times:
- (1) on the day after the day demand for payment is duly made;
 - (2) if the instrument is a check, 90 days after its date; or
 - (3) if the instrument is not a check, when the instrument has been outstanding for a period of time after its date which is unreasonably long under the circumstances of the particular case in light of the nature of the instrument and usage of the trade.
- (b) With respect to an instrument payable at a definite time the following rules apply:
- (1) If the principal is payable in installments and a due date has not been accelerated, the instrument becomes overdue upon default under the instrument for nonpayment of an installment, and the instrument remains overdue until the default is cured.
 - (2) If the principal is not payable in installments and the due date has not been accelerated, the instru-

ment becomes overdue on the day after the due date.

- (3) If a due date with respect to principal has been accelerated, the instrument becomes overdue on the day after the accelerated due date.
- (c) Unless the due date of principal has been accelerated, an instrument does not become overdue if there is default in payment of interest but no default in payment of principal.

§ 3–305. Defenses and Claims in Recoupment; Claims in Consumer Transactions.

- (a) Except as otherwise provided in this section, the right to enforce the obligation of a party to pay an instrument is subject to the following:
- (1) a defense of the obligor based on (i) infancy of the obligor to the extent it is a defense to a simple contract, (ii) duress, lack of legal capacity, or illegality of the transaction which, under other law, nullifies the obligation of the obligor, (iii) fraud that induced the obligor to sign the instrument with neither knowledge nor reasonable opportunity to learn of its character or its essential terms, or (iv) discharge of the obligor in insolvency proceedings;
 - (2) a defense of the obligor stated in another section of this Article or a defense of the obligor that would be available if the person entitled to enforce the instrument were enforcing a right to payment under a simple contract; and
 - (3) a claim in recoupment of the obligor against the original payee of the instrument if the claim arose from the transaction that gave rise to the instrument; but the claim of the obligor may be asserted against a transferee of the instrument only to reduce the amount owing on the instrument at the time the action is brought.
- (b) The right of a holder in due course to enforce the obligation of a party to pay the instrument is subject to defenses of the obligor stated in subsection (a)(1), but is not subject to defenses of the obligor stated in subsection (a)(2) or claims in recoupment stated in subsection (a)(3) against a person other than the holder.
- (c) Except as stated in subsection (d), in an action to enforce the obligation of a party to pay the instrument, the obligor may not assert against the person entitled to enforce the instrument a defense, claim in recoupment, or claim to the instrument (Section 3-306) of another person, but the other person’s claim to the instrument may be asserted by the obligor if the other

person is joined in the action and personally asserts the claim against the person entitled to enforce the instrument. An obligor is not obliged to pay the instrument if the person seeking enforcement of the instrument does not have rights of a holder in due course and the obligor proves that the instrument is a lost or stolen instrument.

- (d) In an action to enforce the obligation of an accommodation party to pay an instrument, the accommodation party may assert against the person entitled to enforce the instrument any defense or claim in recoupment under subsection (a) that the accommodated party could assert against the person entitled to enforce the instrument, except the defenses of discharge in insolvency proceedings, infancy, and lack of legal capacity.
- (e) In a consumer transaction, if law other than this article requires that an instrument include a statement to the effect that the rights of a holder or transferee are subject to a claim or defense that the issuer could assert against the original payee, and the instrument does not include such a statement:
 - (1) the instrument has the same effect as if the instrument included such a statement;
 - (2) the issuer may assert against the holder or transferee all claims and defenses that would have been available if the instrument included such a statement; and
 - (3) the extent to which claims may be asserted against the holder or transferee is determined as if the instrument included such a statement.
- (f) This section is subject to law other than this article that establishes a different rule for consumer transactions.

Legislative Note: If a consumer protection law in this state addresses the same issue as subsection (g), it should be examined for consistency with subsection (g) and, if inconsistent, should be amended.

§ 3–306. Claims to an Instrument. A person taking an instrument, other than a person having rights of a holder in due course, is subject to a claim of a property or possessory right in the instrument or its proceeds, including a claim to rescind a negotiation and to recover the instrument or its proceeds. A person having rights of a holder in due course takes free of the claim to the instrument.

§ 3–307. Notice of Breach of Fiduciary Duty.

- (a) In this section:
 - (1) “Fiduciary” means an agent, trustee, partner, corporate officer or director, or other represen-

tative owing a fiduciary duty with respect to an instrument.

- (2) “Represented person” means the principal, beneficiary, partnership, corporation, or other person to whom the duty stated in paragraph (1) is owed.
- (b) If (i) an instrument is taken from a fiduciary for payment or collection or for value, (ii) the taker has knowledge of the fiduciary status of the fiduciary, and (iii) the represented person makes a claim to the instrument or its proceeds on the basis that the transaction of the fiduciary is a breach of fiduciary duty, the following rules apply:
 - (1) Notice of breach of fiduciary duty by the fiduciary is notice of the claim of the represented person.
 - (2) In the case of an instrument payable to the represented person or the fiduciary as such, the taker has notice of the breach of fiduciary duty if the instrument is (i) taken in payment of or as security for a debt known by the taker to be the personal debt of the fiduciary, (ii) taken in a transaction known by the taker to be for the personal benefit of the fiduciary, or (iii) deposited to an account other than an account of the fiduciary, as such, or an account of the represented person.
 - (3) If an instrument is issued by the represented person or the fiduciary as such, and made payable to the fiduciary personally, the taker does not have notice of the breach of fiduciary duty unless the taker knows of the breach of fiduciary duty.
 - (4) If an instrument is issued by the represented person or the fiduciary as such, to the taker as payee, the taker has notice of the breach of fiduciary duty if the instrument is (i) taken in payment of or as security for a debt known by the taker to be the personal debt of the fiduciary, (ii) taken in a transaction known by the taker to be for the personal benefit of the fiduciary, or (iii) deposited to an account other than an account of the fiduciary, as such, or an account of the represented person.

§ 3–308. Proof of Signatures and Status as Holder in Due Course.

- (a) In an action with respect to an instrument, the authenticity of, and authority to make, each signature on the instrument is admitted unless specifically denied in the pleadings. If the validity of a signature is

denied in the pleadings, the burden of establishing validity is on the person claiming validity, but the signature is presumed to be authentic and authorized unless the action is to enforce the liability of the purported signer and the signer is dead or incompetent at the time of trial of the issue of validity of the signature. If an action to enforce the instrument is brought against a person as the undisclosed principal of a person who signed the instrument as a party to the instrument, the plaintiff has the burden of establishing that the defendant is liable on the instrument as a represented person under Section 3-402(a).

- (b) If the validity of signatures is admitted or proved and there is compliance with subsection (a), a plaintiff producing the instrument is entitled to payment if the plaintiff proves entitlement to enforce the instrument under Section 3-301, unless the defendant proves a defense or claim in recoupment. If a defense or claim in recoupment is proved, the right to payment of the plaintiff is subject to the defense or claim, except to the extent the plaintiff proves that the plaintiff has rights of a holder in due course which are not subject to the defense or claim.

§ 3-309. Enforcement of Lost, Destroyed, Or Stolen Instrument.

- (a) A person not in possession of an instrument is entitled to enforce the instrument if:
- (1) the person seeking to enforce the instrument:
 - (a) was entitled to enforce the instrument when loss of possession occurred; or
 - (b) has directly or indirectly acquired ownership of the instrument from a person who was entitled to enforce the instrument when loss of possession occurred;
 - (2) the loss of possession was not the result of a transfer by the person or a lawful seizure; and
 - (3) the person cannot reasonably obtain possession of the instrument because the instrument was destroyed, its whereabouts cannot be determined, or it is in the wrongful possession of an unknown person or a person that cannot be found or is not amenable to service of process.
- (b) A person seeking enforcement of an instrument under subsection (a) must prove the terms of the instrument and the person's right to enforce the instrument. If that proof is made, Section 3-308 applies to the case as if the person seeking enforcement had produced the instrument. The court may not enter judgment in favor of the person seeking enforcement unless it finds that the person required to pay the instrument is adequately protected against loss that

might occur by reason of a claim by another person to enforce the instrument. Adequate protection may be provided by any reasonable means.

§ 3-310. Effect of Instrument on Obligation for Which Taken.

- (a) Unless otherwise agreed, if a certified check, cashier's check, or teller's check is taken for an obligation, the obligation is discharged to the same extent discharge would result if an amount of money equal to the amount of the instrument were taken in payment of the obligation. Discharge of the obligation does not affect any liability that the obligor may have as an indorser of the instrument.
- (b) Unless otherwise agreed and except as provided in subsection (a), if a note or an uncertified check is taken for an obligation, the obligation is suspended to the same extent the obligation would be discharged if an amount of money equal to the amount of the instrument were taken, and the following rules apply:
- (1) In the case of an uncertified check, suspension of the obligation continues until dishonor of the check or until it is paid or certified. Payment or certification of the check results in discharge of the obligation to the extent of the amount of the check.
 - (2) In the case of a note, suspension of the obligation continues until dishonor of the note or until it is paid. Payment of the note results in discharge of the obligation to the extent of the payment.
 - (3) Except as provided in paragraph (4), if the check or note is dishonored and the obligee of the obligation for which the instrument was taken is the person entitled to enforce the instrument, the obligee may enforce either the instrument or the obligation. In the case of an instrument of a third person which is negotiated to the obligee by the obligor, discharge of the obligor on the instrument also discharges the obligation.
 - (4) If the person entitled to enforce the instrument taken for an obligation is a person other than the obligee, the obligee may not enforce the obligation to the extent the obligation is suspended. If the obligee is the person entitled to enforce the instrument but no longer has possession of it because it was lost, stolen, or destroyed, the obligation may not be enforced to the extent of the amount payable on the instrument, and to that extent the obligee's rights against the obligor are limited to enforcement of the instrument.

- (c) If an instrument other than one described in subsection (a) or (b) is taken for an obligation, the effect is (i) that stated in subsection (a) if the instrument is one on which a bank is liable as maker or acceptor, or (ii) that stated in subsection (b) in any other case.

§ 3-311. Accord and Satisfaction by Use of Instrument.

- (a) If a person against whom a claim is asserted proves that (i) that person in good faith tendered an instrument to the claimant as full satisfaction of the claim, (ii) the amount of the claim was unliquidated or subject to a bona fide dispute, and (iii) the claimant obtained payment of the instrument, the following subsections apply.
- (b) Unless subsection (c) applies, the claim is discharged if the person against whom the claim is asserted proves that the instrument or an accompanying written communication contained a conspicuous statement to the effect that the instrument was tendered as full satisfaction of the claim.
- (c) Subject to subsection (d), a claim is not discharged under subsection (b) if either of the following applies:
- (1) The claimant, if an organization, proves that (i) within a reasonable time before the tender, the claimant sent a conspicuous statement to the person against whom the claim is asserted that communications concerning disputed debts, including an instrument tendered as full satisfaction of a debt, are to be sent to a designated person, office, or place, and (ii) the instrument or accompanying communication was not received by that designated person, office, or place.
 - (2) The claimant, whether or not an organization, proves that within 90 days after payment of the instrument, the claimant tendered repayment of the amount of the instrument to the person against whom the claim is asserted. This paragraph does not apply if the claimant is an organization that sent a statement complying with paragraph (1)(i).
- (d) A claim is discharged if the person against whom the claim is asserted proves that within a reasonable time before collection of the instrument was initiated, the claimant, or an agent of the claimant having direct responsibility with respect to the disputed obligation, knew that the instrument was tendered in full satisfaction of the claim.

§ 3-312. Lost, Destroyed, or Stolen Cashier's Check, Teller's Check, or Certified Check.

- (a) In this section:
- (1) "Check" means a cashier's check, teller's check, or certified check.
 - (2) "Claimant" means a person who claims the right to receive the amount of a cashier's check, teller's check, or certified check that was lost, destroyed, or stolen.
 - (3) "Declaration of loss" means a statement, made in a record under penalty of perjury, to the effect that (i) the declarer lost possession of a check, (ii) the declarer is the drawer or payee of the check, in the case of a certified check, or the remitter or payee of the check, in the case of a cashier's check or teller's check, (iii) the loss of possession was not the result of a transfer by the declarer or a lawful seizure, and (iv) the declarer cannot reasonably obtain possession of the check because the check was destroyed, its whereabouts cannot be determined, or it is in the wrongful possession of an unknown person or a person that cannot be found or is not amenable to service of process.
 - (4) "Obligated bank" means the issuer of a cashier's check or teller's check or the acceptor of a certified check.
- (b) A claimant may assert a claim to the amount of a check by a communication to the obligated bank describing the check with reasonable certainty and requesting payment of the amount of the check, if (i) the claimant is the drawer or payee of a certified check or the remitter or payee of a cashier's check or teller's check, (ii) the communication contains or is accompanied by a declaration of loss of the claimant with respect to the check, (iii) the communication is received at a time and in a manner affording the bank a reasonable time to act on it before the check is paid, and (iv) the claimant provides reasonable identification if requested by the obligated bank. Delivery of a declaration of loss is a warranty of the truth of the statements made in the declaration. If a claim is asserted in compliance with this subsection, the following rules apply:
- (1) The claim becomes enforceable at the later of (i) the time the claim is asserted, or (ii) the 90th day following the date of the check, in the case of a cashier's check or teller's check, or the 90th day following the date of the acceptance, in the case of a certified check.

- (2) Until the claim becomes enforceable, it has no legal effect and the obligated bank may pay the check or, in the case of a teller's check, may permit the drawee to pay the check. Payment to a person entitled to enforce the check discharges all liability of the obligated bank with respect to the check.
- (3) If the claim becomes enforceable before the check is presented for payment, the obligated bank is not obliged to pay the check.
- (4) When the claim becomes enforceable, the obligated bank becomes obliged to pay the amount of the check to the claimant if payment of the check has not been made to a person entitled to enforce the check. Subject to Section 4-302(a)(1), payment to the claimant discharges all liability of the obligated bank with respect to the check.
- (c) If the obligated bank pays the amount of a check to a claimant under subsection (b)(4) and the check is presented for payment by a person having rights of a holder in due course, the claimant is obliged to (i) refund the payment to the obligated bank if the check is paid, or (ii) pay the amount of the check to the person having rights of a holder in due course if the check is dishonored.
- (d) If a claimant has the right to assert a claim under subsection (b) and is also a person entitled to enforce a cashier's check, teller's check, or certified check which is lost, destroyed, or stolen, the claimant may assert rights with respect to the check either under this section or Section 3-309.

Part 4: Liability of Parties

§ 3-401. Signature.

- (a) A person is not liable on an instrument unless (i) the person signed the instrument, or (ii) the person is represented by an agent or representative who signed the instrument and the signature is binding on the represented person under Section 3-402.
- (b) A signature may be made (i) manually or by means of a device or machine, and (ii) by the use of any name, including a trade or assumed name, or by a word, mark, or symbol executed or adopted by a person with present intention to authenticate a writing.

§ 3-402. Signature by Representative.

- (a) If a person acting, or purporting to act, as a representative signs an instrument by signing either the name of the represented person or the name of the signer,

the represented person is bound by the signature to the same extent the represented person would be bound if the signature were on a simple contract. If the represented person is bound, the signature of the representative is the "authorized signature of the represented person" and the represented person is liable on the instrument, whether or not identified in the instrument.

- (b) If a representative signs the name of the representative to an instrument and the signature is an authorized signature of the represented person, the following rules apply:
 - (1) If the form of the signature shows unambiguously that the signature is made on behalf of the represented person who is identified in the instrument, the representative is not liable on the instrument.
 - (2) Subject to subsection (c), if (i) the form of the signature does not show unambiguously that the signature is made in a representative capacity or (ii) the represented person is not identified in the instrument, the representative is liable on the instrument to a holder in due course that took the instrument without notice that the representative was not intended to be liable on the instrument. With respect to any other person, the representative is liable on the instrument unless the representative proves that the original parties did not intend the representative to be liable on the instrument.
- (c) If a representative signs the name of the representative as drawer of a check without indication of the representative status and the check is payable from an account of the represented person who is identified on the check, the signer is not liable on the check if the signature is an authorized signature of the represented person.

§ 3-403. Unauthorized Signature.

- (a) Unless otherwise provided in this Article or Article 4, an unauthorized signature is ineffective except as the signature of the unauthorized signer in favor of a person who in good faith pays the instrument or takes it for value. An unauthorized signature may be ratified for all purposes of this Article.
- (b) If the signature of more than one person is required to constitute the authorized signature of an organization, the signature of the organization is unauthorized if one of the required signatures is lacking.
- (c) The civil or criminal liability of a person who makes an unauthorized signature is not affected by any

provision of this Article which makes the unauthorized signature effective for the purposes of this Article.

§ 3–404. Impostors; Fictitious Payees.

- (a) If an impostor, by use of the mails or otherwise, induces the issuer of an instrument to issue the instrument to the impostor, or to a person acting in concert with the impostor, by impersonating the payee of the instrument or a person authorized to act for the payee, an indorsement of the instrument by any person in the name of the payee is effective as the indorsement of the payee in favor of a person who, in good faith, pays the instrument or takes it for value or for collection.
- (b) If (i) a person whose intent determines to whom an instrument is payable (Section 3–110(a) or (b)) does not intend the person identified as payee to have any interest in the instrument, or (ii) the person identified as payee of an instrument is a fictitious person, the following rules apply until the instrument is negotiated by special indorsement:
 - (1) Any person in possession of the instrument is its holder.
 - (2) An indorsement by any person in the name of the payee stated in the instrument is effective as the indorsement of the payee in favor of a person who, in good faith, pays the instrument or takes it for value or for collection.
- (c) Under subsection (a) or (b), an indorsement is made in the name of a payee if (i) it is made in a name substantially similar to that of the payee or (ii) the instrument, whether or not indorsed, is deposited in a depository bank to an account in a name substantially similar to that of the payee.
- (d) With respect to an instrument to which subsection (a) or (b) applies, if a person paying the instrument or taking it for value or for collection fails to exercise ordinary care in paying or taking the instrument and that failure substantially contributes to loss resulting from payment of the instrument, the person bearing the loss may recover from the person failing to exercise ordinary care to the extent the failure to exercise ordinary care contributed to the loss.

§ 3–405. Employer’s Responsibility for Fraudulent Indorsement by Employee.

- (a) In this section:
 - (1) “Employee” includes an independent contractor and employee of an independent contractor retained by the employer.

- (2) “Fraudulent indorsement” means (i) in the case of an instrument payable to the employer, a forged indorsement purporting to be that of the employer, or (ii) in the case of an instrument with respect to which the employer is the issuer, a forged indorsement purporting to be that of the person identified as payee.
- (3) “Responsibility” with respect to instruments means authority (i) to sign or indorse instruments on behalf of the employer, (ii) to process instruments received by the employer for book-keeping purposes, for deposit to an account, or for other disposition, (iii) to prepare or process instruments for issue in the name of the employer, (iv) to supply information determining the names or addresses of payees of instruments to be issued in the name of the employer, (v) to control the disposition of instruments to be issued in the name of the employer, or (vi) to act otherwise with respect to instruments in a responsible capacity. “Responsibility” does not include authority that merely allows an employee to have access to instruments or blank or incomplete instrument forms that are being stored or transported or are part of incoming or outgoing mail, or similar access.
- (b) For the purpose of determining the rights and liabilities of a person who, in good faith, pays an instrument or takes it for value or for collection, if an employer entrusted an employee with responsibility with respect to the instrument and the employee or a person acting in concert with the employee makes a fraudulent indorsement of the instrument, the indorsement is effective as the indorsement of the person to whom the instrument is payable if it is made in the name of that person. If the person paying the instrument or taking it for value or for collection fails to exercise ordinary care in paying or taking the instrument and that failure substantially contributes to loss resulting from the fraud, the person bearing the loss may recover from the person failing to exercise ordinary care to the extent the failure to exercise ordinary care contributed to the loss.
- (c) Under subsection (b), an indorsement is made in the name of the person to whom an instrument is payable if (i) it is made in a name substantially similar to the name of that person or (ii) the instrument, whether or not indorsed, is deposited in a depository bank to an account in a name substantially similar to the name of that person.

§ 3–406. Negligence Contributing to Forged Signature or Alteration of Instrument.

- (a) A person whose failure to exercise ordinary care substantially contributes to an alteration of an instrument or to the making of a forged signature on an instrument is precluded from asserting the alteration or the forgery against a person who, in good faith, pays the instrument or takes it for value or for collection.
- (b) Under subsection (a), if the person asserting the preclusion fails to exercise ordinary care in paying or taking the instrument and that failure substantially contributes to loss, the loss is allocated between the person precluded and the person asserting the preclusion according to the extent to which the failure of each to exercise ordinary care contributed to the loss.
- (c) Under subsection (a), the burden of proving failure to exercise ordinary care is on the person asserting the preclusion. Under subsection (b), the burden of proving failure to exercise ordinary care is on the person precluded.

§ 3–407. Alteration.

- (a) “Alteration” means (i) an unauthorized change in an instrument that purports to modify in any respect the obligation of a party, or (ii) an unauthorized addition of words or numbers or other change to an incomplete instrument relating to the obligation of a party.
- (b) Except as provided in subsection (c), an alteration fraudulently made discharges a party whose obligation is affected by the alteration unless that party assents or is precluded from asserting the alteration. No other alteration discharges a party, and the instrument may be enforced according to its original terms.
- (c) A payor bank or drawee paying a fraudulently altered instrument or a person taking it for value, in good faith and without notice of the alteration, may enforce rights with respect to the instrument (i) according to its original terms, or (ii) in the case of an incomplete instrument altered by unauthorized completion, according to its terms as completed.

§ 3–408. Drawee Not Liable on Unaccepted Draft. A check or other draft does not of itself operate as an assignment of funds in the hands of the drawee available for its payment, and the drawee is not liable on the instrument until the drawee accepts it.

§ 3–409. Acceptance of Draft; Certified Check.

- (a) “Acceptance” means the drawee’s signed agreement to pay a draft as presented. It must be written on the

draft and may consist of the drawee’s signature alone. Acceptance may be made at any time and becomes effective when notification pursuant to instructions is given or the accepted draft is delivered for the purpose of giving rights on the acceptance to any person.

- (b) A draft may be accepted although it has not been signed by the drawer, is otherwise incomplete, is overdue, or has been dishonored.
- (c) If a draft is payable at a fixed period after sight and the acceptor fails to date the acceptance, the holder may complete the acceptance by supplying a date in good faith.
- (d) “Certified check” means a check accepted by the bank on which it is drawn. Acceptance may be made as stated in subsection (a) or by a writing on the check which indicates that the check is certified. The drawee of a check has no obligation to certify the check, and refusal to certify is not dishonor of the check.

§ 3–410. Acceptance Varying Draft.

- (a) If the terms of a drawee’s acceptance vary from the terms of the draft as presented, the holder may refuse the acceptance and treat the draft as dishonored. In that case, the drawee may cancel the acceptance.
- (b) The terms of a draft are not varied by an acceptance to pay at a particular bank or place in the United States, unless the acceptance states that the draft is to be paid only at that bank or place.
- (c) If the holder assents to an acceptance varying the terms of a draft, the obligation of each drawer and indorser that does not expressly assent to the acceptance is discharged.

§ 3–411. Refusal to Pay Cashier’s Checks, Teller’s Checks, and Certified Checks.

- (a) In this section, “obligated bank” means the acceptor of a certified check or the issuer of a cashier’s check or teller’s check bought from the issuer.
- (b) If the obligated bank wrongfully (i) refuses to pay a cashier’s check or certified check, (ii) stops payment of a teller’s check, or (iii) refuses to pay a dishonored teller’s check, the person asserting the right to enforce the check is entitled to compensation for expenses and loss of interest resulting from the non-payment and may recover consequential damages if the obligated bank refuses to pay after receiving notice of particular circumstances giving rise to the damages.
- (c) Expenses or consequential damages under subsection (b) are not recoverable if the refusal of the

obligated bank to pay occurs because (i) the bank suspends payments, (ii) the obligated bank asserts a claim or defense of the bank that it has reasonable grounds to believe is available against the person entitled to enforce the instrument, (iii) the obligated bank has a reasonable doubt whether the person demanding payment is the person entitled to enforce the instrument, or (iv) payment is prohibited by law.

§ 3-412. Obligation of Issuer of Note or Cashier's Check. The issuer of a note or cashier's check or other draft drawn on the drawer is obliged to pay the instrument (i) according to its terms at the time it was issued or, if not issued, at the time it first came into possession of a holder, or (ii) if the issuer signed an incomplete instrument, according to its terms when completed, to the extent stated in Sections 3-115 and 3-407. The obligation is owed to a person entitled to enforce the instrument or to an indorser who paid the instrument under Section 3-415.

§ 3-413. Obligation of Acceptor.

- (a) The acceptor of a draft is obliged to pay the draft (i) according to its terms at the time it was accepted, even though the acceptance states that the draft is payable "as originally drawn" or equivalent terms, (ii) if the acceptance varies the terms of the draft, according to the terms of the draft as varied, or (iii) if the acceptance is of a draft that is an incomplete instrument, according to its terms when completed, to the extent stated in Sections 3-115 and 3-407. The obligation is owed to a person entitled to enforce the draft or to the drawer or an indorser who paid the draft under Section 3-414 or 3-415.
- (b) If the certification of a check or other acceptance of a draft states the amount certified or accepted, the obligation of the acceptor is that amount. If (i) the certification or acceptance does not state an amount, (ii) the amount of the instrument is subsequently raised, and (iii) the instrument is then negotiated to a holder in due course, the obligation of the acceptor is the amount of the instrument at the time it was taken by the holder in due course.

§ 3-414. Obligation of Drawer.

- (a) This section does not apply to cashier's checks or other drafts drawn on the drawer.
- (b) If an unaccepted draft is dishonored, the drawer is obliged to pay the draft (i) according to its terms at the time it was issued or, if not issued, at the time it first came into possession of a holder, or (ii) if the

drawer signed an incomplete instrument, according to its terms when completed, to the extent stated in Sections 3-115 and 3-407. The obligation is owed to a person entitled to enforce the draft or to an indorser who paid the draft under Section 3-415.

- (c) If a draft is accepted by a bank, the drawer is discharged, regardless of when or by whom acceptance was obtained.
- (d) If a draft is accepted and the acceptor is not a bank, the obligation of the drawer to pay the draft if the draft is dishonored by the acceptor is the same as the obligation of an indorser under Section 3-415(a) and (c).
- (e) If a draft states that it is drawn "without recourse" or otherwise disclaims liability of the drawer to pay the draft, the drawer is not liable under subsection (b) to pay the draft if the draft is not a check. A disclaimer of the liability stated in subsection (b) is not effective if the draft is a check.
- (f) If (i) a check is not presented for payment or given to a depository bank for collection within 30 days after its date, (ii) the drawee suspends payments after expiration of the 30-day period without paying the check, and (iii) because of the suspension of payments, the drawer is deprived of funds maintained with the drawee to cover payment of the check, the drawer to the extent deprived of funds may discharge its obligation to pay the check by assigning to the person entitled to enforce the check the rights of the drawer against the drawee with respect to the funds.

§ 3-415. Obligation of Indorser.

- (a) Subject to subsections (b), (c), (d), (e) and to Section 3-419(d), if an instrument is dishonored, an indorser is obliged to pay the amount due on the instrument (i) according to the terms of the instrument at the time it was indorsed, or (ii) if the indorser indorsed an incomplete instrument, according to its terms when completed, to the extent stated in Sections 3-115 and 3-407. The obligation of the indorser is owed to a person entitled to enforce the instrument or to a subsequent indorser who paid the instrument under this section.
- (b) If an indorsement states that it is made "without recourse" or otherwise disclaims liability of the indorser, the indorser is not liable under subsection (a) to pay the instrument.
- (c) If notice of dishonor of an instrument is required by Section 3-503 and notice of dishonor complying with that section is not given to an indorser, the

liability of the indorser under subsection (a) is discharged.

- (d) If a draft is accepted by a bank after an indorsement is made, the liability of the indorser under subsection (a) is discharged.
- (e) If an indorser of a check is liable under subsection (a) and the check is not presented for payment, or given to a depository bank for collection, within 30 days after the day the indorsement was made, the liability of the indorser under subsection (a) is discharged.

§ 3–416. Transfer Warranties.

- (a) A person who transfers an instrument for consideration warrants to the transferee and, if the transfer is by indorsement, to any subsequent transferee that:
 - (1) the warrantor is a person entitled to enforce the instrument;
 - (2) all signatures on the instrument are authentic and authorized;
 - (3) the instrument has not been altered;
 - (4) the instrument is not subject to a defense or claim in recoupment of any party which can be asserted against the warrantor;
 - (5) the warrantor has no knowledge of any insolvency proceeding commenced with respect to the maker or acceptor or, in the case of an unaccepted draft, the drawer; and
 - (6) with respect to a remotely-created consumer item, that the person on whose account the item is drawn authorized the issuance of the item in the amount for which the item is drawn.
- (b) A person to whom the warranties under subsection (a) are made and who took the instrument in good faith may recover from the warrantor as damages for breach of warranty an amount equal to the loss suffered as a result of the breach, but not more than the amount of the instrument plus expenses and loss of interest incurred as a result of the breach.
- (c) The warranties stated in subsection (a) cannot be disclaimed with respect to checks. Unless notice of a claim for breach of warranty is given to the warrantor within 30 days after the claimant has reason to know of the breach and the identity of the warrantor, the liability of the warrantor under subsection (b) is discharged to the extent of any loss caused by the delay in giving notice of the claim.
- (d) A [cause of action] for breach of warranty under this section accrues when the claimant has reason to know of the breach.

§ 3–417. Presentment Warranties.

- (a) If an unaccepted draft is presented to the drawee for payment or acceptance and the drawee pays or accepts the draft, (i) the person obtaining payment or acceptance, at the time of presentment, and (ii) a previous transferor of the draft, at the time of transfer, warrant to the drawee making payment or accepting the draft in good faith that:
 - (1) the warrantor is, or was, at the time the warrantor transferred the draft, a person entitled to enforce the draft or authorized to obtain payment or acceptance of the draft on behalf of a person entitled to enforce the draft;
 - (2) the draft has not been altered;
 - (3) the warrantor has no knowledge that the signature of the drawer of the draft is unauthorized; and
 - (4) with respect to any remotely-created consumer item, that the person on whose account the item is drawn authorized the issuance of the item in the amount for which the item is drawn.
- (b) A drawee making payment may recover from any warrantor damages for breach of warranty equal to the amount paid by the drawee less the amount the drawee received or is entitled to receive from the drawer because of the payment. In addition, the drawee is entitled to compensation for expenses and loss of interest resulting from the breach. The right of the drawee to recover damages under this subsection is not affected by any failure of the drawee to exercise ordinary care in making payment. If the drawee accepts the draft, breach of warranty is a defense to the obligation of the acceptor. If the acceptor makes payment with respect to the draft, the acceptor is entitled to recover from any warrantor for breach of warranty the amounts stated in this subsection.
- (c) If a drawee asserts a claim for breach of warranty under subsection (a) based on an unauthorized indorsement of the draft or an alteration of the draft, the warrantor may defend by proving that the indorsement is effective under Section 3–404 or 3–405 or the drawer is precluded under Section 3–406 or 4–406 from asserting against the drawee the unauthorized indorsement or alteration.
- (d) If (i) a dishonored draft is presented for payment to the drawer or an indorser or (ii) any other instrument is presented for payment to a party obliged to pay the instrument, and (iii) payment is received, the following rules apply:

- (1) The person obtaining payment and a prior transferor of the instrument warrant to the person making payment in good faith that the warrantor is, or was, at the time the warrantor transferred the instrument, a person entitled to enforce the instrument or authorized to obtain payment on behalf of a person entitled to enforce the instrument.
- (2) The person making payment may recover from any warrantor for breach of warranty an amount equal to the amount paid plus expenses and loss of interest resulting from the breach.
- (e) The warranties stated in subsections (a) and (d) cannot be disclaimed with respect to checks. Unless notice of a claim for breach of warranty is given to the warrantor within 30 days after the claimant has reason to know of the breach and the identity of the warrantor, the liability of the warrantor under subsection (b) or (d) is discharged to the extent of any loss caused by the delay in giving notice of the claim.
- (f) A [cause of action] for breach of warranty under this section accrues when the claimant has reason to know of the breach.

§ 3-418. Payment or Acceptance by Mistake.

- (a) Except as provided in subsection (c), if the drawee of a draft pays or accepts the draft and the drawee acted on the mistaken belief that (i) payment of the draft had not been stopped pursuant to Section 4-403 or (ii) the signature of the drawer of the draft was authorized, the drawee may recover the amount of the draft from the person to whom or for whose benefit payment was made or, in the case of acceptance, may revoke the acceptance. Rights of the drawee under this subsection are not affected by failure of the drawee to exercise ordinary care in paying or accepting the draft.
- (b) Except as provided in subsection (c), if an instrument has been paid or accepted by mistake and the case is not covered by subsection (a), the person paying or accepting may, to the extent permitted by the law governing mistake and restitution, (i) recover the payment from the person to whom or for whose benefit payment was made or (ii) in the case of acceptance, may revoke the acceptance.
- (c) The remedies provided by subsection (a) or (b) may not be asserted against a person who took the instrument in good faith and for value or who in good faith changed position in reliance on the payment or

acceptance. This subsection does not limit remedies provided by Section 3-417 or 4-407.

- (d) Notwithstanding Section 4-215, if an instrument is paid or accepted by mistake and the payor or acceptor recovers payment or revokes acceptance under subsection (a) or (b), the instrument is deemed not to have been paid or accepted and is treated as dishonored, and the person from whom payment is recovered has rights as a person entitled to enforce the dishonored instrument.

§ 3-419. Instruments Signed for Accommodation.

- (a) If an instrument is issued for value given for the benefit of a party to the instrument (“accommodated party”) and another party to the instrument (“accommodation party”) signs the instrument for the purpose of incurring liability on the instrument without being a direct beneficiary of the value given for the instrument, the instrument is signed by the accommodation party “for accommodation.”
- (b) An accommodation party may sign the instrument as maker, drawer, acceptor, or indorser and, subject to subsection (d), is obliged to pay the instrument in the capacity in which the accommodation party signs. The obligation of an accommodation party may be enforced notwithstanding any statute of frauds and whether or not the accommodation party receives consideration for the accommodation.
- (c) A person signing an instrument is presumed to be an accommodation party and there is notice that the instrument is signed for accommodation if the signature is an anomalous indorsement or is accompanied by words indicating that the signer is acting as surety or guarantor with respect to the obligation of another party to the instrument. Except as provided in Section 3-605, the obligation of an accommodation party to pay the instrument is not affected by the fact that the person enforcing the obligation had notice when the instrument was taken by that person that the accommodation party signed the instrument for accommodation.
- (d) If the signature of a party to an instrument is accompanied by words indicating unambiguously that the party is guaranteeing collection rather than payment of the obligation of another party to the instrument, the signer is obliged to pay the amount due on the instrument to a person entitled to enforce the instrument only if (i) execution of judgment against the other party has been returned unsatisfied, (ii) the

other party is insolvent or in an insolvency proceeding, (iii) the other party cannot be served with process, or (iv) it is otherwise apparent that payment cannot be obtained from the other party.

- (e) If the signature of a party to an instrument is accompanied by words indicating that the party guarantees payment or the signer signs the instrument as an accommodation party in some other manner that does not unambiguously indicate an intention to guarantee collection rather than payment, the signer is obliged to pay the amount due on the instrument to a person entitled to enforce the instrument in the same circumstances as the accommodated party would be obliged, without prior resort to the accommodated party by the person entitled to enforce the instrument.
- (f) An accommodation party who pays the instrument is entitled to reimbursement from the accommodated party and is entitled to enforce the instrument against the accommodated party. In proper circumstances, an accommodation party may obtain relief that requires the accommodated party to perform its obligations on the instrument. An accommodated party that pays the instrument has no right of recourse against, and is not entitled to contribution from, an accommodation party.

§ 3-420. Conversion of Instrument.

- (a) The law applicable to conversion of personal property applies to instruments. An instrument is also converted if it is taken by transfer, other than a negotiation, from a person not entitled to enforce the instrument or a bank makes or obtains payment with respect to the instrument for a person not entitled to enforce the instrument or receive payment. An action for conversion of an instrument may not be brought by (i) the issuer or acceptor of the instrument or (ii) a payee or indorsee who did not receive delivery of the instrument either directly or through delivery to an agent or a co-payee.
- (b) In an action under subsection (a), the measure of liability is presumed to be the amount payable on the instrument, but recovery may not exceed the amount of the plaintiff's interest in the instrument.
- (c) A representative, other than a depository bank, who has in good faith dealt with an instrument or its proceeds on behalf of one who was not the person entitled to enforce the instrument is not liable in conversion to that person beyond the amount of any proceeds that it has not paid out.

Part 5: Dishonor

§ 3-501. Presentment.

- (a) "Presentment" means a demand made by or on behalf of a person entitled to enforce an instrument (i) to pay the instrument made to the drawee or a party obliged to pay the instrument or, in the case of a note or accepted draft payable at a bank, to the bank, or (ii) to accept a draft made to the drawee.
- (b) The following rules are subject to Article 4, agreement of the parties, and clearing-house rules and the like:
 - (1) Presentment may be made at the place of payment of the instrument and must be made at the place of payment if the instrument is payable at a bank in the United States; may be made by any commercially reasonable means, including an oral, written, or electronic communication; is effective when the demand for payment or acceptance is received by the person to whom presentment is made; and is effective if made to any one of two or more makers, acceptors, drawees, or other payors.
 - (2) Upon demand of the person to whom presentment is made, the person making presentment must (i) exhibit the instrument, (ii) give reasonable identification and, if presentment is made on behalf of another person, reasonable evidence of authority to do so, and (iii) sign a receipt on the instrument for any payment made or surrender the instrument if full payment is made.
 - (3) Without dishonoring the instrument, the party to whom presentment is made may (i) return the instrument for lack of a necessary indorsement, or (ii) refuse payment or acceptance for failure of the presentment to comply with the terms of the instrument, an agreement of the parties, or other applicable law or rule.
 - (4) The party to whom presentment is made may treat presentment as occurring on the next business day after the day of presentment if the party to whom presentment is made has established a cut-off hour not earlier than 2 p.m. for the receipt and processing of instruments presented for payment or acceptance and presentment is made after the cut-off hour.

§ 3–502. Dishonor.

- (a) Dishonor of a note is governed by the following rules:
- (1) If the note is payable on demand, the note is dishonored if presentment is duly made to the maker and the note is not paid on the day of presentment.
 - (2) If the note is not payable on demand and is payable at or through a bank or the terms of the note require presentment, the note is dishonored if presentment is duly made and the note is not paid on the day it becomes payable or the day of presentment, whichever is later.
 - (3) If the note is not payable on demand and paragraph (2) does not apply, the note is dishonored if it is not paid on the day it becomes payable.
- (b) Dishonor of an unaccepted draft other than a documentary draft is governed by the following rules:
- (1) If a check is duly presented for payment to the payor bank otherwise than for immediate payment over the counter, the check is dishonored if the payor bank makes timely return of the check or sends timely notice of dishonor or nonpayment under Section 4–301 or 4–302, or becomes accountable for the amount of the check under Section 4–302.
 - (2) If a draft is payable on demand and paragraph (1) does not apply, the draft is dishonored if presentment for payment is duly made to the drawee and the draft is not paid on the day of presentment.
 - (3) If a draft is payable on a date stated in the draft, the draft is dishonored if (i) presentment for payment is duly made to the drawee and payment is not made on the day the draft becomes payable or the day of presentment, whichever is later, or (ii) presentment for acceptance is duly made before the day the draft becomes payable and the draft is not accepted on the day of presentment.
 - (4) If a draft is payable on elapse of a period of time after sight or acceptance, the draft is dishonored if presentment for acceptance is duly made and the draft is not accepted on the day of presentment.
- (c) Dishonor of an unaccepted documentary draft occurs according to the rules stated in subsection (b)(2), (3), and (4), except that payment or acceptance may be delayed without dishonor until no later than the close

of the third business day of the drawee following the day on which payment or acceptance is required by those paragraphs.

- (d) Dishonor of an accepted draft is governed by the following rules:
- (1) If the draft is payable on demand, the draft is dishonored if presentment for payment is duly made to the acceptor and the draft is not paid on the day of presentment.
 - (2) If the draft is not payable on demand, the draft is dishonored if presentment for payment is duly made to the acceptor and payment is not made on the day it becomes payable or the day of presentment, whichever is later.
- (e) In any case in which presentment is otherwise required for dishonor under this section and presentment is excused under Section 3–504, dishonor occurs without presentment if the instrument is not duly accepted or paid.
- (f) If a draft is dishonored because timely acceptance of the draft was not made and the person entitled to demand acceptance consents to a late acceptance, from the time of acceptance the draft is treated as never having been dishonored.

§ 3–503. Notice of Dishonor.

- (a) The obligation of an indorser stated in Section 3–415(a) and the obligation of a drawer stated in Section 3–414(d) may not be enforced unless (i) the indorser or drawer is given notice of dishonor of the instrument complying with this section or (ii) notice of dishonor is excused under Section 3–504(b).
- (b) Notice of dishonor may be given by any person; may be given by any commercially reasonable means, including an oral, written, or electronic communication; and is sufficient if it reasonably identifies the instrument and indicates that the instrument has been dishonored or has not been paid or accepted. Return of an instrument given to a bank for collection is sufficient notice of dishonor.
- (c) Subject to Section 3–504(c), with respect to an instrument taken for collection by a collecting bank, notice of dishonor must be given (i) by the bank before midnight of the next banking day following the banking day on which the bank receives notice of dishonor of the instrument, or (ii) by any other person within 30 days following the day on which the person receives notice of dishonor. With respect to any other instrument, notice of dishonor must be given within 30 days following the day on which dishonor occurs.

§ 3–504. Excused Presentment and Notice of Dishonor.

- (a) Presentment for payment or acceptance of an instrument is excused if (i) the person entitled to present the instrument cannot with reasonable diligence make presentment, (ii) the maker or acceptor has repudiated an obligation to pay the instrument or is dead or in insolvency proceedings, (iii) by the terms of the instrument presentment is not necessary to enforce the obligation of indorsers or the drawer, (iv) the drawer or indorser whose obligation is being enforced has waived presentment or otherwise has no reason to expect or right to require that the instrument be paid or accepted, or (v) the drawer instructed the drawee not to pay or accept the draft or the drawee was not obligated to the drawer to pay the draft.
- (b) Notice of dishonor is excused if (i) by the terms of the instrument notice of dishonor is not necessary to enforce the obligation of a party to pay the instrument, or (ii) the party whose obligation is being enforced waived notice of dishonor. A waiver of presentment is also a waiver of notice of dishonor.
- (c) Delay in giving notice of dishonor is excused if the delay was caused by circumstances beyond the control of the person giving the notice and the person giving the notice exercised reasonable diligence after the cause of the delay ceased to operate.

§ 3–505. Evidence of Dishonor.

- (a) The following are admissible as evidence and create a presumption of dishonor and of any notice of dishonor stated:
 - (1) a document regular in form as provided in subsection (b) which purports to be a protest;
 - (2) a purported stamp or writing of the drawee, payor bank, or presenting bank on or accompanying the instrument stating that acceptance or payment has been refused unless reasons for the refusal are stated and the reasons are not consistent with dishonor;
 - (3) a book or record of the drawee, payor bank, or collecting bank, kept in the usual course of business which shows dishonor, even if there is no evidence of who made the entry.
- (b) A protest is a certificate of dishonor made by a United States consul or vice consul, or a notary public or other person authorized to administer oaths by the law of the place where dishonor occurs. It may be made upon information satisfactory to that person. The protest must identify the instrument and certify

either that presentment has been made or, if not made, the reason why it was not made, and that the instrument has been dishonored by nonacceptance or nonpayment. The protest may also certify that notice of dishonor has been given to some or all parties.

Part 6: Discharge and Payment

§ 3–601. Discharge and Effect of Discharge.

- (a) The obligation of a party to pay the instrument is discharged as stated in this Article or by an act or agreement with the party which would discharge an obligation to pay money under a simple contract.
- (b) Discharge of the obligation of a party is not effective against a person acquiring rights of a holder in due course of the instrument without notice of the discharge.

§ 3–602. Payment.

- (a) Subject to subsection (e), an instrument is paid to the extent payment is made by or on behalf of a party obliged to pay the instrument, and to a person entitled to enforce the instrument.
- (b) Subject to subsection (e), a note is paid to the extent payment is made by or on behalf of a party obliged to pay the note to a person that formerly was entitled to enforce the note only if at the time of the payment the party obliged to pay has not received adequate notification that the note has been transferred and that payment is to be made to the transferee. A notification is adequate only if it is signed by the transferor or the transferee; reasonably identifies the transferred note; and provides an address at which payments subsequently are to be made. Upon request, a transferee shall seasonably furnish reasonable proof that the note has been transferred. Unless the transferee complies with the request, a payment to the person that formerly was entitled to enforce the note is effective for purposes of subsection (c) even if the party obliged to pay the note has received a notification under this paragraph.
- (c) Subject to subsection (e), to the extent of a payment under subsections (a) and (b), the obligation of the party obliged to pay the instrument is discharged even though payment is made with knowledge of a claim to the instrument under Section 3-306 by another person.
- (d) Subject to subsection (e), a transferee, or any party that has acquired rights in the instrument directly or indirectly from a transferee, including any such

party that has rights as a holder in due course, is deemed to have notice of any payment that is made under subsection (b) after the date that the note is transferred to the transferee but before the party obliged to pay the note receives adequate notification of the transfer.

- (e) The obligation of a party to pay the instrument is not discharged under subsections (a) through (d) if:
- (1) a claim to the instrument under Section 3-306 is enforceable against the party receiving payment and (i) payment is made with knowledge by the payor that payment is prohibited by injunction or similar process of a court of competent jurisdiction, or (ii) in the case of an instrument other than a cashier's check, teller's check, or certified check, the party making payment accepted, from the person having a claim to the instrument, indemnity against loss resulting from refusal to pay the person entitled to enforce the instrument; or
 - (2) the person making payment knows that the instrument is a stolen instrument and pays a person it knows is in wrongful possession of the instrument.
- (f) As used in this section, "signed," with respect to a record that is not a writing, includes the attachment to or logical association with the record of an electronic symbol, sound, or process with the present intent to adopt or accept the record.

§ 3-603. Tender of Payment.

- (a) If tender of payment of an obligation to pay an instrument is made to a person entitled to enforce the instrument, the effect of tender is governed by principles of law applicable to tender of payment under a simple contract.
- (b) If tender of payment of an obligation to pay an instrument is made to a person entitled to enforce the instrument and the tender is refused, there is discharge, to the extent of the amount of the tender, of the obligation of an indorser or accommodation party having a right of recourse with respect to the obligation to which the tender relates.
- (c) If tender of payment of an amount due on an instrument is made to a person entitled to enforce the instrument, the obligation of the obligor to pay interest after the due date on the amount tendered is discharged. If presentment is required with respect to an instrument and the obligor is able and ready to pay on the due date at every place of payment stated in the

instrument, the obligor is deemed to have made tender of payment on the due date to the person entitled to enforce the instrument.

§ 3-604. Discharge by Cancellation or Renunciation.

- (a) A person entitled to enforce an instrument, with or without consideration, may discharge the obligation of a party to pay the instrument (i) by an intentional voluntary act, such as surrender of the instrument to the party, destruction, mutilation, or cancellation of the instrument, cancellation or striking out of the party's signature, or the addition of words to the instrument indicating discharge, or (ii) by agreeing not to sue or otherwise renouncing rights against the party by a signed record.
- (b) Cancellation or striking out of an indorsement pursuant to subsection (a) does not affect the status and rights of a party derived from the indorsement.
- (c) In this section, "signed," with respect to a record that is not a writing, includes the attachment to or logical association with the record of an electronic symbol, sound, or process with the present intent to adopt or accept the record.

§ 3-605. Discharge of Secondary Obligors.

- (a) If a person entitled to enforce an instrument releases the obligation of a principal obligor in whole or in part, and another party to the instrument is a secondary obligor with respect to the obligation of that principal obligor, the following rules apply:
 - (1) Any obligations of the principal obligor to the secondary obligor with respect to any previous payment by the secondary obligor are not affected. Unless the terms of the release preserve the secondary obligor's recourse, the principal obligor is discharged, to the extent of the release, from any other duties to the secondary obligor under this article.
 - (2) Unless the terms of the release provide that the person entitled to enforce the instrument retains the right to enforce the instrument against the secondary obligor, the secondary obligor is discharged to the same extent as the principal obligor from any unperformed portion of its obligation on the instrument. If the instrument is a check and the obligation of the secondary obligor is based on an indorsement of the check, the secondary obligor is discharged without regard to the language or circumstances of the discharge or other release.

- (3) If the secondary obligor is not discharged under paragraph (2), the secondary obligor is discharged to the extent of the value of the consideration for the release, and to the extent that the release would otherwise cause the secondary obligor a loss.
- (b) If a person entitled to enforce an instrument grants a principal obligor an extension of the time at which one or more payments are due on the instrument and another party to the instrument is a secondary obligor with respect to the obligation of that principal obligor, the following rules apply:
- (1) Any obligations of the principal obligor to the secondary obligor with respect to any previous payment by the secondary obligor are not affected. Unless the terms of the extension preserve the secondary obligor's recourse, the extension correspondingly extends the time for performance of any other duties owed to the secondary obligor by the principal obligor under this article.
- (2) The secondary obligor is discharged to the extent that the extension would otherwise cause the secondary obligor a loss.
- (3) To the extent that the secondary obligor is not discharged under paragraph (2), the secondary obligor may perform its obligations to a person entitled to enforce the instrument as if the time for payment had not been extended or, unless the terms of the extension provide that the person entitled to enforce the instrument retains the right to enforce the instrument against the secondary obligor as if the time for payment had not been extended, treat the time for performance of its obligations as having been extended correspondingly.
- (c) If a person entitled to enforce an instrument agrees, with or without consideration, to a modification of the obligation of a principal obligor other than a complete or partial release or an extension of the due date and another party to the instrument is a secondary obligor with respect to the obligation of that principal obligor, the following rules apply:
- (1) Any obligations of the principal obligor to the secondary obligor with respect to any previous payment by the secondary obligor are not affected. The modification correspondingly modifies any other duties owed to the secondary obligor by the principal obligor under this article.
- (2) The secondary obligor is discharged from any unperformed portion of its obligation to the extent that the modification would otherwise cause the secondary obligor a loss.
- (3) To the extent that the secondary obligor is not discharged under paragraph (2), the secondary obligor may satisfy its obligation on the instrument as if the modification had not occurred, or treat its obligation on the instrument as having been modified correspondingly.
- (d) If the obligation of a principal obligor is secured by an interest in collateral, another party to the instrument is a secondary obligor with respect to that obligation, and a person entitled to enforce the instrument impairs the value of the interest in collateral, the obligation of the secondary obligor is discharged to the extent of the impairment. The value of an interest in collateral is impaired to the extent the value of the interest is reduced to an amount less than the amount of the recourse of the secondary obligor, or the reduction in value of the interest causes an increase in the amount by which the amount of the recourse exceeds the value of the interest. For purposes of this subsection, impairing the value of an interest in collateral includes failure to obtain or maintain perfection or recordation of the interest in collateral, release of collateral without substitution of collateral of equal value or equivalent reduction of the underlying obligation, failure to perform a duty to preserve the value of collateral owed, under Article 9 or other law, to a debtor or other person secondarily liable, and failure to comply with applicable law in disposing of or otherwise enforcing the interest in collateral.
- (e) A secondary obligor is not discharged under subsections (a)(3), (b), (c), or (d) unless the person entitled to enforce the instrument knows that the person is a secondary obligor or has notice under Section 3-419(c) that the instrument was signed for accommodation.
- (f) A secondary obligor is not discharged under this section if the secondary obligor consents to the event or conduct that is the basis of the discharge, or the instrument or a separate agreement of the party provides for waiver of discharge under this section specifically or by general language indicating that parties waive defenses based on suretyship or impairment of collateral. Unless the circumstances indicate otherwise, consent by the principal obligor to an act that would lead to a discharge under this

section constitutes consent to that act by the secondary obligor if the secondary obligor controls the principal obligor or deals with the person entitled to enforce the instrument on behalf of the principal obligor.

- (g) A release or extension preserves a secondary obligor's recourse if the terms of the release or extension provide that:
 - (1) the person entitled to enforce the instrument retains the right to enforce the instrument against the secondary obligor; and
 - (2) the recourse of the secondary obligor continues as if the release or extension had not been granted.
- (h) Except as otherwise provided in subsection (i), a secondary obligor asserting discharge under this section has the burden of persuasion both with respect to the occurrence of the acts alleged to harm the secondary obligor and loss or prejudice caused by those acts.
- (i) If the secondary obligor demonstrates prejudice caused by an impairment of its recourse, and the circumstances of the case indicate that the amount of loss is not reasonably susceptible of calculation or requires proof of facts that are not ascertainable, it is presumed that the act impairing recourse caused a loss or impairment equal to the liability of the secondary obligor on the instrument. In that event, the burden of persuasion as to any lesser amount of the loss is on the person entitled to enforce the instrument.

Article 4—Bank Deposits and Collections

Part 1: General Provisions and Definitions

§ 4–101. Short Title. This Article may be cited as Uniform Commercial Code—Bank Deposits and Collections.

§ 4–102. Applicability.

- (a) To the extent that items within this Article are also within Articles 3 and 8, they are subject to those Articles. If there is conflict, this Article governs Article 3, but Article 8 governs this Article.
- (b) The liability of a bank for action or non-action with respect to an item handled by it for purposes of presentment, payment, or collection is governed by the

law of the place where the bank is located. In the case of action or non-action by or at a branch or separate office of a bank, its liability is governed by the law of the place where the branch or separate office is located.

§ 4–103. Variation by Agreement; Measure of Damages; Action Constituting Ordinary Care.

- (a) The effect of the provisions of this Article may be varied by agreement, but the parties to the agreement cannot disclaim a bank's responsibility for its lack of good faith or failure to exercise ordinary care or limit the measure of damages for the lack or failure. However, the parties may determine by agreement the standards by which the bank's responsibility is to be measured if those standards are not manifestly unreasonable.
- (b) Federal Reserve regulations and operating circulars, clearinghouse rules, and the like have the effect of agreements under subsection (a), whether or not specifically assented to by all parties interested in items handled.
- (c) Action or non-action approved by this Article or pursuant to Federal Reserve regulations or operating circulars is the exercise of ordinary care and, in the absence of special instructions, action or non-action consistent with clearinghouse rules and the like or with a general banking usage not disapproved by this Article, is prima facie the exercise of ordinary care.
- (d) The specification or approval of certain procedures by this Article is not disapproval of other procedures that may be reasonable under the circumstances.
- (e) The measure of damages for failure to exercise ordinary care in handling an item is the amount of the item reduced by an amount that could not have been realized by the exercise of ordinary care. If there is also bad faith it includes any other damages the party suffered as a proximate consequence.

§ 4–104. Definitions and Index of Definitions.

- (a) In this Article, unless the context otherwise requires:
 - (1) "Account" means any deposit or credit account with a bank, including a demand, time, savings, passbook, share draft, or like account, other than an account evidenced by a certificate of deposit;
 - (2) "Afternoon" means the period of a day between noon and midnight;
 - (3) "Banking day" means the part of a day on which a bank is open to the public for carrying on substantially all of its banking functions;

- (4) “Clearing house” means an association of banks or other payors regularly clearing items;
- (5) “Customer” means a person having an account with a bank or for whom a bank has agreed to collect items, including a bank that maintains an account at another bank;
- (6) “Documentary draft” means a draft to be presented for acceptance or payment if specified documents, certificated securities (Section 8-102) or instructions for uncertificated securities (Section 8-102), or other certificates, statements, or the like are to be received by the drawee or other payor before acceptance or payment of the draft;
- (7) “Draft” means a draft as defined in Section 3-104 or an item, other than an instrument, that is an order;
- (8) “Drawee” means a person ordered in a draft to make payment;
- (9) “Item” means an instrument or a promise or order to pay money handled by a bank for collection or payment. The term does not include a payment order governed by Article 4A or a credit or debit card slip;
- (10) “Midnight deadline” with respect to a bank is midnight on its next banking day following the banking day on which it receives the relevant item or notice or from which the time for taking action commences to run, whichever is later;
- (11) “Settle” means to pay in cash, by clearing-house settlement, in a charge or credit or by remittance, or otherwise as agreed. A settlement may be either provisional or final;
- (12) “Suspends payments” with respect to a bank means that it has been closed by order of the supervisory authorities, that a public officer has been appointed to take it over, or that it ceases or refuses to make payments in the ordinary course of business.
- (b) Other definitions applying to this Article and the sections in which they appear are:
- “Agreement for electronic presentment” Section 4-110.
- “Collecting bank” Section 4-105.
- “Depositary bank” Section 4-105.
- “Intermediary bank” Section 4-105.
- “Payor bank” Section 4-105.
- “Presenting bank” Section 4-105.
- “Presentment notice” Section 4-110.
- (c) The following definitions in other Articles apply to this Article:
- | | |
|----------------------------------|----------------|
| “Acceptance” | Section 3-409. |
| “Alteration” | Section 3-407. |
| “Cashier’s check” | Section 3-104. |
| “Certificate of deposit” | Section 3-104. |
| “Certified check” | Section 3-409. |
| “Check” | Section 3-104. |
| “Good faith” | Section 3-103. |
| “Holder in due course” | Section 3-302. |
| “Instrument” | Section 3-104. |
| “Notice of dishonor” | Section 3-503. |
| “Order” | Section 3-103. |
| “Ordinary care” | Section 3-103. |
| “Person entitled to enforce” | Section 3-301. |
| “Presentment” | Section 3-501. |
| “Promise” | Section 3-103. |
| “Prove” | Section 3-103. |
| “Record” | Section 3-103. |
| “Remotely-Created consumer item” | Section 3-103. |
| “Teller’s check” | Section 3-104. |
| “Unauthorized signature” | Section 3-403. |
- (d) In addition, Article 1 contains general definitions and principles of construction and interpretation applicable throughout this Article.
- § 4-105. Definitions of Types of Banks** In this Article:
- (1) [“Bank” means a person engaged in the business of banking, including a savings bank, savings and loan association, credit union, or trust company;]
- (2) “Depositary bank” means the first bank to take an item even though it is also the payor bank, unless the item is presented for immediate payment over the counter;
- (3) “Payor bank” means a bank that is the drawee of a draft;
- (4) “Intermediary bank” means a bank to which an item is transferred in course of collection except the depositary or payor bank;
- (5) “Collecting bank” means a bank handling an item for collection except the payor bank;
- (6) “Presenting bank” means a bank presenting an item except a payor bank.

Legislative Note: A jurisdiction that enacts this statute that has not yet enacted the revised version of UCC Article 1 should leave the definition of “Bank” in Section 4-105(1). Section 4-105(1) is reserved for that purpose. A jurisdiction that has adopted or simultaneously adopts the revised Article 1 should delete the definition of “Bank” from Section 4-105(1), but should leave those numbers “reserved.” If jurisdictions follow the numbering suggested here, the subsections will have the same numbering in all jurisdictions that have adopted these amendments (whether they have or have not adopted the revised version of UCC Article 1). In either case, they should change the title of the section, as indicated in these revisions, so that all jurisdictions will have the same title for the section.

§ 4-106. Payable Through or Payable at Bank: Collecting Bank.

- (a) If an item states that it is “payable through” a bank identified in the item, (i) the item designates the bank as a collecting bank and does not by itself authorize the bank to pay the item, and (ii) the item may be presented for payment only by or through the bank.

Alternative A

- (b) If an item states that it is “payable at” a bank identified in the item, the item is equivalent to a draft drawn on the bank.

Alternative B

- (b) If an item states that it is “payable at” a bank identified in the item, (i) the item designates the bank as a collecting bank and does not by itself authorize the bank to pay the item, and (ii) the item may be presented for payment only by or through the bank.
- (c) If a draft names a nonbank drawee and it is unclear whether a bank named in the draft is a co-drawee or a collecting bank, the bank is a collecting bank.

§ 4-107. Separate Office of Bank. A branch or separate office of a bank is a separate bank for the purpose of computing the time within which and determining the place at or to which action may be taken or notices or orders shall be given under this Article and under Article 3.

§ 4-108. Time of Receipt of Items.

- (a) For the purpose of allowing time to process items, prove balances, and make the necessary entries on its books to determine its position for the day, a bank may fix an afternoon hour of 2 P.M. or later as a

cutoff hour for the handling of money and items and the making of entries on its books.

- (b) An item or deposit of money received on any day after a cutoff hour so fixed or after the close of the banking day may be treated as being received at the opening of the next banking day.

§ 4-109. Delays.

- (a) Unless otherwise instructed, a collecting bank in a good faith effort to secure payment of a specific item drawn on a payor other than a bank, and with or without the approval of any person involved, may waive, modify, or extend time limits imposed or permitted by this [Act] for a period not exceeding two additional banking days without discharge of drawers or indorsers or liability to its transferor or a prior party.
- (b) Delay by a collecting bank or payor bank beyond time limits prescribed or permitted by this [Act] or by instructions is excused if (i) the delay is caused by interruption of communication or computer facilities, suspension of payments by another bank, war, emergency conditions, failure of equipment, or other circumstances beyond the control of the bank, and (ii) the bank exercises such diligence as the circumstances require.

§ 4-110. Electronic Presentment.

- (a) “Agreement for electronic presentment” means an agreement, clearing-house rule, or Federal Reserve regulation or operating circular, providing that presentment of an item may be made by transmission of an image of an item or information describing the item (“presentment notice”) rather than delivery of the item itself. The agreement may provide for procedures governing retention, presentment, payment, dishonor, and other matters concerning items subject to the agreement.
- (b) Presentment of an item pursuant to an agreement for presentment is made when the presentment notice is received.
- (c) If presentment is made by presentment notice, a reference to “item” or “check” in this Article means the presentment notice unless the context otherwise indicates.

§ 4-111. Statute of Limitations. An action to enforce an obligation, duty, or right arising under this Article must be commenced within three years after the [cause of action] accrues.

Part 2: Collection of Items: Depository and Collecting Banks

§ 4–201. Status of Collecting Bank as Agent and Provisional Status of Credits; Applicability of Article; Item Indorsed “Pay Any Bank”.

- (a) Unless a contrary intent clearly appears and before the time that a settlement given by a collecting bank for an item is or becomes final, the bank, with respect to an item, is an agent or subagent of the owner of the item and any settlement given for the item is provisional. This provision applies regardless of the form of indorsement or lack of indorsement and even though credit given for the item is subject to immediate withdrawal as of right or is in fact withdrawn; but the continuance of ownership of an item by its owner and any rights of the owner to proceeds of the item are subject to rights of a collecting bank, such as those resulting from outstanding advances on the item and rights of recoupment or setoff. If an item is handled by banks for purposes of presentment, payment, collection, or return, the relevant provisions of this Article apply even though action of the parties clearly establishes that a particular bank has purchased the item and is the owner of it.
- (b) After an item has been indorsed with the words “pay any bank” or the like, only a bank may acquire the rights of a holder until the item has been:
- (1) returned to the customer initiating collection; or
 - (2) specially indorsed by a bank to a person who is not a bank.

§ 4–202. Responsibility for Collection or Return; When Action Timely.

- (a) A collecting bank must exercise ordinary care in:
- (1) presenting an item or sending it for presentment;
 - (2) sending notice of dishonor or nonpayment or returning an item other than a documentary draft to the bank’s transferor after learning that the item has not been paid or accepted, as the case may be;
 - (3) settling for an item when the bank receives final settlement; and
 - (4) notifying its transferor of any loss or delay in transit within a reasonable time after discovery thereof.
- (b) A collecting bank exercises ordinary care under subsection (a) by taking proper action before its midnight deadline following receipt of an item, notice, or settlement. Taking proper action within a reasonably

longer time may constitute the exercise of ordinary care, but the bank has the burden of establishing timeliness.

- (c) Subject to subsection (a)(1), a bank is not liable for the insolvency, neglect, misconduct, mistake, or default of another bank or person or for loss or destruction of an item in the possession of others or in transit.

§ 4–203. Effect of Instructions. Subject to Article 3 concerning conversion of instruments (Section 3–420) and restrictive indorsements (Section 3–206), only a collecting bank’s transferor can give instructions that affect the bank or constitute notice to it, and a collecting bank is not liable to prior parties for any action taken pursuant to the instructions or in accordance with any agreement with its transferor.

§ 4–204. Methods of Sending and Presenting; Sending Directly to Payor Bank.

- (a) A collecting bank shall send items by a reasonably prompt method, taking into consideration relevant instructions, the nature of the item, the number of those items on hand, the cost of collection involved, and the method generally used by it or others to present those items.
- (b) A collecting bank may send:
- (1) an item directly to the payor bank;
 - (2) an item to a nonbank payor if authorized by its transferor; and
 - (3) an item other than documentary drafts to a nonbank payor, if authorized by Federal Reserve regulation or operating circular, clearinghouse rule, or the like.
- (c) Presentment may be made by a presenting bank at a place where the payor bank or other payor has requested that presentment be made.

§ 4–205. Depository Bank Holder of Unindorsed Item. If a customer delivers an item to a depository bank for collection:

- (1) the depository bank becomes a holder of the item at the time it receives the item for collection if the customer at the time of delivery was a holder of the item, whether or not the customer indorses the item, and, if the bank satisfies the other requirements of Section 3–302, it is a holder in due course; and
- (2) the depository bank warrants to collecting banks, the payor bank or other payor, and the drawer that the amount of the item was paid to

the customer or deposited to the customer's account.

§ 4–206. Transfer Between Banks. Any agreed method that identifies the transferor bank is sufficient for the item's further transfer to another bank.

§ 4–207. Transfer Warranties.

- (a) A customer or collecting bank that transfers an item and receives a settlement or other consideration warrants to the transferee and to any subsequent collecting bank that:
 - (1) the warrantor is a person entitled to enforce the item;
 - (2) all signatures on the item are authentic and authorized;
 - (3) the item has not been altered;
 - (4) the item is not subject to a defense or claim in recoupment (Section 3–305(a)) of any party that can be asserted against the warrantor;
 - (5) the warrantor has no knowledge of any insolvency proceeding commenced with respect to the maker or acceptor or, in the case of an unaccepted draft, the drawer; and
 - (6) with respect to any remotely-created consumer item, that the person on whose account the item is drawn authorized the issuance of the item in the amount for which the item is drawn.
- (b) If an item is dishonored, a customer or collecting bank transferring the item and receiving settlement or other consideration is obliged to pay the amount due on the item (i) according to the terms of the item at the time it was transferred, or (ii) if the transfer was of an incomplete item, according to its terms when completed as stated in Sections 3–115 and 3–407. The obligation of a transferor is owed to the transferee and to any subsequent collecting bank that takes the item in good faith. A transferor cannot disclaim its obligation under this subsection by an indorsement stating that it is made "without recourse" or otherwise disclaiming liability.
- (c) A person to whom the warranties under subsection (a) are made and who took the item in good faith may recover from the warrantor as damages for breach of warranty an amount equal to the loss suffered as a result of the breach, but not more than the amount of the item plus expenses and loss of interest incurred as a result of the breach.
- (d) The warranties stated in subsection (a) cannot be disclaimed with respect to checks. Unless notice of a claim for breach of warranty is given to the warrantor

within 30 days after the claimant has reason to know of the breach and the identity of the warrantor, the warrantor is discharged to the extent of any loss caused by the delay in giving notice of the claim.

- (e) A cause of action for breach of warranty under this section accrues when the claimant has reason to know of the breach.

§ 4–208. Presentment Warranties.

- (a) If an unaccepted draft is presented to the drawee for payment or acceptance and the drawee pays or accepts the draft, (i) the person obtaining payment or acceptance, at the time of presentment, and (ii) a previous transferor of the draft, at the time of transfer, warrant to the drawee that pays or accepts the draft in good faith that:
 - (1) the warrantor is, or was, at the time the warrantor transferred the draft, a person entitled to enforce the draft or authorized to obtain payment or acceptance of the draft on behalf of a person entitled to enforce the draft;
 - (2) the draft has not been altered; and
 - (3) the warrantor has no knowledge that the signature of the purported drawer of the draft is unauthorized; and
 - (4) with respect to any remotely-created consumer item, that the person on whose account the item is drawn authorized the issuance of the item in the amount for which the item is drawn.
- (b) A drawee making payment may recover from a warrantor damages for breach of warranty equal to the amount paid by the drawee less the amount the drawee received or is entitled to receive from the drawer because of the payment. In addition, the drawee is entitled to compensation for expenses and loss of interest resulting from the breach. The right of the drawee to recover damages under this subsection is not affected by any failure of the drawee to exercise ordinary care in making payment. If the drawee accepts the draft (i) breach of warranty is a defense to the obligation of the acceptor, and (ii) if the acceptor makes payment with respect to the draft, the acceptor is entitled to recover from a warrantor for breach of warranty the amounts stated in this subsection.
- (c) If a drawee asserts a claim for breach of warranty under subsection (a) based on an unauthorized indorsement of the draft or an alteration of the draft, the warrantor may defend by proving that the indorsement is effective under Section 3–404 or 3–405 or the drawer is precluded under Section 3–406 or

4-406 from asserting against the drawee the unauthorized indorsement or alteration.

- (d) If (i) a dishonored draft is presented for payment to the drawer or an indorser or (ii) any other item is presented for payment to a party obliged to pay the item, and the item is paid, the person obtaining payment and a prior transferor of the item warrant to the person making payment in good faith that the warrantor is, or was, at the time the warrantor transferred the item, a person entitled to enforce the item or authorized to obtain payment on behalf of a person entitled to enforce the item. The person making payment may recover from any warrantor for breach of warranty an amount equal to the amount paid plus expenses and loss of interest resulting from the breach.
- (e) The warranties stated in subsections (a) and (d) cannot be disclaimed with respect to checks. Unless notice of a claim for breach of warranty is given to the warrantor within 30 days after the claimant has reason to know of the breach and the identity of the warrantor, the warrantor is discharged to the extent of any loss caused by the delay in giving notice of the claim.
- (f) A cause of action for breach of warranty under this section accrues when the claimant has reason to know of the breach.

§ 4-209. Encoding and Retention Warranties.

- (a) A person who encodes information on or with respect to an item after issue warrants to any subsequent collecting bank and to the payor bank or other payor that the information is correctly encoded. If the customer of a depository bank encodes, that bank also makes the warranty.
- (b) A person who undertakes to retain an item pursuant to an agreement for electronic presentment warrants to any subsequent collecting bank and to the payor bank or other payor that retention and presentment of the item comply with the agreement. If a customer of a depository bank undertakes to retain an item, that bank also makes this warranty.
- (c) A person to whom warranties are made under this section and who took the item in good faith may recover from the warrantor as damages for breach of warranty an amount equal to the loss suffered as a result of the breach, plus expenses and loss of interest incurred as a result of the breach.

§ 4-210. Security Interest of Collecting Bank in Items, Accompanying Documents and Proceeds.

- (a) A collecting bank has a security interest in an item and any accompanying documents or the proceeds of either:

- (1) in case of an item deposited in an account, to the extent to which credit given for the item has been withdrawn or applied;
 - (2) in case of an item for which it has given credit available for withdrawal as of right, to the extent of the credit given, whether or not the credit is drawn upon or there is a right of charge back; or
 - (3) if it makes an advance on or against the item.
- (b) If credit given for several items received at one time or pursuant to a single agreement is withdrawn or applied in part, the security interest remains upon all the items, any accompanying documents or the proceeds of either. For the purpose of this section, credits first given are first withdrawn.
 - (c) Receipt by a collecting bank of a final settlement for an item is a realization on its security interest in the item, accompanying documents, and proceeds. So long as the bank does not receive final settlement for the item or give up possession of the item or accompanying documents for purposes other than collection, the security interest continues to that extent and is subject to Article 9, but:
 - (1) no security agreement is necessary to make the security interest enforceable (Section 9-203(1)(a));
 - (2) no filing is required to perfect the security interest; and
 - (3) **the security interest has priority over conflicting perfected security interests in the item, accompanying documents, or proceeds.**

§ 4-211. When Bank Gives Value for Purposes of Holder in Due Course. For purposes of determining its status as a holder in due course, a bank has given value to the extent it has a security interest in an item, if the bank otherwise complies with the requirements of Section 3-302 on what constitutes a holder in due course.

§ 4-212. Presentment by Notice of Item Not Payable by, Through, or at Bank; Liability of Drawer or Indorser.

- (a) Unless otherwise instructed, a collecting bank may present an item not payable by, through, or at a bank by sending to the party to accept or pay a record providing notice that the bank holds the item for acceptance or payment. The notice must be sent in time to be received on or before the day when presentment is due and the bank must meet any requirement of the party to accept or pay under Section 3-501 by the close of the bank's next banking day after it knows of the requirement.

- (b) If presentment is made by notice and payment, acceptance, or request for compliance with a requirement under Section 3-501 is not received by the close of business on the day after maturity or, in the case of demand items, by the close of business on the third banking day after notice was sent, the presenting bank may treat the item as dishonored and charge any drawer or indorser by sending it notice of the facts.

§ 4-213. Medium and Time of Settlement by Bank.

- (a) With respect to settlement by a bank, the medium and time of settlement may be prescribed by Federal Reserve regulations or circulars, clearinghouse rules, and the like, or agreement. In the absence of such prescription:
- (1) the medium of settlement is cash or credit to an account in a Federal Reserve bank of or specified by the person to receive settlement; and
 - (2) the time of settlement, is:
 - (i) with respect to tender of settlement by cash, a cashier's check, or teller's check, when the cash or check is sent or delivered;
 - (ii) with respect to tender of settlement by credit in an account in a Federal Reserve Bank, when the credit is made;
 - (iii) with respect to tender of settlement by a credit or debit to an account in a bank, when the credit or debit is made or, in the case of tender of settlement by authority to charge an account, when the authority is sent or delivered; or
 - (iv) with respect to tender of settlement by a funds transfer, when payment is made pursuant to Section 4A-406(a) to the person receiving settlement.
- (b) If the tender of settlement is not by a medium authorized by subsection (a) or the time of settlement is not fixed by subsection (a), no settlement occurs until the tender of settlement is accepted by the person receiving settlement.
- (c) If settlement for an item is made by cashier's check or teller's check and the person receiving settlement, before its midnight deadline:
- (1) presents or forwards the check for collection, settlement is final when the check is finally paid; or
 - (2) fails to present or forward the check for collection, settlement is final at the midnight deadline of the person receiving settlement.
- (d) If settlement for an item is made by giving authority to charge the account of the bank giving settlement in

the bank receiving settlement, settlement is final when the charge is made by the bank receiving settlement if there are funds available in the account for the amount of the item.

§ 4-214. Right of Charge-Back or Refund; Liability of Collecting Bank; Return of Item.

- (a) If a collecting bank has made provisional settlement with its customer for an item and fails by reason of dishonor, suspension of payments by a bank, or otherwise to receive settlement for the item which is or becomes final, the bank may revoke the settlement given by it, charge back the amount of any credit given for the item to its customer's account, or obtain refund from its customer, whether or not it is able to return the item, if by its midnight deadline or within a longer reasonable time after it learns the facts it returns the item or sends notification of the facts. If the return or notice is delayed beyond the bank's midnight deadline or a longer reasonable time after it learns the facts, the bank may revoke the settlement, charge back the credit, or obtain refund from its customer, but it is liable for any loss resulting from the delay. These rights to revoke, charge back, and obtain refund terminate if and when a settlement for the item received by the bank is or becomes final.
- (b) A collecting bank returns an item when it is sent or delivered to the bank's customer or transferor or pursuant to its instructions.
- (c) A depository bank that is also the payor may charge back the amount of an item to its customer's account or obtain refund in accordance with the section governing return of an item received by a payor bank for credit on its books (Section 4-301).
- (d) The right to charge back is not affected by:
- (1) previous use of a credit given for the item; or
 - (2) failure by any bank to exercise ordinary care with respect to the item, but a bank so failing remains liable.
- (e) A failure to charge back or claim refund does not affect other rights of the bank against the customer or any other party.
- (f) If credit is given in dollars as the equivalent of the value of an item payable in foreign money, the dollar amount of any charge-back or refund must be calculated on the basis of the bank offered spot rate for the foreign money prevailing on the day when the person entitled to the charge-back or refund learns that it will not receive payment in ordinary course.

§ 4–215. Final Payment of Item by Payor Bank; When Provisional Debits and Credits Become Final; When Certain Credits Become Available for Withdrawal.

- (a) An item is finally paid by a payor bank when the bank has first done any of the following:
 - (1) paid the item in cash;
 - (2) settled for the item without having a right to revoke the settlement under statute, clearinghouse rule, or agreement; or
 - (3) made a provisional settlement for the item and failed to revoke the settlement in the time and manner permitted by statute, clearinghouse rule, or agreement.
- (b) If provisional settlement for an item does not become final, the item is not finally paid.
- (c) If provisional settlement for an item between the presenting and payor banks is made through a clearinghouse or by debits or credits in an account between them, then to the extent that provisional debits or credits for the item are entered in accounts between the presenting and payor banks or between the presenting and successive prior collecting banks seriatim, they become final upon final payment of the item by the payor bank.
- (d) If a collecting bank receives a settlement for an item which is or becomes final, the bank is accountable to its customer for the amount of the item and any provisional credit given for the item in an account with its customer becomes final.
- (e) Subject to (i) applicable law stating a time for availability of funds and (ii) any right of the bank to apply the credit to an obligation of the customer, credit given by a bank for an item in a customer's account becomes available for withdrawal as of right:
 - (1) if the bank has received a provisional settlement for the item, when the settlement becomes final and the bank has had a reasonable time to receive return of the item and the item has not been received within that time;
 - (2) if the bank is both the depository bank and the payor bank, and the item is finally paid, at the opening of the bank's second banking day following receipt of the item.
- (f) Subject to applicable law stating a time for availability of funds and any right of a bank to apply a deposit to an obligation of the depositor, a deposit of money becomes available for withdrawal as of right at the opening of the bank's next banking day after receipt of the deposit.

§ 4–216. Insolvency and Preference.

- (a) If an item is in or comes into the possession of a payor or collecting bank that suspends payment and the item has not been finally paid, the item must be returned by the receiver, trustee, or agent in charge of the closed bank to the presenting bank or the closed bank's customer.
- (b) If a payor bank finally pays an item and suspends payments without making a settlement for the item with its customer or the presenting bank which settlement is or becomes final, the owner of the item has a preferred claim against the payor bank.
- (c) If a payor bank gives or a collecting bank gives or receives a provisional settlement for an item and thereafter suspends payments, the suspension does not prevent or interfere with the settlement's becoming final if the finality occurs automatically upon the lapse of certain time or the happening of certain events.
- (d) If a collecting bank receives from subsequent parties settlement for an item, which settlement is or becomes final and the bank suspends payments without making a settlement for the item with its customer which settlement is or becomes final, the owner of the item has a preferred claim against the collecting bank.

Part 3: Collection of Items: Payor Banks

§ 4–301. Posting; Recovery of Payment by Return of Items; Time of Dishonor; Return of Items by Payor Bank.

- (a) If a payor bank settles for a demand item other than a documentary draft presented otherwise than for immediate payment over the counter before midnight of the banking day of receipt, the payor bank may revoke the settlement and recover the settlement if, before it has made final payment and before its midnight deadline, it
 - (1) returns the item;
 - (2) returns an image of the item, if the party to which the return is made has entered into an agreement to accept an image as a return of the item and the image is returned in accordance with that agreement; or
 - (3) sends a record providing notice of dishonor or nonpayment if the item is unavailable for return.
- (b) If a demand item is received by a payor bank for credit on its books, it may return the item or send

notice of dishonor and may revoke any credit given or recover the amount thereof withdrawn by its customer, if it acts within the time limit and in the manner specified in subsection (a).

- (c) Unless previous notice of dishonor has been sent, an item is dishonored at the time when for purposes of dishonor it is returned or notice sent in accordance with this section.
- (d) An item is returned:
 - (1) as to an item presented through a clearing house, when it is delivered to the presenting or last collecting bank or to the clearing house or is sent or delivered in accordance with clearing-house rules; or
 - (2) in all other cases, when it is sent or delivered to the bank's customer or transferor or pursuant to instructions.

§ 4-302. Payor's Bank Responsibility for Late Return of Item.

- (a) If an item is presented to and received by a payor bank, the bank is accountable for the amount of:
 - (1) a demand item, other than a documentary draft, whether properly payable or not, if the bank, in any case in which it is not also the depository bank, retains the item beyond midnight of the banking day of receipt without settling for it or, whether or not it is also the depository bank, does not pay or return the item or send notice of dishonor until after its midnight deadline; or
 - (2) any other properly payable item unless, within the time allowed for acceptance or payment of that item, the bank either accepts or pays the item or returns it and accompanying documents.
- (b) The liability of a payor bank to pay an item pursuant to subsection (a) is subject to defenses based on breach of a presentment warranty (Section 4-208) or proof that the person seeking enforcement of the liability presented or transferred the item for the purpose of defrauding the payor bank.

§ 4-303. When Items Subject to Notice, Stop-Payment Order, Legal Process, or Setoff; Order in Which Items May Be Changed or Certified.

- (a) Any knowledge, notice, or stop-payment order received by, legal process served upon, or setoff exercised by a payor bank comes too late to terminate, suspend, or modify the bank's right or duty to pay an item or to charge its customer's account for the item if the knowledge, notice, stop-payment order, or

legal process is received or served and a reasonable time for the bank to act thereon expires or the setoff is exercised after the earliest of the following:

- (1) the bank accepts or certifies the item;
- (2) the bank pays the item in cash;
- (3) the bank settles for the item without having a right to revoke the settlement under statute, clearinghouse rule, or agreement;
- (4) the bank becomes accountable for the amount of the item under Section 4-302 dealing with the payor bank's responsibility for late return of items; or
- (5) with respect to checks, a cutoff hour no earlier than one hour after the opening of the next banking day after the banking day on which the bank received the check and no later than the close of that next banking day or, if no cutoff hour is fixed, the close of the next banking day after the banking day on which the bank received the check.

- (b) Subject to subsection (a), items may be accepted, paid, certified, or charged to the indicated account of its customer in any order.

Part 4: Relationship between Payor Bank and Its Customer

§ 4-401. When Bank May Charge Customer's Account.

- (a) A bank may charge against the account of a customer an item that is properly payable from the account even though the charge creates an overdraft. An item is properly payable if it is authorized by the customer and is in accordance with any agreement between the customer and bank.
- (b) A customer is not liable for the amount of an overdraft if the customer neither signed the item nor benefited from the proceeds of the item.
- (c) A bank may charge against the account of a customer a check that is otherwise properly payable from the account, even though payment was made before the date of the check, unless the customer has given notice to the bank of the postdating describing the check with reasonable certainty. The notice is effective for the period stated in Section 4-403(b) for stop payment orders, and must be received at such time and in such manner as to afford the bank a reasonable opportunity to act on it before the bank takes any action with respect to the check described in Section 4-303. If a bank charges against the account of a

customer a check before the date stated in the notice of postdating, the bank is liable for damages for the loss resulting from its act. The loss may include damages for dishonor of subsequent items under Section 4-402.

- (d) A bank that in good faith makes payment to a holder may charge the indicated account of its customer according to:
- (1) the original terms of the altered item; or
 - (2) the terms of the completed item, even though the bank knows the item has been completed unless the bank has notice that the completion was improper.

§ 4-402. Bank's Liability to Customer for Wrongful Dishonor; Time of Determining Insufficient of Account.

- (a) Except as otherwise provided in this Article, a payor bank wrongfully dishonors an item if it dishonors an item that is properly payable, but a bank may dishonor an item that would create an overdraft unless it has agreed to pay the overdraft.
- (b) A payor bank is liable to its customer for damages proximately caused by the wrongful dishonor of an item. Liability is limited to actual damages proved and may include damages for an arrest or prosecution of the customer or other consequential damages. Whether any consequential damages are proximately caused by the wrongful dishonor is a question of fact to be determined in each case.
- (c) A payor bank's determination of the customer's account balance on which a decision to dishonor for insufficiency of available funds is based may be made at any time between the time the item is received by the payor bank and the time that the payor bank returns the item or gives notice in lieu of return, and no more than one determination need be made. If, at the election of the payor bank, a subsequent balance determination is made for the purpose of reevaluating the bank's decision to dishonor the item, the account balance at that time is determinative of whether a dishonor for insufficiency of available funds is wrongful.

§ 4-403. Customer's Right to Stop Payment; Burden of Proof of Loss.

- (a) A customer or any person authorized to draw on the account if there is more than one person may stop payment of any item drawn on the customer's account or close the account by an order to the bank describing the item or account with reasonable cer-

tainty received at a time and in a manner that affords the bank a reasonable opportunity to act on it before any action by the bank with respect to the item described in Section 4-303. If the signature of more than one person is required to draw on an account, any of these persons may stop payment or close the account.

- (b) A stop-payment order is effective for six months, but it lapses after 14 calendar days if the original order was oral and was not confirmed in a record within that period. A stop-payment order may be renewed for additional six-month periods by a record given to the bank within a period during which the stop-payment order is effective.
- (c) The burden of establishing the fact and amount of loss resulting from the payment of an item contrary to a stop-payment order or order to close an account is on the customer. The loss from payment of an item contrary to a stop-payment order may include damages for dishonor of subsequent items under Section 4-402.

§ 4-404. Bank Not Obligated to Pay Check More than Six Months Old. A bank is under no obligation to a customer having a checking account to pay a check, other than a certified check, which is presented more than six months after its date, but it may charge its customer's account for a payment made thereafter in good faith.

§ 4-405. Death or Incompetence of Customer.

- (a) A payor or collecting bank's authority to accept, pay, or collect an item or to account for proceeds of its collection, if otherwise effective, is not rendered ineffective by incompetence of a customer of either bank existing at the time the item is issued or its collection is undertaken if the bank does not know of an adjudication of incompetence. Neither death nor incompetence of a customer revokes the authority to accept, pay, collect, or account until the bank knows of the fact of death or of an adjudication of incompetence and has reasonable opportunity to act on it.
- (b) Even with knowledge, a bank may for 10 days after the date of death pay or certify checks drawn on or before that date unless ordered to stop payment by a person claiming an interest in the account.

§ 4-406. Customer's Duty to Discover and Report Unauthorized Signature or Alteration.

- (a) A bank that sends or makes available to a customer a statement of account showing payment of items for the account shall either return or make available to

the customer the items paid or provide information in the statement of account sufficient to allow the customer reasonably to identify the items paid. The statement of account provides sufficient information if the item is described by item number, amount, and date of payment.

- (b) If the items are not returned to the customer, the person retaining the items shall either retain the items or, if the items are destroyed, maintain the capacity to furnish legible copies of the items until the expiration of seven years after receipt of the items. A customer may request an item from the bank that paid the item, and that bank must provide in a reasonable time either the item or, if the item has been destroyed or is not otherwise obtainable, a legible copy of the item.
- (c) If a bank sends or makes available a statement of account or items pursuant to subsection (a), the customer must exercise reasonable promptness in examining the statement or the items to determine whether any payment was not authorized because of an alteration of an item or because a purported signature by or on behalf of the customer was not authorized. If, based on the statement or items provided, the customer should reasonably have discovered the unauthorized payment, the customer must promptly notify the bank of the relevant facts.
- (d) If the bank proves that the customer failed, with respect to an item, to comply with the duties imposed on the customer by subsection (c), the customer is precluded from asserting against the bank:
 - (1) the customer's unauthorized signature or any alteration on the item, if the bank also proves that it suffered a loss by reason of the failure; and
 - (2) the customer's unauthorized signature or alteration by the same wrongdoer on any other item paid in good faith by the bank if the payment was made before the bank received notice from the customer of the unauthorized signature or alteration and after the customer had been afforded a reasonable period of time, not exceeding 30 days, in which to examine the item or statement of account and notify the bank.
- (e) If subsection (d) applies and the customer proves that the bank failed to exercise ordinary care in paying the item and that the failure substantially contributed to loss, the loss is allocated between the customer precluded and the bank asserting the preclusion according to the extent to which the failure of the customer to comply with subsection (c) and the failure of the bank to exercise ordinary care contributed to the loss. If the customer proves that the bank did not pay the

item in good faith, the preclusion under subsection (d) does not apply.

- (f) Without regard to care or lack of care of either the customer or the bank, a customer who does not within one year after the statement or items are made available to the customer (subsection (a)) discover and report the customer's unauthorized signature on or any alteration on the item is precluded from asserting against the bank the unauthorized signature or alteration. If there is a preclusion under this subsection, the payor bank may not recover for breach of warranty under Section 4-208 with respect to the unauthorized signature or alteration to which the preclusion applies.

§ 4-407. Payor Bank's Right to Subrogation on Improper Payment. If a payor bank has paid an item over the order of the drawer or maker to stop payment, or after an account has been closed, or otherwise under circumstances giving a basis for objection by the drawer or maker, to prevent unjust enrichment and only to the extent necessary to prevent loss to the bank by reason of its payment of the item, the payor bank is subrogated to the rights

- (1) of any holder in due course on the item against the drawer or maker;
- (2) of the payee or any other holder of the item against the drawer or maker either on the item or under the transaction out of which the item arose; and
- (3) of the drawer or maker against the payee or any other holder of the item with respect to the transaction out of which the item arose.

Part 5: Collection of Documentary Drafts

§ 4-501. Handling of Documentary Drafts; Duty to Send for Presentment and to Notify Customer of Dishonor. A bank that takes a documentary draft for collection shall present or send the draft and accompanying documents for presentment and, upon learning that the draft has not been paid or accepted in due course, shall seasonably notify its customer of the fact even though it may have discounted or bought the draft or extended credit available for withdrawal as of right.

§ 4-502. Presentment of "On Arrival" Drafts. If a draft or the relevant instructions require presentment "on arrival", "when goods arrive" or the like, the collecting bank need not present until in its judgment a reasonable time for arrival of the goods has expired. Refusal to pay

or accept because the goods have not arrived is not dishonor; the bank must notify its transferor of the refusal but need not present the draft again until it is instructed to do so or learns of the arrival of the goods.

§ 4–503. Responsibility of Presenting Bank for Documents and Goods; Report of Reasons for Dishonor; Referee in Case of Need. Unless otherwise instructed and except as provided in Article 5, a bank presenting a documentary draft:

- (1) must deliver the documents to the drawee on acceptance of the draft if it is payable more than three days after presentment; otherwise, only on payment; and
- (2) upon dishonor, either in the case of presentment for acceptance or presentment for payment, may seek and follow instructions from any referee in case of need designated in the draft or, if the presenting bank does not choose to utilize the referee's services, it must use diligence and good faith to ascertain the reason for dishonor, must notify its transferor of the dishonor and of the results of its effort to ascertain the reasons therefor, and must request instructions.

However the presenting bank is under no obligation with respect to goods represented by the documents except to follow any reasonable instructions seasonably received; it has a right to reimbursement for any expense incurred in following instructions and to prepayment of or indemnity for those expenses.

§ 4–504. Privilege of Presenting Bank to Deal with Goods; Security Interest for Expenses.

- (a) A presenting bank that, following the dishonor of a documentary draft, has seasonably requested instructions but does not receive them within a reasonable time may store, sell, or otherwise deal with the goods in any reasonable manner.
- (b) For its reasonable expenses incurred by action under subsection (a) the presenting bank has a lien upon the goods or their proceeds, which may be foreclosed in the same manner as an unpaid seller's lien.

Article 7—Documents of Title

Part 1: General

§ 7–101. Short Title. This article may be cited as Uniform Commercial Code—Documents of Title.

§ 7–102. Definitions and Index of Definitions.

- (a) In this article, unless the context otherwise requires:
 - (1) “Bailee” means a person that by a warehouse receipt, bill of lading, or other document of title acknowledges possession of goods and contracts to deliver them.
 - (2) “Carrier” means a person that issues a bill of lading.
 - (3) “Consignee” means a person named in a bill of lading to which or to whose order the bill promises delivery.
 - (4) “Consignor” means a person named in a bill of lading as the person from which the goods have been received for shipment.
 - (5) “Delivery order” means a record that contains an order to deliver goods directed to a warehouse, carrier, or other person that in the ordinary course of business issues warehouse receipts or bills of lading.
 - (6) “Good faith” means honesty in fact and the observance of reasonable commercial standards of fair dealing.
 - (7) “Goods” means all things that are treated as movable for the purposes of a contract for storage or transportation.
 - (8) “Issuer” means a bailee that issues a document of title or, in the case of an unaccepted delivery order, the person that orders the possessor of goods to deliver. The term includes a person for which an agent or employee purports to act in issuing a document if the agent or employee has real or apparent authority to issue documents, even if the issuer did not receive any goods, the goods were misdescribed, or in any other respect the agent or employee violated the issuer's instructions.
 - (9) “Person entitled under the document” means the holder, in the case of a negotiable document of title, or the person to which delivery of the goods is to be made by the terms of, or pursuant to instructions in a record under, a nonnegotiable document of title.
 - (10) “Record” means information that is inscribed on a tangible medium or that is stored in an electronic or other medium and is retrievable in perceivable form.
 - (11) “Sign” means, with present intent to authenticate or adopt a record:
 - (A) to execute or adopt a tangible symbol; or

(B) to attach to or logically associate with the record an electronic sound, symbol, or process.

(12) “Shipper” means a person that enters into a contract of transportation with a carrier.

(13) “Warehouse” means a person engaged in the business of storing goods for hire.

(b) Definitions in other articles applying to this article and the sections in which they appear are:

(1) “Contract for sale”, Section 2–106.

(2) “Lessee in ordinary course”, Section 2A-103.

(3) “ ‘Receipt’ of goods”, Section 2-103.

(c) In addition, Article 1 contains general definitions and principles of construction and interpretation applicable throughout this article.

Legislative Note: If the state has enacted Revised Article 1, the definitions of “good faith” in subsection (a)(6) and “record” in (a)(10) need not be enacted in this section as they are contained in Article 1, Section 1-201. These subsections should be marked as “reserved” in order to provide for uniform numbering of subsections.

§ 7–103. Relation of Article to Treaty or Statute.

(a) This article is subject to any treaty or statute of the United States or a regulatory statute of this State to the extent the treaty, statute, or regulatory statute is applicable.

(b) This article does not repeal or modify any law prescribing the form or contents of a document of title or the services or facilities to be afforded by a bailee, or otherwise regulating a bailee’s businesses in respects not specifically treated in this article. However, violation of these laws does not affect the status of a document of title that otherwise complies with the definition of a document of title.

§ 7–104. Negotiable and Nonnegotiable Document of Title.

(a) A document of title is negotiable if by its terms the goods are to be delivered to bearer or to the order of a named person.

(b) A document of title other than one described in subsection (a) is nonnegotiable. A bill of lading that states that the goods are consigned to a named person is not made negotiable by a provision that the goods are to be delivered only against an order in a record signed by the same or another named person.

(c) A document of title is nonnegotiable if, at the time it is issued, the document has a conspicuous legend, however expressed, that it is nonnegotiable.

§ 7–105. Reissuance in Alternative Medium.

(a) Upon request of a person entitled under an electronic document of title, the issuer of the electronic document may issue a tangible document of title as a substitute for the electronic document if:

(1) the person entitled under the electronic document surrenders control of the document to the issuer; and

(2) the tangible document when issued contains a statement that it is issued in substitution for the electronic document.

(b) Upon issuance of a tangible document of title in substitution for an electronic document of title in accordance with subsection (a):

(1) the electronic document ceases to have any effect or validity; and

(2) the person that procured issuance of the tangible document warrants to all subsequent persons entitled under the tangible document that the warrantor was a person entitled under the electronic document when the warrantor surrendered control of the electronic document to the issuer.

(c) Upon request of a person entitled under a tangible document of title, the issuer of the tangible document may issue an electronic document of title as a substitute for the tangible document if:

(1) the person entitled under the tangible document surrenders possession of the document to the issuer; and

(2) the electronic document when issued contains a statement that it is issued in substitution for the tangible document.

(d) Upon issuance of the electronic document of title in substitution for a tangible document of title in accordance with subsection (c):

(1) the tangible document ceases to have any effect or validity; and

(2) the person that procured issuance of the electronic document warrants to all subsequent persons entitled under the electronic document that the warrantor was a person entitled under the tangible document when the warrantor surrendered possession of the tangible document to the issuer.

§ 7–106. Control of Electronic Document of Title.

(a) A person has control of an electronic document of title if a system employed for evidencing the transfer of interests in the electronic document reliably

establishes that person as the person to which the electronic document was issued or transferred.

- (b) A system satisfies subsection (a), and a person is deemed to have control of an electronic document of title, if the document is created, stored, and assigned in such a manner that:
- (1) a single authoritative copy of the document exists which is unique, identifiable, and, except as otherwise provided in paragraphs (4), (5), and (6), unalterable;
 - (2) the authoritative copy identifies the person asserting control as:
 - (A) the person to which the document was issued; or
 - (B) if the authoritative copy indicates that the document has been transferred, the person to which the document was most recently transferred;
 - (3) the authoritative copy is communicated to and maintained by the person asserting control or its designated custodian;
 - (4) copies or amendments that add or change an identified assignee of the authoritative copy can be made only with the consent of the person asserting control;
 - (5) each copy of the authoritative copy and any copy of a copy is readily identifiable as a copy that is not the authoritative copy; and
 - (6) any amendment of the authoritative copy is readily identifiable as authorized or unauthorized.

§ 7–107. Relation to Electronic Signatures in Global and National Commerce Act. This [Act] modifies, limits, and supersedes the federal Electronic Signatures in Global and National Commerce Act (15 U.S.C. Section 7001, et. seq.) but does not modify, limit, or supersede Section 101(c) of that act (15 U.S.C. Section 7001(c)) or authorize electronic delivery of any of the notices described in Section 103(b) of that act (15 U.S.C. Section 7003(b)).

Part 2: Warehouse Receipts: Special Provisions

§ 7–201. Person That May Issue a Warehouse Receipt; Storage Under Bond.

- (a) A warehouse receipt may be issued by any warehouse.
- (b) If goods, including distilled spirits and agricultural commodities, are stored under a statute requiring a

bond against withdrawal or a license for the issuance of receipts in the nature of warehouse receipts, a receipt issued for the goods is deemed to be a warehouse receipt even if issued by a person that is the owner of the goods and is not a warehouse.

§ 7–202. Form of Warehouse Receipt.

- (a) A warehouse receipt need not be in any particular form.
- (b) Unless a warehouse receipt provides for each of the following, the warehouse is liable for damages caused to a person injured by the omission:
 - (1) the location of the warehouse facility where the goods are stored;
 - (2) the date of issue of the receipt;
 - (3) the unique identification code of the receipt;
 - (4) a statement whether the goods received will be delivered to the bearer, to a named person, or to a named person or its order;
 - (5) the rate of storage and handling charges, but if goods are stored under a field warehousing arrangement, a statement of that fact is sufficient on a nonnegotiable receipt;
 - (6) a description of the goods or the packages containing them;
 - (7) the signature of the warehouse or its agent;
 - (8) if the receipt is issued for goods that the warehouse owns, either solely, jointly, or in common with others, the fact of that ownership; and
 - (9) a statement of the amount of advances made and of liabilities incurred for which the warehouse claims a lien or security interest but if the precise amount of advances made or of liabilities incurred is, at the time of the issue of the receipt, unknown to the warehouse or to its agent that issued the receipt, a statement of the fact that advances have been made or liabilities incurred and the purpose of the advances or liabilities is sufficient.
- (c) A warehouse may insert in its receipt any terms that are not contrary to the provisions of [the Uniform Commercial Code] and do not impair its obligation of delivery under Section 7–403 or its duty of care under Section 7–204. Any contrary provisions are ineffective.

§ 7–203. Liability for Nonreceipt or Misdescription.

A party to or purchaser for value in good faith of a document of title, other than a bill of lading, that relies upon the description of the goods in the document may recover from the issuer damages caused by the nonreceipt or misdescription of the goods, except to the extent that:

- (1) the document conspicuously indicates that the issuer does not know whether all or part of the goods in fact were received or conform to the description, such as a case in which the description is in terms of marks or labels or kind, quantity, or condition, or the receipt or description is qualified by “contents, condition, and quality unknown”, “said to contain”, or words of similar import, if the indication is true; or
- (2) the party or purchaser otherwise has notice of the nonreceipt or misdescription.

§ 7–204. Duty of Care; Contractual Limitation of Warehouse’s Liability.

- (a) A warehouse is liable for damages for loss of or injury to the goods caused by its failure to exercise care with regard to the goods that a reasonably careful person would exercise under similar circumstances. However, unless otherwise agreed, the warehouse is not liable for damages that could not have been avoided by the exercise of that care.
- (b) Damages may be limited by a term in the warehouse receipt or storage agreement limiting the amount of liability in case of loss or damage beyond which the warehouse is not liable. No such limitation is effective with respect to the warehouse’s liability for conversion to its own use. The warehouse’s liability, on request of the bailor in a record at the time of signing such storage agreement or within a reasonable time after receipt of the warehouse receipt, may be increased on part or all of the goods covered by the storage agreement or the warehouse receipt. In this event, increased rates may be charged based on an increased valuation of the goods.
- (c) Reasonable provisions as to the time and manner of presenting claims and commencing actions based on the bailment may be included in the warehouse receipt or storage agreement.
- (d) This section does not impair or repeal [Insert reference to any statute that imposes a higher responsibility upon the warehouse or invalidates contractual limitations that would be permissible under this Article.]

§ 7–205. Title Under Warehouse Receipt Defeated in Certain Cases. A buyer in ordinary course of business of fungible goods sold and delivered by a warehouse that is also in the business of buying and selling such goods takes the goods free of any claim under a warehouse receipt even if the receipt is negotiable and has been duly negotiated.

§ 7–206. Termination of Storage at Warehouse’s Option.

- (a) A warehouse, by giving notice to the person on whose account the goods are held and any other person known to claim an interest in the goods, may require payment of any charges and removal of the goods from the warehouse at the termination of the period of storage fixed by the document of title or, if a period is not fixed, within a stated period not less than 30 days after the warehouse gives notice. If the goods are not removed before the date specified in the notice, the warehouse may sell them pursuant to Section 7–210.
- (b) If a warehouse in good faith believes that goods are about to deteriorate or decline in value to less than the amount of its lien within the time provided in subsection (a) and Section 7–210, the warehouse may specify in the notice given under subsection (a) any reasonable shorter time for removal of the goods and, if the goods are not removed, may sell them at public sale held not less than one week after a single advertisement or posting.
- (c) If, as a result of a quality or condition of the goods of which the warehouse did not have notice at the time of deposit, the goods are a hazard to other property, the warehouse facilities, or other persons, the warehouse may sell the goods at public or private sale without advertisement or posting on reasonable notification to all persons known to claim an interest in the goods. If the warehouse, after a reasonable effort, is unable to sell the goods, it may dispose of them in any lawful manner and does not incur liability by reason of that disposition.
- (d) A warehouse shall deliver the goods to any person entitled to them under this article upon due demand made at any time before sale or other disposition under this section.
- (e) A warehouse may satisfy its lien from the proceeds of any sale or disposition under this section but shall hold the balance for delivery on the demand of any person to which the warehouse would have been bound to deliver the goods.

§ 7–207. Goods Must Be Kept Separate; Fungible Goods.

- (a) Unless the warehouse receipt provides otherwise, a warehouse shall keep separate the goods covered by each receipt so as to permit at all times identification and delivery of those goods. However, different lots of fungible goods may be commingled.

(b) If different lots of fungible goods are commingled, the goods are owned in common by the persons entitled thereto and the warehouse is severally liable to each owner for that owner's share. If, because of overissue, a mass of fungible goods is insufficient to meet all the receipts the warehouse has issued against it, the persons entitled include all holders to which overissued receipts have been duly negotiated.

§ 7–208. Altered Warehouse Receipts. If a blank in a negotiable tangible warehouse receipt has been filled in without authority, a good faith purchaser for value and without notice of the lack of authority may treat the insertion as authorized. Any other unauthorized alteration leaves any tangible or electronic warehouse receipt enforceable against the issuer according to its original tenor.

§ 7–209. Lien of Warehouse.

- (a) A warehouse has a lien against the bailor on the goods covered by a warehouse receipt or storage agreement or on the proceeds thereof in its possession for charges for storage or transportation, including demurrage and terminal charges, insurance, labor, or other charges, present or future, in relation to the goods, and for expenses necessary for preservation of the goods or reasonably incurred in their sale pursuant to law. If the person on whose account the goods are held is liable for similar charges or expenses in relation to other goods whenever deposited and it is stated in the warehouse receipt or storage agreement that a lien is claimed for charges and expenses in relation to other goods, the warehouse also has a lien against the goods covered by the warehouse receipt or storage agreement or on the proceeds thereof in its possession for those charges and expenses, whether or not the other goods have been delivered by the warehouse. However, as against a person to which a negotiable warehouse receipt is duly negotiated, a warehouse's lien is limited to charges in an amount or at a rate specified in the warehouse receipt or, if no charges are so specified, to a reasonable charge for storage of the specific goods covered by the receipt subsequent to the date of the receipt.
- (b) The warehouse may also reserve a security interest under Article 9 against the bailor for the maximum amount specified on the receipt for charges other than those specified in subsection (a), such as for money advanced and interest. A security interest is governed by Article 9.

(c) A warehouse's lien for charges and expenses under subsection (a) or a security interest under subsection (b) is also effective against any person that so entrusted the bailor with possession of the goods that a pledge of them by the bailor to a good faith purchaser for value would have been valid. However, the lien or security interest is not effective against a person that before issuance of a document of title had a legal interest or a perfected security interest in the goods and that did not:

- (1) deliver or entrust the goods or any document covering the goods to the bailor or the bailor's nominee with actual or apparent authority to ship, store, or sell; or with power to obtain delivery under Section 7–403; or with power of disposition under Sections 2–403, 2A–304(2), 2A–305(2) or 9–320 or other statute or rule of law; or
 - (2) acquiesce in the procurement by the bailor or its nominee of any document.
- (d) A warehouse's lien on household goods for charges and expenses in relation to the goods under subsection (a) is also effective against all persons if the depositor was the legal possessor of the goods at the time of deposit. In this subsection, "household goods" means furniture, furnishings, or personal effects used by the depositor in a dwelling.
- (e) A warehouse loses its lien on any goods that it voluntarily delivers or unjustifiably refuses to deliver.

§ 7–210. Enforcement of Warehouse's Lien.

- (a) Except as otherwise provided in subsection (b), a warehouse's lien may be enforced by public or private sale of the goods, in bulk or in packages, at any time or place and on any terms that are commercially reasonable, after notifying all persons known to claim an interest in the goods. The notification must include a statement of the amount due, the nature of the proposed sale, and the time and place of any public sale. The fact that a better price could have been obtained by a sale at a different time or in a different method from that selected by the warehouse is not of itself sufficient to establish that the sale was not made in a commercially reasonable manner. The warehouse has sold in a commercially reasonable manner if the warehouse sells the goods in the usual manner in any recognized market therefor, sells at the price current in that market at the time of the sale, or has otherwise sold in conformity with commercially reasonable practices among dealers in the type of goods sold. A sale of more goods than apparently

- necessary to be offered to ensure satisfaction of the obligation is not commercially reasonable, except in cases covered by the preceding sentence.
- (b) A warehouse's lien on goods, other than goods stored by a merchant in the course of its business, may be enforced only if the following requirements are satisfied:
- (1) All persons known to claim an interest in the goods must be notified.
 - (2) The notification must include an itemized statement of the claim, a description of the goods subject to the lien, a demand for payment within a specified time not less than 10 days after receipt of the notification, and a conspicuous statement that unless the claim is paid within that time the goods will be advertised for sale and sold by auction at a specified time and place.
 - (3) The sale must conform to the terms of the notification.
 - (4) The sale must be held at the nearest suitable place to where the goods are held or stored.
 - (5) After the expiration of the time given in the notification, an advertisement of the sale must be published once a week for two weeks consecutively in a newspaper of general circulation where the sale is to be held. The advertisement must include a description of the goods, the name of the person on whose account the goods are being held, and the time and place of the sale. The sale must take place at least 15 days after the first publication. If there is no newspaper of general circulation where the sale is to be held, the advertisement must be posted at least 10 days before the sale in not less than six conspicuous places in the neighborhood of the proposed sale.
- (c) Before any sale pursuant to this section, any person claiming a right in the goods may pay the amount necessary to satisfy the lien and the reasonable expenses incurred in complying with this section. In that event, the goods may not be sold but must be retained by the warehouse subject to the terms of the receipt and this article.
- (d) A warehouse may buy at any public sale held pursuant to this section.
- (e) A purchaser in good faith of goods sold to enforce a warehouse's lien takes the goods free of any rights of persons against which the lien was valid, despite the warehouse's noncompliance with this section.
- (f) A warehouse may satisfy its lien from the proceeds of any sale pursuant to this section but shall hold the balance, if any, for delivery on demand to any person to which the warehouse would have been bound to deliver the goods.
- (g) The rights provided by this section are in addition to all other rights allowed by law to a creditor against a debtor.
- (h) If a lien is on goods stored by a merchant in the course of its business, the lien may be enforced in accordance with subsection (a) or (b).
- (i) A warehouse is liable for damages caused by failure to comply with the requirements for sale under this section and, in case of willful violation, is liable for conversion.

Part 3: Bills of Lading: Special Provisions

§ 7-301. Liability for Nonreceipt or Misdescription; "Said to Contain"; "Shipper's Load and Count"; Improper Handling.

- (a) A consignee of a nonnegotiable bill of lading which has given value in good faith, or a holder to which a negotiable bill has been duly negotiated, relying upon the description of the goods in the bill or upon the date shown in the bill, may recover from the issuer damages caused by the misdating of the bill or the nonreceipt or misdescription of the goods, except to the extent that the document of title indicates that the issuer does not know whether any part or all of the goods in fact were received or conform to the description, such as in a case in which the description is in terms of marks or labels or kind, quantity, or condition or the receipt or description is qualified by "contents or condition of contents of packages unknown", "said to contain", "shipper's weight, load and count" or words of similar import, if that indication is true.
- (b) If goods are loaded by the issuer of the bill of lading, the issuer must count the packages of goods if shipped in packages and ascertain the kind and quantity if shipped in bulk and words such as "shipper's weight, load and count" or words of similar import indicating that the description was made by the shipper are ineffective except as to goods concealed by packages.
- (c) If bulk goods are loaded by a shipper that makes available to the issuer of the bill of lading adequate facilities for weighing those goods, the issuer must ascertain the kind and quantity within a reasonable

time after receiving the shipper's request in a record to do so. In that case, "shipper's weight" or words of similar import are ineffective.

- (d) The issuer, by including in the bill of lading the words "shipper's weight, load and count" or words of similar import, may indicate that the goods were loaded by the shipper, and, if that statement is true, the issuer is not liable for damages caused by the improper loading. However, omission of such words does not imply liability for damages caused by improper loading.
- (e) A shipper guarantees to the issuer the accuracy at the time of shipment of the description, marks, labels, number, kind, quantity, condition, and weight, as furnished by the shipper, and the shipper shall indemnify the issuer against damage caused by inaccuracies in those particulars. This right of the issuer to that indemnity does not limit its responsibility or liability under the contract of carriage to any person other than the shipper.

§ 7-302. Through Bills of Lading and Similar Documents of Title.

- (a) The issuer of a through bill of lading or other document of title embodying an undertaking to be performed in part by a person acting as its agent or by a performing carrier is liable to any person entitled to recover on the document for any breach by the other person or the performing carrier of its obligation under the document. However, to the extent that the bill covers an undertaking to be performed overseas or in territory not contiguous to the continental United States or an undertaking including matters other than transportation, this liability for breach by the other person or the performing carrier may be varied by agreement of the parties.
- (b) If goods covered by a through bill of lading or other document of title embodying an undertaking to be performed in part by a person other than the issuer are received by that person, the person is subject, with respect to its own performance while the goods are in its possession, to the obligation of the issuer. The person's obligation is discharged by delivery of the goods to another person pursuant to the document and does not include liability for breach by any other person or by the issuer.
- (c) The issuer of a through bill of lading or other document of title described in subsection (a) is entitled to recover from the performing carrier, or other person in possession of the goods when the breach of the obligation under the document occurred:

- (1) the amount it may be required to pay to any person entitled to recover on the document for the breach, as may be evidenced by any receipt, judgment, or transcript, and;
- (2) the amount of any expense reasonably incurred by the issuer in defending any action commenced by any person entitled to recover on the document for the breach.

§ 7-303. Diversion; Reconsignment; Change of Instructions.

- (a) Unless the bill of lading otherwise provides, a carrier may deliver the goods to a person or destination other than that stated in the bill or may otherwise dispose of the goods, without liability for misdelivery, on instructions from:
 - (1) the holder of a negotiable bill;
 - (2) the consignor on a nonnegotiable bill even if the consignee has given contrary instructions;
 - (3) the consignee on a nonnegotiable bill in the absence of contrary instructions from the consignor, if the goods have arrived at the billed destination or if the consignee is in possession of the tangible bill or in control of the electronic bill; or
 - (4) the consignee on a nonnegotiable bill, if the consignee is entitled as against the consignor to dispose of the goods.
- (b) Unless instructions described in subsection (a) are included in a negotiable bill of lading, a person to which the bill is duly negotiated may hold the bailee according to the original terms.

§ 7-304. Tangible Bills of Lading in a Set.

- (a) Except as customary in international transportation, a tangible bill of lading may not be issued in a set of parts. The issuer is liable for damages caused by violation of this subsection.
- (b) If a tangible bill of lading is lawfully issued in a set of parts, each of which contains an identification code and is expressed to be valid only if the goods have not been delivered against any other part, the whole of the parts constitutes one bill.
- (c) If a tangible negotiable bill of lading is lawfully issued in a set of parts and different parts are negotiated to different persons, the title of the holder to which the first due negotiation is made prevails as to both the document of title and the goods even if any later holder may have received the goods from the carrier in good faith and discharged the carrier's obligation by surrendering its part.

- (d) A person that negotiates or transfers a single part of a tangible bill of lading issued in a set is liable to holders of that part as if it were the whole set.
- (e) The bailee is obliged to deliver in accordance with Part 4 of this article against the first presented part of a tangible bill of lading lawfully issued in a set. Delivery in this manner discharges the bailee's obligation on the whole bill.

§ 7–305. Destination Bills.

- (a) Instead of issuing a bill of lading to the consignor at the place of shipment, a carrier, at the request of the consignor, may procure the bill to be issued at destination or at any other place designated in the request.
- (b) Upon request of any person entitled as against a carrier to control the goods while in transit and on surrender of possession or control of any outstanding bill of lading or other receipt covering the goods, the issuer, subject to Section 7–105, may procure a substitute bill to be issued at any place designated in the request.

§ 7–306. Altered Bills of Lading. An unauthorized alteration or filling in of a blank in a bill of lading leaves the bill enforceable according to its original tenor.

§ 7–307. Lien of Carrier.

- (a) A carrier has a lien on the goods covered by a bill of lading or on the proceeds thereof in its possession for charges after the date of the carrier's receipt of the goods for storage or transportation, including demurrage and terminal charges, and for expenses necessary for preservation of the goods incident to their transportation or reasonably incurred in their sale pursuant to law. However, against a purchaser for value of a negotiable bill of lading, a carrier's lien is limited to charges stated in the bill or the applicable tariffs or, if no charges are stated, a reasonable charge.
- (b) A lien for charges and expenses under subsection (a) on goods that the carrier was required by law to receive for transportation is effective against the consignor or any person entitled to the goods unless the carrier had notice that the consignor lacked authority to subject the goods to those charges and expenses. Any other lien under subsection (a) is effective against the consignor and any person that permitted the bailor to have control or possession of the goods unless the carrier had notice that the bailor lacked authority.
- (c) A carrier loses its lien on any goods that it voluntarily delivers or unjustifiably refuses to deliver.

§ 7–308. Enforcement of Carrier's Lien.

- (a) A carrier's lien on goods may be enforced by public or private sale of the goods, in bulk or in packages, at any time or place and on any terms that are commercially reasonable, after notifying all persons known to claim an interest in the goods. The notification must include a statement of the amount due, the nature of the proposed sale, and the time and place of any public sale. The fact that a better price could have been obtained by a sale at a different time or in a different method from that selected by the carrier is not of itself sufficient to establish that the sale was not made in a commercially reasonable manner. The carrier has sold goods in a commercially reasonable manner if the carrier sells the goods in the usual manner in any recognized market therefor, sells at the price current in that market at the time of the sale, or has otherwise sold in conformity with commercially reasonable practices among dealers in the type of goods sold. A sale of more goods than apparently necessary to be offered to ensure satisfaction of the obligation is not commercially reasonable, except in cases covered by the preceding sentence.
- (b) Before any sale pursuant to this section, any person claiming a right in the goods may pay the amount necessary to satisfy the lien and the reasonable expenses incurred in complying with this section. In that event, the goods may not be sold but must be retained by the carrier, subject to the terms of the bill of lading and this article.
- (c) A carrier may buy at any public sale pursuant to this section.
- (d) A purchaser in good faith of goods sold to enforce a carrier's lien takes the goods free of any rights of persons against which the lien was valid, despite the carrier's noncompliance with this section.
- (e) A carrier may satisfy its lien from the proceeds of any sale pursuant to this section but shall hold the balance, if any, for delivery on demand to any person to which the carrier would have been bound to deliver the goods.
- (f) The rights provided by this section are in addition to all other rights allowed by law to a creditor against a debtor.
- (g) A carrier's lien may be enforced pursuant to either subsection (a) or the procedure set forth in subsection Section 7–210(b).
- (h) A carrier is liable for damages caused by failure to comply with the requirements for sale under this section and, in case of willful violation, is liable for conversion.

§ 7–309. Duty of Care; Contractual Limitation of Carrier’s Liability.

- (a) A carrier that issues a bill of lading, whether negotiable or nonnegotiable, must exercise the degree of care in relation to the goods which a reasonably careful person would exercise under similar circumstances. This subsection does not affect any statute, regulation, or rule of law that imposes liability upon a common carrier for damages not caused by its negligence.
- (b) Damages may be limited by a term in the bill of lading that the carrier’s liability may not exceed a value stated in the bill if the carrier’s rates are dependent upon value and the consignor is afforded an opportunity to declare a higher value and the consignor is advised of the opportunity. However, no such limitation is effective with respect to the carrier’s liability for conversion to its own use.
- (c) Reasonable provisions as to the time and manner of presenting claims and commencing actions based on the shipment may be included in a bill of lading.

Part 4: Warehouse Receipts and Bills of Lading: General Obligations

§ 7–401. Irregularities in Issue of Receipt or Bill or Conduct of Issuer. The obligations imposed by this article on an issuer apply to a document of title even if:

- (1) the document does not comply with the requirements of this article or of any other statute, rule, or regulation regarding its issue, form, or content;
- (2) the issuer violated laws regulating the conduct of its business;
- (3) the goods covered by the document were owned by the bailee when the document was issued; or
- (4) the person issuing the document is not a warehouse but the document purports to be a warehouse receipt.

§ 7–402. Duplicate Document of Title; Overissue. A duplicate or any other document of title purporting to cover goods already represented by an outstanding document of the same issuer does not confer any right in the goods, except as provided in the case of tangible bills of lading in a set of parts, overissue of documents for fungible goods, substitutes for lost, stolen, or destroyed documents, or substitute documents issued pursuant to Section 7–105. The issuer is liable for damages caused by its overissue or failure to identify a duplicate document by a conspicuous notation.

§ 7–403. Obligation of Warehouse or Carrier to Deliver; Excuse.

- (a) A bailee shall deliver the goods to a person entitled under a document of title that complies with subsections (b) and (c), unless and to the extent that the bailee establishes any of the following:
 - (1) delivery of the goods to a person whose receipt was rightful as against the claimant;
 - (2) damage to or delay, loss, or destruction of the goods for which the bailee is not liable;
 - (3) previous sale or other disposition of the goods in lawful enforcement of a lien or on a warehouse’s lawful termination of storage;
 - (4) the exercise by a seller of its right to stop delivery pursuant to Section 2–705 or by a lessor of its right to stop delivery pursuant to Section 2A–526;
 - (5) a diversion, reconsignment, or other disposition pursuant to Section 7–303;
 - (6) release, satisfaction, or any other fact affording a personal defense against the claimant; or
 - (7) any other lawful excuse.
- (b) A person claiming goods covered by a document of title shall satisfy the bailee’s lien if the bailee so requests or the bailee is prohibited by law from delivering the goods until the charges are paid.
- (c) Unless a person claiming the goods is one against which the document of title does not confer a right under Section 7–503(a):
 - (1) the person claiming under a document shall surrender possession or control of any outstanding negotiable document covering the goods for cancellation or indication of partial deliveries; and
 - (2) the bailee shall cancel the document or conspicuously indicate in the document the partial delivery or be liable to any person to which the document is duly negotiated.

§ 7–404. No Liability for Good Faith Delivery Pursuant to Document of Title. A bailee that in good faith has received goods and delivered or otherwise disposed of the goods according to the terms of a document of title or pursuant to this article is not liable for the goods even if:

- (1) the person from which the bailee received the goods did not have authority to procure the document or to dispose of the goods; or
- (2) the person to which the bailee delivered the goods did not have authority to receive the goods.

Part 5: Warehouse Receipts and Bills of Lading: Negotiation and Transfer

§ 7-501. Form of Negotiation and Requirements of Due Negotiation.

- (a) The following rules apply to a negotiable tangible document of title:
- (1) If the document's original terms run to the order of a named person, the document is negotiated by the named person's indorsement and delivery. After the named person's indorsement in blank or to bearer, any person may negotiate the document by delivery alone.
 - (2) If the document's original terms run to bearer, it is negotiated by delivery alone.
 - (3) If the document's original terms run to the order of a named person and it is delivered to the named person, the effect is the same as if the document had been negotiated.
 - (4) Negotiation of the document after it has been indorsed to a named person requires indorsement by the named person as well as delivery.
 - (5) A document is duly negotiated if it is negotiated in the manner stated in this subsection to a holder that purchases it in good faith without notice of any defense against or claim to it on the part of any person and for value, unless it is established that the negotiation is not in the regular course of business or financing or involves receiving the document in settlement or payment of a monetary obligation.
- (b) The following rules apply to a negotiable electronic document of title:
- (1) If the document's original terms run to the order of a named person or to bearer, the document is negotiated by delivery of the document to another person. Indorsement by the named person is not required to negotiate the document.
 - (2) If the document's original terms run to the order of a named person and the named person has control of the document, the effect is the same as if the document had been negotiated.
 - (3) A document is duly negotiated if it is negotiated in the manner stated in this subsection to a holder that purchases it in good faith without notice of any defense against or claim to it on the part of any person and for value, unless it is established that the negotiation is not in the regular course of business or financing or involves taking delivery of the document in settlement or payment of a monetary obligation.

- (c) Indorsement of a nonnegotiable document of title neither makes it negotiable nor adds to the transferee's rights.
- (d) The naming in a negotiable bill of lading of a person to be notified of the arrival of the goods does not limit the negotiability of the bill or constitute notice to a purchaser of the bill of any interest of that person in the goods.

§ 7-502. Rights Acquired by Due Negotiation.

- (a) Subject to Sections 7-205 and 7-503, a holder to which a negotiable document of title has been duly negotiated acquires thereby:
- (1) title to the document;
 - (2) title to the goods;
 - (3) all rights accruing under the law of agency or estoppel, including rights to goods delivered to the bailee after the document was issued; and
 - (4) the direct obligation of the issuer to hold or deliver the goods according to the terms of the document free of any defense or claim by the issuer except those arising under the terms of the document or under this article. In the case of a delivery order, the bailee's obligation accrues only upon the bailee's acceptance of the delivery order and the obligation acquired by the holder is that the issuer and any indorser will procure the acceptance of the bailee.
- (b) Subject to Section 7-503, title and rights acquired by due negotiation are not defeated by any stoppage of the goods represented by the document of title or by surrender of the goods by the bailee and are not impaired even if:
- (1) the due negotiation or any prior due negotiation constituted a breach of duty;
 - (2) any person has been deprived of possession of a negotiable tangible document or control of a negotiable electronic document by misrepresentation, fraud, accident, mistake, duress, loss, theft, or conversion; or
 - (3) a previous sale or other transfer of the goods or document has been made to a third person.

§ 7-503. Document of Title to Goods Defeated in Certain Cases.

- (a) A document of title confers no right in goods against a person that before issuance of the document had a legal interest or a perfected security interest in the goods and that did not:
- (1) deliver or entrust the goods or any document covering the goods to the bailor or the bailor's

nominee with actual or apparent authority to ship, store, or sell; with power to obtain delivery under Section 7-403; or with power of disposition under Section 2-403, 2A-304(2), 2A-305(2), or 9-320 or other statute or rule of law; or

- (2) acquiesce in the procurement by the bailor or its nominee of any document.
- (b) Title to goods based upon an unaccepted delivery order is subject to the rights of any person to which a negotiable warehouse receipt or bill of lading covering the goods has been duly negotiated. That title may be defeated under Section 7-504 to the same extent as the rights of the issuer or a transferee from the issuer.
- (c) Title to goods based upon a bill of lading issued to a freight forwarder is subject to the rights of any person to which a bill issued by the freight forwarder is duly negotiated. However, delivery by the carrier in accordance with Part 4 pursuant to its own bill of lading discharges the carrier's obligation to deliver.

§ 7-504. Rights Acquired in Absence of Due Negotiation; Effect of Diversion; Stoppage of Delivery.

- (a) A transferee of a document of title, whether negotiable or nonnegotiable, to which the document has been delivered but not duly negotiated, acquires the title and rights that its transferor had or had actual authority to convey.
- (b) In the case of a nonnegotiable document of title, until but not after the bailee receives notice of the transfer, the rights of the transferee may be defeated:
 - (1) by those creditors of the transferor that could treat the transfer as void under Section 2-402 or 2A-308 ;
 - (2) by a buyer from the transferor in ordinary course of business if the bailee has delivered the goods to the buyer or received notification of the buyer's rights;
 - (3) by a lessee from the transferor in ordinary course of business if the bailee has delivered the goods to the lessee or received notification of the lessee's rights; or
 - (4) as against the bailee, by good faith dealings of the bailee with the transferor.
- (c) A diversion or other change of shipping instructions by the consignor in a nonnegotiable bill of lading which causes the bailee not to deliver the goods to the consignee defeats the consignee's title to the goods if the goods have been delivered to a buyer in ordinary course of business or a lessee in ordinary course of

business and in any event defeats the consignee's rights against the bailee.

- (d) Delivery of the goods pursuant to a nonnegotiable document of title may be stopped by a seller under Section 2-705 or a lessor under Section 2A-526, subject to the requirements of due notification in those sections. A bailee honoring the seller's or lessor's instructions is entitled to be indemnified by the seller or lessor against any resulting loss or expense.

§ 7-505. Indorser Not Guarantor for Other Parties.

The indorsement of a tangible document of title issued by a bailee does not make the indorser liable for any default by the bailee or previous indorsers.

§ 7-506. Delivery without Indorsement: Right to Compel Indorsement.

The transferee of a negotiable tangible document of title has a specifically enforceable right to have its transferor supply any necessary indorsement, but the transfer becomes a negotiation only as of the time the indorsement is supplied.

§ 7-507. Warranties on Negotiation or Delivery of Document of Title.

If a person negotiates or delivers a document of title for value, otherwise than as a mere intermediary under Section 7-508, unless otherwise agreed, the transferor warrants to its immediate purchaser only in addition to any warranty made in selling or leasing the goods that:

- (1) the document is genuine;
- (2) the transferor does not have knowledge of any fact that would impair the document's validity or worth; and
- (3) the negotiation or delivery is rightful and fully effective with respect to the title to the document and the goods it represents.

§ 7-508. Warranties of Collecting Bank as to Documents of Title.

A collecting bank or other intermediary known to be entrusted with documents of title on behalf of another or with collection of a draft or other claim against delivery of documents warrants by the delivery of the documents only its own good faith and authority even if the collecting bank or other intermediary has purchased or made advances against the claim or draft to be collected.

§ 7-509. Adequate Compliance with Commercial Contract.

Whether a document of title is adequate to fulfill the obligations of a contract for sale, a contract for lease, or the conditions of a letter of credit is determined by Article 2, 2A, or 5.

Part 6: Warehouse Receipts and Bills of Lading: Miscellaneous Provisions

§ 7–601. Lost, Stolen, or Destroyed Documents of Title.

- (a) If a document of title is lost, stolen, or destroyed, a court may order delivery of the goods or issuance of a substitute document and the bailee may without liability to any person comply with the order. If the document was negotiable, a court may not order delivery of the goods or issuance of a substitute document without the claimant's posting security unless it finds that any person that may suffer loss as a result of nonsurrender of possession or control of the document is adequately protected against the loss. If the document was nonnegotiable, the court may require security. The court may order payment of the bailee's reasonable costs and attorney's fees in any action under this subsection.
- (b) A bailee that without court order delivers goods to a person claiming under a missing negotiable document of title is liable to any person injured thereby. If the delivery is not in good faith, the bailee is liable for conversion. Delivery in good faith is not conversion if the claimant posts security with the bailee in an amount at least double the value of the goods at the time of posting to indemnify any person injured by the delivery which files a notice of claim within one year after the delivery.

§ 7–602. Attachment of Goods Covered by Negotiable Document of Title. Unless the document of title was originally issued upon delivery of the goods by a person that did not have power to dispose of them, a lien does not attach by virtue of any judicial process to goods in the possession of a bailee for which a negotiable document of title is outstanding unless possession or control of the document is first surrendered to the bailee or the document's negotiation is enjoined. The bailee may not be compelled to deliver the goods pursuant to process until possession or control of the document is surrendered to the bailee or to the court. A purchaser of the document for value without notice of the process or injunction takes free of the lien imposed by judicial process.

§ 7–603. Conflicting Claims; Interpleader. If more than one person claims title to or possession of the goods, the bailee is excused from delivery until the bailee has a reasonable time to ascertain the validity of the adverse claims or to commence an action for interpleader. The

bailee may assert an interpleader either in defending an action for nondelivery of the goods or by original action.

Part 7: Transition Provisions

§ 7–701. Effective Date. This [Act] takes effect on _____, 20 ____.

§ 7–702. Repeals. [Existing Article 7] and [Section 10-104 of the Uniform Commercial Code] are repealed.

§ 7–703. Applicability. This [Act] applies to a document of title that is issued or a bailment that arises on or after the effective date of this [Act]. This [Act] does not apply to a document of title that is issued or a bailment that arises before the effective date of this [Act] even if the document of title or bailment would be subject to this [Act] if the document of title had been issued or bailment had arisen after the effective date of this [Act]. This [Act] does not apply to a right of action that has accrued before the effective date of this [Act].

§ 7–704. Savings Clause. A document of title issued or a bailment that arises before the effective date of this [Act] and the rights, obligations, and interests flowing from that document or bailment are governed by any statute or other rule amended or repealed by this [Act] as if amendment or repeal had not occurred and may be terminated, completed, consummated, or enforced under that statute or other rule.

Article 9—Secured Transactions

Part 1: General Provisions

§ 9–101. Short Title. This article may be cited as **Uniform Commercial Code—Secured Transactions**.

§ 9–102. Definitions and Index of Definitions.

- (a) [Article 9 definitions.] In this article:
- (1) "Accession" means goods that are physically united with other goods in such a manner that the identity of the original goods is not lost.
 - (2) "Account", except as used in "account for", means a right to payment of a monetary obligation, whether or not earned by performance, (i) for property that has been or is to be sold, leased,

- licensed, assigned, or otherwise disposed of, (ii) for services rendered or to be rendered, (iii) for a policy of insurance issued or to be issued, (iv) for a secondary obligation incurred or to be incurred, (v) for energy provided or to be provided, (vi) for the use or hire of a vessel under a charter or other contract, (vii) arising out of the use of a credit or charge card or information contained on or for use with the card, or (viii) as winnings in a lottery or other game of chance operated or sponsored by a State, governmental unit of a State, or person licensed or authorized to operate the game by a State or governmental unit of a State. The term includes health-care-insurance receivables. The term does not include (i) rights to payment evidenced by chattel paper or an instrument, (ii) commercial tort claims, (iii) deposit accounts, (iv) investment property, (v) letter-of-credit rights or letters of credit, or (vi) rights to payment for money or funds advanced or sold, other than rights arising out of the use of a credit or charge card or information contained on or for use with the card.
- (3) “Account debtor” means a person obligated on an account, chattel paper, or general intangible. The term does not include persons obligated to pay a negotiable instrument, even if the instrument constitutes part of chattel paper.
- (4) “Accounting”, except as used in “accounting for”, means a record:
- (A) authenticated by a secured party;
 - (B) indicating the aggregate unpaid secured obligations as of a date not more than 35 days earlier or 35 days later than the date of the record; and
 - (C) identifying the components of the obligations in reasonable detail.
- (5) “Agricultural lien” means an interest in farm products:
- (A) which secures payment or performance of an obligation for:
 - (i) goods or services furnished in connection with a debtor’s farming operation; or
 - (ii) rent on real property leased by a debtor in connection with its farming operation;
 - (B) which is created by statute in favor of a person that:
 - (i) in the ordinary course of its business furnished goods or services to a debtor in connection with a debtor’s farming operation; or
 - (ii) leased real property to a debtor in connection with the debtor’s farming operation; and
- (C) whose effectiveness does not depend on the person’s possession of the personal property.
- (6) “As-extracted collateral” means:
- (A) oil, gas, or other minerals that are subject to a security interest that:
 - (i) is created by a debtor having an interest in the minerals before extraction; and
 - (ii) attaches to the minerals as extracted; or
 - (B) accounts arising out of the sale at the well-head or minehead of oil, gas, or other minerals in which the debtor had an interest before extraction.
- (7) “Authenticate” means:
- (A) to sign; or
 - (B) to execute or otherwise adopt a symbol, or encrypt or similarly process a record in whole or in part, with the present intent of the authenticating person to identify the person and adopt or accept a record.
- (8) “Bank” means an organization that is engaged in the business of banking. The term includes savings banks, savings and loan associations, credit unions, and trust companies.
- (9) “Cash proceeds” means proceeds that are money, checks, deposit accounts, or the like.
- (10) “Certificate of title” means a certificate of title with respect to which a statute provides for the security interest in question to be indicated on the certificate as a condition or result of the security interest’s obtaining priority over the rights of a lien creditor with respect to the collateral.
- (11) “Chattel paper” means a record or records that evidence both a monetary obligation and a security interest in specific goods, a security interest in specific goods and software used in the goods, a security interest in specific goods and license of software used in the goods, a lease of specific goods, or a lease of specific goods and license of software used in the goods. In this paragraph, “monetary obligation” means a monetary obligation secured by the goods or owed under a lease of the goods and includes a monetary obligation with respect to software used in the goods. The term does not include (i)

charters or other contracts involving the use or hire of a vessel or (ii) records that evidence a right to payment arising out of the use of a credit or charge card or information contained on or for use with the card. If a transaction is evidenced by records that include an instrument or series of instruments, the group of records taken together constitutes chattel paper.

- (12) “Collateral” means the property subject to a security interest or agricultural lien. The term includes:
- (A) proceeds to which a security interest attaches;
 - (B) accounts, chattel paper, payment intangibles, and promissory notes that have been sold; and
 - (C) goods that are the subject of a consignment.
- (13) “Commercial tort claim” means a claim arising in tort with respect to which:
- (A) the claimant is an organization; or
 - (B) the claimant is an individual and the claim:
 - (i) arose in the course of the claimant’s business or profession; and
 - (ii) does not include damages arising out of personal injury to or the death of an individual.
- (14) “Commodity account” means an account maintained by a commodity intermediary in which a commodity contract is carried for a commodity customer.
- (15) “Commodity contract” means a commodity futures contract, an option on a commodity futures contract, a commodity option, or another contract if the contract or option is:
- (A) traded on or subject to the rules of a board of trade that has been designated as a contract market for such a contract pursuant to federal commodities laws; or
 - (B) traded on a foreign commodity board of trade, exchange, or market, and is carried on the books of a commodity intermediary for a commodity customer.
- (16) “Commodity customer” means a person for which a commodity intermediary carries a commodity contract on its books.
- (17) “Commodity intermediary” means a person that:
- (A) is registered as a futures commission merchant under federal commodities law; or
 - (B) in the ordinary course of its business provides clearance or settlement services for a

board of trade that has been designated as a contract market pursuant to federal commodities law.

- (18) “Communicate” means:
- (A) to send a written or other tangible record;
 - (B) to transmit a record by any means agreed upon by the persons sending and receiving the record; or
 - (C) in the case of transmission of a record to or by a filing office, to transmit a record by any means prescribed by filing-office rule.
- (19) “Consignee” means a merchant to which goods are delivered in a consignment.
- (20) “Consignment” means a transaction, regardless of its form, in which a person delivers goods to a merchant for the purpose of sale and:
- (A) the merchant:
 - (i) deals in goods of that kind under a name other than the name of the person making delivery;
 - (ii) is not an auctioneer; and
 - (iii) is not generally known by its creditors to be substantially engaged in selling the goods of others;
 - (B) with respect to each delivery, the aggregate value of the goods is \$1,000 or more at the time of delivery;
 - (C) the goods are not consumer goods immediately before delivery; and
 - (D) the transaction does not create a security interest that secures an obligation.
- (21) “Consignor” means a person that delivers goods to a consignee in a consignment.
- (22) “Consumer debtor” means a debtor in a consumer transaction.
- (23) “Consumer goods” means goods that are used or bought for use primarily for personal, family, or household purposes.
- (24) “Consumer-goods transaction” means a consumer transaction in which:
- (A) an individual incurs an obligation primarily for personal, family, or household purposes; and
 - (B) a security interest in consumer goods secures the obligation.
- (25) “Consumer obligor” means an obligor who is an individual and who incurred the obligation as part of a transaction entered into primarily for personal, family, or household purposes.
- (26) “Consumer transaction” means a transaction in which (i) an individual incurs an obligation

- primarily for personal, family, or household purposes, (ii) a security interest secures the obligation, and (iii) the collateral is held or acquired primarily for personal, family, or household purposes. The term includes consumer-goods transactions.
- (27) “Continuation statement” means an amendment of a financing statement which:
- (A) identifies, by its file number, the initial financing statement to which it relates; and
 - (B) indicates that it is a continuation statement for, or that it is filed to continue the effectiveness of, the identified financing statement.
- (28) “Debtor” means:
- (A) a person having an interest, other than a security interest or other lien, in the collateral, whether or not the person is an obligor;
 - (B) a seller of accounts, chattel paper, payment intangibles, or promissory notes; or
 - (C) a consignee.
- (29) “Deposit account” means a demand, time, savings, passbook, or similar account maintained with a bank. The term does not include investment property or accounts evidenced by an instrument.
- (30) “Document” means a document of title or a receipt of the type described in Section 7-201(2).
- (31) “Electronic chattel paper” means chattel paper evidenced by a record or records consisting of information stored in an electronic medium.
- (32) “Encumbrance” means a right, other than an ownership interest, in real property. The term includes mortgages and other liens on real property.
- (33) “Equipment” means goods other than inventory, farm products, or consumer goods.
- (34) “Farm products” means goods, other than standing timber, with respect to which the debtor is engaged in a farming operation and which are:
- (A) crops grown, growing, or to be grown, including:
 - (i) crops produced on trees, vines, and bushes; and
 - (ii) aquatic goods produced in aquacultural operations;
 - (B) livestock, born or unborn, including aquatic goods produced in aquacultural operations;
 - (C) supplies used or produced in a farming operation; or
 - (D) products of crops or livestock in their unmanufactured states.
- (35) “Farming operation” means raising, cultivating, propagating, fattening, grazing, or any other farming, livestock, or aquacultural operation.
- (36) “File number” means the number assigned to an initial financing statement pursuant to Section 9-519(a).
- (37) “Filing office” means an office designated in Section 9-501 as the place to file a financing statement.
- (38) “Filing-office rule” means a rule adopted pursuant to Section 9-526.
- (39) “Financing statement” means a record or records composed of an initial financing statement and any filed record relating to the initial financing statement.
- (40) “Fixture filing” means the filing of a financing statement covering goods that are or are to become fixtures and satisfying Section 9-502(a) and (b). The term includes the filing of a financing statement covering goods of a transmitting utility which are or are to become fixtures.
- (41) “Fixtures” means goods that have become so related to particular real property that an interest in them arises under real property law.
- (42) “General intangible” means any personal property, including things in action, other than accounts, chattel paper, commercial tort claims, deposit accounts, documents, goods, instruments, investment property, letter-of-credit rights, letters of credit, money, and oil, gas, or other minerals before extraction. The term includes payment intangibles and software.
- (43) “Good faith” means honesty in fact and the observance of reasonable commercial standards of fair dealing.
- (44) “Goods” means all things that are movable when a security interest attaches. The term includes (i) fixtures, (ii) standing timber that is to be cut and removed under a conveyance or contract for sale, (iii) the unborn young of animals, (iv) crops grown, growing, or to be grown, even if the crops are produced on trees, vines, or bushes, and (v) manufactured homes. The term also includes a computer program embedded in goods and any supporting information provided in connection with a transaction relating to the program if (i) the program is associated with the goods in such a manner that it customarily is considered part of the goods, or (ii) by becoming the owner of the goods, a person acquires a right to use the program in connection with the goods. The term does not include a computer

program embedded in goods that consist solely of the medium in which the program is embedded. The term also does not include accounts, chattel paper, commercial tort claims, deposit accounts, documents, general intangibles, instruments, investment property, letter-of-credit rights, letters of credit, money, or oil, gas, or other minerals before extraction.

- (45) “Governmental unit” means a subdivision, agency, department, county, parish, municipality, or other unit of the government of the United States, a State, or a foreign country. The term includes an organization having a separate corporate existence if the organization is eligible to issue debt on which interest is exempt from income taxation under the laws of the United States.
- (46) “Health-care-insurance receivable” means an interest in or claim under a policy of insurance which is a right to payment of a monetary obligation for health-care goods or services provided or to be provided.
- (47) “Instrument” means a negotiable instrument or any other writing that evidences a right to the payment of a monetary obligation, is not itself a security agreement or lease, and is of a type that in ordinary course of business is transferred by delivery with any necessary indorsement or assignment. The term does not include (i) investment property, (ii) letters of credit, or (iii) writings that evidence a right to payment arising out of the use of a credit or charge card or information contained on or for use with the card.
- (48) “Inventory” means goods, other than farm products, which:
- (A) are leased by a person as lessor;
 - (B) are held by a person for sale or lease or to be furnished under a contract of service;
 - (C) are furnished by a person under a contract of service; or
 - (D) consist of raw materials, work in process, or materials used or consumed in a business.
- (49) “Investment property” means a security, whether certificated or uncertificated, security entitlement, securities account, commodity contract, or commodity account.
- (50) “Jurisdiction of organization”, with respect to a registered organization, means the jurisdiction under whose law the organization is organized.
- (51) “Letter-of-credit right” means a right to payment or performance under a letter of credit, whether or not the beneficiary has demanded or is at the time entitled to demand payment or performance. The term does not include the right of a beneficiary to demand payment or performance under a letter of credit.
- (52) “Lien creditor” means:
- (A) a creditor that has acquired a lien on the property involved by attachment, levy, or the like;
 - (B) an assignee for benefit of creditors from the time of assignment;
 - (C) a trustee in bankruptcy from the date of the filing of the petition; or
 - (D) a receiver in equity from the time of appointment.
- (53) “Manufactured home” means a structure, transportable in one or more sections, which, in the traveling mode, is eight body feet or more in width or 40 body feet or more in length, or, when erected on site, is 320 or more square feet, and which is built on a permanent chassis and designed to be used as a dwelling with or without a permanent foundation when connected to the required utilities, and includes the plumbing, heating, air-conditioning, and electrical systems contained therein. The term includes any structure that meets all of the requirements of this paragraph except the size requirements and with respect to which the manufacturer voluntarily files a certification required by the United States Secretary of Housing and Urban Development and complies with the standards established under Title 42 of the United States Code.
- (54) “Manufactured-home transaction” means a secured transaction:
- (A) that creates a purchase-money security interest in a manufactured home, other than a manufactured home held as inventory; or
 - (B) in which a manufactured home, other than a manufactured home held as inventory, is the primary collateral.
- (55) “Mortgage” means a consensual interest in real property, including fixtures, which secures payment or performance of an obligation.
- (56) “New debtor” means a person that becomes bound as debtor under Section 9-203(d) by a security agreement previously entered into by another person.
- (57) “New value” means (i) money, (ii) money’s worth in property, services, or new credit, or (iii) release by a transferee of an interest in property previously transferred to the transferee. The term does not include an obligation substituted for another obligation.

- (58) “Noncash proceeds” means proceeds other than cash proceeds.
- (59) “Obligor” means a person that, with respect to an obligation secured by a security interest in or an agricultural lien on the collateral, (i) owes payment or other performance of the obligation, (ii) has provided property other than the collateral to secure payment or other performance of the obligation, or (iii) is otherwise accountable in whole or in part for payment or other performance of the obligation. The term does not include issuers or nominated persons under a letter of credit.
- (60) “Original debtor”, except as used in Section 9-310(c), means a person that, as debtor, entered into a security agreement to which a new debtor has become bound under Section 9-203(d).
- (61) “Payment intangible” means a general intangible under which the account debtor’s principal obligation is a monetary obligation.
- (62) “Person related to”, with respect to an individual, means:
- (A) the spouse of the individual;
 - (B) a brother, brother-in-law, sister, or sister-in-law of the individual;
 - (C) an ancestor or lineal descendant of the individual or the individual’s spouse; or
 - (D) any other relative, by blood or marriage, of the individual or the individual’s spouse who shares the same home with the individual.
- (63) “Person related to”, with respect to an organization, means:
- (A) a person directly or indirectly controlling, controlled by, or under common control with the organization;
 - (B) an officer or director of, or a person performing similar functions with respect to, the organization;
 - (C) an officer or director of, or a person performing similar functions with respect to, a person described in subparagraph (A);
 - (D) the spouse of an individual described in subparagraph (A), (B), or (C); or
 - (E) an individual who is related by blood or marriage to an individual described in subparagraph (A), (B), (C), or (d) and shares the same home with the individual.
- (64) “Proceeds”, except as used in Section 9-609(b), means the following property:
- (A) whatever is acquired upon the sale, lease, license, exchange, or other disposition of collateral;
 - (B) whatever is collected on, or distributed on account of, collateral;
 - (C) rights arising out of collateral;
 - (D) to the extent of the value of collateral, claims arising out of the loss, nonconformity, or interference with the use of, defects or infringement of rights in, or damage to, the collateral; or
 - (E) to the extent of the value of collateral and to the extent payable to the debtor or the secured party, insurance payable by reason of the loss or nonconformity of, defects or infringement of rights in, or damage to, the collateral.
- (65) “Promissory note” means an instrument that evidences a promise to pay a monetary obligation, does not evidence an order to pay, and does not contain an acknowledgment by a bank that the bank has received for deposit a sum of money or funds.
- (66) “Proposal” means a record authenticated by a secured party which includes the terms on which the secured party is willing to accept collateral in full or partial satisfaction of the obligation it secures pursuant to Sections 9-620, 9-621, and 9-622.
- (67) “Public-finance transaction” means a secured transaction in connection with which:
- (A) debt securities are issued;
 - (B) all or a portion of the securities issued have an initial stated maturity of at least 20 years; and
 - (C) the debtor, obligor, secured party, account debtor or other person obligated on collateral, assignor or assignee of a secured obligation, or assignor or assignee of a security interest is a State or a governmental unit of a State.
- (68) “Pursuant to commitment”, with respect to an advance made or other value given by a secured party, means pursuant to the secured party’s obligation, whether or not a subsequent event of default or other event not within the secured party’s control has relieved or may relieve the secured party from its obligation.
- (69) “Record”, except as used in “for record”, “of record”, “record or legal title”, and “record

- owner”, means information that is inscribed on a tangible medium or which is stored in an electronic or other medium and is retrievable in perceivable form.
- (70) “Registered organization” means an organization organized solely under the law of a single State or the United States and as to which the State or the United States must maintain a public record showing the organization to have been organized.
- (71) “Secondary obligor” means an obligor to the extent that:
- (A) the obligor’s obligation is secondary; or
 - (B) the obligor has a right of recourse with respect to an obligation secured by collateral against the debtor, another obligor, or property of either.
- (72) “Secured party” means:
- (A) a person in whose favor a security interest is created or provided for under a security agreement, whether or not any obligation to be secured is outstanding;
 - (B) a person that holds an agricultural lien;
 - (C) a consignor;
 - (D) a person to which accounts, chattel paper, payment intangibles, or promissory notes have been sold;
 - (E) a trustee, indenture trustee, agent, collateral agent, or other representative in whose favor a security interest or agricultural lien is created or provided for; or
 - (F) a person that holds a security interest arising under Section 2-401, 2-505, 2-711(3), 2A-508(5), 4-210, or 5-118.
- (73) “Security agreement” means an agreement that creates or provides for a security interest.
- (74) “Send”, in connection with a record or notification, means:
- (A) to deposit in the mail, deliver for transmission, or transmit by any other usual means of communication, with postage or cost of transmission provided for, addressed to any address reasonable under the circumstances; or
 - (B) to cause the record or notification to be received within the time that it would have been received if properly sent under subparagraph (A).
- (75) “Software” means a computer program and any supporting information provided in connection with a transaction relating to the program. The term does not include a computer program that is included in the definition of goods.
- (76) “State” means a State of the United States, the District of Columbia, Puerto Rico, the United States Virgin Islands, or any territory or insular possession subject to the jurisdiction of the United States.
- (77) “Supporting obligation” means a letter-of-credit right or secondary obligation that supports the payment or performance of an account, chattel paper, a document, a general intangible, an instrument, or investment property.
- (78) “Tangible chattel paper” means chattel paper evidenced by a record or records consisting of information that is inscribed on a tangible medium.
- (79) “Termination statement” means an amendment of a financing statement which:
- (A) identifies, by its file number, the initial financing statement to which it relates; and
 - (B) indicates either that it is a termination statement or that the identified financing statement is no longer effective.
- (80) “Transmitting utility” means a person primarily engaged in the business of:
- (A) operating a railroad, subway, street railway, or trolley bus;
 - (B) transmitting communications electrically, electromagnetically, or by light;
 - (C) transmitting goods by pipeline or sewer; or
 - (D) transmitting or producing and transmitting electricity, steam, gas, or water.
- (b) **[Definitions in other articles.]** The following definitions in other articles apply to this article:

- (c) **[Article 1 definitions and principles.]** Article 1 contains general definitions and principles of construction and interpretation applicable throughout this article.

§ 9–103. Purchase-Money Security Interest; Application of Payments; Burden of Establishing.

- (a) **[Definitions.]** In this section:

- (1) “purchase-money collateral” means goods or software that secures a purchase-money obligation incurred with respect to that collateral; and
- (2) “purchase-money obligation” means an obligation of an obligor incurred as all or part of the price of the collateral or for value given to enable the debtor to acquire rights in or the use of the collateral if the value is in fact so used.

- (b) **[Purchase-money security interest in goods.]** A security interest in goods is a purchase-money security interest:

- (1) to the extent that the goods are purchase-money collateral with respect to that security interest;
- (2) if the security interest is in inventory that is or was purchase-money collateral, also to the extent that the security interest secures a purchase-money obligation incurred with respect to other inventory in which the secured party holds or held a purchase-money security interest; and
- (3) also to the extent that the security interest secures a purchase-money obligation incurred with respect to software in which the secured party holds or held a purchase-money security interest.

- (c) **[Purchase-money security interest in software.]** A security interest in software is a purchase-money security interest to the extent that the security interest also secures a purchase-money obligation incurred with respect to goods in which the secured party holds or held a purchase-money security interest if:

- (1) the debtor acquired its interest in the software in an integrated transaction in which it acquired an interest in the goods; and
- (2) the debtor acquired its interest in the software for the principal purpose of using the software in the goods.

- (d) **[Consignor’s inventory purchase-money security interest.]** The security interest of a consignor in goods that are the subject of a consignment is a purchase-money security interest in inventory.

- (e) **[Application of payment in non-consumer-goods transaction.]** In a transaction other than a consumer-goods transaction, if the extent to which a security interest is a purchase-money security interest depends on the application of a payment to a particular obligation, the payment must be applied:

- (1) in accordance with any reasonable method of application to which the parties agree;
- (2) in the absence of the parties’ agreement to a reasonable method, in accordance with any intention of the obligor manifested at or before the time of payment; or
- (3) in the absence of an agreement to a reasonable method and a timely manifestation of the obligor’s intention, in the following order:
 - (A) to obligations that are not secured; and
 - (B) if more than one obligation is secured, to obligations secured by purchase-money

security interests in the order in which those obligations were incurred.

- (f) **[No loss of status of purchase-money security interest in non-consumer-goods transaction.]** In a transaction other than a consumer-goods transaction, a purchase-money security interest does not lose its status as such, even if:
- (1) the purchase-money collateral also secures an obligation that is not a purchase-money obligation;
 - (2) collateral that is not purchase-money collateral also secures the purchase-money obligation; or
 - (3) the purchase-money obligation has been renewed, refinanced, consolidated, or restructured.
- (g) **[Burden of proof in non-consumer-goods transaction.]** In a transaction other than a consumer-goods transaction, a secured party claiming a purchase-money security interest has the burden of establishing the extent to which the security interest is a purchase-money security interest.
- (h) **[Non-consumer-goods transactions; no inference.]** The limitation of the rules in subsections (e), (f), and (g) to transactions other than consumer-goods transactions is intended to leave to the court the determination of the proper rules in consumer-goods transactions. The court may not infer from that limitation the nature of the proper rule in consumer-goods transactions and may continue to apply established approaches.

§ 9–104. Control of Deposit Account.

- (a) **[Requirements for control.]** A secured party has control of a deposit account if:
- (1) the secured party is the bank with which the deposit account is maintained;
 - (2) the debtor, secured party, and bank have agreed in an authenticated record that the bank will comply with instructions originated by the secured party directing disposition of the funds in the deposit account without further consent by the debtor; or
 - (3) the secured party becomes the bank's customer with respect to the deposit account.
- (b) **[Debtor's right to direct disposition.]** A secured party that has satisfied subsection (a) has control, even if the debtor retains the right to direct the disposition of funds from the deposit account.

§ 9–105. **Control of Electronic Chattel Paper.** A secured party has control of electronic chattel paper if the

record or records comprising the chattel paper are created, stored, and assigned in such a manner that:

- (1) a single authoritative copy of the record or records exists which is unique, identifiable and, except as otherwise provided in paragraphs (4), (5), and (6), unalterable;
- (2) the authoritative copy identifies the secured party as the assignee of the record or records;
- (3) the authoritative copy is communicated to and maintained by the secured party or its designated custodian;
- (4) copies or revisions that add or change an identified assignee of the authoritative copy can be made only with the participation of the secured party;
- (5) each copy of the authoritative copy and any copy of a copy is readily identifiable as a copy that is not the authoritative copy; and
- (6) any revision of the authoritative copy is readily identifiable as an authorized or unauthorized revision.

§ 9–106. Control of Investment Property.

- (a) **[Control under Section 8-106.]** A person has control of a certificated security, uncertificated security, or security entitlement as provided in Section 8-106.
- (b) **[Control of commodity contract.]** A secured party has control of a commodity contract if:
- (1) the secured party is the commodity intermediary with which the commodity contract is carried; or
 - (2) the commodity customer, secured party, and commodity intermediary have agreed that the commodity intermediary will apply any value distributed on account of the commodity contract as directed by the secured party without further consent by the commodity customer.
- (c) **[Effect of control of securities account or commodity account.]** A secured party having control of all security entitlements or commodity contracts carried in a securities account or commodity account has control over the securities account or commodity account.

§ 9–107. **Control of Letter-of-Credit Right.** A secured party has control of a letter-of-credit right to the extent of any right to payment or performance by the issuer or any nominated person if the issuer or nominated person has consented to an assignment of proceeds of the letter of credit under Section 5-114(c) or otherwise applicable law or practice.

§ 9–108. Sufficiency of Description.

- (a) **[Sufficiency of description.]** Except as otherwise provided in subsections (c), (d), and (e), a description of personal or real property is sufficient, whether or not it is specific, if it reasonably identifies what is described.
- (b) **[Examples of reasonable identification.]** Except as otherwise provided in subsection (d), a description of collateral reasonably identifies the collateral if it identifies the collateral by:
- (1) specific listing;
 - (2) category;
 - (3) except as otherwise provided in subsection (e), a type of collateral defined in [the Uniform Commercial Code];
 - (4) quantity;
 - (5) computational or allocational formula or procedure; or
 - (6) except as otherwise provided in subsection (c), any other method, if the identity of the collateral is objectively determinable.
- (c) **[Supergeneric description not sufficient.]** A description of collateral as “all the debtor’s assets” or “all the debtor’s personal property” or using words of similar import does not reasonably identify the collateral.
- (d) **[Investment property.]** Except as otherwise provided in subsection (e), a description of a security entitlement, securities account, or commodity account is sufficient if it describes:
- (1) the collateral by those terms or as investment property; or
 - (2) the underlying financial asset or commodity contract.
- (e) **[When description by type insufficient.]** A description only by type of collateral defined in [the Uniform Commercial Code] is an insufficient description of:
- (1) a commercial tort claim; or
 - (2) in a consumer transaction, consumer goods, a security entitlement, a securities account, or a commodity account.

[SUBPART 2. APPLICABILITY OF ARTICLE]

§ 9–109. Scope.

- (a) **[General scope of article.]** Except as otherwise provided in subsections (c) and (d), this article applies to:
- (1) a transaction, regardless of its form, that creates a security interest in personal property or fixtures by contract;
 - (2) an agricultural lien;
 - (3) a sale of accounts, chattel paper, payment intangibles, or promissory notes;
 - (4) a consignment;
 - (5) a security interest arising under Section 2-401, 2-505, 2-711(3), or 2A-508(5), as provided in Section 9-110; and
 - (6) a security interest arising under Section 4-210 or 5-118.
- (b) **[Security interest in secured obligation.]** The application of this article to a security interest in a secured obligation is not affected by the fact that the obligation is itself secured by a transaction or interest to which this article does not apply.
- (c) **[Extent to which article does not apply.]** This article does not apply to the extent that:
- (1) a statute, regulation, or treaty of the United States preempts this article;
 - (2) another statute of this State expressly governs the creation, perfection, priority, or enforcement of a security interest created by this State or a governmental unit of this State;
 - (3) a statute of another State, a foreign country, or a governmental unit of another State or a foreign country, other than a statute generally applicable to security interests, expressly governs creation, perfection, priority, or enforcement of a security interest created by the State, country, or governmental unit; or
 - (4) the rights of a transferee beneficiary or nominated person under a letter of credit are independent and superior under Section 5-114.
- (d) **[Inapplicability of article.]** This article does not apply to:
- (1) a landlord’s lien, other than an agricultural lien;
 - (2) a lien, other than an agricultural lien, given by statute or other rule of law for services or materials, but Section 9-333 applies with respect to priority of the lien;
 - (3) an assignment of a claim for wages, salary, or other compensation of an employee;
 - (4) a sale of accounts, chattel paper, payment intangibles, or promissory notes as part of a sale of the business out of which they arose;
 - (5) an assignment of accounts, chattel paper, payment intangibles, or promissory notes which is for the purpose of collection only;
 - (6) an assignment of a right to payment under a contract to an assignee that is also obligated to perform under the contract;
 - (7) an assignment of a single account, payment intangible, or promissory note to an assignee in

full or partial satisfaction of a preexisting indebtedness;

- (8) a transfer of an interest in or an assignment of a claim under a policy of insurance, other than an assignment by or to a health-care provider of a health-care-insurance receivable and any subsequent assignment of the right to payment, but Sections 9-315 and 9-322 apply with respect to proceeds and priorities in proceeds;
- (9) an assignment of a right represented by a judgment, other than a judgment taken on a right to payment that was collateral;
- (10) a right of recoupment or set-off, but:
 - (A) Section 9-340 applies with respect to the effectiveness of rights of recoupment or set-off against deposit accounts; and
 - (B) Section 9-404 applies with respect to defenses or claims of an account debtor;
- (11) the creation or transfer of an interest in or lien on real property, including a lease or rents thereunder, except to the extent that provision is made for:
 - (A) liens on real property in Sections 9-203 and 9-308;
 - (B) fixtures in Section 9-334;
 - (C) fixture filings in Sections 9-501, 9-502, 9-512, 9-516, and 9-519; and
 - (D) security agreements covering personal and real property in Section 9-604;
- (12) an assignment of a claim arising in tort, other than a commercial tort claim, but Sections 9-315 and 9-322 apply with respect to proceeds and priorities in proceeds; or
- (13) an assignment of a deposit account in a consumer transaction, but Sections 9-315 and 9-322 apply with respect to proceeds and priorities in proceeds.

§ 9–110. Security Interests Arising Under Article 2 or 2A. A security interest arising under Section 2-401, 2-505, 2-711(3), or 2A-508(5) is subject to this article. However, until the debtor obtains possession of the goods:

- (1) the security interest is enforceable, even if Section 9-203(b)(3) has not been satisfied;
- (2) filing is not required to perfect the security interest;
- (3) the rights of the secured party after default by the debtor are governed by Article 2 or 2A; and
- (4) the security interest has priority over a conflicting security interest created by the debtor.

Part 2: Effectiveness of Security Agreement; Attachment of Security Interest; Rights of Parties to Security Agreement

[SUBPART 1. EFFECTIVENESS AND ATTACHMENT]

§ 9–201. General Effectiveness of Security Agreement.

- (a) **[General effectiveness.]** Except as otherwise provided in [the Uniform Commercial Code], a security agreement is effective according to its terms between the parties, against purchasers of the collateral, and against creditors.
- (b) **[Applicable consumer laws and other law.]** A transaction subject to this article is subject to any applicable rule of law which establishes a different rule for consumers and [insert reference to (i) any other statute or regulation that regulates the rates, charges, agreements, and practices for loans, credit sales, and other extensions of credit and (ii) any consumer-protection statute or regulation].
- (c) **[Other applicable law controls.]** In case of conflict between this article and a rule of law, statute, or regulation described in subsection (b), the rule of law, statute, or regulation controls. Failure to comply with a statute or regulation described in subsection (b) has only the effect the statute or regulation specifies.
- (d) **[Further deference to other applicable law.]** This article does not:
 - (1) validate any rate, charge, agreement, or practice that violates a rule of law, statute, or regulation described in subsection (b); or
 - (2) extend the application of the rule of law, statute, or regulation to a transaction not otherwise subject to it.

§ 9–202. Title to Collateral Immaterial. Except as otherwise provided with respect to consignments or sales of accounts, chattel paper, payment intangibles, or promissory notes, the provisions of this article with regard to rights and obligations apply whether title to collateral is in the secured party or the debtor.

§ 9–203. Attachment and Enforceability of Security Interest; Proceeds; Supporting Obligations; Formal Requisites.

- (a) **[Attachment.]** A security interest attaches to collateral when it becomes enforceable against the debtor with respect to the collateral, unless an agreement expressly postpones the time of attachment.

- (b) **[Enforceability.]** Except as otherwise provided in subsections (c) through (i), a security interest is enforceable against the debtor and third parties with respect to the collateral only if :
- (1) value has been given;
 - (2) the debtor has rights in the collateral or the power to transfer rights in the collateral to a secured party; and
 - (3) one of the following conditions is met:
 - (A) the debtor has authenticated a security agreement that provides a description of the collateral and, if the security interest covers timber to be cut, a description of the land concerned;
 - (B) the collateral is not a certificated security and is in the possession of the secured party under Section 9-313 pursuant to the debtor's security agreement;
 - (C) the collateral is a certificated security in registered form and the security certificate has been delivered to the secured party under Section 8-301 pursuant to the debtor's security agreement; or
 - (D) the collateral is deposit accounts, electronic chattel paper, investment property, or letter-of-credit rights, and the secured party has control under Section 9-104, 9-105, 9-106, or 9-107 pursuant to the debtor's security agreement.
- (c) **[Other UCC provisions.]** Subsection (b) is subject to Section 4-210 on the security interest of a collecting bank, Section 5-118 on the security interest of a letter-of-credit issuer or nominated person, Section 9-110 on a security interest arising under Article 2 or 2A, and Section 9-206 on security interests in investment property.
- (d) **[When person becomes bound by another person's security agreement.]** A person becomes bound as debtor by a security agreement entered into by another person if, by operation of law other than this article or by contract:
- (1) the security agreement becomes effective to create a security interest in the person's property; or
 - (2) the person becomes generally obligated for the obligations of the other person, including the obligation secured under the security agreement, and acquires or succeeds to all or substantially all of the assets of the other person.
- (e) **[Effect of new debtor becoming bound.]** If a new debtor becomes bound as debtor by a security agreement entered into by another person:
- (1) the agreement satisfies subsection (b)(3) with respect to existing or after-acquired property of the new debtor to the extent the property is described in the agreement; and
 - (2) another agreement is not necessary to make a security interest in the property enforceable.
- (f) **[Proceeds and supporting obligations.]** The attachment of a security interest in collateral gives the secured party the rights to proceeds provided by Section 9-315 and is also attachment of a security interest in a supporting obligation for the collateral.
- (g) **[Lien securing right to payment.]** The attachment of a security interest in a right to payment or performance secured by a security interest or other lien on personal or real property is also attachment of a security interest in the security interest, mortgage, or other lien.
- (h) **[Security entitlement carried in securities account.]** The attachment of a security interest in a securities account is also attachment of a security interest in the security entitlements carried in the securities account.
- (i) **[Commodity contracts carried in commodity account.]** The attachment of a security interest in a commodity account is also attachment of a security interest in the commodity contracts carried in the commodity account.
- § 9–204. After-Acquired Property; Future Advances.**
- (a) **[After-acquired collateral.]** Except as otherwise provided in subsection (b), a security agreement may create or provide for a security interest in after-acquired collateral.
- (b) **[When after-acquired property clause not effective.]** A security interest does not attach under a term constituting an after-acquired property clause to:
- (1) consumer goods, other than an accession when given as additional security, unless the debtor acquires rights in them within 10 days after the secured party gives value; or
 - (2) a commercial tort claim.
- (c) **[Future advances and other value.]** A security agreement may provide that collateral secures, or that accounts, chattel paper, payment intangibles, or promissory notes are sold in connection with, future advances or other value, whether or not the advances or value are given pursuant to commitment.
- § 9–205. Use or Disposition of Collateral Permissible.**
- (a) **[When security interest not invalid or fraudulent.]** A security interest is not invalid or fraudulent against creditors solely because:

- (1) the debtor has the right or ability to:
 - (A) use, commingle, or dispose of all or part of the collateral, including returned or repossessed goods;
 - (B) collect, compromise, enforce, or otherwise deal with collateral;
 - (C) accept the return of collateral or make repossessions; or
 - (D) use, commingle, or dispose of proceeds; or
 - (2) the secured party fails to require the debtor to account for proceeds or replace collateral.
- (b) **[Requirements of possession not relaxed.]** This section does not relax the requirements of possession if attachment, perfection, or enforcement of a security interest depends upon possession of the collateral by the secured party.

§ 9–206. Security Interest Arising in Purchase or Delivery of Financial Asset.

- (a) **[Security interest when person buys through securities intermediary.]** A security interest in favor of a securities intermediary attaches to a person's security entitlement if:
 - (1) the person buys a financial asset through the securities intermediary in a transaction in which the person is obligated to pay the purchase price to the securities intermediary at the time of the purchase; and
 - (2) the securities intermediary credits the financial asset to the buyer's securities account before the buyer pays the securities intermediary.
- (b) **[Security interest secures obligation to pay for financial asset.]** The security interest described in subsection (a) secures the person's obligation to pay for the financial asset.
- (c) **[Security interest in payment against delivery transaction.]** A security interest in favor of a person that delivers a certificated security or other financial asset represented by a writing attaches to the security or other financial asset if:
 - (1) the security or other financial asset:
 - (A) in the ordinary course of business is transferred by delivery with any necessary indorsement or assignment; and
 - (B) is delivered under an agreement between persons in the business of dealing with such securities or financial assets; and
 - (2) the agreement calls for delivery against payment.
- (d) **[Security interest secures obligation to pay for delivery.]** The security interest described in subsection

- (c) secures the obligation to make payment for the delivery.

[SUBPART 2. RIGHTS AND DUTIES]

§ 9–207. Rights and Duties of Secured Party Having Possession or Control of Collateral.

- (a) **[Duty of care when secured party in possession.]** Except as otherwise provided in subsection (d), a secured party shall use reasonable care in the custody and preservation of collateral in the secured party's possession. In the case of chattel paper or an instrument, reasonable care includes taking necessary steps to preserve rights against prior parties unless otherwise agreed.
- (b) **[Expenses, risks, duties, and rights when secured party in possession.]** Except as otherwise provided in subsection (d), if a secured party has possession of collateral:
 - (1) reasonable expenses, including the cost of insurance and payment of taxes or other charges, incurred in the custody, preservation, use, or operation of the collateral are chargeable to the debtor and are secured by the collateral;
 - (2) the risk of accidental loss or damage is on the debtor to the extent of a deficiency in any effective insurance coverage;
 - (3) the secured party shall keep the collateral identifiable, but fungible collateral may be commingled; and
 - (4) the secured party may use or operate the collateral:
 - (A) for the purpose of preserving the collateral or its value;
 - (B) as permitted by an order of a court having competent jurisdiction; or
 - (C) except in the case of consumer goods, in the manner and to the extent agreed by the debtor.
- (c) **[Duties and rights when secured party in possession or control.]** Except as otherwise provided in subsection (d), a secured party having possession of collateral or control of collateral under Section 9-104, 9-105, 9-106, or 9-107:
 - (1) may hold as additional security any proceeds, except money or funds, received from the collateral;
 - (2) shall apply money or funds received from the collateral to reduce the secured obligation, unless remitted to the debtor; and
 - (3) may create a security interest in the collateral.

(d) **[Buyer of certain rights to payment.]** If the secured party is a buyer of accounts, chattel paper, payment intangibles, or promissory notes or a consignee:

- (1) subsection (a) does not apply unless the secured party is entitled under an agreement:
 - (A) to charge back uncollected collateral; or
 - (B) otherwise to full or limited recourse against the debtor or a secondary obligor based on the nonpayment or other default of an account debtor or other obligor on the collateral; and
- (2) subsections (b) and (c) do not apply.

§ 9–208. Additional Duties of Secured Party Having Control of Collateral.

(a) **[Applicability of section.]** This section applies to cases in which there is no outstanding secured obligation and the secured party is not committed to make advances, incur obligations, or otherwise give value.

(b) **[Duties of secured party after receiving demand from debtor.]** Within 10 days after receiving an authenticated demand by the debtor:

- (1) a secured party having control of a deposit account under Section 9-104(a)(2) shall send to the bank with which the deposit account is maintained an authenticated statement that releases the bank from any further obligation to comply with instructions originated by the secured party;
- (2) a secured party having control of a deposit account under Section 9-104(a)(3) shall:
 - (A) pay the debtor the balance on deposit in the deposit account; or
 - (B) transfer the balance on deposit into a deposit account in the debtor's name;
- (3) a secured party, other than a buyer, having control of electronic chattel paper under Section 9-105 shall:
 - (A) communicate the authoritative copy of the electronic chattel paper to the debtor or its designated custodian;
 - (B) if the debtor designates a custodian that is the designated custodian with which the authoritative copy of the electronic chattel paper is maintained for the secured party, communicate to the custodian an authenticated record releasing the designated custodian from any further obligation to comply with instructions originated by the secured party and instructing the custodian to comply with instructions originated by the debtor; and

(C) take appropriate action to enable the debtor or its designated custodian to make copies of or revisions to the authoritative copy which add or change an identified assignee of the authoritative copy without the consent of the secured party;

- (4) a secured party having control of investment property under Section 8-106(d)(2) or 9-106(b) shall send to the securities intermediary or commodity intermediary with which the security entitlement or commodity contract is maintained an authenticated record that releases the securities intermediary or commodity intermediary from any further obligation to comply with entitlement orders or directions originated by the secured party; and
- (5) a secured party having control of a letter-of-credit right under Section 9-107 shall send to each person having an unfulfilled obligation to pay or deliver proceeds of the letter of credit to the secured party an authenticated release from any further obligation to pay or deliver proceeds of the letter of credit to the secured party.

§ 9–209. Duties of Secured Party If Account Debtor Has Been Notified of Assignment.

(a) **[Applicability of section.]** Except as otherwise provided in subsection (c), this section applies if:

- (1) there is no outstanding secured obligation; and
- (2) the secured party is not committed to make advances, incur obligations, or otherwise give value.

(b) **[Duties of secured party after receiving demand from debtor.]** Within 10 days after receiving an authenticated demand by the debtor, a secured party shall send to an account debtor that has received notification of an assignment to the secured party as assignee under Section 9-406(a) an authenticated record that releases the account debtor from any further obligation to the secured party.

(c) **[Inapplicability to sales.]** This section does not apply to an assignment constituting the sale of an account, chattel paper, or payment intangible.

§ 9–210. Request for Accounting; Request Regarding List of Collateral or Statement of Account.

(a) **[Definitions.]** In this section:

- (1) “Request” means a record of a type described in paragraph (2), (3), or (4).
- (2) “Request for an accounting” means a record authenticated by a debtor requesting that the recipient provide an accounting of the unpaid obligations secured by collateral and reasonably

identifying the transaction or relationship that is the subject of the request.

- (3) “Request regarding a list of collateral” means a record authenticated by a debtor requesting that the recipient approve or correct a list of what the debtor believes to be the collateral securing an obligation and reasonably identifying the transaction or relationship that is the subject of the request.
- (4) “Request regarding a statement of account” means a record authenticated by a debtor requesting that the recipient approve or correct a statement indicating what the debtor believes to be the aggregate amount of unpaid obligations secured by collateral as of a specified date and reasonably identifying the transaction or relationship that is the subject of the request.
- (b) **[Duty to respond to requests.]** Subject to subsections (c), (d), (e), and (f), a secured party, other than a buyer of accounts, chattel paper, payment intangibles, or promissory notes or a consignor, shall comply with a request within 14 days after receipt:
- (1) in the case of a request for an accounting, by authenticating and sending to the debtor an accounting; and
 - (2) in the case of a request regarding a list of collateral or a request regarding a statement of account, by authenticating and sending to the debtor an approval or correction.
- (c) **[Request regarding list of collateral; statement concerning type of collateral.]** A secured party that claims a security interest in all of a particular type of collateral owned by the debtor may comply with a request regarding a list of collateral by sending to the debtor an authenticated record including a statement to that effect within 14 days after receipt.
- (d) **[Request regarding list of collateral; no interest claimed.]** A person that receives a request regarding a list of collateral, claims no interest in the collateral when it receives the request, and claimed an interest in the collateral at an earlier time shall comply with the request within 14 days after receipt by sending to the debtor an authenticated record:
- (1) disclaiming any interest in the collateral; and
 - (2) if known to the recipient, providing the name and mailing address of any assignee of or successor to the recipient’s interest in the collateral.
- (e) **[Request for accounting or regarding statement of account; no interest in obligation claimed.]** A person that receives a request for an accounting or a request regarding a statement of account, claims no interest in the obligations when it receives the re-

quest, and claimed an interest in the obligations at an earlier time shall comply with the request within 14 days after receipt by sending to the debtor an authenticated record:

- (1) disclaiming any interest in the obligations; and
 - (2) if known to the recipient, providing the name and mailing address of any assignee of or successor to the recipient’s interest in the obligations.
- (f) **[Charges for responses.]** A debtor is entitled without charge to one response to a request under this section during any six-month period. The secured party may require payment of a charge not exceeding \$25 for each additional response.

Part 3: Perfection and Priority

[SUBPART 1. LAW GOVERNING PERFECTION AND PRIORITY]

§ 9–301. Law Governing Perfection and Priority of Security Interests. Except as otherwise provided in Sections 9-303 through 9-306, the following rules determine the law governing perfection, the effect of perfection or nonperfection, and the priority of a security interest in collateral:

- (1) Except as otherwise provided in this section, while a debtor is located in a jurisdiction, the local law of that jurisdiction governs perfection, the effect of perfection or nonperfection, and the priority of a security interest in collateral.
- (2) While collateral is located in a jurisdiction, the local law of that jurisdiction governs perfection, the effect of perfection or nonperfection, and the priority of a possessory security interest in that collateral.
- (3) Except as otherwise provided in paragraph (4), while negotiable documents, goods, instruments, money, or tangible chattel paper is located in a jurisdiction, the local law of that jurisdiction governs:
 - (A) perfection of a security interest in the goods by filing a fixture filing;
 - (B) perfection of a security interest in timber to be cut; and
 - (C) the effect of perfection or nonperfection and the priority of a nonpossessory security interest in the collateral.
- (4) The local law of the jurisdiction in which the wellhead or minehead is located governs perfection, the effect of perfection or nonperfection, and the priority of a security interest in as-extracted collateral.

§ 9–302. Law Governing Perfection and Priority of Agricultural Liens. While farm products are located in a jurisdiction, the local law of that jurisdiction governs perfection, the effect of perfection or nonperfection, and the priority of an agricultural lien on the farm products.

§ 9–303. Law Governing Perfection and Priority of Security Interests in Goods Covered by a Certificate Of Title.

- (a) **[Applicability of section.]** This section applies to goods covered by a certificate of title, even if there is no other relationship between the jurisdiction under whose certificate of title the goods are covered and the goods or the debtor.
- (b) **[When goods covered by certificate of title.]** Goods become covered by a certificate of title when a valid application for the certificate of title and the applicable fee are delivered to the appropriate authority. Goods cease to be covered by a certificate of title at the earlier of the time the certificate of title ceases to be effective under the law of the issuing jurisdiction or the time the goods become covered subsequently by a certificate of title issued by another jurisdiction.
- (c) **[Applicable law.]** The local law of the jurisdiction under whose certificate of title the goods are covered governs perfection, the effect of perfection or nonperfection, and the priority of a security interest in goods covered by a certificate of title from the time the goods become covered by the certificate of title until the goods cease to be covered by the certificate of title.

§ 9–304. Law Governing Perfection and Priority of Security Interests in Deposit Accounts.

- (a) **[Law of bank’s jurisdiction governs.]** The local law of a bank’s jurisdiction governs perfection, the effect of perfection or nonperfection, and the priority of a security interest in a deposit account maintained with that bank.
- (b) **[Bank’s jurisdiction.]** The following rules determine a bank’s jurisdiction for purposes of this part:
 - (1) If an agreement between the bank and its customer governing the deposit account expressly provides that a particular jurisdiction is the bank’s jurisdiction for purposes of this part, this article, or [the Uniform Commercial Code], that jurisdiction is the bank’s jurisdiction.
 - (2) If paragraph (1) does not apply and an agreement between the bank and its customer governing the deposit account expressly provides that

the agreement is governed by the law of a particular jurisdiction, that jurisdiction is the bank’s jurisdiction.

- (3) If neither paragraph (1) nor paragraph (2) applies and an agreement between the bank and its customer governing the deposit account expressly provides that the deposit account is maintained at an office in a particular jurisdiction, that jurisdiction is the bank’s jurisdiction.
- (4) If none of the preceding paragraphs applies, the bank’s jurisdiction is the jurisdiction in which the office identified in an account statement as the office serving the customer’s account is located.
- (5) If none of the preceding paragraphs applies, the bank’s jurisdiction is the jurisdiction in which the chief executive office of the bank is located.

§ 9–305. Law Governing Perfection and Priority of Security Interests in Investment Property.

- (a) **[Governing law: general rules.]** Except as otherwise provided in subsection (c), the following rules apply:
 - (1) While a security certificate is located in a jurisdiction, the local law of that jurisdiction governs perfection, the effect of perfection or nonperfection, and the priority of a security interest in the certificated security represented thereby.
 - (2) The local law of the issuer’s jurisdiction as specified in Section 8-110(d) governs perfection, the effect of perfection or nonperfection, and the priority of a security interest in an uncertificated security.
 - (3) The local law of the securities intermediary’s jurisdiction as specified in Section 8-110(e) governs perfection, the effect of perfection or nonperfection, and the priority of a security interest in a security entitlement or securities account.
 - (4) The local law of the commodity intermediary’s jurisdiction governs perfection, the effect of perfection or nonperfection, and the priority of a security interest in a commodity contract or commodity account.
- (b) **[Commodity intermediary’s jurisdiction.]** The following rules determine a commodity intermediary’s jurisdiction for purposes of this part:
 - (1) If an agreement between the commodity intermediary and commodity customer governing the commodity account expressly provides that a particular jurisdiction is the commodity

intermediary's jurisdiction for purposes of this part, this article, or [the Uniform Commercial Code], that jurisdiction is the commodity intermediary's jurisdiction.

- (2) If paragraph (1) does not apply and an agreement between the commodity intermediary and commodity customer governing the commodity account expressly provides that the agreement is governed by the law of a particular jurisdiction, that jurisdiction is the commodity intermediary's jurisdiction.
 - (3) If neither paragraph (1) nor paragraph (2) applies and an agreement between the commodity intermediary and commodity customer governing the commodity account expressly provides that the commodity account is maintained at an office in a particular jurisdiction, that jurisdiction is the commodity intermediary's jurisdiction.
 - (4) If none of the preceding paragraphs applies, the commodity intermediary's jurisdiction is the jurisdiction in which the office identified in an account statement as the office serving the commodity customer's account is located.
 - (5) If none of the preceding paragraphs applies, the commodity intermediary's jurisdiction is the jurisdiction in which the chief executive office of the commodity intermediary is located.
- (c) **[When perfection governed by law of jurisdiction where debtor located.]** The local law of the jurisdiction in which the debtor is located governs:
- (1) perfection of a security interest in investment property by filing;
 - (2) automatic perfection of a security interest in investment property created by a broker or securities intermediary; and
 - (3) automatic perfection of a security interest in a commodity contract or commodity account created by a commodity intermediary.

§ 9–306. Law Governing Perfection and Priority of Security Interests in Letter-of-Credit Rights.

- (a) **[Governing law: issuer's or nominated person's jurisdiction.]** Subject to subsection (c), the local law of the issuer's jurisdiction or a nominated person's jurisdiction governs perfection, the effect of perfection or nonperfection, and the priority of a security interest in a letter-of-credit right if the issuer's jurisdiction or nominated person's jurisdiction is a State.
- (b) **[Issuer's or nominated person's jurisdiction.]** For purposes of this part, an issuer's jurisdiction or nom-

inated person's jurisdiction is the jurisdiction whose law governs the liability of the issuer or nominated person with respect to the letter-of-credit right as provided in Section 5-116.

- (c) **[When section not applicable.]** This section does not apply to a security interest that is perfected only under Section 9-308(d).

§ 9–307. Location of Debtor.

- (a) **[“Place of business.”]** In this section, “place of business” means a place where a debtor conducts its affairs.
- (b) **[Debtor's location: general rules.]** Except as otherwise provided in this section, the following rules determine a debtor's location:
 - (1) A debtor who is an individual is located at the individual's principal residence.
 - (2) A debtor that is an organization and has only one place of business is located at its place of business.
 - (3) A debtor that is an organization and has more than one place of business is located at its chief executive office.
- (c) **[Limitation of applicability of subsection (b).]** Subsection (b) applies only if a debtor's residence, place of business, or chief executive office, as applicable, is located in a jurisdiction whose law generally requires information concerning the existence of a nonpossessory security interest to be made generally available in a filing, recording, or registration system as a condition or result of the security interest's obtaining priority over the rights of a lien creditor with respect to the collateral. If subsection (b) does not apply, the debtor is located in the District of Columbia.
- (d) **[Continuation of location: cessation of existence, etc.]** A person that ceases to exist, have a residence, or have a place of business continues to be located in the jurisdiction specified by subsections (b) and (c).
- (e) **[Location of registered organization organized under State law.]** A registered organization that is organized under the law of a State is located in that State.
- (f) **[Location of registered organization organized under federal law; bank branches and agencies.]** Except as otherwise provided in subsection (i), a registered organization that is organized under the law of the United States and a branch or agency of a bank that is not organized under the law of the United States or a State are located:

- (1) in the State that the law of the United States designates, if the law designates a State of location;
 - (2) in the State that the registered organization, branch, or agency designates, if the law of the United States authorizes the registered organization, branch, or agency to designate its State of location; or
 - (3) in the District of Columbia, if neither paragraph (1) nor paragraph (2) applies.
- (g) **[Continuation of location: change in status of registered organization.]** A registered organization continues to be located in the jurisdiction specified by subsection (e) or (f) notwithstanding:
- (1) the suspension, revocation, forfeiture, or lapse of the registered organization's status as such in its jurisdiction of organization; or
 - (2) the dissolution, winding up, or cancellation of the existence of the registered organization.
- (h) **[Location of United States.]** The United States is located in the District of Columbia.
- (i) **[Location of foreign bank branch or agency if licensed in only one state.]** A branch or agency of a bank that is not organized under the law of the United States or a State is located in the State in which the branch or agency is licensed, if all branches and agencies of the bank are licensed in only one State.
- (j) **[Location of foreign air carrier.]** A foreign air carrier under the Federal Aviation Act of 1958, as amended, is located at the designated office of the agent upon which service of process may be made on behalf of the carrier.
- (k) **[Section applies only to this part.]** This section applies only for purposes of this part.

[SUBPART 2. PERFECTION]

§ 9-308. When Security Interest or Agricultural Lien Is Perfected; Continuity of Perfection.

- (a) **[Perfection of security interest.]** Except as otherwise provided in this section and Section 9-309, a security interest is perfected if it has attached and all of the applicable requirements for perfection in Sections 9-310 through 9-316 have been satisfied. A security interest is perfected when it attaches if the applicable requirements are satisfied before the security interest attaches.
- (b) **[Perfection of agricultural lien.]** An agricultural lien is perfected if it has become effective and all of the applicable requirements for perfection in Section 9-310 have been satisfied. An agricultural lien is perfected when it becomes effective if the applicable re-

quirements are satisfied before the agricultural lien becomes effective.

- (c) **[Continuous perfection; perfection by different methods.]** A security interest or agricultural lien is perfected continuously if it is originally perfected by one method under this article and is later perfected by another method under this article, without an intermediate period when it was unperfected.
- (d) **[Supporting obligation.]** Perfection of a security interest in collateral also perfects a security interest in a supporting obligation for the collateral.
- (e) **[Lien securing right to payment.]** Perfection of a security interest in a right to payment or performance also perfects a security interest in a security interest, mortgage, or other lien on personal or real property securing the right.
- (f) **[Security entitlement carried in securities account.]** Perfection of a security interest in a securities account also perfects a security interest in the security entitlements carried in the securities account.
- (g) **[Commodity contract carried in commodity account.]** Perfection of a security interest in a commodity account also perfects a security interest in the commodity contracts carried in the commodity account.

Legislative Note: Any statute conflicting with subsection (e) must be made expressly subject to that subsection.

§ 9-309. Security Interest Perfected upon Attachment. The following security interests are perfected when they attach:

- (1) a purchase-money security interest in consumer goods, except as otherwise provided in Section 9-311(b) with respect to consumer goods that are subject to a statute or treaty described in Section 9-311(a);
- (2) an assignment of accounts or payment intangibles which does not by itself or in conjunction with other assignments to the same assignee transfer a significant part of the assignor's outstanding accounts or payment intangibles;
- (3) a sale of a payment intangible;
- (4) a sale of a promissory note;
- (5) a security interest created by the assignment of a health-care-insurance receivable to the provider of the health-care goods or services;
- (6) a security interest arising under Section 2-401, 2-505, 2-711(3), or 2A-508(5), until the debtor obtains possession of the collateral;

- (7) a security interest of a collecting bank arising under Section 4-210;
- (8) a security interest of an issuer or nominated person arising under Section 5-118;
- (9) a security interest arising in the delivery of a financial asset under Section 9-206(c);
- (10) a security interest in investment property created by a broker or securities intermediary;
- (11) a security interest in a commodity contract or a commodity account created by a commodity intermediary;
- (12) an assignment for the benefit of all creditors of the transferor and subsequent transfers by the assignee thereunder; and
- (13) a security interest created by an assignment of a beneficial interest in a decedent's estate; and
- (14) a sale by an individual of an account that is a right to payment of winnings in a lottery or other game of chance.

§ 9-310. When Filing Required to Perfect Security Interest or Agricultural Lien; Security Interests and Agricultural Liens to Which Filing Provisions Do Not Apply.

- (a) **[General rule: perfection by filing.]** Except as otherwise provided in subsection (b) and Section 9-312(b), a financing statement must be filed to perfect all security interests and agricultural liens.
- (b) **[Exceptions: filing not necessary.]** The filing of a financing statement is not necessary to perfect a security interest:
 - (1) that is perfected under Section 9-308(d), (e), (f), or (g);
 - (2) that is perfected under Section 9-309 when it attaches;
 - (3) in property subject to a statute, regulation, or treaty described in Section 9-311(a);
 - (4) in goods in possession of a bailee which is perfected under Section 9-312(d)(1) or (2);
 - (5) in certificated securities, documents, goods, or instruments which is perfected without filing or possession under Section 9-312(e), (f), or (g);
 - (6) in collateral in the secured party's possession under Section 9-313;
 - (7) in a certificated security which is perfected by delivery of the security certificate to the secured party under Section 9-313;
 - (8) in deposit accounts, electronic chattel paper, investment property, or letter-of-credit rights which is perfected by control under Section 9-314;
 - (9) in proceeds which is perfected under Section 9-315; or
 - (10) that is perfected under Section 9-316.
- (c) **[Assignment of perfected security interest.]** If a secured party assigns a perfected security interest or agricultural lien, a filing under this article is not required to continue the perfected status of the security interest against creditors of and transferees from the original debtor.

§ 9-311. Perfection of Security Interests in Property Subject to Certain Statutes, Regulations, and Treaties.

- (a) **[Security interest subject to other law.]** Except as otherwise provided in subsection (d), the filing of a financing statement is not necessary or effective to perfect a security interest in property subject to:
 - (1) a statute, regulation, or treaty of the United States whose requirements for a security interest's obtaining priority over the rights of a lien creditor with respect to the property preempt Section 9-310(a);
 - (2) [list any certificate-of-title statute covering automobiles, trailers, mobile homes, boats, farm tractors, or the like, which provides for a security interest to be indicated on the certificate as a condition or result of perfection, and any non-Uniform Commercial Code central filing statute]; or
 - (3) a certificate-of-title statute of another jurisdiction which provides for a security interest to be indicated on the certificate as a condition or result of the security interest's obtaining priority over the rights of a lien creditor with respect to the property.
- (b) **[Compliance with other law.]** Compliance with the requirements of a statute, regulation, or treaty described in subsection (a) for obtaining priority over the rights of a lien creditor is equivalent to the filing of a financing statement under this article. Except as otherwise provided in subsection (d) and Sections 9-313 and 9-316(d) and (e) for goods covered by a certificate of title, a security interest in property subject to a statute, regulation, or treaty described in subsection (a) may be perfected only by compliance with those requirements, and a security interest so perfected remains perfected notwithstanding a change in the use or transfer of possession of the collateral.
- (c) **[Duration and renewal of perfection.]** Except as otherwise provided in subsection (d) and Section 9-316(d) and (e), duration and renewal of perfection

of a security interest perfected by compliance with the requirements prescribed by a statute, regulation, or treaty described in subsection (a) are governed by the statute, regulation, or treaty. In other respects, the security interest is subject to this article.

- (d) **[Inapplicability to certain inventory.]** During any period in which collateral subject to a statute specified in subsection (a)(2) is inventory held for sale or lease by a person or leased by that person as lessor and that person is in the business of selling goods of that kind, this section does not apply to a security interest in that collateral created by that person.

§ 9–312. Perfection of Security Interests in Chattel Paper, Deposit Accounts, Documents, Goods Covered by Documents, Instruments, Investment Property, Letter-of-Credit Rights, and Money; Perfection by Permissive Filing; Temporary Perfection Without Filing or Transfer of Possession.

- (a) **[Perfection by filing permitted.]** A security interest in chattel paper, negotiable documents, instruments, or investment property may be perfected by filing.
- (b) **[Control or possession of certain collateral.]** Except as otherwise provided in Section 9-315(c) and (d) for proceeds:
- (1) a security interest in a deposit account may be perfected only by control under Section 9-314;
 - (2) and except as otherwise provided in Section 9-308(d), a security interest in a letter-of-credit right may be perfected only by control under Section 9-314; and
 - (3) a security interest in money may be perfected only by the secured party's taking possession under Section 9-313.
- (c) **[Goods covered by negotiable document.]** While goods are in the possession of a bailee that has issued a negotiable document covering the goods:
- (1) a security interest in the goods may be perfected by perfecting a security interest in the document; and
 - (2) a security interest perfected in the document has priority over any security interest that becomes perfected in the goods by another method during that time.
- (d) **[Goods covered by nonnegotiable document.]** While goods are in the possession of a bailee that has issued a nonnegotiable document covering the goods, a security interest in the goods may be perfected by:
- (1) issuance of a document in the name of the secured party;
 - (2) the bailee's receipt of notification of the secured party's interest; or
 - (3) filing as to the goods.
- (e) **[Temporary perfection: new value.]** A security interest in certificated securities, negotiable documents, or instruments is perfected without filing or the taking of possession for a period of 20 days from the time it attaches to the extent that it arises for new value given under an authenticated security agreement.
- (f) **[Temporary perfection: goods or documents made available to debtor.]** A perfected security interest in a negotiable document or goods in possession of a bailee, other than one that has issued a negotiable document for the goods, remains perfected for 20 days without filing if the secured party makes available to the debtor the goods or documents representing the goods for the purpose of:
- (1) ultimate sale or exchange; or
 - (2) loading, unloading, storing, shipping, transshipping, manufacturing, processing, or otherwise dealing with them in a manner preliminary to their sale or exchange.
- (g) **[Temporary perfection: delivery of security certificate or instrument to debtor.]** A perfected security interest in a certificated security or instrument remains perfected for 20 days without filing if the secured party delivers the security certificate or instrument to the debtor for the purpose of:
- (1) ultimate sale or exchange; or
 - (2) presentation, collection, enforcement, renewal, or registration of transfer.
- (h) **[Expiration of temporary perfection.]** After the 20-day period specified in subsection (e), (f), or (g) expires, perfection depends upon compliance with this article.

§ 9–313. When Possession by or Delivery to Secured Party Perfects Security Interest Without Filing.

- (a) **[Perfection by possession or delivery.]** Except as otherwise provided in subsection (b), a secured party may perfect a security interest in negotiable documents, goods, instruments, money, or tangible chattel paper by taking possession of the collateral. A secured party may perfect a security interest in certificated securities by taking delivery of the certificated securities under Section 8-301.
- (b) **[Goods covered by certificate of title.]** With respect to goods covered by a certificate of title issued by this State, a secured party may perfect a security interest

- in the goods by taking possession of the goods only in the circumstances described in Section 9-316(d).
- (c) **[Collateral in possession of person other than debtor.]** With respect to collateral other than certificated securities and goods covered by a document, a secured party takes possession of collateral in the possession of a person other than the debtor, the secured party, or a lessee of the collateral from the debtor in the ordinary course of the debtor's business, when:
- (1) the person in possession authenticates a record acknowledging that it holds possession of the collateral for the secured party's benefit; or
 - (2) the person takes possession of the collateral after having authenticated a record acknowledging that it will hold possession of collateral for the secured party's benefit.
- (d) **[Time of perfection by possession; continuation of perfection.]** If perfection of a security interest depends upon possession of the collateral by a secured party, perfection occurs no earlier than the time the secured party takes possession and continues only while the secured party retains possession.
- (e) **[Time of perfection by delivery; continuation of perfection.]** A security interest in a certificated security in registered form is perfected by delivery when delivery of the certificated security occurs under Section 8-301 and remains perfected by delivery until the debtor obtains possession of the security certificate.
- (f) **[Acknowledgment not required.]** A person in possession of collateral is not required to acknowledge that it holds possession for a secured party's benefit.
- (g) **[Effectiveness of acknowledgment; no duties or confirmation.]** If a person acknowledges that it holds possession for the secured party's benefit:
- (1) the acknowledgment is effective under subsection (c) or Section 8-301(a), even if the acknowledgment violates the rights of a debtor; and
 - (2) unless the person otherwise agrees or law other than this article otherwise provides, the person does not owe any duty to the secured party and is not required to confirm the acknowledgment to another person.
- (h) **[Secured party's delivery to person other than debtor.]** A secured party having possession of collateral does not relinquish possession by delivering the collateral to a person other than the debtor or a lessee of the collateral from the debtor in the ordinary course of the debtor's business if the person was instructed before the delivery or is instructed contemporaneously with the delivery:
- (1) to hold possession of the collateral for the secured party's benefit; or
 - (2) to redeliver the collateral to the secured party.
- (i) **[Effect of delivery under subsection (h); no duties or confirmation.]** A secured party does not relinquish possession, even if a delivery under subsection (h) violates the rights of a debtor. A person to which collateral is delivered under subsection (h) does not owe any duty to the secured party and is not required to confirm the delivery to another person unless the person otherwise agrees or law other than this article otherwise provides.
- § 9-314. Perfection by Control.**
- (a) **[Perfection by control.]** A security interest in investment property, deposit accounts, letter-of-credit rights, or electronic chattel paper may be perfected by control of the collateral under Section 9-104, 9-105, 9-106, or 9-107.
- (b) **[Specified collateral: time of perfection by control; continuation of perfection.]** A security interest in deposit accounts, electronic chattel paper, or letter-of-credit rights is perfected by control under Section 9-104, 9-105, or 9-107 when the secured party obtains control and remains perfected by control only while the secured party retains control.
- (c) **[Investment property: time of perfection by control; continuation of perfection.]** A security interest in investment property is perfected by control under Section 9-106 from the time the secured party obtains control and remains perfected by control until:
- (1) the secured party does not have control; and
 - (2) one of the following occurs:
 - (A) if the collateral is a certificated security, the debtor has or acquires possession of the security certificate;
 - (B) if the collateral is an uncertificated security, the issuer has registered or registers the debtor as the registered owner; or
 - (C) if the collateral is a security entitlement, the debtor is or becomes the entitlement holder.
- § 9-315. Secured Party's Rights on Disposition of Collateral and in Proceeds.**
- (a) **[Disposition of collateral: continuation of security interest or agricultural lien; proceeds.]** Except as otherwise provided in this article and in Section 2-403(2):

- (1) a security interest or agricultural lien continues in collateral notwithstanding sale, lease, license, exchange, or other disposition thereof unless the secured party authorized the disposition free of the security interest or agricultural lien; and
 - (2) a security interest attaches to any identifiable proceeds of collateral.
- (b) **[When commingled proceeds identifiable.]** Proceeds that are commingled with other property are identifiable proceeds:
- (1) if the proceeds are goods, to the extent provided by Section 9-336; and
 - (2) if the proceeds are not goods, to the extent that the secured party identifies the proceeds by a method of tracing, including application of equitable principles, that is permitted under law other than this article with respect to commingled property of the type involved.
- (c) **[Perfection of security interest in proceeds.]** A security interest in proceeds is a perfected security interest if the security interest in the original collateral was perfected.
- (d) **[Continuation of perfection.]** A perfected security interest in proceeds becomes unperfected on the 21st day after the security interest attaches to the proceeds unless:
- (1) the following conditions are satisfied:
 - (A) a filed financing statement covers the original collateral;
 - (B) the proceeds are collateral in which a security interest may be perfected by filing in the office in which the financing statement has been filed; and
 - (C) the proceeds are not acquired with cash proceeds;
 - (2) the proceeds are identifiable cash proceeds; or
 - (3) the security interest in the proceeds is perfected other than under subsection (c) when the security interest attaches to the proceeds or within 20 days thereafter.
- (e) **[When perfected security interest in proceeds becomes unperfected.]** If a filed financing statement covers the original collateral, a security interest in proceeds which remains perfected under subsection (d)(1) becomes unperfected at the later of:
- (1) when the effectiveness of the filed financing statement lapses under Section 9-515 or is terminated under Section 9-513; or
 - (2) the 21st day after the security interest attaches to the proceeds.

§ 9–316. Continued Perfection of Security Interest Following Change in Governing Law.

- (a) **[General rule: effect on perfection of change in governing law.]** A security interest perfected pursuant to the law of the jurisdiction designated in Section 9-301(1) or 9-305(c) remains perfected until the earliest of:
- (1) the time perfection would have ceased under the law of that jurisdiction;
 - (2) the expiration of four months after a change of the debtor's location to another jurisdiction; or
 - (3) the expiration of one year after a transfer of collateral to a person that thereby becomes a debtor and is located in another jurisdiction.
- (b) **[Security interest perfected or unperfected under law of new jurisdiction.]** If a security interest described in subsection (a) becomes perfected under the law of the other jurisdiction before the earliest time or event described in that subsection, it remains perfected thereafter. If the security interest does not become perfected under the law of the other jurisdiction before the earliest time or event, it becomes unperfected and is deemed never to have been perfected as against a purchaser of the collateral for value.
- (c) **[Possessory security interest in collateral moved to new jurisdiction.]** A possessory security interest in collateral, other than goods covered by a certificate of title and as-extracted collateral consisting of goods, remains continuously perfected if:
- (1) the collateral is located in one jurisdiction and subject to a security interest perfected under the law of that jurisdiction;
 - (2) thereafter the collateral is brought into another jurisdiction; and
 - (3) upon entry into the other jurisdiction, the security interest is perfected under the law of the other jurisdiction.
- (d) **[Goods covered by certificate of title from this state.]** Except as otherwise provided in subsection (e), a security interest in goods covered by a certificate of title which is perfected by any method under the law of another jurisdiction when the goods become covered by a certificate of title from this State remains perfected until the security interest would have become unperfected under the law of the other jurisdiction had the goods not become so covered.
- (e) **[When subsection (d) security interest becomes unperfected against purchasers.]** A security interest described in subsection (d) becomes unperfected as against a purchaser of the goods for value and is

deemed never to have been perfected as against a purchaser of the goods for value if the applicable requirements for perfection under Section 9-311(b) or 9-313 are not satisfied before the earlier of:

- (1) the time the security interest would have become unperfected under the law of the other jurisdiction had the goods not become covered by a certificate of title from this State; or
 - (2) the expiration of four months after the goods had become so covered.
- (f) **[Change in jurisdiction of bank, issuer, nominated person, securities intermediary, or commodity intermediary.]** A security interest in deposit accounts, letter-of-credit rights, or investment property which is perfected under the law of the bank's jurisdiction, the issuer's jurisdiction, a nominated person's jurisdiction, the securities intermediary's jurisdiction, or the commodity intermediary's jurisdiction, as applicable, remains perfected until the earlier of:
- (1) the time the security interest would have become unperfected under the law of that jurisdiction; or
 - (2) the expiration of four months after a change of the applicable jurisdiction to another jurisdiction.
- (g) **[Subsection (f) security interest perfected or unperfected under law of new jurisdiction.]** If a security interest described in subsection (f) becomes perfected under the law of the other jurisdiction before the earlier of the time or the end of the period described in that subsection, it remains perfected thereafter. If the security interest does not become perfected under the law of the other jurisdiction before the earlier of that time or the end of that period, it becomes unperfected and is deemed never to have been perfected as against a purchaser of the collateral for value.

[SUBPART 3. PRIORITY]

§ 9–317. Interests That Take Priority Over or Take Free of Security Interest or Agricultural Lien.

- (a) **[Conflicting security interests and rights of lien creditors.]** A security interest or agricultural lien is subordinate to the rights of:
- (1) a person entitled to priority under Section 9-322; and
 - (2) except as otherwise provided in subsection (e), a person that becomes a lien creditor before the earlier of the time:

- (A) the security interest or agricultural lien is perfected; or
 - (B) one of the conditions specified in Section 9-203(b)(3) is met and a financing statement covering the collateral is filed.
- (b) **[Buyers that receive delivery.]** Except as otherwise provided in subsection (e), a buyer, other than a secured party, of tangible chattel paper, documents, goods, instruments, or a security certificate takes free of a security interest or agricultural lien if the buyer gives value and receives delivery of the collateral without knowledge of the security interest or agricultural lien and before it is perfected.
- (c) **[Lessees that receive delivery.]** Except as otherwise provided in subsection (e), a lessee of goods takes free of a security interest or agricultural lien if the lessee gives value and receives delivery of the collateral without knowledge of the security interest or agricultural lien and before it is perfected.
- (d) **[Licensees and buyers of certain collateral.]** A licensee of a general intangible or a buyer, other than a secured party, of accounts, electronic chattel paper, general intangibles, or investment property other than a certificated security takes free of a security interest if the licensee or buyer gives value without knowledge of the security interest and before it is perfected.
- (e) **[Purchase-money security interest.]** Except as otherwise provided in Sections 9-320 and 9-321, if a person files a financing statement with respect to a purchase-money security interest before or within 20 days after the debtor receives delivery of the collateral, the security interest takes priority over the rights of a buyer, lessee, or lien creditor which arise between the time the security interest attaches and the time of filing.

§ 9–318. No Interest Retained in Right to Payment That Is Sold; Rights and Title of Seller of Account or Chattel Paper with Respect to Creditors and Purchasers.

- (a) **[Seller retains no interest.]** A debtor that has sold an account, chattel paper, payment intangible, or promissory note does not retain a legal or equitable interest in the collateral sold.
- (b) **[Deemed rights of debtor if buyer's security interest unperfected.]** For purposes of determining the rights of creditors of, and purchasers for value of an account or chattel paper from, a debtor that has sold an account or chattel paper, while the buyer's

security interest is unperfected, the debtor is deemed to have rights and title to the account or chattel paper identical to those the debtor sold.

§ 9–319. Rights and Title of Consignee with Respect to Creditors and Purchasers.

- (a) **[Consignee has consignor’s rights.]** Except as otherwise provided in subsection (b), for purposes of determining the rights of creditors of, and purchasers for value of goods from, a consignee, while the goods are in the possession of the consignee, the consignee is deemed to have rights and title to the goods identical to those the consignor had or had power to transfer.
- (b) **[Applicability of other law.]** For purposes of determining the rights of a creditor of a consignee, law other than this article determines the rights and title of a consignee while goods are in the consignee’s possession if, under this part, a perfected security interest held by the consignor would have priority over the rights of the creditor.

§ 9–320. Buyer of Goods.

- (a) **[Buyer in ordinary course of business.]** Except as otherwise provided in subsection (e), a buyer in ordinary course of business, other than a person buying farm products from a person engaged in farming operations, takes free of a security interest created by the buyer’s seller, even if the security interest is perfected and the buyer knows of its existence.
- (b) **[Buyer of consumer goods.]** Except as otherwise provided in subsection (e), a buyer of goods from a person who used or bought the goods for use primarily for personal, family, or household purposes takes free of a security interest, even if perfected, if the buyer buys:
- (1) without knowledge of the security interest;
 - (2) for value;
 - (3) primarily for the buyer’s personal, family, or household purposes; and
 - (4) before the filing of a financing statement covering the goods.
- (c) **[Effectiveness of filing for subsection (b).]** To the extent that it affects the priority of a security interest over a buyer of goods under subsection (b), the period of effectiveness of a filing made in the jurisdiction in which the seller is located is governed by Section 9-316(a) and (b).
- (d) **[Buyer in ordinary course of business at wellhead or minehead.]** A buyer in ordinary course of business buying oil, gas, or other minerals at the wellhead

or minehead or after extraction takes free of an interest arising out of an encumbrance.

- (e) **[Possessory security interest not affected.]** Subsections (a) and (b) do not affect a security interest in goods in the possession of the secured party under Section 9-313.

§ 9–321. Licensee of General Intangible and Lessee of Goods in Ordinary Course of Business.

- (a) **[“Licensee in ordinary course of business.”]** In this section, “licensee in ordinary course of business” means a person that becomes a licensee of a general intangible in good faith, without knowledge that the license violates the rights of another person in the general intangible, and in the ordinary course from a person in the business of licensing general intangibles of that kind. A person becomes a licensee in the ordinary course if the license to the person comports with the usual or customary practices in the kind of business in which the licensor is engaged or with the licensor’s own usual or customary practices.
- (b) **[Rights of licensee in ordinary course of business.]** A licensee in ordinary course of business takes its rights under a nonexclusive license free of a security interest in the general intangible created by the licensor, even if the security interest is perfected and the licensee knows of its existence.
- (c) **[Rights of lessee in ordinary course of business.]** A lessee in ordinary course of business takes its leasehold interest free of a security interest in the goods created by the lessor, even if the security interest is perfected and the lessee knows of its existence.

§ 9–322. Priorities Among Conflicting Security Interests in and Agricultural Liens on Same Collateral.

- (a) **[General priority rules.]** Except as otherwise provided in this section, priority among conflicting security interests and agricultural liens in the same collateral is determined according to the following rules:
- (1) Conflicting perfected security interests and agricultural liens rank according to priority in time of filing or perfection. Priority dates from the earlier of the time a filing covering the collateral is first made or the security interest or agricultural lien is first perfected, if there is no period thereafter when there is neither filing nor perfection.
 - (2) A perfected security interest or agricultural lien has priority over a conflicting unperfected security interest or agricultural lien.

- (3) The first security interest or agricultural lien to attach or become effective has priority if conflicting security interests and agricultural liens are unperfected.
- (b) **[Time of perfection: proceeds and supporting obligations.]** For the purposes of subsection (a)(1):
- (1) the time of filing or perfection as to a security interest in collateral is also the time of filing or perfection as to a security interest in proceeds; and
 - (2) the time of filing or perfection as to a security interest in collateral supported by a supporting obligation is also the time of filing or perfection as to a security interest in the supporting obligation.
- (c) **[Special priority rules: proceeds and supporting obligations.]** Except as otherwise provided in subsection (f), a security interest in collateral which qualifies for priority over a conflicting security interest under Section 9-327, 9-328, 9-329, 9-330, or 9-331 also has priority over a conflicting security interest in:
- (1) any supporting obligation for the collateral; and
 - (2) proceeds of the collateral if:
 - (A) the security interest in proceeds is perfected;
 - (B) the proceeds are cash proceeds or of the same type as the collateral; and
 - (C) in the case of proceeds that are proceeds of proceeds, all intervening proceeds are cash proceeds, proceeds of the same type as the collateral, or an account relating to the collateral.
- (d) **[First-to-file priority rule for certain collateral.]** Subject to subsection (e) and except as otherwise provided in subsection (f), if a security interest in chattel paper, deposit accounts, negotiable documents, instruments, investment property, or letter-of-credit rights is perfected by a method other than filing, conflicting perfected security interests in proceeds of the collateral rank according to priority in time of filing.
- (e) **[Applicability of subsection (d).]** Subsection (d) applies only if the proceeds of the collateral are not cash proceeds, chattel paper, negotiable documents, instruments, investment property, or letter-of-credit rights.
- (f) **[Limitations on subsections (a) through (e).]** Subsections (a) through (e) are subject to:
- (1) subsection (g) and the other provisions of this part;
 - (2) Section 4-210 with respect to a security interest of a collecting bank;
 - (3) Section 5-118 with respect to a security interest of an issuer or nominated person; and
 - (4) Section 9-110 with respect to a security interest arising under Article 2 or 2A.
- (g) **[Priority under agricultural lien statute.]** A perfected agricultural lien on collateral has priority over a conflicting security interest in or agricultural lien on the same collateral if the statute creating the agricultural lien so provides.
- § 9-323. Future Advances.**
- (a) **[When priority based on time of advance.]** Except as otherwise provided in subsection (c), for purposes of determining the priority of a perfected security interest under Section 9-322(a)(1), perfection of the security interest dates from the time an advance is made to the extent that the security interest secures an advance that:
- (1) is made while the security interest is perfected only:
 - (A) under Section 9-309 when it attaches; or
 - (B) temporarily under Section 9-312(e), (f), or (g); and
 - (2) is not made pursuant to a commitment entered into before or while the security interest is perfected by a method other than under Section 9-309 or 9-312(e), (f), or (g).
- (b) **[Lien creditor.]** Except as otherwise provided in subsection (c), a security interest is subordinate to the rights of a person that becomes a lien creditor to the extent that the security interest secures an advance made more than 45 days after the person becomes a lien creditor unless the advance is made:
- (1) without knowledge of the lien; or
 - (2) pursuant to a commitment entered into without knowledge of the lien.
- (c) **[Buyer of receivables.]** Subsections (a) and (b) do not apply to a security interest held by a secured party that is a buyer of accounts, chattel paper, payment intangibles, or promissory notes or a consignor.
- (d) **[Buyer of goods.]** Except as otherwise provided in subsection (e), a buyer of goods other than a buyer in ordinary course of business takes free of a security interest to the extent that it secures advances made after the earlier of:
- (1) the time the secured party acquires knowledge of the buyer's purchase; or
 - (2) 45 days after the purchase.

- (e) **[Advances made pursuant to commitment: priority of buyer of goods.]** Subsection (d) does not apply if the advance is made pursuant to a commitment entered into without knowledge of the buyer's purchase and before the expiration of the 45-day period.
- (f) **[Lessee of goods.]** Except as otherwise provided in subsection (g), a lessee of goods, other than a lessee in ordinary course of business, takes the leasehold interest free of a security interest to the extent that it secures advances made after the earlier of:
- (1) the time the secured party acquires knowledge of the lease; or
 - (2) 45 days after the lease contract becomes enforceable.
- (g) **[Advances made pursuant to commitment: priority of lessee of goods.]** Subsection (f) does not apply if the advance is made pursuant to a commitment entered into without knowledge of the lease and before the expiration of the 45-day period.

§ 9-324. Priority of Purchase-Money Security Interests.

- (a) **[General rule: purchase-money priority.]** Except as otherwise provided in subsection (g), a perfected purchase-money security interest in goods other than inventory or livestock has priority over a conflicting security interest in the same goods, and, except as otherwise provided in Section 9-327, a perfected security interest in its identifiable proceeds also has priority, if the purchase-money security interest is perfected when the debtor receives possession of the collateral or within 20 days thereafter.
- (b) **[Inventory purchase-money priority.]** Subject to subsection (c) and except as otherwise provided in subsection (g), a perfected purchase-money security interest in inventory has priority over a conflicting security interest in the same inventory, has priority over a conflicting security interest in chattel paper or an instrument constituting proceeds of the inventory and in proceeds of the chattel paper, if so provided in Section 9-330, and, except as otherwise provided in Section 9-327, also has priority in identifiable cash proceeds of the inventory to the extent the identifiable cash proceeds are received on or before the delivery of the inventory to a buyer, if:
- (1) the purchase-money security interest is perfected when the debtor receives possession of the inventory;
 - (2) the purchase-money secured party sends an authenticated notification to the holder of the conflicting security interest;
 - (3) the holder of the conflicting security interest receives the notification within five years before

the debtor receives possession of the inventory; and

- (4) the notification states that the person sending the notification has or expects to acquire a purchase-money security interest in inventory of the debtor and describes the inventory.
- (c) **[Holders of conflicting inventory security interests to be notified.]** Subsections (b)(2) through (4) apply only if the holder of the conflicting security interest had filed a financing statement covering the same types of inventory:
- (1) if the purchase-money security interest is perfected by filing, before the date of the filing; or
 - (2) if the purchase-money security interest is temporarily perfected without filing or possession under Section 9-312(f), before the beginning of the 20-day period thereunder.
- (d) **[Livestock purchase-money priority.]** Subject to subsection (e) and except as otherwise provided in subsection (g), a perfected purchase-money security interest in livestock that are farm products has priority over a conflicting security interest in the same livestock, and, except as otherwise provided in Section 9-327, a perfected security interest in their identifiable proceeds and identifiable products in their unmanufactured states also has priority, if:
- (1) the purchase-money security interest is perfected when the debtor receives possession of the livestock;
 - (2) the purchase-money secured party sends an authenticated notification to the holder of the conflicting security interest;
 - (3) the holder of the conflicting security interest receives the notification within six months before the debtor receives possession of the livestock; and
 - (4) the notification states that the person sending the notification has or expects to acquire a purchase-money security interest in livestock of the debtor and describes the livestock.
- (e) **[Holders of conflicting livestock security interests to be notified.]** Subsections (d)(2) through (4) apply only if the holder of the conflicting security interest had filed a financing statement covering the same types of livestock:
- (1) if the purchase-money security interest is perfected by filing, before the date of the filing; or
 - (2) if the purchase-money security interest is temporarily perfected without filing or possession under Section 9-312(f), before the beginning of the 20-day period thereunder.

- (f) **[Software purchase-money priority.]** Except as otherwise provided in subsection (g), a perfected purchase-money security interest in software has priority over a conflicting security interest in the same collateral, and, except as otherwise provided in Section 9-327, a perfected security interest in its identifiable proceeds also has priority, to the extent that the purchase-money security interest in the goods in which the software was acquired for use has priority in the goods and proceeds of the goods under this section.
- (g) **[Conflicting purchase-money security interests.]** If more than one security interest qualifies for priority in the same collateral under subsection (a), (b), (d), or (f):
- (1) a security interest securing an obligation incurred as all or part of the price of the collateral has priority over a security interest securing an obligation incurred for value given to enable the debtor to acquire rights in or the use of collateral; and
 - (2) in all other cases, Section 9-322(a) applies to the qualifying security interests.

§ 9–325. Priority of Security Interests in Transferred Collateral.

- (a) **[Subordination of security interest in transferred collateral.]** Except as otherwise provided in subsection (b), a security interest created by a debtor is subordinate to a security interest in the same collateral created by another person if:
- (1) the debtor acquired the collateral subject to the security interest created by the other person;
 - (2) the security interest created by the other person was perfected when the debtor acquired the collateral; and
 - (3) there is no period thereafter when the security interest is unperfected.
- (b) **[Limitation of subsection (a) subordination.]** Subsection (a) subordinates a security interest only if the security interest:
- (1) otherwise would have priority solely under Section 9-322(a) or 9-324; or
 - (2) arose solely under Section 2-711(3) or 2A-508(5).

§ 9–326. Priority of Security Interests Created by New Debtor.

- (a) **[Subordination of security interest created by new debtor.]** Subject to subsection (b), a security interest created by a new debtor which is perfected by a filed

financing statement that is effective solely under Section 9-508 in collateral in which a new debtor has or acquires rights is subordinate to a security interest in the same collateral which is perfected other than by a filed financing statement that is effective solely under Section 9-508.

- (b) **[Priority under other provisions; multiple original debtors.]** The other provisions of this part determine the priority among conflicting security interests in the same collateral perfected by filed financing statements that are effective solely under Section 9-508. However, if the security agreements to which a new debtor became bound as debtor were not entered into by the same original debtor, the conflicting security interests rank according to priority in time of the new debtor's having become bound.

§ 9–327. Priority of Security Interests in Deposit Account. The following rules govern priority among conflicting security interests in the same deposit account:

- (1) A security interest held by a secured party having control of the deposit account under Section 9-104 has priority over a conflicting security interest held by a secured party that does not have control.
- (2) Except as otherwise provided in paragraphs (3) and (4), security interests perfected by control under Section 9-314 rank according to priority in time of obtaining control.
- (3) Except as otherwise provided in paragraph (4), a security interest held by the bank with which the deposit account is maintained has priority over a conflicting security interest held by another secured party.
- (4) A security interest perfected by control under Section 9-104(a)(3) has priority over a security interest held by the bank with which the deposit account is maintained.

§ 9–328. Priority of Security Interests in Investment Property. The following rules govern priority among conflicting security interests in the same investment property:

- (1) A security interest held by a secured party having control of investment property under Section 9-106 has priority over a security interest held by a secured party that does not have control of the investment property.
- (2) Except as otherwise provided in paragraphs (3) and (4), conflicting security interests held by secured parties each of which has control

under Section 9-106 rank according to priority in time of:

- (A) if the collateral is a security, obtaining control;
 - (B) if the collateral is a security entitlement carried in a securities account and:
 - (i) if the secured party obtained control under Section 8-106(d)(1), the secured party's becoming the person for which the securities account is maintained;
 - (ii) if the secured party obtained control under Section 8-106(d)(2), the securities intermediary's agreement to comply with the secured party's entitlement orders with respect to security entitlements carried or to be carried in the securities account; or
 - (iii) if the secured party obtained control through another person under Section 8-106(d)(3), the time on which priority would be based under this paragraph if the other person were the secured party; or
 - (C) if the collateral is a commodity contract carried with a commodity intermediary, the satisfaction of the requirement for control specified in Section 9-106(b)(2) with respect to commodity contracts carried or to be carried with the commodity intermediary.
- (3) A security interest held by a securities intermediary in a security entitlement or a securities account maintained with the securities intermediary has priority over a conflicting security interest held by another secured party.
 - (4) A security interest held by a commodity intermediary in a commodity contract or a commodity account maintained with the commodity intermediary has priority over a conflicting security interest held by another secured party.
 - (5) A security interest in a certificated security in registered form which is perfected by taking delivery under Section 9-313(a) and not by control under Section 9-314 has priority over a conflicting security interest perfected by a method other than control.
 - (6) Conflicting security interests created by a broker, securities intermediary, or commodity intermediary which are perfected without control under Section 9-106 rank equally.
 - (7) In all other cases, priority among conflicting security interests in investment property is governed by Sections 9-322 and 9-323.

§ 9-329. Priority of Security Interests in Letter-of-Credit Right. The following rules govern priority among conflicting security interests in the same letter-of-credit right:

- (1) A security interest held by a secured party having control of the letter-of-credit right under Section 9-107 has priority to the extent of its control over a conflicting security interest held by a secured party that does not have control.
- (2) Security interests perfected by control under Section 9-314 rank according to priority in time of obtaining control.

§ 9-330. Priority of Purchaser of Chattel Paper or Instrument.

- (a) **[Purchaser's priority: security interest claimed merely as proceeds.]** A purchaser of chattel paper has priority over a security interest in the chattel paper which is claimed merely as proceeds of inventory subject to a security interest if:
 - (1) in good faith and in the ordinary course of the purchaser's business, the purchaser gives new value and takes possession of the chattel paper or obtains control of the chattel paper under Section 9-105; and
 - (2) the chattel paper does not indicate that it has been assigned to an identified assignee other than the purchaser.
- (b) **[Purchaser's priority: other security interests.]** A purchaser of chattel paper has priority over a security interest in the chattel paper which is claimed other than merely as proceeds of inventory subject to a security interest if the purchaser gives new value and takes possession of the chattel paper or obtains control of the chattel paper under Section 9-105 in good faith, in the ordinary course of the purchaser's business, and without knowledge that the purchase violates the rights of the secured party.
- (c) **[Chattel paper purchaser's priority in proceeds.]** Except as otherwise provided in Section 9-327, a purchaser having priority in chattel paper under subsection (a) or (b) also has priority in proceeds of the chattel paper to the extent that:
 - (1) Section 9-322 provides for priority in the proceeds; or
 - (2) the proceeds consist of the specific goods covered by the chattel paper or cash proceeds of the specific goods, even if the purchaser's security interest in the proceeds is unperfected.
- (d) **[Instrument purchaser's priority.]** Except as otherwise provided in Section 9-331(a), a purchaser of an

instrument has priority over a security interest in the instrument perfected by a method other than possession if the purchaser gives value and takes possession of the instrument in good faith and without knowledge that the purchase violates the rights of the secured party.

- (e) **[Holder of purchase-money security interest gives new value.]** For purposes of subsections (a) and (b), the holder of a purchase-money security interest in inventory gives new value for chattel paper constituting proceeds of the inventory.
- (f) **[Indication of assignment gives knowledge.]** For purposes of subsections (b) and (d), if chattel paper or an instrument indicates that it has been assigned to an identified secured party other than the purchaser, a purchaser of the chattel paper or instrument has knowledge that the purchase violates the rights of the secured party.

§ 9–331. Priority of Rights of Purchasers of Instruments, Documents, and Securities Under Other Articles; Priority of Interests in Financial Assets and Security Entitlements Under Article 8.

- (a) **[Rights under Articles 3, 7, and 8 not limited.]** This article does not limit the rights of a holder in due course of a negotiable instrument, a holder to which a negotiable document of title has been duly negotiated, or a protected purchaser of a security. These holders or purchasers take priority over an earlier security interest, even if perfected, to the extent provided in Articles 3, 7, and 8.
- (b) **[Protection under Article 8.]** This article does not limit the rights of or impose liability on a person to the extent that the person is protected against the assertion of a claim under Article 8.
- (c) **[Filing not notice.]** Filing under this article does not constitute notice of a claim or defense to the holders, or purchasers, or persons described in subsections (a) and (b).

§ 9–332. Transfer of Money; Transfer of Funds from Deposit Account.

- (a) **[Transferee of money.]** A transferee of money takes the money free of a security interest unless the transferee acts in collusion with the debtor in violating the rights of the secured party.
- (b) **[Transferee of funds from deposit account.]** A transferee of funds from a deposit account takes the funds free of a security interest in the deposit account unless the transferee acts in collusion with the debtor in violating the rights of the secured party.

§ 9–333. Priority of Certain Liens Arising by Operation of Law.

- (a) **[“Possessory lien.”]** In this section, “possessory lien” means an interest, other than a security interest or an agricultural lien:
- (1) which secures payment or performance of an obligation for services or materials furnished with respect to goods by a person in the ordinary course of the person’s business;
 - (2) which is created by statute or rule of law in favor of the person; and
 - (3) whose effectiveness depends on the person’s possession of the goods.
- (b) **[Priority of possessory lien.]** A possessory lien on goods has priority over a security interest in the goods unless the lien is created by a statute that expressly provides otherwise.

§ 9–334. Priority of Security Interests in Fixtures and Crops.

- (a) **[Security interest in fixtures under this article.]** A security interest under this article may be created in goods that are fixtures or may continue in goods that become fixtures. A security interest does not exist under this article in ordinary building materials incorporated into an improvement on land.
- (b) **[Security interest in fixtures under real-property law.]** This article does not prevent creation of an encumbrance upon fixtures under real property law.
- (c) **[General rule: subordination of security interest in fixtures.]** In cases not governed by subsections (d) through (h), a security interest in fixtures is subordinate to a conflicting interest of an encumbrancer or owner of the related real property other than the debtor.
- (d) **[Fixtures purchase-money priority.]** Except as otherwise provided in subsection (h), a perfected security interest in fixtures has priority over a conflicting interest of an encumbrancer or owner of the real property if the debtor has an interest of record in or is in possession of the real property and:
- (1) the security interest is a purchase-money security interest;
 - (2) the interest of the encumbrancer or owner arises before the goods become fixtures; and
 - (3) the security interest is perfected by a fixture filing before the goods become fixtures or within 20 days thereafter.
- (e) **[Priority of security interest in fixtures over interests in real property.]** A perfected security interest

in fixtures has priority over a conflicting interest of an encumbrancer or owner of the real property if:

- (1) the debtor has an interest of record in the real property or is in possession of the real property and the security interest:
 - (A) is perfected by a fixture filing before the interest of the encumbrancer or owner is of record; and
 - (B) has priority over any conflicting interest of a predecessor in title of the encumbrancer or owner;
 - (2) before the goods become fixtures, the security interest is perfected by any method permitted by this article and the fixtures are readily removable:
 - (A) factory or office machines;
 - (B) equipment that is not primarily used or leased for use in the operation of the real property; or
 - (C) replacements of domestic appliances that are consumer goods;
 - (3) the conflicting interest is a lien on the real property obtained by legal or equitable proceedings after the security interest was perfected by any method permitted by this article; or
 - (4) the security interest is:
 - (A) created in a manufactured home in a manufactured-home transaction; and
 - (B) perfected pursuant to a statute described in Section 9-311(a)(2).
- (f) **[Priority based on consent, disclaimer, or right to remove.]** A security interest in fixtures, whether or not perfected, has priority over a conflicting interest of an encumbrancer or owner of the real property if:
- (1) the encumbrancer or owner has, in an authenticated record, consented to the security interest or disclaimed an interest in the goods as fixtures; or
 - (2) the debtor has a right to remove the goods as against the encumbrancer or owner.
- (g) **[Continuation of paragraph (f)(2) priority.]** The priority of the security interest under paragraph (f)(2) continues for a reasonable time if the debtor's right to remove the goods as against the encumbrancer or owner terminates.
- (h) **[Priority of construction mortgage.]** A mortgage is a construction mortgage to the extent that it secures an obligation incurred for the construction of an improvement on land, including the acquisition cost of the land, if a recorded record of the mortgage so indicates. Except as otherwise provided in subsections

(e) and (f), a security interest in fixtures is subordinate to a construction mortgage if a record of the mortgage is recorded before the goods become fixtures and the goods become fixtures before the completion of the construction. A mortgage has this priority to the same extent as a construction mortgage to the extent that it is given to refinance a construction mortgage.

- (i) **[Priority of security interest in crops.]** A perfected security interest in crops growing on real property has priority over a conflicting interest of an encumbrancer or owner of the real property if the debtor has an interest of record in or is in possession of the real property.
- (j) **[Subsection (i) prevails.]** Subsection (i) prevails over any inconsistent provisions of the following statutes:

[List here any statutes containing provisions inconsistent with subsection (i).]

Legislative Note: States that amend statutes to remove provisions inconsistent with subsection (i) need not enact subsection (j).

§ 9-335. Accessions.

- (a) **[Creation of security interest in accession.]** A security interest may be created in an accession and continues in collateral that becomes an accession.
- (b) **[Perfection of security interest.]** If a security interest is perfected when the collateral becomes an accession, the security interest remains perfected in the collateral.
- (c) **[Priority of security interest.]** Except as otherwise provided in subsection (d), the other provisions of this part determine the priority of a security interest in an accession.
- (d) **[Compliance with certificate-of-title statute.]** A security interest in an accession is subordinate to a security interest in the whole which is perfected by compliance with the requirements of a certificate-of-title statute under Section 9-311(b).
- (e) **[Removal of accession after default.]** After default, subject to Part 6, a secured party may remove an accession from other goods if the security interest in the accession has priority over the claims of every person having an interest in the whole.
- (f) **[Reimbursement following removal.]** A secured party that removes an accession from other goods under subsection (e) shall promptly reimburse any holder of a security interest or other lien on, or owner of, the whole or of the other goods, other than the

debtor, for the cost of repair of any physical injury to the whole or the other goods. The secured party need not reimburse the holder or owner for any diminution in value of the whole or the other goods caused by the absence of the accession removed or by any necessity for replacing it. A person entitled to reimbursement may refuse permission to remove until the secured party gives adequate assurance for the performance of the obligation to reimburse.

§ 9–336. Commingled Goods.

- (a) [**“Commingled goods.”**] In this section, “commingled goods” means goods that are physically united with other goods in such a manner that their identity is lost in a product or mass.
- (b) [**No security interest in commingled goods as such.**] A security interest does not exist in commingled goods as such. However, a security interest may attach to a product or mass that results when goods become commingled goods.
- (c) [**Attachment of security interest to product or mass.**] If collateral becomes commingled goods, a security interest attaches to the product or mass.
- (d) [**Perfection of security interest.**] If a security interest in collateral is perfected before the collateral becomes commingled goods, the security interest that attaches to the product or mass under subsection (c) is perfected.
- (e) [**Priority of security interest.**] Except as otherwise provided in subsection (f), the other provisions of this part determine the priority of a security interest that attaches to the product or mass under subsection (c).
- (f) [**Conflicting security interests in product or mass**] If more than one security interest attaches to the product or mass under subsection (c), the following rules determine priority:
 - (1) A security interest that is perfected under subsection (d) has priority over a security interest that is unperfected at the time the collateral becomes commingled goods.
 - (2) If more than one security interest is perfected under subsection (d), the security interests rank equally in proportion to the value of the collateral at the time it became commingled goods.

§ 9–337. Priority of Security Interests in Goods Covered by Certificate of Title. If, while a security interest in goods is perfected by any method under the law of another jurisdiction, this State issues a certificate of title that does not show that the goods are subject to the security interest or contain a statement that they may be subject to security interests not shown on the certificate:

- (1) a buyer of the goods, other than a person in the business of selling goods of that kind, takes free of the security interest if the buyer gives value and receives delivery of the goods after issuance of the certificate and without knowledge of the security interest; and
- (2) the security interest is subordinate to a conflicting security interest in the goods that attaches, and is perfected under Section 9-311(b), after issuance of the certificate and without the conflicting secured party’s knowledge of the security interest.

§ 9–338. Priority of Security Interest or Agricultural Lien Perfected by Filed Financing Statement Providing Certain Incorrect Information. If a security interest or agricultural lien is perfected by a filed financing statement providing information described in Section 9-516(b)(5) which is incorrect at the time the financing statement is filed:

- (1) the security interest or agricultural lien is subordinate to a conflicting perfected security interest in the collateral to the extent that the holder of the conflicting security interest gives value in reasonable reliance upon the incorrect information; and
- (2) a purchaser, other than a secured party, of the collateral takes free of the security interest or agricultural lien to the extent that, in reasonable reliance upon the incorrect information, the purchaser gives value and, in the case of chattel paper, documents, goods, instruments, or a security certificate, receives delivery of the collateral.

§ 9–339. Priority Subject to Subordination. This article does not preclude subordination by agreement by a person entitled to priority.

[SUBPART 4. RIGHTS OF BANK]

§ 9–340. Effectiveness of Right of Recoupment or Set-Off Against Deposit Account.

- (a) [**Exercise of recoupment or set-off.**] Except as otherwise provided in subsection (c), a bank with which a deposit account is maintained may exercise any right of recoupment or set-off against a secured party that holds a security interest in the deposit account.
- (b) [**Recoupment or set-off not affected by security interest.**] Except as otherwise provided in subsection (c), the application of this article to a security interest in a deposit account does not affect a right of

recoupment or set-off of the secured party as to a deposit account maintained with the secured party.

- (c) [**When set-off ineffective.**] The exercise by a bank of a set-off against a deposit account is ineffective against a secured party that holds a security interest in the deposit account which is perfected by control under Section 9-104(a)(3), if the set-off is based on a claim against the debtor.

§ 9-341. Bank's Rights and Duties with Respect to Deposit Account. Except as otherwise provided in Section 9-340(c), and unless the bank otherwise agrees in an authenticated record, a bank's rights and duties with respect to a deposit account maintained with the bank are not terminated, suspended, or modified by:

- (1) the creation, attachment, or perfection of a security interest in the deposit account;
- (2) the bank's knowledge of the security interest; or
- (3) the bank's receipt of instructions from the secured party.

§ 9-342. Bank's Right to Refuse to Enter into or Disclose Existence of Control Agreement. This article does not require a bank to enter into an agreement of the kind described in Section 9-104(a)(2), even if its customer so requests or directs. A bank that has entered into such an agreement is not required to confirm the existence of the agreement to another person unless requested to do so by its customer.

Part 4: Rights of Third Parties

§ 9-401. Alienability of Debtor's Rights.

- (a) [**Other law governs alienability; exceptions.**] Except as otherwise provided in subsection (b) and Sections 9-406, 9-407, 9-408, and 9-409, whether a debtor's rights in collateral may be voluntarily or involuntarily transferred is governed by law other than this article.
- (b) [**Agreement does not prevent transfer.**] An agreement between the debtor and secured party which prohibits a transfer of the debtor's rights in collateral or makes the transfer a default does not prevent the transfer from taking effect.

§ 9-402. Secured Party Not Obligated on Contract of Debtor or in Tort. The existence of a security interest, agricultural lien, or authority given to a debtor to dispose of or use collateral, without more, does not subject a secured party to liability in contract or tort for the debtor's acts or omissions.

§ 9-403. Agreement Not to Assert Defenses Against Assignee.

- (a) [**"Value."**] In this section, "value" has the meaning provided in Section 3-303(a).
- (b) [**Agreement not to assert claim or defense.**] Except as otherwise provided in this section, an agreement between an account debtor and an assignor not to assert against an assignee any claim or defense that the account debtor may have against the assignor is enforceable by an assignee that takes an assignment:
- (1) for value;
 - (2) in good faith;
 - (3) without notice of a claim of a property or possessory right to the property assigned; and
 - (4) without notice of a defense or claim in recoupment of the type that may be asserted against a person entitled to enforce a negotiable instrument under Section 3-305(a).
- (c) [**When subsection (b) not applicable.**] Subsection (b) does not apply to defenses of a type that may be asserted against a holder in due course of a negotiable instrument under Section 3-305(b).
- (d) [**Omission of required statement in consumer transaction.**] In a consumer transaction, if a record evidences the account debtor's obligation, law other than this article requires that the record include a statement to the effect that the rights of an assignee are subject to claims or defenses that the account debtor could assert against the original obligee, and the record does not include such a statement:
- (1) the record has the same effect as if the record included such a statement; and
 - (2) the account debtor may assert against an assignee those claims and defenses that would have been available if the record included such a statement.
- (e) [**Rule for individual under other law.**] This section is subject to law other than this article which establishes a different rule for an account debtor who is an individual and who incurred the obligation primarily for personal, family, or household purposes.
- (f) [**Other law not displaced.**] Except as otherwise provided in subsection (d), this section does not displace law other than this article which gives effect to an agreement by an account debtor not to assert a claim or defense against an assignee.

§ 9-404. Rights Acquired by Assignee; Claims and Defenses Against Assignee.

- (a) [**Assignee's rights subject to terms, claims, and defenses; exceptions.**] Unless an account debtor has

made an enforceable agreement not to assert defenses or claims, and subject to subsections (b) through (e), the rights of an assignee are subject to:

- (1) all terms of the agreement between the account debtor and assignor and any defense or claim in recoupment arising from the transaction that gave rise to the contract; and
 - (2) any other defense or claim of the account debtor against the assignor which accrues before the account debtor receives a notification of the assignment authenticated by the assignor or the assignee.
- (b) **[Account debtor's claim reduces amount owed to assignee.]** Subject to subsection (c) and except as otherwise provided in subsection (d), the claim of an account debtor against an assignor may be asserted against an assignee under subsection (a) only to reduce the amount the account debtor owes.
- (c) **[Rule for individual under other law.]** This section is subject to law other than this article which establishes a different rule for an account debtor who is an individual and who incurred the obligation primarily for personal, family, or household purposes.
- (d) **[Omission of required statement in consumer transaction.]** In a consumer transaction, if a record evidences the account debtor's obligation, law other than this article requires that the record include a statement to the effect that the account debtor's recovery against an assignee with respect to claims and defenses against the assignor may not exceed amounts paid by the account debtor under the record, and the record does not include such a statement, the extent to which a claim of an account debtor against the assignor may be asserted against an assignee is determined as if the record included such a statement.
- (e) **[Inapplicability to health-care-insurance receivable.]** This section does not apply to an assignment of a health-care-insurance receivable.

§ 9-405. Modification of Assigned Contract.

- (a) **[Effect of modification on assignee.]** A modification of or substitution for an assigned contract is effective against an assignee if made in good faith. The assignee acquires corresponding rights under the modified or substituted contract. The assignment may provide that the modification or substitution is a breach of contract by the assignor. This subsection is subject to subsections (b) through (d).
- (b) **[Applicability of subsection (a).]** Subsection (a) applies to the extent that:

- (1) the right to payment or a part thereof under an assigned contract has not been fully earned by performance; or
 - (2) the right to payment or a part thereof has been fully earned by performance and the account debtor has not received notification of the assignment under Section 9-406(a).
- (c) **[Rule for individual under other law.]** This section is subject to law other than this article which establishes a different rule for an account debtor who is an individual and who incurred the obligation primarily for personal, family, or household purposes.
- (d) **[Inapplicability to health-care-insurance receivable.]** This section does not apply to an assignment of a health-care-insurance receivable.

§ 9-406. Discharge of Account Debtor; Notification of Assignment; Identification and Proof of Assignment; Restrictions on Assignment of Accounts, Chattel Paper, Payment Intangibles, and Promissory Notes Ineffective.

- (a) **[Discharge of account debtor; effect of notification.]** Subject to subsections (b) through (i), an account debtor on an account, chattel paper, or a payment intangible may discharge its obligation by paying the assignor until, but not after, the account debtor receives a notification, authenticated by the assignor or the assignee, that the amount due or to become due has been assigned and that payment is to be made to the assignee. After receipt of the notification, the account debtor may discharge its obligation by paying the assignee and may not discharge the obligation by paying the assignor.
- (b) **[When notification ineffective.]** Subject to subsection (h), notification is ineffective under subsection (a):
- (1) if it does not reasonably identify the rights assigned;
 - (2) to the extent that an agreement between an account debtor and a seller of a payment intangible limits the account debtor's duty to pay a person other than the seller and the limitation is effective under law other than this article; or
 - (3) at the option of an account debtor, if the notification notifies the account debtor to make less than the full amount of any installment or other periodic payment to the assignee, even if:
 - (A) only a portion of the account, chattel paper, or payment intangible has been assigned to that assignee;

- (B) a portion has been assigned to another assignee; or
 - (C) the account debtor knows that the assignment to that assignee is limited.
- (c) **[Proof of assignment.]** Subject to subsection (h), if requested by the account debtor, an assignee shall seasonably furnish reasonable proof that the assignment has been made. Unless the assignee complies, the account debtor may discharge its obligation by paying the assignor, even if the account debtor has received a notification under subsection (a).
- (d) **[Term restricting assignment generally ineffective.]** Except as otherwise provided in subsection (e) and Sections 2A-303 and 9-407, and subject to subsection (h), a term in an agreement between an account debtor and an assignor or in a promissory note is ineffective to the extent that it:
- (1) prohibits, restricts, or requires the consent of the account debtor or person obligated on the promissory note to the assignment or transfer of, or the creation, attachment, perfection, or enforcement of a security interest in, the account, chattel paper, payment intangible, or promissory note; or
 - (2) provides that the assignment or transfer or the creation, attachment, perfection, or enforcement of the security interest may give rise to a default, breach, right of recoupment, claim, defense, termination, right of termination, or remedy under the account, chattel paper, payment intangible, or promissory note.
- (e) **[Inapplicability of subsection (d) to certain sales.]** Subsection (d) does not apply to the sale of a payment intangible or promissory note.
- (f) **[Legal restrictions on assignment generally ineffective.]** Except as otherwise provided in Sections 2A-303 and 9-407 and subject to subsections (h) and (i), a rule of law, statute, or regulation that prohibits, restricts, or requires the consent of a government, governmental body or official, or account debtor to the assignment or transfer of, or creation of a security interest in, an account or chattel paper is ineffective to the extent that the rule of law, statute, or regulation:
- (1) prohibits, restricts, or requires the consent of the government, governmental body or official, or account debtor to the assignment or transfer of, or the creation, attachment, perfection, or enforcement of a security interest in the account or chattel paper; or
 - (2) provides that the assignment or transfer or the creation, attachment, perfection, or enforcement of the security interest may give rise to a default, breach, right of recoupment, claim, defense, termination, right of termination, or remedy under the account or chattel paper.
- (g) **[Subsection (b)(3) not waivable.]** Subject to subsection (h), an account debtor may not waive or vary its option under subsection (b)(3).
- (h) **[Rule for individual under other law.]** This section is subject to law other than this article which establishes a different rule for an account debtor who is an individual and who incurred the obligation primarily for personal, family, or household purposes.
- (i) **[Inapplicability to health-care-insurance receivable.]** This section does not apply to an assignment of a health-care-insurance receivable.
- (j) **[Section prevails over specified inconsistent law.]** This section prevails over any inconsistent provisions of the following statutes, rules, and regulations:[List here any statutes, rules, and regulations containing provisions inconsistent with this section.]
- Legislative Note: States that amend statutes, rules, and regulations to remove provisions inconsistent with this section need not enact subsection (j).*
- § 9-407. Restrictions on Creation or Enforcement of Security Interest in Leasehold Interest or in Lessor's Residual Interest.**
- (a) **[Term restricting assignment generally ineffective.]** Except as otherwise provided in subsection (b), a term in a lease agreement is ineffective to the extent that it:
- (1) prohibits, restricts, or requires the consent of a party to the lease to the assignment or transfer of, or the creation, attachment, perfection, or enforcement of a security interest in, an interest of a party under the lease contract or in the lessor's residual interest in the goods; or
 - (2) provides that the assignment or transfer or the creation, attachment, perfection, or enforcement of the security interest may give rise to a default, breach, right of recoupment, claim, defense, termination, right of termination, or remedy under the lease.
- (b) **[Effectiveness of certain terms.]** Except as otherwise provided in Section 2A-303(7), a term described in subsection (a)(2) is effective to the extent that there is:

- (1) a transfer by the lessee of the lessee's right of possession or use of the goods in violation of the term; or
 - (2) a delegation of a material performance of either party to the lease contract in violation of the term.
- (c) **[Security interest not material impairment.]** The creation, attachment, perfection, or enforcement of a security interest in the lessor's interest under the lease contract or the lessor's residual interest in the goods is not a transfer that materially impairs the lessee's prospect of obtaining return performance or materially changes the duty of or materially increases the burden or risk imposed on the lessee within the purview of Section 2A-303(4) unless, and then only to the extent that, enforcement actually results in a delegation of material performance of the lessor.

§ 9-408. Restrictions on Assignment of Promissory Notes, Health-Care-Insurance Receivables, and Certain General Intangibles Ineffective.

- (a) **[Term restricting assignment generally ineffective.]** Except as otherwise provided in subsection (b), a term in a promissory note or in an agreement between an account debtor and a debtor which relates to a health-care-insurance receivable or a general intangible, including a contract, permit, license, or franchise, and which term prohibits, restricts, or requires the consent of the person obligated on the promissory note or the account debtor to, the assignment or transfer of, or creation, attachment, or perfection of a security interest in, the promissory note, health-care-insurance receivable, or general intangible, is ineffective to the extent that the term:
- (1) would impair the creation, attachment, or perfection of a security interest; or
 - (2) provides that the assignment or transfer or the creation, attachment, or perfection of the security interest may give rise to a default, breach, right of recoupment, claim, defense, termination, right of termination, or remedy under the promissory note, health-care-insurance receivable, or general intangible.
- (b) **[Applicability of subsection (a) to sales of certain rights to payment.]** Subsection (a) applies to a security interest in a payment intangible or promissory note only if the security interest arises out of a sale of the payment intangible or promissory note.
- (c) **[Legal restrictions on assignment generally ineffective.]** A rule of law, statute, or regulation that prohibits, restricts, or requires the consent of a government, governmental body or official, person obligated on a promissory note, or account debtor to the assignment or transfer of, or creation of a security interest in, a promissory note, health-care-insurance receivable, or general intangible, including a contract, permit, license, or franchise between an account debtor and a debtor, is ineffective to the extent that the rule of law, statute, or regulation:
- (1) would impair the creation, attachment, or perfection of a security interest; or
 - (2) provides that the assignment or transfer or the creation, attachment, or perfection of the security interest may give rise to a default, breach, right of recoupment, claim, defense, termination, right of termination, or remedy under the promissory note, health-care-insurance receivable, or general intangible.
- (d) **[Limitation on ineffectiveness under subsections (a) and (c).]** To the extent that a term in a promissory note or in an agreement between an account debtor and a debtor which relates to a health-care-insurance receivable or general intangible or a rule of law, statute, or regulation described in subsection (c) would be effective under law other than this article but is ineffective under subsection (a) or (c), the creation, attachment, or perfection of a security interest in the promissory note, health-care-insurance receivable, or general intangible:
- (1) is not enforceable against the person obligated on the promissory note or the account debtor;
 - (2) does not impose a duty or obligation on the person obligated on the promissory note or the account debtor;
 - (3) does not require the person obligated on the promissory note or the account debtor to recognize the security interest, pay or render performance to the secured party, or accept payment or performance from the secured party;
 - (4) does not entitle the secured party to use or assign the debtor's rights under the promissory note, health-care-insurance receivable, or general intangible, including any related information or materials furnished to the debtor in the transaction giving rise to the promissory note, health-care-insurance receivable, or general intangible;
 - (5) does not entitle the secured party to use, assign, possess, or have access to any trade secrets or confidential information of the person obligated

on the promissory note or the account debtor; and

- (6) does not entitle the secured party to enforce the security interest in the promissory note, health-care-insurance receivable, or general intangible.

(e) [Section prevails over specified inconsistent law.]

This section prevails over any inconsistent provisions of the following statutes, rules, and regulations:

[List here any statutes, rules, and regulations containing provisions inconsistent with this section.]

Legislative Note: States that amend statutes, rules, and regulations to remove provisions inconsistent with this section need not enact subsection (e).

§ 9-409. Restrictions on Assignment of Letter-of-Credit Rights Ineffective.

(a) [Term or law restricting assignment generally ineffective.]

A term in a letter of credit or a rule of law, statute, regulation, custom, or practice applicable to the letter of credit which prohibits, restricts, or requires the consent of an applicant, issuer, or nominated person to a beneficiary's assignment of or creation of a security interest in a letter-of-credit right is ineffective to the extent that the term or rule of law, statute, regulation, custom, or practice:

- (1) would impair the creation, attachment, or perfection of a security interest in the letter-of-credit right; or
- (2) provides that the assignment or the creation, attachment, or perfection of the security interest may give rise to a default, breach, right of recoupment, claim, defense, termination, right of termination, or remedy under the letter-of-credit right.

(b) [Limitation on ineffectiveness under subsection (a).]

To the extent that a term in a letter of credit is ineffective under subsection (a) but would be effective under law other than this article or a custom or practice applicable to the letter of credit, to the transfer of a right to draw or otherwise demand performance under the letter of credit, or to the assignment of a right to proceeds of the letter of credit, the creation, attachment, or perfection of a security interest in the letter-of-credit right:

- (1) is not enforceable against the applicant, issuer, nominated person, or transferee beneficiary;
- (2) imposes no duties or obligations on the applicant, issuer, nominated person, or transferee beneficiary; and

- (3) does not require the applicant, issuer, nominated person, or transferee beneficiary to recognize the security interest, pay or render performance to the secured party, or accept payment or other performance from the secured party.

Part 5: Filing

[SUBPART 1. FILING OFFICE; CONTENTS AND EFFECTIVENESS OF FINANCING STATEMENT]

§ 9-501. Filing Office.

(a) [Filing offices.] Except as otherwise provided in subsection (b), if the local law of this State governs perfection of a security interest or agricultural lien, the office in which to file a financing statement to perfect the security interest or agricultural lien is:

- (1) the office designated for the filing or recording of a record of a mortgage on the related real property, if:
 - (A) the collateral is as-extracted collateral or timber to be cut; or
 - (B) the financing statement is filed as a fixture filing and the collateral is goods that are or are to become fixtures; or
- (2) the office of [] [or any office duly authorized by []], in all other cases, including a case in which the collateral is goods that are or are to become fixtures and the financing statement is not filed as a fixture filing.

(b) [Filing office for transmitting utilities.] The office in which to file a financing statement to perfect a security interest in collateral, including fixtures, of a transmitting utility is the office of []. The financing statement also constitutes a fixture filing as to the collateral indicated in the financing statement which is or is to become fixtures.

Legislative Note: The State should designate the filing office where the brackets appear. The filing office may be that of a governmental official (e.g., the Secretary of State) or a private party that maintains the State's filing system.

§ 9-502. Contents of Financing Statement; Record of Mortgage as Financing Statement; Time of Filing Financing Statement.

(a) [Sufficiency of financing statement.] Subject to subsection (b), a financing statement is sufficient only if it:

- (1) provides the name of the debtor;

- (2) provides the name of the secured party or a representative of the secured party; and
 - (3) indicates the collateral covered by the financing statement.
- (b) **[Real-property-related financing statements.]** Except as otherwise provided in Section 9-501(b), to be sufficient, a financing statement that covers as-extracted collateral or timber to be cut, or which is filed as a fixture filing and covers goods that are or are to become fixtures, must satisfy subsection (a) and also:
- (1) indicate that it covers this type of collateral;
 - (2) indicate that it is to be filed [for record] in the real property records;
 - (3) provide a description of the real property to which the collateral is related [sufficient to give constructive notice of a mortgage under the law of this State if the description were contained in a record of the mortgage of the real property]; and
 - (4) if the debtor does not have an interest of record in the real property, provide the name of a record owner.
- (c) **[Record of mortgage as financing statement.]** A record of a mortgage is effective, from the date of recording, as a financing statement filed as a fixture filing or as a financing statement covering as-extracted collateral or timber to be cut only if:
- (1) the record indicates the goods or accounts that it covers;
 - (2) the goods are or are to become fixtures related to the real property described in the record or the collateral is related to the real property described in the record and is as-extracted collateral or timber to be cut;
 - (3) the record satisfies the requirements for a financing statement in this section other than an indication that it is to be filed in the real property records; and
 - (4) the record is [duly] recorded.
- (d) **[Filing before security agreement or attachment.]** A financing statement may be filed before a security agreement is made or a security interest otherwise attaches.

Legislative Note: Language in brackets is optional. Where the State has any special recording system for real property other than the usual grantor-grantee index (as, for instance, a tract system or a title registration or Torrens system) local adaptations of subsection (b) and Sec-

tion 9-519(d) and (e) may be necessary. See, e.g., Mass. Gen. Laws Chapter 106, Section 9-410.

§ 9-503. Name of Debtor and Secured Party.

- (a) **[Sufficiency of debtor's name.]** A financing statement sufficiently provides the name of the debtor:
- (1) if the debtor is a registered organization, only if the financing statement provides the name of the debtor indicated on the public record of the debtor's jurisdiction of organization which shows the debtor to have been organized;
 - (2) if the debtor is a decedent's estate, only if the financing statement provides the name of the decedent and indicates that the debtor is an estate;
 - (3) if the debtor is a trust or a trustee acting with respect to property held in trust, only if the financing statement:
 - (A) provides the name specified for the trust in its organic documents or, if no name is specified, provides the name of the settlor and additional information sufficient to distinguish the debtor from other trusts having one or more of the same settlors; and
 - (B) indicates, in the debtor's name or otherwise, that the debtor is a trust or is a trustee acting with respect to property held in trust; and
 - (4) in other cases:
 - (A) if the debtor has a name, only if it provides the individual or organizational name of the debtor; and
 - (B) if the debtor does not have a name, only if it provides the names of the partners, members, associates, or other persons comprising the debtor.
- (b) **[Additional debtor-related information.]** A financing statement that provides the name of the debtor in accordance with subsection (a) is not rendered ineffective by the absence of:
- (1) a trade name or other name of the debtor; or
 - (2) unless required under subsection (a)(4)(B), names of partners, members, associates, or other persons comprising the debtor.
- (c) **[Debtor's trade name insufficient.]** A financing statement that provides only the debtor's trade name does not sufficiently provide the name of the debtor.
- (d) **[Representative capacity.]** Failure to indicate the representative capacity of a secured party or representative of a secured party does not affect the sufficiency of a financing statement.

(e) **[Multiple debtors and secured parties.]** A financing statement may provide the name of more than one debtor and the name of more than one secured party.

§ 9–504. **Indication of Collateral.** A financing statement sufficiently indicates the collateral that it covers if the financing statement provides:

- (1) a description of the collateral pursuant to Section 9-108; or
- (2) an indication that the financing statement covers all assets or all personal property.

§ 9–505. **Filing and Compliance with Other Statutes and Treaties for Consignments, Leases, Other Bailments, and Other Transactions.**

- (a) **[Use of terms other than “debtor” and “secured party.”]** A consignor, lessor, or other bailor of goods, a licensor, or a buyer of a payment intangible or promissory note may file a financing statement, or may comply with a statute or treaty described in Section 9-311(a), using the terms “consignor”, “consignee”, “lessor”, “lessee”, “bailor”, “bailee”, “licensor”, “licensee”, “owner”, “registered owner”, “buyer”, “seller”, or words of similar import, instead of the terms “secured party” and “debtor”.
- (b) **[Effect of financing statement under subsection (a).]** This part applies to the filing of a financing statement under subsection (a) and, as appropriate, to compliance that is equivalent to filing a financing statement under Section 9-311(b), but the filing or compliance is not of itself a factor in determining whether the collateral secures an obligation. If it is determined for another reason that the collateral secures an obligation, a security interest held by the consignor, lessor, bailor, licensor, owner, or buyer which attaches to the collateral is perfected by the filing or compliance.

§ 9–506. **Effect of Errors or Omissions.**

- (a) **[Minor errors and omissions.]** A financing statement substantially satisfying the requirements of this part is effective, even if it has minor errors or omissions, unless the errors or omissions make the financing statement seriously misleading.
- (b) **[Financing statement seriously misleading.]** Except as otherwise provided in subsection (c), a financing statement that fails sufficiently to provide the name of the debtor in accordance with Section 9-503(a) is seriously misleading.
- (c) **[Financing statement not seriously misleading.]** If a search of the records of the filing office under the

debtor’s correct name, using the filing office’s standard search logic, if any, would disclose a financing statement that fails sufficiently to provide the name of the debtor in accordance with Section 9-503(a), the name provided does not make the financing statement seriously misleading.

- (d) **[“Debtor’s correct name.”]** For purposes of Section 9-508(b), the “debtor’s correct name” in subsection (c) means the correct name of the new debtor.

§ 9–507. **Effect of Certain Events on Effectiveness of Financing Statement.**

- (a) **[Disposition.]** A filed financing statement remains effective with respect to collateral that is sold, exchanged, leased, licensed, or otherwise disposed of and in which a security interest or agricultural lien continues, even if the secured party knows of or consents to the disposition.
- (b) **[Information becoming seriously misleading.]** Except as otherwise provided in subsection (c) and Section 9-508, a financing statement is not rendered ineffective if, after the financing statement is filed, the information provided in the financing statement becomes seriously misleading under Section 9-506.
- (c) **[Change in debtor’s name.]** If a debtor so changes its name that a filed financing statement becomes seriously misleading under Section 9-506:
- (1) the financing statement is effective to perfect a security interest in collateral acquired by the debtor before, or within four months after, the change; and
 - (2) the financing statement is not effective to perfect a security interest in collateral acquired by the debtor more than four months after the change, unless an amendment to the financing statement which renders the financing statement not seriously misleading is filed within four months after the change.

§ 9–508. **Effectiveness of Financing Statement If New Debtor Becomes Bound by Security Agreement.**

- (a) **[Financing statement naming original debtor.]** Except as otherwise provided in this section, a filed financing statement naming an original debtor is effective to perfect a security interest in collateral in which a new debtor has or acquires rights to the extent that the financing statement would have been effective had the original debtor acquired rights in the collateral.
- (b) **[Financing statement becoming seriously misleading.]** If the difference between the name of the

original debtor and that of the new debtor causes a filed financing statement that is effective under subsection (a) to be seriously misleading under Section 9-506:

- (1) the financing statement is effective to perfect a security interest in collateral acquired by the new debtor before, and within four months after, the new debtor becomes bound under Section 9-203(d); and
 - (2) the financing statement is not effective to perfect a security interest in collateral acquired by the new debtor more than four months after the new debtor becomes bound under Section 9-203(d) unless an initial financing statement providing the name of the new debtor is filed before the expiration of that time.
- (c) **[When section not applicable.]** This section does not apply to collateral as to which a filed financing statement remains effective against the new debtor under Section 9-507(a).

§ 9-509. Persons Entitled to File a Record.

- (a) **[Person entitled to file record.]** A person may file an initial financing statement, amendment that adds collateral covered by a financing statement, or amendment that adds a debtor to a financing statement only if:
- (1) the debtor authorizes the filing in an authenticated record or pursuant to subsection (b) or (c); or
 - (2) the person holds an agricultural lien that has become effective at the time of filing and the financing statement covers only collateral in which the person holds an agricultural lien.
- (b) **[Security agreement as authorization.]** By authenticating or becoming bound as debtor by a security agreement, a debtor or new debtor authorizes the filing of an initial financing statement, and an amendment, covering:
- (1) the collateral described in the security agreement; and
 - (2) property that becomes collateral under Section 9-315(a)(2), whether or not the security agreement expressly covers proceeds.
- (c) **[Acquisition of collateral as authorization.]** By acquiring collateral in which a security interest or agricultural lien continues under Section 9-315(a)(1), a debtor authorizes the filing of an initial financing statement, and an amendment, covering the collateral and property that becomes collateral under Section 9-315(a)(2).

- (d) **[Person entitled to file certain amendments.]** A person may file an amendment other than an amendment that adds collateral covered by a financing statement or an amendment that adds a debtor to a financing statement only if:

- (1) the secured party of record authorizes the filing; or
 - (2) the amendment is a termination statement for a financing statement as to which the secured party of record has failed to file or send a termination statement as required by Section 9-513(a) or (c), the debtor authorizes the filing, and the termination statement indicates that the debtor authorized it to be filed.
- (e) **[Multiple secured parties of record.]** If there is more than one secured party of record for a financing statement, each secured party of record may authorize the filing of an amendment under subsection (d).

§ 9-510. Effectiveness of Filed Record.

- (a) **[Filed record effective if authorized.]** A filed record is effective only to the extent that it was filed by a person that may file it under Section 9-509.
- (b) **[Authorization by one secured party of record.]** A record authorized by one secured party of record does not affect the financing statement with respect to another secured party of record.
- (c) **[Continuation statement not timely filed.]** A continuation statement that is not filed within the six-month period prescribed by Section 9-515(d) is ineffective.

§ 9-511. Secured Party of Record.

- (a) **[Secured party of record.]** A secured party of record with respect to a financing statement is a person whose name is provided as the name of the secured party or a representative of the secured party in an initial financing statement that has been filed. If an initial financing statement is filed under Section 9-514(a), the assignee named in the initial financing statement is the secured party of record with respect to the financing statement.
- (b) **[Amendment naming secured party of record.]** If an amendment of a financing statement which provides the name of a person as a secured party or a representative of a secured party is filed, the person named in the amendment is a secured party of record. If an amendment is filed under Section 9-514(b), the assignee named in the amendment is a secured party of record.

(c) [Amendment deleting secured party of record.]

A person remains a secured party of record until the filing of an amendment of the financing statement which deletes the person.

§ 9-512. Amendment of Financing Statement.**[Alternative A]****(a) [Amendment of information in financing statement.]**

Subject to Section 9-509, a person may add or delete collateral covered by, continue or terminate the effectiveness of, or, subject to subsection (e), otherwise amend the information provided in, a financing statement by filing an amendment that:

- (1) identifies, by its file number, the initial financing statement to which the amendment relates; and
- (2) if the amendment relates to an initial financing statement filed [or recorded] in a filing office described in Section 9-501(a)(1), provides the information specified in Section 9-502(b).

[Alternative B]**(a) [Amendment of information in financing statement.]**

Subject to Section 9-509, a person may add or delete collateral covered by, continue or terminate the effectiveness of, or, subject to subsection (e), otherwise amend the information provided in, a financing statement by filing an amendment that:

- (1) identifies, by its file number, the initial financing statement to which the amendment relates; and
- (2) if the amendment relates to an initial financing statement filed [or recorded] in a filing office described in Section 9-501(a)(1), provides the date [and time] that the initial financing statement was filed [or recorded] and the information specified in Section 9-502(b).

[End of Alternatives]**(b) [Period of effectiveness not affected.]** Except as otherwise provided in Section 9-515, the filing of an amendment does not extend the period of effectiveness of the financing statement.**(c) [Effectiveness of amendment adding collateral.]** A financing statement that is amended by an amendment that adds collateral is effective as to the added collateral only from the date of the filing of the amendment.**(d) [Effectiveness of amendment adding debtor.]** A financing statement that is amended by an amendment

that adds a debtor is effective as to the added debtor only from the date of the filing of the amendment.

(e) [Certain amendments ineffective.] An amendment is ineffective to the extent it:

- (1) purports to delete all debtors and fails to provide the name of a debtor to be covered by the financing statement; or
- (2) purports to delete all secured parties of record and fails to provide the name of a new secured party of record.

Legislative Note: States whose real-estate filing offices require additional information in amendments and cannot search their records by both the name of the debtor and the file number should enact Alternative B to Sections 9-512(a), 9-518(b), 9-519(f) and 9-522(a).

§ 9-513. Termination Statement.**(a) [Consumer goods.]** A secured party shall cause the secured party of record for a financing statement to file a termination statement for the financing statement if the financing statement covers consumer goods and:

- (1) there is no obligation secured by the collateral covered by the financing statement and no commitment to make an advance, incur an obligation, or otherwise give value; or
- (2) the debtor did not authorize the filing of the initial financing statement.

(b) [Time for compliance with subsection (a).] To comply with subsection (a), a secured party shall cause the secured party of record to file the termination statement:

- (1) within one month after there is no obligation secured by the collateral covered by the financing statement and no commitment to make an advance, incur an obligation, or otherwise give value; or
- (2) if earlier, within 20 days after the secured party receives an authenticated demand from a debtor.

(c) [Other collateral.] In cases not governed by subsection (a), within 20 days after a secured party receives an authenticated demand from a debtor, the secured party shall cause the secured party of record for a financing statement to send to the debtor a termination statement for the financing statement or file the termination statement in the filing office if:

- (1) except in the case of a financing statement covering accounts or chattel paper that has been sold or goods that are the subject of a consignment, there is no obligation secured by the col-

lateral covered by the financing statement and no commitment to make an advance, incur an obligation, or otherwise give value;

- (2) the financing statement covers accounts or chattel paper that has been sold but as to which the account debtor or other person obligated has discharged its obligation;
 - (3) the financing statement covers goods that were the subject of a consignment to the debtor but are not in the debtor's possession; or
 - (4) the debtor did not authorize the filing of the initial financing statement.
- (d) **[Effect of filing termination statement.]** Except as otherwise provided in Section 9-510, upon the filing of a termination statement with the filing office, the financing statement to which the termination statement relates ceases to be effective. Except as otherwise provided in Section 9-510, for purposes of Sections 9-519(g), 9-522(a), and 9-523(c), the filing with the filing office of a termination statement relating to a financing statement that indicates that the debtor is a transmitting utility also causes the effectiveness of the financing statement to lapse.

§ 9-514. Assignment of Powers of Secured Party of Record.

- (a) **[Assignment reflected on initial financing statement.]** Except as otherwise provided in subsection (c), an initial financing statement may reflect an assignment of all of the secured party's power to authorize an amendment to the financing statement by providing the name and mailing address of the assignee as the name and address of the secured party.
- (b) **[Assignment of filed financing statement.]** Except as otherwise provided in subsection (c), a secured party of record may assign of record all or part of its power to authorize an amendment to a financing statement by filing in the filing office an amendment of the financing statement which:
 - (1) identifies, by its file number, the initial financing statement to which it relates;
 - (2) provides the name of the assignor; and
 - (3) provides the name and mailing address of the assignee.
- (c) **[Assignment of record of mortgage.]** An assignment of record of a security interest in a fixture covered by a record of a mortgage which is effective as a financing statement filed as a fixture filing under Section 9-502(c) may be made only by an assignment of record of the mortgage in the manner provided by law of this State other than [the Uniform Commercial Code].

§ 9-515. Duration and Effectiveness of Financing Statement; Effect of Lapsed Financing Statement.

- (a) **[Five-year effectiveness.]** Except as otherwise provided in subsections (b), (e), (f), and (g), a filed financing statement is effective for a period of five years after the date of filing.
- (b) **[Public-finance or manufactured-home transaction.]** Except as otherwise provided in subsections (e), (f), and (g), an initial financing statement filed in connection with a public-finance transaction or manufactured-home transaction is effective for a period of 30 years after the date of filing if it indicates that it is filed in connection with a public-finance transaction or manufactured-home transaction.
- (c) **[Lapse and continuation of financing statement.]** The effectiveness of a filed financing statement lapses on the expiration of the period of its effectiveness unless before the lapse a continuation statement is filed pursuant to subsection (d). Upon lapse, a financing statement ceases to be effective and any security interest or agricultural lien that was perfected by the financing statement becomes unperfected, unless the security interest is perfected otherwise. If the security interest or agricultural lien becomes unperfected upon lapse, it is deemed never to have been perfected as against a purchaser of the collateral for value.
- (d) **[When continuation statement may be filed.]** A continuation statement may be filed only within six months before the expiration of the five-year period specified in subsection (a) or the 30-year period specified in subsection (b), whichever is applicable.
- (e) **[Effect of filing continuation statement.]** Except as otherwise provided in Section 9-510, upon timely filing of a continuation statement, the effectiveness of the initial financing statement continues for a period of five years commencing on the day on which the financing statement would have become ineffective in the absence of the filing. Upon the expiration of the five-year period, the financing statement lapses in the same manner as provided in subsection (c), unless, before the lapse, another continuation statement is filed pursuant to subsection (d). Succeeding continuation statements may be filed in the same manner to continue the effectiveness of the initial financing statement.
- (f) **[Transmitting utility financing statement.]** If a debtor is a transmitting utility and a filed financing statement so indicates, the financing statement is effective until a termination statement is filed.

(g) **[Record of mortgage as financing statement.]** A record of a mortgage that is effective as a financing statement filed as a fixture filing under Section 9-502(c) remains effective as a financing statement filed as a fixture filing until the mortgage is released or satisfied of record or its effectiveness otherwise terminates as to the real property.

§ 9-516. What Constitutes Filing; Effectiveness of Filing.

(a) **[What constitutes filing.]** Except as otherwise provided in subsection (b), communication of a record to a filing office and tender of the filing fee or acceptance of the record by the filing office constitutes filing.

(b) **[Refusal to accept record; filing does not occur.]** Filing does not occur with respect to a record that a filing office refuses to accept because:

- (1) the record is not communicated by a method or medium of communication authorized by the filing office;
- (2) an amount equal to or greater than the applicable filing fee is not tendered;
- (3) the filing office is unable to index the record because:
 - (A) in the case of an initial financing statement, the record does not provide a name for the debtor;
 - (B) in the case of an amendment or correction statement, the record:
 - (i) does not identify the initial financing statement as required by Section 9-512 or 9-518, as applicable; or
 - (ii) identifies an initial financing statement whose effectiveness has lapsed under Section 9-515;
 - (C) in the case of an initial financing statement that provides the name of a debtor identified as an individual or an amendment that provides a name of a debtor identified as an individual which was not previously provided in the financing statement to which the record relates, the record does not identify the debtor's last name; or
 - (D) in the case of a record filed [or recorded] in the filing office described in Section 9-501(a)(1), the record does not provide a sufficient description of the real property to which it relates;

(4) in the case of an initial financing statement or an amendment that adds a secured party of record, the record does not provide a name and mailing address for the secured party of record;

(5) in the case of an initial financing statement or an amendment that provides a name of a debtor which was not previously provided in the financing statement to which the amendment relates, the record does not:

- (A) provide a mailing address for the debtor;
- (B) indicate whether the debtor is an individual or an organization; or
- (C) if the financing statement indicates that the debtor is an organization, provide:
 - (i) a type of organization for the debtor;
 - (ii) a jurisdiction of organization for the debtor; or
 - (iii) an organizational identification number for the debtor or indicate that the debtor has none;

(6) in the case of an assignment reflected in an initial financing statement under Section 9-514(a) or an amendment filed under Section 9-514(b), the record does not provide a name and mailing address for the assignee; or

(7) in the case of a continuation statement, the record is not filed within the six-month period prescribed by Section 9-515(d).

(c) **[Rules applicable to subsection (b).]** For purposes of subsection (b):

- (1) a record does not provide information if the filing office is unable to read or decipher the information; and
- (2) a record that does not indicate that it is an amendment or identify an initial financing statement to which it relates, as required by Section 9-512, 9-514, or 9-518, is an initial financing statement.

(d) **[Refusal to accept record; record effective as filed record.]** A record that is communicated to the filing office with tender of the filing fee, but which the filing office refuses to accept for a reason other than one set forth in subsection (b), is effective as a filed record except as against a purchaser of the collateral which gives value in reasonable reliance upon the absence of the record from the files.

§ 9-517. Effect of Indexing Errors. The failure of the filing office to index a record correctly does not affect the effectiveness of the filed record.

§ 9–518. Claim Concerning Inaccurate or Wrongfully Filed Record.

- (a) **[Correction statement.]** A person may file in the filing office a correction statement with respect to a record indexed there under the person's name if the person believes that the record is inaccurate or was wrongfully filed.

[Alternative A]

- (b) **[Sufficiency of correction statement.]** A correction statement must:

- (1) identify the record to which it relates by the file number assigned to the initial financing statement to which the record relates;
- (2) indicate that it is a correction statement; and
- (3) provide the basis for the person's belief that the record is inaccurate and indicate the manner in which the person believes the record should be amended to cure any inaccuracy or provide the basis for the person's belief that the record was wrongfully filed.

[Alternative B]

- (b) **[Sufficiency of correction statement.]** A correction statement must:

- (1) identify the record to which it relates by:
 - (A) the file number assigned to the initial financing statement to which the record relates; and
 - (B) if the correction statement relates to a record filed [or recorded] in a filing office described in Section 9-501(a)(1), the date [and time] that the initial financing statement was filed [or recorded] and the information specified in Section 9-502(b);
- (2) indicate that it is a correction statement; and
- (3) provide the basis for the person's belief that the record is inaccurate and indicate the manner in which the person believes the record should be amended to cure any inaccuracy or provide the basis for the person's belief that the record was wrongfully filed.

[End of Alternatives]

- (c) **[Record not affected by correction statement.]** The filing of a correction statement does not affect the effectiveness of an initial financing statement or other filed record.

[SUBPART 2. DUTIES AND OPERATION OF FILING OFFICE]

§ 9–519. Numbering, Maintaining, and Indexing Records; Communicating Information Provided in Records.

- (a) **[Filing office duties.]** For each record filed in a filing office, the filing office shall:

- (1) assign a unique number to the filed record;
- (2) create a record that bears the number assigned to the filed record and the date and time of filing;
- (3) maintain the filed record for public inspection; and
- (4) index the filed record in accordance with subsections (c), (d), and (e).

- (b) **[File number.]** A file number [assigned after January 1, 2002,] must include a digit that:

- (1) is mathematically derived from or related to the other digits of the file number; and
- (2) aids the filing office in determining whether a number communicated as the file number includes a single-digit or transpositional error.

- (c) **[Indexing: general.]** Except as otherwise provided in subsections (d) and (e), the filing office shall:

- (1) index an initial financing statement according to the name of the debtor and index all filed records relating to the initial financing statement in a manner that associates with one another an initial financing statement and all filed records relating to the initial financing statement; and
- (2) index a record that provides a name of a debtor which was not previously provided in the financing statement to which the record relates also according to the name that was not previously provided.

- (d) **[Indexing: real-property-related financing statement.]** If a financing statement is filed as a fixture filing or covers as-extracted collateral or timber to be cut, [it must be filed for record and] the filing office shall index it:

- (1) under the names of the debtor and of each owner of record shown on the financing statement as if they were the mortgagors under a mortgage of the real property described; and
- (2) to the extent that the law of this State provides for indexing of records of mortgages under the name of the mortgagee, under the name of the secured party as if the secured party were the mortgagee thereunder, or, if indexing is by description, as if the financing statement were a record of a mortgage of the real property described.

(e) **[Indexing: real-property-related assignment.]** If a financing statement is filed as a fixture filing or covers as-extracted collateral or timber to be cut, the filing office shall index an assignment filed under Section 9-514(a) or an amendment filed under Section 9-514(b):

- (1) under the name of the assignor as grantor; and
- (2) to the extent that the law of this State provides for indexing a record of the assignment of a mortgage under the name of the assignee, under the name of the assignee.

[Alternative A]

(f) **[Retrieval and association capability.]** The filing office shall maintain a capability:

- (1) to retrieve a record by the name of the debtor and by the file number assigned to the initial financing statement to which the record relates; and
- (2) to associate and retrieve with one another an initial financing statement and each filed record relating to the initial financing statement.

[Alternative B]

(f) **[Retrieval and association capability.]** The filing office shall maintain a capability:

- (1) to retrieve a record by the name of the debtor and:
 - (A) if the filing office is described in Section 9-501(a)(1), by the file number assigned to the initial financing statement to which the record relates and the date [and time] that the record was filed [or recorded]; or
 - (B) if the filing office is described in Section 9-501(a)(2), by the file number assigned to the initial financing statement to which the record relates; and
- (2) to associate and retrieve with one another an initial financing statement and each filed record relating to the initial financing statement.

[End of Alternatives]

(g) **[Removal of debtor's name.]** The filing office may not remove a debtor's name from the index until one year after the effectiveness of a financing statement naming the debtor lapses under Section 9-515 with respect to all secured parties of record.

(h) **[Timeliness of filing office performance.]** The filing office shall perform the acts required by subsections (a) through (e) at the time and in the manner prescribed by filing-office rule, but not later than two business days after the filing office receives the record in question.

(i) **[Inapplicability to real-property-related filing office.]** Subsection[s] [(b)] [and] [(h)] do[es] not apply to a filing office described in Section 9-501(a)(1).]

§ 9–520. Acceptance and Refusal to Accept Record.

(a) **[Mandatory refusal to accept record.]** A filing office shall refuse to accept a record for filing for a reason set forth in Section 9-516(b) and may refuse to accept a record for filing only for a reason set forth in Section 9-516(b).

(b) **[Communication concerning refusal.]** If a filing office refuses to accept a record for filing, it shall communicate to the person that presented the record the fact of and reason for the refusal and the date and time the record would have been filed had the filing office accepted it. The communication must be made at the time and in the manner prescribed by filing-office rule but[, in the case of a filing office described in Section 9-501(a)(2),] in no event more than two business days after the filing office receives the record.

(c) **[When filed financing statement effective.]** A filed financing statement satisfying Section 9-502(a) and (b) is effective, even if the filing office is required to refuse to accept it for filing under subsection (a). However, Section 9-338 applies to a filed financing statement providing information described in Section 9-516(b)(5) which is incorrect at the time the financing statement is filed.

(d) **[Separate application to multiple debtors.]** If a record communicated to a filing office provides information that relates to more than one debtor, this part applies as to each debtor separately.

§ 9–522. Maintenance and Destruction of Records.

[Alternative A]

(a) **[Post-lapse maintenance and retrieval of information.]** The filing office shall maintain a record of the information provided in a filed financing statement for at least one year after the effectiveness of the financing statement has lapsed under Section 9-515 with respect to all secured parties of record. The record must be retrievable by using the name of the debtor and by using the file number assigned to the initial financing statement to which the record relates.

[Alternative B]

(a) **[Post-lapse maintenance and retrieval of information.]** The filing office shall maintain a record of the information provided in a filed financing statement

for at least one year after the effectiveness of the financing statement has lapsed under Section 9-515 with respect to all secured parties of record. The record must be retrievable by using the name of the debtor and:

- (1) if the record was filed [or recorded] in the filing office described in Section 9-501(a)(1), by using the file number assigned to the initial financing statement to which the record relates and the date [and time] that the record was filed [or recorded]; or
- (2) if the record was filed in the filing office described in Section 9-501(a)(2), by using the file number assigned to the initial financing statement to which the record relates.

[End of Alternatives]

- (b) **[Destruction of written records.]** Except to the extent that a statute governing disposition of public records provides otherwise, the filing office immediately may destroy any written record evidencing a financing statement. However, if the filing office destroys a written record, it shall maintain another record of the financing statement which complies with subsection (a).

§ 9-523. Information from Filing Office; Sale or License of Records.

- (a) **[Acknowledgment of filing written record.]** If a person that files a written record requests an acknowledgment of the filing, the filing office shall send to the person an image of the record showing the number assigned to the record pursuant to Section 9-519(a)(1) and the date and time of the filing of the record. However, if the person furnishes a copy of the record to the filing office, the filing office may instead:
- (1) note upon the copy the number assigned to the record pursuant to Section 9-519(a)(1) and the date and time of the filing of the record; and
 - (2) send the copy to the person.
- (b) **[Acknowledgment of filing other record.]** If a person files a record other than a written record, the filing office shall communicate to the person an acknowledgment that provides:
- (1) the information in the record;
 - (2) the number assigned to the record pursuant to Section 9-519(a)(1); and
 - (3) the date and time of the filing of the record.
- (c) **[Communication of requested information.]** The filing office shall communicate or otherwise make

available in a record the following information to any person that requests it:

- (1) whether there is on file on a date and time specified by the filing office, but not a date earlier than three business days before the filing office receives the request, any financing statement that:
 - (A) designates a particular debtor [or, if the request so states, designates a particular debtor at the address specified in the request];
 - (B) has not lapsed under Section 9-515 with respect to all secured parties of record; and
 - (C) if the request so states, has lapsed under Section 9-515 and a record of which is maintained by the filing office under Section 9-522(a);
 - (2) the date and time of filing of each financing statement; and
 - (3) the information provided in each financing statement.
- (d) **[Medium for communicating information.]** In complying with its duty under subsection (c), the filing office may communicate information in any medium. However, if requested, the filing office shall communicate information by issuing [its written certificate] [a record that can be admitted into evidence in the courts of this State without extrinsic evidence of its authenticity].
- (e) **[Timeliness of filing office performance.]** The filing office shall perform the acts required by subsections (a) through (d) at the time and in the manner prescribed by filing-office rule, but not later than two business days after the filing office receives the request.
- (f) **[Public availability of records.]** At least weekly, the [insert appropriate official or governmental agency] [filing office] shall offer to sell or license to the public on a nonexclusive basis, in bulk, copies of all records filed in it under this part, in every medium from time to time available to the filing office.

§ 9-524. Delay by Filing Office. Delay by the filing office beyond a time limit prescribed by this part is excused if:

- (1) the delay is caused by interruption of communication or computer facilities, war, emergency conditions, failure of equipment, or other circumstances beyond control of the filing office; and

- (2) the filing office exercises reasonable diligence under the circumstances.

§ 9–525. Fees.

- (a) **[Initial financing statement or other record: general rule.]** Except as otherwise provided in subsection (e), the fee for filing and indexing a record under this part, other than an initial financing statement of the kind described in subsection (b), is [the amount specified in subsection (c), if applicable, plus]:
- (1) \$ __[X]_____ if the record is communicated in writing and consists of one or two pages;
 - (2) \$ __[2X]_____ if the record is communicated in writing and consists of more than two pages; and
 - (3) \$ __[1/2X]___ if the record is communicated by another medium authorized by filing-office rule.
- (b) **[Initial financing statement: public-finance and manufactured-housing transactions.]** Except as otherwise provided in subsection (e), the fee for filing and indexing an initial financing statement of the following kind is [the amount specified in subsection (c), if applicable, plus]:
- (1) \$ _____ if the financing statement indicates that it is filed in connection with a public-finance transaction;
 - (2) \$ _____ if the financing statement indicates that it is filed in connection with a manufactured-home transaction.

[Alternative A]

- (c) **[Number of names.]** The number of names required to be indexed does not affect the amount of the fee in subsections (a) and (b).

[Alternative B]

- (c) **[Number of names.]** Except as otherwise provided in subsection (e), if a record is communicated in writing, the fee for each name more than two required to be indexed is \$ _____.

[End of Alternatives]

- (d) **[Response to information request.]** The fee for responding to a request for information from the filing office, including for [issuing a certificate showing] [communicating] whether there is on file any financing statement naming a particular debtor, is:
- (1) \$ _____ if the request is communicated in writing; and
 - (2) \$ _____ if the request is communicated by another medium authorized by filing-office rule.

- (e) **[Record of mortgage.]** This section does not require a fee with respect to a record of a mortgage which is effective as a financing statement filed as a fixture filing or as a financing statement covering as-extracted collateral or timber to be cut under Section 9-502(c). However, the recording and satisfaction fees that otherwise would be applicable to the record of the mortgage apply.

Legislative Notes:

1. To preserve uniformity, a State that places the provisions of this section together with statutes setting fees for other services should do so without modification.

2. A State should enact subsection (c), Alternative A, and omit the bracketed language in subsections (a) and (b) unless its indexing system entails a substantial additional cost when indexing additional names.

§ 9–526. Filing-Office Rules.

- (a) **[Adoption of filing-office rules.]** The [insert appropriate governmental official or agency] shall adopt and publish rules to implement this article. The filing-office rules must be:
- (1) consistent with this article; and
 - (2) adopted and published in accordance with the [insert any applicable state administrative procedure act].
- (b) **[Harmonization of rules.]** To keep the filing-office rules and practices of the filing office in harmony with the rules and practices of filing offices in other jurisdictions that enact substantially this part, and to keep the technology used by the filing office compatible with the technology used by filing offices in other jurisdictions that enact substantially this part, the [insert appropriate governmental official or agency], so far as is consistent with the purposes, policies, and provisions of this article, in adopting, amending, and repealing filing-office rules, shall:
- (1) consult with filing offices in other jurisdictions that enact substantially this part; and
 - (2) consult the most recent version of the Model Rules promulgated by the International Association of Corporate Administrators or any successor organization; and
 - (3) take into consideration the rules and practices of, and the technology used by, filing offices in other jurisdictions that enact substantially this part.

§ 9–527. Duty to Report. The [insert appropriate governmental official or agency] shall report [annually on or before _____] to the [Governor and Legislature] on

the operation of the filing office. The report must contain a statement of the extent to which:

- (1) the filing-office rules are not in harmony with the rules of filing offices in other jurisdictions that enact substantially this part and the reasons for these variations; and
- (2) the filing-office rules are not in harmony with the most recent version of the Model Rules promulgated by the International Association of Corporate Administrators, or any successor organization, and the reasons for these variations.

Part 6: Default

[SUBPART 1. DEFAULT AND ENFORCEMENT OF SECURITY INTEREST]

§ 9–601. Rights After Default; Judicial Enforcement; Consignor or Buyer of Accounts, Chattel Paper, Payment Intangibles, or Promissory Notes.

- (a) **[Rights of secured party after default.]** After default, a secured party has the rights provided in this part and, except as otherwise provided in Section 9-602, those provided by agreement of the parties. A secured party:
 - (1) may reduce a claim to judgment, foreclose, or otherwise enforce the claim, security interest, or agricultural lien by any available judicial procedure; and
 - (2) if the collateral is documents, may proceed either as to the documents or as to the goods they cover.
- (b) **[Rights and duties of secured party in possession or control.]** A secured party in possession of collateral or control of collateral under Section 9-104, 9-105, 9-106, or 9-107 has the rights and duties provided in Section 9-207.
- (c) **[Rights cumulative; simultaneous exercise.]** The rights under subsections (a) and (b) are cumulative and may be exercised simultaneously.
- (d) **[Rights of debtor and obligor.]** Except as otherwise provided in subsection (g) and Section 9-605, after default, a debtor and an obligor have the rights provided in this part and by agreement of the parties.
- (e) **[Lien of levy after judgment.]** If a secured party has reduced its claim to judgment, the lien of any levy that may be made upon the collateral by virtue of an execution based upon the judgment relates back to the earliest of:
 - (1) the date of perfection of the security interest or agricultural lien in the collateral;

- (2) the date of filing a financing statement covering the collateral; or
 - (3) any date specified in a statute under which the agricultural lien was created.
- (f) **[Execution sale.]** A sale pursuant to an execution is a foreclosure of the security interest or agricultural lien by judicial procedure within the meaning of this section. A secured party may purchase at the sale and thereafter hold the collateral free of any other requirements of this article.
 - (g) **[Consignor or buyer of certain rights to payment.]** Except as otherwise provided in Section 9-607(c), this part imposes no duties upon a secured party that is a consignor or is a buyer of accounts, chattel paper, payment intangibles, or promissory notes.

§ 9–602. Waiver and Variance of Rights and Duties.

Except as otherwise provided in Section 9-624, to the extent that they give rights to a debtor or obligor and impose duties on a secured party, the debtor or obligor may not waive or vary the rules stated in the following listed sections:

- (1) Section 9-207(b)(4)(C), which deals with use and operation of the collateral by the secured party;
- (2) Section 9-210, which deals with requests for an accounting and requests concerning a list of collateral and statement of account;
- (3) Section 9-607(c), which deals with collection and enforcement of collateral;
- (4) Sections 9-608(a) and 9-615(c) to the extent that they deal with application or payment of non-cash proceeds of collection, enforcement, or disposition;
- (5) Sections 9-608(a) and 9-615(d) to the extent that they require accounting for or payment of surplus proceeds of collateral;
- (6) Section 9-609 to the extent that it imposes upon a secured party that takes possession of collateral without judicial process the duty to do so without breach of the peace;
- (7) Sections 9-610(b), 9-611, 9-613, and 9-614, which deal with disposition of collateral;
- (8) Section 9-615(f), which deals with calculation of a deficiency or surplus when a disposition is made to the secured party, a person related to the secured party, or a secondary obligor;
- (9) Section 9-616, which deals with explanation of the calculation of a surplus or deficiency;

- (10) Sections 9-620, 9-621, and 9-622, which deal with acceptance of collateral in satisfaction of obligation;
- (11) Section 9-623, which deals with redemption of collateral;
- (12) Section 9-624, which deals with permissible waivers; and
- (13) Sections 9-625 and 9-626, which deal with the secured party's liability for failure to comply with this article.

§ 9-603. Agreement on Standards Concerning Rights and Duties.

- (a) **[Agreed standards.]** The parties may determine by agreement the standards measuring the fulfillment of the rights of a debtor or obligor and the duties of a secured party under a rule stated in Section 9-602 if the standards are not manifestly unreasonable.
- (b) **[Agreed standards inapplicable to breach of peace.]** Subsection (a) does not apply to the duty under Section 9-609 to refrain from breaching the peace.

§ 9-604. Procedure If Security Agreement Covers Real Property or Fixtures.

- (a) **[Enforcement: personal and real property.]** If a security agreement covers both personal and real property, a secured party may proceed:
 - (1) under this part as to the personal property without prejudicing any rights with respect to the real property; or
 - (2) as to both the personal property and the real property in accordance with the rights with respect to the real property, in which case the other provisions of this part do not apply.
- (b) **[Enforcement: fixtures.]** Subject to subsection (c), if a security agreement covers goods that are or become fixtures, a secured party may proceed:
 - (1) under this part; or
 - (2) in accordance with the rights with respect to real property, in which case the other provisions of this part do not apply.
- (c) **[Removal of fixtures.]** Subject to the other provisions of this part, if a secured party holding a security interest in fixtures has priority over all owners and encumbrancers of the real property, the secured party, after default, may remove the collateral from the real property.
- (d) **[Injury caused by removal.]** A secured party that removes collateral shall promptly reimburse any encumbrancer or owner of the real property, other than

the debtor, for the cost of repair of any physical injury caused by the removal. The secured party need not reimburse the encumbrancer or owner for any diminution in value of the real property caused by the absence of the goods removed or by any necessity of replacing them. A person entitled to reimbursement may refuse permission to remove until the secured party gives adequate assurance for the performance of the obligation to reimburse.

§ 9-605. Unknown Debtor or Secondary Obligor. A secured party does not owe a duty based on its status as secured party:

- (1) to a person that is a debtor or obligor, unless the secured party knows:
 - (A) that the person is a debtor or obligor;
 - (B) the identity of the person; and
 - (C) how to communicate with the person; or
- (2) to a secured party or lienholder that has filed a financing statement against a person, unless the secured party knows:
 - (A) that the person is a debtor; and
 - (B) the identity of the person.

§ 9-606. Time of Default for Agricultural Lien. For purposes of this part, a default occurs in connection with an agricultural lien at the time the secured party becomes entitled to enforce the lien in accordance with the statute under which it was created.

§ 9-607. Collection and Enforcement by Secured Party.

- (a) **[Collection and enforcement generally.]** If so agreed, and in any event after default, a secured party:
 - (1) may notify an account debtor or other person obligated on collateral to make payment or otherwise render performance to or for the benefit of the secured party;
 - (2) may take any proceeds to which the secured party is entitled under Section 9-315;
 - (3) may enforce the obligations of an account debtor or other person obligated on collateral and exercise the rights of the debtor with respect to the obligation of the account debtor or other person obligated on collateral to make payment or otherwise render performance to the debtor, and with respect to any property that secures the obligations of the account debtor or other person obligated on the collateral;
 - (4) if it holds a security interest in a deposit account perfected by control under Section 9-104(a)(1),

may apply the balance of the deposit account to the obligation secured by the deposit account; and

- (5) if it holds a security interest in a deposit account perfected by control under Section 9-104(a)(2) or (3), may instruct the bank to pay the balance of the deposit account to or for the benefit of the secured party.
- (b) **[Nonjudicial enforcement of mortgage.]** If necessary to enable a secured party to exercise under subsection (a)(3) the right of a debtor to enforce a mortgage nonjudicially, the secured party may record in the office in which a record of the mortgage is recorded:
 - (1) a copy of the security agreement that creates or provides for a security interest in the obligation secured by the mortgage; and
 - (2) the secured party's sworn affidavit in recordable form stating that:
 - (A) a default has occurred; and
 - (B) the secured party is entitled to enforce the mortgage nonjudicially.
 - (C) **[Commercially reasonable collection and enforcement.]** A secured party shall proceed in a commercially reasonable manner if the secured party:
 - (1) undertakes to collect from or enforce an obligation of an account debtor or other person obligated on collateral; and
 - (2) is entitled to charge back uncollected collateral or otherwise to full or limited recourse against the debtor or a secondary obligor.
- (d) **[Expenses of collection and enforcement.]** A secured party may deduct from the collections made pursuant to subsection (c) reasonable expenses of collection and enforcement, including reasonable attorney's fees and legal expenses incurred by the secured party.
- (e) **[Duties to secured party not affected.]** This section does not determine whether an account debtor, bank, or other person obligated on collateral owes a duty to a secured party.

§ 9-608. Application of Proceeds of Collection or Enforcement; Liability for Deficiency and Right to Surplus.

- (a) **[Application of proceeds, surplus, and deficiency if obligation secured.]** If a security interest or agricultural lien secures payment or performance of an obligation, the following rules apply:

- (1) A secured party shall apply or pay over for application the cash proceeds of collection or enforcement under Section 9-607 in the following order to:
 - (A) the reasonable expenses of collection and enforcement and, to the extent provided for by agreement and not prohibited by law, reasonable attorney's fees and legal expenses incurred by the secured party;
 - (B) the satisfaction of obligations secured by the security interest or agricultural lien under which the collection or enforcement is made; and
 - (C) the satisfaction of obligations secured by any subordinate security interest in or other lien on the collateral subject to the security interest or agricultural lien under which the collection or enforcement is made if the secured party receives an authenticated demand for proceeds before distribution of the proceeds is completed.
- (2) If requested by a secured party, a holder of a subordinate security interest or other lien shall furnish reasonable proof of the interest or lien within a reasonable time. Unless the holder complies, the secured party need not comply with the holder's demand under paragraph (1)(C).
- (3) A secured party need not apply or pay over for application noncash proceeds of collection and enforcement under Section 9-607 unless the failure to do so would be commercially unreasonable. A secured party that applies or pays over for application noncash proceeds shall do so in a commercially reasonable manner.
- (4) A secured party shall account to and pay a debtor for any surplus, and the obligor is liable for any deficiency.
- (b) **[No surplus or deficiency in sales of certain rights to payment.]** If the underlying transaction is a sale of accounts, chattel paper, payment intangibles, or promissory notes, the debtor is not entitled to any surplus, and the obligor is not liable for any deficiency.

§ 9-609. Secured Party's Right to Take Possession After Default.

- (a) **[Possession; rendering equipment unusable; disposition on debtor's premises.]** After default, a secured party:
 - (1) may take possession of the collateral; and

- (2) without removal, may render equipment unusable and dispose of collateral on a debtor's premises under Section 9-610.
- (b) **[Judicial and nonjudicial process.]** A secured party may proceed under subsection (a):
 - (1) pursuant to judicial process; or
 - (2) without judicial process, if it proceeds without breach of the peace.
- (c) **[Assembly of collateral.]** If so agreed, and in any event after default, a secured party may require the debtor to assemble the collateral and make it available to the secured party at a place to be designated by the secured party which is reasonably convenient to both parties.

§ 9–610. Disposition of Collateral After Default.

- (a) **[Disposition after default.]** After default, a secured party may sell, lease, license, or otherwise dispose of any or all of the collateral in its present condition or following any commercially reasonable preparation or processing.
- (b) **[Commercially reasonable disposition.]** Every aspect of a disposition of collateral, including the method, manner, time, place, and other terms, must be commercially reasonable. If commercially reasonable, a secured party may dispose of collateral by public or private proceedings, by one or more contracts, as a unit or in parcels, and at any time and place and on any terms.
- (c) **[Purchase by secured party.]** A secured party may purchase collateral:
 - (1) at a public disposition; or
 - (2) at a private disposition only if the collateral is of a kind that is customarily sold on a recognized market or the subject of widely distributed standard price quotations.
- (d) **[Warranties on disposition.]** A contract for sale, lease, license, or other disposition includes the warranties relating to title, possession, quiet enjoyment, and the like which by operation of law accompany a voluntary disposition of property of the kind subject to the contract.
- (e) **[Disclaimer of warranties.]** A secured party may disclaim or modify warranties under subsection (d):
 - (1) in a manner that would be effective to disclaim or modify the warranties in a voluntary disposition of property of the kind subject to the contract of disposition; or
 - (2) by communicating to the purchaser a record evidencing the contract for disposition and including an express disclaimer or modification of the warranties.
- (f) **[Record sufficient to disclaim warranties.]** A record is sufficient to disclaim warranties under subsection (e) if it indicates “There is no warranty relating to title, possession, quiet enjoyment, or the like in this disposition” or uses words of similar import.

§ 9–611. Notification Before Disposition of Collateral.

- (a) **[“Notification date.”]** In this section, “notification date” means the earlier of the date on which:
 - (1) a secured party sends to the debtor and any secondary obligor an authenticated notification of disposition; or
 - (2) the debtor and any secondary obligor waive the right to notification.
- (b) **[Notification of disposition required.]** Except as otherwise provided in subsection (d), a secured party that disposes of collateral under Section 9-610 shall send to the persons specified in subsection (c) a reasonable authenticated notification of disposition.
- (c) **[Persons to be notified.]** To comply with subsection (b), the secured party shall send an authenticated notification of disposition to:
 - (1) the debtor;
 - (2) any secondary obligor; and
 - (3) if the collateral is other than consumer goods:
 - (A) any other person from which the secured party has received, before the notification date, an authenticated notification of a claim of an interest in the collateral;
 - (B) any other secured party or lienholder that, 10 days before the notification date, held a security interest in or other lien on the collateral perfected by the filing of a financing statement that:
 - (i) identified the collateral;
 - (ii) was indexed under the debtor's name as of that date; and
 - (iii) was filed in the office in which to file a financing statement against the debtor covering the collateral as of that date; and
 - (C) any other secured party that, 10 days before the notification date, held a security interest in the collateral perfected by compliance with a statute, regulation, or treaty described in Section 9-311(a).
- (d) **[Subsection (b) inapplicable: perishable collateral; recognized market.]** Subsection (b) does not apply if the collateral is perishable or threatens to decline speedily in value or is of a type customarily sold on a recognized market.

- (e) **[Compliance with subsection (c)(3)(B).]** A secured party complies with the requirement for notification prescribed by subsection (c)(3)(b) if:
- (1) not later than 20 days or earlier than 30 days before the notification date, the secured party requests, in a commercially reasonable manner, information concerning financing statements indexed under the debtor's name in the office indicated in subsection (c)(3)(B); and
 - (2) before the notification date, the secured party:
 - (A) did not receive a response to the request for information; or
 - (B) received a response to the request for information and sent an authenticated notification of disposition to each secured party or other lienholder named in that response whose financing statement covered the collateral.

§ 9-612. Timeliness of Notification Before Disposition of Collateral.

- (a) **[Reasonable time is question of fact.]** Except as otherwise provided in subsection (b), whether a notification is sent within a reasonable time is a question of fact.
- (b) **[10-day period sufficient in non-consumer transaction.]** In a transaction other than a consumer transaction, a notification of disposition sent after default and 10 days or more before the earliest time of disposition set forth in the notification is sent within a reasonable time before the disposition.

§ 9-613. Contents and Form of Notification Before Disposition of Collateral: General. Except in a consumer-goods transaction, the following rules apply:

- (1) The contents of a notification of disposition are sufficient if the notification:
 - (A) describes the debtor and the secured party;
 - (B) describes the collateral that is the subject of the intended disposition;
 - (C) states the method of intended disposition;
 - (D) states that the debtor is entitled to an accounting of the unpaid indebtedness and states the charge, if any, for an accounting; and
 - (E) states the time and place of a public disposition or the time after which any other disposition is to be made.
- (2) Whether the contents of a notification that lacks any of the information specified in paragraph (1) are nevertheless sufficient is a question of fact.

- (3) The contents of a notification providing substantially the information specified in paragraph (1) are sufficient, even if the notification includes:
 - (A) information not specified by that paragraph; or
 - (B) minor errors that are not seriously misleading.
- (4) A particular phrasing of the notification is not required.
- (5) The following form of notification and the form appearing in Section 9-614(3), when completed, each provides sufficient information:

NOTIFICATION OF DISPOSITION OF COLLATERAL

To: *[Name of debtor, obligor, or other person to which the notification is sent]*

From: *[Name, address, and telephone number of secured party]*

Name of Debtor(s): *[Include only if debtor(s) are not an addressee]*

[For a public disposition:]

We will sell [or lease or license, *as applicable*] the *[describe collateral]* [to the highest qualified bidder] in public as follows:

Day and Date:

Time:

Place:

[For a private disposition:]

We will sell [or lease or license, *as applicable*] the *[describe collateral]* privately sometime after *[day and date]* .

You are entitled to an accounting of the unpaid indebtedness secured by the property that we intend to sell [or lease or license, *as applicable*] [for a charge of \$_____]. You may request an accounting by calling us at *[telephone number]*

[End of Form]

§ 9-614. Contents and Form of Notification Before Disposition of Collateral: Consumer-Goods Transaction. In a consumer-goods transaction, the following rules apply:

- (1) A notification of disposition must provide the following information:
 - (A) the information specified in Section 9-613(1);
 - (B) a description of any liability for a deficiency of the person to which the notification is sent;
 - (C) a telephone number from which the amount that must be paid to the secured party to

redeem the collateral under Section 9-623 is available; and

(D) a telephone number or mailing address from which additional information concerning the disposition and the obligation secured is available.

(2) A particular phrasing of the notification is not required.

(3) The following form of notification, when completed, provides sufficient information:

[Name and address of secured party]

[Date]

NOTICE OF OUR PLAN TO SELL PROPERTY

[Name and address of any obligor who is also a debtor]

Subject: [Identification of Transaction]

We have your [describe collateral], because you broke promises in our agreement.

[For a public disposition:]

We will sell [describe collateral] at public sale. A sale could include a lease or license. The sale will be held as follows:

Date:

Time:

Place:

You may attend the sale and bring bidders if you want.

[For a private disposition:]

We will sell [describe collateral] at private sale sometime after [date]. A sale could include a lease or license.

The money that we get from the sale (after paying our costs) will reduce the amount you owe. If we get less money than you owe, you [will or will not, as applicable] still owe us the difference. If we get more money than you owe, you will get the extra money, unless we must pay it to someone else.

You can get the property back at any time before we sell it by paying us the full amount you owe (not just the past due payments), including our expenses. To learn the exact amount you must pay, call us at [telephone number].

If you want us to explain to you in writing how we have figured the amount that you owe us, you may call us at [telephone number] [or write us at [secured party's address]] and request a written explanation. [We will charge you \$_____ for the explanation if we sent you another written explanation of the amount you owe us within the last six months.]

If you need more information about the sale call us at [telephone number] [or write us at [secured party's address]].

We are sending this notice to the following other people who have an interest in [describe collateral] or who owe money under your agreement: [Names of all other debtors and obligors, if any]

[End of Form]

(4) A notification in the form of paragraph (3) is sufficient, even if additional information appears at the end of the form.

(5) A notification in the form of paragraph (3) is sufficient, even if it includes errors in information not required by paragraph (1), unless the error is misleading with respect to rights arising under this article.

(6) If a notification under this section is not in the form of paragraph (3), law other than this article determines the effect of including information not required by paragraph (1).

§ 9-615. Application of Proceeds of Disposition; Liability for Deficiency and Right to Surplus.

(a) **[Application of proceeds.]** A secured party shall apply or pay over for application the cash proceeds of disposition under Section 9-610 in the following order to:

(1) the reasonable expenses of retaking, holding, preparing for disposition, processing, and disposing, and, to the extent provided for by agreement and not prohibited by law, reasonable attorney's fees and legal expenses incurred by the secured party;

(2) the satisfaction of obligations secured by the security interest or agricultural lien under which the disposition is made;

(3) the satisfaction of obligations secured by any subordinate security interest in or other subordinate lien on the collateral if:

(A) the secured party receives from the holder of the subordinate security interest or other lien an authenticated demand for proceeds before distribution of the proceeds is completed; and

(B) in a case in which a consignor has an interest in the collateral, the subordinate security interest or other lien is senior to the interest of the consignor; and

(4) a secured party that is a consignor of the collateral if the secured party receives from the consignor an authenticated demand for proceeds before distribution of the proceeds is completed.

- (b) **[Proof of subordinate interest.]** If requested by a secured party, a holder of a subordinate security interest or other lien shall furnish reasonable proof of the interest or lien within a reasonable time. Unless the holder does so, the secured party need not comply with the holder's demand under subsection (a)(3).
- (c) **[Application of noncash proceeds.]** A secured party need not apply or pay over for application non-cash proceeds of disposition under Section 9-610 unless the failure to do so would be commercially unreasonable. A secured party that applies or pays over for application noncash proceeds shall do so in a commercially reasonable manner.
- (d) **[Surplus or deficiency if obligation secured.]** If the security interest under which a disposition is made secures payment or performance of an obligation, after making the payments and applications required by subsection (a) and permitted by subsection (c):
- (1) unless subsection (a)(4) requires the secured party to apply or pay over cash proceeds to a consignor, the secured party shall account to and pay a debtor for any surplus; and
 - (2) the obligor is liable for any deficiency.
- (e) **[No surplus or deficiency in sales of certain rights to payment.]** If the underlying transaction is a sale of accounts, chattel paper, payment intangibles, or promissory notes:
- (1) the debtor is not entitled to any surplus; and
 - (2) the obligor is not liable for any deficiency.
- (f) **[Calculation of surplus or deficiency in disposition to person related to secured party.]** The surplus or deficiency following a disposition is calculated based on the amount of proceeds that would have been realized in a disposition complying with this part to a transferee other than the secured party, a person related to the secured party, or a secondary obligor if:
- (1) the transferee in the disposition is the secured party, a person related to the secured party, or a secondary obligor; and
 - (2) the amount of proceeds of the disposition is significantly below the range of proceeds that a complying disposition to a person other than the secured party, a person related to the secured party, or a secondary obligor would have brought.
- (g) **[Cash proceeds received by junior secured party.]** A secured party that receives cash proceeds of a dis-

position in good faith and without knowledge that the receipt violates the rights of the holder of a security interest or other lien that is not subordinate to the security interest or agricultural lien under which the disposition is made:

- (1) takes the cash proceeds free of the security interest or other lien;
- (2) is not obligated to apply the proceeds of the disposition to the satisfaction of obligations secured by the security interest or other lien; and
- (3) is not obligated to account to or pay the holder of the security interest or other lien for any surplus.

§ 9-616. Explanation of Calculation of Surplus or Deficiency.

- (a) **[Definitions.]** In this section:
- (1) "Explanation" means a writing that:
 - (A) states the amount of the surplus or deficiency;
 - (B) provides an explanation in accordance with subsection (c) of how the secured party calculated the surplus or deficiency;
 - (C) states, if applicable, that future debits, credits, charges, including additional credit service charges or interest, rebates, and expenses may affect the amount of the surplus or deficiency; and
 - (D) provides a telephone number or mailing address from which additional information concerning the transaction is available.
 - (2) "Request" means a record:
 - (A) authenticated by a debtor or consumer obligor;
 - (B) requesting that the recipient provide an explanation; and
 - (C) sent after disposition of the collateral under Section 9-610.
- (b) **[Explanation of calculation.]** In a consumer-goods transaction in which the debtor is entitled to a surplus or a consumer obligor is liable for a deficiency under Section 9-615, the secured party shall:
- (1) send an explanation to the debtor or consumer obligor, as applicable, after the disposition and:
 - (A) before or when the secured party accounts to the debtor and pays any surplus or first makes written demand on the consumer obligor after the disposition for payment of the deficiency; and
 - (B) within 14 days after receipt of a request; or

- (2) in the case of a consumer obligor who is liable for a deficiency, within 14 days after receipt of a request, send to the consumer obligor a record waiving the secured party's right to a deficiency.
- (c) **[Required information.]** To comply with subsection (a)(1)(B), a writing must provide the following information in the following order:
- (1) the aggregate amount of obligations secured by the security interest under which the disposition was made, and, if the amount reflects a rebate of unearned interest or credit service charge, an indication of that fact, calculated as of a specified date:
 - (A) if the secured party takes or receives possession of the collateral after default, not more than 35 days before the secured party takes or receives possession; or
 - (B) if the secured party takes or receives possession of the collateral before default or does not take possession of the collateral, not more than 35 days before the disposition;
 - (2) the amount of proceeds of the disposition;
 - (3) the aggregate amount of the obligations after deducting the amount of proceeds;
 - (4) the amount, in the aggregate or by type, and types of expenses, including expenses of retaking, holding, preparing for disposition, processing, and disposing of the collateral, and attorney's fees secured by the collateral which are known to the secured party and relate to the current disposition;
 - (5) the amount, in the aggregate or by type, and types of credits, including rebates of interest or credit service charges, to which the obligor is known to be entitled and which are not reflected in the amount in paragraph (1); and
 - (6) the amount of the surplus or deficiency.
- (d) **[Substantial compliance.]** A particular phrasing of the explanation is not required. An explanation complying substantially with the requirements of subsection (a) is sufficient, even if it includes minor errors that are not seriously misleading.
- (e) **[Charges for responses.]** A debtor or consumer obligor is entitled without charge to one response to a request under this section during any six-month period in which the secured party did not send to the debtor or consumer obligor an explanation pursuant to subsection (b)(1). The secured party may require payment of a charge not exceeding \$25 for each additional response.

§ 9–617. Rights of Transferee of Collateral.

- (a) **[Effects of disposition.]** A secured party's disposition of collateral after default:
- (1) transfers to a transferee for value all of the debtor's rights in the collateral;
 - (2) discharges the security interest under which the disposition is made; and
 - (3) discharges any subordinate security interest or other subordinate lien [other than liens created under [cite acts or statutes providing for liens, if any, that are not to be discharged]].
- (b) **[Rights of good-faith transferee.]** A transferee that acts in good faith takes free of the rights and interests described in subsection (a), even if the secured party fails to comply with this article or the requirements of any judicial proceeding.
- (c) **[Rights of other transferee.]** If a transferee does not take free of the rights and interests described in subsection (a), the transferee takes the collateral subject to:
- (1) the debtor's rights in the collateral;
 - (2) the security interest or agricultural lien under which the disposition is made; and
 - (3) any other security interest or other lien.

§ 9–618. Rights and Duties of Certain Secondary Obligors.

- (a) **[Rights and duties of secondary obligor.]** A secondary obligor acquires the rights and becomes obligated to perform the duties of the secured party after the secondary obligor:
- (1) receives an assignment of a secured obligation from the secured party;
 - (2) receives a transfer of collateral from the secured party and agrees to accept the rights and assume the duties of the secured party; or
 - (3) is subrogated to the rights of a secured party with respect to collateral.
- (b) **[Effect of assignment, transfer, or subrogation.]** An assignment, transfer, or subrogation described in subsection (a):
- (1) is not a disposition of collateral under Section 9-610; and
 - (2) relieves the secured party of further duties under this article.

§ 9–619. Transfer of Record or Legal Title

- (a) **[“Transfer statement.”]** In this section, “transfer statement” means a record authenticated by a secured party stating:

- (1) that the debtor has defaulted in connection with an obligation secured by specified collateral;
 - (2) that the secured party has exercised its post-default remedies with respect to the collateral;
 - (3) that, by reason of the exercise, a transferee has acquired the rights of the debtor in the collateral; and
 - (4) the name and mailing address of the secured party, debtor, and transferee.
- (b) **[Effect of transfer statement.]** A transfer statement entitles the transferee to the transfer of record of all rights of the debtor in the collateral specified in the statement in any official filing, recording, registration, or certificate-of-title system covering the collateral. If a transfer statement is presented with the applicable fee and request form to the official or office responsible for maintaining the system, the official or office shall:
- (1) accept the transfer statement;
 - (2) promptly amend its records to reflect the transfer; and
 - (3) if applicable, issue a new appropriate certificate of title in the name of the transferee.
- (c) **[Transfer not a disposition; no relief of secured party's duties.]** A transfer of the record or legal title to collateral to a secured party under subsection (b) or otherwise is not of itself a disposition of collateral under this article and does not of itself relieve the secured party of its duties under this article.
- § 9-620. Acceptance of Collateral in Full or Partial Satisfaction of Obligation; Compulsory Disposition of Collateral.**
- (a) **[Conditions to acceptance in satisfaction.]** Except as otherwise provided in subsection (g), a secured party may accept collateral in full or partial satisfaction of the obligation it secures only if:
- (1) the debtor consents to the acceptance under subsection (c);
 - (2) the secured party does not receive, within the time set forth in subsection (d), a notification of objection to the proposal authenticated by:
 - (A) a person to which the secured party was required to send a proposal under Section 9-621; or
 - (B) any other person, other than the debtor, holding an interest in the collateral subordinate to the security interest that is the subject of the proposal;
 - (3) if the collateral is consumer goods, the collateral is not in the possession of the debtor when the debtor consents to the acceptance; and
- (4) subsection (e) does not require the secured party to dispose of the collateral or the debtor waives the requirement pursuant to Section 9-624.
- (b) **[Purported acceptance ineffective.]** A purported or apparent acceptance of collateral under this section is ineffective unless:
- (1) the secured party consents to the acceptance in an authenticated record or sends a proposal to the debtor; and
 - (2) the conditions of subsection (a) are met.
- (c) **[Debtor's consent.]** For purposes of this section:
- (1) a debtor consents to an acceptance of collateral in partial satisfaction of the obligation it secures only if the debtor agrees to the terms of the acceptance in a record authenticated after default; and
 - (2) a debtor consents to an acceptance of collateral in full satisfaction of the obligation it secures only if the debtor agrees to the terms of the acceptance in a record authenticated after default or the secured party:
 - (A) sends to the debtor after default a proposal that is unconditional or subject only to a condition that collateral not in the possession of the secured party be preserved or maintained;
 - (B) in the proposal, proposes to accept collateral in full satisfaction of the obligation it secures; and
 - (C) does not receive a notification of objection authenticated by the debtor within 20 days after the proposal is sent.
- (d) **[Effectiveness of notification.]** To be effective under subsection (a)(2), a notification of objection must be received by the secured party:
- (1) in the case of a person to which the proposal was sent pursuant to Section 9-621, within 20 days after notification was sent to that person; and
 - (2) in other cases:
 - (A) within 20 days after the last notification was sent pursuant to Section 9-621; or
 - (B) if a notification was not sent, before the debtor consents to the acceptance under subsection (c).
- (e) **[Mandatory disposition of consumer goods.]** A secured party that has taken possession of collateral shall dispose of the collateral pursuant to Section 9-610 within the time specified in subsection (f) if:
- (1) 60 percent of the cash price has been paid in the case of a purchase-money security interest in consumer goods; or

- (2) 60 percent of the principal amount of the obligation secured has been paid in the case of a non-purchase-money security interest in consumer goods.
- (f) **[Compliance with mandatory disposition requirement.]** To comply with subsection (e), the secured party shall dispose of the collateral:
 - (1) within 90 days after taking possession; or
 - (2) within any longer period to which the debtor and all secondary obligors have agreed in an agreement to that effect entered into and authenticated after default.
- (g) **[No partial satisfaction in consumer transaction.]** In a consumer transaction, a secured party may not accept collateral in partial satisfaction of the obligation it secures.

§ 9–621. Notification of Proposal to Accept Collateral.

- (a) **[Persons to which proposal to be sent.]** A secured party that desires to accept collateral in full or partial satisfaction of the obligation it secures shall send its proposal to:
 - (1) any person from which the secured party has received, before the debtor consented to the acceptance, an authenticated notification of a claim of an interest in the collateral;
 - (2) any other secured party or lienholder that, 10 days before the debtor consented to the acceptance, held a security interest in or other lien on the collateral perfected by the filing of a financing statement that:
 - (A) identified the collateral;
 - (B) was indexed under the debtor's name as of that date; and
 - (C) was filed in the office or offices in which to file a financing statement against the debtor covering the collateral as of that date; and
 - (3) any other secured party that, 10 days before the debtor consented to the acceptance, held a security interest in the collateral perfected by compliance with a statute, regulation, or treaty described in Section 9-311(a).
- (b) **[Proposal to be sent to secondary obligor in partial satisfaction.]** A secured party that desires to accept collateral in partial satisfaction of the obligation it secures shall send its proposal to any secondary obligor in addition to the persons described in subsection (a).

§ 9–622. Effect of Acceptance of Collateral.

- (a) **[Effect of acceptance.]** A secured party's acceptance of collateral in full or partial satisfaction of the obligation it secures:
 - (1) discharges the obligation to the extent consented to by the debtor;
 - (2) transfers to the secured party all of a debtor's rights in the collateral;
 - (3) discharges the security interest or agricultural lien that is the subject of the debtor's consent and any subordinate security interest or other subordinate lien; and
 - (4) terminates any other subordinate interest.
- (b) **[Discharge of subordinate interest notwithstanding noncompliance.]** A subordinate interest is discharged or terminated under subsection (a), even if the secured party fails to comply with this article.

§ 9–623. Right to Redeem Collateral.

- (a) **[Persons that may redeem.]** A debtor, any secondary obligor, or any other secured party or lienholder may redeem collateral.
- (b) **[Requirements for redemption.]** To redeem collateral, a person shall tender:
 - (1) fulfillment of all obligations secured by the collateral; and
 - (2) the reasonable expenses and attorney's fees described in Section 9-615(a)(1).
- (c) **[When redemption may occur.]** A redemption may occur at any time before a secured party:
 - (1) has collected collateral under Section 9-607;
 - (2) has disposed of collateral or entered into a contract for its disposition under Section 9-610; or
 - (3) has accepted collateral in full or partial satisfaction of the obligation it secures under Section 9-622.

§ 9–624. Waiver.

- (a) **[Waiver of disposition notification.]** A debtor or secondary obligor may waive the right to notification of disposition of collateral under Section 9-611 only by an agreement to that effect entered into and authenticated after default.
- (b) **[Waiver of mandatory disposition.]** A debtor may waive the right to require disposition of collateral under Section 9-620(e) only by an agreement to that effect entered into and authenticated after default.

- (c) **[Waiver of redemption right.]** Except in a consumer-goods transaction, a debtor or secondary obligor may waive the right to redeem collateral under Section 9-623 only by an agreement to that effect entered into and authenticated after default.

[SUBPART 2. NONCOMPLIANCE WITH ARTICLE]

§ 9-625. Remedies for Secured Party's Failure to Comply with Article.

- (a) **[Judicial orders concerning noncompliance.]** If it is established that a secured party is not proceeding in accordance with this article, a court may order or restrain collection, enforcement, or disposition of collateral on appropriate terms and conditions.
- (b) **[Damages for noncompliance.]** Subject to subsections (c), (d), and (f), a person is liable for damages in the amount of any loss caused by a failure to comply with this article. Loss caused by a failure to comply may include loss resulting from the debtor's inability to obtain, or increased costs of, alternative financing.
- (c) **[Persons entitled to recover damages; statutory damages in consumer-goods transaction.]** Except as otherwise provided in Section 9-628:
- (1) a person that, at the time of the failure, was a debtor, was an obligor, or held a security interest in or other lien on the collateral may recover damages under subsection (b) for its loss; and
 - (2) if the collateral is consumer goods, a person that was a debtor or a secondary obligor at the time a secured party failed to comply with this part may recover for that failure in any event an amount not less than the credit service charge plus 10 percent of the principal amount of the obligation or the time-price differential plus 10 percent of the cash price.
- (d) **[Recovery when deficiency eliminated or reduced.]** A debtor whose deficiency is eliminated under Section 9-626 may recover damages for the loss of any surplus. However, a debtor or secondary obligor whose deficiency is eliminated or reduced under Section 9-626 may not otherwise recover under subsection (b) for noncompliance with the provisions of this part relating to collection, enforcement, disposition, or acceptance.
- (e) **[Statutory damages: noncompliance with specified provisions.]** In addition to any damages recoverable under subsection (b), the debtor, consumer obligor, or person named as a debtor in a filed record, as applicable, may recover \$500 in each case from a person that:
- (1) fails to comply with Section 9-208;
 - (2) fails to comply with Section 9-209;
 - (3) files a record that the person is not entitled to file under Section 9-509(a);
 - (4) fails to cause the secured party of record to file or send a termination statement as required by Section 9-513(a) or (c);
 - (5) fails to comply with Section 9-616(b)(1) and whose failure is part of a pattern, or consistent with a practice, of noncompliance; or
 - (6) fails to comply with Section 9-616(b)(2).
- (f) **[Statutory damages: noncompliance with Section 9-210.]** A debtor or consumer obligor may recover damages under subsection (b) and, in addition, \$500 in each case from a person that, without reasonable cause, fails to comply with a request under Section 9-210. A recipient of a request under Section 9-210 which never claimed an interest in the collateral or obligations that are the subject of a request under that section has a reasonable excuse for failure to comply with the request within the meaning of this subsection.
- (g) **[Limitation of security interest: noncompliance with Section 9-210.]** If a secured party fails to comply with a request regarding a list of collateral or a statement of account under Section 9-210, the secured party may claim a security interest only as shown in the list or statement included in the request as against a person that is reasonably misled by the failure.

§ 9-626. Action in Which Deficiency or Surplus Is in Issue.

- (a) **[Applicable rules if amount of deficiency or surplus in issue.]** In an action arising from a transaction, other than a consumer transaction, in which the amount of a deficiency or surplus is in issue, the following rules apply:
- (1) A secured party need not prove compliance with the provisions of this part relating to collection, enforcement, disposition, or acceptance unless the debtor or a secondary obligor places the secured party's compliance in issue.
 - (2) If the secured party's compliance is placed in issue, the secured party has the burden of

establishing that the collection, enforcement, disposition, or acceptance was conducted in accordance with this part.

- (3) Except as otherwise provided in Section 9-628, if a secured party fails to prove that the collection, enforcement, disposition, or acceptance was conducted in accordance with the provisions of this part relating to collection, enforcement, disposition, or acceptance, the liability of a debtor or a secondary obligor for a deficiency is limited to an amount by which the sum of the secured obligation, expenses, and attorney's fees exceeds the greater of:
- (A) the proceeds of the collection, enforcement, disposition, or acceptance; or
- (B) the amount of proceeds that would have been realized had the noncomplying secured party proceeded in accordance with the provisions of this part relating to collection, enforcement, disposition, or acceptance.
- (4) For purposes of paragraph (3)(B), the amount of proceeds that would have been realized is equal to the sum of the secured obligation, expenses, and attorney's fees unless the secured party proves that the amount is less than that sum.
- (5) If a deficiency or surplus is calculated under Section 9-615(f), the debtor or obligor has the burden of establishing that the amount of proceeds of the disposition is significantly below the range of prices that a complying disposition to a person other than the secured party, a person related to the secured party, or a secondary obligor would have brought.
- (b) **[Non-consumer transactions; no inference.]** The limitation of the rules in subsection (a) to transactions other than consumer transactions is intended to leave to the court the determination of the proper rules in consumer transactions. The court may not infer from that limitation the nature of the proper rule in consumer transactions and may continue to apply established approaches.

§ 9-627. Determination of Whether Conduct Was Commercially Reasonable.

- (a) **[Greater amount obtainable under other circumstances; no preclusion of commercial reasonableness.]** The fact that a greater amount could have been obtained by a collection, enforcement, disposition, or acceptance at a different time or in a different method

from that selected by the secured party is not of itself sufficient to preclude the secured party from establishing that the collection, enforcement, disposition, or acceptance was made in a commercially reasonable manner.

- (b) **[Dispositions that are commercially reasonable.]** A disposition of collateral is made in a commercially reasonable manner if the disposition is made:
- (1) in the usual manner on any recognized market;
 - (2) at the price current in any recognized market at the time of the disposition; or
 - (3) otherwise in conformity with reasonable commercial practices among dealers in the type of property that was the subject of the disposition.
- (c) **[Approval by court or on behalf of creditors.]** A collection, enforcement, disposition, or acceptance is commercially reasonable if it has been approved:
- (1) in a judicial proceeding;
 - (2) by a bona fide creditors' committee;
 - (3) by a representative of creditors; or
 - (4) by an assignee for the benefit of creditors.
- (d) **[Approval under subsection (c) not necessary; absence of approval has no effect.]** Approval under subsection (c) need not be obtained, and lack of approval does not mean that the collection, enforcement, disposition, or acceptance is not commercially reasonable.

§ 9-628. Nonliability and Limitation on Liability of Secured Party; Liability of Secondary Obligor.

- (a) **[Limitation of liability of secured party for non-compliance with article.]** Unless a secured party knows that a person is a debtor or obligor, knows the identity of the person, and knows how to communicate with the person:
- (1) the secured party is not liable to the person, or to a secured party or lienholder that has filed a financing statement against the person, for failure to comply with this article; and
 - (2) the secured party's failure to comply with this article does not affect the liability of the person for a deficiency.
- (b) **[Limitation of liability based on status as secured party.]** A secured party is not liable because of its status as secured party:
- (1) to a person that is a debtor or obligor, unless the secured party knows:
 - (A) that the person is a debtor or obligor;
 - (B) the identity of the person; and
 - (C) how to communicate with the person; or

- (2) to a secured party or lienholder that has filed a financing statement against a person, unless the secured party knows:
 - (A) that the person is a debtor; and
 - (B) the identity of the person.
- (c) **[Limitation of liability if reasonable belief that transaction not a consumer-goods transaction or consumer transaction.]** A secured party is not liable to any person, and a person's liability for a deficiency is not affected, because of any act or omission arising out of the secured party's reasonable belief that a transaction is not a consumer-goods transaction or a consumer transaction or that goods are not consumer goods, if the secured party's belief is based on its reasonable reliance on:
 - (1) a debtor's representation concerning the purpose for which collateral was to be used, acquired, or held; or
 - (2) an obligor's representation concerning the purpose for which a secured obligation was incurred.
- (d) **[Limitation of liability for statutory damages.]** A secured party is not liable to any person under Section 9-625(c)(2) for its failure to comply with Section 9-616.
- (e) **[Limitation of multiple liability for statutory damages.]** A secured party is not liable under Section 9-625(c)(2) more than once with respect to any one secured obligation.

Part 7: Transition

§ 9-701. Effective Date. This [Act] takes effect on July 1, 2001.

§ 9-702. Savings Clause.

- (a) **[Pre-effective-date transactions or liens.]** Except as otherwise provided in this part, this [Act] applies to a transaction or lien within its scope, even if the transaction or lien was entered into or created before this [Act] takes effect.
- (b) **[Continuing validity.]** Except as otherwise provided in subsection (c) and Sections 9-703 through 9-709:
 - (1) transactions and liens that were not governed by [former Article 9], were validly entered into or created before this [Act] takes effect, and would be subject to this [Act] if they had been entered into or created after this [Act] takes effect, and the rights, duties, and interests flowing from

those transactions and liens remain valid after this [Act] takes effect; and

- (2) the transactions and liens may be terminated, completed, consummated, and enforced as required or permitted by this [Act] or by the law that otherwise would apply if this [Act] had not taken effect.
- (c) **[Pre-effective-date proceedings.]** This [Act] does not affect an action, case, or proceeding commenced before this [Act] takes effect.

§ 9-703. Security Interest Perfected Before Effective Date.

- (a) **[Continuing priority over lien creditor: perfection requirements satisfied.]** A security interest that is enforceable immediately before this [Act] takes effect and would have priority over the rights of a person that becomes a lien creditor at that time is a perfected security interest under this [Act] if, when this [Act] takes effect, the applicable requirements for enforceability and perfection under this [Act] are satisfied without further action.
- (b) **[Continuing priority over lien creditor: perfection requirements not satisfied.]** Except as otherwise provided in Section 9-705, if, immediately before this [Act] takes effect, a security interest is enforceable and would have priority over the rights of a person that becomes a lien creditor at that time, but the applicable requirements for enforceability or perfection under this [Act] are not satisfied when this [Act] takes effect, the security interest:
 - (1) is a perfected security interest for one year after this [Act] takes effect;
 - (2) remains enforceable thereafter only if the security interest becomes enforceable under Section 9-203 before the year expires; and
 - (3) remains perfected thereafter only if the applicable requirements for perfection under this [Act] are satisfied before the year expires.

§ 9-704. Security Interest Unperfected Before Effective Date. A security interest that is enforceable immediately before this [Act] takes effect but which would be subordinate to the rights of a person that becomes a lien creditor at that time:

- (1) remains an enforceable security interest for one year after this [Act] takes effect;
- (2) remains enforceable thereafter if the security interest becomes enforceable under Section 9-203 when this [Act] takes effect or within one year thereafter; and

- (3) becomes perfected:
 - (A) without further action, when this [Act] takes effect if the applicable requirements for perfection under this [Act] are satisfied before or at that time; or
 - (B) when the applicable requirements for perfection are satisfied if the requirements are satisfied after that time.

§ 9-705. Effectiveness of Action Taken Before Effective Date.

- (a) **[Pre-effective-date action; one-year perfection period unless reperfected.]** If action, other than the filing of a financing statement, is taken before this [Act] takes effect and the action would have resulted in priority of a security interest over the rights of a person that becomes a lien creditor had the security interest become enforceable before this [Act] takes effect, the action is effective to perfect a security interest that attaches under this [Act] within one year after this [Act] takes effect. An attached security interest becomes unperfected one year after this [Act] takes effect unless the security interest becomes a perfected security interest under this [Act] before the expiration of that period.
- (b) **[Pre-effective-date filing.]** The filing of a financing statement before this [Act] takes effect is effective to perfect a security interest to the extent the filing would satisfy the applicable requirements for perfection under this [Act].
- (c) **[Pre-effective-date filing in jurisdiction formerly governing perfection.]** This [Act] does not render ineffective an effective financing statement that, before this [Act] takes effect, is filed and satisfies the applicable requirements for perfection under the law of the jurisdiction governing perfection as provided in [former Section 9-103]. However, except as otherwise provided in subsections (d) and (e) and Section 9-706, the financing statement ceases to be effective at the earlier of:
 - (1) the time the financing statement would have ceased to be effective under the law of the jurisdiction in which it is filed; or
 - (2) June 30, 2006.
- (d) **[Continuation statement.]** The filing of a continuation statement after this [Act] takes effect does not continue the effectiveness of the financing statement filed before this [Act] takes effect. However, upon the timely filing of a continuation statement after this [Act] takes effect and in accordance with the law of the jurisdiction governing perfection as provided in

Part 3, the effectiveness of a financing statement filed in the same office in that jurisdiction before this [Act] takes effect continues for the period provided by the law of that jurisdiction.

- (e) **[Application of subsection (c)(2) to transmitting utility financing statement.]** Subsection (c)(2) applies to a financing statement that, before this [Act] takes effect, is filed against a transmitting utility and satisfies the applicable requirements for perfection under the law of the jurisdiction governing perfection as provided in [former Section 9-103] only to the extent that Part 3 provides that the law of a jurisdiction other than the jurisdiction in which the financing statement is filed governs perfection of a security interest in collateral covered by the financing statement.
- (f) **[Application of Part 5.]** A financing statement that includes a financing statement filed before this [Act] takes effect and a continuation statement filed after this [Act] takes effect is effective only to the extent that it satisfies the requirements of Part 5 for an initial financing statement.

§ 9-706. When Initial Financing Statement Suffices to Continue Effectiveness of Financing Statement.

- (a) **[Initial financing statement in lieu of continuation statement.]** The filing of an initial financing statement in the office specified in Section 9-501 continues the effectiveness of a financing statement filed before this [Act] takes effect if:
 - (1) the filing of an initial financing statement in that office would be effective to perfect a security interest under this [Act];
 - (2) the pre-effective-date financing statement was filed in an office in another State or another office in this State; and
 - (3) the initial financing statement satisfies subsection (c).
- (b) **[Period of continued effectiveness.]** The filing of an initial financing statement under subsection (a) continues the effectiveness of the pre-effective-date financing statement:
 - (1) if the initial financing statement is filed before this [Act] takes effect, for the period provided in [former Section 9-403] with respect to a financing statement; and
 - (2) if the initial financing statement is filed after this [Act] takes effect, for the period provided in Section 9-515 with respect to an initial financing statement.

- (c) **[Requirements for initial financing statement under subsection (a).]** To be effective for purposes of subsection (a), an initial financing statement must:
- (1) satisfy the requirements of Part 5 for an initial financing statement;
 - (2) identify the pre-effective-date financing statement by indicating the office in which the financing statement was filed and providing the dates of filing and file numbers, if any, of the financing statement and of the most recent continuation statement filed with respect to the financing statement; and
 - (3) indicate that the pre-effective-date financing statement remains effective.

§ 9-707. Amendment of Pre-Effective-Date Financing Statement.

- (a) **[“Pre-effective-date financing statement”.]** In this section, “pre-effective-date financing statement” means a financing statement filed before this [Act] takes effect.
- (b) **[Applicable law.]** After this [Act] takes effect, a person may add or delete collateral covered by, continue or terminate the effectiveness of, or otherwise amend the information provided in, a pre-effective-date financing statement only in accordance with the law of the jurisdiction governing perfection as provided in Part 3. However, the effectiveness of a pre-effective-date financing statement also may be terminated in accordance with the law of the jurisdiction in which the financing statement is filed.
- (c) **[Method of amending: general rule.]** Except as otherwise provided in subsection (d), if the law of this State governs perfection of a security interest, the information in a pre-effective-date financing statement may be amended after this [Act] takes effect only if:
- (1) the pre-effective-date financing statement and an amendment are filed in the office specified in Section 9-501;
 - (2) an amendment is filed in the office specified in Section 9-501 concurrently with, or after the filing in that office of, an initial financing statement that satisfies Section 9-706(c); or
 - (3) an initial financing statement that provides the information as amended and satisfies Section 9-706(c) is filed in the office specified in Section 9-501.
- (d) **[Method of amending: continuation.]** If the law of this State governs perfection of a security interest, the effectiveness of a pre-effective-date financing

statement may be continued only under Section 9-705(d) and (f) or 9-706.

- (e) **[Method of amending: additional termination rule.]** Whether or not the law of this State governs perfection of a security interest, the effectiveness of a pre-effective-date financing statement filed in this State may be terminated after this [Act] takes effect by filing a termination statement in the office in which the pre-effective-date financing statement is filed, unless an initial financing statement that satisfies Section 9-706(c) has been filed in the office specified by the law of the jurisdiction governing perfection as provided in Part 3 as the office in which to file a financing statement.

§ 9-708. Persons Entitled to File Initial Financing Statement or Continuation Statement. A person may file an initial financing statement or a continuation statement under this part if:

- (1) the secured party of record authorizes the filing; and
- (2) the filing is necessary under this part:
 - (A) to continue the effectiveness of a financing statement filed before this [Act] takes effect; or
 - (B) to perfect or continue the perfection of a security interest.

§ 9-709. Priority.

- (a) **[Law governing priority.]** This [Act] determines the priority of conflicting claims to collateral. However, if the relative priorities of the claims were established before this [Act] takes effect, [former Article 9] determines priority.
- (b) **[Priority if security interest becomes enforceable under Section 9-203.]** For purposes of Section 9-322(a), the priority of a security interest that becomes enforceable under Section 9-203 of this [Act] dates from the time this [Act] takes effect if the security interest is perfected under this [Act] by the filing of a financing statement before this [Act] takes effect which would not have been effective to perfect the security interest under [former Article 9]. This subsection does not apply to conflicting security interests each of which is perfected by the filing of such a financing statement.

Glossary

A
abandonment To intentionally give up possession or claim to property with the intent of relinquishment of any ownership or claim.

abatement An action of stopping or removing.

ab initio From the beginning.

abstract of title A summary of the conveyances, transfers, and other facts relied on as evidence of title, together with all such facts appearing of record that may impair its validity.

abuse of process An intentional tort designed to protect against the initiation of legal proceedings for a primary purpose other than the one for which such proceedings were designed.

acceleration The shortening of the time for the performance of a contract or the payment of a note by the operation of some provision in the contract or note itself.

acceptance The actual or implied receipt and retention of that which is tendered or offered.

accession The acquisition of property by its incorporation or union with other property.

accommodation paper A negotiable instrument signed without consideration by a party as acceptor, drawer, or indorser for the purpose of enabling the payee to obtain credit.

accommodation party A person who signs a negotiable instrument for the purpose of adding his name and liability to another party to the instrument.

accord and satisfaction A legally binding agreement to settle a disputed claim for a definite amount.

account stated An account that has been rendered by one to another and which purports to state the true balance due and that balance is either expressly or impliedly admitted to be due by the debtor.

acquit To set free or judicially to discharge from an accusation; to release from a debt, duty, obligation, charge, or suspicion of guilt.

actionable Capable of being remedied by a legal action or claim.

act of God An occurrence resulting exclusively from natural forces that could not have been prevented or whose effect could not have been avoided by care or foresight.

act of state doctrine A doctrine of international law that no nation is permitted to judge the act of another nation committed within its own boundaries.

adjudge To give judgment; to decide.

adjudicate To adjudge; to settle by judicial decree.

ad litem During the pendency of the action or proceeding.

administrator The personal representative appointed by a probate court to settle the estate of a deceased person who died intestate (without leaving a valid will).

adoption In corporation law, a corporation's acceptance of a preincorporation contract by action of its board of directors, by which the corporation becomes liable on the contract.

advance directive A written document such as a living will or durable power of attorney that directs others how future health care decisions should be made in the event that the individual becomes incapacitated.

adverse possession Open and notorious possession of real property over a given length of time that denies ownership in any other claimant.

advised letter of credit The seller's bank acts as the seller's agent to collect against the letter of credit issued by the buyer's bank.

affidavit A signed writing containing statements of fact to whose accuracy the signing party has sworn. Used in a variety of judicial proceedings, including the motion for summary judgment.

affirm To confirm or uphold a former judgment or order of a court. Appellate courts, for instance, may affirm the decisions of lower courts.

after-acquired property Property of the debtor that is obtained after a security interest in the debtor's property has been created.

agency A legal relationship in which an agent acts under the direction of a principal for the principal's benefit. Also used to refer to government regulatory bodies of all kinds.

agent One who acts under the direction of a principal for the principal's benefit in a legal relationship known as agency. See *principal*.

aggregate theory In partnership law, the view that there is no distinction between a partnership and the partners who own it. See *entity theory*.

aggrieved One whose legal rights have been invaded by the act of another. Also, one whose pecuniary interest is directly affected by a judgment, or whose right of property may be divested by an action.

alienation The voluntary act or acts by which one person transfers his or her own property to another.

alien corporation A corporation incorporated in one country that is doing business in another country. See *foreign corporation*.

allegation A statement of a party to an action in a declaration or pleading of what the party intends to prove.

allege To assert a statement of fact.

alteration An addition or change in a document.

alter ego Other self. In corporation law, a doctrine that permits a court to pierce a corporation's veil and to hold a shareholder liable for the actions of a corporation dominated by the shareholder.

alternative dispute resolution (ADR) A general name applied to the many nonjudicial means of settling private disputes.

amortize To provide for the payment of a debt by creating a sinking fund or paying in installments.

ancillary Auxiliary to. An ancillary receiver is a receiver who has been appointed in aid of, and in subordination to, the primary receiver.

ancillary covenant not to compete A promise that is ancillary to (part of) a valid contract whereby one party to a contract agrees not to compete with the other party for a specified time and within a specified location. Also called *noncompetition clause*.

answer The pleading of a defendant in which he or she may deny any or all the facts set out in the plaintiff's declaration or complaint.

anticipatory breach A contracting party's indication before the time for performance that he cannot or will not perform the contract.

appearance The first act of the defendant in court.

appellant The party making an appeal.

appellate jurisdiction Jurisdiction to revise or correct the work of a subordinate court.

appellee A party against whom a favorable court decision is appealed. May be called the *respondent* in some jurisdictions.

applicant A petitioner; one who files a petition or application.

appurtenance An accessory; something that belongs to another thing.

arbitrate To submit some disputed matter to selected persons and to accept their decision or award as a substitute for the decision of a judicial tribunal.

argument The discussion by counsel for the respective parties of their contentions on the law and the facts of the case being tried in order to aid the jury in arriving at a correct and just conclusion.

articles of incorporation A document that must be filed with a secretary of state to create a corporation. Usually, it includes the basic rights and responsibilities of the corporation and the shareholders.

artisan's lien A common law possessory security interest arising out of the improvement of property by one skilled in some mechanical art or craft; the lien entitles the improver of the property to retain possession in order to secure the agreed-on price or the value of the work performed.

assault An intentional tort that prohibits any attempt or offer to cause harmful or offensive contact with another if it results in a well-grounded apprehension of imminent battery in the mind of the threatened person.

assent To give or express one's concurrence or approval of something done.

assignable Capable of being lawfully assigned or transferred; transferable; negotiable. Also, capable of being specified or pointed out as an assignable error.

assignee A person to whom an assignment is made.

assignment A transfer of property or some right or interest.

assignor The maker of an assignment.

assumption of risk A traditional defense to negligence liability based on the argument that the plaintiff voluntarily exposed himself to a known danger created by the defendant's negligence.

assurance To provide confidence or to inform positively.

attachment In general, the process of taking a person's property under an appropriate judicial order by an appropriate officer of the court. Used for a variety of purposes, including the acquisition of jurisdiction over the property seized and the securing of property that may be used to satisfy a debt.

attest To bear witness to; to affirm; to be true or genuine.

attorney-in-fact An agent who is given express, written authorization by his principal to do a particular act or series of acts on behalf of the principal.

at will See *employment at will* or *partnership at will*.

audit committee In corporation law, a committee of the board that recommends and supervises the public accountant who audits the corporation's financial records.

authentication Such official attestation of a written instrument as will render it legally admissible in evidence.

authority In agency law, an agent's ability to affect his principal's legal relations with third parties. Also used to refer to an actor's legal power or ability to do something. In addition, sometimes used to refer to a statute, case, or other legal source that justifies a particular result.

authorized shares Shares that a corporation is empowered to issue by its articles of incorporation.

automatic stay Under the Bankruptcy Act, the suspension of all litigation against the debtor and his property, which is triggered by the filing of a bankruptcy petition.

averment A statement of fact made in a pleading.

avoid To nullify a contractual obligation.

B
bad faith A person's actual intent to mislead or deceive another; an intent to take an unfair and unethical advantage of another.

bailee The person to whom a bailment is made.

bailment The transfer of personal property by its owner to another person with the understanding that the property will be returned to the owner in the future.

bailor The owner of bailed property; the one who delivers personal property to another to be held in bailment.

bankruptcy The state of a person who is unable to pay his or her debts without respect to time; one whose liabilities exceed his or her assets.

bar As a collective noun, those persons who are admitted to practice law, members of the bar. The court itself. A plea or defense asserted by a defendant that is sufficient to destroy a plaintiff's action.

battery An intentional tort that prohibits the harmful or offensive touching of another without his consent.

bearer A person in possession of a negotiable instrument that is payable to him, his order, or to whoever is in possession of the instrument.

bench Generally used as a synonym for the term *court* or the judges of a court.

beneficiary The person for whose benefit an insurance policy, trust, will, or contract is established. In the case of a contract, the beneficiary is called a *third-party beneficiary*.

bequest In a will, a gift of personal property or money. Also called a *legacy*.

bid To make an offer at an auction or at a judicial sale. As a noun, an offer.

bilateral contract A contract in which the promise of one of the parties forms the consideration for the promise of the other.

bill of exchange An unconditional order in writing by one person to another, signed by the person giving it, requiring the person to whom it is addressed to pay on demand or at a fixed or determinable future time a sum certain in money to order or to bearer.

bill of lading A written acknowledgment of the receipt of goods to be transported to a designated place and delivery to a named person or to his or her order.

bill of sale A written agreement by which one person assigns or transfers interests or rights in personal property to another.

binder Also called a *binding slip*. A brief memorandum or agreement issued by an insurer as a temporary policy for the convenience of all the parties, constituting a present insurance in the amount specified, to continue in force until the execution of a formal policy.

blue sky laws The popular name for state statutes that regulate securities transactions.

bona fide Made honestly and in good faith; genuine.

bona fide purchaser An innocent buyer for valuable consideration who purchases goods without notice of any defects in the title of the goods acquired.

bond A long-term debt security that is secured by collateral.

bonus shares Also called *bonus stock*. Shares issued for no lawful consideration. See *discount shares* and *watered shares*.

breaking bulk The division or separation of the contents of a package or container.

brief A statement of a party's case or legal arguments, usually prepared by an attorney. Often used to support some of the motions described in Chapter 2, and also used to make legal arguments before appellate courts. Also, an abridgement of a reported case.

broker An agent who bargains or carries on negotiations in behalf of the principal as an intermediary between the latter and third persons in transacting business relative to the acquisition of contractual rights, or to the sale or purchase of property the custody of which is not entrusted to him or her for the purpose of discharging the agency.

bulk transfer The sale or transfer of a major part of the stock of goods of a merchant at one time and not in the ordinary course of business.

burden of proof Used to refer both to the necessity or obligation of proving the facts needed to support a party's claim, and the persuasiveness of the evidence used to do so. Regarding the second sense of the term, the usual burden of proof in a civil case is a preponderance of the evidence; in a criminal case, it is proof beyond a reasonable doubt.

business judgment rule A rule protecting business managers from liability for making bad decisions when they have acted prudently and in good faith.

buy-and-sell agreement A share transfer restriction compelling a shareholder to sell his shares to the other shareholders or the corporation and obligating the other shareholders or the corporation to buy the shareholder's shares.

buyer in ordinary course of business A person who, in good faith and without knowledge that the sale to him is in violation of a third party's ownership rights or security interest in the goods, buys in ordinary course from a person who is in the business of selling goods of that kind.

bylaws In corporation law, a document that supplements the articles of incorporation and contains less important rights, powers, and responsibilities of a corporation and its shareholders, officers, and directors.

call See *redemption*. Also, a type of option permitting a person to buy a fixed number of securities at a fixed price at a specified time. Compare *put*.

canceled shares Previously outstanding shares repurchased by a corporation and canceled by it; such shares no longer exist.

cancellation The act of crossing out a writing. The operation of destroying a written instrument.

C&F The price of the goods includes the cost of the goods plus the freight to the named destination.

capacity The ability to incur legal obligations and acquire legal rights.

capital Contributions of money and other property to a business made by the owners of the business.

capital stock See *stated capital*.

capital surplus Also called *additional paid in capital*. A balance sheet account; the portion of shareholders' contributions exceeding the par or stated value of shares.

case law The law extracted from decided cases.

cashier's check A draft (including a check) drawn by a bank on itself and accepted by the act of issuance.

causa mortis In contemplation of approaching death.

cause of action A legal rule giving the plaintiff the right to obtain some legal relief once certain factual elements are proven. Often used synonymously with the terms *claim* or *theory of recovery*.

caveat emptor “Let the buyer beware.”

caveat venditor “Let the seller beware.”

certificate of deposit An acknowledgment by a bank of the receipt of money with an engagement to pay it back.

certificate of limited partnership A document that must be filed with a secretary of state to create a limited partnership.

certification The return of a writ; a formal attestation of a matter of fact; the appropriate marking of a certified check.

certified check A check that has been accepted by the drawee bank and has been so marked or certified that it indicates such acceptance.

chancellor A judge of a court of chancery.

chancery Equity or a court of equity.

charge The legal instructions that a judge gives a jury before the jury begins its deliberations. In the prosecution of a crime, to formally accuse the offender or charge him with the crime.

charging order A court’s order granting rights in a partner’s transferable interest to a personal creditor of the partner; a creditor with a charging order is entitled to the partner’s share of partnership distributions.

charter An instrument or authority from the sovereign power bestowing the right or power to do business under the corporate form of organization. Also, the organic law of a city or town, and representing a portion of the statute law of the state.

chattel An article of tangible property other than land.

chattel mortgage An instrument whereby the owner of chattels transfers the title to such property to another as security for the performance of an obligation subject to be defeated on the performance of the obligation. Under the UCC, called merely a *security interest*.

chattel paper Written documents that evidence both an obligation to pay money and a security interest in particular goods.

check A written order on a bank or banker payable on demand to the person named or his order or bearer and drawn by virtue of credits due the drawer from the bank created by money deposited with the bank.

chose in action A personal right not reduced to possession but recoverable by a suit at law.

CIF An abbreviation for cost, freight, and insurance, used in mercantile transactions, especially in import transactions.

citation of authorities The reference to legal authorities such as reported cases or treatises to support propositions advanced.

civil action An action brought to enforce a civil right; in contrast to a criminal action.

civil law The body of law applicable to lawsuits involving two private parties.

class action An action brought on behalf of the plaintiff and others similarly situated.

close corporation A corporation with few shareholders generally having a close personal relationship to each other and participating in the management of the business.

COD Cash on delivery. When goods are delivered to a carrier for a cash on delivery shipment, the carrier must not deliver without receiving payment of the amount due.

code A system of law; a systematic and complete body of law.

codicil Some addition to or qualification of one’s last will and testament.

collateral Property put up to secure the performance of a promise, so that if the promisor fails to perform as promised, the creditor may look to the property to make him whole.

collateral attack An attempt to impeach a decree, a judgment, or other official act in a proceeding that has not been instituted for the express purpose of correcting or annulling or modifying the decree, judgment, or official act.

collateral contract A contract in which one person agrees to pay the debt of another if the principal debtor fails to pay. See *guaranty*.

comaker A person who with another or others signs a negotiable instrument on its face and thereby becomes primarily liable for its payment.

commercial impracticability The standards used by the UCC, replacing the common law doctrine of impossibility, to define when a party is relieved of his or her contract obligations because of the occurrence of unforeseeable, external events beyond his or her control.

commercial law The law that relates to the rights of property and persons engaged in trade or commerce.

commercial paper Negotiable paper such as promissory notes, drafts, and checks that provides for the payment of money and can readily be transferred to other parties.

commercial unit Under the UCC, any unit of goods that is treated by commercial usage as a single whole. It may, for example, be a single article or a set of articles such as a dozen, bale, gross, or carload.

common area In landlord–tenant law, an area over which the landlord retains control but which is often used by or for the benefit of tenants. For example, hallways in an apartment building.

common carrier One who undertakes, for hire or reward, to transport the goods of such of the public as choose to employ him.

common law The law that is made and applied by judges.

common shareholders Shareholders who claim the residual profits and assets of a corporation, and usually have the exclusive power and right to elect the directors of the corporation.

comparative fault Often used synonymously with *comparative negligence*. But also sometimes used to refer to a defense that operates like comparative negligence but considers the plaintiff’s and the defendant’s overall fault rather than either’s negligence alone.

comparative negligence The contemporary replacement for the traditional doctrine of contributory negligence. The basic idea is that damages are apportioned between the parties to a negligence action in proportion to their relative fault. The details vary from state to state.

compensatory damages Damages that will compensate a part for direct losses due to an injury suffered.

complaint The pleading in a civil case in which the plaintiff states his claim and requests relief.

composition with creditors An agreement between creditors and their common debtor and between themselves whereby the creditors agree to accept the sum or security stipulated in full payment of their claims.

concealment In contract law, taking active steps to prevent another from learning the truth.

concurrent Running with; simultaneously with.

condemn To appropriate land for public use. To adjudge a person guilty; to pass sentence on a person convicted of a crime.

condition In contract law, a future, uncertain event that creates or extinguishes a duty of performance; a provision or clause in a contract that operates to suspend or rescind a party's duty to perform.

conditional acceptance An acceptance of a bill of exchange containing some qualification limiting or altering the acceptor's liability on the bill.

conditional gift A gift that does not become absolute or complete until the occurrence of some express or implied condition.

conditional sale The term is most frequently applied to a sale in which the seller reserves the title to the goods, although the possession is delivered to the buyer, until the purchase price is paid in full.

condition precedent A condition that operates to give rise to a contracting party's duty to perform.

condition subsequent A condition that operates to relieve or discharge one from his obligation under a contract.

confession of judgment An entry of judgment on the admission or confession of the debtor without the formality, time, or expense involved in an ordinary proceeding.

confirmed letter of credit The seller's bank agrees to assume liability on the letter of credit issued by the buyer's bank.

confusion The inseparable intermixture of property belonging to different owners.

consent decree or consent order Used to refer to the order courts or administrative agencies issue when approving the settlement of a lawsuit or administrative action against some party.

consent restraint A security transfer restriction requiring a shareholder to obtain the consent of the corporation or its shareholders prior to the shareholder's sale of her shares.

consequential damages Damages that do not flow directly and immediately from an act but rather flow from the results of the act; damages that are indirect consequences of a breach of contract or certain other legal wrongs. Examples include personal injury, damage to property, and lost profits.

conservator (of an incompetent person) A person appointed by a court to take care of and oversee the person and estate of an incompetent person.

consideration In contract law, a basic requirement for an enforceable agreement under traditional contract principles, defined in this text as legal value, bargained for and given in exchange for an act or promise. In corporation law, cash or property contributed to a corporation in exchange for shares, or a promise to contribute such cash or property.

consignee A person to whom goods are consigned, shipped, or otherwise transmitted, either for sale or for safekeeping.

consignment A bailment for sale. The consignee does not undertake the absolute obligation to sell or pay for the goods.

consignor One who sends goods to another on consignment. A shipper or transmitter of goods.

conspicuous Noticeable by a reasonable person, such as a term or clause in a contract that is in bold print, in capitals, or a contrasting color or type style.

constructive eviction In landlord-tenant law, a breach of duty by the landlord that makes the premises uninhabitable or otherwise deprives the tenant of the benefit of the lease and gives rise to the tenant's right to vacate the property and terminate the lease.

construe To read a statute or document for the purpose of ascertaining its meaning and effect, but in doing so the law must be regarded.

contempt Conduct in the presence of a legislative or judicial body tending to disturb its proceedings or impair the respect due to its authority, or a disobedience to the rules or orders of such a body, which interferes with the due administration of law.

continuation statement A document, usually a multicopy form, filed in a public office to indicate the continuing viability of a financing statement. See *financing statement*.

contra Otherwise; disagreeing with; contrary to.

contract A legally enforceable promise or set of promises.

contract of adhesion A contract in which a stronger party is able to dictate terms to a weaker party, leaving the weaker party no practical choice but to adhere to the terms. If the stronger party has exploited its bargaining power to achieve unfair terms, the contract is against public policy.

contribution In business organization law, the cash or property contributed to a business by its owners.

contributory negligence A traditional defense to negligence liability based on the plaintiff's failure to exercise reasonable care for his own safety.

conversion Any distinct act of dominion wrongfully exerted over another's personal property in denial of or inconsistent with his rights therein. That tort committed by a person who deals with chattels not belonging to him in a manner that is inconsistent with the ownership of the lawful owner.

convertible securities Securities giving their holders the power to exchange those securities for other securities without paying any additional consideration.

conveyance A written instrument transferring the title to land or some interest therein from one person to another.

copartnership A partnership.

copyright A set of exclusive rights, protected by federal law, pertaining to certain creative works such as books, musical compositions, computer programs, works of art, and so forth. The rights are (1) to reproduce the work in question, (2) to prepare derivative works based on it, (3) to sell or otherwise distribute it, and (4) to perform or display it publicly.

corporation A form of business organization that is owned by owners, called shareholders, who have no inherent right to manage the business, and is managed by a board of directors that is elected by the shareholders.

corporation by estoppel A doctrine that prevents persons from denying that a corporation exists when the persons hold themselves out as representing a corporation or believe themselves to be dealing with a corporation.

corporeal Possessing physical substance; tangible; perceptible to the senses.

counterclaim A legal claim made in response to the plaintiff's initial claim in a civil suit. Unlike a defense, the counterclaim is the defendant's affirmative attempt to obtain legal relief; in effect, it states a cause of action entitling the defendant to such relief. Often, the counterclaim must arise out of the occurrence that forms the basis for the plaintiff's claim.

counteroffer A cross-offer made by the offeree to the offeror.

countertrade A buyer's purchase of the seller's goods in exchange for the seller's agreement to purchase goods of the buyer or other person; usually required as a condition to selling goods to a foreign trade corporation.

course of dealing A sequence of previous conduct between the parties to a transaction that is fairly to be regarded as establishing a common basis for interpreting their contract.

covenant A contract; a promise.

cover To obtain substitute or equivalent goods.

credible As applied to a witness, competent.

creditor A person to whom a debt or legal obligation is owed, and who has the right to enforce payment of that debt or obligation.

crime An act prohibited by the state; a public wrong.

criminal law The body of law setting out public wrongs that the government attempts to correct by prosecuting wrongdoers.

culpable Blameworthy; denotes breach of legal duty but not necessarily criminal conduct.

cumulative voting A procedure for voting for a corporation's directors that permits a shareholder to multiply the number of shares she owns by the number of directors to be elected and to cast the resulting total of votes for one or more directors. See *straight voting*.

curtesy At common law, a husband's right in property owned by his wife during her life.

custody The bare control or care of a thing as distinguished from the possession of it.

cy pres As near as possible. In the law of trusts, a doctrine applied to prevent a charitable trust from failing when the application of trust property to the charitable beneficiary designated by the settlor becomes illegal or impossible to carry out; in such a case, cy pres allows the court to redirect the distribution of trust property for some purpose that is as near as possible to the settlor's general charitable intent.

D
damages The sum of money recoverable by a plaintiff who has received a judgment in a civil case.

date of issue As applied to notes, bonds, and so on of a series, the arbitrary date fixed as the beginning of the term for which they run, without reference to the precise time when convenience or the state of the market may permit their sale or delivery.

D/B/A Doing business as; indicates the use of a trade name.

deal To engage in transactions of any kind, to do business with.

debenture A long-term, unsecured debt security.

debtor A person who is under a legal obligation to pay a sum of money to another (the creditor).

decedent A person who has died.

deceit A tort involving intentional misrepresentation or cheating by means of some device.

decision The judgment of a court; the opinion merely represents the reasons for that judgment.

declaratory judgment One that expresses the opinion of a court on a question of law without ordering anything to be done.

decree An order or sentence of a court of equity determining some right or adjudicating some matter affecting the merits of the cause.

deed A writing, sealed and delivered by the parties; an instrument conveying real property.

deed of trust A three-party instrument used to create a security interest in real property in which the legal title to the real property is placed in one or more trustees to secure the repayment of a sum of money or the performance of other conditions.

de facto In fact; actual. Often used in contrast to *de jure* to refer to a real state of affairs.

de facto corporation A corporation that has complied substantially with the mandatory conditions precedent to incorporation, taken as a whole.

defalcation The word includes both embezzlement and misappropriation and is a broader term than either.

defamation An intentional tort that prohibits the publication of false and defamatory statements concerning another.

default Fault; neglect; omission; the failure of a party to an action to appear when properly served with process; the failure to perform a duty or obligation; the failure of a person to pay money when due or when lawfully demanded.

defeasible Regarding title to property, capable of being defeated. A title to property that is open to attack or that may be defeated by the performance of some act.

defend To oppose a claim or action; to plead in defense of an action; to contest an action suit or proceeding.

defendant The party who is sued in a civil case, or the party who is prosecuted in a criminal case.

defendant in error Any of the parties in whose favor a judgment was rendered that the losing party seeks to have reversed or modified by writ of error and whom he names as adverse parties.

defense A rule of law entitling the defendant to a judgment in his favor even if the plaintiff proves all elements of his claim or cause of action.

deficiency That part of a debt that a mortgage was made to secure, not realized by the liquidation of the mortgaged property. Something that is lacking.

defraud To deprive another of a right by deception or artifice.

de jure According to the law; legitimate; by legal right.

de jure corporation A corporation that has complied substantially with each of the mandatory conditions precedent to incorporation.

delegation In constitutional law and administrative law, a process whereby a legislature effectively hands over some of its legislative power to an administrative agency that it has created, thus giving the agency power to make law within the limits set by the legislature. In contract law, a transaction whereby a person who owes a legal duty to perform under a contract appoints someone else to carry out his performance.

deliver To surrender property to another person.

demand A claim; a legal obligation; a request to perform an alleged obligation; a written statement of a claim. In corporation law, a request that the board of directors sue a person who has harmed the corporation; a prerequisite to a shareholder derivative suit.

demurrer A civil motion that attacks the plaintiff's complaint by assuming the truth of the facts stated in the complaint for purposes of the motion, and by arguing that even if these facts are true, there is no rule of law entitling the plaintiff to recovery. Roughly similar to the motion to dismiss for failure to state a claim on which relief can be granted.

de novo Anew; over again; a second time. A trial *de novo*, for example, is a new trial in which the entire case is retried.

deposition A form of discovery consisting of the oral examination of a party or a party's witness by the other party's attorney.

deputy A person subordinate to a public officer whose business and object is to perform the duties of the principal.

derivative suit Also called *derivative action*. A suit to enforce a corporate right of action brought on behalf of a corporation by one or more of its shareholders.

descent Hereditary succession. It is the title whereby, upon the death of an ancestor, the heir acquires the ancestor's estate under state law.

detriment Any act or forbearance by a promisee. A loss or harm suffered in person or property.

devise In a will, a gift of real property.

dictum Language in a judicial opinion that is not necessary for the decision of the case and that, while perhaps persuasive, does not bind subsequent courts. Distinguished from *holding*.

directed verdict A verdict issued by a judge who has, in effect, taken the case away from the jury by directing a verdict for one party. Usually, the motion for a directed verdict is made at trial by one party after the other party has finished presenting his evidence.

disaffirm In contract law, a party's exercise of his power to avoid a contract entered before the party reached the age of majority; a minor's cancellation of his contract.

discharge Release from liability.

discharge in bankruptcy An order or decree rendered by a court in bankruptcy proceedings, the effect of which is to satisfy all debts provable against the estate of the bankrupt as of the time when the bankruptcy proceedings were initiated.

disclaimer A term in a contract whereby a party attempts to relieve itself of some potential liability associated with the contract. The most common example is the seller's attempt to disclaim liability for defects in goods that it sells.

discount A loan on an evidence of debt, where the compensation for the use of the money until the maturity of the debt is deducted from the principal and retained by the lender at the time of making the loan.

discount shares Also called *discount stock*. Shares issued for less than their par value or stated value. See *bonus shares* and *watered shares*.

discovery A process of information gathering that takes place before a civil trial. See *deposition* and *interrogatory*.

dishonor The failure to pay or accept a negotiable instrument that has been properly presented.

dismiss To order a cause, motion, or prosecution to be discontinued or quashed.

dissenter's rights A shareholder's right to receive the fair value of her shares from her corporation when she objects to a corporate transaction that significantly alters her rights in the corporation.

dissociation In partnership law, the change in the relation of the partners caused by any partner ceasing to be associated with the carrying on of the business.

dissolution In partnership law, the commencement of the winding up process.

distribution In business organization law, a business's gratuitous transfer of its assets to the owners of the business. Includes cash and property dividends and redemptions.

divided court A court is so described when there has been a division of opinion between its members on a matter that has been submitted to it for decision.

dividends, cash or property A corporation's distribution of a portion of its assets to its shareholders, usually corresponding to current or historical corporate profits; unlike a redemption, it is not accompanied by a repurchase of shares.

dividends, share Also called *stock dividends*. A corporation's pro rata issuance of shares to existing shareholders for no consideration.

documents of title A classification of personal property that includes bills of lading, warehouse receipts, dock warrants, and dock receipts.

domain The ownership of land; immediate or absolute ownership. The public lands of a state are frequently termed the *public domain*.

domicile A place where a person lives or has his home; in a strict legal sense, the place where he has his true, fixed, permanent home and principal establishment, and to which place he has, whenever he is absent, the intention of returning.

donee A person to whom a gift is made.

donor A person who makes a gift.

double jeopardy clause A constitutional provision designed to protect criminal defendants from multiple prosecutions for the same offense.

dower The legal right or interest that a wife has in her husband's real estate by virtue of their marriage.

draft A written order drawn on one person by another, requesting him to pay money to a designated third person.

drawee A person on whom a draft is drawn by the drawer.

drawer The maker of a draft.

due bill An acknowledgment of a debt in writing, not made payable to order.

dummy One posing or represented as acting for himself, but in reality acting for another. A tool or "straw man" for the real parties in interest.

dumping The selling of goods by a seller in a foreign nation at unfairly low prices.

durable power of attorney A power of attorney that is not affected by the principal's incapacity. See *power of attorney* and *attorney-in-fact*.

durable power of attorney for health care A durable power of attorney in which the principal specifically gives the attorney-in-fact the authority to make health care decisions for her in the event that the principal should become incompetent. Also called *health care representative*.

duress Overpowering of the will of a person by force or fear.

E
earned surplus Also called *retained earnings*. A balance sheet account; a corporation's profits that have not been distributed to shareholders.

earnest money Something given as part of the purchase price to bind the bargain.

easement The right to make certain uses of another person's property or to prevent another person from making certain uses of his own property.

edict A command or prohibition promulgated by a sovereign and having the effect of law.

e.g. For example.

ejectment By statute in some states, an action to recover the immediate possession of real property.

eleemosynary corporation A corporation created for a charitable purpose or for charitable purposes.

emancipate To release; to set free. In contract law, a parent's waiver of his rights to control and receive the services of his minor child.

embezzlement A statutory offense consisting of the fraudulent conversion of another's personal property by one to whom it has been entrusted, with the intention of depriving the owner thereof, the gist of the offense being usually the violation of relations of a fiduciary character.

eminent domain A governmental power whereby the government can take or condemn private property for a public purpose on the payment of just compensation.

employment at will A rule stating that if an employment is not for a definite time period, either party may terminate the employment without liability at any time and for any reason that is not otherwise illegal.

enabling legislation The statute by which a legislative body creates an administrative agency.

en banc (in banc) By all the judges of a court, with all the judges of a court sitting.

encumbrance A right in a third person that diminishes the value of the land but is consistent with the passing of ownership of the land by deed.

endorsement See *indorsement*.

entity theory In partnership law, the view that a partnership is a legal entity distinct from the partners who own it. See *aggregate theory*.

entry Recordation; noting in a record; going on land; taking actual possession of land.

environmental impact statement A document that the National Environmental Policy Act requires federal agencies to prepare in connection with any legislative proposals or proposed actions that will significantly affect the environment.

equity A system of justice that developed in England separate from the common law courts. Few states in the United States still maintain separate equity courts, though most apply equity principles and procedures when remedies derived from the equity courts are sought. A broader meaning denotes fairness and justice. In business organization law, the capital contributions of owners plus profits that have not been distributed to the owners; stated capital plus capital surplus plus earned surplus.

equity of redemption The right of a mortgagee to discharge the mortgage when due and to have title to the mortgaged property free and clear of the mortgage debt.

error A mistake of law or fact; a mistake of the court in the trial of an action.

escheat The reversion of land to the state in the event that a decedent dies leaving no heirs.

estate An interest in land. Property owned by a decedent at the time of his death.

estop To bar or stop.

estoppel That state of affairs that arises when one is forbidden by law from alleging or denying a fact because of his previous action or inaction.

et al. And another or and others. An abbreviation for the Latin *et alius*, meaning “and another”; also of *et alii*, meaning “and others.”

eviction Depriving the tenant of the possession of leased premises.

evidence That which makes clear or ascertains the truth of the fact or point in issue either on the one side or the other; those rules of law whereby we determine what testimony is to be admitted and what rejected in each case and what is the weight to be given to the testimony admitted.

exception An objection; a reservation; a contradiction.

exclusionary rule The rule that bars the admissibility in criminal proceedings of evidence seized in violation of the Fourth Amendment’s prohibition against unreasonable searches and seizures.

exculpatory clause A clause in a contract or trust instrument that excuses a party from some duty.

executed When applied to written instruments, synonymous with the word *signed*; more frequently, it means everything has been done to complete the transaction; that is, the instrument has been signed, sealed, and delivered. An executed contract is one in which the object of the contract is performed.

execution A process of enforcing a judgment, usually by having an appropriate officer seize property of the defendant and sell it at a judicial sale. The final consummation of a contract or other instrument, including completion of all the formalities needed to make it binding.

executive order A legal rule issued by a chief executive (e.g., the president or a state governor), usually pursuant to a delegation of power from the legislature.

executor The personal representative appointed to administer the estate of a person who died leaving a valid will.

executory Not yet executed; not yet fully performed, completed, fulfilled, or carried out; to be performed wholly or in part.

exemption A release from some burden, duty, or obligation; a grace; a favor; an immunity; taken out from under the general rule, not to be like others who are not exempt.

exhibit A copy of a written instrument on which a pleading is founded, annexed to the pleading and by reference made a part of it. Any paper or thing offered in evidence and marked for identification.

ex post facto After the fact. The U.S. Constitution prohibits ex post facto criminal laws, meaning those that criminalize behavior that was legal when committed.

express warranty A warranty made in words, either oral or written.

expropriation A government’s taking of a business’s assets, such as a manufacturing facility, usually without just compensation.

ex ship A shipping term that does not specify a particular ship for transportation of goods but does not place the expense and risk of transportation on the seller until the goods are unloaded from whatever ship is used.

face value The nominal or par value of an instrument as expressed on its face; in the case of a bond, this is the amount really due, including interest.

factor An agent who is employed to sell goods for a principal, usually in his own name, and who is given possession of the goods.

false imprisonment An intentional tort that prohibits the unlawful confinement of another for an appreciable time without his consent.

FAS An abbreviation for the expression free alongside ship.

federal supremacy The ability of federal laws to defeat inconsistent state laws in case they conflict.

fee simple absolute The highest form of land ownership, which gives the owner the right to possess and use the land for an unlimited period of time, subject only to governmental or private restrictions, and unconditional power to dispose of the property during his lifetime or upon his death.

felony As a general rule, all crimes punishable by death or by imprisonment in a state prison.

fiction An assumption made by the law that something is true that is or may be false.

fiduciary One who holds goods in trust for another or one who holds a position of trust and confidence.

field warehousing A method of protecting a security interest in the inventory of a debtor whereby the creditor or his agent retains the physical custody of the debtor’s inventory, which is released to the debtor as he complies with the underlying security agreement.

financing statement A document, usually a multicopy form, filed in a public office serving as constructive notice to the world that a creditor claims a security interest in collateral that belongs to a certain named debtor.

firm offer Under the Uniform Commercial Code, a signed, written offer by a merchant containing assurances that it will be held open, and which is not revocable for the time stated in the offer, or for a reasonable time if no such time is stated.

fixture A thing that was originally personal property and that has been actually or constructively affixed to the soil itself or to some structure legally a part of the land.

FOB An abbreviation of free on board.

force majeure clause A contract provision, commonly encountered in international agreements for the sale of goods, that excuses nonperformance that results from conditions beyond the parties’ control.

foreclosure To terminate the rights of the mortgagor/owner of property.

foreign corporation A corporation incorporated in one state doing business in another state. See *alien corporation*.

foreign trade corporation A corporation in a NME nation that is empowered by the government to conduct the whole business of exporting or importing a particular product.

forwarder A person who, having no interest in goods and no ownership or interest in the means of their carriage, undertakes, for hire, to forward them by a safe carrier to their destination.

franchise A special privilege conferred by government on individuals, and which does not belong to the citizens of a country generally, of common right. Also a contractual relationship establishing a means of marketing goods or services giving certain elements of control to the supplier (franchisor) in return for the right of the franchisee to use the supplier's tradename or trademark, usually in a specific marketing area.

fraud Misrepresentation made with knowledge of its falsity and intent to deceive. See *misrepresentation*.

freeze-out In corporation law, a type of oppression by which only minority shareholders are forced to sell their shares.

fungible goods Goods, any unit of which is from its nature or by mercantile custom treated as the equivalent of any other unit.

future advances Money or other value provided to a debtor by a creditor subsequent to the time a security interest in the debtor's collateral is taken by that creditor.

futures Contracts for the sale and future delivery of stocks or commodities, wherein either party may waive delivery, and receive or pay, as the case may be, the difference in market price at the time set for delivery.

G
garnishee Used as a noun, the third party who is subjected to the process of garnishment. Used as a verb, to institute garnishment proceedings; to cause a garnishment to be levied on the garnishee.

garnishment A statutory proceeding whereby money, property, wages, or credits of the defendant that are in the hands of a third party are seized to satisfy a judgment or legally valid claim that the plaintiff has against the defendant.

general partnership See *partnership*.

gift A voluntary transfer of property for which the donor receives no consideration in return.

good faith Honesty in fact; an honest intention to abstain from taking an unfair advantage of another.

goodwill The value of a business due to expected continued public patronage of the business.

grantee A person to whom a grant is made.

grantor A person who makes a grant.

gravamen The gist, essence, or central point of a legal claim or argument.

gray market goods Goods lawfully bearing trademarks or using patented or copyrighted material, but imported into a foreign market without the authorization of the owner of the trademark, patent, or copyright.

guarantor A person who promises to perform the same obligation as another person (called the *principal*), upon the principal's default.

guaranty An undertaking by one person to be answerable for the payment of some debt, or the due performance of some contract or duty by another person, who remains liable to pay or perform the same.

guardian A person (in some rare cases, a corporation) to whom the law has entrusted the custody and control of the person, or estate, or both, of an incompetent person.

H
habeas corpus Any of several common law writs having as their object to bring a party before the court or judge. The only issue it presents is whether the prisoner is restrained of his liberty by due process.

hearing The supporting of one's contentions by argument and, if need be, by proof.

hedging A market transaction in which a party buys a certain quantity of a given commodity at the price current on the date of the purchase and sells an equal quantity of the same commodity for future delivery for the purpose of getting protection against loss due to fluctuation in the market.

heirs Those persons appointed by law to succeed to the estate of a decedent who has died without leaving a valid will.

holder A person in possession of a document of title or an instrument payable or indorsed to him, his order, or to bearer.

holder in due course A person who is a holder of a negotiable instrument who took the instrument for value, in good faith, without notice that it is overdue or has been dishonored or that there is any uncured default with respect to payment of another instrument issued as part of the same series, without notice that the instrument contains an unauthorized signature or has been altered, without notice of any claim of a property or possessory interest in it, and without notice that any party has any defense against it or claim in recoupment to it.

holding Language in a judicial opinion that is necessary for the decision the court reached and that is said to be binding on subsequent courts. Distinguished from *dictum*.

holding company A corporation whose purpose or function is to own or otherwise hold the shares of other corporations either for investment or control.

holographic will A will written in the handwriting of the testator.

homestead In a legal sense, the real estate occupied as a home and also the right to have it exempt from levy and forced sale. It is the land, not exceeding a prescribed amount, upon which the owner and his family reside, including the house in which they reside as an indispensable part.

I
i.e. That is.

illusory Deceiving or intending to deceive, as by false appearances; fallacious. An illusory promise is a promise that appears to be binding but that in fact does not bind the promisor.

immunity A personal favor granted by law, contrary to the general rule.

impanel To place the names of the jurors on a panel; to make a list of the names of those persons who have been selected for jury duty; to go through the process of selecting a jury that is to try a cause.

implied warranty A warranty created by operation of law.

implied warranty of habitability Implied warranty arising in lease or sale of residential real estate that the property will be fit for human habitation.

impossibility A doctrine under which a party to a contract is relieved of his or her duty to perform when that performance has become impossible because of the occurrence of an event unforeseen at the time of contracting.

inalienable Incapable of being alienated, transferred, or conveyed; nontransferable.

in camera In the judge's chambers; in private.

incapacity A legal disability, such as infancy or want of authority.

inception Initial stage. The word does not refer to a state of actual existence but to a condition of things or circumstances from which the thing may develop.

inchoate Imperfect; incipient; not completely formed.

incidental damages Collateral damages that result from a breach of contract, including all reasonable expenses that are incurred because of the breach; damages that compensate a person injured by a breach of contract for reasonable costs he incurs in an attempt to avoid further loss.

indenture A contract between a corporation and the holders of bonds or debentures issued by the corporation stating the rights of the holders and duties of the corporation.

independent contractor A person who contracts with a principal to perform some task according to his own methods, and who is not under the principal's control regarding the physical details of the work. Under the *Restatement (Second) of Agency*, an independent contractor may or may not be an agent.

indictment A finding by a grand jury that there is probable cause to believe an accused committed a crime.

indorsement Writing on the back of an instrument; the contract whereby the holder of an instrument (such as a draft, check, or note) or a document (such as a warehouse receipt or bill of lading) transfers to another person his right to such instrument and incurs the liabilities incident to the transfer.

infant See *minor*.

information A written accusation of crime brought by a public prosecuting officer to a court without the intervention of a grand jury.

injunction An equitable remedy whereby the defendant is ordered to perform certain acts or to desist from certain acts.

in pari delicto Equally at fault in tort or crime; in equal fault or guilt.

in personam Against a person. For example, in personam jurisdiction.

in re In the matter of.

in rem Against a thing and not against a person; concerning the condition or status of a thing; for example, in rem jurisdiction.

inside information Confidential information possessed by a person due to his relationship with a business.

insolvency In corporation law, the inability of a business to pay its currently maturing obligations.

instrument Formal or legal documents in writing, such as contracts, deeds, wills, bonds, leases, and mortgages.

insurable interest Any interest in property such that the owner would experience a benefit from the continued existence of the property or a loss from its destruction.

inter alia Among other things.

interlocutory Something not final but deciding only some subsidiary matter raised while a lawsuit is pending.

interpleader An equitable remedy applicable where one fears injury from conflicting claims. Where a person does not know which of two or more persons claiming certain property held by him has a right to it, filing a bill of interpleader forces the claimants to litigate the title between themselves.

interrogatory Written questions directed to a party, answered in writing, and signed under oath.

inter se Between or among themselves.

interstate Between or among two or more states.

intervening cause An intervening force that plays so substantial a role in causing a particular plaintiff's injury that it relieves a negligent defendant of any responsibility for that injury. Also called *superseding cause*.

intervention A proceeding by which one not originally made a party to an action or suit is permitted, on his own application, to appear therein and join one of the original parties in maintaining his cause of action or defense, or to assert some cause of action against some or all of the parties to the proceeding as originally instituted.

inter vivos A transaction between living persons.

intestate Having died without leaving a valid will.

in toto Wholly, completely.

intrastate Within a particular state.

investment contract In securities law, a type of security encompassing any contract by which an investor invests in a common enterprise with an expectation of profits solely from the efforts of persons other than the investor.

invitee A person who is on private premises for a purpose connected with the business interests of the possessor of those premises, or a member of the public who is lawfully on land open to the public.

ipso facto By the fact itself; by the very fact.

irrevocable letter of credit The issuing bank may not revoke the letter of credit issued by the buyer's bank.

issue Lineal descendants such as children and grandchildren. This category of persons includes adopted children.

issued shares A corporation's shares that a corporation has sold to its shareholders. Includes shares repurchased by the corporation and retained as treasury shares, but not shares canceled or returned to unissued status.

issuer In securities law, a person who issues or proposes to issue a security; the person whose obligation is represented by a security.

joint and several liability Liability of a group of persons in which the plaintiff may sue any member of the group individually and get a judgment against that person, or may sue all members of the group collectively.

joint bank account A bank account of two persons so fixed that they shall be joint owners thereof during their mutual lives, and the survivor shall take the whole on the death of other.

joint liability Liability of a group of persons in which, if one of these persons is sued, he can insist that the other liable parties be joined to the suit as codefendants, so that all must be sued collectively.

jointly Acting together or in concert or cooperating; holding in common or interdependently, not separately. Persons are jointly bound in a bond or note when both or all must be sued in one action for its enforcement, not either one at the election of the creditor.

joint tenancy An estate held by two or more jointly, with an equal right in all to share in the enjoyments of the land during their lives. An incident of joint tenancy is the right of survivorship.

joint venture A form of business organization identical to a partnership, except that it is engaged in a single project, not carrying on a business.

judgment A court's final resolution of a lawsuit or other proceeding submitted to it for decision.

judgment lien The statutory lien on the real property of a judgment debtor that is created by the judgment itself. At common law, a judgment imposes no lien on the real property of the judgment debtor, and to subject the property of the debtor to the judgment, it was necessary to take out a writ called an *elegit*.

judgment notwithstanding the verdict A judgment made by a judge contrary to a prior jury verdict whereby the judge effectively overrules the jury's verdict. Also called the *j.n.o.v.* or the *judgment non obstante veredicto*. Similar to the directed verdict, except that it occurs after the jury has issued its verdict.

judicial review The courts' power to declare the actions of the other branches of government unconstitutional.

jurisdiction The power of a court to hear and decide a case.

jurisprudence The philosophy of law. Also sometimes used to refer to the collected positive law of some jurisdiction.

jury A body of lay persons, selected by lot, or by some other fair and impartial means, to ascertain, under the guidance of the judge, the truth in questions of fact arising either in civil litigation or a criminal process.

kite To secure the temporary use of money by issuing or negotiating worthless paper and then redeeming such paper with the proceeds of similar paper. The word is also used as a noun, meaning the worthless paper thus employed.

laches The established doctrine of equity that, apart from any question of statutory limitation, its courts will discourage delay and sloth in the enforcement of rights. Equity demands conscience, good faith, and reasonable diligence.

land contract A conditional agreement for the sale and purchase of real estate in which the legal title to the property is retained by the seller until the purchaser has fulfilled the agreement, usually by completing the payment of the agreed-on purchase price.

larceny The unlawful taking and carrying away of personal property with the intent to deprive the owner of his property permanently.

last clear chance Under traditional tort principles, a doctrine that allowed a contributorily negligent plaintiff to recover despite his failure to exercise reasonable care for his own safety by arguing that the defendant had the superior opportunity (last clear chance) to avoid the harm.

law merchant The custom of merchants, or *lex mercatorio*, that grew out of the necessity and convenience of business, and that, although different from the general rules of the common law, was engrafted into it and became a part of it. It was founded on the custom and usage of merchants.

leading case The most significant and authoritative case regarded as having settled and determined a point of law. Often, the first case to have done so in a definitive and complete fashion.

leading questions Questions that suggest to the witness the answer desired or those that assume a fact to be proved that is not proved, or that, embodying a material fact, allow the witness to answer by a simple negative or affirmative.

lease A contract for the possession and use of land or other property, including goods, on one side, and a recompense of rent or other income on the other; a conveyance to a person for life, or years, or at will in consideration of a return of rent or other recompense.

legacy A bequest; a testamentary gift of personal property. Sometimes incorrectly applied to a testamentary gift of real property.

legal According to the principles of law; according to the method required by statute; by means of judicial proceedings; not equitable.

letter of credit An instrument containing a request (general or special) to pay to the bearer or person named money, or sell

him or her some commodity on credit or give something of value and look to the drawer of the letter for recompense.

levy At common law, a levy on goods consisted of an officer's entering the premises where they were and either leaving an assistant in charge of them or removing them after taking an inventory. Today, courts differ as to what is a valid levy, but by the weight of authority there must be an actual or constructive seizure of the goods. In most states, a levy on land must be made by some unequivocal act of the officer indicating the intention of singling out certain real estate for the satisfaction of the debt.

libel The defamation action appropriate to printed or written defamations, or to those that have a physical form.

license A personal privilege to do some act or series of acts on the land of another, without possessing any ownership interest in the land. A permit or authorization to do something that, without a license, would be unlawful.

licensee A person lawfully on land in possession of another for purposes unconnected with the business interests of the possessor.

lien In its most extensive meaning, it is a charge on property for the payment or discharge of a debt or duty; a qualified right; a proprietary interest that, in a given case, may be exercised over the property of another.

life estate A property interest that gives a person the right to possess and use property for a time that is measured by his lifetime or that of another person.

limited liability limited partnership A limited partnership that has elected to obtain limited liability status for all of its partners, including general partners, by filing with the secretary of state. Also called *LLLP*.

limited liability partnership A partnership that has elected to obtain limited liability for its partners by filing with the secretary of state. Also called *LLP*.

limited partner An owner of a limited partnership who has no right to manage the business but who possesses liability limited to his capital contribution to the business.

limited partnership A form of business organization that has one or more general partners who manage the business and have unlimited liability for the obligations of the business and one or more limited partners who do not manage and have limited liability.

liquidated damages The stipulation by the parties to a contract of the sum of money to be recovered by the aggrieved party in the event of a breach of the contract by the other party.

liquidated debt A debt that is due and certain. That is, one that is not the subject of a bona fide dispute either as to its existence or the amount that is owed.

lis pendens A pending suit. As applied to the doctrine of *lis pendens*, it is the jurisdiction, power, or control that courts acquire over property involved in a suit, pending the continuance of the action, and until its final judgment.

listing contract A so-called contract whereby an owner of real property employs a broker to procure a purchaser without giving the broker an exclusive right to sell. Under such an

agreement, it is generally held that the employment may be terminated by the owner at will, and that a sale of the property by the owner terminates the employment.

litigant A party to a lawsuit.

living will A document executed with specific legal formalities stating a person's preference that heroic life support measures should not be used if there is no hope of the person's recovery.

LLLP See *limited liability limited partnership*.

LLP See *limited liability partnership*.

long-arm statute A state statute that grants to a state's courts broad authority to exercise jurisdiction over out-of-state persons who have contacts with the state.

looting In corporation law, the transfer of a corporation's assets to its managers or controlling shareholders at less than fair value.

Magistrate A word commonly applied to the lower judicial officers such as justices of the peace, police judges, town recorders, and other local judicial functionaries. In a broader sense, a magistrate is a public civil officer invested with some part of the legislative, executive, or judicial power given by the Constitution. The president of the United States is the chief magistrate of the nation.

maker A person who makes or executes an instrument. The signer of an instrument.

malfeasance The doing of an act that a person ought not to do at all. It is to be distinguished from misfeasance—the improper doing of an act that a person might lawfully do.

malicious prosecution An intentional tort designed to protect against the wrongful initiation of criminal proceedings.

mandamus We command. It is a command issuing from a competent jurisdiction, in the name of the state or sovereign, directed to some inferior court, officer, corporation, or person, requiring the performance of a particular duty therein specified, which duty results from the official station of the party to whom it is directed, or from operation of law.

margin A deposit by a buyer in stocks with a seller or a stockbroker, as security to cover fluctuations in the market in reference to stocks that the buyer has purchased but for which he has not paid. Commodities are also traded on margin.

marshals Ministerial officers belonging to the executive department of the federal government, who with their deputies have the same powers of executing the laws of the United States in each state as the sheriffs and their deputies in such state may have in executing the laws of that state.

material Important. In securities law, a fact is material if a reasonable person would consider it important in his decision to purchase shares or to vote shares.

materialman's lien A claim created by law for the purpose of securing a priority of payment of the price or value of materials furnished in erecting or repairing a building or other structure.

mechanic's lien A claim created by law for the purpose of securing a priority of payment of the price or value of work performed and materials furnished in erecting or repairing a building or other structure; as such, it attaches to the land as well as to the buildings erected therein.

memorandum A writing.

mens rea A guilty mind; criminal intent.

merchant Under the Uniform Commercial Code, one who regularly deals in goods of the kind sold in the contract at issue, or holds himself out as having special knowledge or skill relevant to such goods, or who makes the sale through an agent who regularly deals in such goods or claims such knowledge or skill.

merchtable Of good quality and salable, but not necessarily the best. As applied to articles sold, the word requires that the article shall be such as is usually sold in the market, of medium quality, and bringing the average price.

merger In corporation law, traditionally, a transaction by which one corporation acquires another corporation, with the acquiring corporation being owned by the shareholders of both corporations and the acquired corporation going out of existence. Today, loosely applied to any negotiated acquisition of one corporation by another.

merger clause A contract clause providing that the written contract is the complete expression of the parties' agreement. Also called *integration clause*.

mining partnership A form of business organization used for mining and drilling mineral resources that is identical to a partnership, except that mining partnership interests are freely transferable.

minor A person who has not reached the age at which the law recognizes a general contractual capacity (called *majority*), which is 18 in most states.

misdemeanor Any crime that is punishable neither by death nor by imprisonment in a state prison.

misrepresentation The assertion of a fact that is not in accord with the truth. A contract can be rescinded on the ground of misrepresentation when the assertion relates to a material fact or is made fraudulently and the other party actually and justifiably relies on the assertion.

mistrial An invalid trial due to lack of jurisdiction, error in selection of jurors, or some other fundamental requirement.

mitigation of damages A reduction in the amount of damages due to extenuating circumstances.

mortgage A conveyance of property to secure the performance of some obligation, the conveyance to be void on the due performance thereof.

mortgagee The creditor to whom property has been mortgaged to secure the performance of an obligation.

mortgagor The owner of the property that has been mortgaged or pledged as security for a debt.

motion to dismiss A motion made by the defendant in a civil case to defeat the plaintiff's case, usually after the complaint or

all the pleadings have been completed. The most common form of motion to dismiss is the motion to dismiss for failure to state a claim on which relief can be granted, which attacks the legal sufficiency of the plaintiff's complaint. See *demurrer*.

motive The cause or reason that induced a person to commit a crime.

mutuality Reciprocal obligations of the parties required to make a contract binding on either party.

National ambient air quality standards Federally established air pollution standards designed to protect the public health and welfare.

natural law A body of allegedly existing ethical rules or principles that is morally superior to positive law and that prevails over positive law in case of a clash between it and the natural law. See *positive law*.

necessaries That which is reasonably necessary for a minor's proper and suitable maintenance, in view of the income level and social position of the minor's family.

negligence The omission to do something that a reasonable person, guided by those considerations that ordinarily regulate human affairs, would do, or doing something that a prudent and reasonable person would not do.

negligence per se The doctrine that provides that a conclusive presumption of breach of duty arises when a defendant has violated a statute and thereby caused a harm the statute was designed to prevent to a person the statute was designed to protect.

negotiable Capable of being transferred by indorsement or delivery so as to give the holder a right to sue in his or her own name and to avoid certain defenses against the payee.

negotiable instrument An instrument that may be transferred or negotiated, so that the holder may maintain an action thereon in his own name.

negotiation The transfer of an instrument in such form that the transferee becomes a holder.

NME A nonmarket economy; a socialist economy in which a central government owns and controls all significant means of production, thereby setting prices and the levels of production.

nolo contendere A no contest plea by the defendant in a criminal case that has much the same effect as a guilty plea but that cannot be used as an admission of guilt in other legal proceedings.

nominal damages Damages that are recoverable when a legal right is to be vindicated against an invasion that has produced no actual present loss.

non compos mentis Mentally incompetent.

nonfeasance In the law of agency, the total omission or failure of an agent to enter on the performance of some distinct duty or undertaking that he or she has agreed with the principal to do.

non obstante veredicto Notwithstanding the verdict. J.n.o.v. See *judgment notwithstanding the verdict*.

no-par value stock Stock of a corporation having no face or par value.

novation A mutual agreement, between all parties concerned, for the discharge of a valid existing obligation by the substitution of a new valid obligation on the part of the debtor or another, or a like agreement for the discharge of a debtor to his creditor by the substitution of a new creditor.

nudum pactum A naked promise, a promise for which there is no consideration.

nuisance That which endangers life or health, gives offense to the senses, violates the laws of decency, or obstructs the reasonable and comfortable use of property.

nuncupative will An oral will. Such wills are valid in some states, but only under limited circumstances and to a limited extent.

Oath Any form of attestation by which a person signifies that he is bound in conscience to perform an act faithfully and truthfully.

obiter dictum That which is said in passing; a rule of law set forth in a court's opinion but not necessary to decide the case. See *dictum*.

objection In the trial of a case the formal remonstrance made by counsel to something that has been said or done, in order to obtain the court's ruling thereon.

obligee A person to whom another is bound by a promise or other obligation; a promisee.

obligor A person who is bound by a promise or other obligation; a promisor.

offer A proposal by one person to another that is intended to create legal relations on acceptance by the person to whom it is made.

offeree A person to whom an offer is made.

offeror A person who makes an offer.

opinion The opinion of the court represents merely the reasons for its judgment, while the decision of the court is the judgment itself.

oppression The officers, directors, or controlling shareholder's isolation of one group of shareholders for disadvantageous treatment to the benefit of another group of shareholders.

option A separate contract in which an offeror agrees not to revoke her offer for a stated period of time in exchange for some valuable consideration.

option agreement A share transfer restriction granting a corporation or its shareholders an option to buy a selling shareholder's shares at a price determined by the agreement.

ordinance A legislative enactment of a county or an incorporated city or town.

original jurisdiction The power to decide a case as a trial court.

outstanding shares A corporation's shares currently held by shareholders.

overdraft The withdrawal from a bank by a depositor of money in excess of the amount of money he or she has on deposit there.

overdue When an instrument is not paid when due or at maturity.

overplus That which remains; a balance left over.

owner's risk A term employed by common carriers in bills of lading and shipping receipts to signify that the carrier does not assume responsibility for the safety of the goods.

P
par Par means equal, and par value means a value equal to the face of a bond or a stock certificate.

parent corporation A corporation that owns a controlling interest of another corporation, called a *subsidiary corporation*.

parol Oral; verbal; by word of mouth.

parol evidence Where a written contract exists, evidence about promises or statements made prior to or during the execution of the writing that are not contained in the written contract.

parties All persons who are interested in the subject matter of an action and who have a right to make defense, control the proceedings, examine and cross-examine witnesses, and appeal from the judgment.

partition A proceeding the object of which is to enable those who own property as joint tenants or tenants in common to put an end to the tenancy so as to vest in each a sole estate in specific property or an allotment of the lands and tenements. If a division of the estate is impracticable, the estate ought to be sold and the proceeds divided.

partners The owners of a partnership.

partnership A form of business organization; specifically, an association of two or more persons to carry on a business as co-owners for profit.

partnership agreement A formal written contract between the partners of a partnership that states the rights and the responsibilities of the partners.

partnership at will A partnership whose partnership agreement does not specify any term or undertaking to be accomplished.

partnership by estoppel See *purported partnership*.

partnership interest A partner's ownership interest in a partnership which embodies the partner's transferable interest and the partner's management and other rights.

partner's transferable interest In partnership law, a partner's share of the partnership's profits and losses and right to receive partnership distributions.

party to be charged The person against whom enforcement of a contract is sought; the person who is asserting the statute of frauds as a defense.

par value An arbitrary dollar amount assigned to shares by the articles of incorporation, representing the minimum amount of consideration for which the corporation may issue the shares and the portion of consideration that must be allocated to the stated capital amount.

patent A patent for land is a conveyance of title to government lands by the government; a patent of an invention is the right of monopoly secured by statute to those who invent or discover new and useful devices and processes.

patentee The holder of a patent.

pawn A pledge; a bailment of personal property as security for some debt or engagement, redeemable on certain terms, and with an implied power of sale on default.

payee A person to whom a payment is made or is made payable.

pecuniary Financial; pertaining or relating to money.

pendente lite During the litigation.

per capita A distribution of property in which each member of a group shares equally.

per curiam By the court as a whole, without an opinion signed by a particular judge.

peremptory challenge A challenge to a proposed juror that a defendant may make as an absolute right, and that cannot be questioned by either opposing counsel or the court.

perfection The process or method by which a secured party obtains a priority in certain collateral belonging to a debtor against creditors or claimants of a debtor; it usually entails giving notice of the security interest, such as by taking possession or filing a financial statement.

performance The fulfillment of a contractual duty.

periodic tenancy The tenancy that exists when the landlord and tenant agree that rent will be paid in regular successive intervals until notice to terminate is given but do not agree on a specific duration of the lease. A typical periodic tenancy is a tenancy from month to month.

perjury The willful and corrupt false swearing or affirming, after an oath lawfully administered, in the course of a judicial or quasi-judicial proceeding, as to some matter material to the issue or point in question.

per se In itself or as such.

personal property All objects and rights, other than real property, that can be owned. See *real property*.

per stirpes A distribution in which each surviving descendant divides the share that his or her parent would have taken if the parent had survived. Also called *by right of representation*.

petition In equity pleading, a petition is in the nature of a pleading (at least when filed by a stranger to the suit) and forms a basis for independent action.

petition (bankruptcy) The document filed with the appropriate federal court that initiates a bankruptcy proceeding. It may be either a voluntary petition (i.e., filed by the debtor) or an involuntary petition (i.e., filed by creditors).

piercing the corporate veil Holding a shareholder responsible for acts of a corporation due to a shareholder's domination and improper use of the corporation.

plaintiff The party who sues in a civil case.

plaintiff in error The unsuccessful party to the action who prosecutes a writ of error in a higher court.

plea A plea is an answer to a declaration or complaint or any material allegation of fact therein that, if untrue, would defeat the action. In criminal procedure, a plea is the matter that the accused, on his arraignment, alleges in answer to the charge against him.

pleadings The documents the parties file with the court when they state their claims and counterarguments early in a civil case. Examples include the complaint and the answer.

pledge A pawn; a bailment of personal property as security for some debt or engagement, redeemable on certain terms, and with an implied power of sale on default.

pledgee A person to whom personal property is pledged by a pledgor.

pledgor A person who makes a pledge of personal property to a pledgee.

police power The states' power to regulate to promote the public health, safety, morals, and welfare.

positive law Laws actually and specifically enacted or adopted by proper authority for the government of a jural society as distinguished from principles of morality or laws of honor.

possession Respecting real property, exclusive dominion and control such as owners of like property usually exercise over it. Manual control of personal property either as owner or as one having a qualified right in it.

postdated check A check dated with a date later than its date of issue.

power of attorney A written authorization by a principal to an agent to perform specified acts on behalf of the principal. See *attorney-in-fact*.

precedent A past judicial decision relied on as authority in a present case.

preemptive right A shareholder's option to purchase new issuances of shares in proportion to the shareholder's current ownership of the corporation.

preference The act of a debtor in paying or securing one or more of his creditors in a manner more favorable to them than to other creditors or to the exclusion of such other creditors. In the absence of statute, a preference is perfectly good, but to be legal it must be bona fide, and not a mere subterfuge of the debtor to secure a future benefit to himself or to prevent the application of his property to his debts.

preferential Having priority.

preferred shareholders Shareholders who have dividend and liquidation preferences over other classes of shareholders, usually common shareholders.

prenuptial contract A contract between prospective marriage partners respecting matters such as property ownership and division.

preponderance Most; majority; more probable than not.

prerogative A special power, privilege, or immunity, usually used in reference to an official or his office.

presentment A demand for acceptance or payment of a negotiable instrument made on the maker, acceptor, drawee, or other payor by or on behalf of the holder.

presumption A term used to signify that which may be assumed without proof, or taken for granted. It is asserted as a self-evident result of human reason and experience.

pretermitted In the law of wills, an heir born after the execution of the testator's will.

prima facie At first sight; a fact that is presumed to be true unless disproved by contrary evidence.

prima facie case A case sufficiently strong that, unless rebutted by the defendant in some fashion, it entitles the plaintiff to recover against the defendant.

principal In agency law, one under whose direction an agent acts and for whose benefit that agent acts.

priority Having precedence or the better right.

privilege Generally, a legal right to engage in conduct that would otherwise result in legal liability. Privileges are commonly classified as absolute (unqualified) or conditional (qualified). Occasionally, privilege is also used to denote a legal right to refrain from particular behavior (e.g., the constitutional privilege against self-incrimination).

privity of contract The existence of a direct contractual relation between two parties.

probate A term used to include all matters of which probate courts have jurisdiction, which in many states are the estates of deceased persons and of persons under guardianship.

procedural law The body of law controlling public bodies such as courts, as they create and enforce rules of substantive law. See *substantive law*.

proceeds Whatever is received on the sale, exchange, collection, or other disposition of collateral.

process Generally, the summons or notice of beginning of suit.

proffer To offer for acceptance or to make a tender of.

profit An interest in land giving a person the right to enter land owned by another and remove natural resources (e.g., timber) from the land. Also called *profit à prendre*.

promisee The person to whom a promise is made.

promisor A person who makes a promise to another; a person who promises.

promissory estoppel An equitable doctrine that protects those who foreseeably and reasonably rely on the promises of others by enforcing such promises when enforcement is necessary to avoid injustice, even though one or more of the elements normally required for an enforceable agreement is absent.

promissory note Commercial paper or instrument in which the maker promises to pay a specific sum of money to another person, to his order, or to bearer.

promoter A person who incorporates a business, organizes its initial management, and raises its initial capital.

property Something that is capable of being owned. A right or interest associated with something that gives the owner the ability to exercise dominion over it.

pro rata Proportionate; in proportion.

prospectus In securities law, a document given to prospective purchasers of a security that contains information about an issuer of securities and the securities being issued.

pro tanto For so much; to such an extent.

proximate cause A legal limitation on a negligent wrongdoer's liability for the actual consequences of his actions. Such wrongdoers are said to be relieved of responsibility for consequences that are too remote or not the proximate result of their actions. Various tests for proximate cause are employed by the courts.

proxy A person who is authorized to vote the shares of another person. Also, the written authorization empowering a person to vote the shares of another person.

pseudoforeign corporation A corporation incorporated under the laws of a state but doing most of its business in one other state.

publicly held corporation A corporation owned by a large number of widely dispersed shareholders.

punitive damages Damages designed to punish flagrant wrongdoers and to deter them and others from engaging in similar conduct in the future.

purchase money security interest A security interest that is (1) taken or retained by the seller of collateral to secure all or part of its purchase price or (2) taken by a debtor to acquire rights in or the use of the collateral if the value is so used.

purported partnership The appearance of partnership when there is no partnership; it arises when a person misleads a second person into believing that the first person is a partner of a third person; a theory that allows the second person to recover from the first person all reasonable damages the second person has suffered due to his reliance on the appearance of partnership.

put A type of option permitting a person to sell a fixed number of securities at a fixed price at a specified time. Compare *call*.

qualified acceptance A conditional or modified acceptance. In order to create a contract, an acceptance must accept the offer substantially as made; hence, a qualified acceptance is no acceptance at all, is treated by the courts as a rejection of the offer made, and is in effect an offer by the offeree, which the offeror may, if he chooses, accept and thus create a contract.

quantum meruit As much as is deserved. A part of a common law action in assumpsit for the value of services rendered.

quash To vacate or make void.

quasi-contract The doctrine by which courts imply, as a matter of law, a promise to pay the reasonable value of goods or services when the party receiving such goods or services has knowingly done so under circumstances that make it unfair to retain them without paying for them.

quasi-judicial Acts of public officers involving investigation of facts and drawing conclusions from them as a basis of official action.

quiet title, action to An action to establish a claimant's title in land by requiring adverse claimants to come into court to prove their claim or to be barred from asserting it later.

quitclaim deed A deed conveying only the right, title, and interest of the grantor in the property described, as distinguished from a deed conveying the property itself.

quorum That number of persons, shares represented, or officers who may lawfully transact the business of a meeting called for that purpose.

quo warranto By what authority. The name of a writ (and also of the whole pleading) by which the government commences an action to recover an office or franchise from the person or corporation in possession of it.

R
ratification The adoption or affirmance by a person of a prior act that did not bind him.

real property The earth's crust and all things firmly attached to it.

rebuttal Testimony addressed to evidence produced by the opposite party; rebutting evidence.

receiver One appointed by a court to take charge of a business or the property of another during litigation to preserve it and/or to dispose of it as directed by the court.

recklessness Behavior that indicates a conscious disregard for a known high risk of probable harm to others.

recognizance At common law, an obligation entered into before some court of record or magistrate duly authorized, with a condition to do some particular act, usually to appear and answer to a criminal accusation. Being taken in open court and entered on the order book, it was valid without the signature or seal of any of the obligors.

recorder A public officer of a town or county charged with the duty of keeping the record books required by law to be kept in his or her office and of receiving and causing to be copied in such books such instruments as by law are entitled to be recorded.

redemption The buying back of one's property after it has been sold. The right to redeem property sold under an order or decree of court is purely a privilege conferred by, and does not exist independently of, statute.

redemption right Also called a call. In corporation law, the right of a corporation to repurchase shares held by existing shareholders.

redress Remedy; indemnity; reparation.

reformation An equitable remedy in which a court effectively rewrites the terms of a contract.

rejection In contract law, an express or implied manifestation of an offeree's unwillingness to contract on the terms of an offer. In sales law, a buyer's refusal to accept goods because they are defective or nonconforming.

release The giving up or abandoning of a claim or right to a person against whom the claim exists or the right is to be enforced or exercised. It is the discharge of a debt by the act of the party, in distinction from an extinguishment that is a discharge by operation of law.

remainderman One who is entitled to the remainder of the estate after a particular estate carved out of it has expired.

remand A process whereby an appellate court returns the case to a lower court (usually a trial court) for proceedings not inconsistent with the appellate court's decision.

remedy The appropriate legal form of relief by which a remediable right may be enforced.

remititur The certificate of reversal issued by an appellate court upon reversing the order or judgment appealed from.

reparation An investor's removal to the investor's nation of profits from his investment in a foreign nation.

replevin A common law action by which the owner recovers possession of his own goods.

repudiation Indicating to another party to a contract that the party does not intend to perform his obligations.

res The thing; the subject matter of a suit; the property involved in the litigation; a matter; property; the business; the affair; the transaction.

rescind As the word is applied to contracts, to terminate the contract as to future transactions or to annul the contract from the beginning.

rescission The rescinding or cancellation of a contract or transaction. In general, its effect is to restore the parties to their original precontractual position.

residue Residuary; all that portion of the estate of a testator of which no effectual disposition has been made by his will otherwise than in the residuary clause.

res ipsa loquitur Literally, the thing speaks for itself. A doctrine that, in some circumstances, gives rise to an inference that a defendant was negligent and that his negligence was the cause of the plaintiff's injury.

res judicata A matter that has been adjudicated; that which is definitely settled by a judicial decision.

respondent superior A legal doctrine making an employer (or master) liable for the torts of an employee (servant) that are committed within the scope of the employee's employment.

respondent A term often used to describe the party charged in an administrative proceeding. The party adverse to the appellant in a case appealed to a higher court. In this sense, often synonymous with *appellee*.

Restatement(s) Collections of legal rules produced by the American Law Institute, covering certain subject matter areas. Although *Restatements* are often persuasive to courts, they are not legally binding unless adopted by the highest court of a particular state.

restitution A remedy whereby one is able to obtain the return of that which he has given the other party, or an amount of money equivalent to that which he has given the other party.

restrictive covenant An agreement restricting the use of real property.

reverse To reject or overturn a judgment or order of a court. An appellate court, for example, may reverse the decision of a trial court. See *affirm*.

revocation In general, the recalling or voiding of a prior action. In contract law, the withdrawal of an offer by the offeror prior to effective acceptance by the offeree.

right An interest given and protected by law. In corporation law, an option to purchase shares given to existing shareholders, permitting them to buy quantities of newly issued securities in proportion to their current ownership.

right of appraisal See *dissenter's rights*.

right of first refusal In corporation law, a share transfer restriction granting a corporation or its shareholders an option to match the offer that a selling shareholder receives for her shares. See also *option agreement*.

right of survivorship A feature of some types of co-ownership of property causing a co-owner's interest in property to be transferred on his death immediately and by operation of law to his surviving co-owner(s). See *tenancy by the entirety* and *joint tenancy*.

riparian Pertaining to water rights or situated on the bank of a river.

S

sale of goods The transfer of ownership to tangible personal property in exchange for money, other goods, or the performance of service.

sale on approval A conditional sale that is to become final only in case the buyer, after a trial, approves or is satisfied with the article sold.

sale or return A contract in which the seller delivers a quantity of goods to the buyer on the understanding that if the buyer desires to retain, use, or sell any portion of the goods, he will consider such part as having been sold to him, and that he will return the balance or hold it as bailee for the seller.

sanction The penalty that will be incurred by a wrongdoer for the violation of a law.

satisfaction A performance of the terms of an accord. If such terms require a payment of a sum of money, then satisfaction means that such payment has been made.

scienter In cases of fraud and deceit, the word means knowledge on the part of the person making the representations, at

the time when they are made, that they are false. In an action for deceit, scienter must be proved.

S corporation Also called *subchapter S corporation*. A close corporation whose shareholders have elected to be taxed essentially like partners are taxed under federal income tax law.

seal At common law, a seal is an impression on wax or some other tenacious material, but in modern practice the letters *l.s.* (*locus sigilli*) or the word *seal* enclosed in a scroll, either written, or printed, and acknowledged in the body of the instrument to be a seal, are often used as substitutes.

security An instrument commonly dealt with in the securities markets or commonly recognized as a medium of investment and evidencing an obligation of an issuer or a share, participation, or other interest in an enterprise.

security agreement An agreement that creates or provides a security interest or lien on personal property. A term used in the UCC including a wide range of transactions in the nature of chattel mortgages, conditional sales, and so on.

security interest A lien given by a debtor to his creditor to secure payment or performance of a debt or obligation.

service As applied to a process of courts, the word ordinarily implies something in the nature of an act or proceeding adverse to the party served, or of a notice to him.

set off That right that exists between two parties, each of whom, under an independent contract, owes an ascertained amount to the other, to calculate their respective debts by way of mutual deduction, so that, in any action brought for the larger debt, the residue only, after such deduction, shall be recovered.

settlor A person who creates a trust. Also called *trustor*.

severable contract A contract that is not entire or indivisible. If the consideration is single, the contract is entire; but if it is expressly or by necessary implication apportioned, the contract is severable. The question is ordinarily determined by inquiring whether the contract embraces one or more subject matters, whether the obligation is due at the same time to the same person, and whether the consideration is entire or apportioned.

share An equity security, representing a shareholder's ownership of a corporation.

share dividend See *dividends, share*.

shareholder Also called *stockholder*: An owner of a corporation, who has no inherent right to manage the corporation but has liability limited to his capital contribution.

share split Also called *stock split*. Traditionally, a corporation's dividing existing shares into two or more shares, thereby increasing the number of authorized, issued, and outstanding shares and reducing their par value. In modern corporation law, treated like a share dividend.

sight A term signifying the date of the acceptance or that of protest for the nonacceptance of a bill of exchange; for example, 10 days after sight.

sinking fund A fund established by an issuer of securities to accumulate funds to repurchase the issuer's securities.

situs Location; local position; the place where a person or thing is, is his situs. Intangible property has no actual situs, but it may have a legal situs, and for the purpose of taxation, its legal situs is at the place where it is owned and not at the place where it is owed.

slander The defamation action appropriate to oral defamation.

sole proprietor The owner of a sole proprietorship.

sole proprietorship A form of business under which one person owns and controls the business.

sovereign immunity Generally, the idea that the sovereign (or state) may not be sued unless it consents to be sued. In antitrust law, the statutory immunity from antitrust liability for governmental actions that foreign governments enjoy under the Foreign Sovereign Immunities Act of 1976.

special damages Actual damages that would not necessarily but because of special circumstances do in fact flow from an injury.

specific performance A contract remedy whereby the defendant is ordered to perform according to the terms of his contract.

stale check A check more than six months past its date of issue.

standby letter of credit The seller's bank promises to pay the buyer if the seller defaults on his contract to deliver conforming goods.

standing The legal requirement that anyone seeking to challenge a particular action in court must demonstrate that such action substantially affects his legitimate interests before he will be entitled to bring suit.

stare decisis A doctrine whereby a court is said to be bound to follow past cases that are like the present case on the facts and on the legal issues it presents, and that are issued by an authoritative court.

stated capital Also called *capital stock*. A balance sheet account; shareholders' capital contributions representing the par value of par shares or stated value of no-par shares.

stated value An arbitrary dollar amount assigned to shares by the board of directors, representing the minimum amount of consideration for which the corporation may issue the shares and the portion of consideration that must be allocated to the stated capital account.

state implementation plan A document prepared by states in which the emissions to the air from individual sources are limited legally so that the area will meet the national ambient air quality standards.

status quo The existing state of things. In contract law, returning a party to status quo or status quo ante means putting him in the position he was in before entering the contract.

statute of frauds A statute that provides that no lawsuit may be brought to enforce certain classes of contracts unless there is a written note or memorandum signed by the party against whom enforcement is sought or by his agent.

statute of limitations A statute that requires that certain classes of lawsuits must be brought within defined limits of time after the right to begin them accrued or the right to bring the lawsuit is lost.

stipulation An agreement between opposing counsel in a pending action, usually required to be made in open court and entered on the minutes of the court, or else to be in writing and filed in the action, ordinarily entered into for the purpose of avoiding delay, trouble, or expense in the conduct of the action.

stock A business's inventory. Also, as used in corporation and securities law, see *share*.

stock dividend See *dividends, share*.

stockholder See *shareholder*.

stock split See *share split*.

stoppage in transitu A right that the vendor of goods on credit has to recall them, or retake them, on the discovery of the insolvency of the vendee. It continues so long as the carrier remains in the possession and control of the goods or until there has been an actual or constructive delivery to the vendee, or some third person has acquired a bona fide right in them.

stop-payment order A request made by the drawer of a check to the drawee asking that the order to pay not be followed.

straight voting A form of voting for directors that ordinarily permits a shareholder to cast a number of votes equal to the number of shares he owns for as many nominees as there are directors to be elected. See *cumulative voting*.

strict liability Legal responsibility placed on an individual for the results of his actions irrespective of whether he was culpable or at fault.

strike suit In corporation law, a derivative suit motivated primarily by an intent to gain an out-of-court settlement for the suing shareholder personally or to earn large attorney's fees for lawyers, rather than to obtain a recovery for the corporation.

subchapter S corporation See *S corporation*.

sub judice Before a court.

sublease A transfer of some but not all of a tenant's remaining right to possess property under a lease.

sub nom Under the name of.

subpoena A process for compelling a witness to appear before a court and give testimony.

subrogation The substitution of one person in the place of another with reference to a lawful claim or right, frequently referred to as the doctrine of substitution. It is a device adopted or invented by equity to compel the ultimate discharge of a debt or obligation by the person who in good conscience ought to pay it.

subscription In corporation law, a promise by a person to purchase from a corporation a specified number of shares at a specified price.

subsidiary corporation A corporation owned and controlled by another corporation, called a *parent corporation*.

substantive law The body of law setting out rights and duties that affect how people behave in organized social life. See *procedural law*.

sui generis Of its own kind, unique, peculiar to itself.

summary judgment A method of reaching a judgment in a civil case before trial. The standard for granting a motion for summary judgment is that there be no significant issue of material fact and that the moving party be entitled to judgment as a matter of law.

summary proceedings Proceedings, usually statutory, in the course of which many formalities are dispensed with. But such proceedings are not concluded without proper investigation of the facts, or without notice, or an opportunity to be heard by the person alleged to have committed the act, or whose property is sought to be affected.

summons A writ or process issued and served on a defendant in a civil action for the purpose of securing his appearance in the action.

superseding cause See *intervening cause*.

supra Above; above mentioned; in addition to.

surety A person who promises to perform the same obligation as another person (the principal) and who is jointly liable along with the principal for that obligation's performance. See *guarantor*.

T/A Trading as, indicating the use of a trade name.

tacking The adding together of successive periods of adverse possession of persons in privity with each other, in order to constitute one continuous adverse possession for the time required by the statute, to establish title.

takeover A tender offer; also applied generally to any acquisition of one business by another business.

tangible Having a physical existence; real; substantial; evident.

tariff A tax or duty imposed on goods by a nation when the goods are imported into that nation.

tax haven A nation that has no or minimal taxation of personal, business, and investment income.

tenancy General term indicating a possessory interest in property. In landlord-tenant law, a property owner's conveyance to another person of the right to possess the property exclusively for a period of time.

tenancy at sufferance The leasehold interest that occurs when a tenant remains in possession of property after the expiration of a lease.

tenancy at will A leasehold interest that occurs when property is leased for an indefinite period of time and is terminable at the will of either landlord or tenant.

tenancy by the entirety A form of co-ownership of property by a married couple that gives the owners a right of survivorship and cannot be severed during life by the act of only one of the parties.

tenancy for a term A leasehold interest that results when the landlord and tenant agree on a specific duration for a lease and fix the date on which the tenancy will terminate.

tenancy in common A form of co-ownership of property that is freely disposable both during life and at death, and in which the co-owners have undivided interests in the property and equal rights to possess the property.

tender An unconditional offer of payment, consisting in the actual production in money or legal tender of a sum not less than the amount due.

tender offer A public offer by a bidder to purchase a subject company's shares directly from its shareholders at a specified price for a fixed period of time.

testament A will; the disposition of one's property to take effect after death.

testator A deceased person who died leaving a will.

testimony In some contexts, the word bears the same import as the word *evidence*, but in most connections it has a much narrower meaning. Testimony is the words heard from the witness in court, and evidence is what the jury considers it worth.

thin capitalization In corporation law, a ground for piercing the corporate veil due to the shareholders' contributing too little capital to the corporation in relation to its needs.

third-party beneficiary A person who is not a party to a contract but who has the right to enforce it because the parties to the contract made the contract with the intent to benefit him.

title Legal ownership; also, a document evidencing legal rights to real or personal property.

tombstone advertisement A brief newspaper advertisement alerting prospective shareholders that an issuer is offering to sell the securities described in the advertisement.

tort A private (civil) wrong against a person or his property.

tortfeasor A person who commits a tort; a wrongdoer.

tortious Partaking of the nature of a tort; wrongful; injurious.

trade fixtures Articles of personal property that have been annexed to real property leased by a tenant during the term of the lease and that are necessary to the carrying on of a trade.

trademark A distinctive word, name, symbol, device, or combination thereof, which enables consumers to identify favored products or services and which may find protection under state or federal law.

trade secret A secret formula, pattern, process, program, device, method, technique, or compilation of information that is used in its owner's business and affords that owner a competitive advantage. Trade secrets are protected by state law.

transcript A copy of a writing.

transferee A person to whom a transfer is made.

transfer of partner's transferable interest A partner's voluntary transfer of her transferable interest to another person,

such as the partner's creditor, giving the transferee the right to receive the partner's share of distributions from the partnership.

transferor A person who makes a transfer.

treasury shares Previously outstanding shares repurchased by a corporation that are not canceled or restored to unissued status.

treble damages Three times provable damages, as may be granted to private parties bringing an action under the antitrust laws.

trespass An unauthorized entry on another's property.

trial An examination before a competent tribunal, according to the law of the land, of the facts or law put in issue in a cause, for the purpose of determining such issue. When the court hears and determines any issue of fact or law for the purpose of determining the rights of the parties, it may be considered a trial.

trust A legal relationship in which a person who has legal title to property has the duty to hold it for the use or benefit of another person. The term is also used in a general sense to mean confidence reposed in one person by another.

trustee A person in whom property is vested in trust for another.

trustee in bankruptcy The federal bankruptcy act defines the term as an officer, and he is an officer of the courts in a certain restricted sense, but not in any such sense as a receiver. He takes the legal title to the property of the bankrupt and in respect to suits stands in the same general position as a trustee of an express trust or an executor. His duties are fixed by statute. He is to collect and reduce to money the property of the estate of the bankrupt.

ultra vires Beyond the powers. In administrative law, it describes an act that is beyond the authority granted to an administrative agency by its enabling legislation. In corporation law, it describes a corporation's performing an act beyond the limits of its purposes as stated in its articles of incorporation.

unconscionable In contract law, a contract that is grossly unfair or one-sided; one that "shocks the conscience of the court."

undisclosed principal In agency law, a principal whom a third party lacks knowledge or the reason to know the principal's existence and identity.

unidentified principal In agency law, a principal whom a third party knows or has reason to know exists but who lacks knowledge or reason to know the principal's identity.

unilateral contract A contract formed by an offer or a promise on one side for an act to be done on the other, and a doing of the act by the other by way of acceptance of the offer or promise; that is, a contract wherein the only acceptance of the offer that is necessary is the performance of the act.

unliquidated Undetermined in amount.

usage of trade Customs and practices generally known by people in the business and usually assumed by parties to a contract for goods of that type.

usurpation In corporation law, an officer, director, or shareholder's taking to himself a business opportunity that belongs to his corporation.

usury The taking of more than the law allows on a loan or for forbearance of a debt. Illegal interest; interest in excess of the rate allowed by law.

valid Effective; operative; not void; subsisting; sufficient in law.

value Under the Code (except for negotiable instruments and bank collections), generally any consideration sufficient to support a simple contract.

vendee A purchaser of property. The word is more commonly applied to a purchaser of real property, the word *buyer* being more commonly applied to the purchaser of personal property.

vendor A person who sells property to a vendee. The words *vendor* and *vendee* are more commonly applied to the seller and purchaser of real estate, and the words *seller* and *buyer* are more commonly applied to the seller and purchaser of personal property.

venire The name of a writ by which a jury is summoned.

venue A requirement distinct from jurisdiction that the court be geographically situated so that it is the most appropriate and convenient court to try the case.

verdict Usually, the decision made by a jury and reported to the judge on the matters or questions submitted to it at trial. In some situations, however, the judge may be the party issuing a verdict, as, for example, in the motion for a directed verdict. See *directed verdict*.

versus Against.

vest To give an immediate fixed right of present or future enjoyment.

vicarious liability The imposition of liability on one party for the wrongs of another. Also called *imputed liability*. For example, the civil liability of a principal for the wrongs his agent commits when acting within the scope of his employment. See *respondeat superior*. Such liability is also occasionally encountered in the criminal context (e.g., the criminal liability that some regulatory statutes impose on managers for the actions of employees under their supervision).

void That which is entirely null. A void act is one that is not binding on either party and that is not susceptible of ratification.

voidable Capable of being made void; not utterly null, but annulable, and hence that may be either voided or confirmed. See *avoid*.

voidable title A title that is capable of, or subject to, being judged invalid or void.

voting trust A type of shareholder voting arrangement by which shareholders transfer their voting rights to a voting trustee.

W

waive To throw away; to relinquish voluntarily, as a right that one may enforce, if he chooses.

waiver The intentional relinquishment of a known right. It is a voluntary act and implies an election by the party to dispense with something of value, or to forgo some advantage that he or she might have demanded and insisted on.

warehouse receipt A receipt issued by a person engaged in the business of storing goods for hire.

warrant An order authorizing a payment of money by another person to a third person. Also, an option to purchase a security. As a verb, the word means to defend; to guarantee; to enter into an obligation of warranty.

warrant of arrest A legal process issued by competent authority, usually directed to regular officers of the law, but occasionally issued to private persons named in it, directing the arrest of a person or persons on grounds stated therein.

warranty An undertaking relating to characteristics of a thing being sold; a guaranty.

waste The material alteration, abuse, or destructive use of property by one in rightful possession of it that results in injury to one having an underlying interest in it.

watered shares Also called *watered stock*. Shares issued in exchange for property that has been overvalued. See *bonus shares* and *discount shares*.

will A document executed with specific legal formalities that contains a person's instructions about the disposition of his property at his death.

winding up In partnership and corporation law, the orderly liquidation of the business's assets.

writ A commandment of a court given for the purpose of compelling certain action from the defendant, and usually executed by a sheriff or other judicial officer.

writ of certiorari An order of a court to an inferior court to forward the record of a case for reexamination by the superior court.

wrongful use of civil proceedings An intentional tort designed to protect against the wrongful initiation of civil proceedings.

Get the most out of your Business Law course

The **Student Study Guide** ISBN 13: 978-007-3361796 ISBN 10: 0073361798 is available to help you study for tests and improve your understanding in this course. The study guide provides you with comprehensive chapter outlines, exercises for reviewing important terminology, critical thinking questions, and sample questions (with answers) to reinforce important concepts in the chapter. It also includes a detailed course outline to help you understand the bigger picture of how the Business Law topics in your course are related. These materials included for each of the chapters are a great resource for review and exam preparation.

The **Online Learning Center** (www.mhhe.com/mallor14e) is a one-stop shop for materials that will enhance your business law course. It includes chapter quizzes, professional resources and links to helpful material, a career center, news feeds related to Business Law topics, a Spanish-English legal terms glossary, access to the online articles of the Uniform Commercial Code, PowerPoint files, and critical thinking questions.

You Be the Judge Online video segments, which include 18 hypothetical business law cases. All of the cases are based on real cases from our Business Law texts. Each case allows you to watch interviews of the plaintiff and defendant before the courtroom argument, see the courtroom proceedings, view relevant evidence, read other actual cases relating to the issues in the case, and then create your own ruling. After your verdict is generated, view what an actual judge ruled (unscripted) in the case and then get the chance to defend or change your ruling.

Uniform Commercial Code

Returning for this edition, the most recent versions of Articles 2, 2A, 3, 4, 7, and 9 are included in Appendix B of the text to help you understand commercial transactions. This set of statutes designed to govern most commercial transactions helps clarify often misunderstood business and legal terms and equips you with knowledge to prepare these types of contracts.
